Referendum Day Drawing Near For Tobacco Growers

Farmers will vote in Mt. Vernon, at Blue Springs, Brodhead, Wildie and Orlando.

An estimated 2400 voters of Rockcastle County will be eligible to vote next week in the Burley tobacco referendum. Voting will start at 8:00 A. M. Friday, April 22, with polls set up in Mt. Vernon, at Blue Springs, Brodhead, Wildie and Orlando. Both Mr. and Mrs. Tobacco Grower are expected to show up to cast their votes, with Junior and Sister also invited to vote if they participated in the production of Burley tobacco on the farm last year. Voting is open to anyone who has an independent bona fide status as owner, operator, tenant or share-cropper, and as such was entitled to share in the proceeds of the 1954 crop. Four-H members are expected to cast their votes along with Future Farmers and established farmers. A two-thirds vote "in favor" of the referendum will assure tobacco growers of Rockcastle County of continued price support. . . \$46.20 per 100 pounds as average price support for the 1955 crop.

Mr. Rockcastle Farmer, along with all other farmers in the Burley Belt, will be voting to take a referendum on the subject, but even if the farmer votes against the reduction, acreage allotments will still exist for the purpose of the ACP program. Therefore, the ACP points out, the new law prohibiting use of plantings in excess of allotments for building future allotments would apply even though the quotas were rejected.

Approval of the quota would mean continuing the control program with price supports at 90 percent of parity.

To cast his vote the tobacco grower will report to the following voting places: The ASC office in Mt. Vernon, Henry Cromer's Store at Blue Springs, the City Hall at Brodhead, the School House at Orlando and a station to be announced at Wildie.

The stations have been set up according to magisterial districts. ASC County Committees will serve as election officers.

Railroad Employees Help Sick Child

Striking L. & N. railroad employees at Berea have come to the aid of a family in distress, donating a total of \$30 in cash to the Bob Carpenter family at Conway.

The Carpenter's son is in a serious condition with rheumatic fever. A group of 23 of the railroad men made up the fund to "give the family some relief in their distress."

The Senior Class of Brodhead High School will present a three-act comedy, "Off The Track" Friday night in the school auditorium. Members of the cast are, front row, left to right, Charlene Hendrickson, Joyce Wallin, Rosemary Chaney, Eyrone Saylor, Jean Parsons and Alice Adams. Second row, left to right, Wilma Barrall, sponsor; Shirley Clark, Paul Gentry, Eugene Brown, W. A. Owens, Robert McDaniel, Don Harp and Shirley Owens.

Heart Disease Fatal To Rev. James Bowling

Rev. James Bowling, son of Bell West and Frank Bowling, was born in August 1903 and died April 13, 1955 at the Standard Hospital, his age at the time of death being 52 years. Cause of death was given as a heart disease.

Survivors are his wife, Mrs. Lillian Bowling of Brodhead; six brothers, Pat Bowling, Middletown, Ohio; Louis Bowling, Blue Ash, Ohio; Willie Edgar and Thornton Bowling, all of Trenton, Ohio; Carter Bowling of Loveland, Ohio, and two sisters, Mrs. Pearl Lasswell of Cincinnati, Ohio, and Mrs. Elizabeth Metcalf of Covington.

Funeral services were held at 1:00 P. M. Friday at the Negro Creek Church of God, with Bro. Ben Doyle and Bro. G. W. Murphy officiating. Burial was in the cemetery.

Howard Funeral Home was in charge of the arrangements.

Dr. George Griffith attended a state meeting for general practitioners Wednesday and Thursday in Louisville.

Cancer Crusade Opens To The Tune of \$30.84

The 1955 Cancer Crusade opened in Mt. Vernon yesterday to the tune of \$30.84. This amount was collected through the combined efforts of the Mt. Vernon High School Band, the Meridian Women's Club, the local Tri-Hi-Y Club and the Mt. Vernon Fire Department.

The band toured the town, under the direction of Miss Mary Bryant, while Tri-Hi-Y members rode in cars driven by members of the Meridian Club. The cars stopped at regular intervals for the Tri-Hi-Yers to canvas the town. Citizens of the town rallied with the \$30.84.

