Lois Asher Victim Of Auto Crash

Car in which she and three other companions were riding collides with truck in early morning fog.

Lois Asher, 18 year old daughter of the Reverend and Mrs. B. G. Asher of the Negro Creek section near Brodhead, lost her life instantly when the car in which she and three other girls were riding, collided with a large Huber and Huber truck early last Thursday morning during the heavy fog. The girls were on their way to Stanford where they were in the employ of the Cowden Manufacturing Company. Apparently the Huber truck was attempting to pass another truck when it collided with the Asher car. The accident happened west of Brodhead on U. S. 150, near Crab Orchard. The

Bobby Hamilton Killed In Plane Crash

Funeral services for Second Lt. Bobby Hamilton, son of Mr. and Mrs. J. W. Hamilton of near Edgefield, were held Saturday afternoon at the Berea Baptist church. A very large gathering of friends and relatives was present paying their last respects to a lad who gave his life in the service of his country. Bobby was perhaps known to many of the readers of this paper. His father, a plumber by trade, has been doing evangelistic work lately with great power and success. He preached lately in the Brindle Ridge Baptist Church. Bobby enlisted in the air force and was in the Turner Air Force Base at Albany, Ga., where the tragedy happened. He was testing out his plane when something went wrong. He died Wednesday night at 8 o'clock Oct. 15. Bobby is survived, besides his parents, by his brothers, Joyce, Peggy and Dolly, and two brothers, Richard and Bill.

INJURED IN WRECK

John E. Reese and his bride were injured in a motor accident on U. S. 25 last Saturday at about 7:20 A. M. The accident happened about one mile west of Richmond. Their pickup truck and a car collided head-on. Both Mr. and Mrs. Reese suffered face lacerations. The driver of the car was Edward J. Gardner of Atlanta Ga. He suffered a possible fracture of the nose. All were taken to the University College Hospital for treatment. Police said that the truck, headed south, skidded into the car from the left heart valve. It was the brakes of the truck which were applied to avoid hitting an automobile that had stopped in front of it. Neither vehicle overturned. The Reese couple had spent the night in Richmond.

OPERATION SUCCESSFUL

Robert J. Dailey, 38, was successfully operated on for a heart condition at the Kentucky Baptist Hospital on Monday, Oct. 5th. The doctors were Dr. B. Davis, Dr. DeBarth and W. E. Trautman heart specialists. The trouble with Mr. Dailey's heart was a calcium deposit in the left heart valve. It was a very delicate operation but Mr. Dailey came through the ordeal in fine shape. The family wishes to thank their many friends for their best wishes, cards and gifts. They also wish to state that Robert is now at home.

Announcement

To the voters of Educational District No. 2 composed of West Brodhead, East Brodhead, Brown, Freedom, Pongo and Bullock. It has been rumored that I am in favor of Burgess Robbins for school Superintendent, that I will not vote for the above named is a lie for I have never talked to Burgess Robbins concerning this matter. I wish to announce most emphatically that the above rumors are false. I am not obligated to any person or faction concerning the office of Superintendent. If Burgess Robbins made the statement that a vote for me is a false statement, I have never talked to Burgess Robbins concerning this matter. I have made no promises or commitments to any person or faction whatsoever concerning the office of Superintendent. To make the matter perfectly clear I will not vote for Burgess Robbins nor will I be influenced by Boone Saylor. I understand that our present superintendent has considerable time left in office. By the time her term expires I will be in a better position to know who is the best qualified person for the job. My decision on that will be influenced by nothing except what I believe to be for the best interest of the schools. I feel that Brodhead needs this school and I have never entertained any idea of moving it. I would like to say this concerning teachers salaries. Our children are our most cherished possessions and they are entitled to good instruction by qualified teachers. Teachers' training is expensive and teachers are entitled to a fair salary. Mr. Harris states that our schools have been greatly improved in the past four years. He may say that they show considerable improvement considering the increase in our tax load. I am sure that you board member I promise you that I will have the children and schools at heart and will do my best to make a good member. I earnestly solicit your support. Respectfully yours, Henry Owens.

Coach Laswell has shown a transfer from last year's starting team, guard Charles Baker, who has bettered for the last four years and the two big ends of the squad, Earl Noe and Charles Shepherd. Other boys showing up well in drills are Melvin Taylor, Earl Pittman and a transfer from Livingston High, Bobby Kelley. Missing from the starting team of last year are Jerry Pike, James Brown, Omer graduation and the unexpected loss to the Army of Ed Owens, but this edition of Red Devils show promise of bettering the winning team of last year. A twenty-six game schedule is being worked out and will be announced shortly. So make your plans now to follow the team throughout the season.

