

Dairy Day

Paul M. Mills, County Agent

I personally would like to say congratulations to all dairy farmers of Rockcastle County for a job well done in dairying during the past year. Dairying in Rockcastle County is a big business. In fact it is second to tobacco. Tobacco having approximately 146 million dollars yearly income in the county dairying running second with approximately 850,000 dollars income yearly. With these two agricultural products eliminated from the county it would probably mean disaster.

The dairy industry in Rockcastle County did not come about accidentally. A lot of work was done by a lot of people in promoting and selling dairying not only to the dairymen but to the businessmen as well. It takes the cooperation of all people of the county to promote anything successfully. Some

or two people can't do the job.

To be a good dairymen a man must like animals. He must be a good manager, his own bookkeeper, laborer, and have a willingness to work, and be a person who likes to stay close to home because dairying is a seven day a week job.

The cow is one of the most useful factories man has ever developed. Through her usual assembly of four stomachs she can eat and digest grasses that man himself can not consume. She converts the grain and grass into what has been described as nature's most nearly perfect food.

In the United States today there are some one million farms on which dairying is at least part of the enterprise. Dairy farming is one kind of farming found in each of the 50 states. In 1962 the average number of milk cows was estimated at

17,386,000. This is 5,000,000 fewer milk cows than in 1950, but the average milk production per cow has increased from 5,314 lbs. in a 12 year period. Milk production per cow in Kentucky has increased from 4,040 lbs. in 1950 to an estimated 5,209 lbs. in 1962. This being an average doesn't mean a lot as averages never did. There are a lot of dairy herds in the state of Kentucky and we have some in Rockcastle County ranging from 12,000 to 16,000 lbs. per cow annually. With this type production these dairymen have high producing cows with good breeding background and follow a very good feeding and management program. It's a business with and not a side line.

During the period from 1950-62 the number of dairy cows in Kentucky declined from 601,000 to an estimated 486,000 animals. Further decrease in the number of animals is expected, but an increase in production per cow.

Dairying in Kentucky brings in approximately 150,000,000 dollars annually to dairy farmers.

Kentucky ranks 3rd nationally in production of cheddar cheese and in evaporated milk. The state is also 13th nationally in total milk production.

Feed is very important if we are to produce milk that the public wants. Certain feeds give undesirable flavors to milk unless they are fed to the cows at the right time. When a cow consumes feed with undesirable flavor compounds, the flavor compound passes into the blood then into the milk in the udder and back to the blood. Off-flavors are detected in the milk within 15 to 30 minutes after the cow consumes the feed. To decrease the undesirable flavors in the milk a careful managed feeding program is important. Feeds or pastures that give off-flavors to the milk should not be fed or made available to the cow within 3 or 4 hours before milking time. This will allow time for these flavors to be removed from the milk. When cows are allowed to graze continually on grass they will often fail to clean up their grain ration. This isn't so important so early in the pasture season because cows usually increase in production when they first go on pasture. However, after several days the higher producing cows start losing weight and start declining in production. After a few hours in a dry lot to improve the flavor of the milk some of their fill will be digested and passed out of the stomach. They will then be more willing to eat their grain and the original gain in production by grazing on excellent pasture will be maintained. About 3 hours time in the dry lot before milking will be a big help in removing off-flavors.

5 GOOD REASONS WHY YOU SHOULD INSTALL ELECTRIC HEAT

1. SAFE because it's completely safe; no danger of explosions or fumes to endanger your family. Completely child-safe!
2. COMFORTABLE because heat is distributed evenly; no "cold" or "hot" spots; you can select the best temperature for each room.
3. CONVENIENT because heat is regulated by finger-tip controls. Nothing to carry; nothing to clean; nothing to store; nothing to buy in advance of winter.
4. CLEAN because there are no flames or fumes; dirt is neither created nor circulated as in old-fashioned heating systems.
5. ECONOMICAL! Ask your neighbors who have changed to Electric Heat. See how much you will save on your heating costs and, RECC members can earn a big

Hundreds Expected To Attend Renfro Antique Auto Show

There'll be plenty of "car talk" around the area for three days when hundreds of auto lovers converge on Renfro Valley July 12, 13 and 14 for the annual convention of the Kyana Region of the Antique Automobile Club of America.

