Cry-babies become dry-babies

when you keep up with their needs with an

Electric WATER HEATER

Piles of clothes washed and dried every day—that's what helps keep babies happy and healthy. It's a mighty big job, but you can handle it regularly and efficiently with an electric water heater of the right size... one that keeps up with the demands of your whole family. You live better—electrically. See your dealer.

LIVE BETTER ELECTRICALLY

with FULL HOUSEPOWER

Full HOUSEPOWER provides for more convenient, economical use of appliances you now own—and those you will add in the future. Wiring that provides Full HOUSEPOWER is an investment in better living. Call our office or ask your electrician about the Certified HOUSEPOWER plan.

for everything REALLY NEW in fertilizers LOOK TO KNOXVILLE!

KNOXVILLE has successfully pioneered years earlier what many others are "just discovering."

A THIRD OF A CENTURY AGO KNOXVILLE began using magnesium carbonates to produce non-acid fertilizers, and to increase magnesium content.
A QUARTER OF A CENTURY AGO KNOXVILLE began using combinations of several sources of nitrogen and other plant foods to insure continuous feeding of plants from planting or setting to harvest.
TWO DECADES AGO KNOXVILLE initiated the use of boron in fertilizer for alfalfa.
A DECADE AGO KNOXVILLE first warned against high nitrogen levels in fertilizer for Burley tobacco.
FIVE YEARS AGO KNOXVILLE pioneered the use of pesticides in mixed fertilizers.
A YEAR AGO KNOXVILLE was first to offer its fertilizers in 50-pound bags.

Today, as always, to keep-ahead of the times and to get tomorrow's fertilizers today, LOOK TO KNOXVILLE!

IN MEMORY
In Loving Remembrance Of Our Dear Sister, Minnie Parsons Who Passed Away Six Months Ago.
One God knows how much we miss her smiling face and kind voice. But it was God's will that he called her home. She told us she was ready to go with Him. The family circle is broken and can only be mended by God. Her home is lonely since she is not there to meet us. But she is safe with Jesus and where sorrow never comes. Sadly missed by her sisters and brothers. Etta Proctor 2811

ARTHUR CLARK ANNOUNCES FOR CORONER
Having served the good folks of District No. 5 as a Constable and having made the race for Jailer of our county 4 years ago but having lost to our present Jailer, Lovell Clontz, I have been asked by several good friends to make the race for Coroner. After giving the matter due consideration, I wish to announce myself as a candidate for the office of Coroner subject to the action of the Republican voters at the Primary Election, May 28, 1957. I thank each of you for the consideration given me heretofore. Give me your consideration and I will be so thankful. Your friend, Arthur Clark 27129

NOAH BROCK
I, Noah Brock, announced for Jailer of Rockcastle County several weeks ago and since that time I have been around over the County and talked to several of the citizens of this County. And I will be around to see as many of you as possible before the May Primary. If I am elected, I will treat each and every person with courtesy and respect and I will try to the best of my ability to make the people a good Jailer. Your vote and influence will be greatly appreciated. Your Friend, Noah Brock (Pol. Adv.) 2811

FOR RE-ELECTION AS MAGISTRATE FIRST DISTRICT

TO THE VOTERS OF ROCKCASTLE COUNTY
Since becoming a candidate for County Judge, I have been in most of the precincts of the County and I can assure you I have found things encouraging. I am sure every one is interested in electing a County Judge that will be impartial, one that has the right qualifications to be in such an important position, one that will see justice done for all, rich or poor, one that can deal with lawyers if the occasion should arise and one that will not try to force you to do his bidding.
Whoever is elected is the one you are going to bring your court troubles to for the next four years, the one that will advise you, and the one that will have to answer your questions.
Who is the best suited to answer your questions? Who will make the best County Judge? That is the most important question in this election. The County Judge is the most important officer of the County. Until the present time we candidates have just been getting ourselves before the people, letting them see us, talk with us, and observe us as candidates, giving you people a chance to decide who will make you the best County Judge and to decide what is best for the County.
The time has arrived when we must begin to make decisions and organize ourselves in order to win.
I can't win this election alone. I must have the help of my friends and their friends. So I am appealing to you to get together and organize. You can't win an election by going one way and some another. That is just what the opposition is hoping for.
I have been County Judge twelve years and I am making my appeal on my record as County Judge. Choose the right man for the office. Vote for Chas. C. Carter. Chas. C. Carter (Pol. Adv.) 2812

Tennessee Man Dies In Wreck; 16 In 16 Months

Edward Knight, 51, of Knoxville, Tenn., was killed Tuesday when his auto left the road on Calloway Hill and plunged into a ditch.

