SCANNING THE WEEK'S NEWS of Main Street and the World
Truman Says He Knows 1952 Plans; Research Group Urges Higher Taxes

CONFIDENT HARRY—Harry S. Truman, appearing "fat and easy" as the home town folks would put it, was back in Washington after his three-week vacation in Florida for a round of activities which included greeting President Vincent Auriol of France, and a conference before Latin-American foreign ministers, meeting in Washington to discuss topics concerning western hemisphere peace and security.

But it wasn't confident Harry's speech making and social whirl that made the biggest headlines in the nation's press. It was his statement that he knew whether or not he would seek re-election in 1952 that drew Main Street voters into a surge of speculation. Mr. Truman told them blandly that he had made up his mind and he would tell "all in due time."

The statement also caused considerable speculation among professional politicians throughout the country, with the majority believing he won't run again. Remembering that Truman is no amateur politician himself, average Main Street voters had about equally divided in their speculation.

One government official, however, backed his belief with a public statement. Michael J. Galvin, undersecretary of labor, said Truman will run and will be re-elected by 56 per cent of the popular vote.

CONSUMER SPENDING—If it's the Committee for Economic Development, business's private research group, had its way the people of the home towns of the nation would face a \$10 billion tax increase next year.

The group recently proposed increasing federal taxes by that amount, including a federal sales tax. The program was frankly tailored to restraining consumer spending—by the sales tax and higher excise taxes, a surtax on individual incomes, tight restrictions on bank deposits, and encouragement of private savings.

According to the C.E.D. the small income group must pay because "it is these incomes that provide the largest part of consumption expenditures."

TWO YEARS OF DRIVE—Charles E. Wilson, top man of the administration's mobilization effort, in his first report said with two months left that the U. S. should be strong enough to give "reasonable safety against aggression" and a high-level civilian economy at the same time.

For the average American in the home towns of the nation, Wilson listed these necessary objectives: (1) Virtually every qualified young man, upon reaching a certain age, will have to serve in the armed forces; (2) everyone will have to pay more taxes; (3) people will have to wait for some of the things they want to buy—new housing and automobiles; (4) there will be dislocations in the economy and some production cut-backs and unemployment; (5) the technological and social progress of the nation will be slowed down.

Wilson also pointed out that the government must be able to control inflation. He said that the Main Street of America directly or indirectly depends on the government's control of the money supply. He said that the government must be able to control inflation. He said that the Main Street of America directly or indirectly depends on the government's control of the money supply.

As for present price controls, he said: "There is no doubt that, if price controls had not been on, prices would have risen much further and faster since January than they actually have."

BRANNAN'S PLAN—"The people of the great midwest farm belt were pondering the abrupt shake-up in the department of agriculture by Secretary Brannan. The shake-up began when Brannan suddenly announced the replacement of Ralph S. Tving and Frank K. Woolley in the powerful production and marketing administration.

The people of America's bread basket were wondering if the shake-up may mark the start of another campaign to sell the nation on the Brannan plan. The average midwest farmer has not been enthusiastic about the secretary's proposed program.

NEW SYSTEM—On April 30 grocery items comprising more than 60 per cent of the \$32 billion spent annually for food in this country will be under rigid margin controls at wholesale and retail levels.

Michael V. DiSalle, director of price stabilization, who announced the new controls, reported the immediate "impact of these regulations will be to reduce prices," but he warned the Main Street housewife not to expect big reductions.

Among the major foods covered in the new regulations are butter, packaged cheese, baby foods, cocoa, breakfast cereals, and tea. Also included are flour, four mixes, canned and frozen fruits and vegetables, jams and jellies, lard, mayonnaise and salad dressings, shortenings, canned meats and canned fish.

Items not covered are fresh milk and cream, fresh meats, bread, fresh fruits and vegetables, sugar, ice cream, soft drinks and candy, along with many less important foods and "specialty" items.

JAPANESE TREATY—"The 14 nations concerned with a peace treaty with Japan have received the American version worked out by Ambassador John Foster Dulles.

Generally regarded as a liberal document, the treaty appears in for considerable difficulties before being accepted by the 14 nations concerned. The Soviet Union has taken the position that it does not even want to discuss the matter.

Unexpected British opposition has already been encountered with Great Britain wanting a shipping limitation written into the treaty. The U. S. is opposed to any such clause.

