

**BURR**

Mr. and Mrs. Oather Harper and daughter and little grandson Billie visited their mother, Mrs. Maggie Frederick last Sunday, also Mrs. Thelma Thompson and daughter Ruby Jean visited her mother in law Mrs. Maggie Thompson and Mrs. Frederick of Burr.

Mr. and Mrs. Albert Owens little baby has been very ill in hospital but is home some better.

The children of Mrs. Maggie Frederick are planning on having a reunion at Mrs. Frederick's home the 15th day of March. All the children and grand children and great grand children are expected to be here. She will be 74 that day.

Mrs. Shelby Smith's little daughter has been very sick with infected ears.

Mr. and Mrs. George Jones of Crab Orchard stopped to see her mother Friday after going to see George's father who is sick and just out of hospital.

Mrs. Tary Gray has been in a serious condition but is now improving.

Mr. Hubert Bell and family and Mrs. George Jones and family took dinner with their mother and two boys Sunday.

Mr. Vernon Dryden who has been very sick with flu is able to be out again.

Stanley Johnson who works in Dayton, O. spent Saturday and Sunday with his family here.

Robert Dooley was thrown by a mule last week which caused a dislocated shoulder, but at this writing, he is some better.

A new electric line is being made thru the Hickory Valley settlement.

**CALLOWAY**

Miss Pauline Halcomb of Livingston spent Sunday with Miss June Kincer.

Messrs Billy Kincer and Billy Martin have returned from a visit to Dayton, O.

Mrs. Marion Moore is visiting relatives in Indiana.

Mrs. Carl Mullins was called to Hamilton Monday on account of serious illness of her daughter Mrs. J. M. Parsons.

Mr. and Mrs. Art Schaffer spent Thursday night with her parents Mr. and Mrs. Ballard Cummins, they were enroute from St. Petersburg, Fla. to their new home in Ft. Thomas, Ky.

Mrs. Earl Renner and daughter Mary Ann, and Mr. Glenn Mullins spent last week with

their parents Mr. and Mrs. Carl Mullins.

We have heard of face lifting to promote better looks, but I reckon Caloway is getting it's face unlifted, due to the new highway work that is supposed start in a few weeks. Messrs. Henry and Marion Moore are tearing down the Mrs. Delia Friese house. Mr. Russell Holting has purchased the Delbert Martin house and will begin wrecking it this week. Mr. Bill Mink has his home on skids ready to move to the back of his lot. Mr. W. L. Kincer is having a new well drilled and will move his house on the back of his lot in the near future.

Quite a few of our neighbors are setting hens, sure sign of spring. Here are a few hints or helps that might be a vast help to those that raise their own chicks. Ifn you just want to raise a batch of chickens for eating purposes be sure to put a horse shoe in the nest with the eggs, but if you want to

raise all pullets be sure to place a Mares shoe in the nest. (got my Mares shoe at Mullins store) I cant guarantee this last help because I aint found one of them kind of shoes yet. How ever it is said if one wants to raise those nice large Capons be sure to place a Hoss Jennys shoe in the nest.

Mrs. Irvin Kirby was in Mt. Vernon on business Monday.

Mr. and Mrs. Marvin Bledsoe of Richmond spent the week-end with her parents the Cummins and attended the Brodhead vs Livingston at Livingston Saturday night.

**25 YEARS**

25 Years is a long time in the life of a tractor. Yet, right here in Rockcastle County you will find many international tractors that have been serving faithfully and well for 25, 30 and even 35 years.

After all these years the paint may be worn off, the fenders crumpled or gone and its outward appearance not too impressive. But it still remains the owners pride and joy.

If you divide the cost of an International (Farmall) tractor outfit by the number of long trouble-free years it will serve, you will be surprised at just how little it will cost you.

