what does "400" mean to you?

 A TRAIN...	 A SOCIETY DAME...
 SPEED...	 OR LETTER LIVING ELECTRICALLY.

If you lived in the Northwest, it would probably mean a train—in New York, a society dame—in Utah, speed on the salt flats—but in Kentucky...

"400" MEANS BETTER LIVING... ELECTRICALLY

And here's why. Now after the first 400 kilowatt-hours of electricity used per month, all additional kilowatt-hours are only 11¢ each. That's why we say in KU communities "400" means... Better Living Electrically.

It's a low low price for the convenience, cleanliness, comfort and protection only electric living provides. Give your family better living electrically and get bargain kilowatt-hours.

State Checks I-75 Routing Through Area

Plans for Interstate 75 in Rockcastle County went back in the news this week. Right-of-way men from the State Highway Department were in the county this week to make a list of all property owners who own land along a route proposed by the state.

The department, as yet, has not begun purchasing right-of-way, nor has there been any indication as to when right-of-way will be purchased.

The route proposed by the state, and the one being checked by right-of-way men, runs nearly parallel with current US 25 from the Madison County line, and interchange at Renfro Valley, the proposed route swings north easterly around Mt. Vernon to a second interchange near Burr.

The route south of Burr has not been finally announced. Some indication may be made in order to route the new highway closer to London and Corbin.

Easter Seals Sale Underway

The 1962 Easter Seal campaign begins March 22, and will continue through Easter Sunday, April 22, according to Mrs. Joyce Henderson, County Chairman.

Contributions to the annual appeal by the Kentucky Society for Crippled Children help provide a varied program of care and treatment for children crippled by many causes.

This year approximately 500,000 letters containing Easter Seals will be mailed to residents in 127 Kentucky's 120 counties. In addition to the mail appeal, volunteer workers throughout the state plan to hold special events to raise funds to support the Society's programs.

The 1962 Easter Seal design depicts a spirit of cheerfulness and optimism for the crippled and at the same time stresses in the approach of springtime. Cartoon faces of a boy and a girl in tight clothing against a blue-green and white backgrounds are used.

The legend "Easter Seals Help Crippled Children" carries across both seals. The stylized Easter Lily emblem of the Society and a butterfly make up the other elements of the design.

The children on the seals are typical of the hundreds of handicapped youngsters Society's seven Easter Seal facilities during the past year. Mrs. Henderson said, "Last year the Society provided care and treatment for 4210 children physically handicapped by accidents, birth defects or disease."

"As we all know," Mrs. Henderson said, "more money will mean more services for more Kentucky's crippled boys and girls. We're depending on the well-known generosity of our fellow Kentuckians to make 1962 the best year ever for crippled children."

The Kentucky Society for Crippled Children, a state-wide voluntary agency providing a varied program including hospitalization, therapies, special education and recreation, is now in its 35th year of service.

Acree Report Time Extended

The Rockcastle County ASC Office will accept feed grain acreage reports thru March 30 instead of March 20 as previously announced in minor feed grain reports.

According to Shelle Mullins, chairman of the Rockcastle County ASC Committee.

It will be necessary for farmers to file this report before they can sign an application to participate in the 1962 Feed Grain Program. If a farmer has previously filed a report, it will not be necessary to file a second report.

Mr. Mullins stated that farmers will need to report all crop and land uses for the 1959 and 1960 crop years. This information will be used in determining the farm's corn and grain sorghum base for participation in the 1962 Feed Grain Program.

Mr. Mullins urged farmers to file their acreage reports as early as possible so necessary review can be made in time for them to file applications as the last day for accepting applications is also March 30.

Nick Chastean, 83, Funeral Conducted

Nick Chastean, 83, a retired farmer of Scaffold Cane Road, Rockcastle County, died March 12 at his home after a long illness.

He was a Rockcastle native and had lived there most of his life. He was a member of the Pentecostal Holiness Church.

