Home Agents Notes Fruit Cake Recipe Here is a U. S. Department of Agriculture recipe 1 lb. makes 5 one pound loaves of fruit cake. Ingredients: 1 lb. prunes, 1 lb. seedless raisins, one half pound candied citron, one cup of nut meats (14 lb.); 1 cup fat; 1 cup brown sugar; 1 egg; 1 tablespoon milk; 2 cups sifted flour; 1 teaspoon mace; 1 teaspoon cinnamon; 1/2 teaspoon soda. To make: Soak prunes if they are dry; pit and chop. Soak raisins 25 minutes in hot water and drain. Cut citron in strips and chop nuts. Mix all together. Cream fat and sugar together. Beat in eggs and add sifted flour, spices and soda and stir into fruits and nuts. Add to cream mixture. Grease and flour five small loaf pans. Line bottoms with brown paper greased. Pour into pans. Bake at 250 degrees for three and a half hours. Cool slightly. Then remove from pans and strip off paper. Cool thoroughly and wrap in waxed paper. Store 2 weeks in a cool place before using. One of the newer ideas for fruit cake gifts are one pound loaves, wrapped in the traditional wax paper so that the recipient can't see what's inside. The Story THAT OUR DEPOSIT TICKETS Tell The deposit tickets of this bank record the business progress of this community as surely as a ship's "log" tells the story of its voyage. The merchant and the manufacturer, sell their goods; the farmer markets his products; the wage earner receives the money for his labor. These proceeds are deposited in the bank. Each deposit ticket is a small page in the biography of a business, or a part from the life-story of some individual. Added together, these deposit tickets form a "log" of community progress, revealing, also, the important part played by the bank. The Bank of Mt. **Timber and Game are Twin Crops on Many Tree Farms**

Their thrive in areas where loggers and tree farmers carry on selective harvests. Increasing the amount of "forest edge" provides more food for deer and other game animals and birds.

Timber and game are twin crops in the United States. Sportsmen once believed virgin forests were the ideal environment for wildlife. This belief was based on accounts of the large number of wild animals early settlers found before pioneers had pushed back the forests to build a new country.

Game scarcities did exist in those days, often in the very shadows of virgin forests. When General Arnold marched to Quebec in 1751, his army nearly starved. Sufficient game just couldn't be found to augment the army's meager rations. This occurred in the deeply forested wilderness of Maine.

Today Maine is highly regarded as a deer hunting state. New England and many other parts of the United States support a greater deer population than ever before in history.

Forest Edge Provides Food? What caused this change? Think today's tree farmers and loggers for the creation of millions of miles of new "forest edge." Today hunters know wildlife requires shelter, protection and food.

Hunters know that in an old growth forest, very little of the undergrowth, so necessary for game and bird food, exists. There is little sunlight to support browse plants. Good woodland management methods—selective cutting or log-

Sportsmen, likewise, know that streams and lakes have a definite population maximum beyond which fish will not prosper and grow. They know that if deer and other game are not hunted at systematic intervals, they too starve for lack of sufficient food, just as do trees in a densely crowded area.

Sportsmen and forest industries have other common interests. Protecting woodlands from fire is one. A single fire can destroy more game than hunting harvest in a game season.

## RAMBLINGS

For over three months I have been absent from the Signal office. I dropped in one day last week and again this week, trying to pick up the threads where I had left off. I'm happy to realize how efficient the office force continued its work during my absence and put out good papers. My partner, Elmo Anderkin had to do double duty much of the time, taking the pictures and look after the news. I read the stories, Mr. Anderkin did the inlaytype work which is a tiring and exacting job under any circumstances. And there was the retyping of all the other correspondence by Mrs. Hasty. Did you know that all handwritten copy that comes into the office is typed out before it goes to the inlaytype? That is a rather big job when nearly thirty letters come in every week. Mrs. Hasty also had to post the books, read the proof and take care of the circulation. Mrs. Harmon did a splendid job of reporting and as some one told me recently, "She has a nose for news." In the back shop is Clifford Elliott doing innumerable jobs that may not be so obvious but are exceedingly important to the efficient operation of any print shop.

