

County Agent's Notes

By Robert F. Spence

Poultry Pointers

The time is here again for housing of pullets. It is also time to prepare for maximum egg production during months of high egg prices.

The first thing to do is get the house ready. That means time to prepare for maximum egg production during months of high egg prices. Never mix old hens and pullets or you'll multiply your disease troubles. After the old birds are gone, clean the house. Be sure to do a thorough job. Clean out the litter, sweep out the cobwebs, scrape the dried droppings down to the wood and sweep again. Scrub first with water, then with hot water and lye, then spray with a good disinfectant. Be sure the surface is clean before spray-

ing. No disinfectant is any good over caked dirt. Check up on your equipment to be sure it is in good shape. Make repairs when necessary. Be sure you have enough feeders, waterers, and nests. Shortages in any of these can cut down on your production.

When you house your birds, be gentle. Work in the cool of the day and don't excite the birds more than you can help. Hot excited birds don't lay well. Don't crowd your birds too much. In groups up to 100 it is better to allow four square feet per bird. In bigger houses, groups of 300 or more, you may find that three square feet per bird is enough. If you bought January or

birds are probably laying well by now. If you have such birds wash egg production and feed consumption closely and be on the lookout for neck molt. These are warning signals that birds are going off their feed. They will drop in production and may go into complete molt. The remedy is to increase feed consumption by the use of pellets, wet mash, or both. To ignore these signals means that you'll be keeping chickens instead of chickens keeping you. Early hatched birds can be real profit-makers, but feed consumption must be kept up for the birds to lay during high-profit months.

Poultry Record Books
Poultry raisers can get the regular annual poultry calendar at the county agent's office by calling for it. This poultry calendar has a place for keeping a complete record of flock

for each month in the year along the line of management, feeding, etc.
Call at the county agent's office and get your copy free.

WABD

Pvt. Kenneth Bullock spent a few days furlough with his parents, Mr. and Mrs. C. H. Bullock.

Mrs. Homer Scott and children, Cartha Jean and J. M., returned home last week from a two-weeks' visit in Owensboro and Morgantown.

Mr. and Mrs. Jack DeBorde Jr. were week-end guests of her mother, Mrs. Bessie Cuming.

Cpl. and Mrs. Jessie Lee McClure of Elizabethtown spent the week-end with their parents.

Farmicals

Sponsored by KESSLER JEWELERS, Richmond, Ky.

The Game and Fish Commission gave the coter hunters a break at their last meeting. During the month of November coons and possums may be taken with dogs only. This period is meant primarily as a month in which the coon hunter may train his dogs. The regular season for fur-bearing animals opens December 1 and continues through January 31.

To obtain a state hunting or trapping license a person must have been a resident of this state for not less than a year. He must have an established residence and be registered to chase a non-resident. Persons over 65 are exempt but must have on their person an affidavit or a birth certificate.

Trappers over 18 must have license to trap on their own property. Individual traps must be tagged with their owners' names on them.

Doves may not be killed with ball ammunition. Only shot-guns may be used. For any type hunting the shotgun must be plugged so that it will hold no more than three shells including the barrel. This does not apply to rifles.

It is unlawful to kill any bird except stinging insect species, great horned owl, sharp-shinned hawk or cooper's hawk. A non-resident of Kentucky must have license to hunt on his own property. A fishing hunting license must be used to take frogs.

HOME AGENT'S NOTES

Lella W. Jumper
Home Demonstration Agent
District Clothing Training

Seven clothing leaders and the home agent attended the District Training meeting on Consumer Education and Clothing Care, Friday, Aug. 31, at London, Ky.

Miss Dorothy Threlkeld, clothing specialist, Extension Service, University of Kentucky, directed the meeting. She gave many helpful suggestions in buying clothing for the family to help save money et to be well dressed, and she stressed buying fall and winter clothing.

Mrs. Tom Moore returned to their home Saturday night from Hamilton, O.

There will be a revival beginning September 10 at 7 p.m. at the Conway Baptist church. Bro. Ross of Richmond will do the preaching. Everyone invited.

Leon Chandler over the week-end. Mrs. Chandler accompanied them home for a visit of a few weeks.