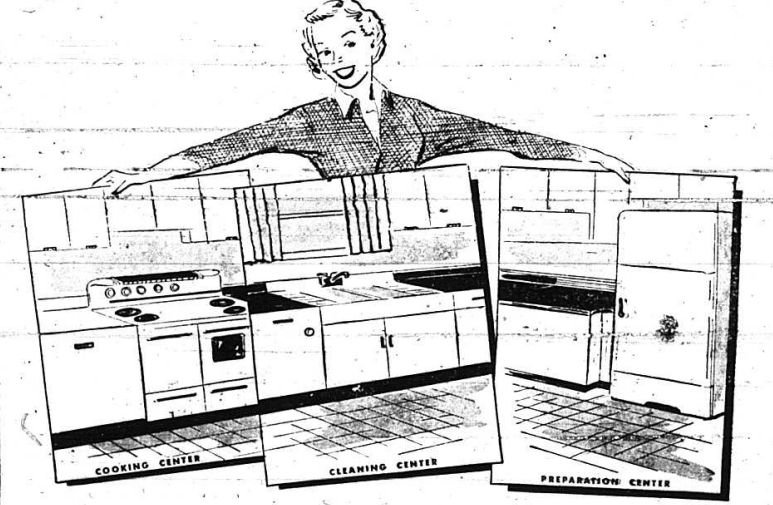

You can buy a new International tractor fully equipped, a plow, a disk harrow, a cultivator and a mower all for as little as \$1358.

**ONE WAY** to greater convenience, more leisure, better meals — plan your kitchen for electric living

More than any room in the house, your kitchen requires intricate planning before it's built or remodeled. For only a planned kitchen will give you the work-saving convenience you want.

Lucky you, if you can install a complete kitchen all at one time. But, if you can't, then plan the kitchen you want and install it a little at a time as you can afford it. Each cabinet, each appliance will fit exactly into place. Then no matter when you complete your kitchen, the beauty and practicality you designed into it will be there. You'll avoid hodge-podge makeshift arrangements.

Our kitchen planning staff can help you design the kitchen you want. Good planning requires a knowledge of a great many important details. Our trained personnel are familiar with these details and want to help you. The service is free. No places you under no obligation. Simply phone our nearest office or mail in a scaled drawing of your kitchen, with some idea of the changes you want made. We'll give it prompt attention.

"WHERE THE BOONEWAY JOINS THE DIXIE"

ESTABLISHED 1887

MT. VERNON, KENTUCKY VOLUME 65—NUMBER 20

THURSDAY, FEBRUARY 19, 1953

## Road To Be Rebuilt From Roundstone To Berea

### Entire stretch from Roundstone to Boone Gap, and to Berea to be rebuilt.

The Department of Highways of the Commonwealth of Kentucky plans to spend the sum of \$485,000.00 on the construction of highways in Rockcastle County during 1953. This construction is listed under the state's Federal Aid highway program and only pertains to such highways as U. S. 25 and U. S. 150. However the major project will be on U. S. 25 between Roundstone and Boone Gap, a distance of 4.6 miles. The plans are to complete the distance from Boone Gap to Berea, also but no statement of the amount of money to be expended on that stretch was given to us.

Representatives of the state highway department have been in Rockcastle County for the past few weeks interviewing farmers and prospective owners along U. S. 25 and have procured easements from approximately 50 per cent of the property owners. The right-of-way is to be widened by twenty feet. In most of the distance it will be ten feet on each side in some cases the widening will have to be more on one side than on the other.

The value of the land has been appraised by the representative for the highway department, and in most cases averages from \$200.00 to \$300.00 per acre, depending on the value of the property. In some cases it runs considerably higher. The most costly construction will be at Boone Gap and at Hays cut. At Boone Gap the road will be placed approximately 100 feet farther into the hill. The land was purchased here from John Northern, Mr. Northern will have to move his home to another location as it will take three acres of the hill. At Hays cut the road will be moved. At Boone Gap the road will lead down the incline on the north side near the L. & N. Railroad, thus straightening out the bad curve at the bottom of the hill. On the south side of the Gap the road will be moved in seventy feet, and will meet the old road near the Boone Post Office.

At Hays' Cut the road will be straightened out and lead through the land of John Reese and Willie Turner. It will come within 12 feet of the Reese home, the home he just built last fall.

At Conway it is not yet known whether the road will be straightened out. In order to do this some land will have to be purchased from the L. & N. Railroad. Mr. Towery's service pumps will be moved to the edge of the new highway, and may have to be moved although Mr. Towery is not certain. At Seaton the road will lead through the woods that belong to the Taylor heirs. This will straighten the curve at this point. The house of Henry Bowman has to be moved, or at least the front part, also that of T. F. Hayes.

Just how much of the old road bed will be used we have not ascertained, but very likely most of it where the foundation is firm. High water during heavy rains sometimes floods the area between Roundstone and Conway, but that is a situation that cannot be changed without a great deal of extra expense.