Knight, who was traveling alone, died later at Rockcastle County Baptist Hospital from his injuries.

His death was the 16th in 16 months in Rockcastle County. Homer McNew of Wildie, and three of his children escaped injury Tuesday when the auto driven by Mr. McNew was struck from the rear by another auto at Wildie.

The other auto was owned by a Mason, first name unknown, from Richmond. Three other persons in that auto were uninjured.

The McNew auto was knocked about 200 feet by the impact.

LINDEL LEE YORK KILLED IN WRECK

Lindel Lee York, 15, of Newark, Ohio, son of Mr. and Mrs. Oscar York, formerly of Brindle Ridge section of the county, was killed March 31 in an auto accident in Ohio, it was learned this week.

The youth was buried in Walnut Cemetery at Vanata, Ohio. He is survived by his parents, two brothers and four sisters.

New Sale Report Made For Local E & H Bonds

The citizens of Rockcastle County purchased \$12,675 in Series E and H Savings Bonds during February, bringing the county's cumulative sales for 1957 to \$18,156 toward the annual goal of \$76,960.

Sales of these bonds throughout Kentucky during February amounted to \$4,549,755 for a cumulative total of \$10,241,675 toward the state annual goal of \$60,803,040.

Mr. Edward H. Hilliard, Louisville, Volunteer Chairman for Kentucky, today announced that the Treasury Department is looking for 17,000 new payroll savers in our state for the regular purchase of Savings Bonds.

A portion of these savers will be secured from the 1,295 medium-sized companies which are being contacted by a nationwide direct mail campaign among some 95,000 companies in the country.

The purpose of the campaign is to encourage these companies to establish the Payroll Savings Program if they do not already have one and to encourage fullest participation through person-to-person campaigns.

Former County Man Buried Here Wednesday

George W. Childress, of Denver, Colo., and formerly of this county, died of a stroke last Thursday at his home.

Mr. Childress was born the son of John C. and Sarah Lovell Childress. He is survived by his wife, Mrs. Elsa Pauline Childress.

He is also survived by one brother, Robert Childress, of Mt. Vernon, two sisters, Mrs. J. J. Felton of Louisville, and Mrs. A. H. Sprong of Napa, Idaho.

Mr. Childress was reared at Mt. Vernon and he taught in Kentucky for several years. He had held a position with the American Can Co. with the Veteran's Administration at Denver.

Funeral services were conducted at Sparks Funeral Home Wednesday with Bro. Bob Childress of Bloomfield officiating. He was buried in Elmwood Cemetery.

Teachers Re-employed

Sixty-two teachers in the Rockcastle County Public Schools have been re-employed for the coming year by the Board of Education. Placement will take place later. Emergency teachers will be employed in two or three groups.

MRS. MARY SUE THOMPSON, home economics teacher at Brodhead High School, has been elected president of the Wilderness Trail District Home Economics Teachers Association for the coming year. This district is composed of 24 departments in Rockcastle, Madison, Garrard, Boyle, Lincoln, Lee, Jackson and Estill counties.

Saylor Posts \$1,500 Bond

Irvin Saylor, former Chief of Police at Mt. Vernon, posted \$1,500 bond in Rockcastle Circuit Court this week on a charge of embezzling.

Judge R. C. Tarril set his trial date for next Thursday.

Saylor was indicted two weeks ago by a Rockcastle Grand Jury. He is accused of taking \$1,024 in city tax funds.

According to Mayor Roy Cummins, Saylor's bond which was initiated when he took the position with the city is \$2,000, and the insurance company in all probability will pay the city to bond money.

In other court action, Emanuel Hurd, of Pine Hill, who was struck by an L & N Railroad train several months ago was not awarded damages for the accident. The judge instructed the jury to find for the railroad.

Francis Saylor, Shirley Brown, Charlotte Holbrook, Christine Brown, Carol Bullock, Sylvia Thacker, Maxine Holman, Nancy Cummins, Kathleen Brown, Jean Nease, Marjorie Dees, Edith Lear, Betty Thacker and Christine Bradley.

