LEGAL NOTICE
THE BOARD OF TRUSTEES OF THE CITY OF BRODHEAD, KENTUCKY, met in regular session at the regular meeting place said City on this date, the regular meeting of 5th day of June, 1967, having been adjourned to this date.

There were present at said meeting Clarence E. Bradley, Chairman of the Board of Trustees, and the following Board members: Preston Parrett, Bobby Proctor and Johnnie Wilcox. Absent: Layal Adams.

The chairman of the Board of Trustees announced that a quorum was present and that the meeting was open for the transaction of business.

E. H. Robbins, City Clerk made the following report: "To the Board of Trustees of the City of Brodhead, Kentucky: Gentlemen:

Pursuant to the resolution and ordinance introduced at the meeting of the Board of Trustees on 1st day of May, 1967, I was authorized and directed to advertise and receive bids for a franchise defined by said ordinance for the use and occupation of the streets, alleys, avenues, highways and public places in this City for the sale and distribution of television cable service. In accordance therewith, I advertised the ordinance defining the franchise and the terms

and conditions upon which it was to be granted by publishing the proposed ordinance once a week for three (3) consecutive weeks in THE MOUNT VERNON SIGNAL, Mount Vernon, Kentucky, accompanied by a notice that would refer to the franchise application for sale on the 26th day of May, 1967, at 8 o'clock P.M. at the City Hall.

Pursuant to said resolution, notice, ordinance, advertisement and publication, I offered said franchise for sale at public outcry, at the time and place mentioned in said notice. The highest bid received was that of Johnnie Wilcox, and the amount of the bid was Ten (\$10.00) Dollars, and it was the only bid made.

The bid of Johnnie Wilcox of \$10.00 was accepted by me as the highest and best bidder, subject to the right of the Town Board to reject said bid.

I further report that said sum of Ten (\$10.00) Dollars is in excess of all costs in any wise incurred in connection with said franchise, including all costs of advertisement, sale and publication thereof, and that Ten (\$10.00) Dollars has paid to me as City Clerk the amount of said bid.

Dated 26 day of May, 1967, E. H. Robbins, City Clerk, Brodhead, Kentucky.

Thereupon, upon motion duly made, seconded and carried, it was ordered by the Board of Trustees that said report of the Clerk be, and it was received and spread upon the minutes of this meeting as a part of its records in this matter.

Thereupon, Board Member Bobby Proctor introduced the following resolution:

WHEREAS, pursuant to the action of the Board of Trustees at a former meeting, the City Clerk received bids at public outcry for the sale of the television cable service franchise created by ordinance introduced at said meeting, after due notice and advertisement as shown by his report;

WHEREAS, Johnnie Wilcox was the highest bidder for said franchise and was accepted by the Clerk as the highest bidder, subject to the right of this Board of Trustees to reject said bid; and

WHEREAS, it is the option of this Board of Trustees that the bid of Johnnie Wilcox was and is the best, as well as the highest bidder for said franchise, and WHEREAS, it is the opinion of this Board of Trustees that it is to the best interest of this City that the bid of Johnnie Wilcox be accepted as the highest and best bidder for said franchise, and that said franchise should be sold and granted to it;

THEREFORE, BE IT RESOLVED that the aforesaid ordinance introduced at the meeting of June 5th, 1967, be now adopted, with the name of Johnnie Wilcox inserted in Section 1 thereof as the grantee of the franchise therein provided.

BE IT FURTHER RESOLVED that the City Clerk be, and he is hereby directed to publish said ordinance in the Mount Vernon Signal, Mount Vernon, Kentucky.

Said Board of Trustees moved the adoption of said resolution and said motion, being duly seconded, received the following affirmative votes: Preston Parrett, Johnnie Wilcox, Bobby Proctor, Clarence E. Bradley, Chairman, Board of Trustees - Brodhead, Ky.

ATTEST: E. H. Robbins, Clerk, Brodhead, Kentucky.

