### THE FAMILY LAWYER

**"OK"**  
Williams decided he did not need that air conditioning system for his office after all. But the manufacturer insisted: "You have already confirmed the order."  
"It is true that I marked an 'OK' on the order form," conceded Williams. "But that is not legally binding. 'OK' is just an abbreviation, not formal enough for a written contract."  
Nevertheless, in a court test, the judge held Williams bound by his agreement. The judge said that, if "OK" is not elegant English, its meaning is clear—and clarity is what counts.

By and large, the law takes a tolerant view of abbreviations. For the purpose of language, whether formal or informal, is communication. If the abbreviated form succeeds in that purpose, then the law is usually satisfied.

Thus: a receipt by a bank president was held valid, even though he designated himself as "pres.," a promissory note signed "W. G. S." was held valid, because "S" was clear whom the initials stood for, and "3/7/54" was held a sufficient substitute for "March 7, 1954," in establishing the date of a transaction.

What about nicknames? They, too, are generally acceptable if there is no doubt of identity. For instance, a bequest to "my dear Joe" was upheld when there was only a single Joe whom the deceased could possibly have meant. "Jack" has been held an acceptable substitute for John, and "Geo." for George.

But a short form that leaves room for doubt can be costly. "Emma" was held too different to pass for Emily, and so was "May" for Mary.

In one case, a man who set a truck used a three-letter abbreviation on the bill of sale to identify the model. But he failed to add the model year. The buyer later sued him, successfully, on the ground that he had not been properly informed as to what model he was getting.

Writing down the year in the first place, instead of just the abbreviation, would have taken the seller about three seconds. The litigation took three years. An American Bar Association public service feature by Will Bernard. © 1966 American Bar Association

visited Mr. and Mrs. Vernon Cox Friday. We are glad to report Mr. Cox is feeling better.

Mr. and Mrs. Everett Purcell and John M. visited Mr. and Mrs. George Burton Sr. Friday afternoon.

Mr. and Mrs. Tilden Owens celebrated their wedding anniversary Sunday. New Years' Day at their home. The Hysinger boys have been butchering hogs this week.

### IN MEMORY OF JOHN LOVINGS

Just nine months ago today, dear John since you went away. Life hasn't been the same since you went away. I miss him more, my heart is so sad without you Dad. I wish I could have taken your place and you could have lived, but it wasn't God's plan. Our home is so lonesome without you dear John. I will see you again soon in a better world. It was good night here, but

good morning over there. Sadly Missed by Wife Carrie Lovings

any better—should be made to realize the seriousness of their actions," the Postmaster said. "A \$1,000 fine or a term in jail is enough to take the humor out of any prank."

city policeman, is charged with the slaying of J. P. Hopkins, 21, of Piqua, Ohio and Bryantsville near Crab Orchard.

According to Brock, he began pursuing Hopkins' car in Crab Orchard to issue a traffic citation. He said he followed Hopkins through Brookhead and to the home of Mr. and Mrs. Henry Bryant at Negro Creek. The shooting occurred at the Bryant's home. Mr. Bryant is the uncle of the dead man. Since the jury could not reach a verdict in the case, a new date for the trial will be chosen in March.

WHAT'S WRONG WITH THIS PICTURE? Plenty, in the opinion of safety experts. The cyclist and his pretty passenger (both models) wear no protective gear like helmets, goggles, boots and sturdy clothing. Their machine has no crash bars. And there's no windshield or cowling. The U. S. Public Health Service says youth, 15 and 20, suffer more accidents than any other age group. And beginning cyclists have twice as many accidents in the first six months of driving as after.

Institute Publishes Data Book

The 1966 "Source Book of Health Insurance Data" has been published by the Health Insurance Institute. First issued in 1959, this is the annual's 8th edition. It illustrates in text, charts, graphs and tables the growth of private health insurance in the United States through December 31, 1965.

The Source Book reports data on the number of persons who have private health insurance protection in the United States.

Flower Talk

BY: RUTH FAIN. COLORFUL FLOWERS. Have you ever wondered why you never see a green blossom. Botanists have reached the conclusion that a green blossom would hardly be seen by the insects or birds that are so vital in the life process of plants by aiding pollination.