REV. MARION PARKEY, pastor of the Mt. Vernon Christian Church, will hold night meetings at the church beginning Sunday, with sermons centered around "Seven Words From The Cross." The meetings will terminate in 6 a. m. Easter sunrise services. The public is invited.

Linville Appointed

Clyde Linville, superintendent of Mt. Vernon High School, has been appointed to the State Superintendents' Ethics Committee. The committee meets on call at Frankfort with the State Department of Education.

Mrs. Bowman Dies

As the Signal went to press, it was learned Mrs. Ollie Bowman, of Orlando, died Wednesday at her home. She was taken to Sparks Funeral Home where arrangements are incomplete.

MVHS Band, BHS Choir Rated Tops

Brodhead

The Brodhead High School choir, along with the Mt. Vernon band, came home Saturday from the Regional High School Music Festival at Richmond with a "superior" rating.

Unlike Mt. Vernon, the Brodhead music department participated in other musical events at the festival and came home with two other "superior" ratings and 11 "excellents."

Groups which rate "superior" at the festival will participate in the State High School Music Festival at Lexington April 23 through 27.

Also rating a superior were the department's miscellaneous ensemble, made up of 10 girls in the senior division, and the miscellaneous woodwinds, made up of Linda Sowder and Brenda Albright on the alto saxophones.

Brodhead's band did not participate. It is one year old and will participate at the State Festival as a new band entry. The band will also participate in instrumental sight reading at the festival.

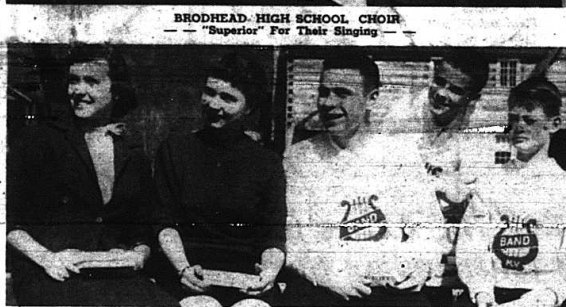

(An explanation of how music groups are rated at a festival is in a story on the Mt. Vernon band on this page.)

MT. VERNON HIGH SCHOOL BAND — They were "Superior!" —

BRODHEAD HIGH SCHOOL CHOIR — "Superior" For Their Singing —

MT. VERNON BAND MEMBERS — A Gift Of Candy From Refro Candy Kitchen —

Mt. Vernon

The Mt. Vernon High School band brought home a "superior" rating from the Regional Music Festival at Richmond Saturday to the test of auto horns and the applause of townspeople.

The Mt. Vernon police car, fire truck and citizens in autos welcomed band members at the north city limits and escorted the bus, filled with cheering youngsters, down Main Street.

For residents and band members, the top rating in band, was a surprise, since the present band is only seven months old. That the band was "doing all right," was evident to many citizens, who turned out to hear it in concert the preceding Tuesday at the high school.

The band is now eligible to compete in the State Music Festival at Lexington April 23 through 27.

At the festival Saturday, MVHS students did not compete in solo and ensemble events.

While the band was winning a superior rating along with Nicholasville and Winchester, the school's chorus was winning an "excellent" rating, just shy of the top spot.

Due to the Mt. Vernon band's musicianship was given while the band was warming up, when an Eastern State College faculty member commented on how well the band sounded. The judges later wrote: "The band solo acts and plays together nicely. They do many things in a professional way."

This particular band was organized in September. It has mostly young members, and only two juniors, and no seniors.

This is the first year Mt. Vernon students have had formal music instruction by a band specialist. In other years, Mt. Vernon has had bands, but with the exception of two instructors, persons from the town have helped the school in its band program.

Director of the band is Jack L. Adams. Mr. Adams is a native of Mt. Vernon, a graduate of Mt. Vernon High School. He attended Berea College for two years and then entered the Army. Following his Army service, he attended the Cincinnati Conservatory of Music and studied privately in New York City.

Before coming to Mt. Vernon, Mr. Adams taught one year at Carrollton and three years at Orlanville, Va. He has also had charge of the band and orchestra. The Oakland City band and orchestra has top music ratings in Indiana.

In getting a rating at the music festival, bands (or other music) do not compete with each other, as say a basketball team. Musical groups and soloists are rated according to how well they play. Each band is in a class, based on the number of students in the school. There are five classes.