Interstate Progresses

LEVELING THE WAY.—An Auto-Grade machine, belonging to the W. L. Harper Construction Company of Covington, is shown leveling the bed for Interstate 75 near the Rockcastle County line heading south. Workmen said surfacing on the southbound lane would begin within the next few days.

AT RENFRO.—The by-pass around Mt. Vernon has reached the final section for grade and drain as a construction company makes a cut through the mountain overlooking Renfro Valley. In this case, work was begun on the by-pass at Burr.

SPAN THE GAP.—The U.S. 25 overpass at Burr has been completed. Soon motorists will have new "old" U.S. 25 to travel on as the present U.S. 25 will be filled for a bed for the Interstate.

CUTTING IT DOWN TO SIZE.—The Chestnut Ridge section will soon have a different look entirely as work on I-75 progresses rapidly. Rock from the mountain is being used to fill the hollow to the north of the cut.

\$1,450 Paid For Buffalo School

Donald Binder of London paid \$1,450 for the old one-room Buffalo school, located at Buffalo in the Southern most part of Rockcastle. The school board decided to sell the building and property at public auction since it had not been used for some time by the school system.

The purchase price was more than the property had been expected to bring. However, bidding was stiff before it was finally sold to Mr. Binder.

It is believed that the building, which is located adjacent to an old church, was bought by Mr. Binder so it could be torn down and the land used for a parking lot. The church building is presently being utilized for a Baptist mission.

GRADUATES.—Gary Coffey, son of Mr. and Mrs. Bill Coffey of Mt. Vernon, graduated from Campbellsville College May 25 with a bachelor of science degree and has accepted a teaching position in English at Hodgenville. Gary is the playground director for Mt. Vernon's Summer Recreation program.

7 Graduate From Eastern Ky. University

Seven graduates from Rockcastle County were among a graduating class of 706 at Eastern Kentucky University's 60th spring commencement held this week in Alumni Coliseum. Those receiving degrees from Rockcastle were: Randall Clark, Judith Jordan, Otis Noe, and Paul Thomas, all of Mt. Vernon, Bachelor of Science; John G. Hamm, Brodhead, and Mrs. Grace Ann McCowan of Livingston, Bachelor of Arts, and Terry L. Owens of Mt. Vernon, Associate

of Arts. The graduation program concluded a three-day commencement weekend that began Saturday with Alumni Day. Baccalaureate services were held Sunday at 2:30 p.m. in Alumni Coliseum with Dr. William W. Slider, pastor of the Christ Methodist Church of Louisville, addressing the graduating class.

DONATION FOR CAMP

Mr. and Mrs. Robert Hubbard, operators of a Mt. Vernon Laundromat, will donate the proceeds from their laundromat on Wednesday, June 14, to the Christian Church Camp, now under construction near Brodhead.

Playground

The Mt. Vernon Summer Recreation Program opened June 5 at the Mt. Vernon High School Playground. The schedule for league play is as follows:

Little League plays Tuesday and Thursday at 2 p.m. and Saturday at 5 p.m.
Pony League plays on Monday, Wednesday, and Friday at 2 p.m.
Pee Wee League plays Tuesday and Thursday at 6 p.m.
Girls Softball plays Saturdays at 2 p.m. and Girls Volleyball plays Monday and Friday at 6 p.m.

Other activities include horsehoes, tennis, volleyball, shuffleboard, four-square, badminton, box hockey, taktaw game, croquet and tether ball. Playground Director, Gary Coffey, asks that any men interested in joining a men's softball league please contact him.

WEATHER
Continued warm through Thursday with possibility of scattered thundershowers.

LOCAL FARMS ELECTED TO ANGUS ASSOCIATION

R. B. Swinford Farms, Mount Vernon, have been elected to membership in the American Angus Association at St. Joseph, Missouri, announces Glen Bratcher, secretary. There were 75 memberships issued to breeders of registered Aberdeen Angus in the United States during the past month.

GOSPEL MEETING

A gospel meeting will begin June 11 and continue through June 18 at Mt. Zion Church, Christian on Route 39 in Lincoln County. Bro. Thaddeus Eubank and Arnold Larkin will be the evangelists.

