

BRODHEAD Personal

Miss Maudine Osborne and her mother and stepfather and sister, Rhonda Kay, of Cincinnati, Ohio, spent the week end with Madeline's grandmother, Mrs. Lillie Osborne.

Mr. and Mrs. Oscar Day's 6-week-old son has pneumonia.

Mr. and Mrs. K. J. McKinney visited his old home place recently. He was accompanied by Mr. and Mrs. Bob Hendrickson and son, Finley, and Mrs. Emma Frith.

Mr. and Mrs. O. R. Cass, who have been vacationing in Florida, have returned to their home on Main Street.

Mrs. Henry Crawford and son, Donnie, visited their daughter and sister, Mrs. Ray Evans, and Mr. Evans, and attended the Kentucky Derby.

A. K. Pennington of McBea, S. C., recently visited his sister, Mrs. Emma Frith, and niece, Mrs. R. F. Hendrickson, this week.

Vitamin D and Calcium Needed Year Around

Dr. H. T. Scott, Director of Biological Laboratories, Wisconsin Alumni Research Foundation, Madison, Wis., recently called attention to an interesting fact regarding Vitamin D milk. This product—the first widely advocated vitamin-fortified food—probably is still the most important in this class. It is interesting that the first product of a series often remains a leader for many years. For example, penicillin—the first antibiotic used in medicine—probably is still the best, all things considered, in spite of exhaustive efforts by many research groups to isolate more and better antibiotics.

A number of vitamin-fortified foods, such as enriched breads, have been developed in recent years and they have made important contributions to the country's nutrition. In most cases, these fortified foods supplement various food sources which may supply the nutrients involved in somewhat less than optimum amounts. Most ordinary foods are devoid of Vitamin D. Thus, since one cannot always rely on adequate exposure of the skin to the ultraviolet rays of the sun for generation of physiologically adequate Vitamin D, Vitamin D milk may be the only reliable source of this essential nutrient.

Without Vitamin D the body cannot assimilate and utilize calcium and phosphorus properly for development of the bony structure of the body. The resultant deficiency disease called

rickets, common as recently as the 1920's, has been made a clinical rarity through the wide distribution of Vitamin D milk.

Dr. Scott further alluded to the Vitamin D milk program set up upon Council on Foods and Nutrition of the American Medical Association just 25 years ago, to aid and encourage the use of milk fortified with Vitamin D because at that time the Council deplored the great incidence of rickets. Recently the Council reaffirmed this position as sound and in the best interests of good nutrition.

Dr. Scott pleaded for continuing use of Vitamin D milk so that the tremendous progress accomplished will keep rickets relegated to the category of a medical curiosity. Attention was also called to adult needs for calcium in the diet, and presence of Vitamin D to assure its utilization; for many bodily processes depend upon calcium for proper functioning. One great advantage possessed by Vitamin D milk is that state and municipal regulatory officials require periodic testing to guarantee to the public proper Vitamin D potency.

THREE LINKS

Several from here attended Sunday School, at Brush Creek, Sunday.

Wayne Kates, the small son of Mr. and Mrs. Earl Kates, spent part of last week in the Berea College Hospital, with a severe kidney ailment. He is at home and reported improved.

Robert Mitchell is on the sick list.

Mr. and Mrs. Albert Dooley visited Mr. and Mrs. John B. McGuire, Sunday, at Orlando, Lewis Sparks of Sand Gap, spent Sunday with L. E. Phillips and family.

Mr. and Mrs. B. C. Martin visited W. D. Hammons at Sand Rock Hill, Wednesday night, and watched TV.

H. C. Martin and wife visited at Livingston, Monday.

D. Callahan is home from Richmond, Ind., where he has been visiting the past week.

Tilmon Laswell and son of Richmond, Ind., spent the week end with his daughter, Mrs. James Kates, and family.

John Cox of Lexington, spent the week end with A. Cox and family.

Robert Dooley of Mt. Vernon, visited Mr. and Mrs. Albert Dooley, Saturday.

Miss Mrs. Phillip of Berea, visited at Three Links, Sunday. James Anglin of Disputanta, was in this section, Tuesday, en route to his farm at Johnetta.

Earl Phillips and family of Red Hill, spent Sunday, with D. H. Phillips.

WABD

Dale Blanton, who has been in the Navy, has received his discharge, and he and Mrs. Blanton are with his parents, Mr. and Mrs. Carter Blanton, and family. They have been living in Florida.

Mrs. Don Hopkins and baby of Indianapolis, Ind., are spending several days with Mr. and Mrs. Jess Norton and family.

Homer Scott, who works in Ohio, was at home over the week end.

Mr. and Mrs. Jess Bray Jr., of Ohio, visited Mr. and Mrs. Bill McKinney and Pat, over the week end.

Miss Clara Dean Bullock and boy friend of Indianapolis, Ind., visited her parents, Mr. and Mrs. C. H. Bullock, Sunday.

Mr. and Mrs. Oscar Scott and daughter, Jerry, of Brentwood, visited Mrs. Bessie Cummins and Mr. John Scott and family Sunday.

Nancy Cummins and Jimmy Payne are spending this week in Washington, D. C., and New York, with the Brodhead High School Senior Class.

Mrs. Mattie Daniel is at home from the hospital, after receiving treatment. She is to undergo surgery later. Mrs. Joyce Bullock of Sharonville, Ohio, is here with her mother for a few days.

Mrs. Maggie Robbins is spending a few days with Mr. and Mrs. Hugh Robbins and family.

QUAIL

NEW GRANDDAUGHTER

Mr. and Mrs. Casper Owens are rejoicing over the arrival of a granddaughter, born to Mr. and Mrs. Marshall Thompson, at Rockcastle County Baptist Hospital. She has been named Dianna Gayle.

Mr. and Mrs. Carl Brown visited Mr. and Mrs. Roy Brown and family, Sunday, and were accompanied home by his mother, Mrs. Maude Brown, for a few days visit.

Mrs. Alice Hiatt and Mrs. Socia Hamm are spending a few days with Mr. and Mrs. Marquis Brown and family.

Mr. and Mrs. Russell Albright were dinner guests of Mr. and Mrs. Elmer Ponder and family, Sunday, Mr. and Mrs. Tully Parsons and son, Mrs. Arthur Ponder and Mrs. Johnnie Todd and children visited them, Sunday afternoon.

Mr. and Mrs. Casper Elder of Ohio, spent the week end with relatives here.

Deborah Ponder was guest of Misses Janice, Patsy and Brenda Singleton, Sunday.

Mr. and Mrs. Earl Adams and sons were dinner guests of his mother, Mrs. Grace Adams, Sunday.

Misses Deborah, Phyllis and Judy Ponder spent Friday night, with their grandparents, Mr. and Mrs. Russell Albright.

Mr. and Mrs. Marion Smith visited her sister, Mrs. Grace Adams, last week.

Misses Kathleen and Shirley Brown of Berea College, were home over the week end with their parents.

Shirley Caldwell has returned home from the Rockcastle County Baptist Hospital, and is improving.