The interior of the **ETAON CITY SCHOOLS POSTPONED**. The Mt. Vernon Schools will not open until Monday, Sept. 10 because of postponement, due to the polio epidemic.

Fall Pasture Crops Help Stretch Grazing Season, Cut Feed Cost

RYE, winter wheat and other winter small grains can help you stretch the pasture season this year, give your beef and dairy cattle extra grazing days and cut down costly feed bills.

These special fall crops should be planted early enough to produce good growth. Says the Middle West Soil Improvement Committee. They should be planted in grain fields not used for legume-grass mixtures.

Adding fertilizer with the seed will get the rye up fast, give you good pasture during the fall and help the crop survive severe weather this winter. Agronomists recommend using a complete fertilizer containing nitrogen, phosphate and potash at seeding time.

The Middle West Soil Improvement Committee suggests two other steps for making pasture pay maximum returns this fall:

1—Topdress and graze permanent pastures with a complete fertilizer to give fast recovery after the summer heat.

2—Add plant nutrients and grass seed meadows that will be plowed for corn next spring.

A topdressing in the spring of nitrogen, of a nitrogen, phosphate and potash fertilizer will spur the growth of pasture grasses and legumes. It will enable you to get cattle out on the fields earlier and reduce expenses of barn feeding.

NEGRO CREEK

D. B. Chandler, Mr. and Mrs. Leon Chandler and Bill Carson were at Disputanta Monday to attend the funeral of Mrs. W. G. Mullins.

Herbert Proffitt of Fostoria, O. visited relatives here last week.

Mrs. Rose Marlowe and children of Irvine visited Mr. and Mrs. Earl McBee Sunday.

SHOPPER'S CORNER

By DOROTHY BARCLAY

HOW GOES YOUR LAUNDRY?

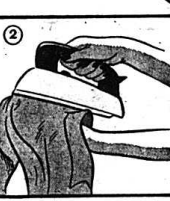

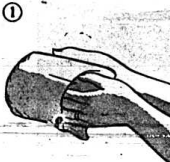

WANT to save time? So much to do, and so little time to do it! Sounds almost like that old daily refrain—So much to buy, and so little money to buy 'em, doesn't it?

Of course, for the time you need it, the budget every bit as much as money. And any time-saver is smart economy!

Why not start with that Monday habit, the family "washing" in your laundry room and convenient are your washer, dryer and ironer, your ironing board, your clothes rack and hangers all in the same room, exclusively devoted to Monday's child? Perhaps you haven't that to use laundry that Good Housekeeping Magazine is showing in its newly-opened Home Laundry Center. But most of you will either a utility room. These, too, have a place in Good Housekeeping's show.

ON LINE BY NINE

When the washing's done, shake well before hanging, and keep as straight as you can. This will save you lots of time when it comes to ironing. With a weather break, it won't get any longer than clear off the line, folding carefully as you set them for later ironing. And don't roll 'em too tight—makes wrinkles which cost you extra time at your board.

THAT MAN'S SHIRT Your best work is of course devoted to that man of yours, but that needn't mean it takes the most time. Seven minutes to a shirt is a record worth shooting at!

One big time-saver is a simple thing you can pick up at the notions counter of your favorite store—a "shoulder ham" for those yokes and shoulders that seem never to reach perfection. This padded cap fits slips over the palm of your left into the shoulder, and held slightly above the board as you iron, reaches the trick so you won't have to go over it again.

Van, Texas, Gets First Weekly Science World War VAN, Texas.—The newly launched Van Chronicle marks the return of a newspaper to this community for the first time since World War II, when the Van Banner suspended publication.

HOUSEHOLD MEMOS

Variety Pancakes Make Main Dish or Dessert For Lunch or Supper

FEEL LIKE WHIPPING up a batch of pancakes and tossing them on the griddle? You'll have fun and so will the folks who sit down to eat them.

There's more to pancakes than just making them plain and serving with butter and syrup, as is customary for breakfast. They go nicely for a family or company luncheon or supper when they're dressed in a bit with foods to make them richer for the hostess.

Plain pancakes which are sprinkled with shredded cheese after baking. Try them with creamed mushrooms and a mound of asparagus.