Preparations are being made over the area for between 300 and 350 club members and their families, as well as hundreds of state and local auto club members, auto lovers, and the usual large numbers of tourists. One met reportedly drew 10,000 interested on-lookers.

To date 75 of the world's most beautiful old cars from several states are expected to be in competition in 14 classes. There is the possibility of 10 cars, all dependent on the weather. The public is invited to see the old autos. All class winners will receive a trophy.

The convention has been termed an "open house" meet, which means it is open to all old car and auto enthusiasts who belong to an organized club other than the AACA. The "open house" meets held by the club usually draw the largest attendance.

The convention is expected to be the largest ever held at Renfro Valley and could double the population of the area for the entire week.

Cars are to arrive all day July 11 and 12, especially those that take advantage of pre-registration. Show registration is scheduled from 3 p. m. to 6 p. m. at the museum. At 8 p. m. there will be a movie and "social" at the barn.

On Saturday from 9 a. m. to 11:30 a. m. there are late arrivals. From 1 p. m. to 4 p. m.

SHINING IT UP - Terry Owens, of Mt. Vernon, had lovely help in shining up his 1928 Model A Ford since it will be one many in the area when the Antique Automobile Club of America, Kyana Region, holds its annual convention at Renfro Valley July 12, 13 and 14. The girls, who are striking a deliberate pose, are from left, Lois Mullins, Judy Winstead, Shirley Sowder and Paula Childress.

there will be an exhibit of cars open to the public. Judging will be from 1:30 p. m. to 3:30 p. m. During the judging there will be a ladies coffee at the Renfro Valley Lodge.

From 5:15 p. m. to 6:15 p. m. there will be a supper at the Renfro Valley Lodge. At 7 p. m. the evening entertainments will be made at the horse show pavilion, followed by a band parade at 8 p. m.

Sunday, the group will see the Sunday Morning Gatherin' followed by ad-

judgment as the day progresses.

Cars to be shown are in the following classes:

Class 1, pioneer cars through 1905; Class 2, brass age cars, 1906 through 1912; Class 3, brass radiator Ford 'T's, Class 4, black radiator Ford 'T's, open models; Class 5, black radiator Ford 'T's, closed models; Class 6, vintage cars, 1913 through 1919; Class 7, cars of the 20's—1920 through 1929, four cylinders, open models; Class 8, cars of the 20's, 1920 through 1929, six or more

cylinders, open models; Class 9, cars of the 20's—1920 through 1929, four or more cylinders, closed models; Class 10, production cars, 1930 through 1935; Class 11, Classics, 1930 through 1938; Class 12, Model A's, 1928-29, open models; Class 13, Model A's, 1930A-1, open models; Class 14, Model A's, all years, closed models.

There will be awards given for the car driven the farthest to the meet; a hard luck trophy, and the best restored car driven to the meet.

Call Vaccination Plans Made Here

A calfhood vaccination program will get underway in Rockcastle County during July, according to an announcement by County Agent Paul Mills.

"Farmers who have calves that are four to eight months old should have them vaccinated. This is a free service to the people of the county," Agent Mills said.

Farmers who have qualifying calves may pick up a card at several places and return it not later than July 6. Cards may be obtained at the Bank of Mt. Vernon, Citizens' Bank, Mt. Vernon Post Office, Broadhead Post Office, Livingston Post Office, Laswell Milling Co., Simpson Brothers, Rockcastle Farm Service, Production Credit Association, Mt. Vernon Produce, ASC office, and the office of the county agent.

More Zip Codes

Three more Zip Code numbers are reported this week by county postmasters. The Zip Code for Broadhead is 40409. The code for Livingston is 40445, and the code for Boone Post Office is 40408.

Approve KU Rate Decrease

Kentucky Utilities' \$1,000,000-a-year rate reduction which will bring savings to about 139,000 residential customers in their electric bills was approved today by the Public Service Commission.

The new rates will go into effect on bills received after Monday and will result in a saving on all bills for residential customers using more than 100 kilowatt hours a month. Most of the savings would accrue to the resident who uses less than 400 kilowatt hours per month, the PSC said.