Hence, God in His creation of flowers and their process of life, thought of everything to assist their beauty and existence.

We try to make flowers more beautiful... our arrangements are given special attention and care, our corsages are carefully prepared...

## City Officials To Meet; Discuss Water Purchase

RE-ELECTED. The Rockcastle Baptist Hospital Board met Monday night for its first regular meeting of the year and re-elected all members of its Executive Committee. Officers of the committee are: R. D. McKenzie, president, R. H. Hogg, vice president, Preston Nunneley, secretary, and Arch French, treasurer. Members are: W. H. Harris, Earl

Bullock, Cletus Peters, and C. H. Noe. Members of the board standing from left to right are: Charles Baker, administrator, Mr. Peters, Mr. Nunneley, Mr. Harris and Mr. French. Seated from left to right: Ernest Stanley, Roy Pope, Mr. Noe, Mr. McKenzie, and Mr. Bullock. R. H. Hogg was not present when the picture was taken.

The Board of Trustees of Brodhead will meet with the Mt. Vernon City Council Thursday night (tonight) to discuss the purchase of water.

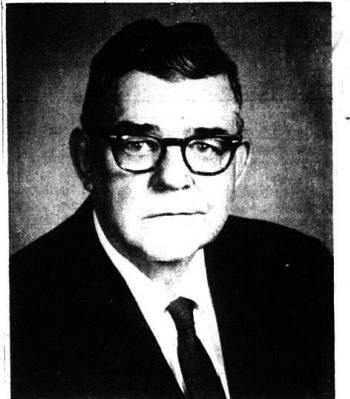

Jack Crawford, Engineer for the Rawlins Valley Dam and Lake project, told a group of citizens, including

members of the board, at a meeting at Brodhead Monday night, that the cost to the Town of Brodhead would be less than if they (Brodhead) tried to process and distribute their own water supply.

According to Mr. Crawford, the cost would be approximately 35 to 40 cents per thousand gallon if purchased from Mt. Vernon.

At the present time, Brodhead has an application pending before the EPA for a grant and loan of approximately \$700,000. The project includes a dam and water treatment plant, a new sewer system and water storage tank. If Brodhead should decide to purchase water from Mt. Vernon instead of building the dam and water treatment plant, the cost of the project would be lowered by approximately \$100,000. The cost of constructing the lines from the meter to the sewer system and the storage tank would all be included in the project.

The City of Mt. Vernon would install a meter near Hamm's Drive in on US 150. A six-inch line would run from there to Brodhead, parallel to the highway. According to Mr. Crawford, a six-inch line would be more than adequate for the town's present and future needs. Upkeep on all lines past the meter would be Brodhead's responsibility.

## Judge Charles Carter Files For State Senators Race

Former Rockcastle County Judge Charles C. Carter has announced his candidacy for state senator, from the 19th District, in the May Republican primary.

The district is composed of five counties: Jackson, Owsley, Clay, Laurel, and Rockcastle. The seat is now held by Pleviz Moider of Manchester. Mr. Moider, a candidate for Lieutenant Governor, will not seek re-election.

Mr. Carter, county judge for 4 terms, is a member of the **Baker Reopens**

## Stewart Appointed

City councilman, Charles (Turk) Baker resigned Thursday night from the council. Local businessman, Wayne Stewart was appointed to serve the unexpired portion of his term.

Mr. Baker's resignation became necessary when he moved his residence beyond the city limits. This, of course, made him ineligible to serve on the council.

## NO VERDICT IN BROCK TRIAL

The foreman of the Rockcastle County Jury informed Circuit Court Judge R. C. Tartt Friday that the jury was hopelessly deadlocked and would be unable to return a verdict in the willful murder trial of Elmer (Dutch) Brock.

## Coleman Mink Elected School Board Chairman

Coleman Mink, school board member from Educational Division 5, and Harold Ballinger, board member from Educational Division 4, were elected chairman and vice chairman, respectively, of the Rockcastle County School Board at their first regular meeting of the year, January 2.

Mr. Mink has been a member of the school board for several years. Mr. Ballinger was appointed to fill the remainder of the term of Virgil Mullins.

Mr. Mullins was forced to resign following a suit filed by the State Attorney General's office. The suit declared Mr. Mullins ineligible to serve since he did not have an eighth grade education. Since that time, Mr. Mullins has completed that level of study.

