## PERSONALS

Mrs. Faith Rucker of Hamilton, Ohio, the former Lou Hysinger of Mt. Vernon, passed away recently. She has three brothers here, Burgess, Wade and Rocco Hysinger and one sister Mrs. Tilden Owens, and two nephews, Cecil and Chester Hysinger. Cecil was visiting her at the time of her death.

Mr. Joe Blackburn who spent several days at Rockcastle County Baptist Hospital, with pneumonia was released, but had a relapse and has returned to the hospital for further treatment. Mr. and Mrs. D.M. Cress observed their 52nd Wedding Anniversary Jan. 6, at Kelsey's Restaurant. Mr. and Mrs. Clell Pike were their dinner guests.

Logan "Buster" Wilmont is back on Cab duty after spending three days at home with the flu.

Mrs. Maude Martin who spent a week in Rockcastle County Baptist Hospital with a broken collarbone, caused by a fall, is now at the home of her sister Mrs. Bernard Franklin and Mr. Franklin while recuperating, and will have to wear a brace for possibly another month.

Mrs. Carrie Baker spent last Monday night in Louisville, for the purpose of

attending a Board meeting of the "LLOYD-BARDO-WELL Evangelistic Association" of which she is a member, which was scheduled for Tuesday in Louisville, but due to bad weather, the meeting was postponed until a later date.

Mr. Henry Mason is able to be out again after being ill at home with flu last week.

Mrs. Burgess Hysinger received notice last week of the sudden death of her brother Mr. J.W. Anglin in Lockland, Ohio, but due to bad weather she was unable to attend the funeral.

ing vegetables in your home, information on USDA grades and inspection service on fresh vegetables, and a complete consumer guide to individual vegetables are key features of "How to Buy Fresh Vegetables."

Here are some excerpts from the publication to help you shop for winter vegetables. All the following will be in good supply this time of the year.

**SQUASH**—Acorn and Buttercup squashes, mentioned earlier, are winter squashes which means they are marketed only when fully mature. Other winter varieties are Buttercup, green and blue Hubbard, green and gold Delicious, and Banana squash.

Look for full maturity, indicated by a hard rind. Slight variations in skin color do not affect flavor. Be sure to avoid squash with cuts, punctures, sunken spots or moldy spots on the rind—all indications of decay. A tender rind indicates immaturity—a sign of poor eating quality.

**SWEETPOTATOES**—Two types of sweetpotatoes are available the year round. Moist sweetpotatoes, sometimes called yams, are the most common type. They have orange colored flesh and are very sweet. The true yam is the root of a tropical vine which is not grown

commercially in the United States.

The second type—dry sweetpotatoes—have a pale colored flesh, and are low in moisture content. Their production has dwindled rapidly in recent years.

For either type, look for well-shaped, firm sweetpotatoes with smooth, bright, uniformly colored skins, free from signs of decay. Because they are more perishable than white potatoes, extra care should be used in selecting sweetpotatoes.

## Easy Ways to Classic Dishes with Canned Stews

Classic dishes like classic music are swinging to the rhythm of the times. Singing groups are imitating Baroque instrumentals with verbal sounds. And foods of the "long cook" set are switching to the "great meals in minutes" ensemble. The classic theme remains inherent in the dishes and the music, but with variations in the spirit of modernity more people enjoy becoming contemporary.

Take for instance hearty rich stews packed with cubes of beef, pieces of potato, carrots and peas, glistening with rich beef gravy—staples of gentry and peasants for centuries. Hours to prepare? No longer! Simply minutes to heat when using canned stews. And now these canned stews are making headlines as easy ways to classic dishes.

This Russian favorite, cooked noodles blended with sour cream, cottage cheese, and parsley, forms a delicious salad for beef stew accented with Worcestershire and minced garlic. Served in individual ramekins this quick and easy dish is fit for a king, and your guests. Round out the meal with a crusty salad on a bed of endive and romaine.

**BEEF STEW ROMANOFF**

2 cups cooked noodles	1 teaspoon Worcestershire
1 cup cottage cheese	1 cup (1 pound) onion beef stew
1/2 cup sour cream	3 medium clove garlic, minced
2 tablespoons chopped parsley	

Combine all ingredients except stew and garlic; arrange around sides of 3 individual baking dishes. Combine stew and garlic; pour into center of dishes. Bake at 400° F. for 15 minutes or until hot. Makes 3 servings.

