Build a cleaning closet to save, and in most homes, such a closet steps and time: Does your home will save you many steps, and have a special cleaning closet? in most homes, such a closet Keeping all cleaning equipment can be built at a small cost. together in a well-organized Locate the cleaning closet in closet will save you many steps, a central area where it will be

handy to all rooms. You may want to plan a smaller closet upstairs to hold duplicates of often-used, smaller equipment; this will save trips up and down the steps.

The cleaning closet should be from 18 to 24 inches deep and about 36 inches wide. Measure the equipment that will be stored here; leave plenty of room for everything that will be waste space. Some items you may want to store here are: vacuum cleaner and attachments, brooms and dustpan, mops and pail, cleaning cloths, cleaning supplies in bottles and cans, household tools, step stool, ironing supplies, and extra dining table.

If you wish to store the ironing equipment here, allow space to fit your ironing board; a folding board usually needs a space 63 inches high. The section for brooms and mops should be about this same height and 18 to 24 inches wide; store them on clamp hangers to keep them off the floor.

Two large shelves may be helpful - the top one within easy reach for you and the lower one just above the lowest equipment. A series of smaller shelves hooks and racks down the sides can be spaced to hold supplies and smaller pieces of equipment in a place for everything will save time and keep the closet neat. Adjustable and removable shelves will be handy as your storage needs change.

Use wardrobe-type doors on the cleaning closet so you can open them wide to remove equipment. Ventilate the doors with louvers or holes at the top and bottom. Lining the door with pegboard to hold hooks and small shelves will give extra space for storage.

Inside walls finished with washable enamel or plastic will be easily cleaned and resistant to oil. Keeping the floor clear also will be an aid in cleaning the closet. Here is a safety tip for this closet - store oily rags in tin boxes or cans as a precaution against fire.

Some Accidents Will Be Avoided In 1960

Several Kentucky families will have a happy instead of a tragic 1960, says the State Department of Public Safety, because during the year these things will happen that will not make the headlines.

A driver will glance at his speedometer, realize he is driving too fast for conditions, ease his foot off the accelerator—and be able to stop in time to avoid a child or elderly pedestrian.

A youngster will dart out from a driveway or from behind a parked car. An approaching driver will stop in time to avoid hitting him, because he remembered his own boyhood and has trained himself to expect the unexpected.

A driver will encounter deep snow and ice conditions. However, he will be able to get through safely and on time because he was prepared with a set of tire chains in the trunk.

and spared 10 minutes to put them on. He saved a life—his own.

A pedestrian will start to cross against the light—remember—and wait. A man will drink a final highball, realize his condition, and hand the car keys to his wife.

A walker, about to walk on a rural highway, will return to the house to get a flashlight.

A driver will ask his gas pump man to check windshield wiper arms for adequate pressure to keep off snow and let him see. He will see in time—his child running to greet him.

Yes, several lives will be spared. Several people will be with us next year who would not have been here—had these people failed to think and react sensibly.

FOR MANY YEARS
A Symbol of Security, A Helping Hand. In This, Your Hour of Need.

DR. P. G. BRETT CHIROPRACTOR TAKES FEAR FROM DISEASE

The science of chiropractic seeks to explain the HOW and WHY of health or sickness in the individual, to patients, and by understanding fear and mastery are no longer bugbears. Because all motion, sensations and activities of the body depend on mental impulses, chiropractic research has been devoted to establishing a positive knowledge concerning these impulses.

We know for example that no muscle has power to move itself without first receiving a mental impulse. All glandular action depends on a normal supply of mental impulse. However, the constant, free flow of energy can be obstructed and cause abnormal function of some organ. A slight pressure on a nerve trunk may stimulate it to over action, a greater pressure may paralyze or slow the action.

Where does this pressure exist—when it does? It exists where the nerves leave the spinal column in small bundles. To correct that condition by scientific examination and to adjust these vertebra OFF of the pinched nerve has produced miracles in restoring health.

NOTICE OF ORDINANCE GRANTING FANCHISE TO KENTUCKY UTILITIES COMPANY

The following is a true and correct copy of an ordinance, as enacted on February 4, 1960, by the City Council of Mt. Vernon, Kentucky, creating and defining an electric franchise, and authorizing the purchase and grantee of which was Kentucky Utilities Company.

Dated: February 4, 1960

Earl W. Watkins, City Clerk, Mt. Vernon, Ky.