Everyone is invited to attend the services which will begin each evening at 7:30 p.m.

Community College Summer Sign-Up June 12

A schedule of 17 classes will be offered during the Summer Session at the University of Kentucky Somerset Community College. The eight-week session starts June 12 and ends August 4. Registration for summer classes will take place Friday June 9, from 8:00 a.m. until noon.

Full-time students may take as many as nine semester hours during summer school. Full-time students, who are residents of Kentucky, pay an \$80.00 registration fee. Part-time students (those taking less than six semester hours) are charged \$14.00 per semester hour. Most three-semester-hour courses will meet for one

full hour each day Monday through Friday during the Summer Session. With the exception of certain laboratories, no instruction will be offered after 12:30 each afternoon. Summer Session catalogs are now available at Somerset Community College.

CITY COUNCIL NOTES

At the regular meeting of the Mt. Vernon City Council, Thursday night, the members voted to start condemnation proceedings against property owners who have not signed a sewer easement if easements cannot be obtained. The council also voted to obtain a state bid for the cutting of hay and timber, on the Renfro Lake project, up to the elevation of 969.00.

Livingston Man Killed In Madison Co. Shooting

Richard Overbay, 51, of Livingston was shot and killed early Sunday morning in front of the Dennis Green residence on the Red Lick Road in Madison County.

Death was caused by a 22 automatic pistol wound in the heart.

According to a state police report, Overbay was shot by Floyd Earl Jackson, 23, of Big Hill, Jackson, with his wife, Margaret Fay, 17, his one-year-old daughter, Leesa Lynn, and Meral Lakes, 11 years-old, was returning home after attending a theatre.

Near Red Lick Road, a white 1960 Oldsmobile nearly forced Jackson's car off the road while passing. About a quarter of

a mile later down the road, the vehicle blocked Jackson's path. Two men, one of them Overbay, got out of the car. Jackson, noticing that Overbay was carrying a chrome-plated pistol, reached into the glove compartment of his car and took out a 22 automatic pistol.

The report further stated that as the two men approached the Jackson car in a threatening manner, Jackson fired a warning shot and told the man to "leave him alone." The men continued to advance and Jackson fired 3 or 4 shots at them.

Overbay leaped into a ditchline and the other man, Earl Griffin, also of Packcastle, left in the car. Jackson fled and called the state police at Richmond.

COMPLETES COURSE.—Army Private Paul R. Cox, 20, son of Mr. and Mrs. Clarence Cox of Brodhead completed a field communication course at Ft. Huachuca, Ariz., May 19. Pvt. Cox, whose wife, Ruth lives at Frankfort, was also given instruction in basic electricity.

Jack B. Dailey of Mt. Vernon recently was named to membership in the American Herford Association, the world's largest purchased registry organization, with headquarters in Kansas City, Missouri.

At 3 p.m., Monday, June 5, Jackson was arrested by state police and lodged in the Madison County Jail where he was charged with murder. A hearing will be held Friday, June 9, in the case.

Mr. Overbay was the son of the late Jackson and Francis Mullins Overbay and the husband of the late Ida Overbay.

Survivors include, five daughters, Mrs. Flossie Jones and Mrs. Glessie Hubbard, both of Livingston, Mrs. Hazel Dargavell and Mrs. Rosa Dargavell, all of Pichmond, and Mrs.

Kathryn Sue McClure, of Lexington, one son, Richard Earl Overbay and 18 grandchildren. He was a member of the Livingston Baptist Church. Funeral services were held for Mr. Overbay, June 6 at Sand Hill Baptist Church with Bros. George Anderson and Lester Arnold officiating. Burial was in Moore Cemetery. Sparks Funeral Home was in charge of arrangements.

DAILEY NAMED TO ASSN.

Jack B. Dailey of Mt. Vernon recently was named to membership in the American Herford Association, the world's largest purchased registry organization, with headquarters in Kansas City, Missouri.

