Burley Quotas May Reduce

The Kentucky Agriculture Extension Service's bi-weekly outlook letter issued this week pointed out that several federal officers foresee modification of the burley program in the near future, due to such factors as loss of foreign burley markets, increased efficiency in utilization of leaf and stem material by manufacturers, more use of rigid cigarettes, and others.

Rigid application of the quota formula, which has not been done before, could possibly bring a reduction of up to 45 per cent in burley allotments for the coming crop year. The system is that by which the Secretary of Agriculture prescribes the total number of acres that may be devoted nationally to burley production in any crop year.

The current burley crop in the eight-state burley belt is estimated at 487 million pounds and receipts of crops on warehouse floors prior to Nov. 24 sales opening date indicated a high quality crop.

Price supports for burley this year, now 3.7 cents a pound higher than in 1957, reach a record high. The total supply of burley now is estimated at about three-and-a-half-year's supply at the current rate of use, with manufacturer's holding enough to equal two year's supply.

The remainder of the burley is in the "pools" and amounts to about 280 million pounds.

Movement of burley from these pools as of Sept. 1 is now approximately 15 million pounds less than that moved in the same period last year.

Growers will have an opportunity to vote on the quota question for the 1959, 1960 and 1961 crop years by March, 1959, the letter noted.

LETTER TO THE EDITOR:

To the Editor: I renew my subscription for the coming year, I wish to say that I enjoy the Signal very much. It is like getting a letter from home.

There have been avy from home since 1948, but there will never be any place as dear to me as Rockcastle County, and it will always be home to me.

Polio Drive Slated To Begin On First Day Of January

Mrs. Earl Hammons, chairman of the Rockcastle County Chapter of the National Foundation, has announced that all materials for the 1959 fund drive have been ordered. She urged that local persons continue to contribute to this worthy campaign as much as they have in the past.

Mrs. Hammons also announced that Dr. Fred W. Bowers has been appointed chairman of the March of Dimes aspect of the campaign and indicated that she is very thankful that Nunnally is aiding in the Dimes' drive, which opens Jan. 1.

The chairman explained that 75 per cent of all donations made in Rockcastle will remain in Kentucky and that the other 25 per cent will be forwarded to the National Foundation, which will then use it for research concerning polio, arthritis, birth defects, central nervous disorders and virus diseases.

She also pointed out that the National Foundation uses these funds to further treatment of those persons affected before innovation of the Salk Vaccine, in addition to those persons who continue to contract it. The Foundation also funnels funds into areas in which epidemics break out, using the surplus built up in areas which have few or no cases.

Cliffing the recent epidemic in the slum area of Detroit, as a warning Mrs. Hammons asked that all those who have not yet received the vaccine do so immediately. She explained that the epidemic concerned people who had not been properly vaccinated.

She also asked that potential contributors not be influenced by the success of the vaccine. "Remember," she pointed out, "there were people who were stricken before the vaccine went into production and they still have to be cared for."

To stress her point, Mrs. Hammons pointed out that 15 children in this county alone are benefiting from funds raised in the annual drive. The local chapter last year raised \$937, which was well above the national and state figures for collections.

The expanded program of the National Foundation has been qualified by its experience with polio, Like polio, arthritis and birth defects are diseases that cripple and often keep their victims from normal, productive lives. Expanded research in virus diseases is expected to throw new light on many diseases, since the program will be flexible enough to allow it to move in whatever direction the research leads.

Still Is Seized Near Sand Springs
A surprise raid by three law enforcement officers Monday resulted in the apprehension of Henry Martin Mink, a 22-year-old resident of the Sand Springs area, on a charge of possession and operation of a distillery without a license.

Mink, who officers said told them he was alone in the operation, was seized along with the still at a location approximately 4 1/2 miles from Sand Springs.

Equipment confiscated at the site included one 60-gallon tank cooker, one 60-gallon flake stand, one 60-gallon fermenter, pine one-half gallon jars, and a wash tub cap.

Somerset Burley Mart Reports High Sales

With the opening of the burley tobacco markets on Monday, millions of dollars began moving in business channels with Kentucky farmers enjoying one of the best sales seasons in many years. Somerset, one of the leading markets in the state, opened with capacity houses, both in poundage and the number of farmers present. Prices ranged from \$55 to \$71 for all grades of leaf, with individual grower averages ranging from \$68 to \$70. Growers from almost every tobacco-growing county in the Commonwealth were in Somerset this week, either as visitors or for the purpose of selling their crops.

Planters who have sold their crops are displaying sales sheets with smiles of satisfaction. The Somerset market was one of the three markets in the state to show an appreciable increase in poundage sales over the previous seasons.

