See the Difference? (No Center Posts!) 188-hp Buick SPECIAL 4-Door RIVIERA, Model 43 This 4-Door Beauty is the Newest Hit in Hardtops YOU certainly ought to come in and see for yourself why this new kind of hardtop is headed for the best-seller list. It's a Buick Riviera, of course. Which means the low and rakish look of a Convertible - a solid steel roof overhead - and no center posts in the side window areas to obstruct your view. But that's only the beginning. Here you get two extra doors. They open to the rear compartment. So no one in the front has to move when someone gets into or out of the rear. Here you get massive half-pillars on either side on which the front doors latch and the rear doors hinge. (That's why you see no center posts above the door line.) Here, too, you get wholly new principles in body design and strength that give the extra safety of rock-firm solidity at the top, sides and bottom. And here - bless those Buick engineers! - you get a lot more room in the rear compartment. For the 4-Door Riviera gives you over 9 inches more hiproom and 5 inches more legroom - yet with no increase in wheelbase or over-all car length. So we repeat - you certainly ought to come in and see this stunning new kind of hardtop. It's the very last word in beauty, comfort, convenience. It's available in Buick's two lowest-priced Series - the SPECIAL and the CENTURY. And it's all Buick - with Buick power, Buick ride, Buick handling - and the spectacular performance of Buick's Variable Pitch Dynaflo.\* Drop in today - tomorrow at the latest - and learn what Buick's all time record sales year can mean to you in the way of a whopping-bid trade-in deal. \*Variable Pitch Dynaflo is the only Dynaflo Buick builds today. It is standard on ROADMASTER, optional at modest extra cost on other Series.

## Intersection of U. S. 150 Scene of Three Accidents

### Brodhead man and Tedders, Ky., woman injured in wreck at Green Hill Monday.

U. S. 150 at the edge of Mt. Vernon was the scene of two wrecks over the holiday week end and another early Thursday morning of this week, with four persons hospitalized as a result of injuries received in the wrecks.

The injured were Melvin Turner of Mayville, Tenn.; Willard Young of Norton, Ky.; and Robert and Margaret Turner of Knoxville, Tenn.

Harris and Young were injured Saturday when their car, a 1946 Ford, was hit by an automobile transporter. The driver of the transporter, Frank Owen Abernathy of Louisville, reported that the car came out of U. S. 25 into the path of his truck and that the driver could not miss the car.

Although the occupants of the Ford were not seriously injured, the car was a complete wreck, with the motor found across the highway, 50 yards away, and the front fender down the road an estimated 100 yards.

Both Mt. Vernon ambulances were called to the scene and accident with Cox rushing one man to the hospital and Sparks the other. Both men suffered severe cuts and bruises.

The transporter was one of the Central Truckway System out of Louisville.

The Turners, cousins from Cincinnati, were injured when their car, a 1953 Ford, slid on the wet pavement and went over the hill. Their injuries consisted of abrasions and bruises.

**Walter Vaughn Injured in Green Hill Wreck**  
No one was reported injured in the third wreck on U. S. 150, but a Brodhead man and a Tedders, Ky., woman were injured in a three-car wreck Monday at Green Hill.

The Brodhead man, Walter Vaughn, suffered broken ribs, deep cuts about the face and abrasions over the entire body.

The woman, Mrs. Mary Frazier, received a fractured knee, contusions and internal injuries.

The driver of the third car, Jackie Hiett, son-in-law of Conrad Parrett, Mt. Vernon, was not injured. The Parrett car, a new Buick, was damaged to the extent of about \$150.00.

## Holiday Travelers, Visitors Double Town's Population

The population of Mt. Vernon increased by an estimated 1,000 persons Saturday night as the nation observed the Fourth of July week end.

Tourist courts, motels and hotels were filled to capacity and every available room in town was rented. Renfro Valley reported that 14 carloads of visitors to the Barn Dance slept in their cars Saturday night because they were unable to find quarters and many a resident of Mt. Vernon gave up his own bed to provide a weary traveler with a place to spend the night.

The stream of cars started early Friday and continued throughout the four-day week end. Restaurants and stores reported record business, with one merchant closing early Tuesday night with the joking remark that he'd made all the money he could stand for one week end.

Some stores in Mt. Vernon closed Monday in observance of Independence Day, but many remained open either all day or part of the day.

Rockcastle natives working away or in school came home to the holidays with their families here and families who have been away, for a good many years were back to visit.

## Albert Gene Griffin To Preach Sunday At Baptist Church

Rev. Albert Gene Griffin will preach next Sunday morning and evening, July 10, at the local First Baptist Church in the absence of the pastor, Rev. Raymond Lawrence, who is away conducting a revival.

and therefore are not reflected in the benefit figures for the end of 1954. Among these were the bringing of many more employees and self-employed people under the law and the beginning of the "disability" program which protects future benefit rights of former workers who have become totally disabled.

Tuesday pointed out that payments to mothers and children have special significance to the community as a whole because they help families to stay together in the death of the breadwinner.

In the nation as a whole, 271,536 mothers and 1,160,770 children were receiving social security insurance payments at the end of 1954. Total payments in 1954 were \$133 million to mothers and \$451 million to children.

Under the old-age and survivors insurance program, workers pay the employers and self-employed people pay into a fund while they are working, and when earnings stop because of the death of the worker or because he has retired, payments are made from the fund to the worker and his dependents.

In all, 306 people in Rockcastle County were receiving \$11,184.00 each month in benefits under the old-age and survivors insurance program at the end of the year. This was an increase of about 40 percent over 1953.

One reason for the increase was the passage last September of the 1954 Amendments to the Social Security Act. These amendments increased all benefit payments and made it possible for the first time for survivors of some workers who died after 1939 and before 1950 to qualify for payments.

Beginning in September 1954 the amount of the average monthly "dropping out" of up to five years of lowest earnings in figuring the worker's average monthly wage.

This has the effect of increasing the average earnings, from which the monthly payments are based.

Other improvements in the law made by the 1954 Amendments went into effect in 1955.

### "Laugh A Little More At Your Own Troubles And A Little Less At Your Neighbors."

Sometimes the nature of our man's troubles is such that we can't in all fairness look on it rather amused tolerance. Generally, however, troubles are not very often a laughing matter, particularly when they are our own and our own making. The ability to "laugh it off" is a merit which is of benefit only to a certain degree. However, there is a certain type of person, which takes a "laugh" out of the misfortune of those about him. You have seen the sort; we all have. And it does appear that if this type of person were to restrain faces, intruding on another's misfortune and take a less intense view of his own troubles, it would serve a double purpose.
