

Farm And Home News

BY

H. L. Lo Duham, Martha Owen and Paul Claiborne, Co. Extension Agents

Specialist in Brockman:
Mr. Fred Brockman, Extension specialist in Young Adult Work, spent one day in Rockcastle County last week in working with the extension agents in developing a more effective extension program for young farm families.

This young farm family group consists of young farm families between the ages of 20-45 now living on the farm.

Agents in the county feel that they are not reaching as many of the younger group as we would like to. Agents also feel that we are not as well acquainted with the younger group as with some of the older groups.

The aim of this young peoples program as far as the extension agents are concerned is to locate, identify and acquaint this age group with the total extension program of the county.

Mr. Brockman suggested that this program be carried on as follows:

(1) Locate and identify all the young farm families in Rockcastle County from marriage up to 35 years of age (2) to obtain a minimum of information about each family (3) supply young farm families with extension information based on the interest and timeliness of subject matter (4) get acquainted with young farm families (5) encourage young farm families to participate in the already organized extension groups, enterprises, County Extension Council or other committees (6) explore the possibilities of working in informal groups with young farm families.

Extension agents at the present time are attempting to locate, identify and become better acquainted with young farm families in Rockcastle County.

If the above mentioned steps are carried out in the young farm family programs, we feel that we will be reaching more people with the services that extension has to offer than we are now reaching.

New Burley Variety, 'Ky. 9' To Be Available This Year:

A new variety of burley tobacco will be available this year for Kentucky farmers under the name of Kentucky 9.

That's the word from W. D. Valieu, Kentucky Experiment Station plant pathologist. Valieu said it comes from a test

variety known as "Exp. 9." It has good resistance to black root rot, mosaic, and is fairly high in resistance to wildfire.

Valieu said it would compete in disease resistance with Ky. 61 and with Burley 21.

Ky. 9 has a larger leaf than Burley 21, is a good standup variety, but is not quite as high in quality as the latter.

The variety has been in an experimental stage for the last five years; for the last two years. It perhaps would have been released as a variety a little earlier except for the objection of one tobacco manufacturer.

It has been withdrawn, he said.

February Feeding Advised For Lawns:

The months of February and November are important to the home owner who has dreams of green, velvet-like lawns, says N. R. Elliott, Extension horticulturist at the University of Kentucky.

The average lawn needs two feedings a year, he says, the first one being the last week in February before the weed seeds germinate, the second in November, as soon as a hard frost has killed the weeds.

"In my visits to 47 counties in the state last fall, I failed to find a home owner following this plan who was satisfied with his results. Feeding lawns in February and again in November is giving wonderfully good results over the entire state," says Mr. Elliott.

For every 1,000 square feet

of lawn, he recommends the use of 15 pounds of any of the following fertilizers: 8-8-8, 10-10-10, or 12-12-12.

The earlier recommended 5-10-5 is still good if it happens to be available, he said.

As evening distribution as possible should be made of the fertilizer. This may be done by hand from a bucket or pan, or by a small spreader.

Consider Adjoining Rooms In Planning Color Schemes:

Planning to do over some of the rooms in your house this spring?

Then keep in mind the colors in the adjoining rooms as you make your plans, so there will be an attractive combination of colors from room to room.

A source for a color scheme might be a picture in the room, or the colors in the draperies, upholstery, or figured wall paper in a room not being done over.

Take, for example, the figured draperies in the living room as a starting point, where the walls are plain color. In the adjoining hallway the walls might be patterned repeating some of the colors in the draperies. As for the dining room off the hallway, pick up a plain color from the figured hallway paper.

The result should be an attractive coordination of color and pattern from living room to hallway to dining room.

Highway Safety Exposed By Kentucky Homemakers:

Homemakers clubs in more than 75 per cent of the counties in Kentucky stressed safety programs during the past year.

Highway safety was a major project in several counties, state highway patrolmen and other personnel speaking to groups of women. In some instances the homemakers were instrumental in having stop signs placed at dangerous crossings. Manuals of instruction were studied, and

photographic slides shown to reduce accidents.

Several County Safety Councils were established, 4-H Clubs and schools assisted in carrying out safety programs, and safety poster contests sponsored, according to Mrs. Arthur Eversole, County Extension agent.

