A Friendly NOTE

By Alfred Sparks, Jr.

"Few things are impossible to persistence and skill". When one perseveres in anything it will be physical or spiritual. Everything in life is subject to comparison, then that attitude will ultimately make every task an easier one. We do know through immediate knowledge, knowledge through others' experiences, that most everything that we have or will encounter in life will be accomplished by others. We also KNOW that these others who have succeeded in tackling every emergency that has arisen were just ordinary mortals the same as we. Thus, with that approach each day, each step, each problem, each task, is taken in stride and the challenge to one's resourcefulness and one's ability to conquer is received with relish and with faith and knowledge that the job will and MUST be done.

1553 Persons Take X-Ray Test In County Last Week

Health Officers much pleased with response given to the Chest X-ray Clinic held here last week.

The chest x-ray clinic held in this county during the past week was a remarkable success according to a statement made by the county's health officer Dr. Walker Owens. One thousand five hundred and fifty-three persons took the test during the time the x-ray unit was in this county. The survey included a large number of known contacts of active cases, but it may be of interest to know that 23 cases of tuberculosis were found last year due to the x-ray clinic and its stimulating influence.

At present there are seven patients in the tuberculosis hospital in London, Ky., and there are still a number on the waiting list.

Here are the results as to the number who took the test last week. In the Broodhead clinic, one day only, there were 496 adults and school children over the age of 15.

In the Mt. Vernon clinic, including Livingston, four days, there were 1,057 who took the test.

The total number to pass through the X-Ray Clinic were 1,553. It is believed that with a thorough check the menace of tuberculosis in this county can be eradicated.

Resolution

Whereas, the roads and highways of Rockcastle County are strewn with bottles, tin cans and trash.

Whereas, farmers lands have become in some instances dumping grounds for trash and garbage.

Whereas, farmers and others have registered complaints against this practice.

No be it resolved: That the Rockcastle County Farm Bureau Directors ask the towns of Mt. Vernon, Broodhead, Livingston and Rockcastle County Fiscal Court to provide suitable dumping grounds for their people. Be it further resolved that a copy of this resolution be printed in the County Paper, and copies be sent to the town boards of Mt. Vernon, Broodhead and Livingston, The Highway Department and the County Judge.

Officers Elected in Fish And Game Club

The Rockcastle County Fish and Game Club elected its officers for the coming year at their regular meeting held last month. Those elected were: Clark Brown, City president; Asa Mink, Livingston, vice president; Estill McBee, Mt. Vernon, Sec.-Treas.

Mr. Earl Cady of Frankfort district supervisor was present at the last meeting and gave a talk and also showed pictures of hunting. There were about 38 present.

This past week the local Club received seven racoon traps from the department of Fish and Wildlife, and these have been released in the county for propagating purposes. It is urged that these traps be protected and kept.

Members of the Club are greatly interested in several projects that will help increase wildlife in Rockcastle County. These seven racoons came from the western part of the state. Quail are also being given to this county on several occasions. Perhaps later some deer can be released here also.

It is hoped that these racoons will be given a chance to survive and live, so that later in the hunting season it opens they may be game to hunt. The trouble often is that when a person wants to hunt his hand he wants to hunt birds, rabbits, racoons, quail and many other game. Persons who want to hunt wild life should know how to observe the rules of hunting and fishing.

Shooting to kill is not the only danger to wildlife. Brush and fire also destroy the habitats and protection so necessary. Every Spring and Fall our forest and brush fires are a great menace, not only to our forest trees but to wildlife also.

One-Room School Carries On Lunch Program

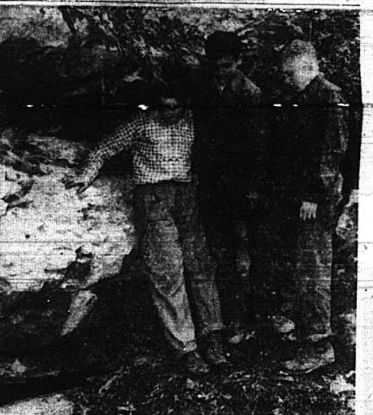

Johnetta School has lunch program that costs 7c per meal.

Last week we carried a brief statement of how the one-room Johnetta school in this county is carrying on a lunch program for its pupils. It is the only such school in the county that is at present having such a program. Mr. John Saylor, attendance officer.

The Johnetta school is located on the Brush Creek road. The building is stationed near the highway. To the west of it is the high cliff from whence the spring water comes. Last year the patrons of the school built a line from the spring, crossed the highway, and piped the water into the building. It was another one of those worthy projects which add so much comfort, convenience and health to the school.

DON'T LEAVE OUT NOURISHING FOODS

Certain foods should not be left out of a day's meals, even though the amount of money spent for food is reduced, says Mrs. Anne Clemmons, assistant professor of foods at the U. of K.

MILK tops the list: a "must" for big and little alike. Grow-ups should have a pint a day and children from three-fourths to a quart, either as milk to drink or in foods. Powdered milk can be prepared at home at the rate of 9 cents a quart, and evaporated milk at 15 cents.

MEAT should be served in the three meals. Included must be a citrus fruit or tomatoes, plus one green or yellow vegetable. The remainder may be as dried fruits. They provide bulk and mineral salts, the latter neutralizing acid-forming meats and breads.

A SERVING OF MEAT daily, which includes poultry or fish, may be substituted occasionally with other protein foods, such as eggs, cheese, dried beans, peas or peanut butter.

BREAD AND CEREALS will depend in amount on the calories needed. Growing children and men may require as much as six slices a day, women and girls less.

BUTTER on bread or in foods should be included.

Where Were You?

"I came to your church last Sunday. I noticed your seat was vacant."

"Yes I was at home," I answered. "See folks from up Cincinnati way."

"Drove down for a week end. So we stayed home all day."

"Or 'I had an awful headache' Or 'I had a roast in the pan' Or, 'We overslept this morning.'"

"But we go whenever we can." None of these excuses are new.

For the Master has heard them all before. And he is still beckoning to you.

To enter in the wide open door. Humble your selves at the foot of the cross.

And let your light so shine. And prove to the world That living for God is sublime.

As to the house of Sunday. As all Christians are expected to do.

So where he walks down the aisle next Sunday.

Where Were You? Do you support your church in tithes and offerings?

JOHN SMITH In loving memory of our beloved father, John Smith, who passed away two years ago to rest, March 25, 1952.

God knew you were suffering and the hills were hard to climb.

So he closed your weary eyelids and whispered peace be thine.

In our hearts there lies a picture more precious than silver and gold.

Sadly missed by all the children, His daughter, Mrs. Verda Johnson and all the family.
