Howard Funeral Home

If you were not among the 2,224 people who visited our opening on Oct. 17, or not one of several who has visited us since we are going to run a series of ads showing our chapel, lay-out rooms, preparation-room, casket displays, etc., so that you may have an idea about our place.

This being an age of pre-arranged funerals, we think the best idea is to have one of our Commonwealth Burial policies. Either with us or one of the 400 morticians who participate in this program. However, we feel we can give you more for your money on one of these policies. It doesn't hurt to compare.

Come into our place or one of your choice and make your selection, and make it known to a friend. Make the policy paid to mortician whom you choose. There are many laws in regard to pre-arranged funerals but if everyone in Kentucky would follow the above advice, Kentucky would need no laws governing pre-arrangements. If you are interested in one of our policies or our Book explaining Burial Insurance entitled "You Will Be Glad To Know," fill in the blank below and we will be glad to mail you one at no obligation to you, or send Mr. Howard Martin our agent to talk with you.

Please mail book, I will be glad to know about Burial Insurance. Name \_\_\_\_\_ Address \_\_\_\_\_ Phone \_\_\_\_\_

facts about our country's origin and its progress.  
In both the school field and among our adult population improvement is being made. More and more educators are recognizing the need for teaching American history to all high school and college students and are making it a required subject. Industries, civic clubs, fraternal organizations, and a number of other groups are now American history to public attention.

**DEFENSE**  
A recent survey of College freshmen throughout the nation revealed that more than 30 per cent of them did not know that Woodrow Wilson was president during World War I, and only six per cent were able to name the 13 original 13 colonies.

**FACTS NEEDED**  
Citizens need to know the facts in the story of America in order to effectively combat creeping Socialism which has worked its way to power in so many nations of the World. We cannot answer charges made against our American way of life unless we know the facts to repudiate them. We cannot point out the fallacies of Socialism and the advantages of a private enterprise economy unless we know the stories of Plymouth Colony and Jamestown, unless we know how our economic system came into being and can trace its effectiveness against the obstacles it met during its growth.

**FEW STUDY HISTORY**  
Some time ago the New York Times surveyed American high schools and colleges and found that only 34 per cent of our colleges and universities require students to study American history. And of the total enrollment in colleges and universities at the time the survey was made, only 12 per cent of the students were enrolled in American history courses. In the adult field, there is much evidence throughout the nation indicating that a great many of our grownups either didn't study American history or have forgotten vitally important

in both documents, and why certain functions and prohibitions were set forth in the Constitution.  
Many people have said to me from time to time "I want to do something to preserve the fundamental principles of our government. What can a mere citizen do?" Over the years this column has given many answers to that question. Today it will give one of the best answers I know: Get with the school people in your community at all school levels, and work with them to make American history essential studies for every child, every student. This is the surest way that we can build an impregnable national defense.

**RED HILL**  
The members of the Red Hill Baptist church and other friends and relatives of Rev. H. L. Ponder surprised him very much Sunday, Nov. 29th, it was his 74th birthday. We had a beautiful dinner for him and his cake baked at the Berea bakery, it was very beautiful. Visitors from a distance that attended were Mr. and Mrs. Jimmy Ponder and children and Roy Ponder of Danville, Ill.

**NOTICE OF Change of Office hrs**

Valley View of Ben Hasty's Grocery, Novelty Shop & Service Station Located 2 1-2 Miles East of Mt. Vernon, Ky. on South side of Highway No 25 Absolute Auction Saturday, Dec. 5th At 10:00 A. M.

Location: This combined business and residential property is nicely located just 2 1/2 miles East of Mt. Vernon, Ky. on the South side of highway No. 25, one of the most traveled highways in Kentucky. Land contains about one acre and faces the highway about 186 feet with a width in the rear of some 300 feet.

Main Building: Enter into a store room which is 16 x 24 feet with shelving and counters. The residential portion contains 2 bed rooms, each with closet spaces, dining room, kitchen and fully equipped bath room. A new double drain sink and a new "Actane" gas water heater, in the kitchen, go with this property. This building is constructed entirely of concrete blocks, plastered and contains metal window frames and cases. The exterior finish is plaster over rock lath.

