businessmen to our club, W.D. Stevens of Stamford, and W.R. Layton of Lancaster. We are pleased to welcome these two new members.

Confirmed was the Duty Day parade June 15th, which was worked out for our club to participate in as a way to add a boost to the affect of the day in general.

The misfortune of Miss Sheila Mason was reported to the club and was discussed. Funds were raised by individuals of the club for the purpose of aiding local citizens in building a home for Miss Mason, whose residence was destroyed by fire recently.

A fine talk was made by our own club members, Howard Palmer and Robert Barnett in regard to Shrine Hospital Day in Lexington which will be May 19. Mr. Barnett added a progress report that the Lexington Oleika Temple has increased by 800 members in the past 40 years which is a very outstanding record.

The Oleika Shrine Circus has been confirmed to be August 14 to 18. Your reporter was very happy to be present at this meeting as it was a very progressive one with everyone enjoying themselves as if to say "Sure glad I came."

Home Notes

BY: FAITH N. PLUMMER
On January 25, knitting lessons began at the Rockcastle County Library. There was a large number of women interested in learning to knit and so we started our lessons with an enrollment of 43. At present there are 32 who have continued in the three classes. In the first two lessons, the knitters were taught to cast on stitches, knit, purl and bind off. For the third lesson, house shoes were started, and on February 22 and 29, everyone began an easy sweater. The class members have made fast progress and have enjoyed the lessons at the library. This week I have some tips on the care of permanent press garments and some new recipes for you. "Permanent press" is available, not only in apparel for men, women and children, but also many household items such as sheets, pillowcases, napkins, tablecloths, bedspreads and curtain carry "no iron" labels. With such an ever-increasing array of these items, it is important to know how to take care of them.

Rule 1: Avoid getting fabric very soiled. Some synthetic fibers used in durable press items absorb and hold on to oily soil, thus it's best to wash often and avoid soil build-up. Pre-treat heavily soiled areas or grease spots by rubbing in a detergent paste or liquid detergent before washing. Test first on an inconspicuous area and make sure that all items treated this way resist fading. If color is fast, let the detergent remain on the fabric for 10 to 15 minutes. On color-sensitive fabrics, remove greasy soil with a dry cleaning solution, then wash by hand with a mild soap or detergent. Wash and rinse quickly, roll in a towel, and hang to dry.

Rule 2: Wash in small loads—sort first of course! and use the right laundry products. Save the hang tags or labels that give laundry instructions. A recipe box in the laundry is a good place to file them. A description of the garment they apply to may be written on each tag or attached to it. Consult the record whenever necessary. Bleaching with Clorox yellows some fabrics. Read and follow manufacturer's directions. Fabric softeners reduce static electricity, make garments feel softer, and often help prevent wrinkling. Rule 3: Use your laundry equipment correctly. Warm or cool water and short wash, rinse and spin cycles are important. Use a Wash and Wear or Durable Press cycle if available, otherwise adjust the controls by hand the heat and tumbling action of an automatic dryer relaxes fibers and removes wrinkles that occur during wearing and washing. Turn the heat off for the last 10 minutes of the drying cycle.

As soon as the tumbling stops, remove and hang garments and curtains. Neatly fold items like sheets, tablecloths and napkins. Chicken is plentiful and thrifty this season whether you buy pieces or a whole chicken. Here's an easily prepared recipe using chicken.

3 chicken half-breasts
3 chicken thighs
1 cup sour cream
1 teaspoon salt
1/8 teaspoon pepper
1 cup packaged herb-seasoned bread stuffing mix, crushed
10% ounce can cream of mushroom soup, condensed
Marinate chicken pieces in sour cream in refrigerator overnight. Preheat oven to 350 °F. (moderate). Grease a shallow baking pan. Drain off sour cream; reserve for sauce. Season chicken with salt and pepper. Roll in stuffing mix. Place in shallow

low baking pan, skin side down. Bake 30 minutes. Turn and bake 30 minutes longer, or until tender. Combine reserved sour cream and soup; heat and serve over chicken.
NOTE: One 2 1/2 to 3 pound cut-up frying chicken may be used instead of chicken pieces listed above. Butter-milk may be used instead of sour cream. This recipe has about 295 calories per serving (based on 6 servings).