As for the Soviet Union, the U. S. has indicated it will negotiate a treaty whether the Russians participate or not.

CLAY RESIGNS—The resignation of Gen. Lucius D. Clay as special assistant to Charles E. Wilson, director of the office of defense mobilization, was viewed by many observers as the possibility of future food shortages, particularly of meat.

The outbreak carries the threat of rigid rationing by next year.

ACCURACY—SPEED—DEPENDABILITY Tell the Story of JOHN DEERE Planter Leadership Like the expert marksman who consistently hits the bull's-eye, John Deere Tractor Corn Planters dependably find their target—deposit well-bunched, perfectly-checked hills even at 5 miles per hour! Higher speed John Deere Planters enable you to plant your corn in less time... get your crop in when ground and weather conditions are ideal for quick germination and rapid growth. You can check-plant up to 30 acres a day with the No. 290 Two-Row, shown above, or as much as 60 acres with the No. 495 Four-Row. Both operate with practically all row-crop tractors... can be used for checking, hill-dropping, or drilling. See us for complete details the next time you are in town.

IN MT. VERNON Saturday, April 21 This will be the first BIG DAY which Mt. Vernon merchants have been telling you about through the columns of this paper. THIS IS YOUR OPPORTUNITY TO RECEIVE VALUABLE PRIZES FROM THE MERCHANTS LISTED BELOW. This isn't the only Opportunity Day by any means. It is only the first one this year. Each Saturday afternoon until further notice The Mt. Vernon Boosters will give away valuable merchandise and other prizes and these will be days when you cannot afford to stay away from Mt. Vernon. The rules are practically the same as before and you are familiar with the manner in which the prizes are drawn. Many merchants will also have special bargains to offer on these days and special entertainment is being planned for the occasion. Remember, YOU CAN'T AFFORD TO STAY AWAY. All Mt. Vernon Retailers and Business Men are invited to participate. Please get tickets at the Bank of Mt. Vernon. 1951 BOOSTER LIST HILTON'S 5 & 10 BOSTON STORE CHANEY GROCERY BRYANT BROTHERS MT. County Agent's Notes

By Robert F. Spence

Spring Clean-Up Week
Spring Clean-Up Week, if not set by organizations, community or county should be set by individuals. A clean-up week should be observed by every home and every farm.

Cleaner Farms—Fewer Fires
Clean up your farm today so it won't burn tomorrow! Now is the time to get rid of the winter's accumulation of trash and junk—in the barn, attic, basement and outbuildings.

If You Had A Fire
You would lose a large part of the savings represented by your investment in buildings—your insurance can cover only a part of present high rebuilding costs.

2 Your Farming Operations
would be upset the replacement of buildings is becoming more and more difficult, ma-

terials and labor harder and harder to get. You just can't afford to lose your buildings. They make up a large part of the value of your farm and their loss would cripple your earning capacity. Under restrictions you may not be able to replace buildings, tools, and machinery. Prevention is the best insurance—money will not buy replacements when they do not exist.

The Nation would lose that part of the productive capacity and inventory value which your farm represents. The conservation of our agricultural resources is even more essential now than before. Building materials are needed for war construction.

Spring Clean-Up Drive
Announcing its 1951 Spring Clean-Up Drive, the National Fire Protection Association

urged farmers to be thorough in eliminating winter accumulated fire hazards as a precaution to insure maximum production for national defense.

Endorsed by the U. S. Department of Agriculture and the State Agriculture Extension Service, the NFPA program this year emphasizes the theme that food is ammunition. The farm can still afford avoidable farm fire losses, says the NFPA, at a time when food reserves must be built up.

Participation in the Clean-Up Drive calls for removal of paper and other combustible materials accumulated in homes and farm buildings, together with careful inspection of buildings and equipment to uncover hidden fire hazards. Repairs and replacements are urged where necessary for fire safety.

Mt. Vernon 4-H Club Reports On Activities

The Mt. Vernon 4-H Club for the year 1950, had thirty-three members completing forty-eight projects.

Our club's net proceeds were \$60.65 gauged through the sale of cards and candy. We gave five dollars to the March of Dimes, ten dollars to Care, and took a trip to the Cincinnati Zoo. Some of our money was spent on refreshments at parties and on Christmas presents. We helped serve lunch to all who attended Rally Day and Achievement Day.

We had twelve members to produce \$990.53 worth of strawberries. Five of these members sold berries through our Strawberry Association and Cincinnati Market.