Training Completed By Brodhead Recruit

PCP David L. Rose of Rockcastle County recently participated with the 783rd Military Police Battalion annual combat efficiency army training tests in Germany.

Rose, a military policeman in the battalion's Company A in Furth, Germany, entered the army in October, 1957 and completed basic training at Fort Knox.

The 22-year-old MP attended Brodhead High School. His wife, Ruby, lives in Totz, Ky., and his mother, Mr. and Mrs. Fred L. Rose, live on Route 2, Brodhead.

Fire Destroys Ottawa Home

A midnight fire that started from unknown sources Friday night completely razed the five-room wooden frame house of Mr. and Mrs. Clinton Brown near Ottawa.

The fire was first discovered when Mrs. Brown, the former Joann Cash and a member of the Cash Quartet, awoke and entered the living room, where the heat of the fire had already scorched the wallpaper, indicating that the fire may have had its origin either in the loft or in a closet behind the stove.

The Browns had been to a basketball game and had watched television before retiring for the night. Mr. Brown said that he had opened the closet earlier that night and that the two of them were in the living room approximately one and one-half hours before the fire was discovered.

Flames from the fire spread so quickly that the young couple were unable to bring any of their possessions from the house, with the exception of a few minor articles of clothing.

The house, owned by Brown's father, Tony Brown, was not insured. The furniture in the house was partially covered by insurance, however.

Self-employed Farmers Must File Tax Returns

People under age 72 receiving Social Security monthly payments with net earnings in excess of all of their checks in a year if they have earned in excess of \$1,200, according to R. A. Tweedy, Social Security district manager in Lexington, Tenn. are beneficiaries who are either working for wages of more than \$100 monthly or are rendering substantial aid in an annual report, including self-employment, including self-employed farm operators.

Persons affected by this situation should immediately report their status to the Social Security Administration, insuring that benefit payments will be withheld while a person is working and avoiding the necessity of refunding benefits or having them withheld later when a person is not working.

If earnings amount to more than \$1,200 annually, it is necessary to file an annual report of those earnings by April 15 of the following year, Tweedy noted. Failure to do so may result in a loss of additional benefits. Information reported in this manner is used by the Administration to determine adjustments to be made and the number of benefit checks properly due.

"This report," said Tweedy, "is in addition to the income tax return which an individual may be liable to file with the District Director of Internal Revenue."

Brodhead Youth In Army Training Tests

Army Recruit John W. Edwards, 18, son of Mr. and Mrs. William L. Edwards, Brodhead, recently completed eight weeks of basic combat training at Ft. Benning, Ga.

Edwards attended Brodhead High School and was a farmer before entering the Army.

Circuit Court Sentences Four Before Adjourning Session

Retired Farmer, 76, Suffers Fatal Attack

Funeral services were held at 2 p. m., Friday in the Brindle Ridge Baptist Church for James Henry Mink, a retired farmer who died of a stroke.

Mink, 76, died at 12:30 p. m. Nov. 19, following a heart attack. Although a victim of previous attacks, he was reported to be quite active.

Surviving the deceased are one daughter, Mrs. Eugene Clark, and five sons, Gilbert Brown, Brindle Ridge and Pete Mink, Dayton, Ohio; two brothers, Tom Mink and Harrison Mink, of Rockcastle County, and five grandchildren.

Burial was in Riddle Cemetery. Services were conducted by the Rev. William Hamilton of Berea.

Women's Club Meeting Enjoys Film Showing

The Mt. Vernon Women's Club met Tuesday night at the home of Mrs. John W. Griffin for their regular meeting and special "American Home Program" with Mrs. Sam Jones, president presiding.

Governor Chandler has proclaimed this week as "American Home Week" and the members of the Kentucky Federation of Women's Clubs joined with him in the observance. Special feature of the evening was the showing of pictures of the war and the Middle East by Mrs. Lester Pross, of Berea, who recently returned from a 14-month tour. Mrs. Laura Durham, mistress of ceremonies, added much to the program with her lovely solo, "Bless This House".

The club was well-represented for this outstanding program. Co-hostesses were, Mrs. Walter Owens, Mrs. Alma Jean Robbins and Mrs. Helen Miller. Refreshments were served.

The average cost of one case of tuberculosis is from \$15,000 to \$20,000, which can be avoided by buying and using Christmas Seals.

750 Names Eliminated From Voting Registers

A sum total of 720 names have been purged from the 1958 voter registration lists, County Court Clerk Clarence Carter announced Monday. Of this number, some 195 persons have had their names returned for various reasons.

The majority of the names, he explained, were purged because voters had failed to vote for the past two years. Others were removed due to deaths and marriages. Carter pointed out that when a person marries, she must change her registration from her maiden name to her married name.

