

# THINK SAFETY --- LIVE SAFELY

## "It Is Our Duty To Prevent Accidents and To Protect Ourselves and Others From Injury"

### SEE YOU ON THE FIFTH!

Where are you going to be July 5?  
At home? At work? On vacation?  
Are you real sure? What makes you so certain you may not be one of the hundreds of people who will start out a Fourth of July holiday trip — and won't come back?  
Not a pleasant thought is it? You may even be a little provoked that we've brought it up.  
Well, that's all right with us. For the more provoked you get, the more you may think about this Fourth of July traffic toll that annually makes a massacre out of a holiday that ought to be for pleasure and patriotism, not for tragedy.  
You think it couldn't be you?  
That's what the 360 people thought who were killed over the Memorial Day holiday just a month ago. That's what the 8,936 people thought who have died in holiday traffic in the last six years.

Yes, that's right — 8,936 people killed in holiday traffic in the last six years! Almost three times as many as were killed at Pearl Harbor. Half as many as have died for America on the battlefields of Korea!

How many of these 8,936 people thought when they started out during the holiday that they would never come back? Not one!

This one was just driving around the block to get a morning paper. This one was taking his family to visit friends in Louisville. This one was merely crossing the street. Not one of them was purposely going out to get killed — NOT ONE!

So, you see, it could be you.  
But here's the bright spot in the picture: it doesn't have to be you!

The National Safety Council, which has the grim responsibility for estimating these holiday tolls in advance, says you can make its estimates look silly by merely using a little extra caution, common sense and courtesy to offset the extra holiday traffic hazards. The Council says the toll could be cut in half, or even by two thirds, if you and I would make up our minds that, by golly, we aren't going to be one of those holiday traffic statistics.

It's just that simple. Instead of saying "It couldn't be me," just say, "It won't be me!" Then act accordingly.  
That's all there is to it.

Happy Fourth of July! See you on the Fifth!

A Michigan car and house trailer which overturned at a sharp curve near Burgin on May 23.

A large truck that was completely destroyed by fire May 23 near Pine Hill. Flames from the burning truck held up traffic for several hours.

## Cecil Hasty Is Victim Of Assassin's Bullet

### Operator of Lunch room is recuperating at the College Hospital from Neck wound inflicted by man in ambush.

Cecil Hasty, operator and owner of the Hasty Lunch Room located on U. S. 25 about one mile south of Mt. Vernon was the victim of an assassin Saturday night. The gunman apparently used a highpowered rifle from a point across the highway from the restaurant where Mr. Hasty was working. The bullet pierced the front window, cut through the neck muscles of Mr. Hasty and pieces of it passed through two walls and landed in the back room. Mr. Hasty was leaning against the Coca-Cola box talking to David Stallworth who was standing beside him at the time of the shooting. Mr. Hasty fell unconscious to the floor. He was immediately taken to the Berea College Hospital in Sparks where the wound was dressed. It is believed that he will recover.

The shooting took place about nine o'clock Saturday night. If the shot was fired from across the highway it must have been made with a high powered rifle. The bullet made a hole in the plate glass about an inch in diameter, then passed through Mr. Hasty's neck, hit a box of Mott's salt and then split into several fragments, two of the pieces passing through two walls of the restaurant. At least seven men were in the restaurant at the time of the shooting besides Mr. Hasty. They were David Stallworth, Robert Leiger and his three sons, Andy Madden and Jim Sowers. No arrests have as yet been made at this writing, but it is believed that the gunman is known and will be apprehended.

Cecil Hasty is the son of Mr. and Mrs. Ben Hasty of Mt. Vernon. About three months ago he purchased the restaurant from his father, who has been operating it since that time.

### IN MEMORY

Of Nellie Bradley who departed this life July 3, 1949. Three years have passed since that sad day. The one we loved was called away. God took her home, it was his will. But in our hearts, she liveth still. Sadly missed by her husband and children.

### BASEBALL GAME ON THE FOURTH

There will be a base ball game between Mt. Vernon and Harlan on the Fourth, Friday. The game will be played on the school athletic field at about one o'clock. There will be a double header. Admission will be free but contributions will be acceptable. Mr. Larney Durham is the local manager of the team.

### TO FARMERS

Received a truck load of Ammonium nitrate June 20th. D. B. Saylor, Fertilizer Dealer, Mt. Vernon, Ky. 3512

### SEINING OF MINNOWS

Frankfort, Ky., June 25. The seining of minnows and crawfish from the streams of Kentucky for commercial use has been barred by a permanent regulation filed today with the Statutes Revision Commission.

## Betsy Price Suffers Stroke

Betsy Price suffered a sun stroke last Friday when she was riding a bicycle on the highway from the home of Amos Owens that same day where she is now recuperating. She will probably remain bedfast for several days before she will be able to go back to work. Miss Betsy was at Burr on the accident happened when the car she was riding in at present employed at the Town House Chinese Restaurant in Cincinnati and plan to return to Cincinnati as soon as she is fully recovered. When in Cincinnati she lives with her aunt Mrs. Jane Owens.

## Chrysler Car Stolen

The new 1952 Chrysler owned by Bob Century was stolen last Monday night. Today no clue has been found as to the whereabouts of the car. The automobile was parked at his bedroom window.

## FARM BUREAU NEWS

Those who have joined the Farm Bureau during the month of June are: Mrs. A. C. Caudill, Roy Cummins, W. D. Gentry, Dewey Nicely, Grant Banks, U. G. Baker, W. E. Proctor, Coy Baldwin, Eddie Renner, Lloyd McKinney, Walter Durham, Lloyd Monk, Morgan Saylor, Ray Pope, G. D. Scott, Leroy Morris, J. T. Sifton, Whit Belcher, J. C. Parsons, Verna Lewis, Blossom French, Vera Lee Knight, Gus Chandler, Francis A. Palmintier, Willie Bullen, Jack Fugett, B. W. Towery, Colston Blanton, Lee Renner, Lester Doyle.