TIE FOR HIGH HONORS

Jane Winifred Mahaffey, granddaughter of Mrs. Jane Smith of Livingston and Jerry L. Poynter, son of Mr. and Mrs. P. L. Poynter, also of Livingston, tied for high score on the college qualification test given at Livingston. Both Miss Mahaffey and Mr. Poynter scored 91 points out of a possible 99.

NEW MEMBERS FOR NAT'L HONOR SOCIETY

Ceremonies were held recently at Livingston High School for new members of the National Honor Society. William Robinson, president of the organization, inducted the students. The new members are: Pat Balllock, Shirley Newcomb, Mary Mason, Trula Mink, Carcille Carolotis, and Ruth Brown. Miss Josephine Dickerson is sponsor of the local organization.

Pennsylvania Girl Scout Troop Visits Maple Grove School

Girl Scout Troop No. 950 from Greencastle, Pa., along with five leaders, spent 7 days last week at Maple Grove School.

The scout troop received a grant from Reader's Digest of \$500 to finance the trip. The trip was for the purpose of working and playing with the children who attend the 5th and 6th grade at the school.

The trip, which cost about \$1,063 to make, was financed by the grant, cookie sales, a bake sale, selling Mother's Day and Easter Cakes, and donations.

During the group's stay, various study areas were touched up on with the children. Some of these areas were: Geography, Studies of

Occupation; Recipes; customs, holidays, and religions in Pennsylvania, and exchange of ideas of local songs and crafts.

On the lighter side, games; singing; a cook-out, and a hike were also enjoyed by the troop and participating students. Despite of rain the girls bravely set up tents for sleeping facilities. However, this only lasted a few nights until the girls were forced indoors by the almost constant rain.

The troop has, for some time sent several gift boxes to the school. Last Christmas, the troop gave the school a set of Social Science books. Other gifts have been more routine things, such as:

paper, pencils, crayons, soap, wash cloths, and textbooks.

WOMEN'S VOLLEYBALL TEAM SIGN-UP

Any adult woman interested in playing volleyball this summer at the Mt. Vernon school playground, should be at the park Tuesday night at 7 p.m.

So far, about 30 women have been signed to play in the league and several more have said that they possibly would.

GIFT FROM PENNSYLVANIA.—Dawn Snyder of Troop 950, Greencastle, Pa., presents an American Flag to Mrs. Robert Witt, principal of Maple Grove School, while Branda Vassant of Orland, a student the school, and Mrs. John Rishal, Troop Leader, look on. The flag was given to the school by Ladies' Auxiliary of VFW Post 1599 in Chambersburg, Pa.

Babson's Authentic Report

OUR EXPANDING INCOMES
Although the dollar volume of total retail trade has been disappointing so far this year, consumer buying power is actually being supported by a record flow of wages and salaries, dividends and interest, pensions, annuities, and government payments.

this year, a gain of \$6.8 billion in wages and salaries has brought this segment of personal income to an annual rate of \$414.3 billion. Additional wage and salary hikes lie ahead, but over the immediate future the rate of upturn will likely be on a scale down from the sharp advances of the past couple of years.

WORKERS' EARNINGS
Wage and salary income has been heading steadily upward since the beginning of World War II, and decidedly so during the past 10 years. Even now — although total number of hours worked has slipped from earlier highs—hourly earnings are still advancing. In the first four months

INCOME OTHER THAN WAGES
Dividends and interest now constitute a sizeable, and constantly growing, portion of total personal income. For the most part, funds received from these sources are used to supplement salary and wages and/or pension income to provide for the necessities of life. However, in a growing

OVERCROWDED INSTITUTIONS—Three of Kentucky's institutions for delinquent children are operating above their rated capacity, as shown by this chart. According to the annual report of the State Child Welfare Department, only the two newest boys' camps—Woodbend at West Liberty and Lake Cumberland near Monticello—have the same average daily population as their rated capacity. The largest facility, Kentucky Village at Lexington, has twice as many children in residence as it has room for. Governor Edward T. Breathitt has approved a six-year construction plan for new and expanded facilities for delinquent children, including a new boys' camp in Boone County and a new facility in Jefferson County for girls, both under construction.

number of instances, dividend and interest payments are being spent, or invested, or even saved—at the discretion of recipients.

