

**HOW TO TURN MILES INTO SMILES**

As any homemaker will agree, the first Tin Pan Alley tune-smith who composes a song entitled, "Take A Load Off Your Feet," may well have a hit, at least with the housewife set. Today, the woman who commands the household helm spends upwards of six to eight hours a day walking around the house just to keep it running smoothly.

As an example, a recent survey undertaken by the Bell System revealed that the typical homemaker does the equivalent of a six-mile hike every month simply getting to the telephone. The woman with a yen to save shoe leather and energy will be interested to know that the survey of 358 homemakers revealed that the women saved an average of 76 miles a year after they had extended their phone lines to their homes. It doesn't matter if your home has four rooms or ten, is single or multi-level, extension phones work all over the house to make family living easier and safer.

In the kitchen, for instance, an extension phone lets you make or take calls and still be sure the pot doesn't boil over; a phone in the bedroom adds protection as well as privacy and another in dad's den gives him the same convenience he has in the office. These are just a few of the mileage-saving telephone ideas today. Even if you decide not to add even a fingertip to your present telephone equipment, it will pay you to know what time and energy-saving telephone services are available now. Here

are some telephone oriented step-savers that may help you turn miles into smiles.

1. A phone that adds a touch of color as well as helping you subtract steps from your daily routine is the extension phone. Both wall and desk extensions as well as the small, elegant Princess phone are available in a spectrum of pastel shades to match or contrast with the colors in your decor. The Princess phone, for instance, is available in pink, turquoise, blue, beige or white.

2. A phone that "listens" until you need it. If you're building or remodeling, look ahead to your future telephone needs and plan for concealed wiring. This not only puts your telephone wires out of sight, but as your family grows up, makes it easy to install extension phones in bedrooms, playrooms or other living areas as you need them.

3. A phone that goes outdoors with you is the portable phone which can be used around the swimming pool or patio to avoid mad dashes, indoors or missed telephone calls. You should make, provision for the phone line and jack before you've poured the concrete for the pool or patio area as it is advisable to run the phone line under the patio or in a conduit nearby.

4. A phone that stays out of the way yet is always at your fingertips is the wall phone. In the kitchen, workroom or laundry room where you want to keep the table or counter clear, the wall phone hangs up out of the way of valuable work space but is conveniently "at hand" when you need it. A kitchen wall phone, for instance, makes it possible for you to talk with your friends while keeping an eye on the roast, the soup or the children.

5. A phone hat lets you dial more than twice as fast is the Touch-Tone phone which is being introduced gradually across the country. This new telephone service enables you to tap out your numbers on push buttons instead of spinning a rotary dial thereby making calling easier and faster. Touch-Tone phones are available in standard telephone colors or models, wall or desk set, including the Princess phone.

6. A "no-hands" phone, is the speakerphone. Often found in offices, it's helping more and more homemakers to run their homes with office-like efficiency. A small speaker connected to the phone amplifies your voice, so you can talk from anywhere in the room. With a speakerphone, there's no need to let phone calls interrupt you when you're on K.P., for example. You can

One way to take the "run" out of running a home is to install extension phones particularly in busy household areas such as the kitchen. A recent survey revealed that extension phones can save the homemaker 76 miles a year on the average.

**D. L. McKnight Dies At Conway**

Denver L. McKnight, 73, of Conway, died at his home Sept. 9. Mr. McKnight was a native of Harlan County, but had lived in the Conway area for about 30 years. He was a farmer. His closest survivor is an uncle, Arthur Rice also of Conway. Funeral services were conducted Sept. 11 at the Conway Missionary Baptist Church with Bro. Denton Sears officiating. He was buried in Rice Cemetery. Rominger Funeral Home was in charge of arrangements.

Our rhematic fever prevention program is one action by which the Health Department can try to prevent some of the early deaths from heart disease. Persons, with rheumatic fever, when requested by their family doctor or specialist, can receive medicine necessary to control rheumatic fever and prevent future heart damage.

**WANTED!**  
COMMUNITY ORGANIZER

Work with rural residents organizing self-help groups. Empathy for low income families. Sensitivity to the social dynamics of group process and leadership ability necessary. Creativity and ability to learn rapidly helpful. Work will be difficult and consume many hours, but will be rewarding beyond measure to a person interested in playing a significant role in economic and social progress in the area. Excellent career potential in a new rapidly growing profession. Good fringe benefit program. Degree preferred. Salary to \$550 month. Reply immediately to: Personnel, Box 733, Cumberland Valley Area Program, Barbourville, Kentucky

Our chronic illnesses include cancer, diabetes, strokes and diabetic detection.

Dental examinations by dentists	295
Dental corrections made	916
School Bus Drivers and other school employees examined	70

**VITAL STATISTICS**

All births and deaths occurring in Rockcastle County are recorded at the Health Department. All birth certificates are filed with the registrar. The original is sent to the State Health Department in Frankfort and a copy kept on file in the local office. Notifications of the birth registrations are mailed to the parents.