**CHICKEN STEW POTAGE**

1/2 cup water	2 tablespoons chopped parsley
1 cup (1 ounce) whole kernel corn	3/4 teaspoon leaf thyme, crushed
1 cup milk	

In saucepan, combine all ingredients. Heat; stir now and then. Makes 4 servings.

## OPP BUSSELL HONORED

Opp Russell, Jr., of Mt. Vernon was honored by the Commonwealth of Massachusetts last week when Governor John A. Volpe commissioned him into the Order of Paul Revere Patriots. In doing this, Massachusetts became the fourteenth state to bestow their state honor upon him.

In a letter from Governor Volpe to Mr. Russell; the governor stated that it was his honor and privilege to add Massachusetts' highest honor to a collection of state-memorabilia that was, or was destined to become, the largest in the nation. Mr. Russell's collection of scrolls and citations have been awarded by such governors as Winthrop Rockefeller, John Connally, Lurleen Wallace, Lester Maddox, Paul BeJohnson, and Buford Ellington.

Buswell formerly taught school in Rockcastle County and is presently Supervisor of Education for the Anderson County school system.

## Food Cues

**BY: BECKY SUSAN**

How does an acorn squash differ from a butternut? What is the difference between a yam and sweetpotato? How do you choose a good onion? An experienced shopper may or may not need the answers to these questions. If you are the average food shopper, you will probably appreciate information on these vegetables and many others in a new publication from the U.S. Department of Agriculture's Consumer and Marketing Service called, "How to Buy

Fresh Vegetables."

Another in the "How to Buy..." series, this C&MS publication will help southeastern consumers shop for fresh vegetables the most economical way. Today's fresh vegetables are packed with good-for-you vitamins and minerals, and they will add color and variety to any meal.

The booklet will be extra convenience because of its information on selecting vegetables. Handy general hints for buying, selecting, and stor-

defects which permeate the skin. Even if you cut away the decayed portion, the remainder of the potato flesh may have a bad taste.

Decay is the worst problem with sweetpotatoes and is of three types: wet, soft decay, dry, firm decay which begins at the end of the potato making it discolored and shriveled; and dry rot in the form of sunken, discolored areas on the sides of the potato.

A word of caution: Sweetpotatoes should not be stored in the refrigerator.

**ONIONS:** The many varieties of onions fall into three general classes: globe onions, grax-grano onions, and Spanish onions. The classes of onions differ in shape and size, and flavor, but the general tips on selection are about the same for each class.  
 Look for hard or firm onions that are dry and have relatively small necks. They should be covered with papery outer scales and be reasonably free from green

sunburn spots and other blemishes.

Avoid onions with wet or very soft necks, which usually are immature or affected by decay. Also avoid onions with thick, hollow, woody centers, in the neck, or with fresh sprouts.

### RALPH ANSWERED OPPORTUNITY

(Ed's Note: Mrs. Floyd Stokes of Mt. Vernon brought us an article which appeared recently in one of the large daily papers concerning her husband's nephew, Ralph Stokes, a native and former resident of Mt. Vernon. Mr. Stokes has several relatives in the Mt. Vernon area. A brother, Herbert Stokes, and a half brother, Eugene Stokes, both live near Mt. Vernon, besides Mrs. Louanna Stokes, Mr. Stokes' aunt. It is a very good article and we hope our readers will enjoy it.)

If the scaffold hadn't broken, Ralph Stokes still might be grubbing a hard-scrappe living out of the Kentucky mountain foothills. There's an element of chance (some folks call it opportunity) in most lives. Ralph Stokes eventually tumbled a jail and a broken knee into a knowledge of machinery, and the knowledge of machinery into a business.

Ralph, 45 today, owns S&S Washer Service on Warsaw near St. Lawrence Center. He owns the building his firm is in. He also owns a couple of laundromats and

half of a third. He rents and services washing machines in 250 private homes.

Not bad for a guy who never saw high school except from the outside. "My family was poor, real poor," said Ralph. "Dad was a carpenter in Mt. Vernon (Rockcastle County) Ky. When I got out of the eighth grade I went in the government's depression camp—the CCC. I was married at 17."