The school board includes two new members, they are: Bradley Saylor, who defeated incumbent member Preston Nunneley in the November election, and Willie Taylor, who was appointed to serve the remainder of Chairman John E. Harris' term. Mr. Harris resigned the latter

part of November. In other business, the board decided to ask the people of Rockcastle County to suggest a location for the 35 acre site of the new \$450,000 vocational school. The school was approved in December, and construction is expected to begin this year.

A coupon, asking readers to fill in their preference for the location and return to the school, will be found elsewhere on the front page.

The vocational school will serve Rockcastle and Southern Madison counties and is one of three to be constructed when the \$1,025,000 becomes available. The other two sites are at Carrollton and Harrodsburg.

The funds for construction of the school, will be comprised of 40 per cent funds from the state, 40 per cent funds from the federal government, and 20 per cent from the Rockcastle County School System.

The school system now their share of the funds will not come from local tax money but from capital out-

Money Ed Cummins

## Money Ed Cummins For Commissioner

Money Ed Cummins, Rockcastle County Circuit Court Clerk, has announced his candidacy for the position of Commissioner.

Mr. Cummins, a farmer, is a member of the I Flat Rock Baptist Church, a former Master of the Dave Jackson Masonic Lodge No. 731 at Livingston, a member of the Mt. Vernon Chapter Order of the Eastern Star, and a member of the Royal Arch Masonic Lodge of Mt. Vernon.

He is a former employee of the L & N Railroad and a past county judge and state representative.

Mr. Cummins will not have to resign his county office to seek election.

To date, two Rockcastle men have entered the race. Carlos Carlotts, a democrat, filed previously.

## Local Lion's Club Receives \$225 Keeneland Gift

A \$225 contribution from the Keeneland Foundation to the Mt. Vernon Lions' Club at a meeting Thursday night at Belfry Acres Restaurant.

President Wayne Stewart accepted the check from club secretary Larry Travis.

The money is a yearly contribution and is used by the club for its sight conservation program. The club purchases on the average of 25 pair of glasses each year for children who cannot afford them.

In addition to its sight conservation program, the club helps with the summer recreation program, furnishes transportation for the 4-H Club boys and girls to go to camp each year, and contributes to other worthy groups.

## Griffin Named Bldg. Inspector

H. B. (Hobe) Griffin, Rockcastle County Magistrate has been named Building Inspector by the Mt. Vernon City Council.

Mr. Griffin, a Magistrate for the past 14 years, is also County Civil Defense Director.

He is an employee of the City of Mt. Vernon and a former State Highway Department in Rockcastle. The new city job became effective when the necessary when the city council adopted a housing and unsafe building code.

The council approved the code recently as part of its workable program of improvement of the town, as required by the Federal government in order for the town to qualify for various federal programs.

Mr. Griffin's appointment is effective immediately.

## Local Post Master Warns Vandals

Mailboxes are protected by Federal law, and pranksters or vandals who damage or destroy the boxes and their contents may be in for a heavy fine or imprisonment. Postmaster James O. Smith warned today.

The Postmaster noted that some 25,000 mail receptacles were damaged or destroyed in the past year. It was also noted that 2,641 persons were arrested in the year up to June 30 for damaging or destroying mail receptacles.

Postmaster Smith quoted from the law: "Whoever willfully or maliciously injures, tears down or destroys any letterbox or other receptacle intended or used for the receipt or delivery of mail on any mail route, or breaks open the same or willfully or maliciously injures, defaces or destroys any mail deposited therein, shall be fined not more than \$1,000 or imprisoned not more than three years."

This applies to all mail receptacles and the mail in them, even though the receptacles are bought by citizens and are their personal property. Postmaster Smith emphasized.

## LHS Handed 13th Defeat MVHS And BHS Score Wins

The Brodhead Tigers continued their winning streak with their 13th win Friday night over Crab Orchard by a score of 78 to 56.

BHS led at all the quarter stops with the outcome never

in doubt. The quarter scores were: 22-9, 39-19, 61-9, and the final tally 78-56. Individual scoring for Brodhead was led by Bray with 28, Van Hook with 19, Adams 11, Sargent 11, Scott 5, Bussell 3, and Stevens 1.

