Weather Brochure Now Available

Do you know that Kentucky's annual mean summer temperature is 75 degrees? Or that the average annual rainfall across the Commonwealth is 45 to 47 inches?

These are just a sprinkling of facts about Kentucky in a new brochure published by the State Agriculture Department. Called "Serving Farmers and Consumers," the 32-page four-color booklet contains information relating to Kentucky agriculture.

There are sections on forests, lumbering, minerals, transportation, the thoroughbred industry, geology, general government, and other items. Agriculture Commissioner Wendell P. Butler says the brochure contains answers to many questions asked most frequently of the Department.

Butler said the new brochure should be available on request by the first of the year. They will be supplied free "as long as the supply lasts." Butler said.

Also available is the 1965 Centennial issue of "Kentucky Agricultural Statistics." Copies of either publication may be obtained by writing: Division of Information and Promotion, Kentucky Department of Agriculture, Capitol Annex Bldg., Frankfort, Ky. 40601.

Don't Catch Walleye During Two Months

A Kentucky game fish, the walleye, will have a protected status during February and March.

The State Fish and Wildlife Resource Commission has closed the walleye season during this period to allow a better spawn of fry. Walleye, the Commission said usually spawns during these months and the curb is designed to prevent anglers from taking adult fish just ready to spawn.

Fishermen who catch walleyes during this period are requested by the commission to handle the fish gently and release them unharmed.

The Commission also closed indefinitely Baren River Reservoir near Glasgow to all walleye fishing. Fisheries Director Bernie Carter explained that the lake, which was stocked with walleye earlier this year, is designed to be a source of this fish for stocking in other state lakes. He said the stocked fish must

120 Water Customers Pay

A total of 120 persons had paid \$100 for future-city water service by late Wednesday, according to a report from Jess Bullock, city treasurer.

The city needs 200 paid customers before it can get interim financing for the proposed lake at Renfro Valley. The State Highway Department is now waiting to see how the city does in its collection before calling for bids on the \$11,840,000 water project.

The new customers live along six roads. They will receive water when Lake Lincolnville at Renfro Valley is filled. Generally, the city is pleased with the response workers received when they contacted residents in the areas to be served. The group got 71 paid customers the first day. Only nine refused when contacted.

Said one prospective customer: "I don't want our area to lose the water line. We may never get a chance to get one again. I can't afford the \$100 right now, but I'm determined to get that much together."

The city said last week it would have to take the water lines into areas where there are no customers. Even though it meant changing lines from one area to another.

The City of Mt. Vernon was told last week it would have to have 200 customers, signed and paid, before it could get interim financing for the lake.

The council needs the interim financing so it can go ahead and purchase land that will be underwater when the lake is formed. Several months usually elapse between the start of a project and the arrival of the first check from the government. The council must borrow money from a bank to tide it over until the government checks begin arriving. Persons desiring to take water should contact City Manager Mary Ann Bullock as soon as possible.

On The Hardwood

For the second time this season, the Brodhead Tigers dented the Mt. Vernon Red Devils, and as in the first game, by a sizeable score. Brodhead got off to a fast start and never let up to defeat Mt. Vernon 86 to 69 at Broadhead Friday night.

Scoring for Livingston were: Lonnie Mink 14, Phil Childress 10, Bobby Childress 4, Jerry Poynter 3, Norman Owens 3, and Webb 2.

Tuesday night, in a close ballgame Mt. Vernon eased by Berea 73-71.

Jerry Hodges, with less than a minute showing on the clock, dropped in two foul shots to tie the score at 71-71. Then with one second showing on the clock, Hodges again dropped two foul shots through the hoop to give the Red Devils his win.

Hodges was high scorer for

A DIFFERENT CHRISTMAS TREE.—Mr. and Mrs. Orville McGuire of Wildie have a different kind of Christmas tree this year. The above tree is made of corn cobs. The tree was made by Mr. McGuire and her father, C. L. Brock. The tree is two feet high. Nails were driven in the center pole. Then a hula was drilled in the ends of the corn cobs and slipped on the nails. The green-dyed cobs gave a natural appearance to the tree. The two sons of the McGuires made most of the decorations.

house of Riley Jones.

David Johnson will be tried for shooting into the house of Henry Chasteen.

Cecil Rimell, Route 3, Mt. Vernon driver of the other auto involved, was treated and released at the Rockcastle County Baptist Hospital. Mrs. Rimell remains in the hospital where her condition is described as good. Mr. and Mrs. Jones were taken to Central Baptist Hospital, Lexington. The cars collided at a point where the three lane hill narrows into two lanes.