The drive will continue throughout the month of April, with a goal of \$250 set for the county at large. Chairman of the local crusade is Mrs. Joe Henderson. The truck which members of the band rode yesterday was donated for the afternoon by the drivers, Mrs. Elmer Halcomb, Livingston; Mrs. Mae Brannan, Orlando; Mrs. Beulah Stewart, Wildie; Mrs. Payne Adams, Wildie; Mrs. Lizzie Skogins, Ottawa; Mrs. Bro Brown, Quail; Mrs. Martha Hill, Disputant; Mrs. William Payne, Wabash; Mrs. Earl Teater, Jr. Renfro Valley.

Contributions also may be given to Mrs. Henderson or any member of the Meridian Club, which is sponsoring the drive here.

John Durham Dies At The Age Of 78

John Durham of Livingston was born October 10, 1876 and died April 22, 1955 at Danville, his age at the time of death being 78 years, five months and 27 days.

He was the son of the late Arzilis Abner and Austin Durham and for a number of years had been a member of the Morning View Holiness Church, which he attended as long as his health permitted.

To mourn his passing he leaves four sons, Bill Durham of Alvie; Lloyd Durham, Muncie, Ind.; Earl Durham, Bunkie, La.; and Walter Durham, Lynn, Ind.; two daughters, Mrs. Nell Moberly of Richmond, Ind., and Mrs. Miller Clark of Livingston; 13 grandchildren and number of other relatives and friends.

Funeral services were conducted at 2:00 P. M. Friday, April 15, at the Morning View Holiness Church, with the Rev. Murphy Martin and the Rev. W. H. Allen officiating. Burial was in the Morning View Cemetery.

Sparks Funeral Home was in charge of the arrangements.

Red Cross Drive Nets \$58 At Livingston

Livingston this week reported Red Cross contributions and an additional \$5.00 was contributed in Mt. Vernon totaling \$58.00, bringing the grand total collected in Rockcastle County to \$69.99.

The money at Livingston was solicited by the Livingston Lions Club. Those contributing \$5.00 were Mrs. C. F. Mullins, C. H. Webb, Sam Halcomb and one anonymous donor \$3.00 each, and Dr. R. G. Webb, \$25.00.

An \$5.00 donation also was made by C. L. Owens of Mt. Vernon.

The goal for the county is \$132. Money still can be contributed by getting in touch with Mrs. L. D. Bryant, county Red Cross treasurer.

Charles A. Davis Dies At Brodhead

Charles Alfred Davis, son of the late W. A. B. Davis and Mary Denny Davis, was born here in 1880 at Mill Springs and died at the Atkinson Nursing Home, Brodhead, on April 14, 1955 at the age of 74 years.

He was a railroad engineer and member of Ashland Lodge, F. & A. M. Mt. Vernon R. A. M., and Lantry, Grand, three sisters, Mrs. Annie McKenzie of Louisville, Mrs. Jennie Robins of Brodhead and Mrs. J. Howard of Williams Creek; his step-mother, Mrs. Alice Logsdon of Mt. Vernon; two half-brothers, Karl and Bill Davis, both of Chicago, Ill., also many nieces, nephews and other relatives.

He was preceded in death by one sister, Mrs. Garlie Henderson, one brother, Slin N. Davis and two half-brothers, Bob and Leonard Davis.

He was a member of the Mt. Vernon Christian Church.

Funeral services were held at 2:00 P. M. Sunday at the Mt. Vernon Christian Church officiating. Burial was in Elmwood Cemetery, with Masonic services at the graveside.

Stewart To Manage Combs Campaign Here

W. S. Stewart, Wildie, has been appointed Rockcastle County campaign chairman for Bert T. Combs, candidate for governor, with Masonic services at the graveside.

The appointment was announced this week by Runsey B. Taylor, state campaign chairman for Combs and former judge of the Court of Appeals.

The appointment was announced at the same time as were the names of other campaign men to run Combs' campaign in the Eight Congressional District.