Brodhead will meet McCreeay Friday night and McCreary County Saturday night. Both games will be played away.

MVHS scored a 72 to 52 victory over Burgin Friday night to bring their season record to 7 wins against 5 losses. At the end of the first quarter, Mt. Vernon led by six points which was the closest of the two teams were, at the end of any of the quarter stops.

The quarter scores were: 17-11, 35-17, 56-31, and the final count of 72-52. The Red Devils met one of the top teams in the state Friday night when they played Lexington Tates Creek here. Livingston High School suffered their 13th defeat of the season Friday night when they were handily downed by Eubank with a score of 63-39.

The outcome of the game was never in question. Eubank was graduate in question. Eubank (Continued To Page 5)

**Growing family call for added room?**

**Add more comfort, too, with electric heating!**

Building an extra room? Build in the extra comfort of electric heating without overloading your present heating system. Thermostatically controlled electric heat gives you wall-to-wall warmth that's clean, quiet, free of drafts and heat layers. Economical, too. No flames, no fumes - no ducts - no moving parts to repair or adjust - no fuel to order and store.

So for further information about this supplemental heating - or about possibly converting your entire system - call your local KU office. In these modern times you owe it to yourself to learn more about electric heating - the way of today.

Women Make Up The 'Safer Sex,' A Survey Shows

When it comes to accidents, women are decidedly the safer sex, but not in the home.

The Health Insurance Institute, reporting on National Health Survey data said that there were an estimated 33.7 million accidents a year in this country—totaling for 31.8 million of that total, and women 22.1 million.

In the home, women had slightly more accidents with 12.6 million mishaps as compared to 12.4 million for men.

The reason of course is that women generally spend more time in the home than men do, mishaps involving women were very low in number—1.4 million.

Other Accidents In accidents involving moving motor vehicles, females had 1.6 million mishaps and men about 2.0 million.

In all other types of accidents it was 11.5 million for men and 7.2 million for women.

The NIBS report was based on household interviews of the civilian population. The data were collected over the 24-month period ending June 1965.

An "injured" person was defined in the survey as one who as a result of an accident receives medical attention of whose usual activities are restricted for at least a week.

Meanwhile, in another study, it was reported that accidents were the leading cause of death among persons between the ages of one and 37, and the fourth leading cause of death for all ages.

In 1965, the report noted, 52 million accidents—injuries killed 107,000, temporarily dis-

Health Insurance Benefits In 1966 At \$10.6 Billion

Private Programs Protect Estimated 159 Million Under Hospital Expense Plans—Records Are Set

Americans received a record \$10.6 billion in private health insurance benefits during 1966.

These were the Institute's estimates of number of persons covered by the different types of private health insurance as of December 31, 1966.

Hospital expense—159 million. • Medical expense—115 million. • Major Medical (insurance companies only)—55 million. • Disability income—33 million.

These developments, along with the continuing sizable growth in the under-65 population, produced during 1966 an estimated increase of three million in the number of persons with hospital insurance, according to the Institute's preliminary figures.

Early reports indicate that many persons aged 65 and over are purchasing policies that supplement the Medicare benefits.

Others continued their private coverage after coming under the Government program, the Institute said.

These developments, along with the continuing sizable growth in the under-65 population, produced during 1966 an estimated increase of three million in the number of persons with hospital insurance, according to the Institute's preliminary figures.

In this estimate stands up when the full survey of year-end coverage figures is completed, it will show the smallest annual growth in coverage since 1962.

Many group plans also are designed to supplement Medicare.

Of the total estimated benefits of \$10.6 billion in 1966, insurance companies paid out \$5.7 billion, including \$1.1 billion in disability income insurance benefits.

Persons covered by insurance company policies also had \$1 billion toward hospital bills, and \$1.7 billion for surgical and medical expenses.

The 1966 insurance company estimated benefit total was ten per cent higher than the 1965 total of \$5.16 billion, the Institute said.