As a married man, Ralph was doing odd jobs around Mt. Vernon, and a little one-room schoolhouse; needed painting. Ralph probably should have been inside studying, but he was outside painting when the scaffold toppled.

"I couldn't leg right with the broken leg and the Army wouldn't take me for WWII, but the country needed all kinds of workers in the war and the government had a training program for machinists," said Ralph. "I jumped for that."

The lad from the hills had big, sensitive hands and became a good lathe operator, expert at rush jobs at fine tolerances. He spent the war in a shipyard, and they came to Cincinnati. "The wife, (Mildred) said the other day we probably were happier when I was in the 'shipyards,'" said Ralph. "It gave us our first chance to make a little money—to get out of the hills—to advance a little."

In Cincinnati, life for the Stokeses was a succession of machine shops. At one point, pressure of rushing lathe jobs gave Ralph and

took the night shift on a lathe at the Ford plant in Sharonville. He still had no idea of being a businessman, and he already was past 33.  
 There was a fellow on this next lathe at Ford who said I had a good garage at home

"Fixing things comes natural," said Ralph. "I try and stick to washers but people have brought me toasters, irons, fans and air conditioners. "I've seen the time I could use more education," he said. "I constantly crowd up. I don't have it, but I'm for it. A man must certainly needs it. But I'm willing to work, and my credit's good—nobody ever had to ask me to pay a bill. "And I know something about opportunity—take advantage of it or it might not come again. When I visit the hills I see my old friends just like they were years ago."

Quite possibly, Ralph Stokes never heard of Horatio Alger, and the traditional success in the American way. But he certainly knows the rural counterpart—pull yourself up by your own bootstraps."

**On The Hardwood**

The Livingston Blue Devils split their last two games, going down to defeat 75 to 59 Tuesday night when at the hands of Burnside and winning from Annville last Friday night by a score of 59 to 53.

In the Annville game, the Blue Devils came on strong in the first half scoring 41 points while Annville only managed 30. But in the second half, the Devils almost slipped up when they could only get 18 points in the second half while the Annville team, doing a little better outscored them by five points.

Scoring individually for Livingston were: Mink 8, Reynolds 9, Owens 28, Jackson 6, Gamble 4, and Hurley 4.

In the Tuesday night game, played at Burnside, the Devils played an outstanding game against Burnside since they were playing without the services of starters Lonny Mink and Earl Jackson. "Burnside is one of the 15th Regions top ranked teams and the Devils only had a 7 man squad for the game but they gave a good account of themselves before being defeated 75 to 59." Coach Preston Parrett said.

Burnside led at all the quarter stops by scores of 16 to 11, 37 to 30, 56 to 41, and the final 75 to 59.

Individual scorers for LHS were: Reynolds 25, Owens 17, Dambrel 6, Hurley 1, and Holt 0.

In other action Tuesday night, Brodhead managed to squeak by Jackson County 64 to 60. After being behind at the end of the first three quarters, 19 to 18, 31 to 29, and 47 to 44, the Tigers managed to score 20 points in the fourth quarter while Jackson County only scored 13.

Scoring for BHS were: Busell 19, Brown 15, Stevens 15, Daugherty 5 and Bullock 10.

**Miss Peden Announces For Senate Race**

Katherine Peden, the former Commissioner, announced she is running for the United States Senate.

"I intend to seek the Democratic nomination in the May primary," and oppose Senator Thurston Morton in the general election in November," Miss Peden said.

The 42-year-old former radio executive said she believes "the people of Kentucky want someone in the United States Senate who will think Kentucky and act for Kentucky."

Although other names have been mentioned, because of Miss Peden's record and the wide support she is expected to get across the state, she is the acknowledged front runner for the Democratic nomination.

She said she chose this week to announce because it is the week Congress reconvenes for its second session and attention is focused on the Senate and House.

Miss Peden told a press conference that she is going to give her "stand on the vital issues confronting us. At the same time, I intend to show the people of Kentucky where Senator Morton has fallen down on all the issues so important to all the people—issues such as education, health, housing, flood control, tax relief."

She pointed out that Morton has gone from "hawk" to "dove" on Vietnam, but said, "I intend to let Senator Morton make his own statements on Vietnam, and try to justify them."