Carter said these persons may register at his office at any time between now and March 28, 1959, to be eligible to vote in the May Primary election. Those whose notices were returned are:

THE SPIRIT OF CO-OPERATION

Robert Gregg, another newcomer to the list of Grade A suppliers of Berea Creamery, feeds hay to his herd. Gregg, who supplies 40 gallons daily, has been a Grade A supplier for only two months, milks nine cows.

Oliver Dowell and Lewis Adams pause before loading Dowell's 40 gallon yield onto the truck for delivery to Berea Creamery. Adams, who has a Grade A operation of his own, operates two trucks, which pick up the produce of 14 Grade A farmers and carries it to the Berea Creamery every day of the year.

Clyde Linville has been on Berea Creamery's Grade A list only since July, but he and his partner, Andrew Cox Jr., are already ranking among the largest suppliers, shipping an average of 135 gallons daily. Emmett Gabbard watches the milk flow into the 10-gallon cans from their pipeline milkers.

Hugh Miller, Disputanta farmer, displays some of the equipment used daily in supplying Berea Creamery with the milk of his 15 cows. Miller, who averages shipping 40 gallons each day, is one of the more recent suppliers to the creamery.

Oscar and William Barrett, another of the old-time suppliers of Grade A milk to Berea Creamery, are shown here with some of the cows and heifers from which they get 70 gallons of quality butterfat milk daily.

Robert Lear of Brodhead Route 1 has been supplying for approximately one year, has a dairy herd of 13 cows, and ships 40 gallons of milk to Berea Creamery each day.

These cans in the cooler represent the efforts of Wille Bullen, Wildie Grade A supplier, who has been shipping to Berea Creamery for 10 years, ranking him as one of their oldest suppliers.

Helping Your Creamery To Serve You Better

Shown here are only a few scenes from the vast network of operations that go into making Berea Creamery a better servant to its customers. These scenes depict not only the vast amount of effort that goes into bringing you Grade A dairy products; they also reflect the co-operative spirit that has existed between Berea Creamery and dairy farmers of Rockcastle County for several years.

From the time of the first milking in the morning till the last dairy chore has been completed at night, your dairy farmers are instrumental in bringing quality products and good service to your area. It is community spirit such as this that makes Berea Creamery proud to serve its customers.

It has been a relatively short time since your first local farmer applied for and received the seal of approval of Berea Creamery, allowing him to become a Grade A supplier. Since that time, 13 others in Rockcastle County have followed his lead and more are ready to join them.

Last year, for example, Berea Creamery paid over \$75,000 to 51 farmers in your area for milk. This year we expect to top even that figure, for just as your own dairy program grows, so will Berea Creamery's support grow.

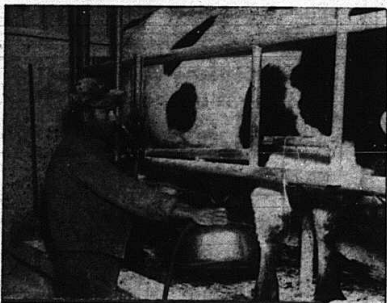

As you can clearly see, from the farm to the consumer, from the time our supplier sells us the milk until it is delivered to you by Mr. W. E. Stivers, Berea Creamery operations are a model of co-operation.

The next time you sit down to enjoy a delicious glass of wholesome milk, or spread a slice of smooth, creamy butter on your steaming hot bread, thank your neighbors, who made these quality products available to you.

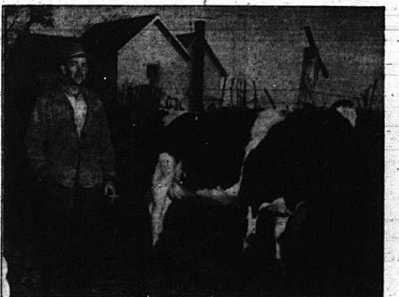

Berea Creamery and W. E. Stivers take this opportunity, at Thanksgiving, to thank all of their suppliers and customers for their splendid support and to say that we will strive in the future, as in the past, to continue giving them the same devoted support and service which they have given us.

Mrs. Frank Mayes, whose husband is a brand-new supplier to the dairy, puts the finishing touches on the already spotless parlor on their farm.

O'Rear Fish is shown here looking up the electric milker in the modern parlor of Kenneth Stewart's farm near Wildie. Stewart, who supplies 130 gallons of milk daily, has been shipping quality Grade A milk to Berea Creamery for approximately five years.

Sherman Hansel of Mt. Vernon Route 1, poses with one of the prize displays in his herd of 20 cows and 10 heifers. Hansel has been doing Grade A business with Berea Creamery for a year, now supplies 50 gallons daily.