The reduction amounts to about 5 1/2 per cent of Kentucky Utilities total residential revenue. Besides the lower residential rates, the commission also approved Kentucky Utilities' proposed "lower rate" schedules for municipal wholesale service, customers' outdoor lighting, and a full electric residential rate for customers using total electric service, including house heating.

The "bottom sheet" in the full electric rate is 1 1/2 cents a kilowatt hour in place of the previous 1 1/2 cents for all use over 1,000 kilowatt hours a month.

About \$107,000 in additional year rate savings will be divided among outdoor light, street light and wholesale power customers.

The rate reduction, which Kentucky Utilities last month filed for the commission's okay is the company's way of returning to its customers the benefits from the income tax relief given Kentucky Utilities by recently enacted federal and state regulations for more liberalized depreciation allowances under the new "guidelines," W. H. Skinner, vice president, said.

Other factors enabling the company to make the reduction include the trend by its customers to greater electrical use through adoption of appliances and electric heating, he said.

Governor Got Signals

Ten copies of a recent Signal were mailed to Gov. Bert Combs at his request last week.

The state was interested in a feature story entitled "After 30 Years Langdon Only a Memory," a story on the president of the operating school at Mt. Vernon at the turn of the century.

The story was used as part of the state's efforts to enlist support for its measure to purchase five United Mine Workers hospitals in Eastern Kentucky to be turned over to the Presbyterian Church for operation. The bill was passed by the Legislature last week.

Sells Farm

The farm of Dr. Homer McNew on Hummel Road has been sold to Robert Hubbard of Berea, according to a notice from the Floyd Owens Real Estate Agency. Mr. Hubbard plans to move to the farm soon. Dr. McNew has moved to Roundstone.

Camp Sign-Up

The annual 4-H Camp will be held July 22 through 28 at the Fulmer 4-H Camp near London.

4-H members who have signed up for camp should contact the county agent's office in person or by telephone. Transportation is being furnished by the Mt. Vernon Lion's Club.

Change Location

The location of the Save The Children Federation clothing center has been changed at Mt. Vernon. It is now located at the T. B. Dillingham Store near the intersection of US 150 and US 25 formerly Crocker's Dollar Store. Mrs. Sophia Brown is manager.

On Dean's List

Three Rockcastle County students were named to the Dean's List at Eastern Kentucky State College for the semester just completed. They are Irene Viana Miller, Nancy Vanhook, Mullins and Joan Margaret Vetter.

Why I Cast A 'No' Vote -- Judge Carter

County Judge C. C. Carter issued the following statement this morning: "I voted no on a motion to allow two tax measures for the Bookmobile and Library and the Health Department on the November ballot. The statement, prepared prior to a meeting of the Board of Health, now nearly applies to the health tax measure.

"First, I think it is unwise to load the ballot with so many tax problems. We have the 15-cent automobile tax that I believe is first in the mind of everyone that will be on the ballot—if our courthouses and jail application is approved by the government.

"Everyone believes in good health and good health programs, and no one believes that more than I do. But I don't believe our health program or health office will be abolished if this 10-cent

levy is not on the ballot come the November election.

"My chief reason for voting against this, besides the reasons already stated, is that section of the Kentucky Revised Statutes, 212-720 which says, if the majority of those voting on a question favor the establishment of a public health tax, levied within the county it shall be so established and shall constitute and be a taxing district within the county of Section 157 of the Constitution of Kentucky.

"Section 212-720 of the Statutes is the one they are relying on for the levy.

"Now, Section 157 of the Constitution says the following: 'The tax rates of cities, towns, counties, shall not at any time exceed the following rates upon the value of taxable property therein. For counties and taxing districts, 50 cents on the \$100. No county, city, town, taxing districts or municipal-

ity, shall be authorized or permitted to become indebted in any manner or for any purpose, to any amount exceeding, in any year, the income and revenue provided for each year, without the assent of two-thirds of the voters thereof, voting at an election—to be held for that purpose; and any indebtedness contracted in violation of this section shall be void.

"It is my opinion that the legislators, not anyone else, can write around our constitution by saying a mere majority shall be enough.

"It is my contention that any tax levy to increase the levy by a vote of the people will have to be two-thirds of the voters voting and not by a mere majority.