Funeral services were conducted at 1 p. m. Wednesday at the First Baptist Church followed in the Chastain Cemetery, March 14 in Rockcastle County.

He was born in 1879 in Richmond and Cal. Chastean, Nebraska, all of these sisters. Mrs. Louise Reeder, North Vernon, Ind., Mrs. Jenny Wolfe, Berea, and Mrs. Margaret Foundation, Indianapolis, Ind., and 33 grandchildren.

Red Cross Spent \$3,285 In Area

A total of \$3,285.06 was spent by the American Red Cross, Rockcastle County, to aid persons suffering losses from the recent flooding.

Mrs. Estelle C. Johnson, field representative, who has been in the county for several days, reports 17 families applied for assistance. One or two others made inquiries but did not return to formally apply.

A recent survey money spent in the county shows that \$1,082.24 was spent for food, clothing and other necessities; \$45.58 went for building and repairs; \$2,024.78 went for household furniture, clothing and other necessities; and \$34 for occupational supplies and equipment.

Mrs. Johnson reported the Red Cross had never purchased quality furniture as cheaply as this area. She said furniture dealers were very generous with their prices.

Money to pay for all Red Cross work in the county comes from the National Red Cross headquarters, with accounts paid from Lexington.

Grade Tournament Set At Livingston

The annual county grade school basketball tournament will be held Friday and Saturday night at Livingston High School.

The tournament is sponsored by the Lion's Club. Teams participating in the tournament will be Mt. Vernon, Roundstone, Livingston, and Stanford Lincoln. Brodhead declined to participate in the tournament this year.

Mr. Vernon and Stanford Lincoln will play the first game, followed by Roundstone and Livingston.

Games time Friday night is at 8:30. Game time Saturday night is at 7. There will be no concession stand.

Money from the games will go to the Lion's Club fund to purchase glasses for needy children in the county.

MANY THANKS

The Signal wishes to acknowledge the many telephone calls, letters and personal contacts of expressions concerning a story in last week's issue of the Signal about Renfro Valley and entitled "Mountain Music Played While State Snowed."

We will be unable to print all these expressions because of a lack of space. However, Martha Walton and one letter to the editor is printed on Page 4 of this issue.

J. L. Livesay Buried

John Lloyd Livesay, 70, of New Market, Ind., and former resident of Rockcastle, died March 8 of a heart ailment.

Mr. Livesay was born at Wab, the son of William D. and Susan D. Livesay. He was a merchant and farmer as long as his health permitted.

Convict 4 On Liquor Charges

Persons with liquor charges against them in Rockcastle Circuit Court had a "rough" time when their cases came before juries during the first three days of court.

Hollis O. Randall, of Pulaski County, charged with liquor in possession in a local option territory, was fined \$100 and given 30 days in jail.

Joe Mason Baber, of Richmond, was fined \$100 and given 60 days in jail on a charge of liquor in possession (See above picture). The case was appealed from County Court. The defendant was tried in absentia.

William Thastean and Lynn Brewer, of the north section of the county, were sentenced to six months in jail on a charge of breach of peace by shooting at without warning. A charge of shooting into a motor vehicle was dismissed.

The two were convicted of shooting at a Berea Lumber Company truck which had taken a load of lumber to Orlando School.

There were also several dismissals of charges in court, in charge of breach of peace against Edgar Barnett and Eli Barnett, both of Snider, was dismissed.

A retaining a female charge against William Barron was dismissed, as was a liquor in possession charge against William G. Cromer.

Also dismissed was a concealed weapon charge against Walter Laswell, and a shooting at without warning charge against Joe C. Cromer.

Judge R. C. Tartar transferred the murder trial of Beecher Burton of Pulaski County, charged with the killing of a Pulaski County deputy sheriff, to Rockcastle Circuit Court. Judge Tartar set a March 28 trial date.