On the East side of this main building is a fully equipped rest room and also one on the West side of this building. Both have separate entrances exclusive of the main building.

Other improvements consist of a new garage building 16 x 24 feet, which is East of the main building. Also a utility room constructed of concrete blocks and has a concrete floor and is located just South of the main building. This building embraces a well with an electric pump. This well is 150 feet and has an everlasting flow.

The exterior is lighted by means of four large flood lights.

Personal Property: Consists of a small stock of groceries and novelties. Also an Anheuser-Busch electric ice cream refrigerator, gas heater with a capacity of 28, 000 B. T. U. beds, tables, chairs, counters and a host of smaller items.

Mr. and Mrs. Hasty are moving to a farm, hence the reason for this sale. All of these buildings are new. This is a good site to produce lucrative business with ample dwelling quarters combined. Ample room for expansion into a tourist court business. Could be operated as a restaurant or retail merchandise business. The opportunities are unlimited.

We urge your closest inspection prior to day of sale and invite your presence at this Absolute Auction on Saturday, December 5, At 10:00 A. M.

Some money will be given away at this sale Absolutely Free. Terms: 25% on day of sale and the remainder in full with deed. This applies to real estate and the purpose of this sale makes these terms necessary. Terms on personally will be cash on day of sale.

Possession: Full and complete on or before 10 days from day of sale. For further particulars, see or write either the owner, Mr. Ben Hasty, R. F. D. Mt. Vernon, Kentucky or

## Young Couple From Disputanta found dead in car

### Carbon Monoxide from car left idling believed cause of tragedy.

A young woman and a young man were found dead in an automobile, believed to have been left idling, early last Tuesday morning at the home of Mr. and Mrs. Phillip Harrison in Berea. The couple was Miss Geneva Wanda Neely, 20 daughter of Mr. and Mrs. Delbert Neely who live about a mile north of Disputanta, and the young man was William Himes, son of Mr. and Mrs. Elijah Himes, who live right next door to the Davis Branch School house.

The young couple had gone out for a ride Monday night. Miss Neely had made her home with the Harrisons where she was the maid for the past year. Mr. Himes was in the employ of the Wyatt Supply Company in Berea. He had called on Miss Neely that evening and it is believed that the couple returned to the Harrison home about 10:30 o'clock that evening. They had then gone out together for a ride. On Tuesday morning when the Harrison's noticed that Miss Neely had not returned home they were alarmed. Looking out of their kitchen window they saw the parked car with the couple inside. Upon closer examination they discovered that the two were dead. Dr. John Baker was called and gave a verdict of carbon monoxide poisoning. The switch was still on but the car was no longer running apparently the battery was too weak and the car got choked. Dr. Baker stated that the couple had been dead for about six hours. A small amount of exhaust pipe left the gas escape.

Miss Neely is survived by her parents, Mr. and Mrs. Delbert Neely, three sisters, Mrs. Marie Anglin of Richmond, Ind., Bert, Eva and DeFreda, both at home, and five brothers, Armond, Henry, Harold, Willard and Cannon, all at home.

William Himes is survived by his parents, Mr. and Mrs. Elijah Himes, six sisters, Bertha Ida, Ellen, Grace, Rissie and Hazel, and 2 brothers, Elijah Jr. and Franklin.

Funeral services will be held Friday. For William Himes it will be at the Macedonia Church at 10 o'clock with the Rev. Harrison Clark officiating.

For Miss Neely the service will be held at the Pilot Knob Church at 2 o'clock with the Rev. William Hamilton officiating.

The Britton Funeral Home had charge of the arrangements for both funerals.

## INDICTED FOR WILFUL MURDER

The Grand Jury in special session last week returned an indictment of wilful murder against Ben Hasty relative to the death of Mrs. Hasty who died of a wound made by a gun in the hands of an unknown person. Mr. Hasty was placed under arrest Saturday. He furnished bond of \$7,500.00. The trial is to take place on Friday, Dec. 18.