MORE FREEDOM OF CHOICE
As incomes rise to new highs, more and more American families will have more money to spend as they choose. A decade from now, today's upper-middle-income market will be a mass market, for the up-trend in discretionary income promises to resist stubbornly any interruptions caused by cyclical and other forces.

HIGHER FAMILY INCOMES
As recently as 7 years ago, only one-third of all American households had income on an annual basis in excess of \$7,000. By 1971, 60% of all American families are expected to have reached this income-adequacy level. Hopefully, by 1976 — the 200th year of our independence — 80% of our families will be enjoying income above \$7,000 per year.

Such a sharp boost in family income should go a long way toward expanding markets for consumer goods and services. It should also mean that in the years ahead families will spend less and less of their total incomes for food, clothing, and shelter. Of course, expenditures for the necessities

of life will still be increasing, but they will not be rising as fast as will total spending for consumer goods and services.

However, the full enjoyment of our rising incomes may be blighted by heavier tax burdens at all levels, as well as by a further whittling away of the value of our dollars through inflation — unless we can persuade government officials to curb public spending that is superfluous or that could be deferred. If we want to increase our standard of living — or even to keep it from shrinking, we must rid ourselves of the idea that the only way to solve public problems is by government action via spending more and more taxpayers' dollars. If we continue to hand over our responsibilities as a society to government, even our steadily expanding incomes won't assure us a better life.

YOUR GUIDE TO FRESH FAST FUN for a CIRCUS of Good Eating with DAIRY PRODUCTS

MILK leads the parade of dairy foods. As the featured performer in the center ring, milk presents all recognized vitamins and many essential minerals to keep up that "shot out of a cannon" vitality.

COTTAGE CHEESE, the solid form of milk or a semi-liquid, "stars" on the low calorie and high protein menu wares alone or with a host of other foods.

SOUR CREAM presents fresh sweet cream in a tangy flavor that is instantly ready to go on "solo" as part of a lunch or dinner troupe.

BUTTER, the ringmaster of flavor, is made from cream and goes on with or without salt. A top performer at a minute's notice, this dairy savant's taste performance ranges from AA to A to B as rated by USDA.

CHEESE, the curd of Little Miss Muffet fame, is made from milk solids. Varieties run a colorful scale of flavor from mild to sharp with aging making the taste acts distinctly different.

ICE CREAM is nature's fun food. Ready to perform alone or to assist in other food acts, this frozen dairy dessert usually closes the eating circus on a tasty note.

Please attend Sunday School and Church. The

world is in a critical condition. Without God we can't survive. The American people need to repent and turn back to God. Our boys are once again dying on the battle fields, but just look around and see how much people care. Are we lovers of pleasure more than lovers of God?

As a nation, we are at turning point. Will we turn to God and ask forgiveness or go down to destruction. Think on these things. God bless you all everywhere.

SECRETARY FREEMAN URGES CUT IN DAIRY IMPORTS

Freeman M. Hockensmith, Chairman of the Agricultural Stabilization and Conservation State committee, has received information that Secretary of Agriculture, Orville L. Freeman, present at a set of recommendations to the U. S. Tariff Commission May 15 which, if approved, would result in a 75 percent reduction in the present level of dairy imports.

Testifying before the Commission, Mr. Freeman said loopholes in the present law are allowing "transparent evasions of (U. S.) dairy import quotas." These imports, he said are causing "real hardship" to the American dairy farmer and are "materially interfering with the dairy price support program."

The Tariff Commission investigation resulted from the Secretary's earlier recommendation to President Johnson for such action. After hearing testimony from interested parties, the Commission will present its findings to the President for a decision.

Secretary Freeman noted that dairying is the most depressed segment of American agriculture. "No American should be complacent," he said, "when the dairy farmer in this country receives an average wage for his labor that is less than the minimum wage set by Congress."