WORK UNDERWAY BY SEPTEMBER

A loan of \$360,000 to finance a sewer system for the City of Mt. Vernon has been approved by the Community Facilities Administration of the federal government in Washington, D. C.

The loan is the largest ever approved for a Rockcastle project and virtually assures the city of a sewer system.

The sewer collection and treatment plant will be built and is included in the loan which will be supplemented by a \$39,000 grant by the U. S. Dept. of Health, Education and Welfare through the State Health Department and the Federal Water Pollution Control Program.

The total amount expected to be spent for the construction of the sewer system comes to \$419,000 and will include sewer lines in all areas within the city limits and possibly some fringe areas.

According to Jack Crawford, Renfro Valley engineer for the project, it will probably be September 1962 before actual construction work on the system will begin.

Next step in the process will probably be a vote of the citizens of the town by the Mt. Vernon City Council.

The loan will be made at a low three and three-eighths percent interest rate to be paid from revenue from the system. Each sewer user, and those who live on sewer lines are available, will pay a monthly sewer rate which will be added to their monthly water bill.

If and when the council accepts the loan, the next step will be the completion of plans and specifications by Engineer Crawford, expected to take about four months.

The plans will then go to the State Health Department and the Federal Housing and Home Administration for approval. After approval, bids will be taken for 30 days. After the bids are opened, the figures will be compiled and once again sent to the various agencies for approval. A bid contract will be awarded to the contractor and work will begin.

Some work could begin this year even though the (Continued on page 4)

Enjoy a beautiful ride on modern concrete mileage of Kentucky's new Interstate 64.

Kentucky taxpayers can afford the best on their new Interstate highways - modern CONCRETE!

- 1. Concrete's first cost runs virtually the same as asphalt**
- 2. Concrete can save thousands of tax dollars in upkeep**

Proof of this can be seen below in the comparison of costs for the two types of pavement on Kentucky's Interstate 84. Remember, on each mile of such Interstate System Highways, the Federal Government pays 90% of the first cost, the state pays 10%.

ASPHALT	CONCRETE
Clerk Co. project 144-2 (1) 80, 2,900 mi. Paving cost per mile... \$216,000	Shelby Co. project 144-2 (1) 24, 4,125 mi. Paving cost per mile... \$218,000
Clerk Co. project 144-2 (1) 80, 6,930 mi. Paving cost per mile... \$234,300	Jefferson County Co. project 144-2 (1) 17,400 mi. Paving cost per mile... \$230,700
Average cost per mile... \$232,400	Average cost per mile... \$232,500
Kentucky's 10% share of the above initial cost on a 6-1 matching basis, per mile... \$23,240	Kentucky's 10% share of the above initial cost on a 6-1 matching basis, per mile... \$23,250

Concrete section on Indiana Test Road, built as part of U.S. 31. After 8 years it is still in fine shape. Asphalt sections have now been resurfaced.

Even though the U.S. Government pays 90% of the cost of construction, to any state's 10%, all upkeep costs must be paid for by the state—forever after. So you as a Kentucky driver-taxpayer should also be concerned about future costs.

Performance studies of Kentucky highways prove concrete on the Interstate System will need no significant upkeep for decades. These studies also show asphalt highways in Kentucky, in addition to continuing maintenance, require complete resurfacing 8 to 12 years after they're built. To resurface just one mile of Interstate highway with a 2-inch layer of asphalt, based on current estimates, will cost about \$24,000. This is more than it cost Kentucky for that mile in the first place!

Concrete assures low upkeep costs. That's been proved in state after state. Most recently, right next door on Indiana's Test Road, the comparison of asphalt and concrete was ordered by Indiana's Legislature. Official 1961 reports show that the concrete has in 8 years saved \$5,602.02 per two-lane mile in upkeep costs. With about 700 miles of planned Interstate highways, Kentucky needs that kind of economy!

In addition, of course, concrete assures extra driving enjoyment—a smooth ride. The safe feeling of driving on a surface that's skid-resistant in all weather, wet or dry. You go 1st class with concrete!