## FIRE DOES LITTLE DAMAGE

Fire, believed to have caught from the fire, did only a little damage to the house of Mitchell Bussell of Brodhead last Tuesday evening at about 4:30 o'clock. The fire department was able to extinguish the flames without much difficulty.

## Highway Construction About Completed

U. S. 25 between here and Livingston is receiving its finishing touches. The shoulders have been leveled and have been sowed with an assortment of grass seed including fescue and Ladino clover, orchard grass and blue grass. The shoulders have been covered with straw for protection against the winter frosts and erosion.

The highway has been open for two weeks and traffic is now going through without interruption. The traffic over Thanksgiving Holiday was unusually heavy partly due to the foot ball game played between Kentucky and Tennessee at Lexington.

Black top has been placed on the entire stretch, both here at Mount Vernon and at Livingston. Only a few minor jobs are necessary to complete the project a project that was completed in record time. At no time was there any interruption due to unfavorable weather.

Next week bids will be opened for the construction of U. S. 25 between Roundstone and Berea, a distance of over 9 miles. Many of the buildings fronting the highway have already been moved back, including the store at Conway, and the service station of Robert Dunn near Boone Gap.

One of the school rooms at Conway from which the winning team came in the Bookmobile Radio Contest. Standing is Mrs. B. H. Holt, the teacher.

The schools of Rockcastle County are making plans to appear on the radio at Richmond over station WEKY every Saturday morning beginning on Dec. 19th. Although the date of the first appearance is not definite, it is believed that the program will be ready about that time. Prof. Wear of Berea College met with the program committee this week and as soon as possible announcement of definite plans will be made.

The radio station at Richmond has agreed to give the

County Schools that hour for broadcasting some feature of the county's rural educational program.

Readers of the Signal will therefore be prepared to listen in on their own teachers and pupils who may appear on the radio from time to time during the next few weeks or months.

## State's Forest Could Yield More

If well managed and protected the sawtimber volume of Kentucky's forests could be doubled or tripled, according to a report of the United States Department of Agriculture on a survey made by several agencies, including the Kentucky Department of Conservation and the University of Kentucky.

Forests cover 45 per cent of the land in Kentucky on a total of 11 1/2 million acres. Ninety-four percent of the forest land is privately owned about half by farmers. Less than a million acres are in public ownership.

The government report says Kentucky has about 25 billion board feet of sawtimber and is growing more than a billion board feet a year. The amount being grown exceeds the amount being cut each year by about 60 percent, it is said that there is still room for improvement in the condition of the forests in this state.

In general, the report states, the timber lands are undervalued in volume and poor in quality.

Farmers Receiving High Price For Their Tobacco

It looks as though this year is to be a banner year for tobacco growers. Last Monday the sales opened and the prices made are the farmer's heart rejoice.

Logsdon of Mount Vernon came into our office Tuesday and told us that he and Frank Mayes received an average price of \$64.63 per hundred pounds for their tobacco which weighed 1,500 lbs. The tobacco was raised on the Brindle ridge section. The sale made at the Central Warehouse at Richmond.

Last Tuesday morning the Courier-Journal had a front page picture of Mr. Casper Jones and his son Dean Jones of Ottawa who sold their tobacco at Louisville which they received an average of \$60.00 per hundred pounds for their 1,482 pound crop. They received a check of nearly \$900.00.

Others who sold their tobacco this week received high prices. At Lexington the average was \$57.85. The high basket was \$70.05 and the high crop \$88.54.

Much of the tobacco in Rockcastle County is not yet stripped because of the dry weather. For a few days last week the moisture content was high enough to handle the crop but by the beginning of this week it was too dry, so that many farmers will be late in stripping their crop.

The team came in the Bookmobile Radio Contest.

\$20,888 Spent in Rockcastle County for Needy in October

The Department of Economic Security reported today that \$20,888 was distributed among needy residents of Rockcastle County during October. The Department administers the programs of Old Age Assistance, Aid to Dependent Children, and Aid to Needy Blind in Kentucky through its Division of Public Assistance.

Aaron Paul, director of the Public Assistance Division, itemized the total as: \$13,770 spent for the aged; \$6,724 to families of dependent children; and \$394 to the needy blind.