"For these reasons I vote against putting 10 cents, or any levy on the ballot until this question has been clarified by the courts. I shall abide by the ruling of the higher courts.

Proponents of health and Bookmobile tax measures failed to muster enough votes at meeting of the Rockcastle Fiscal Court Tuesday, and unless the court is overruled by a higher court, neither will be on the November ballot.

The only way to get the measures on the November ballot is to take the question to Rockcastle Circuit Court and ask Circuit Judge R. C. Tarter to grant a writ of mandamus to force the Fiscal Court to include the measures on the ballot. The Fiscal Court then could ask for a ruling from the Court of Appeals.

The Bookmobile is asking for a ruling on the \$100 property evaluation to continue its basic services. The Rockcastle County Health Department is asking a maximum of 10-cents on the \$100 to continue its services and to expand those services.

Both Bookmobile and Health Department officials have indicated they will seek a writ of mandamus which must be issued at least 45 days prior to the election in order to be on the ballot.

Appeal Water Rate Case

A transcript of the court record of a water rate suit against the City of Mt. Vernon ruled on last week in Rockcastle Circuit Court has been forwarded to the Kentucky Court of Appeals.

In filing the appeal, the case was filed this week by Circuit Court Judge R. C. Tarter at the office of the County Clerk George Gresham.

The suit was brought by several Mt. Vernon water customers who sought an increase in the base water rate was exorbitant.

Judge Tarter ruled the rate was exorbitant and out of line and told the city to roll back the rates to the pre-October 1932 level.

In filing the appeal, city attorneys requested the Court of Appeals allow the city to continue to collect the increased rate pending disposition of the case. The court probably will rule one way or another on the request in the next few days.

In his ruling, Judge Tarter told the city it would not have to return additional money collected over and above the old rate.

City Dump Fenced

The city dump on Cove Road has been cleaned and fenced by the City of Mt. Vernon.

Reason for the work, persons were dumping trash in the wrong area and local residents complained of the dumping procedures.

Mayor Carl Brown stated the City Council will set regular hours so that dumping can be more controlled.

Clothing Drive

The Wildie 4-H Club is conducting a clothing drive for Goodwill Industries.

Swimming Classes Scheduled Again

Once again the Mt. Vernon Meridian-Woman's Club is sponsoring Red Cross Swimming classes.

The classes begin July 29 and continue through Aug. 9. They are open to all children eight through 14. A maximum of 50 children will be accepted.

Children will board a school bus at the rear of the courthouse at 8:45 a. m. Bus driver is Roy Lucas.

Parents interested should contact Mrs. Mary Craig or Mrs. Christine G. Graham. Registration day will be announced later.

Polio Clinics Set

Make-up oral polio clinics will be held by the Rockcastle County Health Department at Mt. Vernon July 11 and 12.

Dr. M. A. Shephard, health officer, reported all three types of Sabin vaccine will be given, and urged all parents with children over six weeks to visit the clinic.

Clinics will also be held in August and September.

Office Closed

Local Board 85, Selective Service, at Mt. Vernon, will be closed from noon July 11 through July 14, according to Gus Carson, clerk of the board.

Lyons Elected

Jack W. Lyons, of Lexington, and son of Mrs. Sydney Lyons, of Mt. Vernon, was elected president of the Lexington Association of Life Underwriters at a recent meeting.

Local Men Had Fun In Movie Roles

Local men had fun in movie roles. The picture is mostly in the form of directions and information to theatre customers.

The 90-minute feature was shot at a radio and film studio in Nashville. The widescreen color film features most of the top names in the country and western music field.

Release date is scheduled next fall, with a Nashville premiere tentatively set for early November. It coincides with the annual WSM Country Music Festival.

The picture has no plot per se, although the theme touches lightly on the career of the late Hank Williams and includes segments in which Hank (played by Gene Kravitz) and his widow, Audrey, are spotlighted.

Although the picture is not a musical, it features artists in the roles of the actor's dominant setting is a theatre in New York.

WIN JACKETS - Hal Hunt, left, son of Mr. and Mrs. Lee Hunt, and Denton Owens, son of Mr. and Mrs. Mildred Owens, were recipients of 4-H jackets for having kept the best record books in the 4-H Tractor Maintenance course held in March. The jackets were furnished by L. D. Bryant and Stewart Parsons.