He also declared that dairy imports, which are presently running at an annual rate of 6 billion pounds milk equivalent, "have been entering the U. S. in excessive quantities."

Milk Costs Less When Refills Given on Coffee

Recent studies of restaurant costs of serving beverages indicate that milk does cost more to serve than coffee or iced tea, but just for the initial serving. When a second cup of coffee is given free as a refill, the price of the coffee exceeds that of milk.

The University of Tennessee Agricultural Economics Department made a study of coffee consumption and costs in Nashville in 1964.

The researchers found that the initial servings cost the restaurant \$0.69 for a cup of coffee, \$0.410 for iced tea, and \$0.599 for a glass of milk. These costs included the initial cost of the ingredients, utility, labor and supply costs, depreciation and overhead.

When one refill is given free on coffee, the cost per serving moves up to \$0.897 and for two refills \$1.095. This means that a restaurant is financially better off serving one glass of milk with a second than serving coffee with free refills.

A restaurant study conducted by Oregon State College indicates that "Three" specific types of dairy products have been "custom tailored" with the avowed purpose of evading our present section 22 quotas.

Mr. Freeman described these products and set forth his recommendations in three general categories as follows:

1. Evasion of quotas takes place because of minor technical distinctions and new names for products. To guard against these evasions the definition of the product category should be broadened to include all products which are made by similar methods and have similar characteristics. Products evading quotas in this category are colby, edam and quada cheese.
2. Evasion of quotas results "when certain products gain separate tariff classification simply by changes in packaging and slicing. Notable in this category are Italian-type cheese. Mr. Freeman's recommendation was that all of this cheese - either in original leaves or in any other condition - be included under the current quota of 11.5 million pounds.
3. The final group of evaders are the butterfat-sugar mixtures - junex, isex, lorex and others - which are in the category of products containing up to 45 percent butterfat. This group of imported products last year accounted for 10 percent of domestic ice cream production. Mr. Freeman noted that the Tariff Commission in the past had attempted to halt these imports since they are not normal trade items. He recommended a zero quota for products containing more than 5.5 percent butterfat, but less than 45 percent butterfat. Whatever butterfat is allowed entry, he said, should arrive as butter or other recognized products under an established quota.

"We recognize that trade (Cont. To Page 6)

disputed little justification for the practice of charging 5c to 15c extra for milk. This study indicated that, with increased labor costs and other factors involved, the price of milk and coffee can easily be the same price level.

Milk in Smaller Glasses - A potential solution for those attempting to eliminate the price differential would be to equalize the costs of the two beverages by varying the sizes of the milk serving.

For example, in a restaurant which served a 7.5 ounce glass of milk, the cost for coffee and milk would be made approximately the same by reducing the average serving of milk to 5.5 ounces. The comparative cost per customer served for the two beverages would then be 53c cents for coffee and 53c cents for milk.

"Milk Now, Coffee Later" - The Oregon State study emphasized a real opportunity exists for restaurants to make an extra sale by having wait-

resses inquire of adults, "Would you have milk now and coffee later?" The approach for children and teen-agers could be, "Do you want your milk now?" Another sales aspect for restaurants would be to include the price of milk with the meal and charge for the cup of coffee with dessert. This would raise the customer's bill and increase the restaurant's profits as coffee refills in this situation would probably be required.

Milk Consumed at Home - The National Consumer Beverage Survey conducted by Market Facts, Inc., showed that 87% of milk consumption takes place in the home and only 13% away from home. Of the 13% away from home, only 17% was consumed in restaurants.

The study shows 20% of the milk beverages were consumed for breakfast, 28% for both lunch and dinner. Adults and children alike drink more milk with lunch.

Sales Potential - The following facts indicate the importance of selling milk in restaurants:

- Milk beverages account for 37% of all beverages consumed, excluding water.
- Most milk is consumed with meals.
- Half the people eat out at least once a week and generally make a family affair.
- Milk dispensers should be centrally located.
- Milk should be listed on menu as part of meal.
- Milk should not be penalized with an "extra charge" as milk is competitive with other beverages in price.