AN ORDINANCE No. 261

THE CITY COUNCIL OF THE CITY OF MT. VERNON, ROCKCASTLE COUNTY, KENTUCKY, DOES ORDAIN AS FOLLOWS:

SECTION 1. That Kentucky Utilities Company, the purchaser and grantee of this franchise, hereinafter called, and its legal representatives, successors and assigns, hereinafter called the "purchaser", be, and is, subject to the terms hereinafter contained, hereby authorized and empowered to acquire, purchase, construct, maintain and operate in and through this City, a system of works for the generation, distribution and transmission of electrical energy from points either within or without the corporate limits of this City, to this City and the inhabitants thereof, and from and through this City to persons, corporations and municipalities beyond the limits thereof, and for the sale of such energy for lighting, power and other purposes; to erect and maintain poles, wires and apparatus necessary or convenient for the operation of said system in, upon, across and along each and all of the streets, avenues, alleys and public places, within the present and future corporate limits of this City; to have and hold, by law authorized, any and all real estate, easements, water and other rights necessary or convenient for said purpose; to use any and all such streets, avenues, alleys and public places while constructing or operating said electric system; and to cross any and all streets and streams in this City for the purpose of installing, maintaining or extending said poles, wires and other apparatus as may be necessary or convenient for the proper distribution of electric energy in and through this City. If, after any pole has once been erected, the Board of Trustees shall order the removal of said pole to another location, the City shall pay the cost of such relocation, unless due to widening, regrading or reconstruction of the street or highway, in which case the purchaser will reimburse at its expense. In any extensions of the present distribution system, additional poles shall be placed under the supervision of the Board of Trustees.

SECTION 2. The purchaser shall indemnify and save harmless the City from any and all damages, judgments, decrees, costs and expenses, including a reasonable attorney's fee, which the City may legally suffer or incur or which may be legally obtained against the City or by reason of the use and occupation of any street, avenue, alley, or other public place in the City by the purchaser, pursuant to the terms of this franchise, or legally resulting from the exercise by the purchaser hereunder of the privileges here granted; and if any claim shall be made or suit brought against the City for damages alleged to have been sustained by reason of the occupation of any street, avenue, alley or public place or the exercise of any privileges herein granted, by the purchaser, the City shall immediately notify the purchaser in writing thereof, and the purchaser is hereby given the right and privilege to defend or assist in defending such suit, in the name of the City.

SECTION 3. The purchaser may furnish electricity for light, heat, power and other purposes to any person or persons residing along or near the streets, avenues, alleys and public places, and may make such lawful contracts for the use thereof as may be agreed upon between the purchaser and the said person or persons.

SECTION 4. The purchaser shall extend its electric light or power lines and install additional equipment whenever it is assured to it from additional business to be derived therefrom a reasonable return upon the investment required to install such extension.

SECTION 5. The purchaser shall have the right to make and enforce reasonable rules and regulations necessary to the proper conduct of its business and protection of its property.

SECTION 6. The purchaser shall have the right to charge for electrical energy supplied within the City, rates that are reasonable and that are subject to regulation by the Public Service Commission of Kentucky.

SECTION 7. This franchise and all rights and privileges granted hereunder shall be in full force and effect for a period of twenty (20) years from and after the date when this franchise is granted to the purchaser.

SECTION 8. This franchise may be transferred by the purchaser and the word "purchaser" whenever used in this franchise shall include and apply also to all the successors and assigns of the purchaser.

SECTION 9. As additional consideration for the grant of this franchise, the purchaser shall pay to the City an amount equal to 3% of the gross revenue received by the purchaser, on and after January 1, 1960, or on the date when this franchise becomes effective, whichever is later, from electric service rendered within the corporate limits of the City to customers supplied under residential and commercial revenue classifications, as now defined in the Company's system of accounts and reported to the Public Service Commission of Kentucky. The amount payable to the City for each full calendar year during which this franchise is in effect, shall be computed on the basis of revenues received between January 1st and December 31st of such year, and the amount shall be made on or prior to March 1st next following such December 31st; the amount which shall be payable to the City for a portion of a calendar year at the commencement or termination of the term of this franchise shall be computed on the basis of revenues received during such portion of a calendar year, and shall be payable not more than 60 days after the termination of the period for which payment is made. Should the amount payable under this section be less than the total tax or other tax, charge or fee except ad valorem taxes be now or hereafter imposed, the amount payable under this section shall be payable only to the extent that it exceeds the sum of all such taxes, charges or fees.

SECTION 10. It shall be the duty of the City Clerk, as soon after the date of the execution of this ordinance, to sell at public auction, to the highest and best bidder, all of the franchises of the City Hall on some day to be fixed by him after advertising the proposed ordinance and the time and place of sale thereof once a week for three consecutive weeks in The Mt. Vernon Signal, Mt. Vernon, Kentucky, and in making the sale he shall receive no bid for less amount than the total expense connected with the making of said sale, including the cost of advertising, and he shall report his actions hereunder to the Board of Trustees of this Board of Trustees. This Board of Trustees reserves the right to reject any and all bids.