Chairman of the Kentucky Federation of Homemakers. She reported to the membership at UK Farm and Home Week at Lexington.

BLUE SPRINGS

Mrs. Earl Doan, who is very ill, was in Berea to consult a doctor. A speedy recovery is wished for her.

Mr. and Mrs. A. Railey have returned home after a long stay in Indiana.

This community regrets to lose Mrs. Bernice McClure, who has moved to Mt. Vernon.

Mr. A. Railey attended prayer meeting at Blue Springs Holiness Church Tuesday night.

Mrs. and Mrs. Johnnie Stevens visited Mr. and Mrs. W. T. Stevens Monday night.

Mr. Carson Wiley has returned to the 32-bed Hospital. A speedy recovery is wished for him.

Mrs. May Mink visited Mr. and Mrs. Henry Mink over the week end.

Miss Myrtle Kidwell visited Mrs. Mary Doan, who is ill.

Mr. and Mrs. Johnnie Stevens were visitors of Mrs. Earl Doan Tuesday night.

Mr. Alvin McClure visited Miss Myrtle Kidwell over the week end.

Miss Julia Ann Kidwell was in Mt. Vernon Wednesday doing her Easter shopping.

Bettie Lou and Jones Kidwell visited Judy and Bernice

Doan recently. John Stevens and Conley Phelps were in Mt. Vernon Tuesday night.

Mr. Emil Payne visited his father, Henry Payne, over the week end.

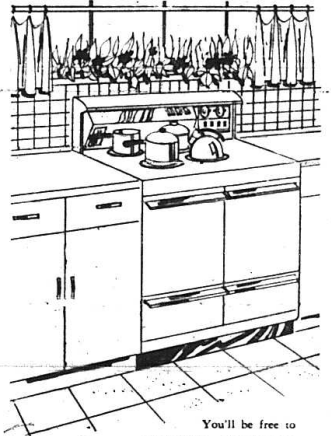

A speedy recovery is wished for Miss Lillian Fletcher, who is in the TB Hospital in London by Mr. and Mrs. Johnnie Stevens and John Lewis.

Mr. and Mrs. Dean Kirby are the parents of a son.

Need more time to spend with the children

Time to change to a Carefree Automatic Electric Range

You'll be free to do anything — go anywhere — with family and friends... when you have a safely automatic electric range. Merely set the time and temperature — electric controls take over — do the cooking and watching while you are away. An electric range gives cleanliness unmatched by any other range.

Be modern — buy an electric range. See your electric appliance dealer.

Rockcastle County Church Directory

neither fly over, under or around, cannot have read these sayings of Jesus very carefully.

If Jesus had seen only the times of darkness he would have been a pessimist. If we follow his lead we shall by faith see not only troubles as a certainty (though what troubles, and when, only God knows), but also we shall see beyond all troubles. Most important, we shall be going around for the last week looking and talking as if He were dead! Martin Luther got the point. God is not dead. — yet how many Christians we see today who, looking ahead, see only the troubles, and not the God of love and wisdom without whom not a sparrow falls. Beyond the troubles too we see Christ coming again. It is not victory between God and evil. It is the future as stretching out endlessly, a never-ceasing battle without victory between God and evil. All that Christ lived and died for will come to pass. Through many tribulations we must enter the Kingdom. Paul said (Acts 14:22).

Trouble and Faith
Lesson for February 22, 1959

IT IS A thousand pities, but it is a fact, that the Christian church, which ought to be united by the Bible, has become split over it. Not split by it, but over it, in varying and discordant interpretations of what the Bible means. No passage in all Scripture has been the subject of more debates and differences than this 13th chapter of Mark, along with the parallel chapters, Matthew 24 and Luke 21.

Dr. Foreman

Faith Outlives Troubles
Jesus did not play down, discount or underestimate what the men and women who follow him may be called upon to undergo. There are many troubles before the End-time, as he pointed out. He used expressions like "the beginning of sorrows" and "the end is not yet." Even in an ordinary Christian's ordinary life, the life of one who dies centuries before the "end of the age," there will come troubles which will be absolutely crushing apart from the help of God. But the point of these apocalyptic chapters on the End is that even though heavens (the universe) and earth pass away, God's people — the men and women of faith — shall not pass away. Look around you. How many are you who are afraid that these things you see in the news are sweeping away? So they will, if God's word assures us. Whether swiftly or by slow degrees as water wears a solid granite, all things visible are destined to decay and destruction. But not all things are visible. You, the real and invisible you, will outlive all destructions. But how? In terror, or in fearless faith?

