

# The South's Self-Rising Again

Although the South is modern in its business methods today, it has not forgotten the traditions which have made it great, nor the memory of the men who wore the Confederate Gray.

This combination of historical reverence and forward-looking business was self-evident in the recent decision of self-rising flour millers to tell the Southern bakers who have become homemakers how easy it is now to keep their men in gray. Let's help keep modern families healthier and happier by showing mothers how easy it is to make hot biscuits, home-baked cakes and pies, and other delicacies of the South that come only from the oven at home.

The millers' committee doesn't repudiate of their Army's cap, as in the Southern Photo, Flag (see photo), and parapsand. (See the South with "Save Your Confederate Money" and "The South's Self-Rising Again"). Then they went to work to help the South's tradition of happy family living. Their work is as simple as good

family life, for the millers merely offer all Southern homemakers recipes and other information designed to take the risk out of home baking and make it quick and easy for today's busy mothers.

Self-rising flour is good, plain flour with the baking powder and salt scientifically added by the miller. Thus, every housewife and teenage student who has experienced a baking failure due to improper use or condition of flour, can now readily recognize the value at home of self-rising flour. With the need only for shortening, liquid and desired flavoring to make the best in home-baked goods, such as these self-rising cakes:

**SELF-RISING GUP CAKES**  
1/2 cup margarine or butter  
1/2 cup sugar  
1 egg  
1/2 teaspoon desired flavoring  
1 1/2 cups sifted self-rising flour  
1/2 cup sweet milk

Grease and flour the bottom of muffin pans. Start oven at 375° F. Cream margarine or butter with sugar until fluffy. Add egg and flavoring and beat well. Stir in flour and milk alternately, beginning and ending with the flour. Fill cups about 3/4 full. Bake for 15 to 20 minutes. Makes 12 medium cup cakes. Frost with your favorite icing.

By LYTTIE HULL

**THE NEW COMMUNIST "line"** about bacteriological warfare belts around on to the United Nations' forces—particularly the U.S. forces—probably for the purpose of attempting to explain away the unchecked epidemics reportedly raging north of the 38th parallel; it arouses violent resentment against us wherever it is believed; and it opens the door for "retaliation" by the Reds.

The Germans initiated the use of poison gas during World War One and made the claim—which was believed by everyone who wished to believe in the German cause—that the British had used it against the Boers in the South African war. It was the same "old army game" all over again: make the world believe you are justified in retaliating in self-defense, and then start the dirty work yourself.

So let us not be surprised nor shocked when the Red butchers of innocent millions commence bacteriological operations against us. It is this column's opinion that the dirty work has already begun and begun through the instrumentality of that slimiest of all worms, the "Communist American Communist." But then this column doesn't believe that these worms are harmless. That Old Joe Stalin would not let it be so confined to—large and—bacteria are in Red blood and mouth has jumped from Mexico to Canada; and, from reports, Germany seems to be spreading it in a substantial manner.

As yet our suspicions are based upon mere surmise and upon a 30 year observation of Communist theories, practices and purposes. What we suspect may still be in the hands of the "Communist" administration, but to us it is the underground source that we believe is "bacteriological warfare" against the United States.

## INSPECTION PERIOD FOR THE PROPERTY TAX ASSESSMENT ROLL

The Rockcastle County tax roll will be open for inspection from April 15 to May 1. Any taxpayer may inspect the tax books to check his own assessment and compare it with others in the city.

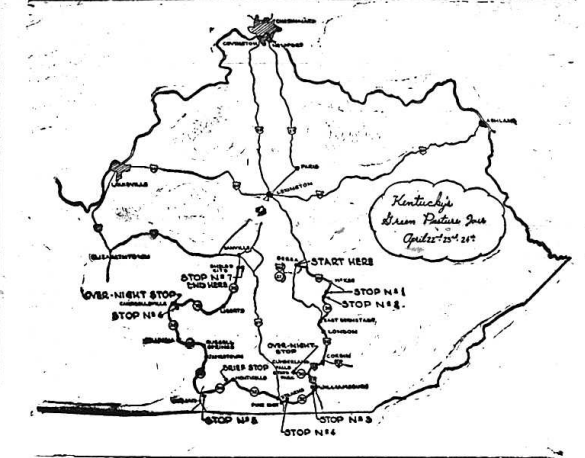

This is the assessment on which school, county and state taxes will be due on September 15, 1952.

The tax books are in the office of the tax commissioner in the county court house and may be inspected between the hours of 9 AM and 4 PM.

S. E. Chandler, Tax Comm. Rockcastle County

has been very sick is some better.

Several from here attended the singing at Liberty Ave. Baptist Church Sunday afternoon.

## GREEN PASTURES CARAVAN TOUR

From all present indications, the Kentucky Green Pastures Program's second annual "Caravan Tour" is creating a greater interest, and attracting more widespread participation than did the successful tour of the same nature held last April.

This year the tour will originate at Berea in Madison County, and swinging back to Berea will make a broad loop through Southcentral Kentucky reaching almost to the Tennessee border, and swinging back to Berea near Danville where it will disband.

Agricultural agency and institution personnel, leaders in agriculture, and related industries from all over Kentucky, along with visitors of similar status from eight or ten other states, will assemble for this three-day inspection of the progress Kentucky is making with her Green Pastures Program, and her conversion to a great pasture-livestock state.

Following is a general outline of the "Tour's" itinerary: The farms scheduled to be visited and some things to be seen: Folks coming from a distance for this occasion will start gathering at the unique and famous "Tour's" starting point. After 22nd, the motor caravan will assemble at the Berea College Dairy Farm. This will be the Tuesday morning April 21st. At 8:30 a. m. the motor caravan will start for the Berea Farm's goat pasture development program and fine dairy herd, the caravan, under State Police escort, will move off to the south. Stop No. 1 will be the farm of Robie Lee,

12 miles south of McKee in Jackson County. Mr. Lee was recognized by the Kentucky Green Pastures Program in 1950 as a District Master Pastureman. Here on the mountain tops he has developed an excellent land-use program, good pastures, and a good cow-calf plan here. After lunch on the Leer farm, the tour group will move along a short distance to Stop No. 2, the farm of B. B. Hillard, a District Master Pastureman in 1951. Here will be seen and discussed pasture development, management and its utilization by best cattle and sheep. Leaving the Hillard farm

will proceed to the Cumberland Falls State Park for their Tuesday overnight stop with supper meeting and lodging at the Dupont Lodge.

On Wednesday, April 23rd, the caravan will form at Cumberland Falls about 8:00 a. m., and proceed to Stop No. 3, the farm of District Master Pastureman C. J. Barton, two miles east of Whitesburg in Whitley County. Mr. Barton has excellent pastures in the Cumberland river bottoms being grazed by a fine herd of registered Angus cattle. Stop No. 4 will be at the farm of another 1951 District Master Pastureman, W. O. Gilreath, one mile east of Pine Knot, in McCreary County. Lunch will be served at the farm, and the group will have the opportunity to inspect the wonderful transformation of what was waste land a few years ago into one of the outstanding grassland farming programs in the state. Mr. Gilreath uses a pasture irrigation system. He has excellent pastures, grass silage, and mow-cured hay being utilized by both beef and dairy cattle.