**MATERNAL AND CHILD HEALTH**

Patients receiving Pre-natal care during the year: 12 PKU tests done on all newborns before leaving the hospital. Tests on babies born at home are taken by the Health Nurse. This test is for a defect which, if not found in the first weeks of life, will lead to mental retardation.

**SANITATION**

Good sanitation is a very important part of our Health Department work. In addition to the activities listed below, a strict inspection and supervision is made of the plumbing, sewage disposal, etc. of all new non-farm buildings. We expect this to greatly upgrade sanitation in the whole county.

Water Samples collected	110
Inspection of restaurants, schools & school cafeterias	271
Inspections of Hotels, Motels & schools	36
Nuisance complaints investigated	20
Visits for Rabies control	115
Animals quarantined	24
New connections to public sewer	169
Plumbing Inspections (with the State Plumbing Inspector)	220

**HEALTH EDUCATION**

Pamphlet distribution to general public on public Health matters  
Newspaper Articles  
Radio Programs (Tuesdays of each week)  
Talks to parents in Headstart program and other groups.

**ANNUAL REPORT OF THE ACTIVITIES OF THE ROCKCASTLE COUNTY HEALTH DEPARTMENT FROM JULY, 1965 THROUGH JUNE, 1966**

The Local Board of Health consists of the following members: Judge Wayne Van Hook, Chairman  
Virginia Wallace Lewis, M.D., Secretary  
George H. Griffith, M.D.  
J. D. Lewis, M.D.  
E. M. Lyons, D.D.  
John D. Henderson, D.D.S.  
John Sowder  
The members of the Rockcastle County Health Department Staff are:  
Virginia Wallace Lewis, M.D. Health Officer (Shared with Madison County)  
Norma Lyons, R.N. Health Nurse  
Jeanie Mullins, R.N. Health Nurse  
Robert Hays, R.S. Sanitarian  
Cora Lee Speer Clerk and Registrar

The Rockcastle County Health Department exists to serve you through protection of the health of the people in this County. Each year we present a report describing what has been done to maintain public health in Rockcastle County.

- Clinics now available for Rockcastle Counties
1. Immunization Clinic every Friday from 9:00 A.M. to 4:00 P.M. at the Rockcastle County Health Department.
  2. Tuberculosis Clinic every 3 months at the Health Department.
  3. Cancer detection clinic (Pap Smears) every Monday and Wednesday.
  4. Family Planning (Birth Control Clinic) every Monday and Wednesday afternoons: 1:00 p.m. to 3:30 p.m.
  5. Diabetic Screening Monday and Wednesday 9:00 a.m. to 3:30 p.m.

**COMMUNICABLE DISEASE CONTROL**

Some diseases such as diphtheria, whooping cough, tetanus, polio, measles and smallpox can be controlled by immunization. During the past-year, the total number of immunizations given: 318  
TYPE GIVEN:  
Diphtheria Polio/Myelitis  
Tetanus Smallpox  
Whooping Cough Measles

**TUBERCULOSIS**

Through the Tuberculosis Control Program, the tide against TB is gradually being turned, not only in Rockcastle County, but over the entire state.

Cases supervised during year	97
Patients admitted to TB Hospital, London	7
X-rays taken by Mobile Unit	501
X-rays taken in cases, contracts, suspects at Out-patient Clinic, London	189
New cases reported to State Health Dept.	7
TB skin tests given	402

**CHRONIC ILLNESS**

More people die of heart disease than from the second and third leading causes (cancer and strokes) of death combined.

**LARGEST ZOO**  
The world's largest zoological preserve, South West Africa's Etosha Reserve, has an area of 38,427 square miles, making it larger than Ireland!

# From Our Files

32 YEARS AGO  
Sept. 20, 1934

Atty. M. Allen is selling his entire stock of goods at Brodhead on Sept. 22 and will move his family to a 480 acre ranch 2 1/2 miles from Crandon, Wis., the county seat, on Lake Metong, in the near future.

A projected meeting will begin at Wildie on Tuesday. Rev. Eroy Gentry will do the preaching.

Edgar Laswell moved to his home on Old Fair Ground site last week. Mrs. W. L. Derron and children have moved to the house vacated by Mr. Laswell.

The firm of Albright and Elder will move their entire

stock of goods to the Boone Way Hotel building opposite the Citizens Bank.

Jack Carpenter, Jr., and J. D. Mobley have rented from Dr. R. G. Webb, the filling station and restaurant at the north end of Livingston and will now give 24 hour service.

## Fellow-Members Of The FAMILY OF GOD

Catholics and other Christians do not agree on some things. Other Christians don't always see eye to eye among themselves.

And it may seem that Christ's followers are a long way from unity in "one Lord, one faith, one baptism."

Yet today a new spirit of renewal and reunion pervades the whole Christian world.

