Tractor Accidents Rise

The accident death rate in agriculture as a whole is decreasing, except in the farm tractor category, which seems to be on the increase.

That's the statement of the University of Kentucky Cooperative Extension Service safety department, quoting a National Safety Council report.

Nearly 20 per cent of tractor accidents are occurring on highways, the report says, amounting to nearly 250 deaths each year in this category.

The Service and the Council warn farmers that tractor driving on highways is at best a risky business; that the tractor's relatively slow forward speed is no help to the tractor operator when a passenger vehicle is approaching at high speed,

since the tractor's forward speed does not cut down appreciably the passenger vehicle's necessary braking period; and that the tractor operator usually suffers the most severe injuries.

The two agencies recommend strict planning to cut highway tractor travel to a minimum; proper lighting and flagging of towed devices or vehicles; and confining tractor highway driving to mature, experienced operators.

Beware Of Harmful Home Permanent

Painful eye irritations resulting from the use of a new product, "Fashioned Quick Salon Tested Home Permanent," manufactured by the Richard Hudnut Company, New York, have been reported by the Federal Food and Drug Administration to the Division of Foods and Drugs, Kentucky State Department of Health, Russell E. Teague, M. D., Commissioner of Health, said today.

The Hudnut Company is notifying all retail outlets to remove this product from their shelves, and the public is warned not to buy or use it.

The "Fashioned Quick Salon Tested Home Permanent" kit

contains a "Shampoo Curl Neutralizer" capable of causing painful and severe irritation if it comes in contact with the eyes, according to Samuel Alford, Chief of the Cincinnati District, Food and Drug Administration. The irritation can last for several days. The "Quick" home permanent sold without the shampoo neutralizer is a different product and is not affected by the recall order.

This Democratic Team will help build a Greater Kentucky by helping to build a more prosperous AGRICULTURE!

Farming, the marketing of farm products, and the processing of these items constitute the major industry in Kentucky. The welfare of every citizen in the Commonwealth is deeply affected by State and Federal programs in these areas.

Your Democratic Ticket, alert and aggressive in both Washington and Frankfort, pledges you this 3-WAY PROGRAM OF

ACTION:

- A TICKET PLEDGED TO: • Expand research programs at the U. of K. College of Agriculture and Experiment Station that will pay off in dollars for Kentucky farmers. • Encourage expansion of extension programs to provide new, useful information to farmers. • Strengthen the program of Vocational Education, 4-H Club work and the Future Farmers of America organization to provide our young people with greater opportunities. • Make the State Fair the greatest in the nation and develop a county-fair program equal to those of surrounding states. • Expand technical services to preserve our agricultural resources and to improve production and marketing methods. • Support the Kentucky Department of Agriculture in its service programs. • Develop a balanced marketing program to improve the quality and handling practices of Kentucky farm products and capture new market outlets. "Grown in Kentucky" must become a recognized symbol of quality. • Attract to Kentucky more processing plants that use agricultural raw materials and develop a more desirable balance between agriculture and industry. • Expand the livestock program to realize Kentucky's great potential for this enterprise by increased emphasis on eradicating livestock diseases, completing the Area Brouseiosis Program and providing more services for the industry. • Continue and accelerate Soil Conservation, Flood Control and Water Usage Programs. • Strengthen and reinforce the state Forestry program to capitalize on our greatest renewable resource.

Beware of those who consistently supported the Republican farm program sponsored and administered by Secretary Benson!

Support the party that has consistently understood the needs of Kentucky farmers—the party which has preserved our tobacco program and supported all other basic farm commodities at prices fair to the farmer.

HOMEWORK

Fred spends about 1,000 hours each year in school. When he graduates from high school he will have sat in classrooms for 12,000 hours.

Plus homework Miss Harkins assigned nine pages of science today. Mr. Brent expects a book report tomorrow. And so it goes every school day—every year.

Don't let Fred's crowded school roster worry you. He is getting an education—the fine education every American child is entitled to. Let Fred's empty spiritual roster worry you. He is spending ZERO hours in Church School. He is getting NO religious education. And his tragedy is shared by MILLIONS OF AMERICAN YOUTH.