350 Rockcastle Children To Get Free Polio Shots

The parents of 350 first and second grade school children in Rockcastle County now have signed request slips for their children to be inoculated against polio.

The vaccine is expected to arrive by April 28, the date originally being considered for the inoculations. However, the state, but local health authorities do not want to make a definite announcement until the vaccine is received.

Dr. Walker Owens, local county health officer, has announced that requests now will be accepted until May 1 for the free shots to be given the first and second graders.

Private physicians also are expected to receive a supply of vaccine, but are being asked to reserve their supply for children not eligible to receive the free inoculations and pregnant women. In Mt. Vernon both Dr. George Griffith and Dr. J. F. Pennington have received numerous requests for inoculation as soon as the vaccine is made available, but neither doctor knows when he will have the vaccine.

The vaccine to be received by the County Health Department will be furnished by the National Foundation for Infantile Paralysis and paid for with March of Dimes funds.

Sam Cox Murder Trial Scheduled For Monday

Twenty-two-year-old Sam Cox of Three Links is scheduled to face a Circuit Court jury here next week to answer a murder charge for the fatal shooting of Calvin Mason, Cox's father, of three young children.

Cox, 30, died March 19 after a shooting fracas at the Climax Holiness Church. With Cox and Mason at the time of the shooting were James Kots, Three Links, and Dennis Gabbard of Climax, both of whom are expected to be witnesses at the trial.

The case has been set down for Monday, April 25. In court this week Circuit Judge B. C. Tartar fined Melvin Saylor \$20.00 and costs after Saylor pleaded guilty to a breach of peace charge, and gave Dennis Gabbard a fine of \$10.00 and costs for public drunkenness.

Verdict Of Two Years For Child Desertion
A Circuit Court Jury found Edward Montgomery guilty of child desertion and fixed his sentence at two years in the state penitentiary.

The case of Millard Winkler, indicted for possessing liquor for the purpose of sale, was continued until April 28.

Two Arrested For Speeding
Two men were brought before Mt. Vernon Police Judge Leonard Langford Saturday on charges of speeding, with one fined \$10.00 and the other fined.

Fined \$10.00 and costs was Leo Walting. Harold McHargue was cleared of charge.

County Agent Notes

Economics of Burley Tobacco Questions and Answers on the Situation in 1935

How serious is the burley tobacco problem? What can be done about it? These are the big questions facing farmers, businessmen, and government throughout the burley-production area.

WHAT IS THE PROBLEM? Too much burley tobacco on hand, plus the fact that in spite of acreage reductions total production of burley has continued to go up.

WHAT ARE THE SUPPLIES ON HAND? About 1.8 billion pounds of burley tobacco at the beginning of 1935. This was enough to last about 3 1/2 years at present rates of use.

IF THE PRESENT SURPLUS BURDENED? Yes, especially in view of the downward trend in use of cigarettes during the past two years.

Not all burley is used in cigarettes, but most of it is. When more and more cigarettes were being used each year, a certain amount of "overproduction" in the future.

WHY DID SO MUCH BURLEY GO TO THE POOL THIS YEAR? The crop was the biggest on record, and manufacturers already had large stocks on hand.

WHY ARE HEAVY YIELDS PER ACRE HARMFUL? No, if not overfertilized with nitrogen. Heavy yields of a kind not wanted by manufacturers will of course lead to greater surpluses and further reduction of acreage.

WHAT ARE THE PROSPECTS FOR USE OF BURLEY IN THE FUTURE? Demand for burley tobacco is closely tied in with use of cigarettes.

ing market an oversupply is always troublesome. WHAT IS THE EFFECT OF THE SURPLUS ON PRICES? Under a price-support program an oversupply is prevented from lowering prices much below the support level.

Under a price-support program an oversupply is prevented from lowering prices much below the support level. Tobacco which buyers do not want at the support price is placed under government loan.

About 225 million pounds of the 1934 burley crop (about one-third of the crop) was placed under government loan. Under price support program, a burdensome surplus of farm product almost invariably results—drastically 10 w prices.