Creamed Mushrooms with Mushrooms (Serves 6)

- 1/2 pound mushrooms
1/4 cup butter
1/2 cup flour
2 cups milk
Salt to taste

Clean and slice mushrooms. Melt butter in skillet, add mushrooms and cook covered, stirring occasionally, until mushrooms are tender, about 15 minutes. Add flour and stir until blended. Add milk and stir constantly until sauce boils and thickens.

Mix salt and place over boiling water until ready to use.

Pancakes:

- 3 cups all-purpose flour
1 teaspoon salt
4 teaspoons baking powder
4 eggs
1/2 cup milk
1/2 cup melted butter
2 cups shredded cheese

Sift flour, measure, sift with salt and baking powder. Beat eggs thoroughly in large mixing bowl; add milk and melted butter. Add dry ingredients all at once and beat until batter is smooth. Bake on a lightly greased griddle, allowing about 1/2 cup batter for each cake. Bake until golden brown on one side; turn and brown on the other side. Turn only once. Arrange hot cakes on cookie sheet or platter with cheese sprinkled between them and keep hot in a warm oven. When ready to serve, top with a pat of butter and serve with hot creamed mushrooms.

Corn Cakes (Makes 24 cakes)

- 2 cups flour
2 teaspoons salt
1 1/2 teaspoons sugar
3 teaspoons baking powder
1/2 cup melted butter
1/4 cup rice milk
2 tablespoons butter, melted
1 egg, well beaten

Sift flour, measure, then sift with salt, sugar and baking powder in a screen. Cook until firm enough to roll. Slip pancake from skillet onto a clean cloth; spread with jam and pears and roll.

IF YOU MAKE your own soup

Stacks of rich pancakes topped with butter pat, floating in a cream and milk, add to dry ingredients and beat only until smooth. Stir in melted butter, cream. Bake on griddle until golden brown on both sides, turning only once.

Stacks of rich pancakes topped with butter pat, floating in a cream and milk, add to dry ingredients and beat only until smooth. Stir in melted butter, cream. Bake on griddle until golden brown on both sides, turning only once.

LENN SAYS: Don't Let Spoilage Spoil Your Eggs A good place for eggs is the vegetable crisper; if you have the foam. Eggs should be covered as their shells are porous and therefore evaporate easily.

THE BIBLE SPEAKS

Why Is the Church?

Lesson for September 3, 1951

WHAT use is the church? What difference would it make if it were disbanded?

A woman bought a vacuum cleaner on trial, but after using it a while she decided it wasn't any better than the old-fashioned carpet-sweeper and she sent for the man to take it out. So, then take a similar step if you are around, he discovered that she had then "well the church."

Dr. Foreman still in the box; she had never found out what they were good for and so she never realized how useful it is. It is something like that with the church. It has many uses which are seldom discovered.

THE Church

WHE main and most important feature of the church is that it is a fellowship. This should be far more, far deeper, than a mere label.

One rarely-used function of the church was suggested by Jesus in a parable which is the first thing to do is to settle it between yourselves. If that will not do, then take a matter up with you and see if a small group can reach agreement. If not then "well the church."

Common Treasury Some weeks ago it was suggested here that in some communities the church sees to it that no member is a quarrelsome person. It is also a fact that in some congregations either a committee of interested members of the church who had differences which would ordinarily be taken into court, were encouraged to work out their own solutions for help—wouldn't some quarrels, that now reach the courts, never get that far?

FRUIT PANCAKES make a tempting and filling dessert when the meal has been light:

- 3 eggs
6 tablespoons milk
1 teaspoon flour
1/2 cup sugar
4 teaspoons butter
1/2 cup blackberry jam

Beat eggs until foamy; add milk, flour, salt and sugar. Beat well. Mix 1/2 cup sugar, butter in pinch skillet, sitting to cover bottom entirely. Pour 1/4 of the egg mixture into hot skillet, covering surface evenly. Cook until firm enough to roll. Slip pancake from skillet onto a clean cloth; spread with jam and pears and roll.