Faith Expects Troubles
Let us ask for the general bold truth which needs us here, namely the relation of trouble and faith. First of all, as Jesus looks down the years, he does not see the light growing brighter and brighter. At least, he does not see the future with the eye of the undisciplined optimist. He uses some frightening language — wars, earthquakes, famines, "substitution of desolation," tribulation, and darkness as soon as at midnight Jesus came no backing to the idea that if you have faith enough, "all your troubles will be hobbles" as the song says. Some troubles are very solid, they can smash a man and his hopes. No matter what goodness there may be in the world, no matter how good God is, there are going to be troubles ahead. People who give up their faith in God because they run into a equal line of trouble-clouds, which they can

MOUNT VERNON, KENTUCKY

Report Of School Board Released

An old controversy was received last week when members of the Mt. Vernon Independent Board of Education met at the Mt. Vernon School for the purpose of hearing a report by secretary Clyde Livinix concerning his meeting with the Rockcastle County Board of Education the previous night.

The Feb. 3 School Board meeting was "conducted for the purpose of obtaining preliminary suggestions in regard to the possibilities of a merger between the Mt. Vernon School system and the county school system."

A secondary purpose of the meeting was to prepare a press release on the findings of the Independent Board at a meeting with members of the State Department of Education in the latter part of January.

A motion to meet with county school officials and representatives of the State Board of Education to discuss a merger was defeated by a vote of 2-3.

Preston Nunneley and Gordon Graham voted to have the discussion, while Chairman Jack Henderson, D. Bryant and N. M. Smock opposed it. A decision to hold the meeting could have been met with court opposition, since the Board is at a called meeting for a specific purpose and could not legally have passed such a motion. A second vote was expected to be taken at the next meeting.

An edited statement concerning the meeting with the State Department of Education follows:

"The entire board met with Ted C. Gilbert, assistant State Superintendent of Public Instruction, Walter Roschl and Marshall Swain in the Department of Finance. Swain's financial analysis for the past two years and anticipated conditions as of 1957-58 were: June 30, 1957, . . . a deficit in the district of \$3,134.39. June 30, 1958, . . . a deficit of \$3,900.82; and for June, 1959, an estimated deficit of \$9,000."

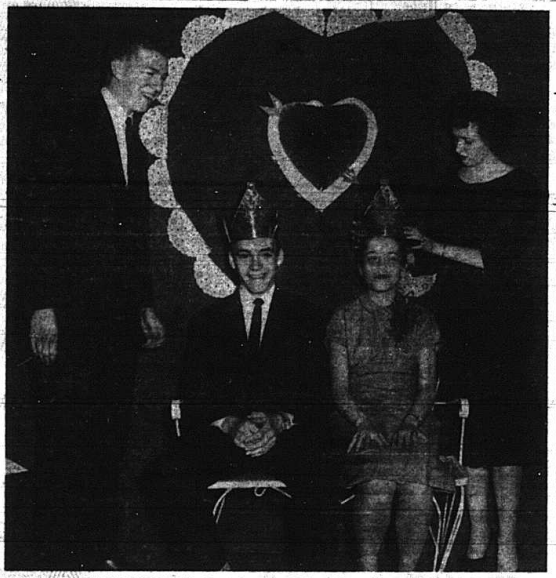

"(The deficit increased annually despite yearly increases in the budget since 1957 of approximately \$3,000. The budget has risen from \$104,145.70 in 1957 to \$110,172.91 in the current fiscal year.)"

"Gilbert stated that it was apparent to the State Department (the district) could not continue to operate on an increasing annual deficit. He outlined three possible plans to remedy the situation."

"The first plan was to raise the assessment of all property located within the independent school district. He stated this would raise county and state taxes as well as school taxes. It was the unanimous opinion of all present that this solution was not feasible."