Christians of all faiths... Catholic and Protestant... are looking not merely to what divides them, but to the divine heritage that makes them as one in the Family of God.

That common bond is described in the words of St. Paul: "... all you who have been baptized into Christ have put on Christ... for you are all one in Christ Jesus."

Another Paul—the Pope of the Catholic Church, Paul VI—notes the differences among Christian bodies in doctrine, discipline and structure, but says: "... in spite of them, all who have been justified by faith in Baptism are members of Christ's body..."

Moved by the Holy Spirit, Christians of all faiths are making giant strides toward unity through a historic movement

called Ecumenism. This involves, on the one hand, the deliberations of the apostolic Church for its own renewal—for the "opening of its own windows"—through the Vatican Council. It also involves the quest of all Christian faiths for the spiritual unity of Christ's followers through prayer, through dialogues, through the inspiration of the Holy Spirit.

The restoration of unity among all Christians is one of the principal concerns of the Vatican Council. For, as Pope Paul said, the division that exists "openly contradicts the will of Christ, scandalizes the world, and damages the holy cause of preaching the gospel to every creature."

But in recent times, the Pope added, our Lord "has been raising divided Christians to renounce over their divisions and to a longing for unity." Christians of all faiths, he said, are feeling the impulse of this grace and joining in the search for unity.

If you want to know "as every Christian should... the aims and hopes of his own windows" in all, if you would like to understand what the Roman Catholic Church is all about, write today for our new pamphlet, "Ecumenism—no one can be read in a few minutes... and will send it free upon request. No obligation—nobody will call on you. Write today! Ask for Pamphlet No. KC-17."

20 YEARS AGO  
Sept. 19, 1946

Lewis Perciful, who was discharged from the U. S. Naval Air Corps in March, has been awarded the Distinguished Flying Cross and the Air Medal. Lewis, the son of Mr. and Mrs. McKinley Perciful, was in the Pacific Theatre 14 months. The teachers of the Mt. Vernon High School have organized into a Teachers' Association and have elected Miss Ruth Mullins, President and Miss Dorothy Borders, Secretary.

Mrs. B. N. Egan entertained with a birthday dinner in honor of her son, Bob Davis, Saturday evening at her home in Renfro Valley. Guests present were: Glen and Harry Cummins; Jack and Lewis Perciful, Opp Bussell Jr.; Gordon Graham; Billy Farmer; Jack Lyons; Jack Conn, and Bill Crawford.

W. E. Dillingham, Hubert Catlett, Clyde Lintville, and James R. Perry attended a regional meeting of the Lions Club Sunday at Richmond.

Miss Glenn Carter daughter of Mrs. Sudie Carter and Byron Baker of Green Hill were married Tuesday, Sept. 17.

Mrs. Lloyd Taylor entertained her bridge club Wednesday evening at her home on Main St. Those receiving prizes were: Mrs. Suella Miller and Mrs. Preston Nunnally.

12 YEARS AGO  
Sept. 23, 1954

Rockcastle County now is assured of a new telephone system within the next 12 months. The Rockcastle Rural Telephone Cooperative Corporation made the statement this week.

Miss Barbara Lair and her pony, Commando's Little Fairy, have returned from the Kentucky State Fair with more honors to be added to those already garnered by the Renfro Valley Stables.

Barbara and her pony placed second in the barbers horse pony class Saturday afternoon and came in sixth in the Amateur Stakes Thursday night.

A delegation from Mt. Ver-

non were in Lexington Saturday to hear John Sherman Cooper. Those attending were: T. J. Nicely; Mr. and Mrs. John W. Griffin, Lewis Miller; Ernest Bullock; Hoover Bullock, and James Lambert.

R. H. Hamm is building a new service station on Richmond Street. Mr. Hamm will lease the station to the Stoll Oil Company.

Master Michael Norton entertained a group of his young friends, at a party last Wednesday in observance of his 4th birthday. The party was held at the home of his parents, Mr. and Mrs. Bill Norton.

Mrs. Daisy Smith Swinford was among those honored at the Kentucky State Fair for 40 or more years' service in the teaching profession. Mrs. Swinford has taught for 41 years, all in Rockcastle County.

### ROSE HILL

Fayette Ruckes and daughter, Mrs. Leroy King of Hamilton, Ohio, were here to attend the funeral of Mr. Rucker's sister, Martha Griffin at Cox Funeral Chapel.

Mrs. Lew Hunt and Janet visited Mr. and Mrs. Tilden Owens Saturday night.

Visitors of Mr. and Mrs. Wade Hysinger during last week were: Mrs. Alfred Cummins and daughter, Kelly; Mr. and Mrs. Jerry Hansel; Mr. and Mrs. C. C. Ponder; Freddie Noe, and Eddie Smith all of Mt. Vernon and Paul Smith of Hazard.

Mr. and Mrs. Herbert Childers of Clay City spent Sunday with her parents, Mr. and Mrs. Everett Purcell.

