TO THE MT. VERNON SIGNAL AND READERS:

Since I have recently sold my furniture business and the building housing it, I sincerely thank you for your patronage over the past 20 years. Mt. Vernon and Rockcastle have been good to me and to my family. Not being much of a glad-hander I haven't always said, "Thank you!" at the time but I do say it now to all of you!

To our customers of many years standing: the teachers who instructed our children, to the neighbors who showed such kindness to Mrs. Griffin after her first fall near their home: to all doctors, nurses and attendants who have so faithfully and kindly attended her since. Nor should my insurance people be overlooked for their courtesy and long-suffering. There are too many to name, people have sent cards and greetings and flowers to Mrs. Griffin, and called in person!

I can't put a home, a business and play dominoes 6 hours daily with Anne (Mrs. Griffin). Mrs. Jenny Hansel and Orvil Renner have been serving our home very efficiently. Now that Mr. A. D. Ponder and his wife, Margaret have bought the business, I can devote full time to the all-important one of playing dominoes with Anne.

She is now a patient in the Rockcastle Baptist Hospital. She says it is the very best place to be next to home.

J. F. GRIFFIN & SON

P. S. Call at our late office building with the name A. D. PONDER upon the front window. She will be teaching in Livingston School. They are nice folk, citizens of the type our country needs. They are family people, too; four children.

P. S. Thanks to the Mt. Vernon SIGNAL for keeping us informed, instructed, advertised and amused

1961 Burley Crop Needs Care

The 1961 burley crop in Kentucky has been under "heavy stress" -- heavy rains, delayed growth, and diseases -- and therefore calls for careful supervision during the curing period. That's the warning from Ira Massie, UK Ag Extension Service tobacco specialist. Because of the stresses, farmers may be handling green, immature tobacco. And that type can cause curing trouble. For information on curing weather, Massie says, the state has been divided into seven "curing regions." Radio stations in these areas have been asked to broadcast special curing information (humidity, etc.) every day during the curing season. The districts are: Western, Western Coal Field, South Central, North Central, Bluegrass, Southeastern, and Northeastern. Massie emphasizes that curing includes the whole range of physical and chemical changes. Steps or stages include wilting (in field or barn), yellowing, coloring and drying. The process should be in that order. And he adds: "Remember, burley is an air-cured product." Curing is so important that a farmer can "make or break" his profit margin to a large extent in the curing process. Here are tips for curing this year's crop, which is well on its way to becoming a "problem" crop due to lateness of some crops, adverse weather, and poor soil condition in the growing season. Cut tobacco when plants are ripe. Rip burley shows a distinct yellow color in the top-most leaves of the plant and has a flecked appearance. The leaves are brittle and snap when folded between the fingers. Cut tobacco should be put in (Continued on page 4)

BRODHEAD SCHOOL HAS MOST PUPILS

Goodbye, vacation! Hello, school! These statements were in the minds of most students Wednesday as the long trek back to school got underway in Rockcastle.

Latest figures show 718 enrolled at Mt. Vernon Grade and High School Wednesday. Of these, 446 enrolled in elementary school and 272 in high school. This figure is 50 above last year.

A total of 845 enrolled at Brodhead Grade and High School Wednesday--250 in high school and 595 in elementary school. About 30 more pupils are expected to enroll, giving Brodhead virtually the same number of students as last year.

At Livingston Grade and High School, 479 enrolled Wednesday with a few more expected. Of these, the high school has 210 and the elementary school 269. A total of 92 enrolled in school on the first day last year.

Monday and Tuesday the teachers were busy discussing (Continued on page 4)

Nelson Named KU Manager Here

W. O. Nelson of Danville has been named as Kentucky Utilities Company service manager here at Mt. Vernon. H. W. Niemeier, KU district manager, announced at Danville this week.

The promotion is effective September 1.

Mr. Nelson has 13 years' service with KU in the Danville district in line and service work. He is a native of Washington County, Mo. and Mrs. Nelson and their three sons, Donald, 12; David, 8, and Michael, 6, plan to move to Mt. Vernon soon.