Miss Peden said, "This war is going to be settled across a negotiation table—let's get to that table as soon as we can and work out an honorable settlement—the sooner we get there the sooner the troops can come home."

Miss Peden said she would go into detail as the campaign developed, but that she wanted to be on the record now as a "political moderate."

She also discussed her appointment to the President's Commission on Civil Disorders—the group which is working in finding the causes of the big city riots and what can be done about them.

"This is our most important domestic problem," Miss Peden said, "and my service on this commission is preparing me to be able, as a United States Senator to do the things that will have to be done if our streets are to be safe and our cities are to be livable."

Miss Peden acknowledged that being a woman created an additional challenge, but she said her motto had been— "Katie—work a little harder—do a better job."

Miss Peden is a native of Hopkinsville, a former Hopkinsville Woman of the Year, and a former National President of the 175,000 member Business and Professional Women's Federation of the United States.

She is a member of the Advisory Council of the Small Business Administration, The American Industrial Development Council, and the Governor's Commission on the Status of Women.

She is a member of the First Christian Church of Hopkinsville, was educated in Hopkinsville, and has attended many seminars and courses in business and public service fields.

## Heart Attack Fatal To Oscar D. Bryant, 86

Oscar D. Bryant, 86, a native and life-long resident of Mt. Vernon died Thursday, January 11 at the Rockcastle County Baptist Hospital after suffering a heart attack at his residence on Main Street.

Mr. Bryant, the son of the late David and Sally Denny Bryant, was a member of the Mt. Vernon Christian Church.

He was a telegraph operator for the L & N Railroad for 15 years, operated the first garage business, the first auto dealership,

## Round About

By: Perlina M. Anderkin

### BANKS WILL CLOSE

The Bank of Mt. Vernon and Citizens Bank in Brookhead will both be closed Friday, January 19 in observance of Robert E. Lee's birthday.

### THEY CAUGHT HIM

John Stanley Johnson, who eluded prison guards September 5 while on leave from Eddyville Penitentiary to attend his brother's funeral at Climax, was picked up recently by the Covington Police Department and returned to Eddyville.

### PTA POSTPONED

The Mt. Vernon School January PTA meeting, rescheduled for Monday night, January 15, did not meet due to the bad weather. The meeting was postponed for January and will meet the second Monday in February for their regular February meeting.

### PRICES GO UP!

The million inflation has struck again! Last year we were able to offer the Lexington Herald and the Signal for one year for \$12.50. This year we have been informed by the Herald that since their subscription rates have gone up that the combination price will be \$14.75 for the Herald and Signal. This is still a pretty good bargain with the customer saving about \$3.00 on the two papers.

### NIGHT HOMEMAKERS

The Mt. Vernon Night homemakers will hold their regular monthly meeting January 19 at the home of Mrs. Joe Young on East Street. Mrs. Roland Mullins will present the lesson for the meeting.

### MOTHERS WILL MARCH

The Mothers March for the National Foundation has been scheduled for Monday, January 29 beginning at 7 p.m. This fine organization is the same which fought infantile paralysis for so many years and since the defeat of this disease has now turned its attention to combating birth defects. Local workers have been named (see story elsewhere on front page) and will make a house-to-house canvass on the 29th. We hope you will be generous in your contributions.

### BANKS GROW

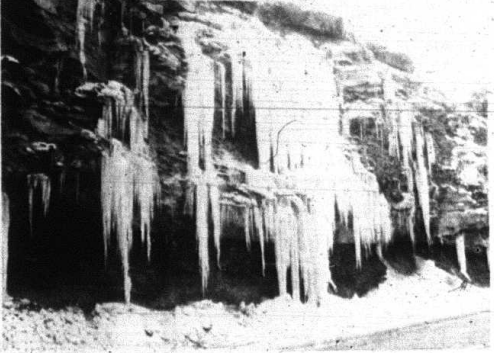

We were pleased to note that according to the two county banks, Statement of Condition (which appears elsewhere in this week's issue of the Signal) both banks have grown considerably in the past six month period. This type of growth is a good indication that our community is not static and progress is taking place.

### 6¢ STAMPS FOR SALE

It was quite amusing recently to note that after the big fanfare which the government made about the postage increase to take effect January 7 that the local post office was unable to obtain the new 6¢ stamp in time for the effective date. We understand that at one point it even became necessary for Postmaster Smith to make a trip to surrounding towns to purchase extra 1 and 2 cent stamps to go with the 4 cent ones in order for postal workers to be able to mail a letter. Red tape and red tape.

