Clyde Mullins Found In Dry Creekbed; Dies

Clyde Mullins, 34, of Red Hill was found at 8 p. m. Wednesday lying in a dry creekbed in Calloway Hollow. He had abrasions on his face, his clothing was muddy and his body was limp when officials located him.

He was taken to the Rockcastle County Baptist Hospital where he died at 8 a. m., Thursday. His cause was reportedly caused by drugs, alcohol or a combination.

Deputy sheriff Tip Reppert had the following account: A woman called from the U. S. 25 truck stop and reported that she had seen a man in a ditch at Calloway Hollow. Deputy Reppert came to Mt. Vernon to get Deputy Wayne Vanhook and they searched for the man. Having no luck they asked a Mrs. Kirby who showed them where the man was lying, face down with his head on a rock. The officers described the man as limp at first, they summoned an ambulance and Mullins was taken to the hospital.

Two papers were found in his pocket. They were sent to Frankfort for analysis.

Mullins father believes he may have been beaten. Officers say he could have received the bruises when he fell in the creekbed.

A farmer and a mechanic Mullins was a native of Rockcastle County.

Survivors are his parents, Mr. and Mrs. Bert Mullins, Red Hill; four brothers, Kenneth, Mullins, Hamilton, McClellan, Mullins, Okonko, Ind., and Russell Mullins, Louisa County.

Funeral services were conducted Nov. 10 at 11 a. m. at the Mt. Vernon Baptist Church.

Whiskey And Beer Found In Raid

Rockcastle County Sheriff Lovell Clontz and Deputy Tip Reppert and Wayne Vanhook raided the home of William Anderson at Orlando, Nov. 2. They reported finding 14 half pints of whiskey and 12 one-ounce cans of beer and 112-ounce can.

Officers had a search warrant for the raid. They have charged Anderson with possession of alcoholic beverage for the purpose of sale. He will be tried in County Court, Nov. 23.

Jewels Saved; \$65 - \$70 Cash Lost

Mrs. Harvey Rush, fought off a holdup man Friday at 4 p. m., following his attempt to get away with a bag of diamond rings and watches, but he managed to flee with some \$65 to \$70 in cash.

Mrs. Rush, wife of the proprietor of Rush's Jewelry Store said she was alone when a small man entered. He had a beard and heavy eyebrows and was apparently made-up.

After a struggle, he twisted one of her arms and she struck him with a heavy metal object. She was later hospitalized apparently suffering shock.

The man did not display a weapon but kept his hand in a pocket most of the time, Mrs. Rush said.

Mr. Rush had just left the store shortly before the holdup man entered, gave this account: The man, wearing a tan leather fringed jacket, took a paper bag from a pocket, tossed it onto a counter and demanded that she fill it with rings.

Asked if he wanted "all of them," he replied, "Just the ones I want." She suddenly stepped into a rear room, scattering its contents over the floor.

The holdup man then grabbed her arm and started making her open the cash register from which he grabbed bills. He spilled change all over the floor and left, it there.

Mrs. Rush then struck the man on the shoulder with a ring filter and he fled.

Health Department News Flashes

Rabies Clinic

Since Jan. 1, 1964, there have been 10 persons bitten by some type of animal and reported to the Health Department. Fortunately, none of the animals had rabies and the anti-rabies treatment did not have to be administered to the persons bitten.

If a person is bitten by a domestic animal, the animal should not be killed. Instead, it should be locked in a pen or turned over to a Veterinarian. Positive symptoms of rabies or death of the animal will usually occur within 14 days. If the animal is wild, it should be captured and penned, if possible. If not, care should be taken not to destroy the head when the animal is killed.

The Rabies Control Law provides that all dogs over six months of age must be vaccinated against rabies. The law also makes an owner liable for any person bitten by his unvaccinated dog, if the dog is rabid.

Rabies always kills but can be prevented. Vaccinate your dog against rabies and you protect not only your dog, but your family, your community and yourself as well, whichever is earlier.

Milk Indemnity Payment Program

Dairy farmers whose milk has been removed from the market because of pesticide residue soon will be able to file applications under the recently announced indemnity payment program. Shellie Mullins, Chairman, Agricultural Stabilization and Conservation County Committee, said today.

The first application filed at the ASCS County Office may cover payment on milk kept off the market this year. Additional applications may cover approximate monthly periods.

As authorized by the Economic Opportunity Act of 1964, the indemnity payments are to be made at fair market value to dairy farmers who have been directed since Jan. 1, 1964, to remove their milk from commercial markets because it contained residues of chemicals registered and approved for use by the Federal Government at the time of their use. Payment authorization expires on Jan. 31, 1965.

The pesticide in the milk must have been detected by tests made by a public agency or under a milk testing program recognized by a public agency as adequate for the purpose. The payments will be made on milk kept off the market because of the pesticide residues from Jan. 1, 1964, until the farmer is reinstated and again is permitted to put his milk on the market or until Jan. 15, 1965, whichever is earlier.

The new Interstate System is already preventing 90,000 accidents a year