Laura Pigg Not Guilty

Mrs. Laura Pigg was found not guilty of the wilful murder of her husband, John Pigg, in Rockcastle Circuit Court Saturday.

Mrs. Pigg was accused of shooting her husband to death July 20 on a lonely country lane leading to a farm he reportedly owned. Mrs. Pigg was taken into custody later, but denied the shooting.

The jury deliberated about 15 minutes and reported to Judge R. C. Tarrant it was unable to agree on a verdict. Judge Tarrant told the jury to go back and deliberate further and to make a concerted effort to reach a verdict. The jury returned the not guilty verdict about 15 minutes later.

Mrs. Hammons Dimes Chairman

Mrs. Earl Hammons of Mt. Vernon, has been appointed Rockcastle County Chairman for the 1967 March of Dimes Drive.

The annual drive in January benefits more than a quarter of a million American children who are born with birth defects.

Mrs. Hammons' appointment came after she had expressed a desire to assist the work of the National Foundation on a local level.

Mrs. Hammons' noted in her acceptance statement that the phase of the Foundation's work that interested her most is the rapidly growing number of birth defects treatment centers throughout the United States.

Lighting Contest Judging Scheduled

Two elderly wildie women were frightened for nearly an hour Sunday night when two men entered their home, snatched it, and took a .38 pistol.

Miss Liza Coffey and Miss Della Coffey, sisters, were asleep at the time near a window. The men took a porch swing and rammed it through a window showering their bed with glass.

One of the women said she was slugged by one of the robbers. She described them as young and heavy-set. They reported two other men waited outside the house.

1.75 Land Case

A Rockcastle Circuit Court jury awarded Mrs. Viola McKinney and others, a total of \$18,000 for 44.56 acres of land on Interstate 75 south of the Burr Interchange. The 44.56 acres came from a tract of 244 acres.

Robert Graves Robbed

Robert Graves, who lives just across the Madison County line in US 25, was robbed at gunpoint last week. Three men reportedly entered the house and took about \$150.

The Rockcastle County developer for the Cumberland Valley Economic Opportunity Council this week attacked the Volunteers In Service To Appalachians (Vista) and the Appalachian Volunteers for what he called the attempt "to disrupt and overturn the power structures in the counties" of Eastern Kentucky.

It was the first comment made by Guilford Craig, county developer, since the 36-man board, representing eight counties in Eastern Kentucky and including Rowcastle, was suspended last week by Lawrence Williams, acting director of the Mid-Atlantic office of the Office of Economic Opportunity.

Mr. Williams said in his suspension that the board had not met its conditions of reorganization, and had been voting in closed meetings, a violation of OEO policy.

The suspended board then met at Barbourville Thursday night along with the council and fought its way through a stormy session amid charges of political involvement in the administration of antiparty program.

Mr. Craig in his statements concerning the Vistas and Volunteers said "the most severe and loudest complaint against these organized board members have been made by the Appalachian Volunteers, whose expressed objective is to disrupt and overturn the power structures in the counties; meaning to disrobe an official or responsible person of his position or influence, or who might hold a position that might be deemed influential."

Mr. Craig said further: "It seems that this 'strong' Volunteer and Vista program has caused OEO to call for quick and strict compliance with the grant provisions."

Mr. Craig said the rift between the board and the Volunteers developed when the board began "to question their motives and to frown on their teachings and tactics."

"He noted that one example of this rift was witnessed during a recent meeting at Barbourville, when after much disturbance, the chairman, Jesse Fryday of Knox County, invited all those present to stand and recite the pledge to 'OEO'."

Letter To Editor

Mr. Editor,
In regards to the little speech to the Republican Party by Mr. Hall, about progress, I say if the president would leave off a lot of the relief, welfare and things in that order it would save a lot of our younger generation from laziness. If you can remember Herbert Hoover you should be able to remember Woodrow Wilson's "meal gravy."
Check your history books and see for yourself that Hoover a "republican" was more beneficial to the poor than Wilson ever was. He started the C. C. C. and the W. P. A. for the poverty stricken.
I, myself don't believe in trading blood for prosperity. Ask some of the soldiers

returning that they think of Mr. Johnson's prosperity deal. They will probably say, "it's a hell on earth."

Edward Isaac Barnett
Mt. Vernon, Ky.