If the present surplus were entirely in private hands instead of being largely in government-held stocks, it would very likely depress prices more. Unless the tobacco control program is abandoned or conditions change materially, the government held stocks are not likely to be offered for sale at less than 90 percent of parity.

Government held stocks permit dealers and manufacturers to supplement their own stocks by purchasing from a common pool of stored tobacco. This ought to help keep prices stable.

PTION GO UP AGAIN? No one can say for sure, or whether the price of cigarettes will go up again. Undoubtedly the use of cigarettes has been affected by the possibility that cigarette smoking is related to health (lung cancer).

Another interesting line of inquiry is the possibility that cigarette smoking is related to health (lung cancer). Apparently no one knows the answer to this as yet.

DOES THE MOST USEFUL TOBACCO BRING THE HIGHEST PRICE? Not always, under the present grading and pricing system. The trouble is that chemical make-up of the tobacco has become more important in determining the value of the tobacco in recent years.

The present grades do not fully reflect the chemical make-up of the tobacco. Present grades are based on the way tobacco leaf looks and feels. No practical system of grading has been yet worked out which would take into account the chemical make up of the leaf.

WHAT CAN INDIVIDUAL FARMERS DO TO HELP THE SITUATION? Each farmer can set his sights on producing the kind of tobacco manufacturers want: bright colored, thin-bodied, ripe tobacco. He can then strip it carefully and offer it for sale in piles of uniform grade and quality.

Another interesting line of inquiry is the possibility that cigarette smoking is related to health (lung cancer). Apparently no one knows the answer to this as yet.

Joseph sold into Egypt. Now, after Joseph was sold to the Arabians who were traveling as a caravan from Gilead to Egypt with wares and sweet smelling spices, intending to sell them to the Egyptians, they added to the company at Dothan the 17-year-old Jacob, the youngest son of Isaac, and started on their journey to Egypt.

Joseph's beauty and superiority, and this quick rejection by him made her still more violent in her persistent refusal. She is the one who first attempted to set her goal in the second attempt with much more force than at the beginning.

Got an itch to switch the pitch?

Here's the New Hit in Hardtops - the 4-Door Riviera

WANT to do what a pilot does when he clears for take-off? Want to feel the pulse-quickenning thrill that comes of giving the gun to a high-powered automobile with the world's first airplane-inspired transmission? Want to try Buick's Variable Pitch Dynaflo* - the spectacular new wonder drive that's the talk of car makers and car buyers alike - and the drive that's sending Buick sales soaring to new record-breaking highs? Well, sir - be our test-pilot guest at the wheel of a '55 Buick and let today's Dynaflo do the honors. When you press the pedal as you normally would, you move ahead in velvety smoothness, getting plenty of miles from each gallon of gas... Because twenty propeller-like blades inside the Dynaflo unit, spinning in oil, have an angle of "pitch" for top economy - like the modern plane's propellers when cruising in the air. But comes the need for emergency acceleration, and - like a pilot does for quick take-off and climb - you switch the pitch of those Dynaflo propellers for action, just by pressing the pedal all the way down. Instantly, you get full-power response for split-second getaway, or for a sudden safety-surge to get out of a tight spot on the highway. It's a response thrilling beyond all previous experience - because there's never been anything like it before in any car. And we'd like you to try it - along with the wallowing new V8 power, the cruiser-steady ride, the fine handling ease, and the true big-car roominess that are all part and parcel of every Buick. Can you come in today - this week, for sure - and test pilot the hottest Buick yet built? *Dynaflo Drive is standard on Roadmaster, optional on other Buicks.

Viewpoint

What changes are provided in the new tobacco legislation? Five changes have been made in the law regarding the burley control program. These are:

1. Redetermination of the market quotas for 1955 is provided, subject to approval of the growers.
2. Penalty for red-card tobacco is increased from 50 to 75 percent of the previous year's average price.
3. Use of red-card or excess plantings as a means of obtaining increased acreage allotments will no longer be permitted.
4. Unreported burley from a grower will be deducted from his next year's allotted acreage.
5. The minimum allotment will be 0.5 acre, instead of 0.7. However, reduction from 0.7 acre or from 0.6 acre will not be more than 0.1 acre in any one year.