After lunch the Tour will

proceed through McCreary and Wayne Counties, making a short stop at the farm of Wayne County Master Pastureman Rufus Burton. (Due to recent unavoidable circumstance Stop No. 5 as shown on the map will be omitted.) From the Burton farm, the Tour group will cross the beautiful Wolf Creek and proceed to Campbellsville for overnight lodging Wednesday night.

Thursday, April 24th, the caravan will assemble at 8:30 a. m. at Stop No. 6, the farm of District Master Pastureman Philip Corbin and Son, two miles southeast of Campbellsville.

Here are to be inspected excellent pastures, being used by a good cow-calf plan herd and sheep. Leaving the Corbin farm at 10:00 a. m., the caravan tour will proceed to Liberty by Kentucky Highway 70, and then to Shelby City on Kentucky Highway 35, near which they will make the final scheduled stop of the Tour. Stop No. 7, the farms of District Master Pastureman Mrs. Oliver Payne and County Master Pastureman Mr. Oliver Payne. Here the group will have lunch on the grounds, inspect the pastures and dairy herds of these very modern operated farms, and disband about 1:30 p. m. at this point, which is about 5 miles south of Danville, Kentucky.

Come one, come all—spend three interesting and informative days in Southcentral Kentucky. See what some of our Master Pasturemen's farms are really like.

Barbourville, Ky., April — A campus-wide Bible-reading program and daily chapel service.

## Why the right power is so important to truck buyers

WHEN a truck engine is too small for the job, you'll pay in poor performance and high upkeep. When it's too big, you'll waste money on operating costs.

To be sure of the right power for top performance and top economy on every job, Dodge builds eight great truck engines. There's one that's "Job-Rated" to fit your kind of work.

In fact, you get a truck that's "Job-Rated" in every way. Every load-moving unit is factory-engineered to meet the most severe operating conditions. And every load-carrying unit is factory-engineered to provide the strength and capacity needed.

Visit your friendly Dodge dealer today for all the facts about Dodge "Job-Rated" trucks.

Tests prove power with economy. To save gas, powerful Dodge truck engines employ compression ratios as high as 7 to 1. And on high-torque models, a twin carburetor and exhaust system is used.

Records show low upkeep. For dependability and low repair costs, rugged Dodge truck engines have 4-ring pistons with chrome-plated top ring and heat-resisting exhaust valve seat inserts.

Owners report "Greater value!" You get all these plus values: Cyclebond brake linings; easier handling, shaper turning; great Fluid Drive available on all 1/2, 3/4- and 1-ton and Route-Van models.

See us today for the best buy in low-cost transportation...

# McKinney Motor Co. MT VERNON, KY.

## "When power is needed, Dodge trucks have it!"

8075 C. R. SHEARMAN, Hood Construction Co., Lynnwood, Calif.

"We've been big Dodge users for many years, because our business demands trucks that are dependable, economical and rugged. We make most of our driving over rough ground, a lot of it in the mud. The trucks work with crews who are laying pipe in the field. This kind of hauling calls for plenty of power to carry equipment to the site."

"And when power is needed, Dodge trucks have it! They seem to be able to pull anything!"

## TAX BOOKS OPEN TO INSPECTION

Ever taxpayer in Rockcastle county will have an opportunity to inspect the tax assessment roll for this year, tax commissioner S. E. Chandler announced today.

As provided by Kentucky law, the property tax roll will be open for inspection from April 15 to May 1. Any taxpayer may visit the tax commissioner's office and check his own assessment as well as comparing it with others in the county.

Commissioner Chandler strongly urges every taxpayer who possibly can to take advantage of the inspection period. This is the only way to be sure the assessment is correct. Some taxpayers have had to pay taxes they did not rightfully owe because of their failure to take advantage of the inspection period.

Anyone who feels that his assessment is higher or lower than that on other like property in the county may appeal to the board of supervisors. The appeal must be filed in writing with county clerk before May 1. Appeal for a review may also be made by the tax commissioner, Department of Revenue county judge, chief financial officer of any city using the county assessment or the superintendent of any school district in which the property is located. The board of supervisors may raise or lower individual assessments on which appeals have been made in order to equalize them.

"The inspection period is a safeguard for the taxpayers," commissioner Chandler said, "and I urge each one to take advantage of it for his own benefit."

## LIVINGSTON GIRL AT UNION COLLEGE

Barbourville, Ky., April — Marie Meadows of Livingston is among the new students enrolled in Union College this Spring term which started April 1.

The new term's enrollment, added to the regular second semester enrollment, gives the college a 25 per cent increase this semester over last September's total. There are now 571 students in Union College classes.

The Spring term, primarily for teachers whose schools close early, is a concentrated two months course in which nine semester hours credit may be earned.

## WLW PROGRAM FEATURES CPL. H. HAMMONS

The heroic role that Cpl. Herbert Hammons, Point Lick, Ky., is playing in Korea will be noted on the WLW program These are Your Sons, at 10:45 P. M. EST, Thursday, April 17.

The program will describe how Cpl. Hammons, a mortar forward observer, was moving forward with a rifle company and directed accurate and effective mortar fire that routed straggling troops. He received the Distinguished Service Cross for his bravery.

A news article in the Mt. Vernon Signal giving details of the award was the inspiration for the notice given on the WLW program.

The broadcast is one of a series planned to shine a spotlight on the Ohio Valley the part their boys are playing in Korea.

## Guest Singers At Freedom Baptist Church Sunday

Tinsley Ball, pastor of the Freedom Baptist Church, reports that the Baptist Student Union Class from Campbellville College will sing at both the morning and evening services on Sunday, April 20.

Jack Willis, a religious artist from the Walnut Street Baptist Church in Louisville, will also be there. He is one of the most noted religious painters in the area.

Rev. Ball extends an invitation to everyone to attend these services.

Donald Edward Reece, 19, Mt. Vernon, and Beatrice Tootory, 20, Conway.

## Lions Give Womenless Wedding

Top row reading from left to right: The final scene with John Lair, the groom and Logan Bryant, the bride, 2. The bride, Logan Bryant, on the arms of the father of the bride Ralph Griffin. Second row the grand mother, Kenneth Mullins giving some support to grand father O. V. Hilton as he sings into the mike, 3. Franksters Alex Milan and Sgt. Asa Shreeves. Third row: The aunt of the bride, Alfred Sparks, walking up the aisle on the arm of the usher Elmer Anderson. 2. Nurse maid Wayne Stewart helping baby sister Billy McHargue into her cradle. Watching are Elmer Anderson and Rev. Howard Ray.

The "Womanless Wedding" presented by the Mount Vernon Lions Club last Tuesday night, was an entertainment that kept the packed house in a continuous uproar. From the moment the wedding party began, with the entrance of the uncle and aunt of the bride, the audience entered to the full antics of the members of the wedding party — a party consisting entirely of the male sex who were the business men of the town to 4 o'clock, and it is hoped that this time there may be many volunteer donors from nearby communities like Mt. Vernon and McKee. Blood from the blood-bank at Berea College Hospital is available and is used with no charge by people in both Berea and in surrounding territory.

## BLOODMOBILE IN BEREA

There is to be another visit of the Red Cross Bloodmobile to Berea on Thursday, April 24 at Union Church from 10 to 4 o'clock, and it is hoped that this time there may be many volunteer donors from nearby communities like Mt. Vernon and McKee. Blood from the blood-bank at Berea College Hospital is available and is used with no charge by people in both Berea and in surrounding territory.