Here's a recipe for a loaf of bread you can bake at home without waiting for the yeast to rise. It's good served hot or cold.

ORANGE NUT BREAD
3 cups flour
4 teaspoons baking powder
1/2 teaspoon salt
1/2 cup sugar
1/4 cup chopped peanuts
1 egg slightly beaten
1/4 cup orange rind, grated
1 cup orange juice
1/3 cup melted shortening or salad oil

Sift flour measure, add baking powder, salt and sugar. Sift together. Add peanuts. Mix orange juice rind, melted shortening and egg; beat. Pour into dry ingredients and mix just to moisten. Do not beat. Turn into greased loaf pan 9 1/2 x 5 1/2 x 3. Bake in moderate oven 350 F. about one hour or until done. Remove from pan. Cool. Slice better on second day. Delicious served with cream cheese.

The Extension Agents are planning a series of lessons on braided rugs for Rockcastle County. The first meeting will be March 4, from 10:00 a.m. to 2:00 p.m. in the Rockcastle County Library. It will be taught by Miss Rebecca Gibson, Area Extension Agent in Home Furnishings, Williamsburg, Ky. This meeting will consist of the following:

1. Discussion of suitable materials.
2. How to determine the size of the rug.
3. Estimating amounts of material needed.
4. The color plan.
5. Method of Dying, striping, toning down colors.

For the first meeting you should bring:

1. Wool material (old or used material)
 2. Small pan (enamel for dyeing)
 3. Newspaper (to protect tables)
 4. Wooden stick (for stirring dye)
- These lessons are open to anyone who would like to attend.

CLAY COUNTY HIGH SCHOOL
--1968 49th DISTRICT TOURNAMENT CHAMPIONS--

"DISTRICT TOURNEY"
(Cont. From Front Page)

back and tie it up at half time 36 all. Brodhead was behind on point at the end of the third period of play but came on strong in the fourth quarter, scoring 20 points to Oneida's 15, to win the game 76 to 72. And it looked as though the Tigers might be able to stop a strong Clay County Saturday night when they had a chance to pull within three at one point. But foul trouble for three starters and a cold shooting percentage finally decided the issue in favor of Clay County 89 to 72.

The Tigers pulled within five points during the third period, of play and had the ball for a chance at only a three point deficit but the goal was missed and Clay County grabbed the rebound and started building their lead to the final 89 to 72.

Randall Stevens, second high scorer for Brodhead with 23 points, fouled out of the game with 4:06 left in the fourth period and was followed by Cletis Brown who fouled out with 3:31 left. Brown garnered 8 points during the game. Brian Bussell, who played with 4 fouls on him from early in the second half, managed to stay in the game until there were only 29 seconds left. Bussell picked up 26 points for his night's efforts.

Other scorers for the Tigers were Daugherty with 6, Bullock with 4, and Moberly with 5.

The all-tournament team selections were head by Brian Bussell, followed by Les Davison of Oneida, Terry Gilbert of Clay County, Lonnie Mink of Livingston, Eddie Roberts of Oneida, Norman Owens of Livingston, Larry Sizemore of Clay County, Randall Stevens of Brodhead, Lonnie Hacker of Ansville, Ken Montgomery of Jackson County, Howard Saylor of Mt. Vernon and Raymond Carl of Jackson County.

The Clay County cheerleaders were awarded the first place cheerleading trophy and the Oneida cheerleaders received the second place trophy.

Brodhead drew Knox Central in the regionals to be played at Harlan and results of that game, to be played Wednesday night (last night) were not available at press time.

OOPS, SORRY--May be what Brian Bussell, 20, Brodhead player, thought but the referee thought otherwise as he called a personal foul on Bussell for fouling Larry Sizemore, number 15, from Clay County. Randall Stevens, 44, and Cletis Brown, 22, are also in on the action! Brodhead was defeated in the championship game by a score of 89 to 72.

GOING FOR TWO--Howard Saylor, 23, Mt. Vernon player, goes up for a crisp shot against Clay County last Friday night in the 49th District Tournament at Brodhead. Other Mt. Vernon players in the picture are Billy Helton, 44, Barry Renner, 21, and Joe Howard, 51. Saylor was named to the All-Tournament team.

