My Mom's modern clothes dries ELECTRICALLY

More and more modern mothers are drying clothes the safe, clean, fast electric way. Electric clothes dryers are cheaper to buy... cheaper to maintain... and cost only pennies per load to operate. You save dollars instead of pennies—up to \$50 alone on the purchase price. You save dollars on upkeep too, because electric dryers have fewer operating parts than flame-type dryers. And... you save clothes because electric drying heat is clean, gentle and safe. Clothes look better—last longer when dried the modern way... electrically.

Enjoy carefree washdays... dry clothes the modern way... electrically.

James T. Vanhook Burial At Elmwood

James T. Vanhook, 83, died on his birthday, Oct. 9. Born at Pine Hill the son of William and Ellen Vanhook, deceased, he was a resident of Mt. Vernon and a member of the Church of the Nazarene. He was a veteran of the Spanish American War and a past master of Knights Temple.

His first wife Nannie Wells preceded him in death in 1955. Survivors are his wife, Mrs. Martha Vanhook; one daughter, Miss Wanda Vanhook of Richmond; two sons, Wayne of Level Green and Glen of Highpoint, N. C.; four brothers, Charlie Vanhook of Sparks, Chap. Ind.; Lark Vanhook of Lexington; Frank Vanhook of Stanford and Millard Vanhook of Wood Bond; Ind.; three sisters, Mrs. Dasha Eiland of Cincinnati, Ohio; Mrs. Ruth Maybray of Stanford; Mrs. Anna Shanks of Cincinnati, Ohio; two grandchildren two great-grandchildren and 13 stepchildren.

Funeral services were conducted Tuesday at Sparks Chapel, Bro. Willie Griffith officiating. He is interred in the Mt. Vernon Cemetery. Burial was in charge of arrangements.

Vernon Bussell Killed In Wreck

Vernon Lee Bussell, 37, was killed Oct. 8 in an auto accident 1.8 miles south of Mt. Vernon on the Chestnut Ridge Road at 1:50 p.m. Sunday. He is the fourth fatality this year in Rockcastle County. State Trooper Hail reported that Bussell had been riding in an auto driven by Albert Daryl Griffin, 24, of Mt. Vernon.

Griffin told Trooper Hail that he hit a chug hole in the road and lost control of his vehicle. The vehicle traveled down the road about 100 feet with only two wheels on the shoulder of the highway for a distance of 60 feet. In crossing it turned around and struck a tree on the passenger's side of the bus. The door was torn off and Bussell thrown out.

He was taken to Rockcastle County Baptist Hospital and pronounced dead.

Trooper Hail reported that at this same time last year Rockcastle County had recorded a total of 13 traffic fatalities. This year only four are recorded, to date.

Griffin has been charged with driving while under the influence of intoxicants.

Bussell was born in Rockcastle County, the son of Tom Bussell of Mt. Vernon and the late Oona Deatherage Bussell.

Survivors include three sons in Ohio; three sisters, Mrs. Ruby Bostic, Mrs. Ruth Cotton and Mrs. Justine Hale, all of Mt. Vernon; three brothers, Harold and Delbert, both of Dayton, Ohio, and Bobby of Cincinnati, Ohio; his grandmother, Mrs. Mary Mink of Burr and several other relatives.

Funeral services were conducted Oct. 11 at Cox Funeral Home here. Lee Hopkins is officiating minister. Interment was in Chestnut Ridge Cemetery. Cox Funeral Home was in charge of arrangements.

Matt Mullins is in Louisville to consult a doctor.

The first Rockcastle County Farmer's Businessman's banquet was held at Roundstone Grade School Oct. 7 at 7:30 p.m.

A banquet of this type has been held at Berea for the past 35 years. It is for the purpose of furthering good will and public relations between farmers and businessmen.

The banquet was sponsored this year by the Soil Conservation Agency. Plans are for the banquet to be an annual event.

Clay Colson, soil conservationist in Rockcastle County, called the meeting to order. Roy C. Brown gave the invocation. Entertainment was provided by the Cash Quartet.

Robert Snodgrass welcomed the businessmen on behalf of the farmers. Dr. Jack Henderson responded for the businessmen.

Kenneth Stewart introduced the speaker. T. J. Woods, vice-president of Proctor and Gamble, addressed the group.