Attention Voters

To the voters of Educational District number 2 composed of East Brodhead West Brodhead, Freedom, Pongo and Bullock, precincts I am a candidate for re-election for Member of the Board of Education. During the four years I have served on the Board of Education the bus mileage has doubled, our High Schools have attained an A rating, our rural schools have improved and in general the whole school system has been improved greatly. I assume my opponent is against the present administration or he wouldn't be a candidate, therefore, he must be dissatisfied with our school system. I would like to drop one thought to you people. In any district when one of your children wanted to attend which is one of the best schools in eastern Kentucky, the Superintendent, the Principal, Brodhead and myself have made it possible for you to do so. This is something for you to think about since my opponent says he is against the present administration he must not be in favor of this. Now let me state further that I am against moving any rural school in my district without 100 percent approval of all the patrons of the district. My opponent stated in the Signal that he wasn't making the race for Burgess Robbins nor had he promised Burgess Robbins. Mr. Owens, you didn't have to promise Burgess Robbins since he is an instrumental in getting you to become a candidate and was also instrumental in getting your petition up. Burgess Robbins is going over your district and telling the people that a vote for me is a vote for him for Superintendent, therefore, I believe you have a mutual understanding. It is my firm conviction that the voters of Brodhead are going to elect Burgess Robbins because of the unpopularity of Burgess Robbins that he will state to the people that he will not like him. He may even make a public statement in the paper but I will leave this for you people to decide with all the facts before you. It is my just and honest opinion that Henry Owens is elected and Burgess Robbins elects two others have vote with him that he will be the next County Superintendent. I favor the present administration. I hope to see each and every one of you before the election. I remain your friend John E. Harris

To the voters of Educational District number 5 including Red Hill, Pleasant Run, Crooked Creek, Powers, Orlando and Liberty. During the four years I have served on the Board of Education both of our High Schools have attained an A rating, the bus mileage has doubled, our rural schools have improved, several lunchrooms have been built and in general the whole school system has been greatly improved. I realize that no public officer is perfect but I believe I will be able to improve the schools of Rockcastle County. I find that in canvassing my district that my opponent Mr. Coldiron, tells the people that he has no one in mind in particular for Superintendent. He has called for Superintendent. I would like to ask Mr. Coldiron, why is Burgess Robbins taking such an active part in his campaign? He is saying that a vote for Mr. Coldiron is a vote for him for Superintendent. I don't blame you for denying him for I don't believe he would want a Rockcastle County vote to become a Superintendent. I hope to see as many of you as possible before the election and I will appreciate anything you can do for me. (Mrs) Dannie Mullins.

ANNOUNCEMENT

For Member Board of Education, Rockcastle County Schools J. B. Coldiron. I wish to announce my candidacy for Member of the Rockcastle County Board of Education, for Dist. No. 4 composed of precincts No. 9, Powers, No. 11, Crooked Creek, No. 12, Red Hill, No. 23, Pleasant Run, No. 10, Orlando and No. 30, Mullins.

My statement is brief, and consists of these few words: I am interested only in the betterment of our county schools if that can be done, I wish to help do it. The Children are the ones that are looking to the Board of Education for their future and the voters and taxpayers are the ones to say who will be their representatives. I am making my own race, on my own district and not that of Mr. Robbins, nor Mr. Saylor, Mrs. Miracle. Just asking for the place on the Board. Please don't be deceived by the gossip going around who I am for. Here is how I stand, and how I will vote: J. B. Coldiron.

Vote for me and I will appreciate it, and promise to do my best for Our Children of today that will be Men and Women of tomorrow.

Thanking you in advance, I am Very Truly Yours, J. B. Coldiron, Lamero, Ky.

"Free Enterprise" at its best

We read and hear a lot about the "free enterprise system" these days. It's the American way of life, and it's certainly the world's best.

But your neighborhood Standard Oil dealer, (who is an independent business man, operating his own business, employing his own help, paying his own taxes), has his own definition of free enterprise.

He's found from experience that the service station operator who has the *enterprise* to offer extra *free* services, is the one who winds up with the most customers. That's why, year after year more southern motorists patronize their neighborhood Standard Oil dealer.