"The second plan was to submit, by a referendum vote, a special school tax of one cent on five cents per more than 50 cents per hundred dollars, to the voters of the independent school district. This would not affect the present city, county or state tax rates. Gilbert stated that it was his opinion that the maximum amount of 50 cents per hundred would be necessary (here)."

"The third plan was for the (Continued on page 4)

ROYALTY GROWS ROYALTY—Crowning Jim Barton Nunneley and Virginia Rose McEes as King and Queen at the second annual of the First Baptist Church of Mt. Vernon Saturday, are Mason Gregory and Jewell Anderlik. Last year's reigning couple, O. H. and highlights of the Valentine's Day celebration were group singing, contests, solos, and advice to the lovers.

Comment Continues On School Merge Issue

The Signal last week published a story concerning an issue relating to merger of the Mt. Vernon Independent and the Rockcastle County School systems. Also published was a letter from Logan D. Bryant, Mt. Vernon businessman and school board member, opposing such a merger. At that time the Signal invited any citizen to express his views on the subject.

This week the Signal received a letter from Dr. Jack Henderson, another school board member, who also voted against merging with the County Board of Education to discuss a merger. Dr. Henderson in his letter explained his views on the school issue.

"I am in favor of working toward a future merger of the Rockcastle County and the Mount Vernon school districts. However, since we are not holding up a building project by merging at this time I am not in favor of rushing into a move from which we cannot retreat and which has been so clouded with misstatements and half-truths."

"The opinions we have heard from professional educators have been from those who favor merger. We would do well not to plunge until we have had \$120,000 and qualified professional educators

who would explore the facts from the point of view of the other side of this question. WAS 'STATE CASE' VALID? Last week the Signal carried an article listing reasons that the state supposedly gave for merging the system. If that ten point program was from the State Department of Education, then it would seem that they have either changed their minds on the matter or they missed a chance to press for their program. I say this because on the 28th of January, less than a month ago, the Mt. Vernon School Board, its superintendent and its attorney, Mr. John Allen, held a conference in Frankfort with three top officials of the Department of Education. This ten-point program was not mentioned and it would seem that if they had been pressing for merger they would have jumped at this opportunity to sell it to the men who must make this decision.

Another article in last week's Signal points further to the need for competent unbiased advice before taking any steps from which there is no returning. In the introduction to this article there is this statement: "The facts concerning the issue are these": One of these so-called facts is the statement that, "minus 52 students, the Independent School system will have \$120,000 and qualified professional educators

St Clair Urges Farmers To Vote In Referendum

Kentucky's burley tobacco growers have been urged to vote their convictions in the upcoming referendum on the burley price support and acreage control program set by the Secretary of Agriculture for Tuesday, February 24.

Burl S. St. Clair, president of the Kentucky Farm Bureau Federation, has issued a statement, calling upon tobacco growers to turn out in greater numbers than ever before to demonstrate their interest in the tobacco program. Here is St. Clair's statement:

"During the past several months, many of our elected leaders and paid personnel in Farm Bureau have been working hard to protect our burley tobacco program, and to insure its continued success.

"Our efforts have not been in vain. With the help of many other groups interested in the tobacco program, we have been successful in keeping acreages for 1959 about the same as 1958. Progress has been made in building a high degree of unity in support of the program. The most powerful farm organization in the country—the American Farm Bureau Federation—is an official policy in support of the present program.

"Now on February 24, the growers of burley tobacco will have an opportunity to express their views on the program. If two-thirds of those voting approve the continuation of marketing quotas, the support and control program will be continued for three years.

"With attacks on the program coming from many sources, it is more important than ever before that farmers go to the polling places in greater numbers than ever to demonstrate their interest and concern for the program. This will be the individual grower's best chance to convince the critics of the program that the program has the overwhelming support of farmers."

Rockcastle Committee Chairman, Shellie Mullins, pointed out that notices of farm acreage allotments have been mailed to all burley growers so that they may know what their 1959 allotments are in advance of the referendum.

Polling places, which will be open from 8 a. m. to 6 p. m. are: Community A: ASC Office, Mt. Vernon

Community B: Henry Cromer's Store, Blue Springs

Community C: City H A 11, Broadhead

Community D: Willie Lamb's Garage, Conway

Community E: Van Zandt's Store, Orlando.

