Elect Cecil Shepherd

For Jailer

As the election day, May 23, draws near I feel that I may not be able to see and talk with all of you in person about your vote in the Jailer's race. A vote for Cecil Shepherd means a vote for a man that is interested in the people and county. I think I have proved this for the past seven and one half years that I have worked for the County on the roads and at the Commodity House.

I have done everything I could to help the people in sickness and in all their needs.

If elected your Jailer I will keep a clean jail, feed good, treat the prisoners as they should be treated. I will be the Jailer and my wife will be the cook. My name will be 7th place on the ballot.

To the CITIZENS Of Rockcastle County

As the primary election draws near, I wish to thank my many friends for their loyal support in this campaign, and for the encouragement that you have given me. I stated in this paper some of the things I will work for if elected to the legislature. I will work for these things and others that are good. I think our people, county, and state need these to become laws. If you should see fit to send me to Frankfort, my record will be one of a man working for the people who I am to represent. I promise you when I return my record will still be that of a sober and Christian man, and one of honest, hard, aggressive work.

You people of Rockcastle County know me well as I am privileged to serve you as County Judge. You have been in contact with me daily, and know of my interest for your benefits. As I have stated before, it will be impossible for me to visit each of your homes, and see you personally due to the duties of the office of which I must attend for you and will continue to do so.

I ask and plead with each and all of you good people to stand by me in this race, by giving me your support and vote. Beware of false rumors that may appear to make me unfit to serve you. If you should hear of such, I ask that you inquire of me personally or of anyone who knows the facts of my life, for I am a clean, honest, sober, Christian man. My life and record is open to the public, as I have nothing to hide or be ashamed of. Thanking you for your support and confidence.

To The Voters of Rockcastle County
This campaign is fast growing to a close. I have been in many of your homes and visited with many more of you on the streets. I find the people of this county overwhelmingly in favor of me for the office of Jailer.
It is my intention, when I am elected to render the very best service of which I am capable. I shall protect all of the county property as the Jailer is required to do by law. Moreover, it is my intention to employ a janitor for the courthouse and jail thereby giving a position to some man who needs a job.
Please continue to support me in this race and I will be forever grateful to you.

BULLETIN:
Chemical "policeman" in today's Super Shell guards against gum-fouled carburetors —to give your car top performance

One special ingredient among the nine in today's Super Shell gasoline is a gum preventive.
Like a policeman dealing with a mob, it works to keep unstable elements from clotting together. Hence no gum problem. Result: top performance.

IMAGINE an ingredient so effective that only one thousandth of an ounce is enough to treat a gallon of gasoline.
This tiny drop is all today's Super Shell needs to stave off gum troubles that can hamper your car's performance.
Gum forms when even the purest gasolines are held in storage. Unstable elements in the fuel combine chemically with oxygen and with each other. The latter is what scientists call polymerization (a good thing if you want to make plastics, but not if you want top performance from your gasoline).
Shell tackles the situation with a special inhibitor that is designed to keep gum from forming.

Where the trouble strikes
Gum usually ends up on sensitive carburetor parts, where it can foul the automatic choke and raise hush with a car's air-fuel mixture.
Too rich a mixture can waste gallons of gasoline. Too weak a mixture can burn valves. Either way, gum troubles cost money.
In extreme cases, gum can even stick your intake valves. This means a rough and noisy engine—lost power—and perhaps an expensive repair job.
To say that Super Shell's chemical "policeman" protects your pocketbook is an understatement.

How the "policeman" works
Shell's special anti-gum ingredient is an oxidation inhibitor. It helps keep unstable elements in the gasoline from sticking together—just the way a skilled policeman prevents trouble by keeping a crowd from forming.
As a result your engine is cleaner—for maximum power, maximum mileage. All of which adds up to top performance.
This is just one of the special jobs done by the 9 ingredients in Super Shell to give your car top performance. You owe it to your car to learn what each of the others can do for you, too.

#2 is TCP for power, mileage and longer plug-life
Today's Super Shell now contains an even better version of this famous additive. Its name is cresyl-diphenyl-phosphate.
TCP's additive can give your car up to 15 per cent more power; up to 17 extra miles per tankful; and can make spark plugs last up to twice as long.
New TCP does this by neutralizing certain effects of combustion deposits. It is scientifically formulated to keep them from glowing when hot—a major cause of power loss. Also from diverting your spark—a major cause of "missing".

#3 is "cat-cracked" gasoline for power with a purr
This is petroleum that has actually cracked under 900-degree heat and catalytic action. Its heavier molecules have been shattered into lighter ones.
The result is a super-octane ingredient that makes your engine purr with power the moment you put your foot down.

