Look 4 Doors and no center posts! It's the new kind of hardtop - The 4-Door Riviera! You drop the side windows down on this airy beauty of a Buick with the solid steel roof - and it's wide open as a Convertible, with no center posts to mar your view. That's what makes it a hardtop. But what makes it a very special kind of hardtop is the fact that it has four doors instead of two. Cheers? Brother! - they're really rolling out for Buick's 4-Door Riviera! Now, you see, you can have the tremendously popular styling of a true hardtop combined with the room, comfort and full convenience of a 4-door Sedan. And it took a completely new kind of body design to come up with this marvel - a new kind of body built to wholly new structural principles. So it looks like Buick's done it again - because the 4-Door Riviera is a sweeping sensation across the nation. It's rolling off the assembly lines in volume numbers to meet the demand - in the high-powered CENTURY Series, and in the bedrock-priced SPECIAL Series, illustrated here. And each one is all Buick - with record-high V8 power, the level steadiness of all-coil-springing, the extra roominess of a full-size Buick Sedan - and, most certainly, with the instantaneous getaway response and bettered gas mileage of Buick's spectacular new Variable Pitch Dynaflow. Come in for a look at the brand-new kind of hardtop - the 4-Door Riviera. You'll find it priced at the modest extra cost of a 4-door model over a 2-door model - and a buy too thrilling to pass up. *Dynaflow Drive is standard on Roadmaster, optional at extra cost on other Series.

Wild Blackberry Market To Open Here Next Monday

Trucks will cover the county to bring berries to warehouse in Mt. Vernon.

Blackberry time has arrived in Rockcastle County. Already an occasional blackberry pie has found its way to the dinner table and on Monday residents of the county will start picking berries for home preservation and for the market.

Nathan Mullins will buy berries again by year at his warehouse on Williams Street, buying from the truckers who canvas the highways and county roads to serve rural pickers.

Children will earn their spending money and in many cases money for their school clothes, while mothers and fathers, older sisters and brothers, even the more sprightly of the older folk will go into berry picking business on a larger scale.

The berries are expected to be plentiful this year, but the quality can not yet be determined. The recent rains have loaded the briars.

The blackberry season is expected to last two or three weeks. Last year it opened in the wild berries were shipped from the county. The market is expected to be much larger this year.