VET REPRESENTATIVE HERE FEB. 23
D. B. Cook, a contact representative of the Kentucky Disabled Ex-Service Men's Board will be at the Sheriff's Office in Mt. Vernon on Feb. 23, to assist veterans and their dependents with claims for benefits due them as a result of their military service. He will be there from 9 a. m. to 3 p. m.

City Discusses Proposal Of New Revenue Bond Issue

Many Send Returns To Wrong Address

Many taxpayers in Kentucky are sending their Federal tax returns to the wrong address, according to Mr. Wm. M. Gray, District Director of Internal Revenue. He stated that the Department of Revenue, State of Kentucky, has forwarded to his office many Federal tax returns which had been sent to the State Department of Revenue.

According to Mr. Gray this apparent carelessness in addressing returns puts a great deal of additional work on both the State and Federal governments and could result in tax returns being lost or mislaid. It would also delay the receipt of refunds by those Federal taxpayers entitled to them.

Mr. Gray concluded by reminding taxpayers that all Federal returns, except those on which refunds are claimed, should be sent to the District Director of Internal Revenue, P. O. Box 60, Louisville 1, Kentucky. Returns on which refunds are claimed should be addressed as follows: REFUNDS, P. O. Box 1959, Louisville 1, Kentucky.

A proposal of a new revenue bond for the City of Mt. Vernon was one of the chief topics of discussion at the last regular meeting of the City Council last week.

The proposal, which would enable the City Water Works to make needed repairs, to install additional fire plugs where needed, and to install new water lines to various areas, was presented to the Council by Floyd Owens, a member of the water committee.

The proposal was adopted by the council to become a part of the minutes. Henry Cox, Superintendent of City Water Works, was instructed to make an estimate of the total cost.

The proposal included new fire hydrants for US 150, Owens St., I. S. 25 toward Clifford Pittman's property, and new service to the Owens Sub-division and the area behind David McCauley's home.

Estimates were also to be made to include fire hydrants to Locust Street, Fairground Hill, Daley St., Fair St. and Crawford Heights, should these areas be annexed into the city by the current annexation ordinance, which is now in court.

The Council also directed City Attorney Johnny Allen to contact Howard K. Bell, a Lexington engineering firm, to speak to the Council on the sewer problem in a future meeting.

The Council voted to raise the salary of each city policeman by \$22 per month.

Cpl. Ronald Larison Celebrates Anniversary

Marjorie Cpl. Ronald L. Larison, 570 of Mr. and Mrs. Elmer Larison of Orlando, took part in the 18th anniversary celebration of the 2nd Marine Division, Feb. 2, at Camp Lejeune, N. C.

Formed in San Diego, Calif. Feb. 1, 1941, the Division, during the week, held day-long activities highlighted with a full scale parade and special meals in the messhall. The parade's Reviewing Officer was Lt. Gen. E. A. Pollock, USMC, Commanding General, Fleet Marine Force, Atlantic.

Clontz Authors Note On Civil Procedure

Carl R. Clontz, Mt. Vernon, is the author of a research note on rule 8.01 of the Kentucky Rules of Civil Procedure in the current issue of the Kentucky Law Journal. The Journal is published by the University of Kentucky College of Law.

Clontz writes that the Kentucky Court of Appeals is too conservative in its construction of the Rules of Civil Procedure. Clontz, son of Mr. and Mrs. Lovell Clontz, is a second year student in the College of Law.

Airman Miller Is Assigned To AP School

Airman Charles A. Miller, son of Mrs. Vestal E. Miller of Mt. Vernon, has completed basic military training at Lackland AFB, Texas. He has been assigned to a unit of the Air Defense Command at Otis AFB, Mass., for training and duty as an Air Policeman.

Airman Miller is a graduate of Mt. Vernon High School. He was employed as a projectionist by the Vernon Theatre prior to entering the Air Force.

Services Friday For Frank L. Painter

Frank Leber Painter, 77, died at his home in Broadhead Wednesday at 8 a. m. He is survived by two sisters.