William Wallace Alcorn Dies At Nursing Home

William Wallace Alcorn, 89, died Oct. 8 at the Skidmore Nursing Home in Mt. Vernon. The son of William and Mary Jenkins Alcorn, he was born in 1871 in Rockcastle County. He was a farmer and a retired Baptist minister, having been ordained in 1900.

He was a member of the Oak Hill Baptist Church and the Masonic Lodge at Mt. Vernon. He is survived by his wife, Mrs. Mattie Alcorn of route 2, Mt. Vernon. His first wife, Eliza McGuire, preceded him in death 25 years ago. Three daughters and one son also preceded him in death.

Other survivors are three daughters, Mrs. Louretta Robinson of Cincinnati, Ohio; Mrs. Ethel Ray of Lexington, Ohio; two sons, Archie Alcorn and Herman Alcorn, both of Dayton, Ohio; 31 grandchildren, 64 great-grandchildren and six great-great-grandchildren.

Curtis H. Rogers Visits In Rome

Curtis H. Rogers, storekeeper, second class, U.S.N., of Broadhead, is serving aboard the attack aircraft carrier USS Independence operating with the Sixth Fleet in the Mediterranean area.

The carrier recently visited Rome, Italy, where her crew was offered the opportunity to see the 17th Olympic Games and receive a Papal audience.

Beginning Bands To Organize

Classes for beginning band students are being organized at the High School band room; Livingston - Thursday, Oct. 20, at 7 p.m. at the High School.

Students who show musical aptitude have been sent letters. However, any other interested student should attend the meeting with their parents to discuss starting the program at this time.

This meeting is to determine the number of students who will be in the beginning band; due to difficulties in class scheduling it is hardly possible to start a new group each year.

So interested students should be encouraged to enter this year. Adams stressed.

Pine Seedlings Given School Children

This is the first time a project of this type has been tried out in the state. Lt. Governor Wilson Wyatt reported that the success of this project was being watched to determine whether it would be carried out in other counties or not.

The short-leaf pine, commonly called "yellow" pine are adapted to the soil in this first cutting for pulp wood.

In a demonstration which seedlings will not survive, for some they will not survive, they said. While planting they should be carried in a bucket of water trees in one day. They should with a little dirt mixed in.

Two Ex-Cons Nabbed In Truck Theft

Two men who were released from LaGrange Reformatory Monday were arrested Tuesday shortly after a truck was stolen at the post office at Big Hill and then wrecked.

They were nabbed on grand larceny charges when Glynn Berry, 25, Big Hill and Joe Berry, about 35, Rockcastle County. The truck, owned by Roy Lee, Big Hill, was found wrecked on Blue Lick Road. Berry and Abrams were picked up about 100 yards from the scene.

Madison County Deputy Sheriff Charles Turner said both men had been drinking and that high speed caused the wreck.

Berry had been serving time for grand larceny and Abrams had been in prison on a forgery conviction, Turner said.

Ernest Baker Injured Fatally

Ernest "Tommy" Baker, 25, died Oct. 11 at a Lexington Hospital after receiving injuries on a construction job at Richmond. He was struck on the head after a scaffolding board which he was standing reportedly broke. He fell some 14 feet.

The son of Henry "Short" Baker of Rockcastle County and late Lona Cook Baker, he was born in Rockcastle County in 1935.

Survivors are his wife, Mrs. Hazel Baker and a six-month-old daughter, Edith Caroline; of Orlando; his father, four sisters, Miss Zelma Baker of Roundstone, Miss Hazel Baker and Mrs. Isabelle Cotton, both of Hamilton, Ohio, and Mrs. Nancy Ann Mullins of Dayton, Ohio; two brothers, J. B. Baker of Roundstone and Ed Baker of South Carolina, three half brothers, Fred Cook of three Links, Brutus and Virgil Cook, both of Hamilton, Ohio; his grandmother, Mrs. Sarah Croucher of Clima.

Funeral services were held Thursday (today) at graveside at Johnette-Bro. Bill Hamilton of Berea officiated. Interment was in Johnetta Cemetery. Cox Funeral Home was in charge of arrangements.