Mr. and Mrs. Ray Scott spent the week end with Mr. and Mrs. Henry Scott and Mr. and Mrs. Shirley Caldwell and family.

Misses Joyce and Bonnie McKinney and Christine Brown left Sunday, with the senior

class of Brodhead, for a trip to Washington, D. C., and New York.

Mrs. Ola Purcell of Danville, visited Mr. and Mrs. Sherman Mink and daughter, recently. Mrs. Alice Hiatt spent last Wednesday, with Mr. and Mrs. Sherman Mink and Ruth.

Mrs. Mary Bullock has returned home after a visit with relatives, in Ohio.

Mr. and Mrs. Arlie Bullock of Ohio, spent the week end with relatives here.

Brindle Ridge

Several attended church, over the week end. Rev. Click, Rev. Lawrence Pruitt and Rev. Green Ellis and two sons all of Williamsburg, were visitors at the church, Saturday night.

A speedy recovery is wished for Mrs. Oma Coffey, who is in the hospital.

Mr. and Mrs. Jim Coffey of Berea, spent last Sunday, with Mr. and Mrs. Pur Proctor and Conn. Conn was celebrating his birthday.

Mr. and Mrs. Bernard Proctor visited her brother, Gustaf Halcomb, at Ottawa, Saturday night, who had the misfortune of cutting his leg with an axe.

Mr. and Mrs. Buck Edge and children of Tennessee, spent last Saturday night, with Mr. and Mrs. Coleman Mink, and sons.

Mrs. Pearl Burdette visited her brother, Jack Livesay, who was in Berea College Hospital, last week.

Mr. and Mrs. Charlie Cummins and children visited Mr. and Mrs. Willis Coffey, Sunday night.

James Sargent spent the week end with Larry and Gary Burdette.

Mr. and Mrs. Arvel Burdette and children spent Sunday, with Mr. and Mrs. Arvel Burdette.

Visitors of Mr. and Mrs. Harrison Mink, Sunday afternoon, were: Mr. and Mrs. Char-

lie Cummins, Mr. and Mrs. Harris Burton and Mr. and Mrs. Coleman Mink.

A. Brock spent Saturday night, with his parents, Mr. and Mrs. R. D. Brock.

Why Worry?

Get a "flameless" **ELECTRIC WATER HEATER**

No flame
No fumes
No hot surfaces
No stored fuel

Plenty of hot water

24 hours a day safely... automatically

Yes, all the hot water you want—and not a worry in the world. With an electric water heater, there are no flames or fumes or stored fuel... only clean, safe electricity. Install it at the point of greatest use for convenience and economy... in the laundry, kitchen, utility or furnace room. An electric water heater is economical, too. For the average family, it costs only about three cents a day per person for enough sparkling clean hot water for every need. See your dealer for the proper size for your family.

Live Better Electrically

with **FULL HOUSEPOWER**

Be sure your home is wired for the full convenience and comfort of modern electric living. Ask your electrician about Full HOUSEPOWER or ask us for a free HOUSEPOWER rating for your home.

Concrete

The new look in highways is here. Shown, a modern highway of sound-conditioned concrete

New-type, sound-conditioned concrete for your newest highways

Developed to meet the highway standards of 1975 Everything a good driver wants—new-type concrete has. There's never a "thump." It's sound-conditioned. Laid continuously, this pavement has no joints... only tiny, almost invisible cushion spaces, sowed into the concrete. You skip over them and don't know it! This new-type concrete is laid flat—stays flat. It has a life expectancy of 50 years and more.

Over 90% of America's most heavily travelled roads have been built of concrete. It's the preferred pavement for new primary roads.

The true cost of Kentucky's new highways

It all depends on how long they last. New-type concrete has a life expectancy of 50 years and more. First cost is moderate. Maintenance costs are lower than for any other type of pavement. That's why tax dollars go farther with concrete.

PORTLAND CEMENT ASSOCIATION 805 Commonwealth Bldg., Louisville 2, Kentucky
A national organization to improve and extend the uses of concrete

Corn Planting Tips

Here are some tips now that corn-planting time is here, that may help Kentucky farmers get a better crop of corn this year, says S. H. Phillips, Kentucky Extension Service agronomist.

See Experiment Station Progress Report 61 for best varieties; some of the newer recommended ones are yellow KY 106A; KY 105 for silage; whites KL 204 for good standability and resistance to leaf diseases; and US 523W.

Plant at the rate of at least 12,000 stalks per acre. Kentucky's tendency to plant at lower rates than this may have held production down. This

rate, 12,000, would require planting one kernel to every 12 inches of row in rows 40 inches apart. If land is suited for more than 12,000 stalk population, plant closer.

Guard against injury to the corn at planting time from row application of fertilizers. Phillips warns. Newer equipment is made to keep the seed corn separate from fertilizer in the soil, with such equipment, up to 800 pounds of a 10-10-10 fertilizer per acre may be used. If the split-boot application is used, don't use more than 200 pounds of 10-10-10 (or its equivalent) in contact with the

seed.

One rule of thumb in figuring rates when fertilizer is to be in contact with seed, Phillips says, is to add together the total actual nitrogen and potash in the starter fertilizer at the row; the total figure should not exceed 40 pounds actual nitrogen and potash, he says.

Other fertilizer may be broadcast, some being left excess.

If treating soil against insects, keep the fertilizer-insecticide material away from the seed corn. It is not the actual insecticide that seems to do the damage, he said, but the "sticker" material used to bind the insecticide to the fertilizer.

Church, Sunday. A large crowd attended.

Mrs. Ada Tallent and son are spending a few days with her parents, Mr. and Mrs. Jimmy Thacker. She will join her husband in England, soon.

Mrs. Casper Lakes is visiting her husband, who is employed in Hamilton, Ohio, and other relatives.

Florence Ward visited her daughter, Mrs. Jackie Robinson, at Berea, over the week end.

A 2- Russell Ballinger is spending a 30-day furlough with his mother, Anna Ballinger.

Daire Reed spent the week end with relatives, in Ohio.

Mrs. Florence Ward visited Mrs. Woods and Mrs. Edith Hellard, Monday afternoon.

Anna Ballinger and sons, Tony and Wayne, attended church, at Berea, over the week end.

Mr. and Mrs. Johnny Reese of Cincinnati, Ohio, spent the week end with their parents, Mr. and Mrs. Bige Towry, and Mr. and Mrs. John Reese, at Walnut Hill.

Mr. and Mrs. Bob Bullen have moved to Foster Brock's house. This community extends a hearty welcome to them.

NATIONAL WARNING System, including some 28,000 miles of wire, is shown with its intricate connections to 200 civil defense warning points across the nation. The new network may be used to sound a single national alarm from the Federal Civil Defense Administration's National Warning Center at Colorado Springs, or if necessary, from similar warning centers at Stewart Air Force Base, N. Y., or Hamilton Air Force Base, Calif. From the warning points, State and local civil defense book ups would pass the word along to the people to evacuate or take shelter.