A certain percentage of the blood collected by the Red Cross Bloodmobile unit is used for civilians and part goes to the service-men in Korea.

the baby sister of the bride, lying in her big cradle (a hospital bed) who was cared for by the colored nurse that created a lot of embarrassing moments, and the cheated sweetheart cried and cried, only to be jilted by everyone; the old couple, grandmother and grandfather, that entered the stage tottering on their canes; the twin brother and twin sister of the bride dancing and prancing on the stage; the soloist representing Gall-Cure in a fol-de-rol. The audience shook with laughter when the bridesmaids entered in their finery. They were the banker and the lawyer of the town. Then came the bride and the groom with their

## ROSELLA BARRON DIES APRIL 14th

Mrs. Rosella Barron was born April 12, 1887 at Hansford, Rockcastle County, Ky., daughter of John Wesley Kirby and Elizabeth Rowe Kirby. She was married to James A. Barron who died 3 years and 8 months ago. To this union were born nine children, four of whom also preceded her in death. Those surviving are Clyde Barron, Mt. Vernon; Mrs. Gladys Burdine, Boone; Mrs. Hazel Black of Orlando; Mrs. Etzel Hines of Mt. Vernon; and Herman Barron of Reading, O. Also eight grandchildren.

attendants; and then the preposterous wedding as the bride and the groom were pronounced mouse and spouse. So ended an evening of fun and laughter. The Lions Club deserves the commendation of the community for presenting an evening of wholesome fun. Those participating in the program were: Elmer Anderson (uncle of the bride), Alfred Sparks (aunt of the bride), Wm. Norton (Village gossip), Jack Henderson (jilted sweetheart), Glenn Pennington (friend of the bride), Wayne Stewart (Colored nurse), Billie Mahargue (baby sister of the bride), O. V. Hilton (Grandfather of the groom), Kenneth Mullins (Grandmother

## ROSELLA BARRON DIES APRIL 14th

joined the Mt. Pisgah Baptist Church at an early age. Her health had been poor for several years and she passed away suddenly at the Berea College Hospital Monday, April 14. Funeral services were held at the home of Walker Hines at 1:00 P. M. on Wednesday, April 16, 1952, with Bro. Wendell Belew and Bro. Asa Stokes officiating. Interment was in the Barron cemetery.

Mrs. Barron had spent her life in Rockcastle County. She

of groom), Bradley Saylor (mother of bride), Asa Shreeves (Twin brother of bride), Alex Owen (twin sister of bride), Earl Watkins (Curci Soloist), N. M. Smoek (Bridesmaid), E. R. Denny (Bridesmaid), Bernard Mitchell (Flower Girl), Russell Ramsey (ring-bearer), L. D. Bryant (Bride), Rev. Wendell Belew (maid of honor), R. W. Griffin (father of bride), Roy Owens (train bearer), John Lair (Groom), M. Maggard (best man), Earl Hammons (Minister), Howard Ray (usher).

## P.T.A. HOLDS REGULAR MEETING

The P.T.A. met last Tuesday night at the home of Walker Hines at 1:00 P. M. on Wednesday, April 16, 1952, with Bro. Wendell Belew and Bro. Asa Stokes officiating. Interment was in the Barron cemetery.

## F.F.A. BOYS TO ATTEND MEET

The Mt. Vernon F.F.A. chapter held its regular month ly meeting in the home of room Wednesday morn. Plans were made to send four girls to the state convention at Richmond in June, and to the Richmond District meeting to be held at Estil Co. Hi., May 3. The following girls have completed the work necessary for Junior Homemakers Degree this year: Sylvia Bullock, Nina Bullock, Dollie Winstead and 51 Jacey Bullock. This degree will be formally conferred at the next meeting.

## PFC. McCLURE GETS SILVER STAR

Pfc. Skranklin T. McClure a member of Company K, 38th, Infantry Regiment, 2nd Infantry Division, has been awarded the Silver Star medal as a result of his service in Korea. The citation accompanying the medal states that McClure distinguished himself by gallantry in action on 28th of July, 1951 in the vicinity of Taesuan, Korea. On that date, while Company K was in an attack on enemy held terrain, heavy enemy resistance pinned down McClure's platoon. A small group of the enemy started to counter attack. McClure and his comrades, an automatic rifle team, met the attacking enemy group with a heavy volume of fire and grenades, inflicting numerous casualties upon the enemy and forcing them to withdraw. Pfc. McClure then left his position and assaulted the enemy emplacement that his platoon pinned down. He destroyed numerous casualties upon the enemy. This courageous action enabled the platoon to advance and secure its objective. The gallantry displayed by Pfc. McClure re sulted in the award of the Silver Star.

McClure is the son of Bob and Lula McClure, Livingston and known as Theodore to many of his friends here. He enlisted in the army in July, 1950 and was home on emergency leave in October but is now back in Korea.

## EASTERN HONOR ROLL INCLUDES COUNTY STNDENTS

Josephine S. Dickerson and James Edward Price of Livingston are included in the list of honor students of Eastern Kentucky State College which was released at the end of the fall semester. Mrs. Dickerson and Mr. Price are graduates of the Livingston High School.

Mrs. Dickerson was enrolled for 16 hours and earned 34 quality points, and Mr. Price, 15 hours and earned 51 quality points.

## ORLANDO COUPLE HIT BY AUTOMOBILE

Mrs. Edna Clark, 43, Orlando and Milton Leger, 13, also of Orlando, were injured Saturday night when they were struck by an automobile as they walked along the Brush Creek Road near Berea.

## TED T. MEECE USN, PROMOTED

Ted T. Meece USN, son of Mr. and Mrs. Andrew J. Meece of Levelgreen, Ky., has been advanced in rate to seaman first class at the Naval Air Station, One, Mare Island Group, Pacific.

## DENNEY HEADS TAFT CAMPAIGN

Edwin R. Denney

Edwin R. Denney, wellknown Republican political figure in Rockcastle County, has been named as chairman of the Taft Lucey, Mr. Denney, local attorney for President forces in Kentucky and prominent citizen, has long been an active figure in Republican party politics, both on the local and on the state scene, so it came as no surprise to his many friends to see him named as head of the Taft campaign committee. At the Republican State Convention in Louisville Saturday, Mr. Denney made good use of his political strength and his dynamic personality in swaying the state's delegates over to the Taft bandwagon. Mr. Denney was also named as one of Kentucky's delegates to the Republican National Convention this summer.

## LOCAL CITIZENS AT GOP CONVENTION

Attending the Republican State Convention in Louisville last Saturday were the following people from Mt. Vernon: Mr. and Mrs. R. W. Griffin, Mr. and Mrs. Sam Jones, Lewis M. Miller, E. B. Thompson, E. R. Denney, Mr. and Mrs. J. W. Lambert, and T. J. Nicely. Mr. Denney was elected permanent chairman of the State Republican Committee and Mr. Nicely was re-elected as chairman of the ninth district Republicans.

## DISTRICT SUPPORTS JAMES GOLDEN

James Golden, Jr., of Pineville, has been assured of the full support of the 8th district for his re-election to congress following the Republican district meeting in London.

## PFC. MULLINS IN ARMY EXERCISES

Port Hood, Texas — PFC Fred Mullins Jr., whose parents live on Route 1, Box 22, Orlando, Ky., was with U. S. Forces that routed the Aggressor Army to conclude Exercise Longhorn in central Texas on April 9.