Western Auto Store Changes Ownership

Estil Hodges of Halls Gap near Stanford is the new owner of the Western Auto Store at Mt. Vernon.

Hodges purchased the store from Wesley Smith, formerly of Westley Smith, former owner. He has spent two weeks in a company training school. In the midst of taking inventory at the present time, plans to hold a grand-opening around the first of November, he reported.

For the past 22 years Hodges has been a general store keeper. He has also been postmaster for the past 10 years.

His wife, Alice, teaches English and Latin at Menard High School at Waynesburg. They have two sons, Tommy, 14, Jerry, 11, and one daughter, Jennie Sue, 13.

A member of the Baptist Church and a Mason, Hodges is in Johnetta Cemetery. Cox Funeral Home was in charge of arrangements.

NEW BOOK SHELVES are being made for the Rockcastle County Library at Mt. Vernon by Phillip Davis and Glen Cary in the above picture.

Funeral Today For Benjamin H. Allen

Benjamin Harrison Allen, 67, died Oct. 11 at Berea College Hospital. He was born Jan. 6, 1893 in Rockcastle County, the son of Samuel and Sennie Large Allen, deceased.

Mr. Allen was a member of Maple Grove Baptist Church, a lifelong resident of Rockcastle and a farmer-trucker by occupation.

Survivors are his wife, Cassie Anglin of Broadhead, route 3; three daughters, Mrs. Alza Kirby of Covington, Mrs. Oakley Collins of Livingston and Mrs. Rose Gregory of Pine Hill; five sons, Solie of Covington, Virgil of Richmond, Ind., Sam of Indianapolis, Ind., Ed of Pine Hill, Junior of Covington; three brothers, Jack Allen of Covington, Ebb Allen of Hamilton, Ohio, Ernest Anderson of Brush Creek; 40 grandchildren, six great-grandchildren.

Funeral services were conducted Thursday (today) at Maple Grove Baptist Church. Burial was in Maple Grove Cemetery. Sparks Funeral Home was in charge of arrangements.

Promoted To Sp-4

Ronald W. Overbay, son of Mr. and Mrs. Omer Overbay, Route 1, Mount Vernon, recently was promoted to specialist four in Germany where he is a member of the 37th Artillery.

Specialist Overbay, assigned to the artillery's Service Battery 8 Schwabach Hall, entered the Army in June 1959. He completed basic training at Fort Knox and arrived overseas last April.

Postal Transportation Changes

Mail volume in the Mt. Vernon area contributed to a new national record of nearly 64 billion pieces of mail, including a billion pieces of parcel post, and during fiscal year 1960 ending last June 30, Postmaster James O. Smith said.

Based on advance information from the Annual Report of the Department, which has been made available to Postmaster Smith, the present day figures represent an increase of 25 percent over the 1959 volume which totaled 50.9 billion pieces.

This increase, along with a sharp discontinuance of mail-carrying trains in recent years, has helped foster a complete revolution in postal transportation including far more extensive use of highway vehicles, he said.

Today, 85 percent of the vast postal vehicle fleet is operating under a modernization and improvement program initiated in 1954 - is composed largely of new types of standard, commercial, light-weight, maneuverable vehicles. This conversion, he noted, has meant the "retirement" of worn out units - many in use for ten years or more - which, in turn, has greatly reduced maintenance costs for the Postal Service.

"Red Devils" To Play Eminence, Friday

The Mt. Vernon High School football team, "Red Devils", have a game scheduled with Eminence Friday night at 8 p.m. at Mt. Vernon.

Eminence lost to Berea 13 to 14 sometime ago, according to Mt. Vernon Coach Bill Singleton. Eminence has several colored boys on their team, who, coach Singleton reports, are watching for their fast tactics.

The "Red Devils" should be in top physical condition for this game, Singleton said. There are some new players on the team who will give a lot of action. Come out and cheer these young boys to a victory, he added.

pared with 115 similar purchases during fiscal year 1953. The motor vehicle inventory recorded on June 30, 1960, was 1,890, Postmaster Smith said, and although the 1960 statistics are not yet in final form, it is estimated that more than 34,000 new vehicles have been purchased since fiscal year 1954 and that with the retirement of old vehicles the inventory total on June 30 of this year was just a little under 37,000 vehicles.

