Choosing Your Representative

To Voters Of Lincoln - Rockcastle District:

The Kentucky General Assembly consists of 38 Senetors and 100 Representatives chosen by the vaters from 38 Senetorial and 100 Representatives Districts. These 138 members come from all sections of our State, and from all walks bf life, including many different occupations, professions, and vocations. To properly represent the people of their respective districts, they must give conscientious consideration to all legislative metters coming before the Assembly, and have the coursegs to faithfully perform their legislative duties, however "pleasant" or "distostaful".

Each Legislator must also be able, ready, and willing to work together with fellow members to get best results from their united efforts to do a good job for the people of their districts, and the State of Kentucky. Mamember can "post" good bills nor "defere?" "bed" once by himself, nor gain anything for his district with bitterly "partisan" "criticism, "for" or "against" the "majority" or the "minority" party, nor by "buiting" or making "insulting" remireks about the Governor and his Administration, whether Democrat or Republican.

Neither should any member of the Legislature use his office merely as eass of promoting his own personal ambition for future galitical prefer-by "cauging" the fare of sotional or state "big wigs, of ather party-ublican or Democratic. Is seeking election as YOUR Representative, greatest desire is to render the best possible service to the people of Lincoln-Rackcastle District.

Lincola-Reckceste District.

As an indication of the "quality" of representation you may expect normalistics, consider the results of a Poll taken among Members of Press covering the lost of three terms I served as Representative of an Country, in 1956, from which I Quote: Representative E. C. Mullins, Itanford, was named "most able House Member from the Public stand-tt," described as "most conjectations in his study of each bill."

If you want that kind of representation in the 1965 session of the Instature, WORK and VOTE to Elect me YOUR Representative.

B. C. Mullins, Democratic Nominee

How to plug up the money drain

If the part of your pay you planned to save always seems to leak out of your pocket, you need a new stop-per for your money drain.

The Payroll Savings Plan is one of the best plugs around—and it's

Here's the blueprint: just tell your employer to put aside a small amount from each pay check and apply it to the purchase of United States Savings Bonds.

Once you get it started, the Plan is fully automatic. Chances are you'll never miss the little cash you're setting saids. After all, it just leaked away before, remember?

And here's the best part. Not only have you stopped the flow, but you're putting your dollars to work

earning more dollars—\$4 at maturity for every \$3 you invested.

So stop in at your payroll depart-ment and set your Plan in action. And watch your savings grow in-stead of go.