No money has as yet been paid out by the state, only the easements have been secured. When construction begins there may be changes in the plans. Whether traffic will be routed over another road during the time construction is going on, we have not learned.

(Continued on page 4)

## John T. Brown Taken By Death

The funeral services for John T. Brown were held at the Freedom Baptist Church on Monday afternoon at 2 o'clock with the Reverend Craig Holman officiating. Burial was in the Freedom cemetery with the Cox Funeral Home in charge of the arrangements.

Mr. John T. Brown was born November 5, 1899 in Rockcastle County, the son of James and Sallie Brown, deceased of Spiro, Ky. He died February 14, 1953, of a self-inflicted wound. He was a farmer and had made his home with his sister, Mrs. Vira Gentry for the past eight years. Those he leaves to survive him are one brother, Roy Brown of Morrow, O., and four sisters, Mrs. Lucy Graves, of Hansford, Ky., Mrs. Sadie McKinney, Mrs. Marie Noe, and Mrs. Vira Gentry all of Spiro, Kentucky. He also leaves several nephews and nieces.

## PROMOTED TO CORPORAL

Private First Class Homer J. Smith, son of Mr. and Mrs. E. J. Smith Box 31, Brodhead, Ky. has been promoted to the rank of Corporal.

This medical soldier is assigned to the 9324 Medical Co. under Provision Medical Group at Fort Benning, Ga. This unit is responsible for receiving, sorting and providing temporary medical and surgical care for patients until evacuation.

## LEROY BROWN

LeRoy Brown, son of Mr. and Mrs. Henry Brown. He won the Soil Conservation for F. F. A.

## Obituary

Mr. Money Troit Cummins was born May 31, 1906, and departed this life on Feb. 10, 1953, was reared in Rockcastle County, a native of withers. He was an outstanding citizen of his community and was well liked by everyone who knew him. We will always remember him as a good friend. He was always ready to help anyone who needed him day or night. He was always a firm believer in sending his children to church and school.

He was united in marriage to Miss Nell Mink on May 27, 1927. Mrs. Cummins was the daughter of Mr. and Mrs. W. F. Mink of Withers. To this union eleven children were born: Money Edna, Lee James, Vernon Elsie, Lulu, Nancy Linda, Garland and Ruby.

Henry F. is now serving with the United States Army and is now stationed in Orleans, France. Mrs. Vivian L. Sayler is employed with the Camden Mfg. of Stanford. He leaves over another child during the time construction is going on, we have not learned.

By his wife Mrs. Nell Cummins and children.

## KENTUCKY DISABLED EX-SERVICE MEN'S BOARD

Mr. D. B. Cook, a Contact Representative of the Kentucky Ex-Service Men's Board will be present on Wednesday, Feb. 25 at the Court House in Mt. Vernon to assist veterans and their dependents with claims for benefits due them as a result of their military service. He will be present from 9:00 A. M. until 3:00 P. M.

BOBBY HARPER

Marine Private First Class Bobby G. Harper 17, son of Mr. and Mrs. Clyde C. Harper of Mt. Vernon, Kentucky, was promoted to his present rank when he graduated from 'Boot Camp' at this East Coast Marine Corps Recruit Depot.

During the past eight weeks of intensive training and as a result of field experience and classroom lectures, the Mt. Vernon Marine has become well versed in such military subjects as precision drill, first aid, hygiene and field tactics.

Harper climaxed his recruit training by winning the sharpshooter medal on the rifle range when he fired a score of 210 out of a possible 250 during his weapons training.

In addition to firing the famed Garand rifle for qualification, Harper fired other infant caliber pistol, carbine and Browning automatic rifle. He also witnessed demonstration firing of the machine gun, mortar and flame thrower. Prior to entering the Marine Corps, young Harper attended Mt. Vernon High School.

Food and the Teen-age Girl

Teen-age girls fare worse, nutritionwise, than boys of the same age or than young children, reports Sadye F. Adelson of the Bureau of Human Nutrition and Home Economics, U. S. Department of Agriculture. In reviewing nutrition studies of the last decade, so, Miss Adelson finds that girls generally have poorer diets than boys.