Both Mr. and Mrs. Nelson have been active in the First Baptist Church in Danville. He has been chairman of the deacons, associate superintendent of the Sunday School, Sunday School teacher, president of brotherhood and chairman of the finance committee; and Mrs. Nelson has been Sunday School teacher and member of the W. M. U.

Mr. Nelson is a member of Franklin Masonic Lodge 28 and Chapter 4 at Danville. He is charter member of the Danville Optimist Club and a member of the Danville Electrical Board. He served in the U. S. Navy during World War II.

Mr. Niemeier, who made the announcement, is retiring as manager of the Danville district which includes Mt. Vernon, Danville, Harrodsburg, Lancaster and Stanford.

Mrs. Agnes Owens Buried At Lancaster

Mrs. Agnes Mae Owens, 82, of Lancaster, and formerly of Mt. Vernon, died Aug. 26 after a long illness.

She was the daughter of the late William and Matilda Meadows and a member of the Beech Grove Baptist Church.

She was preceded in death by three brothers: J. T. and John Meadows of Mt. Vernon, and Wheeler Meadows, of Junction City. She is survived by several nieces and nephews.

Funeral services were conducted Monday at Sparks Funeral Home Chapel with The Rev. J. William Hall officiating. She was buried in Lancaster Cemetery.

Rockcastle Reservoir Meeting Scheduled

A public hearing on a proposed Rockcastle River reservoir will be held September 19 at 7:30 p. m. at the Courthouse at Mt. Vernon, according to an announcement by the Army Corps of Engineers.

In 1959 Congress asked the engineers to investigate and report on the advisability of improvements on the Rockcastle River in the interests of flood control, navigation, hydroelectric power, and related purposes.

The area affected by a dam on the river includes Rockcastle, Laurel, Pulaski, and Jackson Counties.

The engineers asked federal, State, County and municipal representatives of commercial, industrial, highway, civic, railroad and hydroelectric power production.

Need for additional sources of water supply for domestic, industrial development, irrigation and abatement of pollution.

Recreational opportunities that will be afforded by a reservoir.

Effects of a reservoir on the Cumberland National Forest.

Effects of a reservoir on property values and on the local economy.

Effects on existing and proposed local, state, and federal highway systems.

Effects on the Louisville and Nashville Railroad facilities.

To what extent the state, county, and communities be willing to participate in the cost of construction of the dam and reservoir.

The public is urged to attend the meeting.

Signal To Be 8 Columns Wide

Beginning with the September 3 edition, the Signal will have a new look -- the first such change in this century.

On that date the Signal will be increased from seven columns wide to eight columns wide.

Several reasons prompt the change, according to Elmo Anderkin, publisher.

For some time the Signal has been unable to use all news from its correspondents and other contributors because of increased advertising. To continue this would discourage several pieces and newswriters.

Mr. Anderkin explained that in order to increase the number of columns on the same size sheet of paper, it will be necessary to reduce the width of each column from 12 picas to 11 picas. This will increase the overall page width of the printed matter about one inch, thereby increasing space in the entire newspaper by one page.

Another change will be made (Continued on page 4)

FOOTBALL PRACTICE began in earnest at Mt. Vernon High School this week as the Red Devils prepared for their first encounter of the season against Perryville, conference champion, at Mt. Vernon at 8 p. m., Sept. 8, working a two-on-one play under the eye of Coach Larry Travis are Lee Childress, Wayne Norton and Gordon Berry. Watching, first row, from left, Lee Price, Billy Price, Douglas Rickles, Tommy Hodges, Wayne Berry (assistant coach), Billy George Griffith, Nick Williams, Paul Fletcher and Mickey McNew. Second row, from left, Bentley Hansel, Shannon Hallard, Jerry Makin, Sammy Ford, Gary Coffey, Roy Martin and Joe Mullins. Some players were absent when the picture was taken. A formal picture of the entire team will be taken at a later date.

tical heat.
Watch weather carefully to
determine when to open or close
side ventilators. Remember: In
cool weather temperatures inside
the barn may be 10 degrees
lower than outside, due to
evaporation and air circulation.