Mr. and Mrs. Charlie Noe had a birthday dinner Sunday for Mrs. Burgess Hysinger. We wish her many more happy birthdays.

Mrs. and Mrs. Leroy King of Hamilton, Ohio stopped Wednesday on their way home from a vacation at the Smokies and had dinner with Mr. and Mrs. Tilden Owens, Cecil Hysinger also had dinner with them.

Ronnie Nicely and daughter of Green Hill visited Mr. and Mrs. Wade Hysinger Thursday.

Mrs. Burgess Hysinger and Lee Earl were in Corbin Tuesday on business.

Cecil and Chester Hysinger were in Berea Monday.

Mrs. Chester Hysinger visited Mrs. Wade Hysinger Friday.

Perfect for brisk fall mornings, this broiler breakfast is as easy as 1-2-3 and can be cooked and served in just 15 minutes. Scrambled eggs served in enriched Tip-Top toast, meats, grilled sausages and tomatoes make a perfect "good morning" meal. There is no substitute for a good breakfast—1 to 1 1/2 of the body's daily food requirement should be provided at this early morning meal. That is, enough protein, vitamins, minerals and calories to last until luncheon.

### Tip-Top Breakfast Grill

- 4 sausages
- 1 cup bread crumbs
- 2 tablespoons butter or margarine
- 1 tomato, cut in half
- 3 slices of Tip-Top bread
- 3 tablespoons milk
- 1 teaspoon salt
- 1 egg, well beaten
- 2 tablespoons butter or margarine
- 2 tablespoons grated parmesan cheese
- Parsley to garnish

Put sausages on broiler and broil in a preheated oven for 5 minutes. Meantime, sprinkle bread crumbs and butter on tomato halves, add milk, and salt to beaten eggs. Turn sausages and add tomato halves to broiler, broil for another 5 minutes. Toast 6 slices of bread, scramble eggs in butter. Using a cookie cutter, cut stars out of the center of 2 slices of toast. Place 6 slices of toast on broiler in two stacks of three slices each, the two whole slices on the bottom forming loaf nests. The scrambled eggs into toast nests, sprinkle with cheese and broil 1 minute longer or until cheese bubbles. Garnish with parsley and toast stars on top. Serve immediately from the broiler. Makes 2 servings.

### BOONE

Mr. and Mrs. Mark Watkins returned home from Florida recently where they spent a few days.

Mrs. Arminie Sloan spent a few days with her daughter, Mr. and Mrs. Melvin Saylor and Ricky.

W. R. Durham and Carl visited his great niece, Mrs. Elthur Durrell and family Thursday morning.

W. R. Durham and Carl visited his niece, Mrs. Willson White and Becky Friday.

ORDNANCE NO. 284  
AN ORDINANCE OF THE CITY OF MOUNT VERNON, KENTUCKY, ADOPTING THE SOUTHERN STANDARD GAS CODE; THE NATIONAL BUILDING CODE; AND THE NATIONAL ELECTRICAL CODE.

WHEREAS, the City of Mount Vernon has heretofore adopted a workable Program for Community Improvement and has undertaken a program of community development;

WHEREAS, public health and safety require that all buildings constructed within the City of Mount Vernon meet certain minimum standards for safety;

WHEREAS, public health and safety require that all gas installations made within the City of Mount Vernon meet certain minimum standards for safety;

WHEREAS, public health and safety require that all electrical installations made within the City of Mount Vernon meet certain minimum standards for safety;

NOW, THEREFORE, THE CITY OF MOUNT VERNON DOES ORDAIN AS FOLLOWS: Section I. That the National Building Code, the National Electrical Code and the Southern Standard Gas Code are hereby adopted for the City of Mount Vernon as the minimum standards for all construction within the limits of said City after the effective date of this ordinance.

Section II. There is hereby imposed an inspection fee of One Dollar and Twenty-Cents (\$1.25) per hundred square feet, or fraction thereof, of interior floor space of all buildings constructed after the effective date of this ordinance. This inspection fee shall be used to pay a building inspector whose duty it will be to see that all new construction within the City meets the standards hereby adopted and the standards of safety as approved by the Commonwealth of Kentucky.

Section III. The effective date of this ordinance is January 1st, 1967. This is the 9th day of September, 1966.

CITY COUNCIL OF MOUNT VERNON, KENTUCKY. By: s/ Clyde Lintville, Mayor, City of Mount Vernon, Kentucky.

ATTEST: s/ Mary A. Bullock, City Clerk, Mount Vernon, Kentucky.

### BRIEF BATTLE

The shortest war ever recorded was the one between the United Kingdom and Zanzibar on August 27, 1896. It lasted from 9:02 to 9:40 a.m.

"My husband practices what he preaches, so we live better in our flameless, electrically heated Gold Medallion Home."

says Mrs. Robert I. Jones

(By "practices what he preaches," Mrs. Jones means her husband's connection with our company.)