The statewide total for all categories of aid was \$3,178,998 the director said, down slightly from the \$3,275,995 total in September. The totals for the individual categories were: \$1,942,200 for Old Age Assistance as compared to \$1,940,536 in September; \$1,139,911 in Aid to Dependent Children, a slight drop from the \$1,040,536 total the previous month; and \$94,555 for Aid to the Needy Blind, almost unchanged from the \$94,169 spent in September.

The average check for old persons last month was \$34.93, \$2 for each family of dependent children, while the average needy blind recipient's check amounted to \$36.90.

## Brother Of Hobart Dooley Of Three Links On Important Mission

Some time ago Hobart Dooley of Three Links brought to this city a clipping from the Middletown Ohio News Journal which gave a description of his brother's visit to Italy in behalf of the Armo Steel Corporation. Mr. John Dooley, the brother, is an employee of the steel plant and is a technician of the open hearth. The story will be of interest not only to the acquaintances of the Dooley brothers but to others who like to read fascinating stories.

Three Middletons were looking about the Cornigliano Steel plant, just outside Genoa, Italy, a few weeks ago, "trying to steal technical information from Italian capitalist bosses," an Italian Communist newspaper reported.

Dooley appears, spent a good deal of time in Italian homes. He received numerous invitations, and said the Italians will be "hurt if you didn't go."

The Middletons were very impressed with the Italian and with the way the employers' Spang, Dooley and Osborne lunchbox.

It did not confine their activities to Genoa alone, but Dooley explained on Thursday that his colleagues were "out touring the country while I was working."

Their itinerary included Rome, the Italian Riviera, Nice, Paris and Monte Carlo. None of the three speaks Italian or French, but Osborne explained in a few words a dictionary and expressive hand gestures, they communicated quite freely.

The 17-month old daughter of Mr. and Mrs. Woodrow Williams, Doris Jane, lost her life when the residence was consumed by flames last Sunday afternoon at about 4 o'clock on Dug Hill. Three other sisters who were in the home at the same time barely escaped with their lives. The mother had just gone to the neighbor's house Samantha Wiggins, who lives within a few hundred feet away, to get some water. As she was returning home she heard the children scream and then saw that the house was in flames. Mrs. Williams rushed to the house and attempted to save the little girl—the house was already completely enveloped in flames. Ballards Dining Room is one of the desirable places of this section and offers the public good foods, moderate prices and rapid service.

They are excellently equipped with the most modern fixtures and here you are always able to find and choose from a menu of delicious foods consisting of a wide variety of meats, vegetables and fruits in and out of season. This is an excellent place to go when you don't know exactly what you want, as they have really good food here.

The manager not only secures the best of good meats and fresh vegetables and fruits but has people who know how to prepare them in the most appetizing fashion. All the cooking is done to the attractiveness for the large trade from the county.

In this review we are pleased to find an addition to the establishment of the county to this modern service which is winning for them a very large patronage and adding to the attractiveness of London as a place where one can get any kind of service desired in the restaurant line.

Mark A. Watkins  
 This is one of the leading wholesale automobile supply houses in the large customer base increasing rapidly over this part of the state.

This section of the country, as a whole, has an added business advantage by having in its midst such a well known establishment whose commendable business methods and auto supplies of the better quality have gained for them an increasing business that can be noticed by the large daily shipments leaving their extensive establishment.

The prosperity of the city is greatly increased by the extent of their trade which extends for miles around, which is their chosen field of endeavor and brings new people to the community. Through the extended trade channels of this active firm many dollars are brought yearly into this section.

Good value and reasonable prices have placed their auto supplies in the leading stores of London. All these business assets have been the reason for their success and with these methods in mind they have always been successful in business. They have always been consistent boosters for all things adding to the growth and prosperity of the community at all times. Knowing that a firm that did not possess solid business methods would wither and die.

From each department the merchants in this section of the county receive their auto supplies daily. Each merchant has complete knowledge of this business from a buying and selling standpoint alike.