GUM SULPHUR

Week-end guests of Mr. and Mrs. Charles DeBord and family, were: Mr. and Mrs. Arthur DeBord and family, Miss Marie DeBord of Cincinnati, Ohio, Mr. and Mrs. Earnest Wallin and children of Crab Orchard, and William DeBord and son, Charles, of Richmond.

Miss Lula Cummins spent last week end with Mr. and Mrs. Bill Saylor and children,

at Lancaster.

Sunday guests of Mrs. Nell Cummins and family, were: Mrs. Minnie Mink and sons, Mrs. Bennie Ponder and daughter of Pine Hill and Mr. and Mrs. Bill Saylor and children of Lancaster.

Albert Moore and son, Vernon of Shepherdsville, spent the week end with their wife and mother, Mrs. Albert Moore, and family near Crab Orchard.

Miss Jewel DeBord and Carl Cummins are with the

seniors who left Sunday, for Washington, D. C., New York and Canada.

Ruby Jo Cummins is on the sick list, this week.

Mrs. Dan Hacker is spending this week with her parents, Mr. and Mrs. Johnny Halcomb.

Mr. and Mrs. Charles DeBord and daughters, Jewel and Birdie, spent last Sunday, with Mr. and Mrs. William DeBord and family.

Mrs. J. B. Sanders of Dayton, Ohio, spent last week with her mother, Mrs. Albert Moore, and family.

D. J. Cummins has been confined to his room with flu and tonsillitis.

Mr. and Mrs. Charles Bullock and daughter, Deborah, spent Saturday afternoon, with Mrs. Katie Doyle and sons.

Johnny Halcomb is reported ill. A speedy recovery is wished for him.

S. D. and Duffy Masters spent the week end with their wife and mother, Mrs. Masters.

Howard Moore of Shepherdsville, spent the week end with his wife and sons, Mrs. Howard Moore, Howard Jr. and Ricky, and mother, Mrs. Albert Moore.

Nath Roberts of Covington, spent the week end with his sister, Mrs. Katie Doyle, and sons.

Mrs. John Hoskins and children spent the week end with her grandmother, at Brodhead.

Mr. and Mrs. Albert Moore and sons, Vernon, Roy and Raymond, were guests of her parents, Mr. and Mrs. John Baker, and Geveina, at McKee, Sunday.

Miss Phyllis Thomas spent Saturday night with Birdie and Jewell DeBord.

Mrs. Katie Doye spent Sunday afternoon, with Mrs. Duffy Masters.

SAND SPRINGS

Guests of Mr. and Mrs. James Calhoun, this week, are: Mr. and Mrs. Thomas Calhoun, of Indiana.

Mr. and Mrs. Walker Robbins and son, Larry, of Sharonville, Ohio, visited his parents, Mr. and Mrs. Daniel Robbins, and friends at Sand Springs, over the week end.

Mr. and Mrs. Herbert Evans and Bill Renner were guests of Mrs. Lorine Graves and George Renner, over the week end.

Mr. and Mrs. Loyd Renner of Ohio, spent the week end with his parents, Mr. and Mrs. Otto Renner.

Week-end guests of Mrs. Bertha O'Neal were: her daughter, Mrs. Myria Sowder, and Glen Sowder and Bobby Harper, all of Ohio.

Mr. and Mrs. Chester McClure of Indiana, are visiting with their parents, Mr. and Mrs. Edd McClure, and Mr. and Mrs. Lewis Baker.

MACEDONIA

Mrs. Lula Bullen is with her mother, Mrs. Lona Burnell, who is very ill, at her home at Berea. A speedy recovery is wished.

Mr. and Mrs. James Cate and children, Carolyn and Eddie, of Richmond, Ind., spent last week end with her parents, Mr. and Mrs. John Abney, and Ralph.

Mr. and Mrs. Cris Clim of Troy, Ohio, were week end visitors of Mr. and Mrs. Jess Bullen.

Top-Dressing Speeds Meadows' Comeback After First Cutting

FIVE "dividends" farmers can obtain from top-dressing their legume-grass meadows with fertilizer after the first hay cutting were listed by the Middle West Soil Improvement committee:

- 1-Meadows make a quicker comeback.
- 2-The fertilizer helps boost hay yields that follow. This can mean lower costs and higher profits per acre and per ton.
- 3-Hay yields that follow will be larger, due to the plant food. This can mean lower costs of production and higher profits per acre and per ton.
- 4-Fertilized hay is generally of higher quality. It is more nutritious and has a larger protein content.
- 5-The top-dressing adds to the life of alfalfa by supplying the legume with the phosphate and potash it needs for vigorous growth.

Regular additions of fertilizer are insurance for keeping pastures at a profitable, high-producing level for long periods, the committee says.

Agronomists in a number of Midwestern states say it pays to add fertilizer that will provide 40 to 60 pounds per acre of nitrogen, phosphate and potash.

MOUNT VERNON, KENTUCKY

AN IDEA WHICH PAID OFF for John T. Sowers Jr., of Blue Grass Ordnance Depot is the use of an electric hoist mounted on a pickup truck, shown above. Mr. Sowers received \$95 for his idea. Looking on are other employees who received awards at the same time. Left to right, are: John D. Carmack, John T. Sowers Jr., Lee H. Gabbard, Henry F. York and Major Martin Pietz, commanding officer.

County Under Area Brucellosis Testing Program

Rockcastle County has been declared on the area Brucellosis program effective April 30, John Houston, president of the Rockcastle Livestock Improvement Association and chairman of Brucellosis program, announced.

All cattle in the county must be tested for brucellosis, commonly called Bang's disease, except steers, spayed heifers, cattle that are six months of age or younger and any cattle that have been vaccinated while under 30 months of age.

The county has been divided into 10 areas which will be tested one at a time. The areas are:

1. Roundstone to Wildie to Hammond School.
2. From Disputant back to Macedonia and then back to Roundstone.
3. Roundstone to Madison County line, East of U. S. 25.
4. Madison County line South to Clark's Store, at Snyder, West of U. S. 25.
5. West of U. S. 25 including Copper Creek Road to top of hill; Hatt Road to top of Hurricane Hill and West of U. S. 25 to Roundstone.
6. U. S. 25 from Roundstone to scenic View Motel, Brindle Ridge Road to intersection at Hack Saylor's farm.
7. From scenic View Motel to Renfro Valley Creek and up Renfro Creek to Green Hill.
8. Down Brindle Ridge from Hack Saylor's farm to Broadhead, including Oak Hill Road to Renfro Creek, also near Renfro Road to Dewey Brock farm.
9. Old Mt. Vernon Road from Mt. Vernon to Broadhead, including Little Renfro Road and Rigby Road to Dewey Brock's farm. Included in this area are Everett Watson's farm and Lou Hunt's farm.
10. Chestnut Grove Road from William Hysinger's Road to Broadhead.

Acting State Veterinarian, Robert H. Singer announced that testing would begin immediately by Dr. K. R. Burdette. Veterinarians in adjoining counties will be contacted by Dr. James Laughlin, Area Veterinary Supervisor, to assist in the testing.

Testing began Monday. Other cattle owners will be contacted by some member of the County Brucellosis Committee as soon as the Veterinarian is available to make tests. The program is to be completed within six months.