Mr. Adams said that a band could play and receive a "fair" rating, or it could receive a "superior" rating.

At the music festival classification decisions work in a manner such as a school class taking an examination. There are several A's in the class. In short, you compete with yourself and not with other students. So it is with bands.

The Mt. Vernon band has 30 members. The band is financed, in part, by an appropriation in the school budget. Band uniforms are not purchased by a prohibiting uniform purchase. At present, the band is concentrating on efforts to get uniforms through concerts and other events. During the summer there are plans for Saturday afternoon concerts at the Court House.

The larger band instruments are school owned, such as Sousaphone drums. But other instruments belong to band members.

The band meets each day (Continued on page 4)

Mrs. Belle Young, 80 Buried At Mt. Vernon

Mrs. Belle Young, 80, died at Mt. Vernon Saturday.

Mrs. Young was born at Lee County, Va., the daughter of Mr. and Mrs. Archie Shuller. She is survived by five daughters: Mrs. Bertha Renner, Mrs. Lillie Williams, Mrs. Ollie Owens, Mrs. Laura Richardson and Mrs. Donna Mae Sheppard; one son, Leonard Lovell, 29 grandchildren and 30 great-grandchildren. She is also survived by one brother, Moran Shuller of Oado Mills, Texas.

Funeral services were conducted Sunday at Cox Funeral Home with Bro. Eugene Bradley officiating. She was buried in Elmwood Cemetery. Cox Funeral Home had charge of arrangements.

The club will meet at Livingston May 3; Wildie, June 7; and Brodhead, Aug. 2.

Willis Bussell Dies At Daughter's Home

Willis Bussell, 83, died at the home of his daughter, Mrs. Myrtle Dees, at Brodhead, last Thursday.

Mr. Bussell was born near Freedom in 1873. He married Martha Ann Thomas in 1895. She preceded him in death in 1927.

Mr. Bussell is survived by eight children: Charlie Bussell, Brodhead; Mrs. Bertha Lashbrook, Deland, Fla.; Arch Bussell, Cincinnati, Ohio; Elmer Bussell, Mt. Sterling; Mitchell Bussell, Brodhead; Mrs. Mamie Truitt, Louisville; Mrs. Myrtle Dees and Mrs. Mondell Dees, both of Brodhead. One brother, Dave Bussell, Brodhead, also survives. Two children preceded him in death.

Mr. Bussell was a member of the Brodhead Baptist Church.

Three Mt. Vernon Men Held For Federal Court at London Saturday after moonshine was found at their home when raided by federal, state and county officers.

Police reported they arrested Clyde Pittman, Glenn Pittman and Shirley Clontz. The two Pittman men were charged with untaxed liquor in possession and selling whisky. Clontz was charged with selling liquor.

The three were arraigned before Commissioner V. O. Blackburn at Somerset.

Mr. McKenzie and Mr. Henderson received similar awards from another company about a year ago.

On March 1, 1956 they had been an agent with the above company for 25 years.

The medal is a silver paragon with their name. A large certificate to hang on their office wall also was presented along with a letter from the president of the company recognizing their service with the company.

Charles Kimbler, State Agent Louisville, presented the awards at a dinner at McNew's Restaurant.

Mr. McKenzie and Mr. Henderson received similar awards from another company about a year ago.

State Parks Get Ready For Tourist Season

"Our park system, through a continued expansion of personnel and facilities, is now one of the finest in the nation. We hope to make it the very best for the millions of visitors who will be coming here in the future," Mrs. Kilgore stated.

In preparation for the coming season, the Division of Parks has added three persons to its staff.

Glenn Thomason, Lexington, assistant personnel officer for the Department of Economic Security, has joined the Division of Parks to do public relations work, concentrating on conventions and in promotion of spring, fall and winter seasons. The Division of Parks has added three persons

County Agents Notes

Soil Judging Training
Twelve, F. F. A. and 4-H members participated in a Soil Judging Training meeting, held at Mt. Vernon last week.

The principal purpose of the Kentucky Soil Judging Program is to assist 4-H and F. F. A. members to recognize and understand the capabilities, uses and management of different types of soil on the farm where they live, as well as to gain a general knowledge of similar types of formations in their community and county.

The training was under the leadership of Mr. Clay Colson, local Soil Conservationist, and Mr. Lyle Leonard, Extension Specialist in Soil and Water Conservation.