Both units the 1st Armored Division, formed the spearhead of the Aggressor across the Colorado River, completing the destruction of the invading "enemy" two days ahead of schedule.

More than 115,000 soldiers and airmen practiced their assignments under combat conditions in the giant maneuver, one of the largest in U. S. history. Mullins is assigned to the 1st Armored Cavalry, He formerly lived in Mount Vernon, Ky.

Mrs. Kate Mullins entertained the following guests for Sunday dinner in honor of her mother, Mrs. M. E. Price on her 23rd birthday.

**DENTAL HEALTH**

By Dr. Clement F. Hahn

This article has been written for the purpose of challenging students, parents, and teachers in their thinking and intelligence in matters of health.

Today in every hamlet, city and state of our nation the increase in dental disease is almost horrifying. It is the nation and the increase and public apathy toward the situation. Statistics reveal that for every tooth the dentist has to save, six more are in the process of decaying. The intelligent answer to this discouraging problem is not more and better dental schools to provide more dentists for the nation, but instead, by treating the root of the trouble through prevention.

Now, what accounts for the rampant decay? Why are more than 97 percent of our students afflicted by dental disease? Why should 40 percent of the three and one half million wearing artificial dentures be children born every year to the time they reach forty years old? The reasons are quite clear to members of the American Dental Profession. The candy gum, and physical health is better and richer nutrition. The dental health of our students suffers from malnutrition. It does the dental health of our nation. Our body is a complex chemical factory. Unless it gets the optimum natural vitamins, minerals, enzymes and synergists, it can not manufacture perfect health, nor can you have bodily health without dental health. The same chemical factory is responsible for the decay and a healthy mouth is the creation of all bodily dental disease. Remember, "A ward integral part of the body, afflicted by dental disease." What then is the root of our trouble and what is meant by prevention of dental disease? Our trouble is refined foods, refined flour, refined corn meal, refined sugar, polished cooking. Even milk, originally a great natural food has its calcium content altered and its enzymes destroyed by heating. From the work of Robinson and others, it is now known that an important factor in the process of calcification is the presence of the enzyme phosphate. This enzyme is pre-

by the body in the manufacture of raw milk and utilized in strong bones and strong teeth. Phosphatase, the most enzyme is rapidly destroyed by temperatures from 50c and up for any length of time. It would be wise to add a word of caution. Only certified grade A raw milk insures a bacterial count low enough to safe guard health, as promised. The use of raw milk could be injurious to health. This curse of food refining is evident to every doctor and dentist when they examine children and find rotting teeth and under nourished bodies. In fact, decayed teeth are the first manifestation of malnutrition.

Why has tooth decay shown a greater percentage of increase in the last ten years than in any previous decade? One obvious reason is the continuous increase in the consumption of refined sugar per person per year. Our nation consumes now 130 pounds per year. There was a time when there was as low as ten pounds. Parents for the sake of children born every year, give lunch money to the candy gum, ice cream, and sweet tooth habit and the high incidence of poor health and dental disease. Remember, "A ward integral part of the body, afflicted by dental disease."

We discourage and make big funds over smoking on the grounds that it is an injurious habit and recent medical evidence shows an alarming increase lung cancer among heavy smokers. We do not discourage the consumption of so much refined food. Parents and grand parents who encourage children to eat refined foods on the grounds that a little candy never hurts anyone are helping to cultivate a dietary habit that ultimately leads to a physical

handicap. Children are solely dependents upon adults for guidance in all phases of life. Every child has the inherent right to grow into a healthy. Let us think and study this problem of malnutrition, and its relationship to poor soil, improper cooking and refined foods in a last effort to improve not only our dental health but our physical well being.

In conclusion we, not just dentists and physicians but the public, need to modify our thinking and concept of what constitutes good health. The medical and dental professions are always ready and quick to accept and use new knowledge to alleviate human suffering. In medicine, one can list major contributions almost as separate sciences evolving at the pace of about one per cent. Anatomy was the first, making its debut in the 18th century, the 17th century brought us physiology, the 18th century added pathology, and the 19th emphasized bacteriology. Possibly the 20th century will produce a new, physically improved American by stressing the science of nutrition. With improved nutrition we come to place less emphasis on medicine as a cure, because in a positive way we are more concerned in helping the body defend its self through optimum nutrition.

Are you individually willing to alter your taste habits and resist the conventional way of eating for the sake of a better health for you and your families of nutritional problems, if? If so, read and learn all that might us physiology; the 18th century public meetings conducted research work and support this 20th century contribution to health. Information can be gained from the American Academy of Applied Nutrition, a non-profit organization dedicated to a program of human betterment through fundamental nutritional knowledge. Address: 6238 48 Calif.

Read such books as: The National Malnutrition by D. T. Quigley, M. D., F.A.C.S. "The Wheel of Health" by G. T. Wrench, M. D. Studies in Deficiency Diseases by Sir Borden McCarrison M. D.

**Nutrition and Degeneration,** by Weston A. Price, D. D. S. These books contain enlightening facts and valuable information on malnutrition. Additional reading in the field of nutrition will provide us with a better background and will insure progress towards better health.

Years for a healthy, happy life. Dr. Hahn.

**— NEGRO CREEK —**

Mr. Johnathan Bishop passed away, April 9th, after an illness of several months. He leaves to mourn his passing, his wife, seven children, several brothers and sisters, grand children, nieces and nephews, and a host of friends. Burial was in Negro Creek Cemetery. Owens Funeral director had charge of the arrangements.

Sgt. Dale Chandler is home from Japan with his parents, Mr. and Mrs. Gus Chandler. Rex Stevens who has been ill is improving. Misses Virginia and Juanita

Stevens who are attending Eastern State Normal, Richmond, Ky., were home over the week-end with their parents. Gus and Dale Chandler were in Cincinnati, O., Friday, Dale purchased a car while there, Mr. and Mrs. Mat and Colson Stevens fished at Herrington Lake one night last week.

"What a shameful waste!"

**"Electric cooking puts the heat in the pot - not around it. Saves waste! Saves money!"**

**See the savings on top.** You can see with your own eyes how electric cooking saves. See how the top units put off the heat into the utensil. Heat cooks the food, not the cook.

**See the savings in the oven.** Watch how the new electric range oven cooks more than half the time with the electricity off. That means electricity saved — money saved.

**Feel the savings.** Place your hand on a range-top unit and snap it on. But be careful — new range-top units heat in seconds — save electricity.

You'll be amazed at the low cost of cooking with the new electric range. Fair tests show its economy. Ask your dealer. Electric cooking is also —

**SAFE**—No flames, no matches, no fuel to store  
**CLEAN**—No soot, no grime  
**COOL**—Heat goes into the food, not the room  
**EASY**—Automatic oven cooks while you play

HANDS AROUND THE WORLD

EXPLORING the world, these two young ladies in their Dhafran, Saudi Arabia schoolroom discover that they have become neighbors in spite of the 7000 miles that separate their homes. Susan Kelly, aged 11, whose dad is in personnel work with the Arabian American Oil Company, kept her hard on Cheyenne, Wyoming, her home town in America. Faridah Sowijigh, 12, whose father is also in Aramco's Personnel Department, points to Saudi Arabia. Both girls are in the 5th grade at Aramco's air-conditioned desert school at Dhafran.

family relationships. To accomplish this purpose, the Division makes available all its resources to children who have parents, dead or have deserted, or for some reason are left without parents, children whose parents are unable to provide a satisfactory home for them; babies born out of wedlock, or their mothers, families who wish to adopt children or provide home care and parents who may need guidance and support in becoming better parents, or in working out their difficulties. Without help now either in their own homes or in substitute homes, many of these children become delinquents.