#4 is Alkylate, noted for knock control in hot engines
Jimmy Doolittle helped pioneer

Shell's Doolittle, pioneer

#5 is anti-knock mix for extra resistance to knocks
You might think that two high-octane ingredients are enough for knock-free performance. But Shell's scientists have ears like musicians.
They insist on adding a special anti-knock mix. A mix, so effective, one teaspoon per gallon can boost anti-knock rating by five points.
This mix has the tricky job of regulating combustion so that Super Shell gives each piston a firm, even push—rather than a sharp blow which would cause a knock.

#6 is Butane for quick starts on cold mornings
Butane is so eager to get going that Shell keeps it under pressure 400 feet below ground to stop it from vaporizing by itself. It takes eight million dollars worth of platinum catalyst for Shell to produce Platformate. But fortunately this precious stuff can be used over and over again.
The platinum re-forming process, which gives Platformate its odd name, converts petroleum into super-energy components—such as benzene, xylene and toluene.
These three alone release 11 per cent more energy per gallon than 100-octane aviation gasoline. This is energy that shows up as extra mileage.
Test Super Shell for yourself
Try Super Shell next time you fill up. You'll soon feel and hear a difference in the way your engine runs. That difference is top performance.

#7 is Pentane mix for fast warm-ups on cold days
Pentanes are made by tearing gasoline apart, much as you split kindling to start a log fire.
In this case, the "logs" are petroleum's heavier hydrocarbons. A special process transforms their molecules, from slow-burning "logs" into the quicker-firing "kindling".
KEY RESULT: Fast warm-up and top performance in a hurry.

#8 is an "anti-icer" to check cold-weather stalling
Super Shell's formula is adjusted up to eight times a year to beat the weather. For example, whenever the temperature is likely to be less than forty-five degrees, a carburetor anti-icer is added.
Why add anti-icer at forty-five degrees? Because, even then, frost can form in your carburetor just as it does in your refrigerator. It can stall your engine.

#9 is Platformate for extra energy, more mileage
It takes eight million dollars

To The Voters Of Rockcastle County

Sometime ago I announced as a candidate for Jailer. I am the son of the late Tom and Laura Sowder Taylor. My father served you as Magistrate of the first district for eight years. I am 55 years old and a life long Republican. I am married to the former Julia Allen and have four children.

I don't have any job, just a hard working man. I am strictly sober and willing for anyone to check my record. If you will elect me as your jailer I will serve you to the best of my ability. If you can't vote for me, please try to vote for sober men. We don't want any more whiskey nor men to tip off the bootlegger.

I will appreciate anything you do for me. Yours for a better place to live.

TO THE VOTERS OF ROCKCASTLE COUNTY

ELECT CARLO "HACK" SAYLOR FOR SHERIFF

I wish to take this opportunity to announce myself as a candidate for Sheriff of Rockcastle County. Having served as a member of the Rockcastle County Board of Education for twelve years. I feel that most of you know me and that I know most of you and that I am interested in you and your problems.

I have lived in Rockcastle County all my life. I have five living children, two of whom are in school at Brookhead. I have one son in the U. S. Navy, one son attending the University of Kentucky and a daughter who works for the Department of Justice in Washington, D. C.

I have not chosen my deputies because I feel that I will be in a position, if elected, to choose two good men who will be subject to me provided they fail to do their duty. I believe that deputies announced in advance of the election feel they have been chosen by the people and as a result are not subject to the sheriff with whom they made the race. If elected I will employ a lady to work in the office and to answer the phone. This person will be paid by me not by the tax payers. I believe this action will create a better atmosphere for the many women who must come to the office.

If elected I promise you an honest, sober, and efficient administration.

A Reminder To The Voters of Rockcastle County

W. B. 'Uncle Bill' Hammond

As the election day draws near, I may not get to talk to all the voters personally, but as you know, you have fifteen men to choose from in the Jailer's race. There are still many voters that are undecided as to whom they will vote for. There is still time left in which to decide who you want for your next jailer. All I ask is that you give this matter careful consideration.

I have lived in Rockcastle all my life and never voted anything except a straight Republican ticket. I have raised fifteen children, the youngest is now old enough to vote. I have always worked hard to support my family. Last year I had to leave the state to find employment. I am getting too old to have to seek employment out of state. I have been unemployed since November and have no income, not even a tobacco base.

This is my first time to seek any office and if I am elected I will make this county as good a jailer as it has ever had.

After reading this article, if you think I'm the man that needs the job just vote for the third man on the jailers ticket.

Your vote and influence will be highly appreciated.