Nutritionists have pointed out that good nutrition for girls in the teens is especially important because these girls are the future homemakers and mothers. They need to know early how and why to select the right foods for themselves and later for their husbands and children. Miss Adelson suggests that girls will be interested in eating better if they understand that food affects their looks and vitality as well as their health, now and later.

Girls often lack the hearty appetites characteristic of boys of this age. Many try to become slim by a reducing diet of their own making. They may skip breakfast, eat skimpy lunches, or omit all of such valuable foods as potatoes, bread and even milk. Yet they often offset this dieting by joining the crowd at the soda fountain or snack bar for rich sweets that add the pounds they want to avoid.

Many girls need to know how to select meals that provide the food essentials, allow them to snack with friends and still keep their weight within bounds. Girls who will be eating after school or in the evening might eat less at the main meal. Three main meals should include the essential nutrients, while desserts or extras may be delayed for snack time. Parents, especially mothers, can help the girl who is inclined toward overweight by encouraging her to cultivate an appetite for fruit for dessert these days. For example she might have an apple instead of apple pie.

Suggested to the girl and her mother for planning daily food essentials is "The National Food Guide" (leaflet 288) which lists the Basic 7 food groups to fit into the three main meals. This leaflet are free on request from the Office of Information, U. S. Department of Agriculture, Washington, 25

Here briefly is a suggested schedule of foods for the girls main meals which will allow her to have some snacks between times and will also fit the general pattern of family meals.

Breakfast: Citrus fruit, cereal or bread (whole grain, enriched or restored); milk; butter or margarine; eggs.

Noon Meal: A main protein dish (meats, poultry, fish, egg, cheese or dried beans), vegetables, especially green and yellow vegetables; whole grain or enriched bread; butter or margarine; milk, fruit or salad. Evening Meal: Main protein dish (as above); potato; veget-

ables (as above); whole grain or enriched bread; butter or margarine; milk, fruit or salad.

## RAMBLINGS

During the past few weeks I have been reminded so tragically of the direct or indirect result of the use of alcoholic beverages. What drink does to a man is not fully realized by those on the outside. Those who are addicted to the drink wage a terrific battle of their own. They want to quit. They make resolution after resolution, declaring that they will never let grain touch the liquor. They fight an unseen enemy, and no body knows how awful and long that battle is.

Too often we condemn the man who has to struggle with himself. We condemn him for that he "is doing it" but do not realize that it is "The Thing" that we should condemn, and not the man. He needs help. He needs all the encouragement and fortitude we can give. He needs the extra power outside himself in order to win a battle.

A few days ago a person told me about such a struggle. He wanted to do right. He fought with all his might and main. He exerted every nerve of his will power but when the temptation came to him, he succumbed. To him that fight was a real devil. He agonized, he prayed, he sought the help of friends.

Strong drink is a wicked enemy. To some it is a demon of the worst kind. Let's not condemn the man, but let's condemn "The Thing".

**Letters To The Editor**

To The Editor:  
Enclosed you will find check for my renewal of the Signal thanking you in advance we have taken the Signal since we left Ky. 1947.

Mrs. Cora Brown  
Armington, Ill.

**HIGHWAY CONSTRUCTION**  
(Continued from page 3)

At Livingston a similar project is to be carried on. The old U. S. 25 that leads into Livingston from Calloway is to be straightened out and widened. At the White Star Service Station the new road is to lead off to the right, missing the station but will go through the land belonging to Mack Bales.

The Federal Aid Program is concerned with both primary and secondary roads and with urban projects, and \$15,769,000 will be spent under it in Kentucky.

An additional \$6,000,000 will be spent by the State for 450 miles of projects with Federal Aid and another \$4,000,000 will be spent to construct rural highways, about entirely with State funds. About 1,000 miles of rural highway construction is planned.

A county breakdown on projects not using Federal funds has not been completed.

**Card of Thanks**

To all who were so kind and helpful during the sad and death of our dear mother Candis McClure, we extend our heartfelt thanks. We feel specially grateful to the Reverends Brown Cornelius and Carpenter for their kind words, and to the Cox Funeral Home for their understanding and appropriate services.

**Dairy Feeding Suggestions**

The following suggestions of feeding dairy cows come from J. W. Foster, chief of the specialist at the State College of Agriculture. These are promising results, try some of them.

Are your cows receiving a balanced ration?

A balanced ration becomes most important when prices are high, as is the case this year in Kentucky.