"Other figures in the preliminary 1960 report reveal that the post offices which now have motor vehicle service available total more than 6,800 while the corresponding figure for fiscal year 1959 was 2,433. The total miles traveled in fiscal year 1960 is estimated to be more than 400,000,000 as compared with approximately 200,000,000 in fiscal year 1953.

Advance reports clearly indicate that this part of the mechanization program will be handled at a much faster rate than in the past. The use of trucks which have undergone extensive installations of two-cylinder mailsters and four-cylinder mailers and have been found to be highly satisfactory. The advance reports clearly indicate that more than 5,700 mailsters already in operation, it has been estimated that each one saves the taxpayers a net of \$300 a year." Postmaster Smith also pointed out.

CONCRETE is the pavement that is not flexible
... gives maximum strength with minimum thickness!

Modern concrete for Kentucky's Interstate 65 south of Elizabethtown

Interstate System highways like Kentucky's Route 65 pictured here call for a pavement that is solid and unyielding.
Concrete's beam effect distributes wheel weight over large areas of subgrade, reduces spot pressures. Strength of material-not mass-carries the load, permitting minimum-thickness pavement.
Concrete's highway department chose concrete for this important stretch of Interstate System highway. Necessity for multiple strata construction of 2 to 3 times greater total depth was avoided.
Strength with minimum bulk is possible, of course, because concrete isn't flexible. It supports and spreads the load like a beam. Pressures on the subgrade stay permanently within safe limits.
And concrete's design efficiency assures low maintenance costs in years ahead. In fact, maintenance costs will be as much as 75% lower than for asphalt. Only concrete enables engineers to design highways to last 50 years and more.
You can see why engineers and taxpayers agree that concrete is the preferred pavement for heavy-duty highways-especially on the new Interstate System.

POSTAL TRANSPORTATION
(Continued from page 1)
ed out that there have been literally scores of organizational and operational changes during this seven-year improvement program and that one of them is directed toward the more efficient and more economical operation of the Post Office Department.
Some of the more significant of these are: Decentralization of postal operating management out of the Post Office Department in Washington, D.C. by setting up 15 regional headquarters offices; adoption of modern business accounting and financial procedures; utilization of the latest types of electronic machines; elimination of hand-prepared checkbooks and others, at each post office by making payments from regional offices with estimated net savings of \$20,000,000 a year; introduction of new concepts of personnel management for the benefit and welfare of more than half a million postal employees, including both training programs for promotions and safety programs to reduce on-the-job accidents.

THE GREATEST SIXTY-ONEDERFUL CHEVROLET

Here's the car that reads you loud and clear—the new size, you-size '61 Chevrolet. We started out by trimming the outside size a bit (to give you extra inches of clearance for parking and maneuvering) but inside we left you a full measure of Chevy comfort. Door openings are as much as 6 inches wider to give feet, knees, and elbows the undisputed right of way. And the new easy-chair seats are as much as 1 1/2 inches just right for sitting just right for sitting.

Once you've settled inside you'll have high and wide praises for Chevrolet's spacious new dimensions in the Sport Coupes, for example, head room has been upped as much as 2 inches; and there's more leg room, too—front and rear. Chevy's new trunk is something else that will please you hugely—what with its deep-well shape and bumper-level loading it holds things you've never been able to get in a trunk before.

Yet, generously endowed as this car is with spaciousness and clean-etched elegance, it holds steadily to all the thrifty, dependable virtues Chevrolet buyers have come to take for granted. Your dealer's the man to see for all the details.

There's never been a trunk like it before! The floor's recessed more than half a foot and the loading height is as much as 10 1/2 inches lower.

INTRODUCING THE '61 CHEVY BISCAYNE 6
the lowest priced full-sized Chevy with big-car comfort at small-car prices!
Chevy's new '61 Biscaynes—6 or V8—give you a full measure of Chevrolet quality, roominess and proved performance—yet they're priced down with many cars that give you a lot less! Now you can have economy and comfort, too!

SHOW ON WORTH! CHEVROLET

NEW '61 CHEVY CORVAIR

More space... more spunk and wagons, too!