Are all these amendments to the law to be voted on by growers? No. None of these amendments to the law are to be voted on. All the amendments are in the law and are a part of the program. The only question growers will vote on is whether or not they are in favor of the program for 1955 as announced by the Secretary of Agriculture.

Acreage allotments will still exist for purposes of the ACP program even though the marketing quotas are rejected in the April 24 referendum. Before the new law prohibiting use of plantings in excess of allotments for building up future allowances is passed, growers even though the quotas have been rejected.

In 1939 tobacco allotments were reduced by the growers. Acreage of burley produced in 1939 was 5 percent greater than in 1938. Production was 16 percent greater and prices were about 10 percent lower than in 1938. Furthermore the full effect of the increased production in 1939 was not realized in 1939. In 1940 the carry-over (stocks) of tobacco was greater than in preceding years. In spite of the fact that acreage was about 13 per cent lower in 1940 than in 1939 and production was about 5 per cent lower, prices continued to fall and decreased 6 per cent below the 1939 level.

Producers of other tobacco also increased their production when quotas were voted out. In 1939 the acreage of all tobacco was 25 per cent greater than in 1938, production was 36 per cent greater and the average price was 22 per cent less than in 1938. In spite of the fact that acreage was increased by 30 per cent in 1940, stocks were large and the price increased only 4 per cent.

Farmers have learned how to produce more tobacco per acre than they ever produced before. In 1954 farmers produced the largest amount of burley ever produced in spite of the fact that acreage was 18 per cent less than in 1950. The average yield per acre was 1600 pounds in 1954.

In nine of the last 11 years farmers have produced more burley than was used. Stocks have continued to build up to record levels and the stocks now amount to enough tobacco to supply about 3 1/2 years use. The surplus of tobacco amounts to about two-thirds of a year's production. If the price of tobacco is not supported this year, the price will likely fall below support levels even if production is not increased above the level of 1954.

Give to cancer—In Rockcastle County alone cancer claimed 14 lives last year. At the same time 113 persons received treatment for cancer in this county, with the American Cancer Society spending \$2,160 for hospitalization of these patients. Of this total of more than two thousand dollars, \$248.00 was contributed by the people of Rockcastle County. The remainder came from the American Cancer Society.

Give now—Why let cancer kill when it can be cured.

By Alfred Sparks, Jr.

No One Knows What He Can Do Until He Tries . . .

How often have you thought of someone that he could accomplish a certain deed if only he would make the attempt? It is natural, certainly, to be wary of something new, something at which we have not had previous experience. This reluctance to face new problems as mentally or physically equipped and the result is all too obvious. However, even this failure has its reward; we at least know that it was not a task which we completed if only we had tried.

During a life time we will be called upon many times to explore the challenges of new jobs, new problems and new outlooks. And there is one thing of which we can be assured: "No One Knows What He Can Do Until He Tries."

The Tobacco Amendments Are Not So Bad As We First Thought

First off, when we heard details of the amendments for cutting burley allotments we were sorely disappointed. We had hoped that the seven - tenth acre bases would not have to be cut.

But, actually those who have one acre or eight- or nine-tenths will be hurt worse proportionately than the seven - tenths man. They will take the 25% cut — and that will be two tenths for the eight - and nine - tenths acre men and the one acre man. But the seven - tenths acre man takes one one - tenth - acre cut this year.

And, the larger grower will have one-fourth of his base cut. A two - acre base thus will be cut to 1 1/2 acre - and all the others at the same ratio.

Two sections of the new amendment seldom mentioned in our wallings over the cuts will hurt (and thus help) nearly as much as the cuts. These are the provisions to eliminate falsifying excess acreage grown, and elimination of red card acreage as a basis for qualifying for new allotments the following year. And these will hurt the sincere grower not at all, but will be very painful for the one who fudges a little and for the large Bluegrass growers who have hired cheap labor to tend red card acres in order to gain more base the following year. So all-in all, the amendments will not hurt so much as we first thought. On the other hand, the amendments will adjust the problem much sooner than we think, in all probability. Because they not only cut base acres by 25% but they will practically eliminate both red card and excess tobacco.