RICE ANNIVERSARY RECIPE QUEEN

Charleston, S. C.—The growing of rice in America reaches its 275th anniversary year with appropriate recognition in the city where rice was first planted in 1686.

With the Rice Council of Houston, Texas, as sponsor of the event, Charleston state is participant re-nacting the historical event when a ship's captain brought less than a basket of rice seed to the Carolina colony.

The seed was planted by an early settler and from this begetting the great rice plantations of the Carolinas and Georgia were founded. Later the rice industry moved westward to Texas, Louisiana, Arkansas, Mississippi and California.

This year's rice crop is estimated at \$16 billion pounds. Among the features of the observance recognizing rice as the oldest non-native American food crop, was a contest among homemakers of Charleston and the South Carolina lowcountry.

275th Rice Anniversary Prize-Winning Recipe

- Red Rice and Peppers
4 slices bacon or 1/2 cup sausage, or hulled shrimp
1 cup chopped onion
1 cup chopped green peppers
1 medium can tomatoes
2 medium green peppers
2 small can tomato paste
1 cup rice
1/2 teaspoon celery salt
1/2 teaspoon garlic salt
1 bay leaf
Dash each of thyme, tabasco sauce, and pepper.
Cut bacon in small pieces; fry until crisp in skillet. Oil fry sausage in skillet. Remove.

WE DON'T AGREE, MR. THOMPSON

In a "letter to the Editor" on this page of the Signal, two former residents of the county take exceptions to an article re-printed from the Chicago Tribune in the last issue of the Signal concerning Renfro Valley and entitled "Mountain Music Played While State Snoozes."

The two former residents are "up in arms" about the article for several reasons which they enumerate.

In reading this article to which they refer, we are surprised author H. S. Thompson, of New York City, chose to write the article at this particular time of the year, and that the mood and tone of the article "pokes fun" at what we have to offer tourists here in Kentucky.

In the first place, it seems to us Mr. Thompson missed the whole point of Renfro Valley. It is not advertised, nor does it attempt to attract the type of clientele who patronize Gerde's in New York's broken-down Greenwich Village. The whole idea of Renfro Valley is that it is quiet, peaceful, and full of "things of old." It glorifies the "good old days," all in a setting that looks much the same as it did in great-grandfather's time. We venture to say, the thousands of tourists who have visited Renfro Valley over the years have done so because they had had enough of Gerde's of Greenwich Village.

Another point: Mr. Thompson's visit to Kentucky - Renfro Valley came in the "dead of winter." But surely Mr. Thompson has seen New York, Cleveland, Philadelphia and Chicago in winter. If there are more desolate and unattractive places, surely these places are not in the United States. We suggest he try Kentucky in May or October.

Of course, on some points frequently mentioned by Mr. Thompson, we must admit he is right. We are in a "dry" territory. However we are "dry" by a vote of the people of the territory and we cannot change that. Our only suggestion to a visitor on this point is that if he is thirsty for liquor, he should bring it with him.

Some other points in Mr. Thompson's story may also be correct, but on one we were literally "bowled over." It is inconceivable to us that there is a motel owner in tourist-wise Kentucky who doesn't know he has an unpaid guest in a room, or that any motel owner would suggest to a guest that he not stay at the motel again because he has Jefferson County license plates.

We feel sure Mr. Thompson believes he is complimentary in his story about Renfro Valley and the state, and that tourists will be attracted here because of it. We, to the contrary, do not believe the article will serve that purpose or be that helpful.

But by letting our good old Southern hospitality get the better of us, we would like to take this opportunity to ask Mr. Thompson to come and visit us again during a more agreeable time of the year. We only wish on his visit he had looked closer and longer took at Renfro Valley and the State.

LETTER TO THE EDITOR

Dear Editor:
In answer to Mr. Thompson's article printed in the last issue of the Mt. Vernon Signal.