A substitute home or foster home is any home other than the natural home. Permanent care is given in adoption, free and for work or wage homes. All are needed and used by the Division.

Billy, Margaret and Bobby are two, four and six, have a mother who is ill and must be institutionalized for a few months. The father is serving time in a penal institute. He hopes to make a home for his family when he is released. Neither parent wishes at this stage to release children for a adoption.

Billy, Margaret and Bobby need a boarding home, where they can be together, and where they can stay until their mother is well and their home can be re established. It may be six months, or it may be a year. They need a boarding mother and father who will be understanding enough to realize their needs, be able to give them love and attention and yet happy to see them return to their own homes. The parents will pay for the children's care, if able, otherwise, the Division will assume this responsibility.

A family wishing to take children into its home to board may make application to the Division of Child Welfare, Red Cross Building, London, Ky.

NATIONAL CHAMP AGAIN

Clyde Morton and Paladin, winners of the National Field Trial Championship for the second consecutive year, have established records for both the trainer and the dog. Morton has won the National Championship nine times with history of field trials and sporting dog training. He has been the trainer and handler for the late A. O. C. Sage, well-known sportsman and field trial enthusiast. A new motion picture, "The Sedgefield Story," featuring Morton, has been in production more than a year by the Ralston Purina Company. The picture, in full color, is scheduled to be released early in the fall.

JEHOVAH GOD

By a witness of Jehovah  
Rose Jasper  
That men may know that thou whose name alone is Jehovah is the Most High over all the earth. (Psa. 83:18)  
For this is life eternal to know Thee the only true God and Jesus Christ whom thou hast sent. (St. Jn. 17:3)  
God spoke to Moses and said "I appeared unto Abraham, unto Isaac and unto Jacob by the name of God Almighty but by my name Jehovah I was not known unto them."  
Then Jehovah said to Moses "I have seen all that thou didst do unto thy brethren from among their brethren like unto thee and I will put my words in his mouth and he shall speak unto them all that I command him. (Deut. 18:18-19)  
Moses truly said unto the fathers a prophet shall the Lord thy God raise unto you of thy brethren like unto me. Him shall ye hear in all things whatsoever he shall say unto you and every soul who will not hear that prophet shall be destroyed from among the people. Unto you first God having raised up his son Jesus sent him to bless you in turning away every one of you from his iniquities. (Acts. 3:22-26)  
Jesus said, "My doctrine is not mine but his who sent me" "If any man will do his will he shall know of the doctrine whether it be of God or whether I speak of myself." (St. Jn. 7:16-17)  
"I have not spoken of myself but the father who sent me he

gave me a commandment what I should say and what I should speak." (St. Jn. 12:49)  
Judas said unto him, "Lord how is it that thou wilt manifest thyself to us and not to the world?"  
Jesus answered and said, "If a man love me he will keep my words and my Father will love him and we will come unto him and make our abode with him. He that loves me will keep not my sayings and the word which ye hear is not mine but the Father which sent me. (St. Jn. 14:20-24)  
Righteousness is imputed unto him who believes in Jesus whom raised Jesus our Lord from the dead. (Rom. 4:20-24)

HENRY CLAY ESSAY CONTEST

A \$200 scholarship will be the first prize for the Kentucky high school student submitting the best essay on Henry Clay in a statewide contest being sponsored by the Henry Clay Memorial Foundation at Lexington, it was announced today by Joseph C. Graves, Foundation president.

Second and third prizes will be a \$100 scholarship and a \$50 scholarship respectively. The three scholarships may be used in any college or university in the state of Kentucky selected by the winners, subject to the entrance requirements of the particular institution.

Ten copies of "Henry Clay" Influence Upon Abraham Lin

coln" by DeWitt Jones, will be awarded to students who receive honorable mention. The contest is being promoted to commemorate the centennial of Henry Clay's death. Mr. Graves said. The contest closes June 1, and the prize winning essays will be announced on June 29 at an observance of the Henry Clay centennial. Ashland, Ky. is the site of the new observance shrine by the Henry Clay Memorial Foundation.

The essay, which must not exceed 1000 words in length may be devoted to any aspect of the career of Clay, such as statesman, lawyer, or agriculturist. Mr. Graves said. Entries should be typed, double-spaced, on one side of the paper, and should include the name, address and high school of each student entering the contest. Entries should be sent to the Henry Clay Memorial Foundation, Ashland, Richmond rd. Lexington, Kentucky.

Judges for the contest will be J. Winston Coleman, Dr. Thomas Clark and Dr. James F. Hopkins. Decision of the judges will be final. The contest is part of a program planned by the Henry Clay Memorial Foundation to bring attention to the life of Kentucky's first statesman. The contest is the first of a series of public on April 12, 1950, the foremost statesman attracted 15,000 visitors last year.

Ashland and the Henry Clay Memorial Foundation and developments that led to the opening of the old home to the public were a realization of the dream of the late Judge Samuel M. Wilson of Lexington, Judge Wilson, who died in 1915, had a successful attempt to float a bond issue to acquire Ashland many years ago, organized the Henry Clay Memorial Foundation for the same purpose in 1926. In the fall of 1948 some 22 years later and shortly after the death of Wilson's son, Mrs. Sallye MacDowell Bulcock making it possible for the Foundation's objective to be realized were made public.

The mansion, which contains 30 rooms in all, has been completely renovated. The rooms have been furnished with authentic furniture and grounds have been restored. The old formal garden will be restored this spring and summer. Other items owned by the Foundation as they become available.

UNION COLLEGE NEWS NOTES

Barbourville, Ky., April - Recognition of Union College's work in high school education and career advisement was extended today, with appointment of Dodd Vernon, Union director of public relations, as a member of the American College Public Relations Association. He will be secretary for the student representation section of the convention at Cleveland, Ohio, April 16-18.

KY. SHARE IN FOREIGN AID

LOUISVILLE, Ky. Kentucky \$7,900,000 sought by the President-taxpayers will bear \$84,530,000 dent for his 1953 foreign aid program. If approved by Congress, according to figures released today by the Kentucky Chamber of Commerce. Estimating that Kentucky per cent of the Federal tax payers presently bear 1.07 percent of the total. The Chamber of Commerce applied this percentage to the \$7,900,000,000 foreign aid total and came up with \$84,530,000 as Kentucky's share.

The State Chamber pointed out that the \$84,530,000 representing Kentucky's share is more than the \$66,778,340 budget for the operation of the Commonwealth of Kentucky for the 1951-52 fiscal year. It is more than the amount received in wages by all Kentuckians employed in the industry of 1951. Figured on a per capita basis, each Kentuckian would "donate" \$28.76 toward this single endeavor. It would cost \$115.04 for a family of four.

The State Chamber questioned the wisdom of appropriating \$7.9 billion in foreign aid in the face of the largest deficit ever confronting the Federal Treasury in a year not marked by all-out war. It added, "It is high time the American people were given a complete and candid accounting of what has been accomplished by the scores of billions of dollars allocated over the past decade."