A new kind of homework is needed. By friendly encouragement, by sincere interest, by the example of our own families in faithful church life—we must inspire the Freds and their parents to take advantage of the spiritual opportunities that America's churches offer.

THE CHURCH FOR ALL... ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four solid reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

Funeral services for Mrs. Nettie Hood will be conducted Friday, Oct. 2, at the Town Hill Holiness Church.

New Land Reserve Laws Told

The Rockcastle County Agricultural Stabilization and Conservation office today announced two important changes in the 1960 Conservation Reserve of the Soil Bank, as follows: (1) Basic annual rates will be established by the same method used for 1959 contracts; and (2) Basic annual rates will be 8 percent rather than 9 percent. The first step in applying for the 1960 program. These changes have been made following enactment of a new law passed shortly before the recent adjournment of Congress and signed by the President Sept. 21. The added time will enable farmers to study the new rate arrangement and determine the advisability of coming into the program. The new law, according to the Conservation Reserve office, removes the legal requirement

The 22nd annual Letter Writing Week will be observed in Mt. Vernon during the week of October 4 to 10, it was announced today by Postmaster James O. Smith.

"I am sure we are all aware that a personal letter is, next to an actual visit, the most intimate and economical means each of us has to communicate with our fellow human beings. Accordingly, I urge everyone to 'write today to those away.'"

Postmaster Smith stated that the special Week should serve as a reminder to write long-overdue letters to servicemen, hospitalized patients, foreign acquaintances, faraway friends and relatives, and others who will welcome a personal letter.

Florists Poll Seeks National Flower

Florists of the nation who belong to the Florists Telegraph Delivery Association are conducting a poll to determine the most popular flower of the nation to become the national flower.

Earl Watkins, Mt. Vernon florist, is participating in this poll. He has a list of 20 flowers in his shop. A list of 20 flowers is on the ballot. There is a page for write in of any flower not named.

Earl said the reason for such a poll was that Congress spent three whole days debating the flower that should become the national flower. FTD stepped in and decided to find out.

Flowers on the ballot which were suggested by congressmen are: Marigold, carnation, geranium, corn tassel, daffodil, thistle, gladioli, golden-walnut, marigold, mountain laurel, orchid, peony, rhododendron, rose, shasta daisy, tulip.

Those who wish to vote may do so at Earl Watkins Florist Shop. There is no charge of gimmick.

RESOLUTION

RESOLVED THAT the Mt. Vernon Fire Department SHALL NOT answer Fire Alarms outside the corporate limits of the City of Mount Vernon. This resolution to be in effect until adequate stationing by equipment is obtained and put into service. Voted unanimously on roll call vote at the regular meeting of the Council, August 6, 1959. ATTEST: Earl Watkins, City Clerk Carl Brown, Mayor

Bob Jasper Has Installed New Feed Mill

Bob Jasper, owner of the Mt. Vernon Produce Company, has installed a feed mill in his present building. He will now be able to grind and mix feed for chickens, hogs and dairy cattle.

Farmers may bring their own grain or hay. Jasper has supplemented and molasses that may be added. Feed can be mixed to the order of farmers. Jasper says that advantages of this grinding, mixing services are that farmers have freshly ground feed, they save money for utilizing their own feed and grain. He says farmers may even buy grain, have it ground and still save money.

Friday was the first day that any grinding had been done in the newly installed feed mill.

Rev. B. B. Isley Baptist Revival Begins Monday

A revival will begin at the Mt. Vernon First Baptist Church Monday, Oct. 5 at 7 p. m. and continue through Sunday, Oct. 11.

Rev. B. B. Isley, pastor of the Lee Street Baptist Church at Danville, Va., will be the evangelist. He is a native of Alabama and a graduate of Howard College in Alabama.

John Cook, a junior at Berea College, will be the song leader. A radio broadcast over WRVK will originate from the audience named "The First" at the church, each week day, during the revival from 11:45 to 12 noon. Immediately after the broadcast each day there will be a covered dish lunch at the church. Many more people will have opportunity to fellowship with the evangelist than would be possible otherwise. Rev. Lee Hopkins, Baptist pastor, said:

The week-of-several-pastors revival will be concluded this Friday night with cottage prayer meetings in the homes of Mr. Steve James Smith and Mrs. Cola Grace Wilson.