Dr. James Laughlin declared: "Becoming a modified, certified, brucellosis free area is important to cattle industry because it will make it easier to ship cattle into other states, especially, modified, certified, brucellosis free states."

Dr. Laughlin also stated: "By (Continued on page 4)"

Fiscal Court Votes Money For Agents

The Fiscal Court of Rockcastle County voted Tuesday, to appropriate \$3000 to continue the County Agent and Home Demonstration Agent from July 1, 1958 to June 30, 1959.

At Court and speaking for continued service of Extension Agents was G. H. Griffin, Hamiltons, Bradley E. Saylor, Clout Brown, Clyde Linnville and Atty. James W. Lambert.

Bradley Saylor told the Court that 4-H Clubs helped to reduce juvenile delinquency by giving teen age children something worth while to do.

Pat Hammons pointed out that the home agent helps women improve their homes by teaching them to refinish furniture, make slip covers and clothing and prepare better and more nutritious meals.

The motion was made by magistrate G. H. Griffin that money be appropriated to retain Extension Agents. The motion was seconded by magistrate J. S. Swinford.

Magistrate Frank Robbins voted against the motion and said, "The money could be used for the removal of ash cans from boiler rooms, and the removal of boiler sections and other heavy parts during repair operations."

Prior to the submission of this suggestion, ash cans weighing 150 to 250 pounds were being lifted from boiler rooms by hand, an operation which required considerable time and also created a safety hazard.

Use of the monorial and hoist enables two men to do a job which once required four, and also eliminated a definite safety hazard.

The monorial was built from scrap and the electric hoist was procured from surplus, so the actual cost of equipping the truck was almost negligible.

However, Mr. Sowers' suggestion is estimated to save the government \$2000 per year and at the same time improve employee morale and working conditions.

John D. Carmack and Lee H. Gabbard, both of Depot Facilities Division, each received \$15 for a joint idea suggesting that a ladder-type device, mounted on an electrical line truck and raised by a power winch, be used for working on electric lines, street lights and cables which cannot be reached from poles. This method was time-consuming and sometimes unsafe.

Mr. Carmack and Mr. Gabbard's suggestions greatly increase the safety of the work since the ladder is easily raised or lowered by a power winch, saves considerable time, and the awards committee decided to install the "ladder" on the truck cost \$11.46. It is estimated that savings and benefits to the government will amount to \$263 per year.

Henry F. York of the Security Branch was given \$10 award as a result of being named Guard of the Month for January. This award is made to the member of the Security Guards selected as being the best outstanding on the basis of appearance, job knowledge, loyalty, initiative and job performance.

County Conservation Officer Celebrates 13th. Anniversary

Irvin Smith, a man of many jobs is celebrating an anniversary.

Mr. Smith is Kentucky Conservation Officer for Rockcastle County. You might recognize the title more readily if it read "game warden," but actually, game warden, men and good-will ambassadors as well as game and fish laws, went out a long time ago.

Today, they are called conservation officers, and rightly so, for their duties call for them to serve as educators, game and fish technicians, and good-will ambassadors as well as enforcers of the state's hunting and fishing laws.

This year marks Mr. Smith's 13th year of service in Rockcastle County as a conservation officer. Mr. Smith, a native of Jacksonville, is married and the father of two children, Mrs. J. Campbell and Mrs. Joseph French.

In summing up his 13 years of service as a conservation officer, the 52-year-old Smith had this to say: "The big problem is getting people to understand that game and fish laws are made to insure better hunting and fishing and not to deprive anyone of sport. The sooner people understand that, the better off we'll be."

Douglas M. Roberts Dies At Cincinnati

Douglas M. Roberts Sr., 62, died at his home in Cincinnati, Ohio, May 3. He was born at Broadhead in 1895.

Surviving Mr. Roberts are his wife, Mrs. Marguerite Tharp Roberts, one daughter, Mrs. Imogene Wilson, of Cincinnati, Ohio; three sons, Douglas Jr., of Hamilton, Ohio; Billy, of Cincinnati, Ohio; and Harold of Pensacola, Fla.; one sister, Mrs. Ollie Mae Spoomore of Chattanooga, Tenn.; and four grandchildren.

Funeral services were conducted at Broadhead Baptist Church Monday with Rev. Arthur Johnson officiating. He was buried in Piney Grove Cemetery. Watson Funeral Home had charge of arrangements.

Conway Church Sing

The Madison County Singers will be at Conway Baptist Church Monday, at 2 p. m. (fast time).

This group recently sang at the Ottawa Baptist Church, all night long Sunday.

Bro. Floyd Long, pastor, invites the public to attend.

ASC Program Pays \$44,416 During 1957

During the year 1957, farmers in our county earned \$44,416.59 by carrying out needed conservation practices on their farms, according to an announcement by Shellie Mullins, Rockcastle County Agriculture Conservation and Stabilization Committee Chairman.

Ninety percent of the funds were earned by farmers in carrying out pasture practices which included establishing permanent vegetative cover for soil protection and improvement of soil adjustments, improvement of an established vegetative cover for soil or watershed protection and liming farmland to permit the use of legumes and grasses for soil improvement and protection.

The other 10 percent was earned by farmers in carrying out drainage practices which included installing drainage practices such as constructed grassland ponds as a means of protecting vegetative cover, drainage practices and forestry practices.

With ACP assistance, 1,820 acres of new pastures were established by the use of recommended seedings of grasses and legumes, 5,400 tons of lime and 728 tons of fertilizer.

Over 333 acres of pastures were improved by the use of 999 tons of lime and 100 tons of fertilizer, 627 acres of farm-

James Bennett Hasty Heart Attack Victim

James Bennett Hasty, 67, died suddenly April 30, at Rockcastle County Baptist Hospital. Mr. Hasty was born in Rockcastle County. He was a member of the Baptist Church.

Surviving Mr. Hasty are: one daughter, Mrs. Edith Ziegler, Indianapolis, Ind.; three sons, Cecil and Aubrey, of Mt. Vernon, and Ray, of the U. S. Army stationed in Germany; one brother, Robert, of Mt. Vernon; four sisters, Minnie Smith, of Mt. Vernon, Mrs. Cecilia Jones of Buckeye, Mrs. Cordia Fletcher of Marion City, Ind., Ezzela Ramsey, of Lockland, Ohio, and seven grandchildren.

Funeral services were held at the Pentecostal Holiness Church with Bro. George W. Murphy and Bro. Rolla Cornelius officiating. He was buried in Elmwood Cemetery. Sparks Funeral Home was in charge of arrangements.

Voting Machines Not Purchased

Rockcastle County Fiscal Court voted not to buy voting machines, Tuesday, at their regular meeting.

Present at the meeting were five magistrates and all of them voted "no."

The reason given by all members was—insufficient funds.

Magistrate Matt Jones said that everyone in his district had "never voted anything, but 'no' for voting machines" and since he was in office to represent the people he would vote "no."

Former State Senator Ollie Montgomery, who now sells voting machines, told the court that the \$4500 which was now in the county treasury would be enough to buy the machines and to hold the elections because election personnel and other expenses would be reduced.