Those taking training in Soil Judging were:

Dexter Roberts, Cecil Cox, Jimmy Payne, Denver Burton, Glenn Rigby, Cleith Thacker, Bill Houk, Charles Cope, all of Broadhead High School and Lloyd Fain, Jimmy Fain, Wallace Payne and Paul Thompson of Mt. Vernon High School.

Alfalfa Demonstrations Set-Up in County
Two fertilizer demonstrations on alfalfa were started in Rockcastle County, Friday.

George Corder, Soils Specialist, University of Kentucky and James Turner, Representative U. S. Borax and Chemical Corporation treated two Alfalfa plots on John Houston's farm near Broadhead and one Alfalfa plot on Remy McKinney's farm on the Brindle Ridge Rd.

These plots were treated at the rate of 300 lbs. per acre of 0-20-40 fertilizer, plus 15 lbs. of borax.

The purpose of these demonstrations is to help determine the kinds and amounts of plant food needed by Alfalfa over a period of time.

Brucellosis Dangerous To Humans and Animals
Scientists and control agencies fighting brucellosis, the disease that annually causes tremendous dollar losses in dairy herds,

in the U. S., always point out one thing to back up their eradication program:

The disease hits humans as well as cattle, swine and goats. Its effects are long-lasting and sometimes fatal.

This is another good reason why the state's program to get brucellosis under control should be supported by all Kentuckians.

Humans get brucellosis (called undulant fever in man) by consuming raw or unpasteurized dairy products from infected cattle. They also can pick it up from handling infected animals, either live or carcass.

Undulant fever involves mostly young men. Children less than 14 years of age rarely contact the disease; above that age, the ratio of cases in males is about four to one compared to females.

Farm people—because they raise and handle cattle, swine and goats that are likely to have this disease—are most vulnerable to brucellosis. But packing house workers, butchers, meat salesmen and housewives handling infected livestock products are likewise in danger of becoming infected.

There is no known cure for the disease, regardless of whether it hits cattle, swine, goats—or humans.

Kentucky's program aims at having a "modified-free" brucellosis state by January, 1960.

Here's what makes it a new kind of Ford

The frame is wider... wheels are lower
(Lets you ride sweet and low)
Never before has a low-priced car hugged the road so well. Partly, it's because the frame is sturdier. Partly, it's because the wheels are smaller. Partly, it's the way front and rear suspensions take tilt out of turns. Mostly, it's because there's a whole new smoother-riding quieting-going "Inner Ford."

The power is bigger
(More work in Ford's 20 years of V-8 leadership)
And what a V-8 engine! You can have the kind of Thunderbird power that smashed records at Daytona... set a new stock car mark at Indianapolis... traveled 50,000 miles in just 20 days at Bonneville, Utah!

The comfort is greater
(The more you ride, the more you like it)
You sit in the lap of luxury. There's head room, hip room, leg room galore. And wait till you get a load of those new upholstery and color schemes!

The body is "beefier"
(Up to 9 inches longer, 4 inches lower, with full head room, full road clearance)
From top to floor, front to rear, this body is built like a "battleship." You ride surrounded by new strength.

...and best of all it's the lowest priced* of the low-price three!

Why do it the hard way?
WASH CLOTHES RIGHT IN THE KITCHEN

Simply wheel the washer to the kitchen sink. Connect the hose (A) to the sink. It is filled through a dual-channel hose. Water enters tub at "B." When washing is finished the washer pump empties tub through other channel and out at "C." You can control the timing, the water temperature and the amount of water for each washing.

Why run up and down stairs?
YOUR KITCHEN CAN BE YOUR LAUNDRY, TOO

All on one level — do other work in the kitchen and wash, too. Saves time, money, space and steps! Saves your energy! And, you have lower first cost besides no installation cost. Service calls are fewer and water heating bills are lower.

THE Woman's Friend SUPER-REGENT
NO RINSE TUBS NEEDED

America's only truly different wringer washer—available in a variety of harmonizing pastel colors—with a success history you'll like.

The Signal Says--

OUR MUSIC STUDENTS SHOW THEIR TALENT

If anyone had the idea it would take the county years to rate in the upper echelons of grade and high school music in the state, they underestimated the abundance of talent in the county.