To The Voters
Of Rockcastle County

I was out of the county last week and couldn't express my thanks at that time.

At this time, I want to thank each and everyone that voted for me or helped me in any way in the election. Although I lost district-wide, I carried every precinct in our county except one which I lost by just six votes. I got almost 2 to 1 votes for my nearest rival and more than all of my opponents put together, so you see I have something to thank you people for and something to really be proud of.

The primary is now over and I endorse each and every candidate that will be on the Republican ticket this fall. Let's all get together and elect a Republican governor and the rest of the Republican ticket. We can if we work hard enough.

I believe Henry Ward is the weakest candidate the Democrats could have. He has to run on the Breasht platform and we all know what the people think of that constitution revisions, political corruption, and such things. This is the best chance for a Republican victory we have had in over 40 years.

Flower Talk

SAY IT
WITH FLOWERS

We read the words: "Say it with flowers", and possibly think it is a new advertising or promotional suggestion. We could not be more wrong.

In days when writing was an accomplishment of the very learned, some there were who would transcribe business and also send messages to their loved ones, but they could not write far away. Alas! Alas! Those thoughts were expressed in the language of flowers, which has always been the Esperanto of sentiment - whether of love, sympathy, happiness or sadness.

How unromantic is a letter written with a pen and ink as compared to the delicate expression of emotions in a bouquet of lovely flowers.

Today, nothing says it better than flowers. And we have just the right flowers for any occasion. Phone 256-2091

More Farmers Leaving Field to Others Under Economic Pressures

While commercial demand for milk — in all forms — grew by an estimated two billion pounds in 1966, dairy farmers continued to move out of the industry at record rates. A special report by the Wisconsin Department of Agriculture on "Disposal of Dairy Herds in Wisconsin" gives an indication of conditions in that state and generally prevailing through the country:

- One-third of the former dairymen sold their milk cows because of economic reasons. Twenty percent reported low income from the enterprise, 14 percent more indicated the high cost to expand or modernize, and less than one percent due to loss of market.
- Another one-third indicated they quit dairying for personal reasons ranging from advancing age to illness.
- A few more than one-fourth quit dairying because of the need for help and heavy time and labor requirements. Labor factors took the heaviest toll of herds with over 30 milk cows.
- Other reasons such as shortage of grain and roughage, disease, poor production of the herd and other miscellaneous reasons accounted for another 10 percent. Inadequate feed supply made up about one-half of this total and generally affected all sizes of herds.
- The average age of dairymen who disposed of their herds was 54 years. Of the dairymen that sold their herds, one-fourth were under 45 years of age, one-fourth between 45 and 54 years, one-fourth from 55-64 years and the other one-fourth were 65 years or older.

Fewer Cows Producing More Milk

A report from the United States Department of Agriculture indicates that the average number of milk cows has declined every year since 1959; from 27.7 million in 1959 to 25.7 million in 1966.

However, for the same period, milk output per cow has gained an average of 212 pounds per year.

... commercial farms are classified by type on the basis of the kind of farm products providing one-half or more of the value of products sold. At census time, using this classification process, there were some 385,000 dairy farms. With the rate of decline of dairy farms since census time, it appears that fewer than a quarter-million dairy farms now exist. In May, 1966, in the 48 Federal order areas where data are comparable with a year earlier, there were 835 fewer producers in 1966 than in 1965.

Facts on Farms
Farms exist in all shapes, sizes, financial conditions and levels of productivity. Of the almost 3.2 million farms in the U.S. in 1964, 30,000 had farm marketings of more than \$100,000 and 340,000 less than \$250.

The average U.S. farm contains about 35 acres but more than one-fourth of all our farms contain less than 50 acres. In 1964, 145,000 farms have more than 1,000 acres. Some 5,000 are super-sized and have assets of \$10,000,000 or more, others have assets of less than \$10,000.

Farms are scattered across the country and located in nearly every county. They occupy half the land area of our 50 states.