Mr. Montgomery said: "You need voting machines because, if no funds is possible with (Continued on page 4)"

Mrs. Mary Helen Cromer Buried Wednesday

Mary Helen Cromer, 70, died at Rockcastle County Baptist Hospital, Monday. She was born in Pulaski County in 1888, the daughter of Evan and Nancy Cromer.

"I would endorse 100 percent the principles expressed by the State Department of Education as well as those expressed by Mt. Vernon School Superintendent, Clyde Linnville, a former Superintendent of the Mt. Vernon Grade and High School should merge with the Rockcastle County Public Schools."

With this statement, W. R. Champion, London business man and superintendent at Mt. Vernon High School from 1935 to 1944, joined with Mr. Aris and Mr. Linnville favoring merger. His opinion was expressed in an interview this week at London.

The State has proposed to the Mt. Vernon school Board of Education that the present school at Mt. Vernon become a county high school exclusively, with Mt. Vernon and Livingston High School students attending the Livingston High School would become an elementary school and another elementary school (10-room) constructed near Mt. Vernon with funds from the school system.

"In my opinion, Mt. Vernon School would be taking a big chance in this merger with the county at this time. Old grievances should be forgotten and the Mt. Vernon Board of Education should enter into a plan of merger with the county," Mr. Champion said.

"In thinking of merger," he continued, "I think there are two important factors that should be considered."

He explained the county seat (Mt. Vernon) is about the center of population and wealth of the county. (Continued on page 4)

BAKE SALE Saturday, May 10, at 9 A. M.

At the Old K. U. Office. Biscuits, Cookies, Candy, Cakes, sponsored by Berean Class Christian Church

Brakes Fail; Man Injured

Ervin Hoffman, 56, of St. Louis, Mo., was admitted to Rockcastle County Baptist Hospital, with a neck injury as a result of a traffic accident in Mt. Vernon, Wednesday noon, at the intersection of U. S. 150 and 25.

According to State Trooper Willis Martin, the accident apparently happened when the air brakes of the truck which was driven by Abraham Lincoln Hoffman, 29, of Patham, Ga., failed.

The tractor trailer truck came off a hill on U. S. 150 which runs in a plow from the south and could not stop. He attempted to pass a late model Cadillac which was then in the line of a pickup truck was meeting him.

When the truck hit the left rear of the Cadillac it pushed the Cadillac into a truck driven by George Lee Ragen, 26, of Route 4, Lancaster.

The tractor trailer was hauling frozen chickens to Detroit, Mich.

Other passengers in the car were Mrs. Ervin Hoffman, and Mrs. Sara Alice Seals, Carl Ehlers. Mr. Ehlers was driving the car.

Funeral Sunday For Mrs. Sara Alice Seals

Mrs. Sara Alice Seals, 82, of Roundstone, died Friday, at the Rockcastle County Baptist Hospital, after an illness of several weeks. Mrs. Seals was born in Rockcastle County in 1877, the daughter of Tommy and Ann Loman Miller. She was a member of the Clear Creek Baptist Church.

Surviving Mrs. Seals are her husband, Frank; four sons, Roy and Matt, both of Roundstone; two daughters, Mrs. Leonard and Leonard, of Hamilton, Ohio; and a sister, Mrs. Dova Todd, of Richmond, Ind.

Funeral services were conducted at the Seals home, Sunday, with Bro. Cecil Dailey and Bro. Dillard Bowman officiating. She was buried in the family cemetery at Roundstone. Sparks Funeral Home was in charge of arrangements.

High Population, Fertile Soil Key to 100 Bushel Corn Yields

Fertilized corn averaged 19.5 more bushels per acre than did unfertilized corn on 276 farms.

CORN yields of 100 bushels or more per acre are within the reach of farmers who use good field practices, add sufficient fertilizer and plant enough kernels per acre.

That was the statement of Charles A. Simkins, University of Minnesota extension soils specialist, in summarizing results of the 1957 Minnesota X-Corn Yield Contest.

Simkins reports that fertilized corn averaged 19.5 more bushels per acre than did unfertilized corn on the fields of 276 farmers who participated in the contest.

Some individual increases ran much higher. Donald Eickhoff and his son Emil, of Fountain, Minn., boosted yields by 132.5 bushels per acre on a fertilized plot, compared to an unfertilized area. Clinton Moline, of Leant, Minn., increased his corn yields 95 bushels per acre through the use of fertilizer.

Top corn yield in the contest was 165.9 bushels per acre, grown by Donald Hastings, of Easton, Minn. Second place was won by William Zimmerman of Paysonville with 163.3 bushels.

Simkins says farmers who use proper field practices can profitably invest up to \$20 in fertilizer for corn, if their present yields are below 80 bushels per acre.

"Results of this contest show that it is important to plant enough corn kernels per acre. In addition to using fertilizer," says a statement made public by the Middle West Soil Improvement Committee.

"Farmers who planted less than 12,000 plants averaged only 64.6 bushels per acre and boosted yields by only 6 bushels when they used fertilizer.

"Farmers who had 16,000 to 18,000 plants per acre, averaged 120 bushels per acre on fertilized fields, or an increase of 26 bushels compared with unfertilized plots."

POPLAR GAP

Bill French of Orlando, was called to Middlesburg, due to the death of his son, William Ralph French. He was accompanied by his mother, Mrs. Mary French, Everett French and Richard Delbert. Leger. Funeral and burial services were held at Middlesburg.

Rally Day Judge

Mr. Bradley Saylor's name was erroneously omitted from the list of judges participating in the recent 4-H Rally Day. Mr. Saylor also helped judge 4-H Speaking and Demonstration Contests.

District 4-H Rally Day: The District 4-H Rally Day will be held May 17, at Fells School near Corbin. Counties included in this district are: Rockcastle, Whitley, Jackson, Belle, Knox, Laurel, Clay and Harlan.

Winners in the Junior and Senior Division Speaking and Demonstration Contests in the recent Rally Day held at Mt. Vernon, will participate in the District Contest on that day. Participants who will represent Rockcastle County are: Alton Bradley, Broadhead 8th Grade; Phillip Owens, Broadhead 5th Grade; Norma Ramsey, Hillside; Willadene Thacker, Walnut Grove.

Representing Rockcastle County 4-H Clubs in the Demonstration Contest will be Betty Jean Parrish, Mt. Vernon; Dairy Foods: Carla Baker, Mt. Vernon; How to Make a Meat Loaf: Barbara Pittman, Mt. Vernon; How to Make an Angel Food Cake: Johnnie Guthrie, Wildie; Setting Out an Evergreen: Jimmy Fith, Broadhead 7th Grade; Banding A Plant.

In the Team Demonstration Contest division Clyde Phillips and Darrell Newberry of the 4-H Club will give a demonstration on Artificial Respiration. Representing the county in soil judging will be Crawford, Jackie Hayes, Dexter Roberts of Broadhead High 4-H Club. Paul Thomason of Mt. Vernon 4-H Club will serve as alternate on the Soil Judging Team. To date the Water Management Team has not been selected.