Light Camera Action!

These few words have been ringing in the ears of the two local men for the past two weeks.

For those who don't already know, Ole Joe Clark, Renfro Valley entertainer, and Lee Earl Hysinger, of Mt. Vernon, are to be turned from Nashville, Tenn., where they both had roles in a forthcoming movie on "Country Music On Broadway."

Joe Earl Hysinger

Not that either had starring roles in the story of the career of the late Hank Williams, but both did get to see something and that's something. Not many folks get into the movies these days.

Make Them Welcome!

We hope Mt. Vernon residents will go out of their way to make welcome the hundreds of persons who are scheduled to attend the Kyana Region Convention of the Antique Automobile Club of America at Renfro-Valley July 12, 13 and 14.

This convention could conceivably double or even triple the area's population during the week end. Not only will there be 300 to 350 club members and guests and families, it is readily apparent that local people from surrounding counties will come in droves to see approximately 100 of the world's most beautiful old autos from many states of the Union.

Also included in the group of visitors will be the many Renfro Valley Bugle subscribers who have planned their particular week end for the bandance with the auto show thrown in for good measure.

We understand the club has reserved two motels and will probably need more. It is entirely possible that, as in the past, local homes might be made available for some of the visitors.

There seems little doubt at this time that this convention will be one of the area's largest, and it could give us all "a run for our money" in accommodating and entertaining the group. Of course, some adverse condition might arise that will cut down attendance, such as bad weather.

In any case, if you are called on to lend aid and assistance, please give all assistance possible. Let's all be friendly and hospitable. The group is looking for a permanent location for the show. Renfro could be that location.

COURT DEFEATS

(Continued from page 1) both to continue, but they believed that these tax measures on the same ballot Bookmobile or the Health Department would be defeated. They both indicated money for

courthouse should be taken since it would not be available at a later date. They said they felt the Bookmobile and Health Department could run for another year and that such an effort should be made to keep both open for the public.

Mrs. Joyce Henderson appeared at the meeting with a petition signed by 500 persons asking that the Bookmobile be on one ballot. She told the court the Bookmobile could operate the remainder of the fiscal year, but probably no longer without increased funds. It would take a year after a six-month trial period before actual funds would be available.

She reported Bookmobile expenses were \$3,502.72 and income \$3,285, with \$217.72 needed to be raised from the City to remain open, she noted; would be difficult without the tax measure unless the Fiscal Court would allocate considerably more money. Currently, the City of Mt. Vernon contributes \$365 to the Bookmobile; the county school board, \$1,000; the state, \$200; and the Fiscal Court, \$1,720.

With the five cents on the \$100 property assessment that there would be available, \$4,593.22 available for the Bookmobile. The health department presented its request for a taxing district in the form of a resolution to the court.

Department officials have appeared before the court several times to explain the tax. In another action, the court accepted a low bid of \$17,999 for a new road grader from the Machinery and Supply, Louisville.

It also voted to add Hickory Valley Road to the state's rural road program. The stretch is four miles, from Albert Dooley's residence to Brush Creek Road.

Week's Softball Play Reported
Joe Pain (Reporter)

Monday night the Rebels handed the Ramblers a defeat that will not soon be forgotten. The score was

Rebels 11, Ramblers 0. The Rebels had no fielding errors, and only two noticeable mistakes, while the Ramblers had two or more errors in fielding.

Talk about slapping a ball around, those Rebels were constantly hitting and alert, and by the win tied the Rebels won for first place in the Adult League.

In this season, the Rebels won 6-7. In the Monday night game, the Rebels won by the 11-0 score. In the first game, the Ramblers won 6-7. In the second game, the Mt. Vernon Red Sox against the Livingston Mets. In the second game, the Mt. Vernon Yankees play the Brod-

head Tigers. At 7 p. m. the Adult League goes into action with the Rebels playing Ottawa and at 8:15 p. m. the Ramblers playing Negro League Inter-county competition is also on tap for Saturday night.

For the smaller children, arts and crafts classes are being held Monday through Friday from 1 p. m. to 4 p. m. at Mt. Vernon.