The proof that the county is "coming along" in things cultural was illustrated Saturday when the Mt. Vernon High School Band and the Brodhead High School Choir won "superior" ratings in the Regional High School Music Festival at Richmond, entitling both groups to a try in the State High School Music Festival at Lexington later in the month.

Top ratings didn't stop with the band and choir. Mt. Vernon's chorus won an "excellent" rating, and other Brodhead vocal, solo and ensemble groups won "superior" and "excellent" ratings.

To add to the good news of how well county schools are doing musically, last week the Brodhead Future Farmers went to the Cumberland District FFA meeting and came home with the top club award.

Formal music training at Brodhead and Mt. Vernon is relatively new. Both schools have had people in the past who have been good in their field. But students have not until now undergone the strict discipline it takes from specialists to mold a group of youngsters into a prize winning band and chorus.

Mrs. George Hail Jr., of Brodhead, and Jack L. Adams, of Mt. Vernon, both know the music business inside and outside. To their groups they have brought poise and professionalism as well as music. They have indeed raised the cultural level of the county by making the residents of the county more sensitive and conscious of culture. And after all, a people is measured in the finality by its culture as much as its economy.

Howard Wheeler, Mrs. Doris Griffin.

Dental Trailer Visit Changed To April 22

A dental clinic will be held in Mt. Vernon beginning April 22 to check and do repair work for indigent children from the first through sixth grades. The dental clinic is sponsored by the State Health Department and the Farm Bureau. The Farm Bureau will bear the financial costs of keeping the trailer clinic during its stay in Mt. Vernon. The trailer will be parked at Mt. Vernon High School.

A previous date of April 8 for the visit was changed to April 22. All county children may be examined and children needing work will get the work done free.

SOIL CONSERVATION NEWS

by Clark Colson
Nathan Clark, Green Hill, and Chester Singleton, Lexington, had ponds staked out last week and they will be constructed when weather permits. These ponds are for stock water and will permit better utilization of pasture.

Willie Sargent, Brindle Ridge, reported last week that a field of alfalfa needed last fall was dying. Mr. Sargent reported that no boron was applied when it was seeded. The cause of the plants dying was diagnosed as boron deficiency. Mr. Sargent applied 500 pounds of fertilizer per acre containing 10 per cent boron. This application of fertilizer with boron should stop the dying of the alfalfa.

4-H Club and F F A boys are studying soil judging. Lee Durham, County Agent and O. D. s' Woodland, Agriculture teacher at Brodhead, are training judging teams in soil judging. The Soil Conservationist will meet with these boys in the field in the forenoon of April 16 and 23 to aid in instructing the boys in soil judging.

\$8 Expenditure Brings Extra Hay

When UK Agricultural Experiment Station agronomists tried phosphorus fertilizer applications in varying amounts on alfalfa in Simpson county an \$8 expenditure per acre for 25 per cent superphosphate brought in an extra one-third ton of hay.

That's the report of E. C. Doll, agronomist. He said the test was on land low in phosphorus; two cuttings only were made before drought stopped growth. Doll said the phosphorus was applied in varying rates. Potash was applied as soil tests indicated the need.

When no phosphorus was added the test plots produced 3,500 pounds of dry matter per acre; 250 pounds of 20 percent superphosphate (costing about \$4 an acre) raised the production of dry matter to 3,800 pounds; and 500 pounds of 20 percent SP (costing about \$8 per acre) raised it to 4,200 pounds. It cost about \$8 an acre for the extra 700 to 800 pounds of hay.

Doll said another benefit of the phosphorus application was that the alfalfa would stay longer in the field. The test plot that had a "fairly high" level of fertility except that the phosphorus content was low. Soil tests had shown that at least 100 pounds of 20 percent SP per acre was needed to get a good alfalfa stand, and the tests proved this, Doll says.

Warns Of Errors On State Tax Form

The majority of errors made on Kentucky income tax forms are the direct result of taxpayers' failure to read instructions. Revenue Commissioner J. E. Luckett warns.

Errors made in the return, which includes complete instructions, will result in needless correspondence and delay of any refunds due taxpayers, Luckett added.

He said the most common errors are failure to attach all withholding statements to the return; failure to list names of dependents claimed; failure to enter the correct amount of Kentucky income tax withheld, and failure to submit the appropriate schedules.

He listed the schedules as those listing farm income and income (form 740F), income from business or profession (Schedule C), gain or loss from sale of capital assets (Schedule D) and child care payments.