Those who wish to vote may do so at Earl Watkins Florist Shop. There is no charge of gimmick.

Bloodmobile At Berea

The Red Cross Bloodmobile will be in Berea Oct. 6 between 10:30 a. m. and 4:30 p. m. (fast time) according to Luther Hilliard, Chairman of the Berea Chapter of the Red Cross Blood Program.

The quota for the bloodmobile has been set at 115 pints of blood. Hilliard urges citizens of Rockcastle County to share in meeting this quota in order to keep up a supply of fresh blood to Berea College Hospital.

Many resident staff Rockcastle County Hospital, as well as for installing and improving irrigation and farmstead water supply facilities. Some of the other water conservation loans, loans to purchase land, and loans to improve the water systems are made from funds administered by the agency.

THE SUPERLATIVE '60 CHEVY

This is the one that says '60 like no other car. From its clean-thrusting grille to its dapper rear deck, there's so much that is new and different about this superlative Chevrolet it stands out from the rest like a fresh-minted coin. And you'll be just as wide-eyed over what's inside—the relaxing roominess, tasteful trim, hushed elegance, all comfortably cradled by Full Coil springs at all four wheels. Yet, sumptuous as this new Chevy is, you'll find new economy of operation, new dependability, new longer life. Here, then, we're confident both you and your budget will joyously agree, is the nearest to perfection a low-priced car ever came!

Here's the car that introduces a whole new decade of design—with so much that's new and different the other ones can only hope to come close. It's the superlative '60 Chevy—with new space inside, new spirit under the hood, new splendor in every clean-etched line.

Freshly shaped contours rake back from the unified new grille to the jaunty rear deck, fitted with craftsmanship you'd expect only on the most expensive makes. Inside, there's room to sprawl in, room to sit tall in—generously provided by Chevy's sofa-wide seats and extra margin of hat space. And there's even more leg room for the man in the middle—thanks to the way Chevrolet engineers have shaved down the transmission tunnel.

Out on the road, as Chevy's Full Coil ride will persuade you most gently, there's not a car near the price that comes close to the hushed comfort of this one. And, adding to your sense of silence and solidity are thicker, newly designed rubber body mounts that do an even more efficient job of filtering out road shock, tire hum and vibration.

Quiet, quick-responding power is provided by a choice of two standard engines—Chevy's famed Hi-Thrift 6 and a new Economy Turbo-Fire V8 that gets up to 10% more miles out of a gallon of regular while delivering greater engine torque at normal speeds.

Chevy's accent on comfort and convenience even tends back to its easier-to-load (and tremendous) luggage compartment. You'll also find a convenient new parking brake that automatically returns to normal height after application, a new clutch linkage that filters

out even the smallest engine impulses more effectively than ever and a trim new two-toning motif that's available on all 16 fresh-minted models.

But, impressive as all this may look in print, there's really only one way to tell how near to perfection this superlative '60 Chevrolet actually comes—and that's to drop in on your dealer and drive one!

QUIET REVOLUTION! ON DISPLAY FRIDAY! HOORAY! SMALL WONDER!

CORVAIR BY CHEVROLET! SMALL MIRACLE! THREE COMPACT CHEERS! FRIDAY!

FRIDAY! ASTONISHING! NOTHING LIKE IT! CORVAIR! SMALL MIRACLE! FRIDAY!

THE REVOLUTIONARY Corvair BY CHEVROLET

There's nothing like a new car—and no compact car like this de luxe Corvair 700.

Here's the car created to conquer a new field—low-priced compact Corvair. The product of nine years of research and development at the auto industry's most advanced facilities, it's America's first truly compact, economical car that retains the ride and 6-passenger comfort you're used to in a big one.

The key to this small miracle: America's first, and only modern rear-mounted aluminum engine—a lightweight 6 that's so revolutionary it can be packaged with the transmission and drive gears as one compact unit.

By putting the engine in the rear, Chevrolet has made the floor practically flat, front and rear. There's plenty of foot room for everybody, including the passengers in the middle.