"We know we cannot continue indefinitely to pour this money into the Federal outlays into a bottomless pit of undefined foreign aid objectives without serious damage to the nation's economic and fiscal structure."

Even if Congress were not to approve a single dollar of new foreign aid, the appropriation requested by the President for fiscal year 1953, the State Chamber pointed out, an estimated \$6,000,000 in unexpended balances would still be available for foreign spending next year.

That Federal agencies in charge of foreign aid spending have smothered Congressional efforts to set up a "Little Hoover Commission" to investigate the administration of foreign programs.

FIRE CHIEF GETS NEWS MAGAZINE

Fire Chief W. H. Cox has received a copy of the first edition of the new Kentucky publication of the Kentucky Fire Safety Commission.

The first issue features an announcement of the reestablishment of the Kentucky Fire Safety Commission, and an article on flammable textiles by Dr. Richard H. Wiley, chairman of the University of Louisville Department of Chemistry.

The article warns the public of the dangers of using loosely woven rayon fabric for clothing and other household items. The monthly paper is to be distributed to fire departments throughout the state for use in firefighting and fire prevention.

Barbourville, Ky., April - Union College students have made a financial donation to help establish a proposed new International Christian University near Tokyo.

## RAMBLINGS

The Lions Club of Mount Vernon might well feel proud of its achievement last Tuesday night when it presented to a parent of "The Womanless Wedding." We surmised that it might be a very hilarious performance when the first act about it, and we certainly were not disappointed in the effect it produced. It was a splendid comedy in which the business men of the town outfit themselves as superb actors on the stage. We were proud to transport themselves into an upside down of wholesome fun. It did us all good, as well as to those needy children who whose behalf the show was staged.

Rockcastle has a great many spots of natural beauty. I have seen a few of them. Coming up the Sicman hill in the north end of the county, is an everlasting spring of water that comes out of the cave on top of the hill. It is right next to the highway about twenty feet below. I am however sure to say that much trash has been thrown down the steep ravine, and it is now littered with cans, bottles and other refuse. This should be forbidden. A very nice and attractive picnic ground could be developed there.

On this same highway is the majestic view of Brindle Ridge. One gets a sweep of the hills to the west, a thick forest to the east, and a lovely sight of Renfro Valley to the south. Every time I pass over this ridge, I get a thrill from its beauty.

We are very glad to learn that our school children from Lipville is on the way to recovery after an operation at the Good Samaritan Hospital in Lexington two weeks ago. He is reported to be improved enough to be brought back to his home today.

## CLEAR CREEK COMMENTS

Well, here I am back again, as fit as life. I wish to say that anything I may say in this column concerning anybody or any names that I may mention are purely coincidental and most of this is fictitious, and not even intended to be taken as the truth or any semblance thereof.

Wonder where Rob is now? His daddy had to tell him what he saw when he went squirrel hunting. A lot of us are like Rob. We have to be told in big loud words just why to shake a bush. Somebody needs to get Rob to help Harry. Believe he knows more about it.

Had the fishing were good today. I knew when some good straight horn-beans stood on the hill. Cut me one of them for a pole and looked behind the barn for a few worms. Used to put them in a mermaid eyster can, and you could see them like that yesterday and today. I do believe that the shortest prayer I ever did hear Bro. Mort pray.

## WABD

Pfc. Kenneth Bulock of Texas is spending a 30 day furlough with his parents, Mr. and Mrs. C. H. Bullock and family.

Mr. and Mrs. Frank Debord and Mrs. O. H. Spence spent the week-end with Mr. and Mrs. H. B. Livesay and Mr. and Mrs. Jack Debord Sr. of Level Green.

Mrs. Russell Sowder is recovering from a severe case of measles.

Miss Jewell Payne of Campbellsville College was home for the week-end with her parents Mr. and Mrs. James Payne and family.

Pfc. and Mrs. Clinton Bulock are here for a few days with his parents, Mr. and Mrs. C. H. Bullock.

Pfc. Ray Livesay of Cherry Point, N. C. and Miss Joyce Livesay of Ohio were week-end guests of their parents, Mr. and Mrs. Kenneth Norwood.

Mr. and Mrs. Kenneth Norwood entertained with an egg hunt on Sunday afternoon. About 55 were present.

There was an intermediate entertainment with a egg hunt at Mrs. Payne's house on Friday night. All reported a nice evening.

Mrs. and Mrs. Robert Debord of Ohio visited Mr. and Mrs. Jess Bray Sr. and family over the week-end.

## POPLAR GAP

We are glad to report Mr. Sam Davidson able to be up from a recent illness.

Mr. Bently Allen is number one in the county. Miss Ruth Higgins is able to be out again.

Mr. Willie Higgins of Spring Creek, Ky. recently visited his parents, Mr. and Mrs. W. H. Higgins, here and elsewhere in the county.

Mr. Curtis Allen has moved from Indiana to his father's farm on Crooked Creek.

Mrs. Della Black was in a hospital with the sick at this writing. Mr. Raymond McGuire of Maud, O., recently visited his parents, Mr. and Mrs. W. H. McGuire.

Messrs. Matt Singleton and Manley McGuire, made a business trip to Crab Orchard one week ago.

Mr. and Mrs. W. H. McGuire, Ind., is spending a week with day last week.

Mr. and Mrs. W. H. McGuire, Ind., is spending a week with day last week.

Mrs. Boyd Vanzant of Ind. was the week-end guests of relatives here.

About 4:30 P. M. Sunday this week, rain, and hail storm, so much hail lay on the ground that it resembled a heavy skirt of snow.

## PEOPLE RIDGE NEWS

Mr. and Mrs. Gilbert Mink and some of Richmond, Ind., spent the week-end with Mr. and Mrs. Henry Mink.

Mr. and Mrs. Marcom son of Mrs. Gilbert Mink is home on a furlough.

Mr. and Mrs. Arch Coffey and family of Ohio visited Mr. and Mrs. Charles Cummins Sunday afternoon.

We are glad to report that Mr. Tom Mink who has been out for several months is able Mr. and Mrs. John Burdette and J. C. Rimmel have been very ill.

Mr. and Mrs. Walter Burdette and son of Richmond, Ind., spent last week with Mr. and Mrs. Jim Burdette and Mr. and Mrs. Emmitt Taylor of Quail.

Several of this community have the measles.

Children don't know what it is to earn big money like that now.

I want to ask what has become of a lot of these things: flaky hominy, powder and short, shortbread candy, old commencement days, corset strings, goose-berries along the garden fence, hunting the crows, mush and sweet milk for supper, the games of sheep-men and ante-over, horses that would run away when they saw a car. Where are all these?

I always like to hear a lot of sounds that I knew when I was a kid. Such as when the creek rattled over the stones, the wind whistling thru the key-hole, a dog barking late at night, screech-owl close to the house late in the evenings, a woman calling the cows home at night, the sing-song of the preacher, who I was sleepy in church; some one chopping wood at dusk. Do these things stir memories in you?