## ATTENDS UNION COLLEGE

Barbourville, Ky. Three students from Rockcastle County are enrolled in Union College classes this summer. The total enrollment in Union college summer courses is ninety per cent greater than in the first term last summer, and includes 458, of whom 35 are in extension work for juniors and seniors at Lindsay Wilson College.

They are: Aleana Don, Brodhead; Marie Meadows, Livingston; and Everett Price, Hansford.

## REPRESENTATIVE HERE

A representative of the Lexington, Kentucky office of the Social Security Administration will be at the Courthouse, Mt. Vernon on Thursday, July 3, at about 10:00 A. M., for the purpose of furnishing information and assisting persons in filing claims under the Old-Age and Survivors Insurance benefit provisions of the Social Security Act. All workers who are at least 65 years of age and residing in or near Mt. Vernon covered by the Social Security Act, as well as the nearest relatives of deceased workers who have been employed, are invited to visit that representative.

## Death Claims C. E. Adams

Charles Edward Adams, Born June 7, 1874, deceased June 29, 1952, or 78 years and 22 days. He was the son of Jim Adams, and Charlotte Peoples Adams. He leaves to mourn his passing, his wife Mrs. Lola Adams, six sons, and three daughters.

Miss Adams, Hamilton, Ohio Corrie Adams, of Hamilton, O., Dudley, Adams and Shirlee Adams, both of Hamilton, Charles Adams, Jr. of New Albany, Indiana, and T. J. Adams, of Mt. Vernon, Ky. Mrs. Beulah Fredericks of Jacksonville, N. C., Carrie Bowling of Hamilton Ohio, and Mrs. Gertrude Farnley of New Albany, Ind. He also has one sister Amanda Simpson of Nashville, Tenn.

Mr. Adams, was a member of the church of Christ. Before he died he told his folks, that he was with Peace with God, and that his next meal would be in Heaven.

Funeral services were conducted at the Home near Mt. Vernon, Ky. on Tuesday evening at 8:00 o'clock. Brother G. W. Murphy, officiated the sermon, assisted by Bros. W. C. H. and Rolla Cornelius. Burial was in the Family grave yard.

Funeral Home I. C. had charge of the remains.

## Attends Summer Camp

Cadet Napoleon M. Smock, son of Mr. and Mrs. N. M. Smock, Mt. Vernon, Ky., is currently attending the Air Force Reserve Officers' Corps Summer Training Camp at Robins Air Force Base, Georgia for a four week period commencing on June 22nd.

Mr. Smock is a member of the Advanced Course of the AFROTC unit at University of Kentucky. The encampment, which is similar to that conducted at sixty other Air Force installations throughout the United States, is designed to give the student a first hand insight into the operations and activities of the USAF. A well-rounded curriculum has been planned to orient the student in military technical and administrative functions of the Air Force. In addition, the student will receive an opportunity to develop his ability at leadership, drill and exercise of command.

Robins Air Force Base is the Headquarters for the Warner Robins Air Material Area which is responsible for the maintenance and supply requirements of Air Force establishments in Virginia, the Carolinas, Georgia and Florida.

## HEALTH NEWS

The Kentucky State Department of Health has positions open for sanitation and narcotics inspectors. Examinations for the positions will be held at 10 July at Central Daylight Time, in the room 620 of the State Department of Health building, 620 Third St., Louisville. Applications local health officers or any other local health officer.

According to John W. Heninger, Merit System Supervisor, there are four openings for Sanitation Inspector IV, two openings for Narcotics Inspector IV, and one opening for a Narcotics Inspector VII. Minimum qualifications for Sanitation Inspector IV include graduation from college with a degree in food or dairy technology or public health, or graduation from college with 15 to 20 hours in chemistry, bacteriology or general science and two years experience in each phase of factoring, dispensing, teaching, sales or allied work. Experience in pre-medical training or as a graduate of an accredited college of pharmacy or a recognized school of law. Four years experience in each phase of factoring, dispensing, teaching or related work also is necessary. Salary for this position starts at \$4320.

Applicant for Narcotics Inspector IV must have a college degree plus two years experience in investigative or inspection work. Experience may be substituted for each year of college work not completed. Starting salary is \$2880 a year. To qualify for Narcotics Inspector VII it is necessary to have a college degree (preference may be given to those having pre-medical training) or as a graduate of an accredited college of pharmacy or a recognized school of law. Four years experience in each phase of factoring, dispensing, teaching or related work also is necessary. Salary for this position starts at \$4320.

## Officers destroy 65 Still in year

Sheriff Arthur Payne, assisted by Dewey Ballinger and Policeman Arnold, made a raid on a moonshine still located about a 100 yards to the rear of what is known as White Spot north of Conway Saturday June 21. The raid was made at 3 o'clock in the morning. The officers found a complete still and two barrels of mash. Officers arrested Bill Eaden who was found at the still.

On the following Saturday, June 28, officers made a raid at Elzie's place 8 miles south of Mt. Vernon near Livingston. They found 17 half pints of red liquor. Two men were found drunk at the place.

A raid was also made on Bert Green's place last Sunday at Burr. Several pints of moonshine was destroyed.

The local police officers reported that since their incumbency in office at least 65 raids on moonshine and illicit liquor have been made in the County. This is over a period of two and one half years.

## McKee to hold Electric Show

Centered around the theme "Go All Electric" this year's Annual Meeting and Electric Farm Show of the Jackson County REC offices for July 24 and 25 at the Bond Memorial Park, McKee will feature a model farm workshop.