Our Club selected as their community project last spring, the care of our school ground. So during Clean-Up Week, with wheelbarrows and shovels we moved the cinders which had accumulated during the year, with them we filled up several large holes on the school ground and made level the parking space in front of the school building, where water stood in puddles. To have these cinders moved each year cost the school \$25.00 dollars.

We sent a boy to 4-H Camp as a Junior Leader and he did commendatory work. Three members from our club were chosen to attend Junior Week at Lexington, Ky. One of our boys took part in

a team demonstration of the "Soil Contour Cultivation" contest at Corbin, Ky., and won the district contest, which consisted of twelve counties. This made them eligible to enter the State Contest in Lexington, Ky. There they were placed in the red ribbon group.

We had a basketball team that was selected by Coach Jack Lawwell. They played several games with the future farmers. At the Agricultural Fair our members received thirty-four blue ribbons on their 4-H exhibits. At the Brothead Fair one member won a blue ribbon on his 4-H beef calf. Two of our boys exhibited beef calves in the district calf show at London and were in the blue ribbon group.

Out of five hundred boys in the county one of our boys, Otis Noe, was chosen the most outstanding boy for the year of 1950.

Our club held all its monthly meetings and several called meetings. We had four parties and two picnics. On Achievement Day we had eight members to be recognized as County Champions and twenty-six in the blue ribbon group.

One of our boys won the hog calling contest and received a spotted poland-china pig. We hope to make greater achievement in the coming year.

Oak Hill 4-H Club
Oak Hill had 17 members (12 girls and 5 boys) in the club last year, 15 of which finished their projects and turned in their records. Five of the girls entered their clothing in the County Rally in the spring. They won four blue ribbons and one red in this exhibit.

Two of our members entered their calves in the baby-beef fat calf show, at Corbin in the summer.

Four of our members attended the District 4-H Camp at London, Ky., in July.

We had eight club meetings during the year and we all worked hard to get our projects finished on time.

Twelve of our members were awarded blue ribbons at the County Achievement Day, last fall. Three members were given red ribbons.

longing to the Oak Hill 4-H Club, and hope to be champions in our district again.

The Climax 4-H members feel that we have had a very successful year in Club work. The most eventful year the club has ever had.

Mr. Dowdy organized our club and we had almost 100%

of the eligible students to join as members.

We elected our club officers at our first meeting selecting the boys and girls we thought would make the strongest leaders. They proved to be exactly what we had hoped they would be.

We had 15 members and these members started 18 projects

and completed 15 of them. On achievement day 10 of these members received blue ribbons for their years work in the club and one of our boys received the championship ribbon for popcorn.

Besides our meetings and project work periods we engaged in several other activities in (Continued on page four)

HADACOL Is Requested By Nurses

HADACOL Helps Folks Suffering Deficiencies of Vitamins B, B1, Nicotin and Iron.

Registered nurses, in increasing numbers, are showing a keen interest in HADACOL. Many of them are aware of the fact that it is being secured with this great modern medicine. Mrs. Lovett, a registered nurse, who is deficient in vitamins B, B1, and iron, says she has been taking HADACOL for several months. She says she feels fine since taking HADACOL. Her sister, who is a nurse, was taking a bottle of HADACOL. She says she feels fine since taking HADACOL. She says she feels fine since taking HADACOL. She says she feels fine since taking HADACOL.

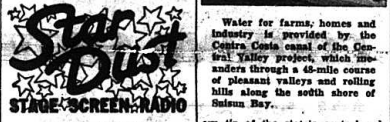

DO YOU HATE CHANGE OF LIFE? and HOT FLUSHES?
Do you suffer from hot flashes, nervous tension, upset stomach, or do you function less than you used to? (35-45 years)—that period when fertility ends and you may have a narrowing of the arteries. Lydia E. Pinkham's Compound helps build up resistance against this annoying middle-age distress. Truly the woman's friend!

Will we be ready?
The job of organizing our government must be finished immediately.

THE ANSWER DEPENDS ON YOU
If you want to help finish the important job of modernizing our government machinery, here's what to do. Send today for your free copy of the bipartisan booklet, "Will We Be Ready?" Write to: Hoover Report, Box 659, Philadelphia, Pa.