Swedish Pancakes (Serves 6)

- 3 eggs
1/2 cup milk
1 1/2 cups sifted flour
1 tablespoon sugar
1/2 teaspoon salt
1/2 cup cream
2 tablespoons melted butter
3 cups berry sauce

Beat eggs until very light. Add half the milk and fold in flour sifted with sugar and salt. Add cream, butter and remaining milk. Bake in large cakes on a hot griddle. Place 2 tablespoons of sauce on each pancake. Sprinkle with confectioner's sugar and serve with berry sauce, use canned or cooked berries, sweetened to taste and thickened with an amount of cornstarch mixed with water.

Leafy vegetables all do best with moist cold. Crispings pans are ideal for these as are sealed vegetable bags or moisture-proof wrappings such as aluminum foil or plastic bags.

FIRST AID to the AILING HOUSE

Question: Several times I have plastered bad parts of rooms and each time, try though I may, cracks appear in the plaster upon drying. I have tried retarding the drying, wetting the lath, but to no avail. Can you help me? Also, please tell me how to mix this plaster and in what proportion?

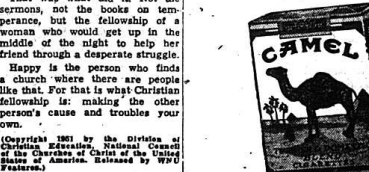

Answer: If you are not trying to replaster an entire room, merely to patch up some cracks or other bad places, I advise you to get a prepared patching plaster which needs only to be mixed with water to make a paste. This is stronger than plaster of Paris, which hardens too rapidly to be easily worked. (Glus dissolved in the mixing water will slow the time of hardening; so will vinegar, mixed half and half with the water.) If the patching job has been done correctly and cracks reappear, particularly a round window and door openings, it is possible that structural weakness is the cause. If so, the defect should be located and corrected.

Question: My husband is remodeling the kitchen, using tile-board for the ceiling. The bath room is directly above. Whenever water is spilled on the floor it leaks down into the kitchen. We have tried caulking around the fixtures, with little success. What can we do about it?

Answer: The bathroom should have a good waterproof floor covering, such as asphalt tile, or asphalt tile or linoleum. Until you do this, you will continue to have leaks.

ACCORDING TO A SURVEY OF DOCTORS IN EVERY BRANCH OF MEDICINE... IN ALL PARTS OF THE WORLD...

More Doctors Smoke CAMELS than any other cigarette!

He Found Out How did your father know we used this car yesterday? Well, you know that fat guy we ran into? Yes. That was father.

Got The Point What happened, George? Functure. You should have warned out for it. The guidebook warned out there was a fork in the road about this point.

Housework Easy Without Naggng Backache When kitchen function slows down, many folks complain of nagging backache, loss of energy, headache, nervousness. Don't suffer longer with these discomforts! Instead, discover the pleasure of getting your work done with ease and comfort. Doan's Backache Remedy is the name of the game. It's the name of the game. It's the name of the game. HADACOL RELIEVES THAT TIRED FEELING, SAYS MR. HARRY ADKINS OF CALIFORNIA

HADACOL Helps Folks With Tired, Run-Down Conditions When Due to Deficiencies of Vitamins B1, B2, Niacin and Iron

Mr. Harry Adkins, who lives at 6242 Vesper Drive, Van Nuys, California, says he used to feel tired and run-down at the end of a day's work. Now most everybody has to work these days, but it's not necessary to feel tired and run-down at the end of a day's work. HADACOL can help if you feel tired and run-down when due to a deficiency of Vitamins B1, B2, Niacin and Iron in the system. HADACOL makes it possible to feel better. It no longer felt tired after a day's work—just seemed to have "more energy."

HADACOL makes it possible to feel better. It no longer felt tired after a day's work—just seemed to have "more energy."

AND EVEN MORE IMPORTANT! Continued use of this great HADACOL not only gives continuous complete relief but helps prevent this condition from returning when due to such deficiencies. Now, that's the kind of product you were waiting for. That's the kind you should buy and start taking at once. And HADACOL is so easy to take—comes in pleasant liquid form and is so easily and quickly absorbed and assimilated in the blood, ready to go to work for you immediately.