Speaking as a former resident of Renfro Valley, and a frequent visitor, I wish to explain Renfro Valley as I saw it while living and visiting there, and still see it. Renfro Valley is not just a stop in the road, it is a place to gather for good old country music and enjoyment; not a place to make friends just to buy something to drink.

I am sure if a visitor is really interested in finding a restaurant in which to eat, he one that has been in existence a long time finding it as the article sound. There are (3) restaurants that are open until midnight in Renfro Valley and I am sure they would be glad to feed you if they had something to stand up. If you do not choose to eat at these places, you may always go to McVernon, (2 South on U. S. 25) or to Bera's (15 miles South of Renfro Valley on U. S. 25) or to Richmond (50 miles North on U. S. 25) where "drinks" are also available. So why drive 50 miles to Lexington?

Speaking of going early to Renfro, I think in all cases, the people would go early if they wanted a seat or parking place of their choice, even if they were going to the Memorial Coliseum or Freedom Hall here in Louisville. We are proud Rockcastle County is the only county in Kentucky, and would like to keep it that way. It seems that Mr. Thompson made a few friends among the strangers in order to get the drinks of his choice. Which I am sure that isn't the reason most people go to Renfro Valley. It is a tourist trap that invites all tourists to stop and enjoy themselves in a clean decent way.

We carry a license plate of Jefferson county, and we have never been refused a meal to eat or a place to spend the night or have had to look up the city police in one of the places to sleep. The roads through Renfro are as good or better as any in Jefferson county, or any state in the United States. They may not be since the flood, but can the residents help that? If they could have, I imagine they would have been more than glad to do so.

It is 9:30 in Rockcastle county and the Renfro Valley Barn, Dance (Not the Old Kentucky Barn Dance) is over until next week, unless the people rule otherwise. The most people that are there, the longer Mr. Lair continues the shows. When necessary, he will have three (3) shows. The Museum, the Old Barn, Radio Station, Antique shop and Candy Kitchen are open every day through the week and week ends.

We are also proud of the Sunday morning gatherings, which consist of gospel singing, and the public is also invited. We have heard of country

music, but we have never heard of Blue Grass Music. I wonder how many fights Mr. Thompson has had in Lexington, because of confusing Country and Blue Grass music.

The Renfro Valley Barn Dance is not a local affair drawn together by a few people dropping in with their Old Song Books and musical instruments. It is a group of people who enjoy singing and playing for the pleasure of it. Mr. John Lair came back from Chicago to the so called Mountain and put Renfro Valley on the map, and wrote the song "Take Me Back To Renfro Valley."

We are proud we are from the Bluegrass country, and when the trees in public and the barns are white with frost, we have enough sense to get inside by the pot bellied stoves and talk to our neighbors.

Very truly yours,

LETTER TO THE EDITOR

May I take this means of thanking you in the name of the American Red Cross for the help you rendered in our county in publicizing in the Signal the assistance that was available to them from our organization following the recent disastrous floods. Indeed, one man wrote us that he had just learned that he could apply to us for assistance. We are most appreciative of your help. Thank you very much.

Sincerely,

Southern States Has Sales Increase

Overall volume for Southern States Cooperative and its affiliates for the first six months of the 1961-62 fiscal year showed an increase of about \$644,000 over the same period last year. Net savings dipped sharply, according to a report presented by John F. Peain of Richmond, Va., to members at a regional board meeting held in Burdette, on Feb. 22.

Total volume was reported at \$98,726,989 as compared with \$98,071,826 for the same six-months of the previous year, an increase of 0.7 percent. Feed tonnage was down 10% for the period due largely to planned cutbacks on broiler and turkey contracting. Total tonnage was 266,900 tons. Fertilizer tonnage was up 2.4 percent. Total tonnage for the period was 94,900 tons, an increase of 2.700 tons. Seed volume - up 5.4 percent - amounted to \$2,029,810. Miscellaneous farm supply volume showed a 7 percent