Centered around the theme "Go All Electric" this year's Annual Meeting and Electric Farm Show of the Jackson County REC offices for July 24 and 25 at the Bond Memorial Park, McKee will feature a model farm workshop.

## Abandoned Truck Found

A '49 GMC pickup truck was found abandoned on the highway near Mt. Vernon Tuesday. The switching apparatus was in view of the road and officers believe that the truck was stolen one. Papers left on the car had the name of Lester Richmond of Craigsville, Va. The car was pulled in by Baker's garage where it will be held until the owner is found.

## MISS PATRICIA TAYLOR HAS BIRTHDAY CELEBRATION

Miss Patricia Taylor, daughter of Mr. and Mrs. Lloyd Taylor, celebrated her thirteenth birthday Tuesday evening with a party at her home. Games were played, and John Norman Meadows entertained the guests with a piano solo. A humorous play was acted by Charles David Riddle and Melvin Taylor.

Party up presents were opened and the following were served to the following: Ruby Barnett, Roger Bobkins, Bobby Machal, Joan Gagnard, Odell Hammons, Billy Gregory, Barbara Lair, Jimmy Linville, Milton Miller, Pat O'Mara, Faye Parrick, Charles David Riddle, and Melvin Taylor.

Also present at the party was Mrs. Shirley Riddle.

## County To Reduce Taxes 50c per \$100

### Treasurer pays off \$45,000.00 during past year leaving balance of \$17,000.00 indebtedness.

## Attends Association

Roy G. Brown of Mount Vernon, field representative for the Cumberland Credit Association, attended the agricultural seminar on financing agriculture at the University of Tennessee, Knoxville, on June 24-26. Other Cumberland PCA officers and personnel attending with him were: D. C. Sherman, of Somerset, secretary-treasurer; M. H. Sasser, of Liberty, and Barkley F. Colson, of Campbellsville, field representatives; and Curtis E. Denny, of Somerset, a director.

The two-day short course was attended by 150 representatives of PCAs throughout Tennessee and Kentucky. The seminar for the two States is held in alternate years at the University of Tennessee and the University of Kentucky.

The seminar is designed especially for the persons in the credit cooperatives who deal with farmers in making and servicing loans for \$40,000.00 to \$50,000.00 annually in farm operating loans.

## Named Minister of the year

The Rev. Eura Mathis of Haney, Ky. has been named Kentucky's Minister of the Year for 1952. By The Progressive Farmer magazine. He is pastor of the North Pleasant Grove Cumberland Presbyterian Church in Marshall County.

He will receive in connection with the award a scholarship of \$3000.00.

## PROGRAM

A program commemorating the 100th anniversary of the birth of Henry Clay will be held in Lexington next Monday, July 10, and one day after the "Sage of Ashland" died in Washington, D. C., at the age of 75.

Cooperating in staging the centennial observances are the Henry Clay Memorial Foundation of Lexington, the Filson Club, a private historical society, related to Kentucky and Ohio Valley with headquarters in Louisville, Transylvania College and the University of Kentucky.

The University has scheduled its summer Blazer lecture in history and social sciences for this year with "Daylight Time" Monday, June 30, in the Guignol theatre of the University's Fine Arts building. Subject of the lecture will be "Henry Clay of Kentucky" and it will be open to the public.

Speaker for the occasion will be Dr. Glyndon G. VanDueson, professor of American history at the University of Rochester and authority on the life of Henry Clay. He is the author of a biography recognized as the most complete work on Clay's life.

He is an outstanding school teacher. Educational leaders from several other states have visited his one-room school to observe his methods.

Kentuckians who have been named Rural Minister of the Year earlier are the Rev. Sam VanderMeer, Breathitt County Presbyterian Church, Metis, Ky. 1948; Rev. T. W. Spicer, Keene Baptist Church, Route 2, Nicholasville, 1951. In 1950 Rev. J. D. Jones, of Campbellsville, district superintendent of the United Methodist Church, was named. He has helped many men helping him. The concrete is now being poured for the foundation. Mr. Owens estimates that the building will cost approximately \$20,000.00. About \$8,000.00 of this amount has already been raised. Mr. Owens Revision Commission building by the Department of Fish and Wildlife Resources.

About \$8,000.00 of this amount has already been raised. Mr. Owens Revision Commission building by the Department of Fish and Wildlife Resources.

The Mt. Vernon Baptist Church, shown here, will have a 30x90 addition completed and ready for occupancy by Christmas.

## Church To Build New Sunday School Rooms

### Addition to be 30x90 and contain at least 24 rooms. Ready for occupancy about Christmas Time

The Mount Vernon Baptist Church has begun the construction of an addition to the present church edifice. It will be a Sunday School building and will measure 90 feet in length and 30 feet in width. It will be to the rear of the present church building with a back structure of wood, with a brick veneer. It will be two stories in height and will have about 24 rooms for classes with an assembly room on each floor. The large Sunday School attendance at present has made it imperative that these extra rooms be built to accommodate

the ever increasing number of pupils. The present enrollment of the school is approximately 500.

The new building is being constructed by Beecher Owens, a local builder who is also a Baptist Church member. He has many men helping him. The concrete is now being poured for the foundation. Mr. Owens estimates that the building will cost approximately \$20,000.00. About \$8,000.00 of this amount has already been raised. Mr. Owens Revision Commission building by the Department of Fish and Wildlife Resources.

The friends of Bob Robinson will regret to learn that he still remains very low.

Mr. and Mrs. Russell Daugherty and son Billy Joe from Richmond, Indiana were through here to see relatives, while en route to Knoxville, Tennessee to spend a week with relatives.

"I REMEMBER" BY THE OLD TIMERS

From Mrs. H. Stolman, Duluth, Minn.: I remember when we drew an open team. When they saw water in the ditch, they would pull over and have a drink and then come back on the road.