ATTEST: Earl W. Watkins, City Clerk Carl Brown, Mayor

IT'S FUN-TASTIC

STEP IN IT—STEP OUT IN IT

Get the quiet proof of Chevrolet's superior performance on the road—No other car in the low-priced three can match the borne-on-the-wind sensation you get from a ride in the 1960 Chevrolet. But that's not surprising when you consider to what lengths Chevy has gone to provide for your comfort at no extra cost to you. As you drive, count the ways Chevrolet has been thoughtful:

- Supple Full Coil suspension**—Coil springs at all four wheels melt bumps as no other suspension can. Taking the punch out of rough roads in their only function—they don't have to anchor the rear axle.
- Butyl rubber body mounts**—Thicker, newly designed body mounts further insulate you from the road.
- Body by Fisher**—Only Chevy in its field offers the polish and craftsmanship of Body by Fisher.
- Foam cushioned seats**—Chevy offers foam cushioned seats in both front and rear in all series but one.
- Safety-Girder frame**—X-built and not merely X-braced, the Safety-Girder frame affords greater rigidity to minimize twisting and squeaks.
- Hydraulic valve lifters**—Oil hushed hydraulic valve lifters reduce engine noise to a whisper.
- Cushioned steering shaft**—A universal joint and cushioned coupling keep those annoying road tremors from the steering wheel.
- Precision balanced wheels and tires**—Here again Chevy has shown concern for your comfort by eliminating vibration in this vital area—tire life is longer, too.
- Easy steering ratio**—Chevy's high ratio Ball Race steering takes the work out of steering for you.
- Superior weight distribution**—Chevy rides better, handles better and stops better because the car's weight is more equally divided between the front and rear wheels.
- Wide choice of power teams**—Choose from 24 different power combinations to satisfy the lightest driving foot—more than any other car.

Now—fast delivery, favorable deals! See your local authorized Chevrolet dealer!

Evening Service (Every Saturday) 7:00 P. M.

THE KEY - and the OPEN DOOR

One of the disturbing discoveries of life is that the truth one man cherishes seems a mystery to another.

But is that surprising? We live in a world of doors and locks. To the man with the key a door opens. To another it remains closed.

Among the keys to spiritual truth is one called HUMILITY. It accounts for many of the millions who worship God every Sunday in the churches of our land.

An American President once said, "I have been driven many times to my knees by the knowledge that my own strength, and that of all around me, was insufficient for that day."

He ruled a nation divided. But neither Blue nor Gray ever questioned the humility of the man who signed his name, "A. Lincoln."

Not only the portal, but the Truth of God's House, is every Sunday an Open Door to humble men!

THE CHURCH FOR ALL - ALL FOR THE CHURCH
The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four main reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake; (2) For his children's sake; (3) For the sake of his community and nation; (4) For the sake of the Church itself, which needs the moral and material support. Plan to go to church regularly and read your Bible daily.

WE SALUTE THE BOY SCOUTS

This year marks the 50th anniversary of the Boy Scout organization in America.

A Boy Scout troop was organized in Mt. Vernon last fall by Wesley Smith who made several trips to Somerset taking necessary training to instruct and lead a Scout troop.

A Cub Scout troop is in the process of being organized. Mrs. James Mullins has volunteered to be a den mother. Lewis Denver Nicely is Cub Scout master.

Everybody seems to be in favor of the program which is carried on by such zealous individuals and organizations. There is only one item lacking—time, at least that is what many leaders say when they are requested to devote a portion of their energies to Boy Scout leadership activities.

J. Edgar Hoover has commented on how infrequently juvenile delinquency occurs among boys who have spent one year in Boy Scout work.

We laud the work that has been done in the field of Scouting here and hope that more assistance can be found for the leaders we now have. They are and have been contributing a needed service to our community. Their task would be lighter and more enjoyable if they had more workers who had time and energy to devote to youngsters in the community.

Patient's Register

Admissions

Luther "Pete" Hurley, Lamer, James Smith, Mt. Vernon; Fannie Holbrook, Brodhead; Nancy Anna Hiatt, Mt. Vernon; Dorothy T. DeBorde, Somerset; Phyllis Shivel, Brodhead; Martha Holsing, Mt. Vernon; Anna Bell Holsing, Mt. Vernon; George A. Chaney, Mt. Vernon; Wendell S. Parkey, Mt. Vernon; Sibyl Sowler, Mt. Vernon.