I strolled through the woods one day and saw a lot of things that reminded me that Spring was mighty close. I saw a few May-apple pushing up a can and that is why I used for a bait-can. Guess this is what you call the Fair-deal too high to eat and too high to use for a bait to hold worms. Anyway, I went down to the old creek where I used to go when a boy. I put me in a hook and line and spilt on my bait for luck and dropped him in over behind a sycamore log. I fished for an hour and got the hook in the water until something grabbed it and my hook was in the water. I took off. I say to myself that I have now hooked a big fish. When I finally brought it in to the bank, it was about two inches long and was a species of fish I had never seen before. It had a tag on its tail that said, I thought I was still hitched,

# FARM AND HOME NEWS

Robert F. Spence

Letia W. Jasper

Soil testing is one way to find out what the soil needs to produce a bigger yield per acre as well as improve the quality of the soil. In order to test fair and more accurate test, soil samples should be taken from a number of places per acre. It would be well to take from 5 to 11 places on each acre. This would give a better average test and would soil tested.

More accurately represent the soil. It must be remembered that testing the soil is only one step toward improvement. It takes lime, phosphate, potash, and nitrates as well as many other combinations to make a productive soil. Crop rotation growing more legumes and turning under cover crops will add much to the building of the soil besides testing. Testing what it gets depends on what the farmer does about it.

The getting of lime for soil improvement is well understood. Ground limestone. Nitrogen can be had by use of ammonium nitrate or nitrate of soda. Phosphate is usually available in what is called 20% phosphate and 46% phosphate known to most farmers as sulphur phosphate. Potash is phosphate.

It generally is 50% or it may be 22. All these elements when mixed and put in a bag to be sold to the farmers is known as complete fertilizer. This means there is so much nitrogen, phosphate and potash in each 100 lb. bag.

For example a 6-12-8 fertilizer means the farmer is getting 6 pounds of nitrogen, 12 pounds of phosphate and 8 pounds of potash when he purchases 100 pound sack with this analysis on the bag.

Another example: a 10-20-20 fertilizer would contain 10 pounds of nitrogen, 20 pounds of phosphate and 20 pounds of potash per 100 pound bag. If a farmer uses 1000 pounds of 6-12-8 fertilizer per acre he is getting only 60 pounds of nitrogen, 120 pounds of phosphate and 80 pounds of potash. This perhaps would be a fair application for corn and grass

land if the soil tested medium in phosphate and medium in potash. If big corn yields was wanted to be increased based on potash this amount would soil test of course.

If a farmer uses 100 pounds of 10-20-20 complete fertilizer per acre he is getting 100 pounds of nitrogen, 200 pounds of phosphate and 200 pounds of potash per acre. This would be a good application in fact for tobacco if the soil test low in phosphate and low in potash.

Test soil, apply what is needed, grow more legumes and grasses, seed cover crops on all cultivated land and keep records. This program will increase yield of crops, maintain and increase fertility of the land and make money for the farmer.

Suggestions: Buy all fertilizer, seeds, in pump and other needed things, insecticides, duster or spray for this year's crop now, don't wait, it may be gone when you need it.

Encourage that boy of yours to join the 4-H club and raise an acre of corn 10-4-4 a bushel for the show and sale at London next October. We need 25 more boys to enroll for corn 10 for beef calf, 10 for dairy

10 for forestry and 10 for poultry. To enroll write or call the County Agents office.

Now is the time for farmers to enroll in the County Green Pasture program and County corn derby. There is great need for more pasture improvement and corn per acre in the county why not? A farmer enroll and help boost your county in production and at the same time improve your own farm and make money?

Mt. Vernon Brodhead, Ky.

SOCIAL AND PERSONAL

Nell Wanda Nicoley Entertains Bridge Club
Miss Nell Wanda Nicoley entertained her bridge club Monday evening.

Towery-Reece
Miss Beatrice Towery, daughter of Mr. and Mrs. Bige Towery of Conway, became the bride of Mr. Donald Reece of Wildie, in a double ring ceremony performed at the home of and by the Rev. Charles Philbeck.

Owens-Hogg
Mr. and Mrs. Charlie Owens wish to announce the marriage of their daughter, Sallie Fern, to Cpl. Charles Hogg, on April 2. The wedding took place in Jeffersonville, Ind., with the brides sister, Miss Lorene O. wens, the only relative attending the ceremony.

The bride's attendant was her sister Miss Mildred Towery and the groom's best man was Cecil Towery, brother of the bride. The bride was very attractive in light blue fall dress with navy accessories. Immediately following the wedding the couple left for a short honeymoon to places of interest throughout I.K., taking with them the best wishes of their many friends for a long life of happiness.

Watts-Tetrick
Miss Jeanne Tetrick, daughter of Mrs. Maude Tetrick of Interprise, West Virginia, was united in marriage to Roy S. Watts, son of Mrs. Stanley atts of Shinston, West Virginia, Thursday evening, April 11th. The wedding took place in chapel No. 4 at Lowery Air Force base in Denver, Colo.

Mr. and Mrs. Preston Nunnelley had as their week-end guests: Mr. and Mrs. Brodie Carmon and son of Louisville; Mr. and Mrs. L. B. Nunnelley and Mrs. John Preston of Lexington; Mr. and Mrs. A. B. Mullins of Hopkinsville; Mr. Hayden Watkins spent the week-end with his parents, in London.

The bride was attired in a navy blue suit, with navy accessories and wore corsage of red roses. She carried a white corsage of pink and white streamers. Mrs. Alfred L. Cummins, was maid of honor and she was attired in a navy blue suit and navy accessories. She wore a corsage of two white orchids. Alfred Cummins served as best man.

Mr. and Mrs. Oscar Hilton were in Lexington Sunday to see Mr. Clyde Linville, who is in the hospital there. The Eighth Congressional District Convention was held in London Friday April 11, and Mrs. John W. Griffin, Mr. following delegates were: Mr. and Mrs. Sam James T. Nixon, E. B. Thompson, Bob Hendrickson, Lloyd Owens, Mr. and Mrs. R. Griffin, Miss Nel Wanda Nicoley and Roy Brown.

Mr. and Mrs. Tommy Gay entertained coach Jack Lasswell and the Mt. Vernon basketball squad with a chicken

dinner last Thursday evening at the Greyhound Bus Station. An enjoyable time was had by everyone.

Lafe Owens. Mr. and Mrs. Joe Hansel and son of Louisville spent the week-end with relatives here. Mrs. Elizabeth Watkins of London spent the week-end with her son, Mr. Earl Watkins.

Woodall and family. Mr. Billy Farmer of Lexington spent Sunday here visiting friends.

Mr. and Mrs. M. M. Caughron and daughter, Anna Lee, of Columbia spent Sunday with their daughter, Mrs. Fred Murrill and family, their granddaughter, Sandy, returned home with them for a weeks visit.

Mrs. Kenneth Beckwith and daughters, Marilyn and Judy, Mrs. Victor Hysinger and son, Douglas, have been sick for the past week.

Mrs. Bently Sparks and Chas. Alfred Mullins attended the funeral of Mrs. Crit Bird in Williamsburg Monday.

Mrs. W. L. Wheat of Mansfield, Ind., is spending some time in Mt. Vernon as a result of a visit to her sister, Mrs. Lula Lively and his brother, Mr. Mitchell Cress.

Miss Anna Belle Baker spent two weeks in Cincinnati with relatives.

The following persons were visiting Mr. and Mrs. James Anderkin Sunday: Mr. and Mrs. Bert Anderkin of Lexington, Mr. and Mrs. William Anderkin of Lexington and Mr. and Mrs. Elmo Anderkin and daughter of Berea.