Library Notes
A shipment of new books has been received from the Department of Libraries at Frankfort. Among them are:

INCIDENT AT MUC WA, B
Daniel Ford, a novel of war in Southeast Asia.

ONE CHILLY SIBERIAN MORNING, by Douglas Bolling. An adventure photographer's daring journey through the Siberia no frost Westerner has seen since 1917.

SENSE WITH A DOLLAR, by Charles Neel. A noted money management counselor shows you how to solve your financial problems before they start.

SEVEN MEDIEVAL KINGS, by Joseph Dahms. A series of seven biographies dealing with the monarchs who perhaps more than others made the Middle Ages what they were.

A WALK IN RURAL RUSSIA by Vladimir Soloukhin. A distinguished Russian writer describes the countryside with its specific central Russia charm, against its background of traditions and the customs and legends of the Russian peasantry.

THE WALKING STICK, by Winston Graham. A cultured and beautiful crippled English girl is drawn by small and sister steps into a world of skills and front men, where the stakes are high and danger imminent.

ALASKA: PIONEER STATE, by Nomo Sperry. The author takes the reader to each of the 5 sections of Alaska to view its geography and unique features. The book is up-to-date and the photographs are excellent.

ANNA OF THE BEARS, by Bjorn Rongen. A simple, well-kept story which shows how love and understanding overcome fear of wild animals and ignorance of their ways.

DISCOVERING PLANTS, by Glenn Black. This beginner's book of botany is proof that it is possible to present scientific fact in simple form without the sort of misleading statements usually associated with simplification.

Mr. and Mrs. Wood's address is 64 South Main Street, London, Ohio, phone 852-1454.

COX TO BE HONORED DURING LAW DAY
Jerry J. Cox of Mt. Vernon and teammate, Ronald Bamberger of Owensboro, submitted the prize winning title abstract in the Real Property Conveyancing Contest conducted annually by the Louisville Title Insurance Company.

Cox, the son of Mr. and Mrs. W.H. Cox, will receive a plaque and cash award which will be formally presented during the annual Law Day Ceremonies in Lexington, March 29 and 30.

The announcement of the award was made by Richard D. Gilliam, Jr., professor of Real Property Law at the

The Rural Kentucky Medical Scholarship Fund will have over 10 new scholarships available this year for Kentucky medical students, C.C. Howard, M.D., Chairman of the Fund's Board of Trustees, has announced.

Applicants must be residents of Kentucky who have been admitted to an accredited medical school. The Fund now has two plans available. A student may borrow up to \$2,500 per year, if he will agree to practice in one of 10 Kentucky counties most in need of physicians. For each year the recipient practices in one of these 10 "critical" counties, one \$2,500 loan will be cancelled.

University of Kentucky Law School. Gilliam stated that the title opinion, consisting of over 100 pages was the most comprehensive abstract submitted by a student in many years.

Cox, a graduate of Mt. Vernon High School and Berea College, is married to the former Vicki Carter, also of Mt. Vernon.

SADDLE CLUB MEETS
The Rockcastle Saddle Club met at its regular monthly meeting Monday, March 4 at the courthouse. The club president, William I. Norton, read the preliminary Constitution and by-laws of the club as outlined by the directors and officers of the club at a special meeting.

After some changes and amendments the constitution and by-laws were adopted by the club.

The Saddle Club now has 124 members.

OMITTED
The name of Karen Kay Cummins was inadvertently omitted from the story, published in last week's Signal, of Mt. Vernon Girl Scouts receiving merit badges at their Court of Honor held February 22.

Miss Cummins received merit badges in good grooming and child care.

The counties currently designated as critical are Crittenden, Metcalfe, Meade, Estill, McCreary, Rockcastle, Jackson, Knott, Leslie and Powell. This list is subject to change as the needs are met.

Loans up to \$1,500 per year are available at present to applicants who will agree to practice in rural areas other than these counties. These loans carry a low 2% interest to maturity, and 6% thereafter. A recipient may practice in 114 of Kentucky's 120 counties. The Fund will lend \$2,000 to a physician going into practice for the first time, who will establish practice in either a critical or semi-critical county, with a forgiveness of \$500 per year in a critical county, and one-half forgiveness feature in a semi critical county.