Plan Now For Sudan Grass: Dairy men who are not able to save early pasture clippings as silage to feed during the hot, dry summer months should give serious thought to Sudan grass. Sudan grass is an emergency pasture that will produce a lot of feed when you need it to prevent a summer slump in milk production. It is drought-resistant and palatable. On many farms three or four cows have been grazed per acre.

Piper is the variety recommended for Kentucky. The seeding rate is 20 to 30 pounds per acre. To give the grass a boost, heavy fertilization should be practiced, using amounts recommended following soil tests. Planting time should be around May 10.

In rare cases there have been cases of prussic acid poisoning to livestock from this grass, but with proper management this should not be a problem. A field is usually ready to pasture 5 to 6 weeks after seeding. The grass should be about 18 inches high before turning cows on to it.

Clean Pasture Recommended For Handling of Pullets:

Good range, actually a good pasture, can cut feed costs 10 to 20 percent in raising poultry, says John Tuttle, Kentucky

Poultry Improvement Specialist, if certain conditions are present.

For instance: Pastures should be well-drained, free from standing puddles; fenced against predators; protected against thieves; be free of disease, and have succulent forage for pullets. In addition, the pasture must not have been used for the last three years by other poultry flocks, and drainage must not come from nearby premises where chickens are raised.

A dense sod pasture—to keep pullets out of mud, etc., is best. Bluegrass is good, as are white Dutch and ladino clover pastures, if all are kept short and green.

If the above precautions are not observed, the farmer might do better by raising his pullets in confinement.

Crayfish Elimination System Is Explained:

Here's how to get rid of crayfish, called crawfish or mudbugs in Kentucky, when it becomes evident there are too many around. Pour about 10 drops of carbon bisulphide liquid into each crayfish hole, as well as the hole by pressing the heel over the opening, or plugging it with a piece of sod.

A good propellant is an oil can, the spout of which has been partially closed to make the carbon bisulphide come out in drops. A gallon of the mixture thereby will be sufficient for about 5,000 crayfish holes.

Kermit Mills, Kentucky Extension Service Agricultural Engineer, warns that the liquid is highly inflammable and should be kept away from any type flame or heat source. It should be kept tightly closed. Its fumes also are dangerous to humans, in fact the fumes are even fatal to the crayfish when applied as noted above.

Dehorning Cattle: Dehorned feeder cattle are worth more from 10 to 25 cents a hundredweight at six to eight months of age.

That's because dehorned cattle are a good deal less likely to injure one another. Two commonly used methods

of dehorning are:

- 1. Use of caustic soda or potash stick or paste for calves less than 10 days old.
- 2. The Barnes-type dehorning in calves from eight weeks old to weaning age, or for horns which are a half to three inches in length.

It is easier for the beef producer to dehorn his calves at an early age than when they are older; however, calves can be dehorned at any time during the year, if the proper precautions are taken. For instance, either of two commercial preparations, Smear 62, or Smear EQ 335, should be applied to the dehorned areas to hasten healing and to repel insects. A home remedy such as pine tar also may be used.

RED HILL

WASHINGTON TRIP The Senior Class of Livingston High School made their trip to Washington, this week. Those from this vicinity were: Alma Jean Anglin, Mabel Martin, Emma Lee Lakes, Jalette Hamrick, Dorothea Dyer, Ruby Singleton, Lois Phillips, Ermon Hays, Marvin Smith and Ted Cole.

BAPTISMAL SERVICE There will be a baptismal service, Sunday, May 11, at 2:30 p. m., at the river just below Livingston. The public is invited.

REVIVAL Sunday, May 19 the revival will begin at Pleasant Run Baptist Church, with Rev. Howard F. Lamson as the evangelist, assisted by Bro. Earl French. The public is invited.

Mrs. Cassie French spent Tuesday night of last week with Mr. and Mrs. John L. Robertson and family, at Lamers.

Mr. and Mrs. Ernest Lakes and family were visiting Mr. and Mrs. Eugene Rose, at Sand Gap, Sunday.

Mr. Ollie Mullins was at Lexington, Tuesday, for a check up, at Good Samaritan Hospital.

Mr. and Mrs. Bill Adams of Frankfort were visitors of Mr. and Mrs. Quentin Barnett and family, Saturday.

Mrs. Oren Furmon and children of Richmond, Ind., are visiting Mr. and Mrs. Lonzie Furmon.

Mr. and Mrs. Sherman Pondexter and family spent the weekend with Mr. and Mrs. Leonard Powell, at Pekin, Ind.

Old Age Assistance Discussed By Rockcastle Advisory Committee

Old Age Assistance, as it is administered in Kentucky under State and Federal laws, rules and Regulations, was the topic discussed at the meeting of the Rockcastle County social service advisory committee April 24.

Leading the discussion before the committee was Miss Charles Smith, public relations field director, Division of Public Assistance, Department of Economic Security. Social workers discussed the various eligibility requirements, which must be met by persons seeking Old Age Assistance.

Age, of course, is a primary factor, the applicant must be 65 years of age or over. More than a mere statement on the part of the applicant is required, the speaker said. All records bearing upon the date of birth of the applicant must be ex-

amined by the field worker. These may include birth certificate, confirmation certificate, baptismal certificate, insurance policies, licenses (driving, fishing, marriage, etc.), newspaper clippings reporting birth of applicant, census records, Bible records, and affidavit of age.

An applicant for Old Age Assistance must be a resident of Kentucky for three years of the maximum established by the preceding year must have been continuous in the State, the speaker continued. Persons residing in public institutions cannot receive Old Age Assistance, unless they are in an approved medical institution. They can receive assistance if in a private institution which meets the standards of the Department, and if they are otherwise eligible.

A recipient of Old Age Assistance is permitted to own an

equity in real property as follows: 1. A homestead, the value of which does not exceed the maximum allowed by the Department. 2. A homestead formerly used or intended for a homestead but not occupied by the recipient because of ill-health, or the location of Economic Security property, or other compelling conditions, provided the equity does not exceed the maximum established by the Department. 3. The fair market value of any other real estate owned by the recipient to be considered in the same manner as personal property.

No applicant for Old Age Assistance is eligible if his personal property exceeds the \$20 maximum set by the Department, and all kinds of regular income is considered in figuring an assistance plan; the income of adult children and parents are responsible by law for a representative of the Division of Children's Services.

The next meeting of the committee is scheduled for May 22, at which time the income of children and parents are responsible by law for a representative of the Division of Children's Services.

Mr. and Mrs. Bobby Allen spent the week end with his mother, Mrs. Mary Dennis, at Waco.

Mr. and Mrs. Loyd Mullins and Mrs. Harry Cummins and daughter of Renfro Valley, visited with friends and relatives here, Sunday.

Mrs. Bert Mullins returned home Wednesday, from Kokomo, Ind., where she had been visiting her son, Ted Mullins, and Mrs. Mullins.

Henry Lee Abney, who is employed with a Green House Construction Co., spent the week end at home.

Mrs. Henry Lee Abney spent last week with her parents, Mr. and Mrs. Leonard Jones, and family, at Livingston.