THIRSTY LAND California Canal Project Moves Water 500 Miles to Dry Farms

(This is the first of two articles on California's "water-damned" Central Valley project.)
A major milestone in civilized man's attempt to tame and control the fresh waters of the earth will be observed in California from August 1 to 10 with the first full, integrated operation of the initial features of the vast Central Valley project.

THE FICTION CORNER A CASE FOR THE KIDS

By O. F. Lathrop

SAM BROMLEY replaced the telephone with a cradle and a bed and reached for his broad-brimmed hat. "I'm going out on this case myself," he told the office girl. "That's the third call in an hour about these explosions and I don't seem to be doing a thing. The pavement just blew up over there."

"What do you mean, 'the pavement just blew up over there'?" asked the office girl. "I've got a culvert and broke five windows in the Wright Hatchery near Sunville." He stomped out and got into his car.

He had an uneasy feeling about these blasts and a very personal reason for investigating them himself. People in this town all over the county had been calling for the last twenty-four hours. And his son, Tommy, was missing.

"I thought the Noobhans had bombed us," old Ben Grubbs in Claremont had said. "Busted the sidewalk over the crack like eggshells."

"Sam drove to all the spots reported and inspected the damage. Sidewalks blew up, windows shattered, but not a clue. At the Sunville Hatchery he met his deputies.

HOUSEHOLD HINTS
If an oil lamp flickers a lot, pour a teaspoonful of salt into the base.

One of the handiest things for dusting a pleated lamp shade is a man's shaving brush.

To clean a parchment shade, rub it with a fresh piece of white bread or an art-gum eraser, or with a cloth dipped in milk. In any case, be sure to brace the inside of the shade with one hand while you rub with the other, or you may poke the rubbing hand right through.

Add some finely chopped spinach to pancake batter and make spinach pancakes. Serve with pot roast or as a vegetable. This is guaranteed to make spinach a favorite even amongst those hard to convert.

Chopped liver seasoned and mixed with bread crumbs and eggs makes a first rate main dish especially when the patties are wrapped in bacon and cooked with tomato sauce.

ROCKCASTLE FACTS AND STORIES

By RALPH GRIFFIN

A bit of explanation appears to be in order before we begin our next story. In fact, we might term it an apology. It has been the policy of this column since its inception, to avoid stories which might in any way embarrass people who are living today. If we avoid all family names of present day citizens, however, many good stories will never appear in print.

Some must be passed up, regretfully, but others are borderline cases which we should be able to tell without giving offense to anyone, even tho it is necessary to use the family names of highly respected people who are now living. Breathe a brief prayer for fact we shall proceed to stick out our neck.

The story which we are about to begin, will have to be continued over several weeks. Notes were taken for the first part of the story from an account which was printed in the Courier Journal many years ago. Mr. Meshach Gentry owned the clipping at the time but it was later lost, so we cannot give more definite credit. The latter part of the story was told to your correspondent by the late J. S. "Tip" Langford who gave us permission to quote him.

Let it be remembered that our forebears of two and three decades ago lived under conditions quite different from those prevailing today. Many of them lived and died violently and it was considered no disgrace for a man to die with his boots on. In fact, it was considered just a bit sissy to die in bed.

In our own immediate family there was plenty of shooting and killing, both pro and con, much later than the events which are about to be related. Since the same is true of most of our county families, let us try to proceed without fear of embarrassment to anyone.

Bob Bethuram had been shot and killed by Sheriff Walter Saunders. The handsomest man in Lincoln county. The circumstances leading up to the killing are immaterial to this story. Suffice it to say that the

Homemakers Meet
 With Mrs. Asbil Brown
 The Quail Homemakers Club met at the home of Mrs. Asbil Brown, April 11. The lesson on upholstery was enjoyed by seven members and Mrs. George Brooks of Broaddhead. The next meeting will be May 10 at Mrs. H. F. Gentry's home.

Mrs. Logan Bryant spent Saturday night and Sunday with her mother, Mrs. Sibba Davis and Mr. and Mrs. Casper Owens.

The little daughter of Mr. and Mrs. Jesse Taylor, who has been ill, is better at this writing.

Mrs. Alice Hiatt spent last week with Mr. and Mrs. J. S. Craig and sons.

Mr. Chester Wilson of Ohio and Mr. and Mrs. Elmer Ponder and family visited Mr. and Mrs. Russell Albright Sunday.

Several from here attended the funeral of Mr. Ed Harness at Brown last Tuesday.

