BROWSING
Changes in the weather bring changes in reading tastes. With the first chilly breeze of autumn, a woman rushed through the library door clutching a sweater about her shoulders. "I want a book about reading rugs," she said "one that tells what color dye to use. Now what dye would I use to make an old brown blanket rust color?" During the summer months, her reading has been mostly fiction with an occasional travel and cook-book thrown in. Now the anticipation of winter and its ice and snow and dancing wood fire has stirred creative instinct. What would be better than making a bright rug from a faded blanket? But how?

Being a regular library patron she knew she could turn to books for instruction, and she went happily away carry "The Complete Book of Rug Braiding," by Feeley and "Rug Hooking and Braiding for Pleasure and Profit" by Dorothy Lawless.

Had she wanted to direct her activities to picking quilts, knitting afghans, stitching aprons, making greeting cards, growing African Violets, or any one of scores of projects, she could have found books to help her do a good job.

Her husband too, will be able to find practical suggestions and instructions in books whether his interest lies in fishing, cabinet making, checker playing or just plan and fancy whittling and whistling.

Books on the library shelves have been chosen with all types of people and interests in mind. Whether you dwell in the rarified air of an ivory palace or have your feet planted in the good old Rockcastle County farm soil—or anywhere in between, the library can supply you with the reading material you need. Make a habit of stopping at the library or flagging down the bookmobile.

And remember to vote YES for the library on November 5th.

PUBLIC HEALTH IS YOUR BUSINESS

To some people, Public Health means only immunization against diseases, and free health pamphlets, but this is only a beginning. To get an idea about what Public Health really is, here are some of the responsibilities and duties of our own Health Department.

The Rockcastle County Health Department protects and preserves the general well being of the people. Through examinations, education and immunizations, it prevents the spread of sickness. Safeguarding milk and water supply is another way it prevents illness.

It keeps the county's records of births, deaths and reportable illnesses. Can you imagine trying to obtain a birth or death certificate without the help of your Health Department?

Part of its business is assisting the school in keeping the well child well and improving the health of others.

Though this still does not list nearly all the services of our Health Department, it shows why the Rockcastle County Health Department considers itself the "County Doctor" because its "patients" is the County, protecting the health of the whole county as the private physician does for the individual.

Public Health benefits all the people and is the business of all the people.

By yourself alone, you cannot be assured of adequate safeguard to your health. But the citizens of Rockcastle County, working together, can be assured of adequate public health protection through the services of a good local Health Department.

Good health is in your hands. The voters of Rockcastle County have an opportunity to vote for better health by voting "YES" for the public health tax on November 5. Remember, it doesn't COST, it PAYS to live in a healthy county. And a healthy county is a wealthy county.

It takes 1000 tons of coal to build just 1 mile of concrete highway!

That totals approximately 700,000 tons of coal if Kentucky uses concrete to complete its Interstate Highways. Kentucky needs new coal markets, new highways. Concrete brings the two together. The result? Better business. Better highways.

Today's new-type concrete is smooth and solid all the way... is laid flat to stay flat. It actually has a life expectancy of 60 years and longer, with upkeep expense 75% less than for asphalt (based on Kentucky records). This is vital because the Federal Government pays 90% of initial construction cost—but not a cent for maintenance. Add it up. Concrete means greater coal usage, greater driving comfort, and greater maintenance savings.

Mr. Fred Bullard, Executive Secretary of the Kentucky Coal Association, says: "Concrete and reinforcing steel are two basic ingredients of the modern concrete highway. With their high consumption of coal during manufacture, we believe that paving Kentucky's Interstate Highways with concrete would be an inappreciable aid to the state's coal industry."

FHA Loans Now Available

Rural communities together with neighboring farmers may now obtain loans from the Farmers Home Administration to develop water resources they need, according to Robert C. Winn, the agency's local county supervisor.

The construction of modern water supply systems makes rural communities more attractive, encourages the growth of rural industries and aids in rural areas development, Mr. Winn added.