**Letter To Editor**

Dear Editor:  
 Regarding Mr. Craig's article of Dec. 22, 1966, I would like to clear up a few things.  
 First, VISTA stands for Volunteers in Service to America and not Appalachia. There are currently over 3,000 Vistas serving all over the United States on Indian Reservations, migrant workers camps, mental health hospitals, Job Corp. Camps, cities and Appalachia. We are part of the War on Poverty backed by the Federal Government and are given a subsistence allowance by the Federal Government. I wanted to make clear this point because I have heard other people question our integrity and who we were backed by. Each Vista has a sponsoring agency and mine was the Appalachian Volunteers who also receive their money from the Federal Government through the War on Poverty.  
 I was rather surprised to learn that the expressed purpose of the Appalachian Volunteers was to overthrow the power structure. Our purpose is to bring people together to discuss the problems they feel they have in common and develop a solution for them. The same thing which the Rockcastle Economic Opportunity Council which Mr. Craig is working under is supposed to do. Sometimes people see as part of the solution to a problem a need to go to a county official and ask for something. A group of people going to see a county official like this was a rare happening in some places before an Appalachian Volunteer of a Vista arrived. Because people are doing this now and can see they can make progress this way and are also going to other meetings such as school meetings, the Vistas and Appalachian Volunteers are said to be trying to overthrow the power structure. No, we are trying to get cooperation between the power structure and people. The same cooperation we once had in Rockcastle with the schools. The Appalachian Volunteers have worked in Rockcastle County with the schools for two years doing renovation work on the one-room schools, adding books to libraries and in some cases creating libraries and bringing new ideas to children and parents. This has been done without any fireworks and attacking the county officials. Now we suddenly find that we are faced with the case of the building for a new project, community meeting or P.T.A. meeting. And for no other reason than "things are going on in Harlan County that we don't like and we are scared." Now isn't that silly? Harlan county and conditions there just aren't the same as Rockcastle. Rockcastle does resemble Jackson County where the Appalachian Volunteers are

currently working in the schools and there is no friction there, so why should it be here?  
 One other point, Mr. Craig said that the Appalachian Volunteers and Vistas have been the loudest and most vocal in their complaint about the area board. If he will reflect back, he will realize that no Appalachian Volunteer or Vista has spoken at an Area Board Meeting and any complaint about the board has been voiced by community people. There is no representation of community people on the Area Board and in the case of Rockcastle not having a community organizer to develop a representation, that is a political situation. Our representatives obligated themselves to back a man whom the area director does not recommend and his recommendation was turned down. So, we are at a standstill.  
 I have just finished spending sixteen months in Rockcastle County which I enjoyed until the last two weeks when the school decision came about and Mr. Craig's article appeared. This all makes me wonder what I did for sixteen months but I know I leave many friends in the county who will carry on the work we started.  
 Rockcastle County has a great future with the new lake and I-75, both of which can help to really develop this county into a wealthy area. The potential is here, but it takes every one working together to do it, so don't divide forces.

Sincerely,  
 Lairy Grosscup

**Medicines Cost Each American Average of \$21**  
 The average American spends \$21 a year on medicines including what he buys of the drug-gist's shelf, the Health Insurance Institute said today.  
 The Institute, reporting on a study by the U.S. Public Health Service, said that doctor-prescribed medicines make up three-fourths of the average person's annual drug purchases. The PHIS report showed that the cost per person for prescribed medicines increased steadily with age. Expenditures for youngsters under 15 years of age, for example, averaged \$6.40 for prescribed medicines, while the costs for persons over age 65 averaged \$41.40.  
 For these same age groups, the corresponding expenditures for nonprescribed medicines were \$4.00 and \$8.80. The female population, the report said, spends 55 cents more per year than males. The average was \$18.50 per year for females and \$12.00 for males.  
 As would be expected, persons with chronic conditions expended greater amounts of money than persons who had no chronic condition.  
 During the PHIS survey period (July 1964 to June 1965) physicians wrote an estimated 880 million prescriptions, "but averaged out to 4.7 per person per year, including "retail" prescriptions. The average cost per purchase was \$3.60.  
 An estimated 65 per cent of

the cost of nonprescribed medicine was in drug stores and 20 per cent in grocery stores. The rest was spent for medicines purchased in department stores and mailorder houses.  
 The Institute said that the costs of prescribed medicines are normally covered under basic health insurance policies while the insured person is in the hospital. Under major medical type programs, costs for prescribed drugs are normally covered in and out of hospital.