"The convenience and cleanliness of electric heating have made it much easier to bring up a household of children," says Mrs. Jones. "And, of course, we also have about 15 other electric appliances that make my work easier and faster."

Mr. Jones, a Kentucky Utilities Company foreman, says this about their new home: "When we planned the house three years ago, we wanted the greatest safety for the children combined with maximum convenience for my wife. And with KU's low rates for total electric living, we find electric heating is very reasonable. We've had absolutely no maintenance costs since the house was built. But then this is only what I've been telling my friends all along — you live better all-electrically."

## All Had A Good Time At The Coopers Picnic

They came from Rockcastle, Clay, Laurel, Pulaski, Whitley, Bell, and a score of other counties.

They came in big cars, little cars, trucks and busses - about 4,000 of them.

They were rich, any poor, and big, and little. And all were of one mind - see Republican Sen. John Sherman Cooper, and wish him well in his Senatorial campaign against Rep. John Y. Brown.

The meeting place was Levi Jackson State Park, Saturday.

As it turned out, it couldn't have been a better day for a "non-political-get-together."

As the senator said: "Just a get-together of friends in the Fifth District." He compared it all to a church picnic or a family reunion.

Actually, it was a unique gathering. There was no long-winded oratory usually accompanying a gathering of political personages and their followers.

All Senator Cooper did was welcome the guests and recount the trials and tribulations of the founding of Kentucky by "your ancestors."

The only time he mentioned his candidacy came when he expressed appreciation for "your support and belief in me."

"I desire to be truthful and honest," he said. "I shall continue to serve you in the way I think you will show con-

wool coat and a large hat with a blue scarf, she did not stop for a minute to catch her breath. When the crowd had gone, she lingered for last minute chats and last minute clean-up instructions.

About all the county politicians of Eastern Kentucky were on hand for the picnic. Besides Senator Morton, there was State Sen. Pleaz Mobley and Mrs. Mobley. Gene Huff, unsuccessful

(Continued to Page 3)

**ELECTED**—Keith Singleton, a teacher at Mt. Vernon School has been elected president of the Rockcastle County Education Association for the 1966-67 school year. The Association is the local organization for the Kentucky Education Association.

## HERE and THERE

By Ray McClure

### STRANGE OBJECTS

"Like many people all over the world, we don't know what strange objects folks are seeing in the sky, but it is becoming clear that there is indeed something out there. Too many reputable people are seeing unidentified objects. For you information, the Air Force, which investigates the reports of flying objects, has decided to allocate \$300,000 to some university to look into "certain sightings." It will be interesting to read the findings, as it is interesting to read the story on this page about local sightings.

### A BUSY YEAR

The Rockcastle County Health Department has had a busy year. Or such is indicated in the yearly report the department publishes this week on an inside page of this issue. You may find it of interest.

### FOUR MORE DAYS

We had the season lasting only one day in the last issue of the Signal. Since we don't want you to lose four days, we'll correct the date. The deer season for bow and arrow and for gun begins Nov. 9 and ends Nov. 13.

### HARVEST FESTIVAL

So you can plan ahead, the Harvest Festival at Renfro Valley is scheduled for Nov. 17 and 18 in the big barn. It's being held a little later this year since the barn now has heat. Details of the festival will be reported when plans are complete.

### NEW MANAGERS

Joe and Jean Clark have taken over the Diner Bell Restaurant from Floyd Owens. They are open each day in the week from 7 a.m. to 9 p.m.

### STILL NO NEWS

Once again, we can't give you information on the Renfro Valley lake project. There's nothing left that would make news other than an announcement of the approval of a grant and loan. Federal officials still say the project is fine and will be approved in due time.

### FOR THOSE WHO ASKED

No, the Appalachian Regional Commission still has not approved the connecting link of the new Appalachian highway between Chattanooga, Tenn., and I-75. Still in question is the section between Somerset and I-75. As soon as we know, we'll let you know.

### RAINFALL

A total of .69 of an inch of rain fell during the last few days of rain, according to Bill Cox. Rain is scheduled to end Thursday with much cooler weather. The Weather Bureau, incidentally, is predicting an early frost. Brrr.

### CHANGED HANDS

Mr. and Mrs. Grant Asher have sold Ideal Cafe to Roman McFerron. Remodeling is now underway. The McFerrons hope to open by Oct. 1, if not sooner.

### NEW MINISTER

Rev. Frank B. Strickland was called as pastor of the Livingston Baptist Church Aug. 28. He is a native of East Tennessee and a graduate of Harrison Chilhowee Baptist Academy.

Rev. and Mrs. Strickland moved to the parsonage Sept. 2. They have four sons: James Fred, a minister in South Carolina who is married; Larry David, a senior in high school; Jackie Lee, a junior in high school, and Frank Jr., 4 years old.