Mr. Winn said 872 of Kentucky's rural communities over 100 population do not have water systems.

The interest rate on a direct loan is four and one half percent. The interest rate on insured loans varies, but may not exceed five percent. Loans are scheduled for repayment over periods up to 40 years.

Water development and soil conservation loans may be used to finance water supply reservoirs, water supply distribution systems, pumps, pumping plants, pipelines and other facilities necessary to obtain an adequate water system.

Associations applying for loans obtain and pay for the technical help they need but Farmers Home Administration engineers will see that all proposed improvements are sound and that cost estimates and plans are complete. After a loan is made, the agency periodically inspects progress to insure that funds are used as agreed upon and that construction meets approved standards.

An organization desiring to obtain an association loan or individuals interested in forming an association for the purpose of obtaining a loan may contact County Supervisor, Robert C. Winn.

Construction To Continue 3 More Weeks

The 0.5 of a mile stretch of US 25 which is being resurfaced in Mt. Vernon was delayed slightly this week while the City of Mt. Vernon laid a sewer line which has been looking for many years.

Mr. Walter D. Stigall, State Highway Department foreman of Somerset, said "For as long as I can remember this has been a trouble spot—the surface has been difficult to retain."

It has been believed that a wet weather spring was under the road until state highway employees dug up the sewer line which had evidently been causing this trouble.

Mr. Stigall said there has been a lot of money spent on this strip of road.

The state tried to let contracts for the road and got no bidders. Since they had to do the work themselves they are laying an eight inch dense grade base made up of fine gravel. On top of this, eight inches of concrete with re-inforced steel will be poured.

The state is not responsible for replacing water or sewage lines. Mr. Stigall said they will put in a new side walk after the road is completed. The road will be 14 feet wide and will have a five inch curb.

Work is scheduled to be completed in three weeks after the concrete is poured. It will have to set 14 to 28 days before traffic is allowed to travel over it.

Mr. Stigall said, "we want to do a good job so the road won't break up again."

Employed By KU 25 Years

Joe B. McFarlane, of Mt. Vernon an employee of Kentucky Utilities, received a 25 year service award recently. He was given a lapel pin.

Mr. McFarlane started in the electrical business at Mt. Vernon and has worked on service crews as a meter reader and line patrolman.

He is a native of Rockcastle County and has lived in Mt. Vernon for the past 32 years.

The award, for his 25 years of loyal service, was presented by W. O. Nelson, local manager.

Mr. McFarlane has one son, Frank, and two granddaughters, who make their home at Frankfort.

Auto Crash Kills Berea Man

A head-on collision three miles north of Mt. Vernon on the "Green Patch" Hill, Friday night, killed a Berea man and injured three others.

The Berea man, Stanley Johnson, 66, was killed about 7:30 p. m. when the car he was driving collided with one driven by George Gosbel Arnold, Livingston, State Trooper Darrell Steele reported.

Arnold and two passengers in his car, Jerry Lee Jones and Dewey Witt, both of Livingston, were injured.

Arnold is listed in critical condition and Witt in serious condition at Central Baptist Hospital in Lexington.

Jones, 19, was treated at the Rockcastle County Baptist Hospital and released, Saturday.

Trooper Steele reported the accident occurred on a three-lane hill on U. S. 25. The road was being resurfaced with chips and oil, so no lines were visible.

Johnson, traveling South, and Arnold collided in the middle lane about halfway on the hill.

Johnson was a native of Madison County and a member of the Masonic Lodge 48 at Johnson, Berea and Julian Johnson, Indianapolis, and five grandchildren.

Survivors are his wife, Mrs. Gladys Bess Johnson, Berea, three sons, Lloyd Johnson, Somerset, Parlice Johnson, Berea, and Freddie Johnson, Lexington, two sisters, Mrs. Carl Bratcher, Berea, and Mrs. Sherman Baker, Indianapolis; two brothers, G. Johnson, Berea and Julian Johnson, Indianapolis, and five grandchildren.