From Mrs. J. C. Petty, Goldkette, Texas: I remember when people would go from house to house and have old-time singings. People would go for several miles in wagons, camp for a week or several days meeting. People go to worldly things now.

From Mrs. Thomason, Colorado Springs, Col.: I remember when my mother raised the hops to make the yeast to bake the bread in a brick oven for our large family.

From Mrs. Russell Hugh, Foston, Minn.: Remember taking the tick out to the big fresh straw pile and filling it with new straw? The first few nights one would need a step-ladder to climb into the high bed. Straw was also used as a pad for the "front room" carpet. The Good Old Days? Perhaps!

From Mary Karch, Lakewood, Ohio: I remember when the well and cistern would go dry in summer, we'd load the bobbed with tubs and wash boiler and go to the creek on wash day. Mother would take a picnic dinner along, and we'd make a day of it.

From E. E. Meredith, Fairmont, W. Va.: Do you remember when railroad trains were referred to as "the cars"?

(Mail your memories to THE OLD TIMER, Box 340, FRANKFORT, KY.)

there. Mr. and Mrs. Clyde Barnett and children were over from Mt. Vernon, Sunday visiting relatives.

Mr. and Mrs. Willie Halcomb and little daughter Joan from Hamilton, Ohio, are visiting their parents Mr. and Mrs. John

Halcomb of Livingston and Mrs. Cora Mullins.

Mr. and Mrs. Jasper Mullins from Dayton, Ohio, are visiting their parents, Mr. and Mrs. Danny Mullins Sr. and Mr. and Mrs. Ben Ponder.

Mr. Estill Kirby and son Ronnie from Covington, spent Friday night and Saturday with his daughter Mrs. Sherman Ponder, Mr. Ponder and children.

Mr. Bill Rains was home over the week-end from Dayton, Ohio to see his father, Herbert Rains and brother Quilian C. Rains. They were Sunday dinner guests of Mr. and Mrs. Carolus Phillips and little daughter, Donna Lynn.

Mr. and Mrs. Bob French and son Roy Ray spent Saturday night and Sunday with her father Mr. Matt Singleton and children.

They are bringing Mrs. Suzan Singleton home from the hospital at Danville. She still remains unimproved.

Mr. Burgess Abney that got his leg hurt is improving. Mr. Willie French spent Fri-

day Night with Wilburn Thomas on Crooked Creek.

Quilian C. Rains held two of the lucky numbers of the Business Men's Club, drawing of Livingston Saturday. He got a \$x12 Gold Seal rug and a nine quart cooker.

HEALTH NEWS

Would you know what to do for a person suffering from heat exhaustion or sunstroke? The Kentucky State Department of Health lists the following emergency measures:

SUNSTROKE

The victim feels dizzy, sometimes nauseated and has acute pain in the head. These symptoms are followed rapidly by unconsciousness. The skin is dry and hot and the face red or purple. Remove him to a cool spot. Apply ice or cold cloths to head. Sponge body with cold water. Give no stimulants. Call a physician. This is serious!

1952 POLIO PRECAUTIONS

RECOMMENDED BY THE NATIONAL FOUNDATION FOR INFANTILE PARALYSIS

Seven-year-old Karen Blecha enacts 1952 polio precautions recommended by the National Foundation for Infantile Paralysis. When polio is around, the National Foundation cautions parents to watch for these signs: headache, fever, sore throat, upset stomach, tenderness and stiffness of neck and back. A person showing such symptoms should be put to bed at once, away from others. Then, call your doctor and follow his advice. If polio is diagnosed, call your local chapter of the March of Dimes for advice and assistance, including needed financial help.

MONSTER TANK CARRIER TRIES TEST ROAD—This 200,000-pound Army tank retriever was one of the heavy vehicles used on the Maryland Test Road by highway engineers in an experiment which proved that pavement built on gravel will carry weights far greater than the heaviest commercial trucks permitted anywhere.

Motorists today drive smoothly at 50 mph over the site of the road. It was said, exists nowhere except in a few parts of Maryland and Delaware, but the engineers' findings indicate that pavements built anywhere on poor soils, without adding gravel, require faithful maintenance if rain and weathering are not to weaken them so they cannot bear even ordinary traffic.

The Maryland Test Road was reopened to public use after the state highway department spent \$9,918 on it, mostly to fix shoulders and drainage sound faulty before the test.

Highway designers and builders are hopeful that the Maryland test and others in prospect will point the way to better highway construction and care. They have learned that a good foundation is under 85 percent of the test road, a good start, for any road.

**SPEED, DRINKING CALLED BIG JULY 4 HAZARDS**

Frankfort, Ky., July 3—Speed and drinking drivers can turn the Fourth of July from a holiday into a day of tragedy, Charles B. Jones, executive secretary of the Governor's Committee for Highway Safety, warned to-

Ms. 2446 is out in sizes 12 to 36; Ms. 2440 is out in sizes 12 to 36. Each pattern with name, address and phone number. Send 10¢ for each pattern with name, address and phone number. Send 25¢ for the new Spring-Summer Fashion Book showing 125 other styles. 25¢ extra.

The three-day holiday over the Fourth of July weekend means Kentucky's highways will be crowded with traffic on more than during any other similar period this year, and it means each driver will have to exercise more good judgment, Jones said. "The two chief killers of the highways, speeding and drinking while driving, will claim a record number of lives if we are not careful." Jones pointed out that eight Kentuckians lost their lives in traffic accidents over the last long holiday weekend at Memorial Day. Four died during a three-day period over the Fourth of July last year, when the holiday came in the middle of the week.

Speed and drinking figured in a number of these deaths and in numerous accidents where no deaths occurred, Jones said.

