Used Cars - Mileage for Less
You get the best Used Cars where they sell new Cars is a pretty well established fact among people who have owned several used cars. Because just lots of people buy a New Car.
A good used Automobile gives you far more intrinsic value per dollar of price than any other commodity or thing you can buy. That is especially true of late model used cars. Just any Standard make is built to go more than 200000 miles. You get mileage for much less than the first owner paid.
We do not buy Junk Cars from Northern Lots eat up with salt and corrosion with Speedometers run back. We get only good used cars from Local people who are our customers and trade every year or two for new cars. Its a habit of lots of folks who always want to drive the very latest. Others equally able to afford it would rather not pay the price of a new car—they want to do something else with the money.
Our Service Shop facilities are complete and always available to put our used cars in O. K. condition. Very few used car dealers have any service facilities. We have been in business for Twenty Five years and expect to be in business here for a long time and this is one reason why we service all of our used cars we offer for sale. In no other way can we be sure to merit their good will and continued patronage of our customers.
Drop in and See Ivan Cummins, on our Big Used Car Lot and see some of the fine cars we are now offering before the rush starts for Winter Driving.

### HOSPITAL FUND DRIVE

#### NEEDS SUPPORT OF ALL

Building a hospital is one thing; operating it is another. Such will be the keynote Sunday afternoon when officials of Rockcastle County Baptists, Inc., kick-off their drive to raise some \$20,000 to operate Mt. Vernon's new hospital in the early weeks of its existence.

It has been pointed out that new hospitals often operate in the red for a few weeks after opening. Therefore, the federal government requires the sponsoring organization to have enough to take care of that deficit, should it occur.

After the early period of financial uncertainty has passed and more residents take advantage of its services, the hospital begins to show a profit. Some hospitals never operate in the red. Lancaster's hospital for example, has always operated in the black. Some, though we know of none, probably fail. Such failure should not be expected, but guarded against.

Refrain the "next egg" for operational costs is being put directly to the pockets of the county. Some have already said, "Why not use the money you added to my tax bill this year?" That money is being used to build the hospital, not operate it.

Hospital officials have spoken frankly to the citizens. They expect the hospital to make a profit. If it should not then by necessity, it will have to be leased to an organization that will operate it—possibly an organization outside the county.

It remains for citizens to finish what was started at the polls. It is "your" duty as a citizen to see that the hospital takes its place in the community with "your" full support.

If you are asked to contribute, think of your contribution in terms of "the people's need" rather than in a monetary sense. After all, isn't supporting a worthy cause literally re-lighting the spirit of "I am my brother's keeper?" We should not put out that light.

### 50th Anniversary Celebrations Registered By Mullins To 50-Year Members

Fifty year buttons were presented to four members of Ashland Lodge 640 at a ceremony at the Masonic Hall in Mt. Vernon Monday night.

The regular meeting, which was attended by 95 Masons representing five different Lodges, followed a banquet held at the Mt. Vernon High School honoring the 50 year men.

Those who received the honor were, Lewis J. Beams, of Orlando; E. G. Henderson of Fort Recovery, Ohio; Dr. Lee Chestnut and James Chaney both of Mt. Vernon; Dr. Chestnut, however, was unable to attend. Claude McHargue received the award for Dr. Chestnut.

Ervin Hunt, Master of the Mt. Vernon Lodge, presented the buttons, T. C. O'Mara presenting aprons to each member and R. E. McKenzie giving a Masonic history of each man. Mr. McKenzie stated that only nine 50 year buttons have been awarded in the 66 year old Lodge, including the four presented Monday. A brief business session was held after the dinner. Plans were discussed for a style show sponsored by the P. T. A. as a part of the Halloween celebration. Mrs. Carol Waddle was elected president and Mrs. Ralph Bowling, vice president.

Fourteen persons will probably stop the next time they see a school bus unloading children. The 14 paid \$1 fines and costs in Rockcastle County Court in the past three weeks.

In memory of our brother, Robert Lee Norton, who passed away October 25, 1954. He was jolly in life, took an invalid for many years, not any more.

Some hearts were sad, others gay on that October day you went away. We miss you, still, but we are glad you lived. A chair is vacant in our home, which cannot be filled.

Sadly missed by your brothers and sisters.

## Howard Funeral Home THANKS ALL

We have just passed our second anniversary, and like the first, we have surpassed all expectations. Now we wish to thank our friends and many kinsman in this area.

We also surpassed our own plans, because we purchased our new home last December, and soon will have been in it a year. It has been completely remodeled, until the people of L'ncoln County now have one of the finest funeral homes in the state, of which we are proud to dedicate to the people of this area.

We hope we will always keep in our mind, one thing and that is the word "Service." This we have been giving and expect to continue.

We also expect to continue to pass on to the people the best, at a price you can afford.

We always welcome your suggestions as well as criticisms, please tell us any suggestions you have to offer so we may continue to give the people in this area the best and give it according to the wishes of our people. Again we want to thank you from the bottom of our hearts, for the wonderful way the folks have gone to bat in our behalf, though we have taken a pretty rough beating from one firm in another town, it has served to strengthen us on ever occasion they have chosen to attack. We do not consider them as competitors as we did not go into competition with any one here as this town was open and needed ambulance service and funeral service as well as the close surrounding territory.

We have tried to show the citizens in this area we are trying to be good citizens by spending with local merchants, filling stations, and all business in this area. We feel that to make a good citizen one must support ever industry or business in it's town. We have given this support and are reaping from it by having nearly 100% cooperation from local business firms. Again we thank you, and now we feel we have undergone the hard part as it is said the second year is the hardest on a new business of this type. We can say we are proud and thankful the way we have been accepted both our first and second year, and hope we will be accepted likewise as we grow with you in the future.

Greatly Yours,  
Maurice G. Howard

Modern, Precision-Built Wagons

FOR DEPENDABLE, LOW-COST HAULING

Practically every farm job begins and ends with some kind of hauling. That means it will pay you to buy hauling equipment that's precision-built for long years of service... like a John Deere All-Steel Rubber-Tired Wagon.

Today's emphasis is on fast, low-cost hauling also means you need a sturdy wagon gear that trails straight and fast on the highway without weaving or whipping... that turns short without cramping... that has ample provision to keep it "tight" in joints and linkage through years of hard service. You get all these advantages and more in the three types of John Deere Wagons.

There is almost no end to the uses you will find for one of these smooth-running, sturdy hauling units. Plan now to make your next wagon a John Deere! See us for complete details.