### SCHOOL AGAIN!

Aunt Superintendent of Schools John Taylor, tells us that there will possibly be school tomorrow (Friday). We hope so anyway.

### SCENIC ANYWAY...

and a good indication of the way temperatures dropped in the area last week. This photo was taken at the cut on US 25 going toward Livingston and was the result of zero and below weather which county residents had to endure last week besides the snow, which has now been on the ground for 21 days. It finally quit snowing Monday afternoon but temperatures again dropped to a chilly six above Tuesday night, according to Bill Cox, who keeps the local weather records.

### IT WAS PERFECT WEATHER...

for a sleighing party that is but not for much else unless you were on skis. These youngsters though were apparently enjoying the 3-inch accumulation of snow which covered this area shuffling down schools for 12 days and making for very hazardous driving. Enjoying the outing are, from left: Frankie Serfklend, Judy Nopier, Lynette Hunt, Dono Askren, Billy Dishon, and Pat Kelly.

## An Editorial

### SUPPORT THE JAYCES' GRADE SCHOOL TOURNAMENT

We hope that Rockcastle residents will go all out to make this one of the biggest grade school tournaments ever put on by the Rockcastle County Jayces. The proceeds this year will go to the Rockcastle County Baptist Hospital to help defray their operating expenses.

The hospital, as everyone knows, is in danger of having to shut its doors because of an inequality of income and outgo (which we all face at times). What the Jayces are doing is a fine civic minded thing and should receive the support of every resident of the county. We do not know how much the Jayces will get from this tourney but no matter how much, if every resident and club in the county put out this much effort on behalf of the hospital, their problems would be alleviated to some extent.

"We've often heard the reaction 'It doesn't matter. I can always go to Berea or Stanford.' But speaking from personal experience, the local hospital has come in handy several times when a trip to Berea or Stanford would have been out of the question.

If we do let the hospital shut its doors, it will just be one more thing, in a chain of community projects, which we have let come to exist. It is no doubt one of the more important assets which the county possesses and any community project, especially a hospital, faces times when they are unable to get by without a little extra effort from the people they serve.

With the shortage of doctors in this area, the hospital plays an even more important role in the health of the community since it would be impossible for the two doctors located here to answer every emergency which arises in the county. Therefore, many crises, requiring the attention of adequate medical facilities and professional services would have to go unattended or be treated in one of the surrounding towns at a possible detriment to the person ill and certainly more expense.

Also, at the present time, there is an active movement to go to nuclear industry in this area. Any industry which might be interested in locating here would aim to be located in knowing that the community had to offer them certainly adequate health facilities would be a plus.

In conclusion, we must remember that our community is what we make it and we can make it. It is no use complaining about a problem unless we have been making extra efforts to solve it. Let us take our community, not completely inactive but active to assist, at least possibly.

Supporting this tournament will be one way of showing that we are still interested in our community and that we are willing to do our part to help it.

### SIX SCHEDULED FOR LOCAL TOURNEY

The Rockcastle County Jayces found the going tough to sign up enough teams to play in their upcoming grade school tournament the week of January 31. Since the schools have been closed the Jayces were unable to get in touch with all the coaches and as a result there may be only 6 teams in the tourney, four from the county, Berea and Somerset. However, if school begins right away there is a good possibility that a couple of teams from Jackson County will be able to make it for the event. A definite schedule will be published.

## 2 Arrested For Robbery; Johnson Charged In Theft

It was a busy day for Sheriff Tip Reppert and it all began very early Tuesday morning when according to the Sheriff he received a call from Richmond authorities between 5 and 6 a.m. that the Blue Grays Truck Stop had been robbed by two men and an employee car stolen to get away in. They told Sheriff Reppert that the car had been seen in the vicinity of Conway.

Sheriff Reppert proceeded to Conway and found the stolen car and the cash register from the truck stop but alas no crooks. Trooper Stanley Hale, who had also been notified by the Richmond police, then arrived on the scene and both he and Sheriff Reppert searched for the men. A little later the Sheriff left but Hale continued searching and eventually found where two men had crossed an incomplete section of Interstate 75. Following the footprints, Hale found two men, Billy Rader, 26, of Richmond and Jewel Sparks, also 26, of Route 1, Berea, in a hay barn on the farm of the lady Powell and arrested them.