Through June 25, Kentucky had recorded 330 deaths for 1952, according to State Police records. Through the same period in 1951, there were 320 deaths.

**MOTOR TRANSPORT FEES EXCEED ALL PAST YEARS**

Frankfort, Ky., July 3—Receipts in Kentucky's Motor Transportation Department for the 1951-52 fiscal year exceeded those of 1950-51 by \$257,466, John M. Kinnaird, Commissioner of Motor Transportation, reported today.

The figures are \$2,010,004 for the year just ended and \$1,752,538 for the previous year. Kinnaird said stricter enforcement of Kentucky's motor transportation laws and increased transportation operations were responsible for receipts exceeding \$2,000,000 for the first time

in history. The 1950-51 figure, the previous high, was exceeded during the first 10 months of 1951-52.

A three-year gain of \$551,595 was shown in Kinnaird's report. The 1948-49 total was \$1,458,409. Last year's receipts by classes, compared to the receipts of 1950-51:

—Taxicab permits, \$20,650 — \$22,645; taxicab licenses, \$29,446 — \$29,663; bus mileage tax, \$303,040 — \$296,257; bus permits, \$14,825 — \$15,260; regular bus licenses, \$440,222 — \$357,036; city bus licenses, \$55,279 — \$2,064; truck permits, \$129,008 — \$102,120; truck weight tax, \$397,325 — \$330,715; and driver licenses, \$50,210 — \$47,074.

**LAKE CUMBERLAND PARK RECEIVES \$95,000 FUND**

Frankfort, Ky., June 30—Governor Lawrence W. Wetherby today issued an executive order which makes \$95,000 available from his emergency fund for the development of a state park on Lake Cumberland.

Governor Wetherby said he selected this park for attention because of the importance of its place in the state system of parks. The funds will supplement those heretofore allocated for the development of the park.

The state has acquired from the U. S. Corps of Engineers a 3,000-acre tract of land on the reservoir created by the construction of Wolf Creek dam on the Cumberland river, and now has the park under construction. It has been named Lake Cumberland State Park.

The area is located in Russell county, three miles from Wolf Creek dam and 10 miles from Jamestown. It has 35 miles

of shoreline on the lake, and most of it is in the form of a peninsula, with water on three sides.

"Five miles of roads and parking areas are now under construction inside the park, and will be completed in August. Included in this project is a 100-foot parking area for the park's boat dock, which will be located on Pumpkin creek embayment, splintered from the lake proper."

For the present time, the park has a boat dock in operation in a limited way at the old site of the Rowena ferry, where State Highway 35 once crossed the Cumberland river. A new boat dock is nearing completion, and will be in operation at this site later this week. When the roads have been finished, it will be moved to the permanent site on Pumpkin creek.

Also nearing completion is a headquarters building for the park, and plans call for early installation of picnicking facilities. Cabins vacation purposes will be built out of the new money granted the park by Governor Wetherby.

"Lake Cumberland State Park will be one of the major parks in the state system," Henry Ward, commissioner of construction, declared today. "Experiences at Kentucky Lake have demonstrated that the vacationing public likes the big lakes, for recreation as well as fishing."

The scenery at Lake Cumberland is spectacular, and the terrain lends itself to construction of park facilities. An entire day that I spent there last week walking over the area again confirmed this opinion.

Ward added that development of the park cannot move as rapidly as desired because of some construction difficulties, and particularly in providing an adequate water system. Much work had to wait on completion of the roads inside the park, he said.

The park merits attention for many reasons," he declared. "Its other attractions are enhanced by the fact that it is an excellent recreational location."

of the park, and will be completed in August. Included in this project is a 100-foot parking area for the park's boat dock, which will be located on Pumpkin creek embayment, splintered from the lake proper."

For the present time, the park has a boat dock in operation in a limited way at the old site of the Rowena ferry, where State Highway 35 once crossed the Cumberland river. A new boat dock is nearing completion, and will be in operation at this site later this week. When the roads have been finished, it will be moved to the permanent site on Pumpkin creek.

**OTTAWA**

Mr. Val Ray Wright, son of Mr. and Mrs. Graydon Wright, is on a Sunday guest, Mr. U. S. S. Rupertes D. D. 851 Div. 1.

Mr. and Mrs. Otis F. Burton had as their Sunday guest, Mr. and Mrs. Virgil Lawrence and family, Mr. and Mrs. Homer Cash and family.

Mr. and Mrs. Albert Hayes, Mrs. Etta Burton and son, Mr. and Mrs. Lance Dillingham of Sand Springs, Mrs. Gorman Lee Dillingham and son of Ohio was Sunday guest of Mr. and Mrs. Mode Ham.

Mr. and Mrs. Graydon Wright spent Sunday with Mr. and Mrs. Shelby Cummins and son.

Miss Gayle Jones, daughter of Mr. and Mrs. Hermon Jones of Middletown, Ohio is spending this week with her grand parents, and other relatives.

Mr. and Mrs. William Woodrow better known as Woody Hayes, and baby Larry Stephen were week-end guests of Mr. and Mrs. Albert Hayes and Mrs. Mrs. Albert Hayes and Mrs. Mrs. Mrs. Roger Yeakle, and Mrs. Edward Adams of Hamilton, Ohio and Mrs. Morris Adams of Brodhead, visited Mrs. Patsy Adams last Monday.

Little Miss Phyllis Lawrence — daughter of Mr. and Mrs. Virgil Lawrence was in Berea Hospital two days and nights last week. She is home now and O. K. Carlos was sick last week also.

Mr. and Mrs. William Tyree and Mrs. Amanda Tyree of Cincinnati, Ohio is visiting Mr. and Mrs. Virgil Lawrence this week.

Mrs. Patsy Adams spent last

week with her son, Mr. and Mrs. Sief Parkerson and family at Hiatt.