Rev. Strickland will be holding revival services at the Livingston Baptist Church beginning Oct. 2.

# Weird Moving Lights Scare Five County Young People

For several minutes Saturday night, five Rockcastle County young people got a first hand look at two unidentified flying objects watching from about 400 feet, the five saw two flying objects in a woodland area near Spira. While they watched, one object maneuvered over the tops of trees and vanished.

State and local police immediately launched an investigation of the incident and centered questioning on two of the principals in the case. Joe McFarland and Edward Alcorn, both about 17.

Another of the group, Judy Alcorn, sister of Edward, has been hospitalized since the incident, but police do not believe the incident and the illness are related.

At about the same time the group was watching the objects, at a farm about a quarter of a mile from the Alcorn farm, another resident saw

the lights in the same wooded area when he went out on his back porch on an errand.

The weird and eerie story of the moving lights was similar in detail when told by the five observers later at their homes. All the stories tallied accurately.

The incident began just after dark. The group estimated the time at about 8:15 p.m.

Joe McFarland, nursing scratches and abrasions when he ran from the scene and down the hill through briars and focks, told his version.

"Edward and I had gone up into the woods to get a piece of wood to make a gun stock in craft class at school."

We came back down the hill and at the edge of the woods we threw the log down and sat down on it to rest a minute.

Almost immediately, I felt funny. I can't explain exactly how I felt, but it seemed

to be a kind of weak and woozy feeling. I turned to Edward and told him I felt funny. He said he also felt funny and was about to ask me how I felt.

Suddenly, we both noticed there was getting light around us. We looked around and saw nothing. Then it got real bright and we both looked up. About 25 feet above us was a bright circle of light.

It was real bright, almost blinding. It looked like you were looking into overhead lights in an operating room of a hospital. The light looked like it was about 30 feet across, but I can't be too sure of the size.

The light was only on a few seconds, then seemed to die out and it was dark again. We didn't hear any kind of sound or anything.

I told Edward I was getting out of there and we ran down the hill, jumping fences and stumbling.

We got to the Alcorn house and told them what we had seen. They thought we were playing a trick on them. Judy and her brother, Shelley, and a friend, Jimmy Ponder, said they would go back up in the woods with us just to show us there was nothing there.

We all five went back with a flashlight. We found the log we had left and sat down and waited. I don't know who

saw it first, but up or so the woods about 400 yards or so we saw a light. We could see another smaller light over from it several yards. We could see the brighter light between the trees and could tell that it was partly behind some big rocks. It would blink once, then three times, and go dark.

Suddenly, the light that seemed smaller started rising through the trees and up above the top of trees. It hovered there for a few seconds then moved away from us over toward another field. Then it went into another woods. The other light didn't move.

It was about the time the light began moving away that we all felt something hitting us about. I shined the light on the ground and we saw little round objects that looked like bee-bees. When we tried to pick them up they crumbled into powder.

When the moving light went out of sight, we all hurried back down the hill."

Young McFarland said he was sure the objects were not airplanes or weather balloons. "I know it is hard to believe, and I feel silly talking about it. But we saw something out there. It was something none of us had ever seen before. We went back the following night, but there was nothing."

Mrs. McFarland said when her son got home a short time later he was upset, excited, and scared. He had scratches on his hands and legs from the briars. She said she reported the incident to the State Police post of London.

"The first thing he said when he came into the house," Mrs. McFarland said, "was, 'mother you won't believe this, but we saw something real scary tonight.' I believed him when he told me. I know my son. He wouldn't make up something like this. He doesn't know what he saw, but he saw something."

Police officers also are convinced that the young people saw something.

"I can tell," one police officer said, "these two boys told a straight story. I think they told exactly what they saw. But what they saw is a mystery. It is interesting that other people in other areas of the county have seen strange objects and lights, and these others are unrelated to these people and this incident."

**KINDA SNAKEY**—Gilmer Pruitt, who works at Renfro Valley, shows a 45-inch copperhead he killed in an out-bullding this week at Renfro Valley. The snake struck or bit Pruitt just before he killed it. Copperhead snakes are ordinarily not as long as the one shown, but its pointed head and markings left little doubt.

## City Adopts Building Code

A building and electrical code that regulates the installation of electrical wiring and the construction of buildings has been approved by the Mt. Vernon City Council.

The council also threw in a gas installation code for good measure.

The new regulations, expected to be approved for the past several months, is part of the city's workable program for community improvement.

The regulations are in the form of an ordinance published elsewhere in this issue.

In essence, the ordinance adopts the National Building Code for construction of buildings; the National Electrical Code for electrical installation, and the Southern Standard Gas Code. Each code covers several pages of detailed "dos and don'ts" and is on file with the City Clerk.

The building code also imposes an inspection fee of \$1.25 per 100 square feet, or fractions thereof, of interior floor space of all buildings constructed after Jan. 1, 1967.