Hale and Sheriff Reppert then delivered the two men to Richmond authorities and while returning were notified by radio that Olen Johnson, of Climax, was in the Big Tull section in a possibly stolen car.

Sheriff Reppert and Trooper Hale then proceeded to the Climax area along with Deputy Sheriff Billy Kirby in a separate car.

Johnson was sighted at the top of Loman Hill in a late model seen Oldsmobile. Hale and Sheriff Reppert had gotten stuck going up Loman Hill so Kirby gave chase and arrested him.

The license number of the car was radioed across the state and it was found that it had been stolen from the Covington area.

Johnson was brought to the jail at Mt. Vernon and Covington authorities later picked him up and took him back to Covington to face the charge there.

## Mrs. Aiken - Mrs. Barnett To Head Heart Drive

Two Rockcastle County residents have been appointed to leadership in the 1968 Heart Fund drive, it has been announced by Kentucky campaign chairman, J.O. Matlick, of Frankfort, State commissioner of Natural Resources.

They are Mrs. John P. Aiken of Mt. Vernon, County Chairman and Coffee Day Chairman, and Mrs. Clyde Barnett of Mt. Vernon, County Business Gifts Chairman.

The drive, which begins February 1 and continues throughout the month, is under the sponsorship of the Mt. Vernon Woman's Club. A house-to-house solicitation will be conducted on Heart Sunday, February 25.

"The recent successful heart transplant surgery is but another indication of the great progress made in basic research," Matlick said. He also pointed to the fact that 25,000 Kentuckians suffer from heart diseases.

"We are proud of the 40,000 heart volunteers who collected \$426,898.43 last year for heart's major projects that include research, community service and health education," he added.

## Livingston Lions Sponsor Ball Game

The Livingston Lions Club will sponsor an exhibition basketball game Tuesday night, January 30 at 7 p.m. between the Southern Belles and the Rockcastle County Men's Team. The Southern Belles an all-girl professional basketball team, are rated as one of America's greatest sports attractions and will play between 180-200 games, all against men's teams, with men's rules.

(Cont. To Page 7)

## Mother's March Scheduled For Monday, January 29

The Rockcastle County Chapter of the National Foundation will sponsor a Mother's March on Monday night, January 29, according to Mrs. James Anderkin, Jr., county chairman.

The National Foundation is the same organization which was used to so effectively wage the war on polio which plagued our country for so many years. Now that this battle has practically been won, the organization has turned its effort toward the defeat of birth defects.

Until this year, no house-to-house canvass has been made but it was felt that this was the most effective way of obtaining contributions and a canvass was scheduled for the last Monday night in January beginning at 7 p.m.

Named to help in the drive January 29 are: Mrs. Joe Young, Mrs. Norman Howard, Mrs. Richard Franklin, Mrs. David Henderson, Mrs. James O. Smith, Mrs. Roland Mullins, Mrs. Jess Bullock, Mrs. Lloyd Cain, Mrs. Clinton Winstead, Mrs. James Earl Hammonds, Mrs. Jack Noy, Mrs. James Cox, Mrs. Wayne Stewart, and Mrs. Charles "Tuck" Baker.

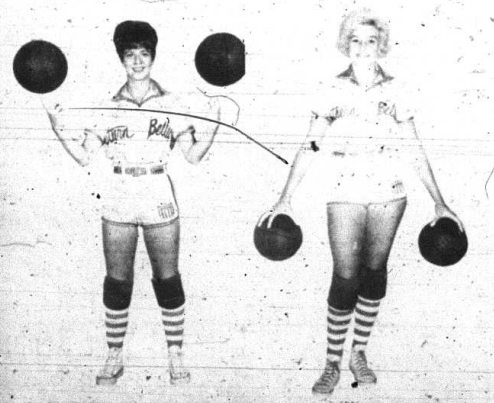

Twenty-five percent of the contributions will go directly to the Medical Scientific Research Fund at National