Only cannot afford to waste feed. Feeding dairy cows a ration that is not balanced for protein, carbohydrates, fats, minerals and vitamins means that a cow will use the best advantage only the amount of each feed nutrient that is needed to do the rest must be stored or thrown off as waste.

There is nothing mysterious about selecting a practical bal-

anced farm dairy ration. First, let us start with the basis of all good dairy rations, the roughages.

If roughage is a good grain quality grass, a 12 per cent protein grain mixture will be needed (1,000 pounds farm grain plus 100 pounds of beans or cottonseed meal.) A good quality hay (plus corn silage, will need a 14 per cent protein mixture (1,000 pounds farm grain plus 175 pounds of soybean meal). A fair quality legume grass mixture will require 16 per cent protein mixture (farm grains plus 225 pounds of soybean meal). If like some Kentucky dairymen are trying to get by with poor hay and corn stover you will need to feed a grain mixture that is 20 per cent protein (1,000 pounds of farm grain plus 325 pounds of soybean meal).

Adding to a cow's daily ration a small amount (one pound per day) of molasses by sprinkling it on a low-grade hay or fodder increases the consumption of roughage and improves the ration.

All of the above rations are suggested with the understanding that steanone meat and salt are being fed free choice to your cows.

**Strawberry meeting**

There will be a meeting of strawberry growers of Rockcastle county at Mt. Vernon, February 21. The meeting will be held in the auditorium of the Chamber of Commerce building. All strawberry growers and all those who are interested in growing strawberries are invited to be present. This meeting is for the farmers including men and women, 4-H club members, future farmers and those living in town. Mr. Magill Strawberry Specialist, of State College of Agriculture, Mr. Burkett, Manager of the Cumberland Strawberry Growers Association and Mr. Roy Brown, Secretary of the Cumberland Strawberry Growers Association, will discuss the preparation of the land, fertilization and the management of both the new and old patches. Mr. Burkett will discuss the buying of crates, plants and marketing of this year's crop. Mr. Brown will take orders for crates and plants for all those who wish to buy through the Cumberland Strawberry Growers Association, which Rockcastle county is a member.

People who are interested in getting plants this year and those having strawberries on the market are urged to attend this meeting. It will be the only one held this spring to discuss and furnish information to the strawberry growers.

**4-H Leaders Training Meetings**

At the last meeting of the county 4-H Council, it voted to hold 4-H Leader training meetings in the county at the following time and places.

Feb. 26, Broodhead High School, 7:00 P. M.

Feb. 27, Climax, 9:00 A. M.

Feb. 27, Livingston High School, 1:00 P. M.

Feb. 27, Mt. Vernon High School, 7:00 P. M.

All 4-H Club Leaders and Council members of the county are invited to attend the meeting most convenient for them.

The purpose of these meetings is to discuss the ways and means of carrying on 4-H work and making the club work most interesting and valuable for 4-H members. Material for club members will be furnished by the State 4-H Club Department of the University of Kentucky. Leaders are asked to come with their questions, problems and suggestions on all phases of club work for the county this year.

Mr. Roy Wheeler, Asst. State 4-H Leader and Dept. from State 4-H Club Department will assist the agents, Mrs. Jasper, Mr. Wells, and Mr. Spence in conducting the meetings. Parents of club members are also invited. These are not club members' meetings but for the adult 4-H leaders and parents.

Kentucky's six tuberculosis hospitals are located at Madisonville, Louisville, Paris, Ashland, London and Glasgow. 5 of the hospitals are new.

Soil Conservation News

A meeting of interested farmers on woodland management will be held at Bradley Saylor's farm at Wadd Tuesday, February 24th at 1 P. M.

earnest young people and adults much concerned with the educational, religious, agricultural, recreational health and economic life of the pine-state Southern mountain region. More than interested people living and working in the region will attend the forty-first Annual Conference of the Council of Southern Mountain Workers to be held in the Smokies again this year.

Keynoting the Conference is Dr. James B. Wyker, Director of Rural Church Extension Service, Bible College of Missouri, Columbia, Missouri. His first speech will deal with "The Community Approach to the solution of problems arising in the Mountain area. He will also close the conference with a speech giving the challenge for the coming year.