Sunday, June 1st is the day set for decoration at Red Hill. Everyone is invited to attend.

WITHERS

Mr. Elizabeth Weaver of Hamilton, Ohio, is visiting her father, Mr. J. H. Cummins, and Mrs. and Mrs. Julian Mullins of Manchester, visited Mr. and Mrs. Estill Mullins and Mr. and Mrs. Bill T. Mullins, Friday night.

Mrs. Cassie French of Red Hill visited Mr. and Mrs. C. L. Thomas, over the week end. Hagard Rayborn and Russ

visited Mrs. Bell Mullins, Sunday. They also visited with Mr. and Mrs. C. L. Thomas and Mrs. Cassie French.

Mrs. Ollie Williams of Erwin, Tenn., is visiting her sister, Mrs. Grace Mullins, for a while.

Mr. and Mrs. Bill Stewart a few days with his grand-mother, Mrs. Bell Mullins, W. F. Mink, Sunday.

Miss Frances Dickerson of Dick Mullins, who has been employed in Ohio, is spending

the Rockcastle County committee, appointed by the Governor, serves in an advisory capacity to the Commissioner of Economic Security in relation to the programs of the Division of Children's Services and the Division of Public Assistance. Members of the local committee include: J. u g e

Money Ed Cummins, Mrs. J. D. Henderson, Mrs. Carl Baker, Floyd Owens, Earl Watkins, John Cox, R. L. Kelsey and Marion Parkey.

The next meeting of the committee is scheduled for May 22, at which time the income of children and parents are responsible by law for a representative of the Division of Children's Services.

\$2500.00 A MINUTE
Did you know that your present congressman has received approximately \$75,000.00 of the taxpayers money in salary, that for that salary he has been on his feet in the hall of Congress speaking for less than 30 minutes? Did you know that for that 30 minutes you have paid him at about \$2500.00 a minute? Do you know that for that enormous rate of pay that Siler has not secured the passage of one piece of legislation that has benefited the people of his district as a whole, nor a single County of that district as a whole? Did you know that not an extra dollar has come to the Eighth District by reason of his efforts? Did you know that not a single industry has been brought to our district by reason of his efforts?
\$2,500.00 a minute for nothing done.
IT IS TIME FOR A CHANGE. VOTE FOR DANIEL BOONE SMITH FOR YOUR CONGRESSMAN

Why Mistreat The Tobacco Farmer?

In traveling around, I find that a great many good, industrious, hard-working tobacco farmers of Southeastern Kentucky are being fined and having their tobacco base reduced or taken away from them, just because they know how to raise tobacco, and make their land produce. I hear of instance after instance where farmers have had their base taken away from them and sometimes fined in addition, simply because their yield was greater than the average in the county or area. This yield becomes for some reason an "indicated violation," and without taking into consideration the type of land, use of fertilizer, method of farming, and amount of work expended, he becomes "GUILTY WITHOUT A HEARING." Then he can appeal after following some procedure set up. The burden is apparently upon him to prove his innocence, before he has been proven guilty. This reverses the American system of government and law. Other people in the United States are innocent, until proven guilty, why shouldn't the tobacco grower be too. Is he no longer a citizen? Why penalize him for working hard? Why should he be harassed by this man Siler, and those under him, by having his crop measured time after time, why should one man be treated differently than another? Why reduce the income from the one money crop these hardworking people have? Can it be that someone somewhere wants another state to have some of our tobacco acreage.

This is all wrong. It's unAmerican. These people need their acreage, industry should be rewarded, not penalized. I propose to do everything that a member of Congress can do to protect the Tobacco Farmer from these abuses, and if these laws are being abused find out why and do something about it, or if the laws are being carried out then the laws should be changed. If you want a friend in Congress, who will watch your problems and fight for your protection then go to the polls May 27 and vote for.

The Signal Says--

"WE MADE AN ERROR"

How typographical errors can change written statements is no better illustrated than in last week's editorial headline.

The headline was written to read: "On Merger, We Can't Afford to be Wrong." When the Signal readers read it later it said: "No Merger, We Can't Afford to be Wrong."

Which brings us back to the subject of merger and the question: Should Mt. Vernon Grade and High School merge with the Rockcastle County Public Schools?

To date, we have not expressed our editorial opinion on merger. We wanted more facts. We still do not have all of these facts on which to make a decision.

It is our policy at the present time to report all the facts and opinions we can find on the merger question. In this issue, W. R. Clampton, London businessman and superintendent at Mt. Vernon from 1935 to 1944 gives a few thoughts on the subject.

Do our readers have opinions? Why not write us a letter of reasonable length on the subject? We'll be glad to print it.

As we stated last week, merger is probably the most important question that has faced Mt. Vernon because it concerns the education, welfare and future of our citizens. We should hear all facts and all sides, and, as Mr. Clampton says, "Old grievances should be forgotten" and action should be taken "with the children's future uppermost in mind."

Patient's Register

Rockcastle County Baptist Hospital

Admissions

Ernest Brooks, City; Lester Joe Day, Brodhead; Bentley Clark, Orlando; Mrs. Margaret Machal, City; Mrs. Katherine Payne, Brodhead; Mrs. Ann Henderson, City; Ervin Hoffman, St. Louis, Mo.; Mrs. Jalia Barrett, Rt. 2, Mt. Vernon; Mrs. Corene Cummins, City.

BRUCELLOSIS

(Continued from page 1)
1960 all grade A dairies must have Bang's free herd and by 1961 anyone selling any kind of milk will have to have a Bang's free herd. This deadline is little over 18 months away.

Bruceellosis, or Bang's disease, is the disease in cattle which causes undulant fever in humans. There is at present no known cure for undulant fever.

SCHOOL MERGER

(Continued from page 1)
county and the large school unit should be located at the center.

"For the county seat to have a school and the county maintain two other high schools is not fair to the children or to the county and contrary to the principles set forth by the Department of Education. For an effective long-range program of education, Mt. Vernon School and county schools should, and must, be considered together," he declared.

Mr. Clampton pointed out that it is now necessary for Mt. Vernon to transport pupils

Star Route Extended

Postmaster James O. Smith announced this week that Mt. Vernon Star Route has been extended. The extension will include the families.

The Star Route from Mt. Vernon to Conway now goes by way of Carl Williams' farm to the junction of Scaffold Cane Road and from there to Roundstone Store on U. S. 25.

Numbers will be assigned patrons for their boxes, Mr. Smith stated.

He also said, "Patrons are responsible for erecting their mail boxes and labeling them with their name and number."

Mrs. Phillip Teegarden Dies At Indianapolis

Mrs. Phillip Teegarden, 41, died in the Methodist Hospital at Indianapolis, Ind., April 26. Mrs. Teegarden was the former Ina J. Langford of Mt. Vernon. She was also the niece of the late J. S. Langford.

Surviving Mrs. Teegarden are her husband; a son, Van T. Vance Sr., of Louisville; one sister, Mrs. Mary Steenberger of Louisville; a half brother, Leonard Langford, of Mt. Vernon; a grandchild, a niece and a great-niece.

Funeral services were conducted at Heady's Southern Funeral Home at Indianapolis. She was buried in Ever Green Cemetery.