Mrs. Novara Proctor, and Mrs. Anna Caudell, spent last week with Pvt. Bobby Proctor and Mrs. Proctor in Louisville.

**OHIO DEAN SPEAKS AT UK CONFERENCE**

Dr. Donald O. Cottrell, dean of the College of Education at Ohio State University, was the principal speaker at an annual conference on "Developing Moral and Spiritual Values in Education" this week at the University of Kentucky. Purpose of the conference was to explore the responsibility of the public school and other community agencies in the development of these values.

Several discussion groups were conducted in connection with the conference, conducted by the University's College of Education.

**OBSERVANCE STAGED IN MEMORY OF CLAY**

The 100th anniversary of the death of Henry Clay was commemorated in ceremonies at the University of Kentucky this week. Co-operating with the

University in staging the centennial observance was the Filson Club, a private historical society devoted to Kentucky and Ohio Valley history, and the Henry Clay Memorial Foundation. Dr. Clayton G. Wadsworth, professor of American history at the University of Rochester and author of "Biography of Henry Clay," spoke at the observance.

**HEAT EXHAUSTION**

The victim is pale, his skin cold and moist, his breathing rapid and shallow. He is usually conscious. Lay the victim in a cool, quiet place. If conscious, give salt in water. Call a physician.

STATE CHAMBER URGES KENTUCKY DELEGATES INCLUDE 8-POINT PROGRAM AT NATIONAL POLITICAL PARTY PLATFORMS

The Kentucky State Chamber of Commerce today sent to all Kentucky delegates to the Republican and Democratic national conventions an eight-point "Platform for Better Federal Government" which it recommended be included in the 1952 campaign platforms of both major political parties. The eight planks, which the Chamber said represent a constructive approach to better government at the Federal level cover the following objectives: (1) Business-like operation of essential Federal services and the elimination of those "orphaned" agencies; (2) strengthening of the legislative machinery of Congress; (3) a broad-based Federal taxing system which will safeguard the incentive of individuals and industry to produce under a free market economy; (4) transfer of uneconomically managed Federal business enterprises to "taxpaying private ownership" in the interest of better service to the people; (5) strengthening of local self-government; (6) withdrawal of the Federal Government from the use of tax powers to subsidize State and local governments rely, and curbing of Federal grant-in-aid programs; (7) a reduction in the role of Federally-owned real estate not being used in the performance of essential Government functions; and (8) curbing of Federal subsidies to private enterprise.

In a letter accompanying copies of the proposed eight-point platform here presented will appear to all convention delegates who stand for the improvement of our American society of free men. The anti-economic and political power in Washington, the dominance of the Federal bureaucracy over representation of the people, the strangulation of local self-government and the free market system."

CINCINNATI REDS

The Cincinnati Reds return to Crosley Field Friday night when they will open an important four-game series with the rejuvenated Chicago Cubs. After the night contest on Friday, the Reds will engage the Bruins in a Saturday afternoon Ladies Day Game and a doubleheader on Sunday June 29.

It will be American Legion Night at Crosley Field Friday, June 27. The Legionaires will present a twenty-five minute pageant before the game, featuring a drum corps and a military band.

A lot of color, music, parading and drills is scheduled for this occasion. As an added attraction, the Cincinnati American Legion Junior Baseball Field will put on a ten minute fielding exhibition prior to the start of the Cub-Red game.

After the Chicago series the Reds will travel to St. Louis before returning to Crosley Field, July 3, for a two-game stand against the Pittsburgh Pirates.

Phil Cavaretta's Cubs have been the surprise of the National League with their fine play this season. Big Dick Sauer has continued to stroke one of the hottest bats in the senior circuit as his blasting home runs and driving in runs with regularity.

With the Reds hospital list diminishing the Cincinnati Club should be ready to make things interesting for the top clubs in the circuit.

Phoebe Frank Hiller, who has been sidelined with a knee injury may be ready to go for the Chicago series. Tickets for future home games of the Cincinnati Reds can be obtained by writing on the visiting Reds Ticket Office, 307 Vine St. Cincinnati, Ohio.

Thursday, July 10th, will be the Hall of Fame Night at Crosley Field. The Reds will oppose the Boston Braves. Members of the Hall of Fame have been invited to attend and already such well known figures as Connie Mack, Tim Lincecum, Carl Hubbell, Cy Young, Paul Waner, George Sisler, Charley "Kid" Nichols, Charles E. Gehringer, George Jimmie Fox, Mickey Cochran and Frank Clark have accepted the invitation.

Four of America's vice-presidents were native Kentuckians. Their names: Allen W. Barkley, Adlai E. Stevenson, John C. Breckinridge, and Richard M. Johnson.

Can Green Beans at the Peak of Their Growing Season

Always Process Them in a Steam Pressure Cooker Green beans provide a nutritious green vegetable year-round. The best time to can them is at the peak of their growing season. They should be picked when they are young, before they have become stringy.

Wash the beans, string them if necessary, and break or cut into one or two-inch pieces. Cover with water in a steam pressure cooker. Pack loosely into hot Ball Mason Jars and add a teaspoon of salt per quart. Cover with water in which they were cooked or with fresh boiling water.

As with all low-acid vegetables, it is most important to process beans in a steam pressure cooker. If they are just right for canning at the time of processing, process 40 minutes and pints 20 minutes. If they are near the "shell out" stage, process them 15 to 20 minutes.

Using gloves with padded palms is a safe, easy way to handle your pressure cooker cover. Always lift the far side of the cover. The steam will escape away from you.