Births

A boy, Archie Lee, to Mr. and Mrs. George M. DeBorde, Feb. 4.

Aluminum Production In Ohio Valley

Easy access to eastern and western Kentucky coal makes a major asset in future development of aluminum production in the Ohio Valley.

So says Lt. Gov. Wilson W. Wyatt. In an address to Covington Elks, he said another asset was availability in the valley of water for power and navigation.

With this potential, Wyatt said, conditions are right for northern Kentucky to become the center of a major aluminum producing area. Conservative forecasts call for a 400 per cent increase in aluminum produc-

tion in the U. S. by 1975. The lieutenant governor has already announced Kentucky plans to obtain a larger share of the nation's growing economy.

"I will make it my chief business to get the various government departments together in efforts toward economic expansion," Wyatt said.

The state administration's industry-promotion program includes:

Construction of a research center at Lexington, election-law reform, financing of a state industrial-development foundation to aid in industrial financing, and geological mapping.

New Subscribers

The following new subscriptions have been taken at the Signal Office during the past three weeks: Charles D. Burton, Brodhead; Stewart Parsons, Wildie; Mrs. Jo Ann Sayers, Brodhead; Margie Brock, Enterprise, Ala.; Mrs. Myrtle Smith Barger, Brodhead; W. C. Bradley, Mt. Vernon; James E. Hammons, Mt. Vernon; Jack Allen, Covington; Charlie Thompson, Willalla; Eugene Hayes, Mt. Vernon; Champ Crawford, Crab Orchard; W. W. Brock, Richmond, Ind.; Mrs. J. P. Callahan, Franklin, Ohio; and Lillie Decker, Mt. Vernon.

PENSION LAW (Continued from page 1)

to veterans. (Where there are a widow and children the corpus of the widow's estate only will be considered. Where there is a child, or children, only the corpus of the estate of the child or children will be considered.)

Q—In order to compare the new system with the present one, what is the amount of pension a single veteran may receive now?

A—At present any World War I, World War II or Korean

conflict veteran if he is single and drawing a pension receives \$66.15 a month—unless he is 65 years of age or older, or has been on the pension rolls 10 years, in either of which events he draws \$78.75. Those who become blind or so helpless as to require the regular aid and attendance of another person, receive \$135.45 per month.

Q—Now what will single veterans receive under the new system after July 1, 1960?

A—The new system is planned to relate the amount of pension, paid to the need of the pensioner. Thus a veteran without dependents may receive a pension of \$85 a month if his annual income is not more than \$600; \$70 a month if his income is above \$600 but not more than \$1,200; and \$40 a month if his income is more than \$1,200.

Q—What pension does a veteran with dependents receive at present?

A—He receives the same amount of pension as the single veteran gets. His only advantage is that he may continue to draw the pension if he has an annual income as high as \$2,700. The single veteran cannot draw a pension if his annual income exceeds \$1,400.

Q—How will the veteran with dependents fare under the new system?

A—A veteran with one dependent may receive \$90 a month if his annual income is not more than \$1,000; \$75 a month if his annual income is more than \$1,000 but not more than \$2,000; and \$43 a month if his annual income is more than \$2,000 but not more than \$3,000. If his annual income is more than \$3,000, he receives nothing.

Q—What about the veteran with more than one dependent?

A—A veteran with two dependents may receive monthly pension payments of \$95, \$75

and \$45 in the same three income ranges noted above. A veteran with three or more dependents may receive monthly payments of \$100, \$75 and \$45 in those income ranges.

Q—What will the new system do for veterans who require regular aid and attendance of another person?

A—Under the new law all pensions will be increased by \$70 a month for veterans who require regular aid and attendance.

Q—There is talk of increased eligibility for widows and children under the new pension law. How many will be affected?

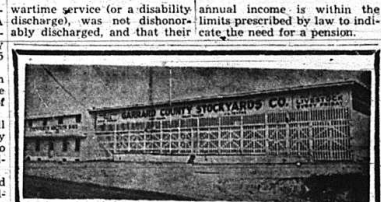

A—The VA estimates that approximately 200,000 widows and children, survivors of veterans who died after serving in World II and the Korean conflict will become eligible for pensions after July 1, when the new system goes into effect.

Q—Don't they receive pensions under the present law?

A—Only if they can show that the veteran had a service-connected disability when he died.

Q—But the widows and children of deceased World War I veterans do not have to prove any service-connected disability to obtain a pension, do they?

A—No, they do not. And after July 1, survivors of World War II and Korean conflict veterans, like survivors of World War I veterans, will have to show only that the veteran had 90 days of