Shifting engine weight to the rear also makes for smoother, easier compact car handling and gives glued-to-the-road traction on ice, mud or snow. Corvair's size—some 5 inches lower, 2 1/2 feet shorter and 1,200 pounds lighter than conventional sedans—makes it a joy to jockey through busy streets, a pleasure to park (no need for power assists). Its revolutionary Turbo-Air 6 gets up to 30% more miles on a gallon of regular (a real magician on mileage). And, because the

America's only car with an airplane-type horizontal engine! America's only car with independent suspension at all 4 wheels! America's only car with an air-cooled aluminum engine!

The engine's in the rear where it belongs in a compact car!

engine's air-cooled, you never have to fuss with antifreeze, you get quicker warm-up with less wear on parts even on the coldest mornings (even heat for passengers comes quicker—almost instantly—from an airplane-type heater*).

Yes, wonderfully practical as all this sounds, you'll find the most practical thing of all about this new Corvair is its remarkably low price. Your

dealer's the man to see for all the short, sweet details. REVOLUTIONARY TURBO-AIR 6 Gets up to 30% more miles on a gallon, needs no antifreeze, provides quicker warm-up with less wear on parts. CHEV-PACKAGE POWER TRAP Wraps rear engine, transmission and differential together into one compact lightweight unit. Takes less room, leaves you more.

STYLING—PURE AND SIMPLE Clean, uncluttered lines shape both 4-door models—the luxe Corvair 700 and the standard Corvair. Each has its own distinctive trim, and you get more visibility area than in many full-sized cars. FOLD-DOWN REAR SEAT Works easily, instantly, adding to Corvair's versatility by enlarging rear seat cargo space to 17.6 cu. ft. FLAT FLOOR Corvair is America's only compact car with a practically flat floor, the only one with the kind of relaxing room that U.S. motorists are used to. UNIBRIST BODY BY FISHER Does away with conventional frame, incorporating all structures into a rigid body-frame unit that gives you more inside room with less weight. UNDER-HOOD LUGGAGE COMPARTMENT Frank's up front (like an elephant's) where it's convenient for groceries, luggage. WHEELS INDEPENDENT SUSPENSION There's no conventional axle—front or rear. Wheels, cushions by coil springs, take bumps independently of each other, for smooth, road-hugging ride. *Optional at extra cost

LAND RESERVE

(Continued from page 1)

his basic 1950 rate and where the change will result in a different rate, the farmer will be notified and will have an opportunity to submit an application for a contract on the basis of his new rate.

Another recent program change that may affect some farmers in this county permits a contract with a land owner where a tenant leaves a farm voluntarily and the owner finds it necessary to take over the operation. Originally, a farm which was operated by a tenant or sharecropper in 1958 or 1959 could not be placed under a 1960 contract unless a tenant or sharecropper was designated to share in the payment.

The purpose of the Conservation Reserve program, Mr. Mullins explained, is to bring about the withdrawal of cropland from production, helping to adjust total crop acreage more nearly in line with needs. Lands placed in the reserve may not be cropped or grazed and must be protected with a conservation practice.

A basic per-acre rate is determined for each farmer who requests it. The farmer may offer land and apply for a contract at any figure below that

basic rate. In case funds are insufficient to permit acceptance of all applications, priority in accepting offers will be based on the rate at which the farmer offers his land.

Farmers who have not previously requested a rate determination but now believe that the program will be of interest to them should visit the county ASC office as soon as possible to obtain full information, Mullins said.

Mrs. Grant Banks is spending a few days in Cincinnati, Ohio, with her husband, who has resumed his position there, sister, Mrs. Ola Baker, and Mr. Baker.

A SERVICE of distinguished character
... at a price that vary as greatly as
... needs.

Mrs. Howard and I wish to thank the nearly 600 who attended our opening. People started arriving before we were open and were still coming in at 10 p. m. Saturday night. This proves to us that there is interest in this venture for this section.

If anyone did not get to visit us, stop by any time. Except in case of emergency, there will always be someone here. Come in, sit down, look around - just make yourself at home. As we told you, we will always be open. You may come when you choose, go when you choose and sit with your loved ones as long as you like.

We had so much favorable comment all day Saturday from ladies expressing their pleasure at the idea of Mrs. Howard handling feminine cases.

Thanks again for coming. It is always a joy to us to meet kinfolk and friends. We like to meet people, talk to old friends and make new ones. Our phone No. is 65 Brodhead. If no answer call EL5-2241 Crab Orchard and reverse charges.