HENRY CLAY (continued from page 1)

11: o'clock on Tuesday, June 29, 1852. He was 75 years, two months and 10 days old. Inadvisable to say, he was a general, Senator James C. Jones of Tennessee was present at his death. Heavy tolling of bells announced Clay's death in Washington; all Government departments were closed and both Houses of Congress adjourned. Newspapers throughout the land carried the sad news in heavy leaded columns, as thousands mourned the loss of one of America's most beloved sons.

President Fillmore appointed a committee of six United States Senators to accompany Clay's body to Lexington for burial. A roundabout route back to Kentucky was chosen to give the public a chance to express its sympathy and mourning. The route took steamboat and rail through some 20 principal cities, including five State capitals, and covered about 12,000 miles. The long trip back to Lexington was a great display of funeral pageantry the country had ever seen.

At the elaborate funeral ceremonies in the Senate Chamber, the body lay in state until 3:30 P. M., when it was removed to the public a chance to express its sympathy and mourning. The route took steamboat and rail through some 20 principal cities, including five State capitals, and covered about 12,000 miles. The long trip back to Lexington was a great display of funeral pageantry the country had ever seen.

At the elaborate funeral ceremonies in the Senate Chamber, the body lay in state until 3:30 P. M., when it was removed to the public a chance to express its sympathy and mourning. The route took steamboat and rail through some 20 principal cities, including five State capitals, and covered about 12,000 miles. The long trip back to Lexington was a great display of funeral pageantry the country had ever seen.

**DRIVER TRAINING PUSHED FOR STATE HIGH SCHOOLS**

Frankfort, Ky., July — Kentucky's Department of Education is encouraging high schools in the state where such training does not exist to inaugurate driver training courses, according to Superintendent of Public Instruction Wendell P. Butler.

Butler said a new manual on driver education, which will be issued this fall, will push classroom study of driving in addition to actual automobile practice. Many schools have not been able to teach driving because of the impossibility of obtaining automobiles, he said.

"Although the ideal training includes on-the-road instruction by a qualified teacher, lack of a mere flick of a switch in the schools from teaching driving. Much valuable instruction can be given in the classroom that will benefit the student when he starts the actual operation of an automobile."

Under the State's present course of study, it is recommended that students spend twelve hours in an automobile during a semester course. Six hours are spent in observation and six hours behind the wheel. The rest of the course is in the classroom.

E. B. Whalin, director of Health and Physical Education for the Department of Education said about 75 Kentucky high schools offered driver training last year to approximately 3,000 students. He expects an increase during the coming school year.

The department is cooperating with the Governor's Highway Safety Committee in promoting the training.

**KENTUCKY FARM BUREAU FED.**

"What good is hay in the field, already harvested, cured, and baled, without transportation to haul it to the barn or market?" J. E. Stanford, Kentucky Farm Bureau Executive Secretary, asked today. He states that this question is parallel to the situation that Kentucky farmers find themselves in today with regard to electric power.

Stanford explained that the recent Court of Appeals ruling to grant the Eastern Kentucky Rural Electric Cooperative Cor-

poration permission to build its own power-generating plant at Ford, Kentucky, and then refusing to give the Corporation permission to build 597 miles of transmission lines to carry the power to the Corporation's 18-member cooperatives, was not unlike hay in the field without means to move it.

For some unexplained reason, Stanford said, the Court sent the question of constructing transmission lines back to the Public Service Commission "after the P.S.C. had al-

ready granted approval for building the lines."

He hinted that perhaps a "monkey-wrench was thrown into the works by some special interest group when he said: "For years electric co-ops have complained that they could not obtain enough cheap power from existing facilities. It was their general complaint that led to planning of the Ford plant, so if the power from this plant should be distributed over private utility lines at a nice profit it would mean that the farmers

comprising the 18 East Kentucky Co-ops were being forced to generate power for the profit of private utility companies." Farm Bureau has continually sought efficient operation of rural electric co-ops in order to deliver lowest electric service to rural areas. "This proposition to prohibit the building of transmission lines to deliver low-cost electric energy certainly defies the basic principle of rural electric service," Stanford concluded.

**SIXTH FAMILY LIFE INSTITUTE IS HELD**

"Who shall prepare our young people for successful marriage and family living?" was the theme of the University of Kentucky's sixth annual family life institute conducted this week on the school's campus. More than 200 persons attended the institute, and the teachers organization of the Kentucky Education Association closed a two week

workshop by attending sessions of the affair. Principal speaker at the institute was Mrs. Rebecca Nelson Mitchell of Indiana University, specialist in family life education, and chairman of the event was Dr. James W. Gladden, assistant professor of sociology at the University.

Mrs. Earl Ramsey of Manchester is spending a few days with her parents Mr. and Mrs. Brock King.

**TV 'MAGIC CARPET' TO CARRY MILLIONS TO CONVENTIONS**

**Viewers to Get Ringside Seats, Tour Chicago Area by Camera**

Some seventy million Americans will travel to Chicago during July aboard the magic carpet of television. By a mere flick of a switch they will be on their way to tour the Loop, visit the top hotels and meet the next President of the United States face to face.

To most laymen, the plans for television coverage of the political conventions are right out of the Arabian Nights.

Four networks will transport the residents of hundreds of American cities into the International Amphitheater where the Republicans and Democrats will assemble.

Historic Audience The camera will give them a bird's-eye view of the entire gathering, then whisk them close enough to a single delegate in the convention hall to spot the sweat stains, if any, on his necktie.

The vast spectacle of American democracy at work will be viewed by more people than any other event in the history of the world. As Sig Mickelson, CBS television executive in command at Chicago, says: "The effects of television on this convention may shape the destiny of the nation."

A battery of seven cameras will record history as it unfolds within the walls of the huge Amphitheater, located in the heart of the famous Stockyards district. Doorg Covered Two will cover the main entrance to the building, catching notables as they come and go. Five will be set up on special platforms in the arena, at locations from which they can zoom into every inch of the convention hall.