LET US GIVE THANKS

This Thursday, for the 26th time, the American people will pause to celebrate Thanksgiving. And this Thursday, as on all previous Thanksgivings, let us pause once again and partially count our blessings—blessings that are more numerous than anywhere else in the world.

Let us give thanks for the right to worship when and where we please.

Let us give thanks for the basic freedoms granted us in our Constitution, itself a grand old man as far as freedom is concerned.

Let us give thanks for the right to speak out against unfair practices and to do it with conviction.

Let us give thanks that we are constantly protected by the most fair-minded government in the world.

Let us give thanks that we can choose to utilize various informational channels which make us the best-informed people in the world.

Let us give thanks that our scientific advances are more for the good of man than for his destruction.

Let us give thanks that each of us can still chart his own path without restrictions—that we are not forced to do anything against our will.

Let us give thanks that we who are together today have been allowed to gather for the celebration of such a fine day.

Let us hope we can give thanks when all have returned safely to their homes.

OFF THE RECORD

This week will mark the inaugural appearance of a weekly column by the editor of the Signal, in which he will deliberate on many topics, ranging from politics to policy and back again. We feel that in this manner we can call attention to many subjects which do not, by themselves, merit a news item.

A worthy topic as any to launch this column is the answer to a challenge that twice has been thrown into our faces in the last week. We, of all people, have been accused of being afraid to print everything that is newsworthy.

That just ain't the truth, folks. The first accusation, made in person, concerned our reluctance to print a rather lengthy and poorly-written discourse on the evilsness that today exists in the world. The author of the material, which would have eliminated almost two columns of our fearless news, personally accused us of being afraid to print the letter, which said, in effect, that the writer is displeased with the state of evilness that exists in the world and that he is not contented with the evil people surrounding him. He said that the evil people should be repenting and prepare themselves. This we were afraid to print, he said.

"Evil people, you had better repent and prepare yourselves." There, sir, we have given the context of your letter without fear, but I somehow feel that we have robbed it of its cynical and unholly approach. And I don't believe we will have to answer thousands of letters from irate readers, although that would have been the case with your letter.

As for the other charge, it originated in an anonymous letter which we received. The only identification on the bottom of this three-page correspondence was the pseudonym "Meddlesome." Granted, the letter did have some legitimate complaints, but certainly not all of them were factual. We feel that this letter writer should have an answer to his statements, and we will be glad to discuss them with the writer if he will only identify himself.

We do not like to be called cowards, however, by one who does not have enough power in his convictions to prevent his hiding behind a cloak of anonymity. Our statements, which sometimes may be blunders, are in big-blarney type, are placed before the public, and are irrefutable. We can blame no one but ourselves for them. Therefore, if we can face the music, why can't you, "Meddlesome"?

"For Real Bargains In New & Used Furniture"

We have cut our prices for the remainder of this year in order to cut our inventory by January 1st. Every item in our store will be specially priced for the next five weeks.

At present, we have about \$50,000 worth of stock. If you don't already know us, just ask your neighbor. We are listing only a few of the many items and high grade brands we carry. Be sure and see Martin Cupp and Son before you buy.

We have one of the largest stocks of linoleum in Eastern Kentucky, including Gold Seal and Armstrong. We have around 50 patterns of roll goods, 150 room-sized rugs and several rolls of linoleum. Congo wall, rug borders, Hall runners, built-in cabinet sets, and wall-to-wall carpeting or anything you want in floor covering is available.

In appliances, we carry the Norge line in freezers, automatic wringer-type washers, refrigerators, and dryers. We also carry the Gibson line and the Waman's Friend, Maytag and A.B.C. Washing machines.

We carry at all times many fire-brick-lined heating stoves in several brands. We also have the genuine Warm Morning heaters, both new and used. We sell Philco, Emerson and G. E. radios—New Emerson and Zenith T. V. sets and other brands in used ones.

In cooking stoves we have Brown, Magic Chef, Martha Washington, Norge and Modern Maid brands in new models which operate on gas, electric, or coal and wood. In addition, we have some used stoves of different brands. In mattresses and box springs, we have National, Jamerson, and Quality bedding and Serta Coll springs. Also roll-away beds in all sizes.

We also have any style or color in 40 new bedroom suites, including poster or bookcase beds, double or triple dresser chests or wardrobes. We have many odd beds in maple or walnut in twin or fullsize. Numerous end tables, coffee tables and lamps by the hundreds. Also, we have book cases, what-not shelves, electric heaters and anything else you are looking for in the furniture line.

We have an extremely large stock of living room suites in almost every style. We have approximately 50 sets of breakfast or dinette sets in stock, with 4, 6 or 8 chairs in each set, and many delightful colors to choose from.