Much of the work of the conference will be done in actively blessing and working in the mountains. Among these leaders, for example will be "Other leaders" include Dr. Francis S. Hutchins, President of Berea College and also of the Council; Dr. Ralph Ramsey, Field Agent in Rural Sociology for the Extension Service, University of Kentucky; Dr. Henry Randolph, Secretary of the Department of Town and Country Church work of the Board of National Missions Presbyterian Church in the U. S. A.; Dr. I. C. Nace, of the National Council of Churches Dr. Louis Smith Dean at Berea College, Berea Ky., and June Michal and other officers of the Sigma Phi Gamma International Sorority which contributes to education, health and recreation needs in this area.

Educators, health workers, recreational leaders, agricultural extension workers, ministers, editors, writers, craftsmen and mountain high school and college students will make up the bulk of the group. Anyone interested in preserving and developing the best features of our mountain life is urged to attend, according to Mr. J. A. Ayer, Executive Director of the Council, which has its offices at Berea, Kentucky.

A new part of the conference will be the group of teachers from isolated one-room mountain schools who will have their own group-meeting during the conference.

Scouts To Open Finance Campaign

The Mt. Vernon Lions Club Leader in the local Boy Scout Finance Campaign appeals to the local citizens for their support.

BIBLE SPEAKS... BY DR. KENNETH H. FOREMAN... DEVOTIONAL READING: 11 Corinthians 2:14-3:8

Answers—Plus!

On February 22 we celebrate the birthday of a man who (it is said) claimed he could not tell a lie. That is an exaggeration. Almost any man can tell a lie if he tries hard enough. But even if he were such a wonderful world that literally nobody could tell a lie, it might still not be the ideal world. For what is most important is not choking back the falsehoods, important as that is. The big thing is to tell the truth. And it is even harder to tell the truth and tell it right, than to keep from lying. Truth can be told in a dull way so that no one listens to it. If truth is worth telling it ought to be pointed—...and when we say "pointed" we mean that three ways.

Pointed At—

For one thing, truth may as well not be told at all if it is not pointed at somebody. There's no use telling your dear old grandmother about the circus; she's not going. There is no use telling a small baby to keep his face clean. There's no use giving a lecture on space-heating to an audience of Holinessists; they're hot enough already. You're talking to the wrong people.

If left to chance by us, he will become the victim of an ideology not by choice, but by designed purpose of those seeking to destroy our way of life.

If you are not contacted personally, and wish to make a donation to the Boy Scouts, just send it to Mr. Kenneth Mathews, Treasurer, Mt. Vernon Lions Club.

CARD OF THANKS

We wish to thank all our relatives, friends, neighbors, Rev. Wm. W. Mullins and Rev. Guy Tinder for their kind words and prayers, and all the beautiful flowers, and the Cox Funeral Home for the efficient manner in conducting the funeral of our beloved one.

**Clean Last Summer's Things Now**  
 It's just plain common sense—"human nature", if you want to call it that—but most of us are careless when it comes to cleaning a garment after we're through wearing it for a season. Last summer's clothes by the dozen are hanging right now in many closets. Any suits, dresses, or shirts in your closet that haven't been worn since last summer? Now is the time to clean them. They should have, of course, been cleaned last year when you were through with them. Then wrapped to keep dust off. They'd be ready to wear and less deteriorated too. So before telling you how to clean last summer's things, may we recommend you bring this winter's clothes to us and have them cleaned before you put them away for the summer?  
 And when it comes to dry cleaning of last summer's clothes, we recommend you bring them to us. Tell us that the garment ~~has~~ been cleaned since last summer. That way we'll take the necessary corrective steps to put it back in shape. To do it yourself—even if you wanted to—would require too lengthy a technical explanation.  
 But if the garment can be "wet cleaned", that is washed, and you want to do it yourself—these suggestions will be helpful to you.  
 1. Soak the garment thoroughly.  
 2. Soak in soft water made mildly alkaline.  
 3. Wash by hand in good neutral soap solution which will lather up well during hand rubbing. Be sure temperature of water is not more than 100 degrees F.  
 4. Next, flush thoroughly to insure sampooing all perspiration.  
 5. Now rinse in clean soft water at least 5 or 8 times.  
 6. Finally, stretch to correct dimensions and allow to dry. Any way you look at it, it's a lot of work, isn't it? So why not avoid all that and bring both this past season's things as well as last summer's clothes right now and let us do it for you?