This is one of the leading home outfitting firms in this section and because of its unequalled service during the many years it has served the public has merited the large number of customers it receives.

It may well be said that no business house transacting business in this section has maintained a better heritage or has a higher standing as a leading outfitting establishment than this well known firm. This time-tried and well con-

ducted establishment is a store of the people and for the people that aims to give mutual pleasure, satisfaction and benefit, for its the aim of the proprietors to make the life of the people worth while by supplying them with the highest quality necessities, comforts, conveniences and luxuries. The various articles have been selected by the proprietors with a view to perfecting them in every respect, beauty and durability and embrace as a whole the most beautiful and durable production of the American furniture makers.

It is not necessary to state whether it is a room you desire to furnish, the whole house or just a piece or two

that you want, you can secure it here on the most favorable terms that the markets afford. The management is in the hands of prominent citizens who are thoroughly conversant with the business and have always been promoters for all things that promise public improvement.

This is one of the most valuable commercial assets in this section, progressive, complete and up-to-date, serving the people in a very satisfactory manner. There is nothing that adds more greatly to the progress than these progressive men who appreciate the necessity of keeping up with the times in the selection of their stock and the manner of operating their business.

They offer the public all the advantages of modern insurance service. In reviewing the business interests of this section it is indeed a pleasure to refer to this agency, which takes great pride in the service it renders. It represents the leading insurance companies of the country for any kind of insurance you desire. With such powerful organizations behind them, it is able to offer the public the most reliable insurance to be found and this combined with its personal service means that you can get what you want and that your wants are taken care of in the best possible manner.

Insurance is as necessary as the bread we eat, for only by the protection offered we are able to expand and improve our homes and business. If you have carried what you have thought sufficient to cover the loss of your home if destroyed for any causes, you have been negligent in not having the protection for the great increase in the cost of building material by increasing your insurance to reflect your "home should it be destroyed? If not, it will pay you to get in touch with this well known firm.

Whatever you may need in the way of insurance they have it and they only represent such companies as they can personally recommend. We would suggest for insurance of any kind that you get in touch with this agency.

## RAMBLINGS

Tragedies have had their day in this community. For the past few weeks I have had the sad experience to relate one tragedy after another. Within a few weeks of each other three little children lost their lives in flames, and now a young man and a young woman lose their lives by carbon monoxide poisoning from an idling car which had a leaky exhaust.

Then there have been the tragedies caused by automobile accidents, wrecks, poisoning and shooting. At least twelve persons lost their lives in a violent manner rather than by natural causes. Some of these tragedies, we might say, could be avoided. Perhaps so. At least one can take precautionary measures to make life safer. Safety is a word that needs to be stressed on every hand these days.

Living is becoming more and more complex and we are moving so fast that accidents are bound to overtake us sooner or later.

When the County schools will put on their new radio program over the air, I hope that all who have radios will be listening in. This is a project that will mean much to the schools and awaken in us pride in doing something and at the same time make us conscious of what should still be accomplished in the educational training of our boys and girls.

Now that Christmas is just around the corner, I hope that we can carry out the spirit of Christmas, without letting it become a burden to us.

It is true that much of the worth and value of the Christmas season is lost in the hustle and bustle of activities. It is true that we must be reminded by some gift or token, but to many it is becoming an increasing burden and likewise a heavy expense. It should be a season of goodwill and good cheer, a time of wholesome joy and consolation, and a time of remembrance.

## LETTER TO THE EDITOR:

Dear Sir: I am sending a check for renewal of the Signal. It just wouldn't seem right not to get the Signal each week. It was my father's love for me all the years I can remember. I am glad that Rockcastle County is finally going to have a hospital. I am going to be a small donation one of these days soon.