Dear Editor:

I have just read the letter from Mr. Hall of Missouri in answer to my article you published several days ago. I would like, if I may, to give Mr. Hall and anyone else who may be laboring under a similar misapprehension a few facts:— Mr. Hall completely missed the point of my story. It was not written with any malicious intent nor to offend anyone. The story was meant to be humorous, but evidently he did not think it funny. The story was a complete fabrication from beginning to end. I do not know of any such speech on the radio; in fact I do not even own a radio

or a television. Nor for that matter neither do I own a mail keg. As for the hand made curtains, this too is fiction. The curtains came with the place, and judging from their appearance they are the best money can buy — in any dollar store in the nation.

Mr. Hall implies that times are better now than they were in the administration of Mr. Hoover. I am sure that they are. However, I am not old enough to remember, so I will bow to the greater knowledge of Mr. Hall. If he would like to get technical, however, I also think times are better than they were in the reign of F. D. R. Back then you could buy a loaf of bread for a dime. Must either move forward or backward, it cannot stand still.

As for the part about me getting off my behind and looking for a job, I would like to tell Mr. Hall that I was forced to resign my job a few years ago, due to a medical disability. I am unable to pursue gainful employment, so I am not looking for a job. If I were, however, I would not have to leave Rockcastle County to do so;— otherwise I would like Mr. Hall to know that the job I was forced to

resign was the position of Deputy County Clerk under, of all things, a democratic administration. In my opinion the roads in Rockcastle Co. are no better and no worse than those in any of the other small rural counties in Kentucky. From what I have seen there is room for improvement in all of them. As far as the employment problem is concerned, I believe some type of industry is bribed to move in.

You said that Rockcastle Co. has not changed much. This statement, I believe is true. But if you and I and others like us had remained in the county and worked constructively for the benefit and betterment of said county, then perhaps it would not be such a puny, pitiful, poverty-stricken, poor place.

From the tone of your letter I felt that you thought I was criticizing our president. This was not true. From time immemorial where there have been great men, there have also been men to poke fun at them. (A lot of people even laugh at me). This is usually done good naturedly and with no critical or malicious implications intended. This is one of the things that makes democracy a form of Government that is as close to perfection as it is humanly possible to get. There have been both good and bad presidents on both sides of the fence, but the singular fact that the president is a democrat does not mean he is infallible. He is only human, even as you and I.

In conclusion, I would like to tell Mr. Hall that I am not feeling sorry for myself. If I were, I would have blown my brains out (if any years ago). Provided, of course, I could have borrowed the money to buy a gun.

Respectfully,
Joe Harman
Berea, Ky.

My Christmas Wish

I wish a wish at Christmas
Oh, Yes I do,
I wish the children everywhere,
Had the things I do.

Presents

And parties,
Oh, Christmas is fun
Look at that poor boy he has none.

People in blue, people in red,
People with funny hats on their heads.

Children are happy, they are gay,
O, soon it will be Christmas Day.
Our tree is pretty, it is bright
The stars are shining in the night.
God gave us holly with berries
so red.

And sent Jesus our savior to Bethlehem's bed.

I wish for snowflakes soft,
fluffy, and white,
And carols that are sung
early at night.
I wish for snowbirds that
sing all around and bless-

"I wish all of them drove as carefully as you, Santa!"

MERRY CHRISTMAS, EVERYONE

As the Christmas season approaches I would like to take time out to extend to each and every one in Mt. Vernon and Rockcastle County a very Merry Christmas and a Happy and Prosperous New Year.

I know I can never convey in words the thanks and appreciation I feel for all of you for all the letters, cards and lively gifts I have received from you and most of all for the Gift of Love you have so generously sent along with your cards, letters and gifts.

It means so much to a service man away from home to know

you still remembered him and care.

I would like for you to take time out with me to breathe a silent prayer to God that on this day we celebrate the birth of a child that changed the course of the world and that being the birth of the Christ Child.

Let us not forget that on this day that Christ was born in Bethlehem in a manger wrapped in swaddling clothes that we may have peace on earth and a home eternal in heaven.

But in order to have that lasting peace and a home in heaven we have a task to perform daily for the Christ that was born on that first Christmas day. Let us all thank God for giving to us the Greatest Gift of all. The Gift of the Lord Jesus Christ.

And too as his Christmas season approaches let us also look around us and not forget that needy family. That child in tattered rags and tears in his eyes. Because there were no gifts or toys for him to bring a smile to his tear streaked face. Let's remember some one of this nature this Christmas and put a smile on some child's face and dry the tears from his eyes, and put an expression on his face that would warm the coldest night. And to offer some lost soul a gift of lasting love. The