(Continued from page 1)
ASC PROGRAM

the hands of farmers, administered by county and community committees, all farmers elected by their neighbors.

It is teamwork operation between agencies of the Department of Agriculture, State and local government, and other groups. It is necessary, however, for helping farmers to establish systems of conservation farming that put into effect better soil and water management and use.

Recognizing the need for the protection of our land and water resources for the production of sufficient food and fiber, it is necessary to meet future needs of the nation, Congress appropriates funds to share with farmers the cost of carrying out needed soil and water conservation measures.

K. U. Office Moved After 32 Years

The Kentucky Utilities office which has been located in the Dr. John D. Henderson, Mrs. Bessie Chesnut building for almost 32 years has been moved.

The "light office" is now located between the Western Auto Store and the building owned by Norine Milen, and known as the bus station.

Roy Owens, manager of the K U office at Mt. Vernon, said the reason for moving the office was to have more storage room and an additional garage.

At the new location KU also has parking facilities for customers, while they are transacting business with the company, Mr. Owens stated.

The interior of the new office is lighted by rows of fluorescent lights. The five inverted window lights and the street sign are controlled by a time switch which automatically turns the lights on at night.

One of Mr. Owens particularly likes about his new surroundings is his inner office. He said, "Now I can see and be seen."

4-H Club Boys Awarded Plaques

Marvin Crawford, Jackie Hayes and Dexter Roberts, all of Brodhead 4-H Club were the high scorers in a soil judging contest held on John Holbrook's farm on Brandle Ridge, Thursday, May 1. These boys will be the 4-H soil judging team that represents Rockcastle County in the district contest at Felts School, near Corbin, May 17.

Paul Thomason of the Mt. Vernon Club will be alternate on the team. Paul was high point man in the county contest last year.

Other 4-H members in the county contest were: Jerry Dowell, Mike Hunt, Lloyd Fain and Dallas Mullins of the Mt. Vernon Club; Darrell New, Ed Livingston Club, and Ronnie Singleton of the Brodhead Club.

The Rockcastle County Conservation District Supervisor will present Marvin Crawford, high point man in the contest with a plaque for winning in the soil competition.

Tommy Parsons of Mt. Vernon FFA Chapter was the County FFA Contest which was held earlier this week as to award a plaque.

The purpose of the Soil Judging Program is to assist 4-H and FFA members to better understand the capabilities, uses and management of different types of soil on the farm where they live as well as to acquire a general knowledge of similar soil types or formations in the community and county.

VOTING MACHINES

(Continued from page 1)

changing times, it practical or progressive to restrict the action of future school boards on policy.

"It has been 14 years since I left Mt. Vernon, but I still have a vital interest in the people of Mt. Vernon and Rockcastle County. I still remember the many good students who have received an education at Mt. Vernon. But I think the time has come when merger should take place in the best interests of our future citizens.

Should Mt. Vernon fail to enter the State's plans now, they may find themselves in an embarrassing situation in a few years. I feel certain that my parents and leaders will act with the children's future uppermost in their minds," he concluded.

Safety Rules Listed For Bicycle Riders

A field representative for the state division of Accident Control warns that spring brings a need for more alertness for bike riders.

Frank O. Parker, Accident Control Field Representative emphasized that if you ride a bike, be sure he knows how and where to ride it and then see that he rides it that way.

"Hiding a motorist's responsibility will not get your child back nor mend broken bones," he declared. Parker urged that parents be certain they know the bicyclist laws before attempting to teach children.

"For a quick review," he suggested, "memorize this:

- 1. Bicycles must be ridden on the right hand side of the street with traffic, NOT on the left side against traffic.
- 2. Bike riders must obey traffic signs, signals and rules the same as motorists.
- 3. Bike riders must not carry passengers either on

handle bars, seat, frame or luggage carrier.

4. Bike riders must not ride more than two abreast. It is better to ride single file.

5. Bike riders must not carry packages or other objects in their hands or arms.

6. Bikes must be lighted or kept off the street after sundown.

7. Bikes must be equipped with a warning device—horn or bell.

Factory Work Still In Progress

Factory stock subscriptions have reached \$77,000. R. H. Hamm, chairman of the Board of Directors of the Rockcastle County Development Corporation announced this week.

Mr. Hamm said he had contacted an industrialist Tuesday, by telephone. The man is to hold further discussions with the Development Corporation the week of May 12.

Fishing Report To Be Broadcast

The Kentucky Department of Fish and Wildlife Resources, Mr. Hamm said he had contacted an industrialist Tuesday, by telephone. The man is to hold further discussions with the Development Corporation the week of May 12.

Beginning May 9, a special 15-minute report on state-wide fishing prospects will be broadcast over a 20 station radio network covering every county in the Commonwealth.

The report will tell fishermen where fish are hitting best and how to best catch them. It will include a state-wide extended weather forecast and a report on road and travel conditions.

Called "Fishing In Kentucky" the series will be aired every Friday morning, originating from Frankfort at 7 a. m. One of the highlights of the show will be on-the-spot reports from fishing experts at the major lakes.

Two well known outdoors personalities are featured as hosts of the show: Harry Tuttle, editor of the Happy Hunter

BUST OF BARKLEY — Senator John Sherman Cooper and Mrs. Alben Barkley at last Tuesday's dedication ceremony in the Senate of the bust of former Vice President Barkley. Mrs. Barkley unveiled the likeness of the beloved "Veep," executed in white marble by sculptor Kalervo Kallio. Senator Cooper, speaking at the impressive ceremony, said of Barkley: "The quality that made him beloved was the fact that he never forgot the land and the people from which he sprang. Alben Barkley will always be closest to the hearts of the people of Kentucky. We say of him: 'He was a man. We shall not look upon his like again.'"

ing Ground magazine, and Ronnie Rhody, outdoor writer and broadcaster. The series is being presented by Ashland Oil and Refining Company and Aetna Oil Company as a service to Kentucky fishermen. It is believed to be the first such network series in the nation.

Property Owners Seek Licensed Termite Men

Property owners wishing to control termites should employ a State-licensed exterminator instead of a "fly-by-night," warns Inspector Earle B. Hutcheson, of the Division of Weights and Measures.

Hutcheson says this problem is serious because many operators do not know enough about termites to control them. Then comes the unscrupulous operator, Hutcheson warns, "who, like a parasite, swoops down on the unsuspecting property owner and extracts a sizeable sum, having done practically nothing."

The Kentucky termite and pest control law was enacted

to protect the public from unethical operators. Many of their victims have been older persons or widows who have been easy prey for "fast-talking salesmen," Hutcheson says.

The law requires that each operator in Kentucky be licensed by the State Agriculture Department. Before an operator is granted a license, he is required to take an examination and show proof of financial responsibility. The licensed operator is required to send reports on all termite contracts to the agency.

Field representatives of Hutcheson's division make routine calls on exterminators and inspect a percentage of contracts. If an operator is not fulfilling a contract, a complaint may be registered with the department. After investigation, the operator is given a certain period in which to correct the complaint or have his license revoked.