Respectfully,

"Shakespeare once said 'The world is but a stage and we are mere actors upon it, we have our exits and our entrances. Life is full of exits and entrances but the one great problem that weighs upon us is when we make our exits.' At the right time, or will our exits be made too soon? As for me I feel as though my entrance was perfectly timed. I came to you people of Rockcastle County two years ago when I felt as though the need for me could never be greater than it was at that time. I came to you only this thought in mind. 'To serve you in the hour of need, to serve in a way that I felt you should be served, with all humbleness, reverence and dignity.' And as Shakespeare said, 'The world is but a stage - I have made my entrance upon it, and

## Government Under God

Lesson for December 6, 1953

EVEN today there are people who feel that religion and politics don't mix. The answer to that is, if your politics are the kind that mix with your religion, it's either the wrong kind of religion or the wrong kind of politics. But just as it is not safe for a man to try to keep a part of his personal life, keeping it for himself and away from the public eye, it is not right to reserve any section of social life and politics and say that God Dr. Foreman need have nothing to do with it or about it.

## Government

When St. Peter tells his friends to be subject to "ever, human institution" he does not mean that all human institutions are what they ought to be and what God wants them to be. There are no perfect persons; how can there be perfect institutions? The truth is between two evils we must choose. One extreme view says: Institutions, including governments, are what they are by God's will and ordinance. Therefore we must not criticize them, much less revolt. This is the view of fascism everywhere and always. The other extreme says: Since no human institution is or can be perfect, let us Christians stick to the one institution of the church, and leave everything else to the realm of sin. But no part of the world of human history is safely left to the devil. If it is right to try to make a family as nearly Christian as possible, it is right to try to make a government as Christian as possible. God's will is that we should have government.

Just as we should have government "under God," that is, so government is on the right line where it is in line with the great principles of life God has shown us. Just as we should have government "under God," that is, so government is on the right line where it is in line with the great principles of life God has shown us.

All good government means in some kind of executive, he may be called Prime Minister, or King, or President. The name does not make any difference. The one who has to be some responsible head somewhere, some person who has the right to make decisions and to order them carried out. This is true all the way down from national to village organization. A government will exist, it is possible to "pass the buck" around in a circle without any one person's being held responsible or having to make a decision. This is government. Both in the Old Testament and in the New, the importance of the right man at the center of government is underscored. Under a good king like David or Herod, the country prospers; under a bad one like Jeroboam or Manasseh the country goes to pieces. Times have not changed much.

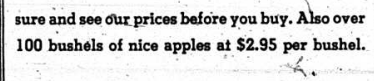

## The Governed

The great difference between government in the days of Saints Paul and Peter and today is that in the English-speaking countries, where free Bible Christianity had full sway, we have democracy as our form of government. (This is not forgetting other countries where the same is true, such as Rome or Constantinople, in centuries gone by. Everywhere who watched Queen Elizabeth I. crowning must have been impressed by the fact that it was a religious act, performed in a church by Christian ministers, rather than by a secular official. In the U. S. A., Released by C. N. C.

## Fall Pasture Fertilization Pays In More Grazing, Extra Forage and Higher Profits

Well-fertilized pasture gives extra milk and meat per acre.

TOP DRESSING pasture with fertilizer will pay off in an earlier grazing season, lower feeding costs and a bigger return per acre in high quality forage per acre. Fertilized pasture reports the Middle West Soil Improvement Committee.

"Blue grass or white clover permanent pastures that are top-dressed with a high nitrogen fertilizer this fall will get off to a quicker start next spring," says a statement made public by the committee. "That means fewer days of barn feeding and more days of pasturing."

Legum-grass meadows fed with a high potash fertilizer will return extra tons of hay next year. Moreover, the life of the stand will be considerably lengthened. Midwestern agronomists recommend adding from 200 to 500 pounds per acre of a fertilizer such as 0-20-20, 0-10-20, or 0-10-30, depending on the need for potash.

The fertilizer can be added any time this fall, but for the fullest benefits it should be put on as soon as possible after the last cutting of hay.

The committee points out that fall is the best time to add fertilizer. It helps spread the farmer's workload. In the fall, too, the ground is harder and there is usually a firmer footing for tractors, trucks and spreading equipment.

"If you wait until spring," says the committee, "you may be stymied by wet weather. Fertilizing pastures offers great profit possibilities, reports the committee.

"The narrowing margin between production costs and marketing returns for meat and milk," says the statement, "demands greater economy in feed. Fertilized pasture offers the farmer can produce."