The inspection fee will be used to pay a building inspector whose duty it will be to see that all new construction within the city meets the standards adopted, and the standards of safety as approved by the Common-

wealth.

The new regulations do not affect buildings already constructed and in use. The city adopted its workable program for community improvement several months ago and set up a commission to work out the program with state officials.

In order for the city to participate in many federal programs, including low rent housing, the workable program had to be adopted.

Still to be adopted is city wide zoning, called for in the workable program.

## ASCS May Ask For Number

If the ASCS county office asks you what your Social Security number is, please don't think that you are being singled out for special attention, cautions Shelle Mullins, chairman, Agricultural Stabilization and Conservation County Committee.

The number is needed by the Internal Revenue for identification purposes in connection with farm program payments.

Many farmers have already filed Form 3500 with the county office, listing their social security or employer identification number. Requests for the information were mailed last fall to each known producer who receives program payments.

Producers who receive direct program payments and who have not yet filed the form, however, are asked to forward the information to the county office by Oct. 1, 1966.

For 1966, ASCS must re-

## ENROLL 3,116 IN SCHOOLS

An enrolled 3,116 students are enrolled this year in Rockcastle County schools, according to tabulations made Tuesday.

The figure is about the same as last year.

A breakdown of enrollment in the various schools shows Mt. Vernon has 867, Brodhead 869, Livingston 555, Roundstone 383, and rural schools 442.

## 2 Killed In Crash

Two Danville men were killed Saturday night when their auto left US 150 in Lincoln County just west of the Rockcastle County line.

Killed were Harvey C. Hines, 22, and Robert Lee Hines, 34.

The accident occurred near the Turkey Creek Bridge scene of many fatal accidents. It was not reported whether the car hit the bridge, or left the road and overturned.

## Advanced Training

Army Private Donnie G. Bishop, 20, son of Mrs. Catherine Bishop, Brodhead, completed advanced infantry training, including a week of guerrilla warfare training, at Ft. Polk, La. Sept. 9.

During his guerrilla training, he lived under simulated Vietnam conditions.

## MVHS Loses Ballgame 41-6

Louisville Country Day combined a good ground game, and good passing to up-end the Mt. Vernon Red Devils 41-6 in a football game Friday at Mt. Vernon.

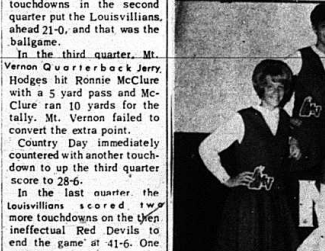

It was Mt. Vernon's second loss of the season against one win.

During the first quarter, it appeared Mt. Vernon might make a game of it when they held the Louisville school to one touchdown and a 7-0 first quarter score. But two quick touchdowns in the second quarter put the Louisville, ahead 21-0, and that was the ballgame.

In the third quarter, Mt. Vernon quarterback Jerry Hodges hit Ronnie McClure with a 5 yard pass and McClure ran 10 yards for the tally. Mt. Vernon failed to convert the extra point.

Country Day immediately countered with another touchdown to tie the third quarter score to 28-6.

In the last quarter, the Louisville scores on two more touchdowns on the then ineffectual Red Devils to end the game at 41-6. One

**CHEERING THEM ON**—Above are Mt. Vernon High School cheerleaders who are now active in the school's football campaign. Later they will take over cheering duties for the basketball team. From left, clockwise, are: Jana Murphy, Nita Sams, Suzey Hayes, Leigh Hiett, La Verne Chastean, Ann Stewart, and Vicki Burdette.

**COMING ALONG**—Workers are now building concrete supports for an Interstate-75 overpass of US 25 in the Burr area. Work on the Renfro to Burr section of the superhighway is progressing well and is termed on schedule.

down the front of the dress for an exotic Mandarin effect; jeweled cuffs in the same braid complete the Oriental princess look. Yet the dress, McCall's Pattern #8509, is a "Quicker" that doesn't demand a wealth of time or money to make.

If you prefer, you can omit the beading and substitute satin bands at neckline, sleeves and hem. Or, make a perfectly simple round-necked dress in a perfectly fabulous brocade.

These are just a few of the looks lighting up the current night scene. When the evening's getting a glow on, raggy girls will appear in jewel-belted overblouse dresses... shirtwaist shifts ablaze with brilliant prints... or tent dresses.

A shining example is the floaty chiffon cage overdress designed by McCall's, available in Pattern #8497. On the dance floor, it swings—from a ring collar crusted with brilliants, sequins or seed pearls. Underneath is a matching crepe slip dress that can be worn by itself to dazzle the crowd.

The softness of crepe-sparkled by the glitter of jeweled neckline and cuffs, marks another McCall's fashion: a long-sleeved shift in Pattern #8490.