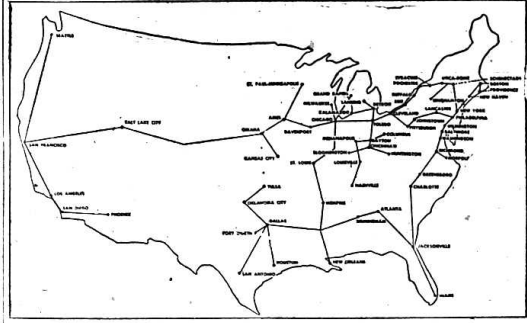

TV viewers also will visit convention side-shows, such as press conferences and parades, and travel to Chicago's municipal airport and railroad stations to see the arrival of prominent politicians.

CBS, for instance, has assigned two mobile units, complete with cameras and equipment, to cover the entire Chicago area. On Constant Call Like patrol car police, the unit crews will be on constant call to rush to the scene of action when a news event breaks. It has been pointed out that the television audience will see more of the conventions than even the delegates or the individual television reporters in the hall.

Bella Furness, who will give live commercial for Westinghouse Electric Corporation on the CBS network, has jokingly said: "I'll have to go home to find out who's been nominated." Miss Furness will be "captivity" within the special CBS studios at the Amphitheater.

Since commercials will be presented only during dull moments in the convention proceedings, she will be compelled to stand by during every session awaiting a hull. The instant a bell rings, sounding a cue, she must be "on-stage" before the cameras.

Monitor System CBS viewers on most stations will see the scene selected for them out of fifteen being recorded by cameras and filtered through a staff of five directors.

**TRANSCONTINENTAL**—The convention television networks will span the nation, as the above map indicates. The CBS network will criss-cross the country, with routes to the west coast at Seattle and San Diego and on the east coast of Boston and Miami. The 1948 conventions of Philadelphia, the first ever telecast to the public, were viewed by only six cities in the east. Estimate of the '52 convention TV audience goes as high as 70 million.

Here is the operation, as it will unfold: Don Hewitt, veteran CBS newsmen, presides at the network master control room in the Amphitheater.

In constant communication with four other directors stationed at key news points: one covering the actual convention hall, and the fourth located in the special CBS studios at the Conrad Hilton Hotel.

Each field director monitors the cameras at his news spot and selects the picture to be fed to the CBS master control room.

Final Choice Hewitt sits before a panel of four screens and selects the one

**TV CHIEF**—Sig Mickelson, CBS executive, will be in charge of the huge network operation at the conventions. Only 39, he typifies the youth of top personnel in the television industry. A native of Minnesota, Mickelson is a former newspaperman and college instructor.

long range on a subject for an intimate closeup. The walkie-talkie, which was used at Philadelphia, has been perfected so that CBS reporters may roam the convention floor, unencumbered by cable.

On the arrival of a Presidential aspirant, a party spokesman or a newsworthy delegate, the walkie-talkie reporter can call for an available camera and put him immediately on the air.

The Chicago conventions will be the first ever covered by audio and television under commercial sponsorship.

Westinghouse, sponsor of CBS radio-TV coverage, also has arranged to sponsor over the same network a thirteen-part series of debates between leaders of the two political parties, as well as the returns on election night.

Studio Kitchen For its commercial announcements from the Amphitheater, Westinghouse has installed a complete modern kitchen and living room in the CBS studios there.

Betty Furness will preside over both, demonstrating her appliance amid comfortable, air-conditioned surroundings that will provide a quiet contrast with the hectic scenes on the air. Whoever the party chooses will be, it's certain that they will get a more intimate introduction to the American electorate than was ever given a White House candidate in the history of this country.

As for the choice for vice-president, it appears that the anonymity that shrouded the fictitious Mr. Thricketbottom is gone forever!

Most of the leading candidates also have set up campaign offices at the Hilton, so that press conferences and interviews all will be within range of the CBS cameras.

In charge of this vast network operation is Sig Mickelson, Director of News and Public Affairs for CBS Television. Only 39, Mickelson is a former teacher and newspaperman who served as supervisor of the TV corps that covered the Japanese Peace Treaty conference in San Francisco.

At Chicago he will direct the activities of a staff of 300 men and women that will include everyone from page boys to such famous broadcasters as Edward R. Murrow, Lowell Thomas, Robert Trout, Eric Sevareid and David Schoenbrun.

Railroad Caravan Mickelson's "caravan" will comprise eleven special cars on the Twentieth Century Limited that will transport broadcasters, cameramen, engineers, maintenance men, secretaries and office employees from New York to Chicago.

The network also is assembling political specialists from various parts of the country to analyze convention developments from their local point of view.

CBS gear, including cameras, microphones, dollies, booms, cable and monitors, is being shipped to Chicago in three large trucks.

Although the Philadelphia conventions of 1948 were telecast to the public, for the first time, the job done there amounted only to a test run for the coming operations in Chicago.

**CBS ACE**—Edward R. Murrow, one CBS newsmen, is shown here bounding on a dolly to the "smoke-filled" press room before last week's world to the scene of headline events. (Inset shows a cameraman who will be seen in CBS operation of the convention.)

**HISTORY'S STAGE**—The eyes of the nation will be focused on the International Amphitheater, pictured above, as the political parties meet here to select their candidates for the White House. Television cameras will cover every inch of the convention floor. Special radio and television studios have been installed in the building. A new air-conditioning system has just been installed for the comfort of the delegates.

**TURNED ON**—Acheson (left) Longhorns press grant by his brilliant radio, demonstrating how many millions of Americans will view the conventions, to be broadcast by hundreds of radio stations. Our radio and television will bring millions more to the attention of the history of American and other world events. (Inset will show the operation of the convention.)