Mr. Billy Ponder spent a few days last week with his grandparents, Mr. and Mrs. Russell Albright.

killing occurred in Stanford and that the body lay all day in the courthouse, upon rough boards, until friends and relatives came from Rockcastle to claim it.

From that day there was enmity between Saunders and Jim Bethuram, brother of Bob and a citizen of Rockcastle. Some eighteen months elapsed and the two had never met. Saunders term of office had expired and he became proprietor of a hotel at Crab Orchard. Threatening notes had been exchanged between the two men, as well as messages. Each told what he would do to the other, should they ever meet.

Then a crime was committed in Rockcastle. Four men were said to have broken into the home of a respected farmer. They beat and tortured the elderly man and his wife until they surrendered their life savings. Having been robbed the old folks were ordered to leave the state immediately, as they were "undesirable to law and order." The assailants were described as having been disguised with masks and sheets, so that the victims were unable to identify them.

Some few days following this occurrence three rough looking strangers rode up to the door of Saunders' hotel and tied their horses to the hitching rail out front. They sauntered into the bar took seats in a far corner of the room and ordered numerous drinks within the next hour. When they got ready to leave the leader stepped up to the counter and threw down a twenty-dollar gold piece.

Saunders' suspicions had already been aroused by the actions of the trio; the gold confirmed his belief that these men were members of the gang which was wanted in Rockcastle for the recent robbery. He called the sheriff and the sheriff covered the men with two pistols, disarmed them and sent for the town marshal. Later he and the marshal escorted the men to Mt. Vernon, where they were charged and jailed, to wait an examining trial.

The entries were made under the date October 20th, 1877. (to be continued)

Mrs. Alice Hiatt visited Mrs. Jim Sutton and Mrs. Ben Riddle last Friday.

Mr. and Mrs. Charles Casey and son of Louisville recently visited her parents, Mr. and Mrs. Russell Albright.

Mr. Gillis Brown has been ill with measles.

Mr. Sherman Mink and Mrs. Lula Taylor and family were in Somerset Monday.

Word has been received that Pvt. Willard Brown has arrived in Japan after flying over from Alaska.

4-H REPORTS

(Continued from page two)
 October of last year our members visited Mr. Nathan Mullins barn one afternoon to witness a tobacco stripping exhibition. This proved very helpful to the boys because most of them will be more able to help with the tobacco after such a fine demonstration.

During the harvesting sea-

son we visited several of the fields near the school to see the harvesting of certain crops. We had nature hikes once each month during the summer and fall months studying rocks, trees, and plant life in our immediate neighborhood, and to top off our club year, Miss Reynolds our general leader, invited all the young people in the community to a get-together at the school building, there were 28 present, we played games, sang and had refreshments which were prepared and served by the 4-H girls. We have enjoyed our past year in the club and we hope this year proves to be more successful than the last.

Livingston 4-H Club
 The Livingston 4-H Club was organized January 16, 1950. The following officers were elected: Bobby McNutt, president, Allen Mullins, vice-president, and Verma Mae Kelley, secretary. Lois Kirby and Joyce Martin were selected for our song leaders. Verma Mae Kelley, Joyce Martin and Pauline Kelley were named for our cheer leaders. Mae Mullins was 4-H club reporter.

Our General Leader was Mrs. Pearl Bullock, the assistant was Leonard Bullock. Project leaders for the girls were Mrs. Lela Taylor and Mrs. Jane Smith. Mrs. Bullock assisted with the boys.

Our regular monthly meeting date was the second Tues-

day of each month. Twenty club members and two leaders from the Livingston Club attended 4-H club Rally Day in May. Our girls exhibited their sewing and received many ribbons on their work. A number of our members attended the county agricultural fair in October. Twenty members entered exhibits at the fair. Total premium money

won by the club members was \$9.75. We won first prize on our Secretary's book too. Seventy Livingston 4-H Club members completed their projects in 1950. The following were selected as county champions: Bradley Baker, Pig Growing, Mary Anna Stalls-worth, Clothing 2 and Pauline Kelley, Personal Appearance. Twenty-three other members

were in the blue ribbon group. We had two socials last year that we enjoyed very much. One was a Valentine party and the other was a Halloween party. We have organized our club for 1951 and have a total of 87 members. We hope to have a better club this year and live up to our club motto "Make the Best Better."