Funeral services will be held Friday at 2 p. m. at Broadhead Baptist Church, with the Rev. Arthur Johnson officiating. Cox Funeral Home is in charge of arrangements.

4-H Club Honored At Banquet

The Mt. Vernon 4-H Club was honored by a trip to the 4-H Banquet in Lancaster Tuesday night, February 17.

Those attending were the Rockcastle Extension Agent, Mr. Lee Durham, Miss Martha Owen, Mr. Wayne Vanhook, Mrs. Lucille Hysinger and Miss Alma Pike. The club members from the Mt. Vernon Teenage Club attending were Barbara Witt, Janet Stepp and Charlotte Fain.

The chairman of the state 4-H Club attended and gave a talk on "Helping Others" and "Working Together."

Mr. Conder presented the club with \$10.

The club would like to thank the Kentucky Utilities Company for sponsoring the banquet.

CORNELIUS ENROLLS AT BEREA COLLEGE

Charles K. (Ken) Cornelius, son of Rola Cornelius, Mt. Vernon, is one of 43 new students registering for classes at Berea College the second semester.

Cornelius, a 1956 graduate of Mt. Vernon High School, entered Berea as a sophomore, after attending Western Kentucky State College in Bowling Green. Berea's second semester enrollment of 1,153 is the highest for a second semester in the history of the school.

(Continued on page 4)

Tigers of Broadhead Emerging As County's Top Prospect For Tourney

With Paul Sturgill permanently out of the picture for Livingston's Blue Devils, and with Mt. Vernon still unable to harness a win streak exceeding one game, the Tigers of Broadhead bid to carry the favorites' banner from this county when District tournament play begins 11 days from now.

The Tigers, who will share the upper bracket of tourney play with Livingston, raced to an easy Friday night win here over the arch-rival Red Devils and took a 16 point decision from Hustonville Tuesday night on the home court.

Livingston took advantage of Walter Ballinger's 28 points Friday night at Lily to gain a 57-47 decision over the host team. Paul Fonda's 22 double Blue Devil to break into other Blue Devils, netting 12 mark-

era. Ballinger's 19 points and 12 rebounds netted 14 insufficient the following night as Tyner coasted over an easy 68-43 verdict over the county school.

The Tigers followed the winning example of their "B" team in both outings over the province, with Taylor and Oscar second team's two point wins over the "B" teams of Mt. Vernon and Hustonville, with a convincing 92-56 margin over the Devils and a 60-44 victory over Hustonville.

Livingston led the Friday night massacre in Mt. Vernon with 28 points, supported by Stephens' 24 and Bradley's 12. Wayne Taylor and Oscar Fain led the Devils with 19 and 16 points respectively.

The Red Devils traveled to Berea Tuesday night where their hosts avenged an earlier loss to the local team with a

68-36 rout. Taylor contributed 21 points and netted 14 points for the Devils in the losing venture.

A basketball queen will be crowned tonight between halves of the Livingston-Middleburg game, which marks the Blue Devils' last game en route to the county tournament, while the hoopsters travel Friday night to McKee for their final game of the regular season.

Broadhead entertains Stanford Lincoln at home this afternoon (Thursday), at 7 p. m. Tuesday night at McKee and Friday, Feb. 27 at Wayne County will complete the Friday schedule.

Mt. Vernon visits Stanford Friday night, travels to Somerset Tuesday night, and also to Berea Tuesday night. Friday in a home engagement with Parksville.

CAPPING EXERCISES—Two local girls were among 38 students of St. Joseph Nazareth School of Nursing in Lexington who were given their caps in ceremonies last Friday. They are Joan Maggard (seated, third from left), daughter of Mr. Amanda Maggard, and Julianne Bordes, (seated extreme right), daughter of Mrs. Gillis Creig. The girls are first-year students at the school.

BRODHEAD Personal

LADIES' AID MEET

The Christian Church Ladies' Aid missionary society met at the home of Mrs. W. H. Anderson Thursday evening. Mrs. Anderson carried out a Valentine motif in refreshments. They gave their usual missionary donation this month to the heart fund.

Which Industry Now Batters The Living of 1 Out Of 2 Kentucky Families?