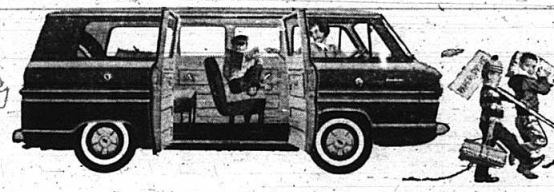

The newest car in America: the CORVAIR 700 LAKEWOOD 4-DOOR STATION WAGON.

CORVAIR 700 CLUB COUPE. Like all coupes and sedans, it has a longer range fuel tank.

CORVAIR 700 4-DOOR SEDAN. Provisions for heating, ducts are built right into its body by Fisher.

Here's the new Chevy Corvair for '61 with a complete line of complete thrift cars. To start with, every Corvair has a budget-pleasing price tag. And Corvair goes on from there to save you even more. With extra miles per gallon... quicker-than-ever cold-start warmup so you start saving sooner... a new extra-cost optional heater that warms everyone evenly. Riding along with this extra economy, more room inside for you, more room up front for your luggage (sedans and coupes have almost 12% more usable trunk space).

And our new wagons? You'll love them—think they're the greatest thing for families since houses. The Lakewood Station Wagon does a man-sized job with cargo, up to 68 cubic feet of it. The Greenbrier Sports Wagon you're going to love to see—it gives you up to 175.5 cubic feet of space for you and your things.

Corvair's whole thrifty lineup gets its pep from a spunkier 145-cu.-in. air-cooled rear engine. Same rear-engine traction, same smooth 4-wheel independent-suspension ride. See the polished and refined 1961 Corvair first chance you get at your Chevrolet dealer's.

Spare tire in the rear in coupes and sedans—leaving more luggage space up front.

Even middle-seat passengers sit pretty, thanks to Corvair's practically flat floor.

Now in production—the GREENBRIER SPORTS WAGON with up to twice as much room as ordinary wagons (third seat optional at extra cost).

LET THERE BE LIGHTS

To get a 13 or 14-hour workday from your hens, use artificial lights beginning now. You'll make more money because the hens will lay more eggs during the winter when egg prices are highest.

Use an automatic timer to turn the lights on in early morning and have the lights come on at the same time every day. Of course, the hens will need plenty of feed and water.

Use one 40-watt bulb in a cone shaped reflector to each 200 square feet of floor space. Don't expect immediate results from lights but in 2 or 3 weeks you should begin getting more eggs.

LAST CALL FOR MAKING FALL PLANT BEDS

If tobacco plant beds are to be made this fall, it is time to start preparation.

Break the ground while the soil structure is good, the soil warm, and while the weather is favorable. The ground should be plowed during the first part of October.

Plow the plant bed site two to three weeks before treating to kill weed seed.

Plowing the land brings the weed seed in the soil to the surface and exposes them to light, air, and higher temperatures—conditions favorable for germination. Weed seed thus exposed are more easily killed than if the plowing is done at the time of treating.

Burning, steaming or use of chemicals are all satisfactory methods of preparing plant beds in the fall as well as in spring. Fall preparation is good insurance for plants in the spring.

CULLING THE BROOD SOW HERD

Get rid of: Poor pig producing sows. Sows without pig-raising instinct. Non-breeding sows. Sows with fewer than 12 udder sections—6 on a side. Sows with physical deficiencies, such as spalled udder sections. Sows lacking sufficient size. Also lardy-type sows. If, she won't pay, why keep her?

ROSES, MUMS, BULBS

NEED ATTENTION NOW

October is the time to give some attention to your flowers, especially chrysanthemums roses and bulbs.

Now is the time to plant bulbs for early flowers next spring. Tulips should be

planted if moles are not troublesome. Also—plant Jonquils and crocus. Take care to plant them right side up, look at each bulb carefully to make sure which end is the top.

After frosts have killed your chrysanthemum plants, cut and remove all dead tops. Mums, like almost all plants, need feeding. If available, poultry droppings applied in December will supply good food. If you plan to use commercial fertilizer, wait until spring to apply it.

Now is a good time to cut the tops off hybrid tea roses, leaving them about 18 to 24 inches tall. This prevents the tops from swaying in the wind this winter and working the much away from the plant stems. Do not feed these plants now as this might cause late growth that would be killed during the winter.