A horseback contest has also been scheduled for Thursday night.

Mr. and Mrs. Carl Thomas Ashley

Ramsey - Ashley Wedding Held At Christain Church

The marriage of Linda Marie Ramsey, daughter of Mr. and Mrs. Russell Ramsey of Mt. Vernon and Carl Thomas Ashley III, son of Mr. and Mrs. C. T. Ashley Jr., of Nicholasville, was held June 30 at 3 p. m. in the Mt. Vernon Christian Church, Rev. Howard Ray performed the double ring ceremony. He was assisted by Rev. J. Hayden Igleheart.

The bride, given in marriage by her father, wore a

floor length gown of peade sole featuring a semi-ball shaped by unpressed pleats. The sleeveless bodice was covered with a lace jacket with three quarter length sleeves. A petal train of matching peade sole was attached to the waist. Her elbow length veil was crowned with a peade sole circle accented with pearls and crystalites. Her bouquet was a cascade of white carnations.

Mrs. Ben Ramsey, the bride's sister-in-law, served as matron of honor. She wore a street-length dress of medium blue polished cotton. Her hat was a circle of blue flowers atop a shaped blue veil.

Davis E. Nichols of Nicholasville was best man. The bridesmaids, Miss Jane Criner of Nicholasville and Miss Bonnie Karel Cumdiff of Crestwood wore costumes similar to that of the matron of honor and carried identical bouquets of white carnations and blue satin leaves.

Miss Devonda Kay Ramsey, the bride's niece, and Miss Cathy Baker, cousin of the bride, wore dresses similar to those of the bridesmaids.

but of a lighter shade of blue. They carried smaller bouquets of white carnations and wore headbands to match their dresses.

Miss Paula Owens, the bride's cousin, was the flower girl. She wore a pale blue dress trimmed in lace and dropped petals from a natural straw basket. Don Ramsey served as ring bearer for his aunt's wedding.

Ushers were Sankay Vaughn Williams of Nicholasville, Terry Layne Owens, Howard Coffey and Gary Coffey, all of Mt. Vernon.

The wedding music was provided by Harold Robbs of Lexington, Pianist, Mrs. Harold Robbs, the bride's college roommate, and Glen Perkins of Nicholasville, soloists.

Mrs. Ashley graduated from Mt. Vernon High School and Transylvania College. She plans to begin work on a Master's degree in History at Ohio University in September and will be employed by the physics department there.

Mr. Ashley graduated from Jessamine County High School and Transylvania College in Lexington where he was a member of the Hellenic Society. He is currently engaged in Chemical research for the Atomic Energy Commission at Ohio University and plans to begin work toward a doctor's degree in Chemistry in September.

After a wedding trip, the couple will live at Athens, Ohio.

II WOW II

It's hot. But Mrs. John Allen says her clothes don't droop or become saggy because... Sanitary with their wonderful way of dry cleaning always keeps them looking so fresh. I know they impart into my clothes that wonderful body builder called "Fashion Finish" each and every time they are cleaned. Sanitary I can always depend on. Sanitary for that deep-down cleaning of my clothes which has a deodorant production between each cleaning. Why don't you try Sanitary? ? ?

PHILIPPINES CELEBRATE SEVENTEENTH ANNIVERSARY OF THEIR INDEPENDENCE

ARE-HONOR AND INTEGRITY "OUT OF DATE"?

Americans believe: That the pledged word commands respect; that agreements between men and men, and governments and governments should be honored, respected, and revered. Sanctions in our society inspire the sacredness of the bond of agreement. This is a cornerstone of society, for without agreement in the home, in national and international affairs, there can be no meaning in the American way of life.

Communists believe: Agreements are meaningless if they do not serve the Communist purpose. Lenin said, "promises are like pie crusts—made to be broken," and, to achieve their purpose, he said, "It is necessary to use every ruse, cunning, unlawful method, evasion, and concealment of truth." Agreements or treaties are made to satisfy current situations and to be broken whenever needed to further Communist goals.

ETERNAL VIGILANCE IS THE PRICE OF LIBERTY

To renew and quicken interest in our precious heritage of Freedom, and its superiority over the Communist philosophy, these messages are being published by Kentucky Utilities Company, an investor-owned electric company.