... Here Are Some Surprising Facts About The Trading Stamp Industry

So far, whenever our nation's economy has needed expansion, a new industry has sprung up to help the country go ahead.

The automobile industry, employing millions, was followed closely by the development of radio and radio broadcasting to make more millions of jobs. Then came the airplane industry, air conditioning, plastics, color vision, frozen foods, to change our lives some more.

The trading stamp industry, while not new, belongs to this expansion group and has become one of the fastest growing of all. Today it directly benefits the living of the more than 1 out of 2 Kentucky families who save trading stamps.

Obviously, an industry affecting such a large proportion of Kentucky's population must bring far-reaching benefits for Kentucky's economy. And it does. In 1957

the trading stamp industry bought \$1,064,000 worth of products from Kentucky's manufacturers. In one way or another, it provided employment for 263 Kentucky people in many different industries.

The people in the trading stamp industry, its merchandise and redemption stores, its warehouses and transportation and all the activity that goes on within it are helping to develop Kentucky.

Thus it seems plain that the trading stamp industry along with the 415,300 Kentucky women it serves has become, to other expansion industries, a living, vital part of our State's economy.

This message is published as public information by THE SPERRY AND HUTCHINSON COMPANY, originator 63 years ago of S&H Green Stamps.

FARMERS MUST SPEAK FOR THEMSELVES

A growing number of Americans, it seems, are criticizing the agriculture policies of the Secretary of Agriculture. Not just a few of these critics tend to concentrate heavily on the tobacco price and acreage support program.

The American Farm Bureau, the farmer's largest lobbying agent, has succeeded in keeping burley allotments virtually unchanged for 1959. The farmer has a chance to support the Bureau's actions in the Tobacco Referendum scheduled for next Tuesday.

If two-thirds of all voting growers approve the referendum, the controls will have an effect throughout the 1961 growing season and will insure a support and control program for those three years.

It will not be enough for the referendum to pass by a two-thirds majority of a small vote. In order to convince critics of the farmers' support, the program must have support from virtually every farmer engaged in the raising of burley tobacco.

This is the farmer's opportunity to protect himself from smaller acreage allotments for at least three years, and to insure a price-support program for his crops. If he is not interested to the extent of going to the polls to cast his vote, it will be fuel for the arguments of future critics.

Maybe the Farm Bureau can convince the Washington people next time that the farmers are interested—and maybe they can't. Large organizations for lobbying are good, but the grass roots opinion which makes themselves heard most loudly by the politicians in Washington, and you can bet freely that an overwhelming vote will not go unnoticed in our nation's capitol.

Acreage allotment notices have been sent to all growers. If you are a grower and have received your allotment notice, show your appreciation for it by voting YES in the Referendum Tuesday.

THE SIGNAL CANNOT DECIDE FOR YOU

In this issue of The Mount Vernon Signal is carried an account of a recent school board meeting and the controversial issue that emerged to plant itself once more before the people.

The decision of the Mt. Vernon Independent School Board is one which will affect you, your children, and their children to come. It is a vital decision and, we are sure, one that makes every school board position an unenviable one.

You have seen herein as complete an account as we can give at this time. We have given both sides of the story in unbiased fashion. This is your school board and your school and you have a right to know about their decisions.

Any individual who wishes to express himself through the columns of the Signal is welcome to do so. We ask only that you deal in facts and not in twisted figments of the imagination. This is your issue and you deserve to be heard.

As the headline implies, the Signal cannot decide for you. This is your school and we cannot keep it or merge it for you. If a special vote is called, we cannot vote for you.

The school board will meet again Thursday, Feb. 26. It is there that you can be most effective and most informed. We can give you the facts, we can publish your comments, BUT we cannot decide for you.

find some disinterested qualified educator to present the other side of this question before we decide an issue.

At the Board's conference with State officials the suggestion was offered that we here in Mt. Vernon could enhance the educational opportunities of our children by voting to increase our school taxes and paying for better-than-minimum education program.

The suggested increase of 50 cents per \$100 assessed valuation would mean an increase on my home and farm of only \$39. This property is presently assessed at \$7,800. Using this as a rule of thumb you can see the small amount of additional taxes it would mean to each of you.

It was pointed out that most of the more aggressive communities in our State have submitted to this suggestion to the people for a vote before any decision is made on the merger question.