Services were conducted Sunday at Rominger Funeral home at Berea. Burial was in Berea Cemetery.

2 Berea Men Found Dead In Auto Wreck

Two Berea men were killed Friday night in an automobile crash on U. S. 25, near Big Hill, when the vehicle plunging over an embankment.

The men's bodies and the wreckage were discovered Saturday morning, at about 10 a. m.

The man who lives near the embankment, located near Big Hill found the bodies of Hugh Swinford, 46 and Forrest Eaton, Jr.

Madison County Coroner Walter Todd said the car went over the embankment Friday night, but he was unable to ascertain the exact time of death. Apparently there were no witnesses to the accident. State Police said.

The families of the victims said the two left home early Friday night, but the bodies were found Thursday.

Red Devils W in Sixth; Beat Paint Lick 28 - 14

Mt. Vernon's "Red Devils" streaked to a 28-14 victory over Paint Lick Thursday to extend their victories to six without a loss.

Charles Machal, behind terrific blocking, went 40 yards for a Red Devil's first touchdown. The extra point was good by way of a pass from Bobby Hayes to Jerry Makin.

A few plays later Jerry Hines picked up a Paint Lick fumble and went over for a touchdown from 25 yards out.

Bobby Hayes hit Machal with a pass for the extra point 14-0, Mt. Vernon.

Paint Lick scored seven before the half by way of an extra yard pass from Don Hensley to Jimmy Collet.

After the half Machal scored again on an 18 yard run and Bobby Hayes added the extra point, Mt. Vernon 21-7.

Paint Lick scored again in the second half on a 35 yard pass for a touchdown. Score 21-14, Mt. Vernon.

To end the scoring, Mt. Vernon drove 60 yards over Shannon Hellard ran seven yards for another six points.

The extra point was good as Bobby Hayes went over.

of active duty for each year of college financed by the Navy. NROTC graduates are on equal career basis with Naval Academy graduates.

For the first time, the NROTC graduate may qualify for postgraduate work leading to a Ph. D. degree. Selected NROTC graduates will be ordered in 1964 to graduate schools for study in the fields of engineering, mathematics, physics or chemistry.

Each officer selected will be enrolled in a leading graduate school for his field. The Navy will pay all educational expenses as well as the officer's normal pay and allowances. Upon earning a Ph. D. degree, the officer has from 9 to 12 years obligated service.

To be eligible for this program, an NROTC midshipman must rank in the upper 10th of his college class, be engaged in a pertinent field of study and be recommended by the faculty. He must also be accepted by the graduate school of his choice.

There are 52 NROTC units located at major colleges and universities across the country. Successful applicants may attend any of the 52.

State Taxes and Expenditures Have Skyrocketed! So

Why Are 70% Of Our Counties Classified As Depressed Areas?

Unemployment is up. More people than ever are on the dole. The Combs-Breathitt machine hauls industrial scouts to Kentucky. Wines and dines them . . . but they shy away from what they see: Lack of planning, a house out-of-order, machine politics. No new industries means no new jobs. The dole gets bigger. Where are all the increased taxes going? The state payroll is over \$2,000,000 a month more this year than last year. \$2,000,000 a month to "oil" the Breathitt-Combs machine, not Kentucky's economy. The present administration clearly is interested in its own life span. Little else.

Class Rings and Invitations

On Sept. 11, 1963, the junior class selected the kind of class ring they wanted. This group chose the square ring like the junior class of 1962. This year's ring will be slightly different from last year's.

Invitations to Somerset

The seniors of Mt. Vernon High went to Somerset Wednesday, Oct. 2 to have their senior pictures taken. A good time was had by all. I think some of us had more fun by the time we got home.

Proofs Are Back

On Friday, Oct. 11, the good news to the seniors was that the proofs of their senior pictures were back, and they were going to get them that very day. Most of the class seemed pleased with their pictures. All of the pictures seem to have turned out very well. Now the seniors are deciding which proof they like best, and believe me that is a hard choice to make.