And as the work went right on without much of my help, consider the Ramblings and considerable letter writing. I guess no man ought to feel that he is indispensable. We have had just the same and there is always somebody to step in, and carry on.

Perhaps no man in the last four decades has had as steady and large an influence on the social life of our town as had Winston Churchill who just celebrated his 80th birthday. He said he never felt a happier in his life than when he was 80. He realized the tremendous loyalty and devotion of his friends and admirers. There was never such an outpouring of tributes to any living man who has reached the age of eighty years. "Winnie" is pretty good evidence that years can add to a man's stature and even usefulness. When Britain was in dire distress during the last World War, it was this man who gave stamina and courage and led the hearts of his people, and of the free nations of the world.

## NAVARRE TRIAL

(Continued from page 1)

And the sight of her husband after he started mistreating her and the child. She testified that Jack also beat her, when she tried to protect her child. Jack still refused to comment on his feelings toward his wife, since his conviction for the child's murder. His answer: "I refuse to answer."

Jack was brought here for the trial from the State Reformatory at LaGrange, where he is serving an eight-year sentence for manslaughter in connection with the little girl's death. In his closing argument Commonwealth Attorney Russell Jones asked for convictions, for the Navarre, reporting that he was convinced one was as guilty as the other. Jack got eight years, he reasons because he took the first step before which the Navarres actually killed the child, but that even if he didn't do it, he deserved eight years for letting his wife mistreat the child, mistreatment which led to her death last May.

Doris Ann was defended by Mt. Vernon Attorney James W. Lambert and Henry C. Cox of Lancaster. The defense argues that Doris is the mother of the child as long as possible because of her love for the little girl, agreeing to give her up only when she could no longer care for her. Doris Ann took the little girl to her paternal grandmother, Mrs. Hazel Baker, the day before she died, saying the child needed to go to the hospital and that she'd let Mrs. Baker keep her if she would pay for the medical treatment.

Serving on the jury which acquitted the mothers were the following: Harry Kinard, Julian Moss, J. R. Dennis, Robert Metcalfe, Roy C. Gregory, Harold Sebastian, Cecil Arns, Frankie T. Clark, Mill Egan, Welby Teater, Cecil Walker and J. T. Prewitt, all from Garrettsburg, Ky.

The jury took only twenty minutes to find Doris Ann Navarre - Not Guilty.

## "OPERATION" SCHOOL SHELTERS

Since the completion of the first of the school shelters, built and distributed free by the Rockcastle Jaycees, we have had a lot of compliments and good wishes from the people of Rockcastle County, for this we appreciate.

We believe that The Rockcastle Junior Chamber of Commerce (Jaycees) have been very successful in their efforts to Rockcastle County and we were formed with the original purpose of betterment of Rockcastle County, and we believe these shelters are a good beginning toward that goal.

At the same time, we received comments on these shelters, we received requests for more shelters, and also pledges of lumber and money to be used for this purpose, for this we also appreciate.

Since we are a new organization and haven't as yet backlogs of any money raising affairs, we can't build any more at present time without outside help. Each of these shelters cost the Jaycees around \$25.00 with the Jaycees' themselves doing the labor.

A lot of families with school children who ride the bus, have told us that they will donate lumber or money to us to erect more shelters for the children of the county.

We would like to see this project completed as soon as possible as we have other projects waiting, so with the help of those who wish to donate lumber or money toward this purpose we would like to build up to twenty more shelters.

Money may be sent to Jaycee President, Gordon Graham or to treasurer, R. H. Hamon, c/o lumber brought to Wayne Stewart at the Rockcastle Farm Service or if it can not be delivered let us know and we will try to arrange to have it picked up.

## Baptist Church News

This program is the annual "M" Night conducted each year on the first Monday night in December, throughout the Southern Baptist Convention.

**Friendly NOTE**

By Alfred Sparks, Jr.

"First things first. So many times people get in a dilemma brought about by a desire to take a third step before taking the first one. Let me illustrate this point with a little example.