FAVORS PAYING COSTS
It has been pointed out in the Signal that we are offering an outstanding program in support of our children but that we are having to pay a little extra to get it. I am in favor of keeping this good program in favor of adding others which we need and paying for them. We have become accustomed in our lifetimes to paying for their duties as citizens of tomorrow.

As I see it there has been a concealed slanting of facts toward one side of this question and a great deal of pressure has been applied to merge in a rush. I let us take time to be sure we know what we are doing. Merger is final; the other decision can be changed later.

J. D. Henderson, Jr.

SCHOOL BOARD
(Continued from page 1)

Independent district to merge with the County district."

"Gilbert further stated that in order to obtain the approval of the State Board of Education to exceed the 1958-59 school year budget as previously submitted, it would be necessary for the Mt. Vernon Independent School District to prove to the State that it was acting in good faith in eliminating the operating deficit. He further stated that his department would meet and cooperate with the Independent Board of Education if requested to do so."

Farm Bureau Stops Anti-Tobacco Legislation

Farm Bureau leaders in Kentucky and other tobacco-producing states have just had another demonstration of the value of a general nation-wide farm organization in protecting the interest of farmers.

Early last month, a state senator in South Dakota introduced a bill that would have required all cigarettes sold in that state to carry a skull and cross bones label with the word "Poison" printed on each pack, and the following statement: "The use of this product is not recommended by the State of South Dakota. The use thereof may cause death from cancer or heart disease." Within a couple of days the same type of legislation was introduced in the Utah Legislature.

Tobacco isn't produced in either of these states. South Dakota and Utah farmers seemingly had no objection to the passage of such legislation. But the leaders of the South Dakota and Utah Farm Bureaus in the other tobacco states were quick to respond to pleas for help by the Kentucky Farm Bureau and Farm Bureaus in the other tobacco states.

On February 9, John W. Koon, executive secretary of the Kentucky Farm Bureau Federation sent the following wire to the president of the Utah Farm Bureau: "It has come to our attention that the Utah Legislature has introduced legislation which, if enacted, would be very harmful to tobacco farmers. Anything you can do to prevent enactment of this legislation will be greatly appreciated."

And back came a wire from the Utah president: "You can count on Utah Farm Bureau to oppose House Bill 150 requiring labeling of cigarettes. We are sure it can be defeated."

In South Dakota, the same story prevailed. Farm Bureau leaders in that state were quick to see that the establishment of such a precedent in the labeling of farm products would be harmful to all farmers, and could spread to other farm products. Although the South Dakota bill quickly passed the Senate in following week it failed in the House through the effective action of the Farm Bureau in that state.

COMMENTS

(Continued from page 1)

\$3,500 in operational costs pared from its annual budget." Careful reading of the Minimum Foundation Laws indicates to me that for each 27 students a teacher's salary must be budgeted. Also, the school may budget \$600 for operating expenses—receive. I see it the loss of 52 students would cause a loss of two teachers. Most of our teachers—receive, an average salary of a little under \$3,000, which would pare the budget by two times \$3,000, or \$6,000. The \$12,000, as was stated. Actually, I see no loss to the school from this reduction on the budget, since fewer students indicate a need for fewer teachers.

The reduction of the operating money as a loss, but the amount would not be \$3,500 as was stated for the two class room units, but would be twice \$600, or \$1,200. The experience of a similar-size school at Berea indicates that this and more careful administration of the school plan.

Another point made in this same column was that the State Board of Education has a minimum of tendance requirements of a high school to a figure higher than it would be possible to comply with here. I do not believe this is contemplated in the immediate future for this reason: When the Mt. Vernon School Board emerges with the State education officials, the Board was advised to seek more money with which to run the school or to merge with the County. I believe if there was to have an immediate rule made which would force a merger, then no alternative would have been given. They would have said to merge now. THIS THEY DID NOT DO !!!

SIGNAL IS UNBIASED

I know from a conversation with the editor and publisher of the Signal that this paper does not wish to try to mold public opinion for or against merger. They are endeavoring to obtain the truth on this situation. I am glad that since the Signal apparently had to rely on a biased source for information, it is important that we
