A change here could save you money! Building a home is the biggest investment most of us ever make. And one of the most important ones, too, because we'll be living in it for years to come. That's why it's so important to select the best available materials. Nothing is more important than your heating system. Consider Electric Heat. It cost less to install than old-fashion systems because there is no expensive duct work or chimneys; storage tanks aren't needed, either. But, more important, think of your family's comfort and safety. Clean, even Electric Heat can be adjusted to "just right" temperature for each individual room. It's as safe as a light bulb because it's flameless. Whether you build or remodel, treat your family to the best... low-cost Electric Heat!

ELECTRIC HEAT \$75 BONUS. Thinking of building or remodeling? We'll pay a \$75.00 incentive to all coop members who install Electric Heat. A limited offer; call us today for complete details. Jackson County RECC McKee, Kentucky