Trim the long, new canes of climbing roses to the trellis to prevent their injury by winter winds. Any dead wood in climbing roses should be cut out during the winter. Use long-handled clippers and heavy gloves as this is a difficult job.

draperies for your living room? Trying to decide where your daughter should go to college? Looking for a speaker for your next club meeting? Your County Extension Home Demonstration Agent can help you.

Many persons think the home demonstration agent works only with 4-H Clubs and organizing Homemakers Club groups. Although much of her time is spent working with these groups, she has many other services to offer you as a homemaker.

If you and some of your neighbors are especially interested in some home economic subject or have a special problem, she will be glad to meet with you as an unorganized group—to teach the material you need. She also holds meetings open to all women in the county on subjects of special interest, such as family relations, child care, clothing, family nutrition, weight control, or home furnishings.

The home agent, being a college graduate in home economics, is qualified to give information and help to anyone on any home economics subject. This is part of her duties. She welcomes your calls or visits to her office (the local county Extension office) when you have a problem. She also will visit your home, if you wish, to help you work out the answer to a question.

As a representative of the University of Kentucky Cooperative Extension Service, she has available the facilities of the University to help her—and you. If she cannot answer some special question, UK specialists can assist her. If you need a speaker for some event, usually she can arrange for one from UK or talk to your group herself.

METALLIC ZINC PAINT FOR HOUSE GUTTERS

GALVANIZED ROOFING

The zinc coating gradually weathers off of galvanized iron gutters and roofing. This leaves exposed metal to rust. This metal can rust through in a comparatively short time. When rust shows on the metal, it's time to brush or spray on metallic zinc paint which usually gives 10 years of service. Zinc paint should contain about 80 percent metallic zinc dust and 20 percent zinc oxide in oils for good results.

Zinc chromate paints are also good for protecting galvanized roofing and house gutters.

Brush off all loose rust particles before beginning to paint. Apply the paint with a new brush, as an old stubby brush may spread the paint too thin in spots.

These plans are for homes and farm buildings suitable for Kentucky. The cost of plans is negligible and we have plans in all price ranges. Come by the Extension Office for more information about these plans. If you don't have good plans you won't have much of a building.

SOIL TESTING NEEDED NOW

Checking soil, to determine nutrient needs, is like checking the gas tank in your car to see if you've got enough gas to make her go. Checking the soil with a soil acids test tells you if you've got enough plant food to make the plants go.

Fall is the ideal time for soil sampling. It's easier to get good representative soil samples in autumn. The soil is usually drier and easier to handle in the fall and a better composite sample for testing usually results. So, let's get busy on the soil tests.

FROST AND HOUSE PLANTS

Most house plants have been out all summer. Some of them should now be brought in for the winter and the rest should be junked. Scraggly and ill-formed plants are not worth house room. Better enjoy a few nice house plants than to spend the winter nursing a large number of diseased or ugly ones. Bring them in several days before frost and water them. If you report if necessary and spray for insects and diseases.

COOPERATION SCORES ON THE PARTY LINE, TOO

The frequently unsung hero of a football game is the blocking back. He is the fellow who makes it possible for the flashing runner to get away and score that touchdown.

While it doesn't require as much energy on the telephone party line, cooperation pays equal dividends. By using the line sparingly everyone gets a bigger share of better telephone service... including you. Try it yourself and see.

CLASSIC FORD LOOK

Here's how the '61 Ford takes care of itself... the first 1961 car dealer warranted for 100,000 miles on one full tank.

Lubricates itself. You'll normally go 30,000 miles without a chassis lubrication. Cleans its own oil. You'll go 4,000 miles between oil changes with Ford's Full-Flow oil kit.

Guards its own muffler. Ford mufflers are double-wrapped and aluminum as ordinary mufflers.

Adjusts its own brakes. New Truck Sire adjust themselves automatically.

Protects its own body. All vital underbody parts are specially processed

to resist rust and corrosion, even to galvanizing body panels beneath the doors.

Takes Care of Its Own Finish. New Diamond-Lustre Finish never needs wax.

Warranty. The '61 Fords are built to meet three principal goals: finest quality, greatest durability, most beautiful exterior. Expressing their complete confidence that this has been accomplished, Ford Dealers told the industry in extending their warranty on '61 Fords to 12,000 miles. First year, whichever comes first.