And a real gem of a dress, the classic A-line with long, set-in sleeves, glows in silk or satin trimmed with beaded braid: The braid forms a standaway collar and marches

Mt. Vernon Signal

Kentucky as their share of Daniel Boone National Forest receipts for the past fiscal year.  
 Rockcastle's share is \$2,477.92.  
 Forest Supervisor Robert E. Collins said that a federal law enacted in 1908 provides that 25 percent of National Forest receipts be returned to counties in which National Forest land is located. The money is used for schools and roads.

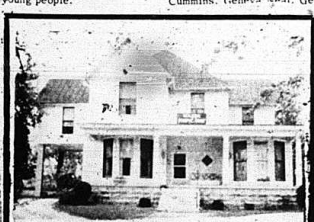

The amount to be received by Kentucky counties is part of almost \$5 million being returned to counties in the thirteen states of the Forest Service's Southern Region.  
 National Forest receipts in Kentucky amounted to \$100,737.48 and the amount each county receives is based upon this figure. The "dividend" for Kentucky counties this year is an increase of \$13,096.90 over a year ago - a 15% increase.

While most National Forest revenue is derived from timber cut by private operators under competitive bid, Forest Supervisor Collins pointed out that other forest resources, such as wildlife, recreation and water, are also managed and utilized.

**"COOPER'S PICNIC"**  
 (Continued From Page 1)

candidate for representative in the May primary, stopped to talk to most of the visitors.

Rep. Tim Lee Carter was unable to attend. He was taken to Bethesda Naval Hospital Friday after being stricken with a gall stone attack. He is reported improving.  
 Rockcastle was represented at the picnic. About 40 persons, from various areas of the county attended. More than half that number were young people.

**UNIQUE COFFEE BREAK IDEA**

Here's a new idea for what to serve at an afternoon or evening coffee break—creamy smooth homemade fudge. And this fudge is unique, too. It's flavored with surprising Instant Sanka Coffee. One secret of making fudge is to cook the syrup to the correct consistency or temperature—this is where a thermometer is especially handy. Also remember to allow the fudge mixture to cool without stirring so that no large, grainy crystals will form during the final beating.

**COFFEE FUDGE**

3 cups sugar	2 tablespoons instant decaffeinated coffee
1/4 teaspoon salt	3 tablespoons butter
1/2 cup light cream	1 teaspoon vanilla
2 tablespoons light corn syrup	
1 cup milk	

Combine sugar, salt, cream, corn syrup, and milk in saucepan. Bring to a boil, stirring constantly. Continue boiling, without stirring, until a small amount of mixture forms a soft ball in cold water (or to a temperature of 234°). Add coffee, stirring just to blend. Continue boiling, without stirring, until mixture again forms a soft ball in cold water (or again to 234°). Remove from heat. Add butter and vanilla but do not stir. Cool to lukewarm (110°); then beat until mixture begins to thicken and loses its gloss. Spread in a lightly greased 8-inch square pan. When cold, cut into pieces. Makes 1 1/2 pounds or 36 pieces.

**Flower Talk**

By: Ruth Fein  
**SWEET BUNCH OF DANCIES**

Daisy is a name given to many flowers. It means day's eye, because it seems like an eye opening in morning, closing at night. The American daisy is actually a wild chrysanthemum.

Our American daisy has been improved by plant breeders and is the flower of the month of April. The large Shasta Daisy has four-inch blossoms and is one of our loveliest flowers. It was named by Luther Burbank who worked to develop it.

For floral arrangements with a special touch of the bright and colorful outdoors call us at 256-291X. We will be happy to prepare them for you.

**Mt. Vernon Florist**

**CLOTHES WITH A COUNTRY AIR**

Want the new password to fashion success? Here it is: "country casual". Corduroy, quilted materials, quaint prints that look like a field of wildflowers, have never been so popular. Boys' suits and bell-bottoms in these fabrics have an easy-going elegance that looks right as rain in country, city or campus settings.

The simple lines of the little boy's suit lend themselves to homesewing. McCall's version, in the new Pattern #8438 (right), outlines collar, pockets and jacket front in machine stitching for added zip. The pockets have expensive-looking inverted pleats; the easy A-line skirt is perfect for strolling along country lanes. McCall's likes this misses' suit in printed cottons or wools, or in the brand-new flowered corduroys.

Quilted fabrics are highly recommended for another city-country suit, with flatter-

ing princess-seamed jacket and a skirt that can be made slim or full. Pattern #8488 comes in junior as well as misses' sizes.

The skimmer that's casual about its good looks is featured in an easy-to-sew McCall's pattern for misses, teens and pre-teens. Actually, there are three different dresses to be made from the basic Pattern #8378 (left).

For example, you could have a round-necked, bell-sleeved skimmer in a country girl print. Add palazzo with a hip-slipping patent leather belt. A sleeveless, collared version with double-buttoned self-belt would look cool in corduroy. The third skimmer, beltless and collarless, plays a plain skirt against a bold plaid or checked bodice.

Even big city girls are going to the country for fashion inspiration—so why not you?