Luckett said a very common error is failure to enter federal income tax refunds as income on the Kentucky return. He added:

"Our growers should make every effort to produce as thin and mild crops this year as they did in 1936 and 1937. The 1936 market closed strong and the companies' failure to get their needs in the recent market indicates that if the same kind of tobacco is grown in 1937 as in 1936 we will continue to get a strong demand for our product from the cigarette manufacturers."

"Any of these errors could delay the processing of your return or of any refund that may be due. For instance, if you should file your Kentucky return and fail to attach a withholding statement or appropriate schedule, the processing of your return would be delayed. In order to complete the processing of such returns the Department of Revenue must write the taxpayer requesting additional information. In some instances, it is necessary to prepare a tax bill when withholding statements are not furnished."

One Percent Taxation To Be Discontinued

The one percent emergency unemployment insurance tax levy has been discontinued for the six-month period ending June 30, 1937, and probably for the entire year, it was announced by Commissioner V. E. Barnes, of the Department of Economic Security.

The emergency assessment has been in effect since Jan. 1, 1936.

Official action was taken following a study by the D. E. S., which indicated that this assessment, designed to replenish the unemployment insurance fund's pooled account, had provided sufficient funds for the current year.

Also discontinued for the same six-month period is the diversion of a portion of employer payments to the pooled fund from the individual employer reserve accounts.

after school. The chorus meets twice a week during school hours.

The three-part girls' chorus, which won an "excellent" rating at the festival, is even newer as a group than the band. Mr. Adams said he was well pleased with an excellent rating for the first year. It is the first year for a "three-part" chorus. There are 33 members of the chorus.

The chorus has performed at city churches and will sing at other events soon.

MARTIN CUPP & SON at Old Stand on HILL STREET

also in the Boggs' Building on MANCHESTER STREET where we have just bought and taken over from Mr. McLemore, the HOME FURNISHING CO. We have more than doubled the stock, both new and used goods. We will continue both stores with plenty of help who will be glad at all times to show you around and give you our prices and be glad to have you compare them with any others you may get.

You will find our delivery service is the best - also we haul in most of our merchandise, picking it up at the factories and by so doing, can save both you and us considerable money - such as freight rates which are high. We are well-prepared for this service, have two regular delivery trucks and one extra large van for the heavy hauling.

Taking over the Manchester Street Store has more than doubled our floor space which we needed badly, also has enabled us to buy in much larger quantities; therefore, enabling us to buy for less money. This saving we can also pass on to you. Come in and let us prove this to you.

Whether to use plain or patterned draperies is determined largely by the floor covering and wall finishes. If they are patterned, then plain color draperies that repeat one of the colors used in the room will be best.

When the walls and floor covering are plain color, the use of patterned draperies in texture or color may bring pleasant relief, although they too, may be without design, says Miss Marion Bartlett, UK Extension home furnishings specialist.

With plain color walls and floor covering, patterned draperies and furniture covering are often effective, but care must be taken in arrangement so the furniture is not placed against the draperies.

The room exposure, the number of windows, and the size of the room deserve consideration when the color is selected. The larger the room the more contrast in color may be used. If there are many windows or if they are poorly placed, they will be less conspicuous if the draperies blend with the wall.

A small room can be made to appear larger by having the draperies, woodwork throughout the room, and the wall finish closely related in color.

Although it is a temptation for the home decorator to make draperies without linings, they will hang better and give a more professional appearance if they are lined.

Before you buy a fabric for draperies, see it in folds. Be sure it is equally pleasing hanging in few folds or deep ones. Clean, Covered and Cool Are Rules for Egg Care

Clean, covered, and cool are the three C's for retaining the delicate flavor of fresh eggs. Their miracle packaging is a wonderful protection providing the eggs are kept in a covered container to keep the moisture in and the odors out, says UK Extension foods specialists.

Put the family egg supply into the refrigerator as soon as possible and keep the eggs there until they are to be used.

To keep yolks, place them (unbroken) in a dish and add just enough water to cover them; put egg whites in a dish with a tight cover. Keep both whites and yolks cold.

HOME AGENTS NOTES Colorful Draperies Add to Room Interest

Well chosen draperies are one of the ways to add new interest to a room. The right color can provide an accent note that changes the entire effect, or a patterned piece can pull together the principal colors already in the room.