Hang tobacco from highest
tier to lowest. Don't put newly
cut tobacco underneath tobacco
already partly cured; this may
cause reddening of the leaf.
A rule of thumb on ventilators:
Generally one should open
ventilators two hours after
sunrise and close them two
hours before sunset.

Bulk tobacco as soon as it
is cured, to prevent darkening
of the leaf. Research has shown
that the longer cured tobacco
is left hanging on the rails, the
more likely fading or damage
will develop.

SIGNAL CHANGES

with the next edition. In the
future, names of correspondents
from the various areas of the
county will be noted at the end
of their news in this manner:
(Mary Jones, correspondent.)
This will give correspondents
credit for their time and work,
and allows residents in the various
areas to know to whom they
should report news items of a
social, personal, or other
nature.

"We begin these changes with
the hope that the Signal will
continue its growth and use-
fulness, and at the same time
increase its news and adver-

ting value and readability,"
Mr. Anderkin concluded.

SCHOOL ENROLLMENT

(Continued from page 1)

Miss Nella Bailey, James
Ingle, and Claud Taylor, of the
State Department of Education,
Frankfort, got the school year
off to a good start with talks.
The program for the day was
as follows:

Paction Parrett, president of
the county teacher's association,
presided, with secretarial help
by Mrs. Jean Gregory.

The invocation was given by
Larry Johnson, pastor of the
Wildie Christian Church. Mr.
Parrett then gave a summary
of the school organization, fol-
lowed by group singing led by
Laura Ruth Durham and Margie
Wilcox, and accompanied on the
piano by Carolyn Sue
Gregory.

Lunch was served to those
present following addresses by
Miss Bailey and Mr. Taylor.
Following an afternoon address
by Mr. Ingle, announcements
were made by the administra-
tive staff.

Tuesday, teachers in the four
larger schools met for a more
detailed discussion of schedules
and work loads at their respec-
tive schools. Rural teachers met
for the first discussion at the
Board of Education Building at
Mt. Vernon.

Thursday, most classes got
underway at all schools.

Wage-Hour Changes Effective This Month

Employers in this area were
reminded today that Amend-
ments to the Fair Labor Stan-
dards Act, generally known as
the Federal Wage-Hour Law,
became effective on September
3, 1961. The reminder came

from Mr. Fat Melan, Regional
Director of the U. S. Depart-
ment of Labor's Wage and Hour
and Public Contracts Division.
Mr. Melan said that covered
employees who are now employ-
ed by provisions of the law will
be entitled to a minimum wage
of at least \$1.15 an hour. The
law continues to apply to em-
ployees engaged in interstate
commerce or the production of
goods for interstate commerce,
unless specifically exempt.

Coverage of the Act has also
been extended to employees of
large enterprises engaged in
commerce or the production of
goods for commerce, he said.
These newly covered employees,
mostly in the retail and service
trades, will be due a minimum
wage of at least \$1.00 an hour.
Also covered are employees of
some gasoline service stations,
local or interurban transit sys-
tems and construction enter-
prises.

Mr. Melan said that the Act's
overtime provisions will con-
tinue to apply to workers who
are already covered. The re-
quire time and one half for
all hours worked over 40 in a
workweek. For employees who
are newly covered under the
Act, overtime pay will not be
required until 1963.

Exemptions continue to apply
to such establishments as hotels,
motels, restaurants, hospitals,
movie, and a few other ser-
vice establishments. Mr. Me-
lan added that the retail or
service establishments exemp-
tion now in effect will continue
to apply to establishments which
are not in a \$1 million enter-
prise or if in such an enter-
prise, have less than \$250,000
in annual gross sales.

"I pay the whole month's electric drying bill with only 36 minutes on my route"

"With just 36 minutes of one workday's wages, I pay for a whole month's worth of electric clothes drying," says Harlet Curtisinger of Wilmore, Ky.

"We have had our clothes dryer about three years," Mrs. Curtisinger explains. "To me it's been a life saver. Our home is small and I had been drying our clothes in the basement. This was not only difficult, but time-consuming and a continuing annoyance as well. It's been a life-saver to me because my son Bruce age 11 and my daughter Rebecca, age 7 require lots of clean clothes."

Only electricity provides flameless clothes drying