## CELEBRATES 99TH BIRTHDAY

Mrs. Bettie Davis celebrated her 99th birthday January 11 at the home of her daughter, Mrs. Amanda Maggard in Mt. Vernon. Present for the occasion were Mrs. Maggard, and two other daughters, Mrs. Ethel Greenwood of Bedford, Ind. and Mrs. Emma Thompson of Ashland. Mrs. Davis has seven children, Mrs. Carl Hopper of Lexington, Mrs. Thos Stokes of Versailles, Mich., Mrs. Capha Kjaer of Erlanger, Mrs. Greenwood, Mrs. Thompson, and Mrs. Maggard and a son, C.L. Davis of Brownsville, Texas. She also has 17 grandchildren, 41 great grandchildren and one great great grandchild. Mrs. Davis' husband, R.T. Davis, who died in 1926, was associated with the Signal office for about 30 years and the four younger children were often to be found quite busy hand at the types, running presses, etc.

ON SOUTHERN BELLE TEAM - Pat Ogerson from Missouri, left, and Connie Sanders from Arkansas are two members of the women's basketball team which will play the Rockcastle County Men's team at 7 p.m., Tuesday, January 30 at the Livingston gym. Miss Ogerson, has played 1200 games in 49 of the 50 states and is a champion fast shooter. Miss Sanders, who is 6 feet 2 inches tall, plays ball in high school and made the all-state team last last three years in high school. Both girls are featured performers for the Southern Belles in their half-time show.

**AGRICULTURAL SHORT COURSE**

The third in a series of Agricultural Short Course Meetings will be held at London, Kentucky on Friday, January 19. The meeting will be held in the Community Room of the Laurel County Courthouse beginning at 10 a.m. and ending at 3:30 p.m.

Discussions will include beef cattle, dairy cattle, and swine. Those attending will be divided into three groups according to the type of livestock they are interested in. Specialists from the Animal Science Department, University of Kentucky, Dr. Roy Gray-bean; Dr. M.C. Whitaker-swine; and Dr. H.H. VanHorn-Head of the Dairy Science Department will assist in the meeting on beef, dairy and swine production.

Mr. Clay Colson, Soil Conservation Service, Rockcastle County, will also appear on the beef program.

**CUCUMBER PRODUCTION**

Since 1964, Kentucky's cucumber acreage has more than doubled, and income from this crop has more than tripled. Kentucky farmers planted 3,790 acres of cucumbers for processing in 1967, which is the largest acreage ever planted in the state. However, acreage yield per acre was down about 50 bushels. Cool, wet weather at planting time and excessive rainfall during the harvest period seemed to cause the reduced yields.

Although the 1967 growing season was considered very poor, 43 producers sold in excess of \$1,000 worth of cucumbers per acre, and their average income per acre was \$1,128. Mr. Miles - owner of Butler county had the top return. His average was \$1,506 per acre. Ninety-eight other growers had a gross sales average between \$800 and \$1000 per acre; their average cash expense was approximately \$55 per acre.

Kentucky farmers have been offered the opportunity to plant an additional 600 acres under contract with a 5 percent increase over the 1968 price. Assuming that the total acreage quota for Kentucky is contracted in 1968 and that average yields are obtained, the crop could mean \$2,000,000 to Kentucky farmers in 1968.

For additional information on this vegetable crop, contact your area extension agent.

**MILITARY TO USE MORE DAIRY PRODUCTS**

Plans that will result in an increased use of butter, cheese, and nonfat dry milk, by military personnel have been announced by the Department of Defense and the Department of Agriculture.

According to reports received by the Agricultural Stabilization and Conservation State Office, USDA made available from the Commodity Credit Corporation's surplus stocks 30 million pounds of butter, 5 million pounds of cheese, and 300,000 pounds of nonfat dry milk for military use to commence in early 1968.

The products were acquired by CCC in supporting prices to dairy farmers for milk and butterfat. They are being donated to the Department of Defense for its increased use, as provided by enabling legislation. Dairy products will continue to be donated by CCC for school lunch and needy family use, USDA said.

**SOME STRAWBERRY BEDS MAY NEED WEED-KILLERS**

Some strawberry beds may need application of weedkillers this winter, says Dr. James Harron, U.K. Cooperative Extension Service weed-control specialist.

Henbit and chickweed are the main offenders though they are winter weeds, and can be a problem at harvest time if they are in heavy stands.