Mr. Wendell Mullins of Dayton, O. spent the week-end with his parents, Mr. and Mrs. Lloyd Mullins.

Miss Joan Martin visited Miss Jewell Anderkin of Berea last week.

Mr. and Mrs. Joe McFarquie, Mr. Frank McFarquie who is attending U. K. spent the week-end with his parents, Mr. and Mrs. Joe McFarquie.

Gover, cashier Col. C. K. Gover, clerk

YOUR STATE OFFICIALS

**HENRY WARD**  
Commissioner of Conservation

**A. D. SISK**  
Chief of Mines and Minerals

**Ward Holds Many State Jobs;  
Sisk Chief Of Mining Agency**

(Last of a Series)

Henry Ward, state commissioner of Conservation since 1948, is perhaps best known for his activities in the development of the State Park system, which is administered by the Department of Conservation. But he holds many other positions, and directs the activities of several other agencies. In addition to the Division of Parks, his department includes the Divisions of Forestry, Publicity, Soil & Water Resources, and Flood Control and Water Usage.

Ward also is chairman of the Kentucky Water Pollution Control Commission, chairman of the State Soil Conservation Committee, and past chairman of the Ohio River Valley Water Sanitation Commission.

A native of McCracken county, Ward was a Paducah newspaperman until he was named commissioner of conservation. He served as State representative for McCracken county for five terms, and was a member of the State Senate at the 1946 and 1948 sessions. He is 42 and a Baptist. He is married to the former Gladys Lindsey. They have one daughter, Pat, 16.

A. D. Sisk, 54, Kentucky's Chief Mine Inspector and head of the Department of Mines and Minerals has been active in state mine work since 1931 when he held the position of district mine inspector. Previous to that time he was safety engineer and instructor. He was named to head his department in 1948.

Sisk is a life member of the Big Sandy Elkhorn Coal Mining Institute and is past president of the Mine Inspectors Institute of America and the Central Kentucky Architects' Association. He is a member of the Kentucky Engineers' Association, Masonic Lodge and the Shrine.

Sisk is married to the former Grayce Jones and they have three children.

A native of Madisonville, Sisk attended public schools there. He is a member of the Christian Church.

**SOCIAL SECURITY NOTES**

"Social security benefits for many people now filing claims will generally be higher," R. A. Tweedy, manager of the Lexington social security office, stated today. Payments to a retired worker will range between \$20 and \$80 monthly with the average expected to be around \$50 to \$60.

Tweedy explained that the amendments to the Social Security Act passed in 1950 provided for a new method of figuring benefits when the worker has had at least a year and a half of work after 1950. The new benefit formula bases the social security benefit on the average monthly wage beginning January 1, 1951, instead of averaging the wages all the way back to January 1, 1937. In most cases the wages during 1951 and 1952 have averaged more per month than during the past 15 years, and a higher social security benefit results.

He pointed out that this is not an automatic increase for people already receiving benefits. Their rate will stay the same unless they are under 75 and should return to work for

about a year and a half to requalify under the new formula.

During 1952 there may be a difference in the benefit amount depending on whom the application is filed. Tweedy said. He urged everyone who is 65 or over and who plans to retire in 1952 to consult the social security office for the worker can then decide when figures applying to his case. The would be the best time for him to file his application. In the case of self-employed people retiring this year, their benefits will generally be lower if they as their share a five cost of the apply for benefits before January 1, 1952.

**DISPUTANTA**

Mr. and Mrs. Floyd Lang and daughter Carlann Ann, Mrs. Martha Brown and children, and Mr. Junior King and girl friend, all of Dayton, Ohio, were the weekend-end guest of Mr. and Mrs. Charlie King.

Miss Bessie Cain, who has been spending a few days at Berea, with Mr. and Mrs. Howard Payne has returned home.

Mrs. Cynthia Croucher and sons, and Mrs. Anna Gadd, of Scaffold Cane, and Mr. and Mrs.

Joe Croucher and daughters and Mr. Junior Croucher of Hamilton, Ohio, were the Sunday guest of Mr. and Mrs. Edd Croucher.

H. L. Ponder filled his regular appointment, at Clear Creek Church, Saturday night and Sunday.

Mr. and Mrs. Rosco McCracken and Mr. Felix Muncy of Berea, Mr. and Mrs. Robert Abney and family of Hamilton, Ohio, and Mr. and Mrs. J. S. Swinford were the Sunday dinner guest of Mr. and Mrs. Morgan Abney.

Mr. and Mrs. Herbert Berry and family, were the Sunday guest of his mother, Mrs. Herret Berry.

Pvt. J. C. Burnell, who is stationed in Camp Breckin Ridge Ky. visited Miss Angie Croucher Sunday.

If you happen to see a cloud of dust, don't be surprised, it's just Mr. and Mrs. Johnnie Gabbard showing off their new '52' Chevrolet.

Mr. and Mrs. Rufus Spires and family of Dayton, Ohio spent the weekend-end here, with Mr. and Mrs. Bud Spires and family.

**FERGUSON SUIT AGAINST FORD SETTLED!**

On April 9, 1952, the United States District Court for the Southern District of New York entered a final judgement, with the consent of all parties, which ended four years of litigation between Harry Ferguson, Inc., and Ford Motor Company and others. It was ordered and adjudged that:

1. The sum of \$9,250,000 shall be paid to Harry Ferguson Inc. as royalties on Patents, Nos. 1, 916,945; 2, 118,180; 2,223,002 and 2,486,257;
2. Ford Motor Company shall not manufacture, after December 31, 1952, such tractors, and Dearborn Motors Corporation shall not sell any such tractors manufactured after December 31 1952 as have
  - (A) a pump having a valve on its suction side, as for example in the present Ford 8N tractor, arranged to be automatically controlled in accordance with the draft of an implement or
  - (B) a pump for a hydraulically operated draft control system for implement control and a power take-off shaft both driven by the lay shaft of the transmission, as for example in the present Ford 8N tractor, or
  - (C) a coupling mechanism on the upper portion of the center housing, of the form employed in Ford 8N tractors manufactured prior to November 22, 1949; and Ford Motor Company and Dearborn Motors Corporation, must affix a notice on any long coupling pins manufactured by them, to the effect that the pin is sold only for replacement on 8N tractors made by Ford prior to November 22, 1949.

This notice will continue to be affixed until October 25, 1966.

3. The Ford Motor Company and Dearborn Motors Corporation shall have a period of time, expiring not later than December 31, 1952 in which to make these changes.
4. All other claims and counter claims are dismissed and withdrawn on the merits.

A copy of the consent judgement is available to anyone interested in reading it.

This settlement between Harry Ferguson, Inc., and the Ford Motor Company resolves the issues. The inventions in their entirety with which this action was concerned will be found only in the Ferguson Tractor and in the Ferguson System in the future.

It is fitting that farmers all over the world—especially in the Americas—shall continue to look to Ferguson for fulfillment of all that these inventions contribute to a greater and more prosperous agriculture. Better implement better farming practices, more abundant production, and lower farming costs have resulted from Ferguson System as employed in the Ferguson Tractor.

Now, indeed, the Ferguson with the one and only complete Ferguson System is the tractor that meets more of the needs of more of the farmers more of the time. This can be proved to you at a demonstration on your own farm. Such a demonstration can be quickly arranged by telephone. Won't you call us about it?