It seems that a small boy was on his way to school for the first time, completely confident as he strolled along. As he approached nearer to the schoolhouse he halted and finally entered, and was placed in a classroom with all grades. The teacher taught him his A. B. C.'s, and he found difficult to learn, and then she asked some of the other boys to help him. When the little boy got some help from his Mother he would never again go back to school. When she questioned him why, he explained, "Well all the boys stood up and read and I couldn't even learn the letters of the alphabet. K, N or P in my mother tries to show him if he took the first step and learned his A. B. C.'s the second step he acquired the mothers were recognizing words would be easy and his reading would come naturally.

Instead of struggling and trying to get ahead of ourselves we try to remember to do the duty that lies nearest us. We try to remember to do the second step with the second step itself, and so on up the line."

**THE BIBLE SPEAKS**

By Dr. Kenneth J. Foreman

Scripture: Psalm 66: 1-16, Devotional Reading: Psalm 73: 1-16

**Time of Trouble**

Lessons for November 25, 1954

"THERE is nothing modern about a trouble. Nothing old-fashioned either. You can't be up-to-date in any century if you don't know about the troubles of your century. For you find if you met William Shakespeare and Julius Caesar and Buddha, and Methuselah all at once, the one thing you could do (all) talk about and understand. Dr. Foreman stands one another perfectly (provided you know the same language) is a trouble.

**Fears**

"We have nothing to fear except for itself. It is a great American President. That is sometimes true, but only when there is nothing really to be afraid of. And yet, ever since the human race began, people have been afraid both of what was likely to happen and what was not likely to happen. They have been afraid of what was really there, and afraid of ghosts born of the creative imagination. Fear is not all bad, when it is no more than knowing the danger exists, it is a good thing. It is good to know the danger exists, that there is a ditch across the highway, that you are in a house that is good and keeps us alive. But there is what I call 'phantom' butterflies in the stomach," first comes the panic and then a kind of fear only adds to whatever danger or trouble there may be. Now we can read in Psalm 66, and it is plain that men in his time had the same terrors as ourselves. One feels here the dread of violent change, and it is not exactly that, under its current form of communism, which we are terrified of at times? One feels in this Psalm also the dread of war; and in our times with the H-bomb and the C-bomb, threatening, not just the boys that go to war, but every man, woman and child on the planet;—how can one sleep with an easy mind?

Loneliness

Another kind of trouble is loneliness. Psalm 143 brings this out; the writer felt that one was on his side, no one even cared whether he lived or died. He speaks too of the worst kind of loneliness—or one of the most painful kinds—that is to say, being in prison. We should remember that there are still in this world today an estimated eighty million refugees, that is to say, people who have literally no home, no place, no church, no rest of their lives, strangers in strange lands, people who live behind the bars of a prison, whose body wastes. We cannot forget the millions of others who would prefer rather be refugees, if they had their lives, their work and they have to live, as slaves of some "Big Waste, under the lash of the overseer from whom there is no appeal. But even if the cruel governments in the world were abolished tonight, even if all the millions of refugees found home and shelter; there still would be as there have always been, millions who could echo the Psalmist's plaint, "Who can care for my soul?" Loneliness—the first men knew it on a dark lonely night in a wilderness; they did not understand and could not yet control; the last men will know it, on a dark lonely day among the skyscrapers of a modern city from the invisible poisons of the radioactive air. And in between the first man and the last, where is the human being who has not at some time or other felt himself deserted and alone?

**God is Our Help in Trouble**

The Psalm-writers knew all this; and yet they could sing, "The Lord is my strength and my help in trouble." They knew the troubles of times they kept touch with the eternal God. "He will help the believing to times of trouble." He does not always help by keeping an umbrella of miracle over the heads of saints; but even Jesus was without tears and death. Read these Psalms to see how God was their "help in trouble." They were "our help to come." Men of faith, they were able to surmount their troubles, they found courage through contact with the God of all. They knew, as we sometimes forget, that God made this world, that it is still His, that above it earthly powers in His sovereign power; that in His own time, in His own way, He will be the victor.