Recommended material for control of these two (henbit and chickweed) is DNEP, sold as Prempro or Sinox-PE. They are used as dormant sprays, he says. It should be applied during January and February when strawberry plants are completely dormant. February 15 is about the latest date in Kentucky when this material can be applied safely to

beds. This will vary according to season.

**TIME GIVEN BY SPECIALIST ON REARING CONFINED HOES**

Rearing hogs in confinement is a profitable enterprise, but it takes careful management.

Dr. M.D. Whitaker, U.K. Cooperative Extension Service swine specialist, lists these tips:

1. PEN SIZE: Ought to be as small as economically possible. About 20 to 30 pigs per pen is recommended.
2. SIZE AND AGE: Pen the pigs according to size and age, and provide ample floor space. Shape of the pen influences domestication of the pigs.
3. SANITATION: Vacate buildings between groups of pigs and premises can be disinfected. Provide ample feed and watering space according to pen size.
4. BUILDING PLAN: Construct the building so that more than one ration can be fed at the same time to different groups, and design the building so that lots can be isolated in case of disease, for easier control.

# Amendments Make Changes in Social Security Laws

The 1967 Amendments to the Social Security Act made numerous changes. James Mustian, Officer-in-charge of the Somerset Social Security Office, stated that one of the most important changes was the increase of at least 13% which will go over 1750 residents of Rockcastle County receiving regular social security benefits effective in February 1968.

The minimum monthly payment for regular benefits at age 65 has been increased from \$48.00 to \$55.00. The top benefits that can be paid in 1968 to an individual is \$160.50, while the largest check a family can receive is \$322.40. Mustian pointed out that for those unassured persons age 72 or over who receive special payments, the monthly amount has been increased from \$35.00 to \$40.00 for an individual and from \$52.50 to \$60.00 for a couple.

Mustian stated that beneficiaries do not have to do anything to get this increase and it will be in the check which will be received in early March 1968.

Benefits payable to people who become eligible in future years can be higher than those paid today. This is because of another change which raises maximum taxable earnings from \$6600 to \$7800 effective January 1, 1968. However, the tax rate of 4.4% for employer and employee paid in 1967 will remain the same for 1968. This means higher taxable earnings and higher benefits to those who become eligible in future years.

## 1968 Farm Program Participation Is Called Key To Better Prices

Farmers who produce wheat and feed grains today were urged to "give serious consideration to their choices" in ASCS programs by Freeman M. Hockensmith, Chairman, Agricultural Stabilization and Conservation State Committee. The Chairman pointed out that Secretary of Agriculture Orville L. Freeman recently said that program participation "is the key to improving the supply and price situation for 1968 grain crops" and that it will also protect livestock producers against over-expansion.

The goal of the Department of Agriculture in this regard is a reduction in wheat acreage and the diversion of more acres from corn and grain sorghum production than was the case in 1967. Grain programs in 1968 are aimed at "turning the supply situation around as a means of strengthening farm prices.

The 1968 Feed Grain Program is geared to an acreage that would produce about 2 to 3 percent less grain than will be in demand in contrast to the 2 to 3 per-

cent oversupply that depressed prices for the 1967 production.

The Secretary of Agriculture said that the feed grain objective should be met if participation is at least as high as in 1967 when 1.4 million farms were signed up for the program.

**Question:** After a short term in the Air Force I was discharged for misconduct. What will be my draft classification?

**Answer:** Since you are not acceptable for induction into the Army under current standards, your local board may consider you for a classification of 1-Y.

**Question:** I am an active member of the military reserve. I am interested in serving as a local board member in my county. Please inform me whether I can qualify for appointment.

**Answer:** Under the present Selective Service Act, a local board member must be between the ages of 30 and 75, a citizen and resident in the area of the county in which the local board is located. Membership in the military reserve prohibits appointment as a local board member. However, you may serve as an advisor to registrants. If you are interested in becoming an uncompensated advisor to registrants, you should contact the State Director, 220

keep looking for them so that you will know what the 1967 Amendments mean to you.

**Question:** I am 27 years of age. Can I volunteer for service through draft classification?

**Answer:** Current regulations prohibit a registrant volunteering for induction through his local board after becoming 26 years of age. However, you may enlist by contacting the recruiter for the appropriate branch of service.