HADACOL Is So Effective Because HADACOL helps build up the hemoglobin content of your blood (when iron is needed) to carry these precious Vitamins and Minerals to every organ and to every part of your body. You may have tried other Vitamin preparations or other Vitamin and Mineral preparations, so we make you this offer. Try a bottle of HADACOL today if you need Vitamins B1, B2, Niacin and Iron. You be the judge. If you do not believe that HADACOL is the best Vitamin and Mineral preparation you have ever taken, we will gladly send you back your money. That's our positive money-back guarantee. You take no chance.

Refuse Substitutes And remember! There's only one HADACOL. Don't let anyone tell you something else is "just as good." Insist on genuine HADACOL. You risk nothing because HADACOL is sold on a strict money-back guarantee.

Sold at all drug counters. Trial size, \$1.25, but buy the large family size, only \$3.50. If your dealer does not sell HADACOL, order direct from The LeBlanc Corporation, Lafayette, Louisiana.

BEST YOU EVER ATE POP SOME TONITE CRISP-TENDER DELICIOUS JOLLY TIME POP CORN

Yodora checks perspiration odor Made with a fresh blend base. Yodora is actually superior to normal skin. No harsh chemicals or irritating perfumes. Wash hair skin or clothing. Sings soft and creamy, never gets grainy. Try gentle Yodora—find the wonderful difference!

Don't gamble with fire—the odds are against you!

ROCKCASTLE FACTS and STORIES

By RALPH GRIFFIN

A news item of interest to Rockcastle appeared in the Kentucky Register of Richmond, under date of September, 1839. It concerned Stephen Langford, a nephew of the man who bore the same name and who built the first house in Mt. Vernon in addition to deeding the original townsite to the proposed settlement. The man referred to in the article was a citizen of Rockcastle.

"Buried In A Stone Coffin—Uncle Stephen Langford passed peacefully away Thursday night at his home near Clay's Ferry, aged 86—deceased was somewhat noted for his eccentricity. He began life as a stone-mason and by industry and economy led a comfortable fortune, estimated at \$60,000. He was an Iveside (Baptist) an uncompromising Democrat and a living exemplification of an honest man.

There, it is safe to say, it will rest undisturbed until the coming of the Master." For three-fourths of a century the Main Street of Mt. Vernon had remained pretty much as it was in the beginning. Log shavings and business houses, flush with the roadway, were crowded against each other in a veritable firetrap. In the issue of August 12th, 1896, the Signal reports:

"Fire broke out in the rear portion of the Old Jack Adams store Wednesday night. When discovered it had made such headway it was impossible to control it. The fire ate its way from where it started to William's Drug Store, destroying M. J. Miller's warehouse and store, Mrs. Ella Baker's millinery store, residence and post office and William's Drug Store. Loss about \$10,000."

being. "Gus tewart caught in a pen two of the largest wild turkey gobblers that ever scratched a leaf in the forests. They were trapped near Wildie, last week. The smaller one was eaten and weighed twenty-five pounds."

"While John and James Colyer were digging a well at their home in the west end of Mt. Vernon, they dug up a human skull at a depth of about

fourteen feet. The front part of the lower jaw with the teeth and the part of the skull over the eyes, were in good shape. The teeth seem to indicate an old person and the place from which the skull was taken seems to have once been a sink-hole."

HOSPITAL NOTES
Admitted to the Pattie A. Clay: Robert Dailey, Septem. 2; car injury; James Cummins, Septem. 2, car injury.

Fascinating Fashions

By Judy Seaton

"Full skirts are making headlines this fall . . . and confirm predictions that women's fashions are becoming more and more feminine," says petite Olive Stacy, star of "The First Hundred Years."

Leading designers are showing suits of soft wool or rayon with many new jacket features, such as the nipped-in waist (if your waist isn't quite as petite as you would like, you can cheat with one of the old waist buglers), a little soft padding in the hips, and a natural shoulder line with very little, if any padding. But the overall effect for fall seems to be "the natural look," which emphasizes a tiny waist and rounded hips.

Suit skirts may be very full, circular cut, or gored, smooth over the top and flared toward the hemline. Or—if you prefer the straight line—you are still in style with a penning skirt and this silhouette is good for the short figure.

"If you are still in style with a penning skirt and this silhouette is good for the short figure."

"If you are still in style with a penning skirt and this silhouette is good for the short figure."

"If you are still in style with a penning skirt and this silhouette is good for the short figure."