We predict that within two years allotments will have to be increased in order to catch with the demand. And here's a good feature of the act - those who were cut will get any new acre allotted before new growers get them: So, everything considered, it seems a much better law than we first thought it was.

That's why we urge growers in this section to get over their first burst of anger and disappointment as quickly as they can and get down to calm, hard thinking. When this is done we think good sense will prevail and growers here will vote overwhelmingly to retain the program as amended.

It seems to be the best method that could be found to cure the sick patient and get him back to robust health.

Mr. Tobacco Grower

How will you vote in the Referendum?

A vote "In Favor of (X)" means price supports and a stable market.

A vote "Opposed to (X)" means a return of ruinous prices, unsettled market, lower land value and hard times on the farm.

Vote on April 28 - but think before you vote.

This "AD" sponsored in the interest of a better agriculture.

BAPTIST CHURCH NEWS
Ninety-six men and boys attended the Father and Son Banquet at the First Baptist Church of Mt. Vernon April 15. Dr. George Redding, Professor of Bible, at Georgetown College was the speaker. In his message to the fathers Dr. Redding said "the most important job in the world is the job of being a real father." Dr. Redding urged the fathers present to take the lead in setting an example of church attendance before their sons.

He said, "you can send your children to Sunday School now but unless you go with them they will stop going later." Before the message, Ruel and Flossie Thomas sang and his talents prove him to be a "chip off the old block."

If any one chooses to check my labor record in the 1946-1948-1950 General Assembly they will see that I have the best labor record of any representative sent up from Whitley in a decade. I voted for all railroad labor legislations that came before the house for a vote. Introduced the Mine Safety Bill for Coal Mines and have at present letters of recommendations from various labor unions as to my labor record.

We believe in right of arbitration and right to peaceful picket for ones right in labor disputes. Any one who makes a false statement about my labor record only need to check my votes in the Kentucky General Assembly to see it is nearly 100% perfect for labor and for the farmers of Kentucky.

Mr Burley Tobacco Grower

A large surplus and over-production of BURLEY TOBACCO has resulted in the passage of recent legislation which requires the Secretary of Agriculture to reduce the 1955 Burley Tobacco Quota. All 1955 Burley allotments will be re-determined and each farmer will be notified of his new allotment before the Referendum.

Because of this change in allotments, the REFERENDUM will be held in each county on THURSDAY, APRIL 28, so that each Burley Tobacco Grower may have an opportunity to vote - "IN FAVOR OF" - or - "OPPOSED TO" - the continuation of acreage controls and a Government price support on the 1955 crop of Burley tobacco.

If two-thirds or more of the growers voting in this referendum vote - "IN FAVOR OF" - Acreage controls and marketing quotas will be continued and a Government price support based on 90% of parity will be made available on the 1955 crop of Burley tobacco.

If more than one-third of the growers voting in this Referendum vote - "OPPOSED TO" - No marketing quotas will be in effect and No Government price support will be available on the 1955 crop of Burley tobacco.

BELOW IS A SAMPLE BALLOT THAT WILL BE ISSUED TO YOU AT YOUR VOTING PLACE ON THURSDAY, APRIL 28. Voting places will be open from 8:00 A. M. to 5:00 P. M. Standard Time, at places announced by your County ASC Committee.

1955 Burley Tobacco Marketing Quota Referendum Ballot Do you favor or oppose the re-determined national marketing quota for the 1955 crop of Burley tobacco with Government price support at 90 percent of parity?

IF IN FAVOR OF The Quota with Price Support, put "X" in this box. IF OPPOSED TO The Quota With Price Support, put "O" in this box.

The Rockcastle County Chamber of Commerce urges each and every tobacco grower to vote "IN FAVOR OF" quota and price support as shown on above ballot.