The Board also approved a new team concept whereby the Fund will grant a \$2,000 loan to a two-physician team planning to establish practice in approved areas where the ratio is less than one physician to 6,000 inhabitants. The forgiveness features of the critical or semi-critical counties would also apply in this program.

The Fund would enter into an individual agreement with each physician and would not become involved in the team contract. Applications are now being received for the 1968-69 school year. Any medical student may write to the Rural Kentucky Medical Scholarship Fund, Kentucky Medical Association, 3532 Janet Avenue, Louisville, Kentucky 40205 for information.

Court of Honor Held For Mt. Vernon Scouts

An Investiture Service and Court of Honor were held Thursday evening, February 29 at the First Baptist Church for Mt. Vernon Boy Scout Troop No. 156.

The ceremony was conducted by Charles Alfred Mullins, scoutmaster.

Promoted to Tenderfoot Rank were: Ricky Kirby, Billy Bell, Billy Baker, Gary Witt, Jimmy Shan Franklin, Mike VanWinkle, Jerry Mullins, William Cook, and Lonnie Ray Rogers. Parents of the boys were asked to come forward and stand behind their sons and the mothers were presented with pins signifying their sons rank.

Paul Travis was promoted to the rank of Second Class Scout.

Twelve boys were promoted to the rank of First Class Scout. In order to achieve this rank, the boys must pass the following tests: prepare a campsite, two overnight camping, trips, care of clothing and equipment, cook over open fire, wildlife edible plants and roots, swim 50 yards, 20 word message - by flags or Morse code, and a fall

course in first aid.

Boys receiving this rank were: Leonard Davis, Jimmy Mullins, Tommy Nucleo, Johnny St. Clair, Douglas Mullins, Gregory Mullins, James Dooley, John Richie Henderson, Bill Frank Stewart, Kenny Robinson, Dwight Hoskins and Frank Ballock.

Since the last Court of Honor held, several boys have advanced from the rank of Cub Scouts to Boy Scouts. These boys, recognized at last Thursday night's ceremony are: Mark Bray, Billy Bailey, Paul Travis, Gregory Mullins, Brent Kirby, John Richie Henderson, George Dooley, Jimmie Shan Franklin, and Billy Baker.

Dr. Jack Henderson is the Cub Scoutmaster. Four new Den Chiefs were recognized. Receiving the Badge of Office were Billy Frank Stewart, John Richie Henderson, Douglas Mullins, and Gregory Mullins.

Twenty-four boys were presented with one-year service pins. They are: Tommy Nucleo, Douglas Mullins, Johnny St. Clair, Jimmie Shan Franklin, and Billy Baker.

BREAKING GROUND-Murray State University President, Dr. Harry M. Sparks, and County school Superintendent are, shown breaking ground for the \$450,000 Harry M. Sparks Vocational School which was dedicated Tuesday. Identifiable in the back ground are, from left: Yashti Mullins, school board member, Sam P. Jones, Jack R. Craig, Goldie Barnett, David Craig, Clifford Bales, N.M. Smock, Coleman Mink, Chairman of the County School Board and Bill Barnett.

Ground Breaking Ceremonies Held For New Vocational School Tuesday

"A new trend is being established in Rockcastle County, vocational education," so said Murray State President, Harry M. Sparks. Sparks was speaking to about 100 persons present for the ground breaking ceremonies held Tuesday at the site, on the old Brodhead Road, of the new Vocational School to be built in the county.

The school will be named the Harry M. Sparks Vocational School in honor of Dr. Sparks who was State Superintendent of Education at the time approval of the school was granted and who was highly instrumental in acquiring the school for the county. Dr. Sparks is a native of Rockcastle County, Mays Construction Company of Williamsburg submitted the low bid for the

construction of the building of around \$347,000.00. Clothfelter and Johnson of Lexington are architects for the project.

Mrs. Neureul Miracle spoke briefly Tuesday and commended Dr. Sparks for being "a politician who kept his promise." She said that Dr. Sparks promised before he was elected State Superintendent, to obtain the school for Rockcastle and that our acquisition of the school was due mainly to his efforts. Mrs. Miracle told the crowd that the school would offer courses in Business Education, Auto Mechanics, Welding, Electricity, and Commercial Art. The school will serve Rockcastle and Southern Madison Counties and will be open for adult classes in the even-

ing. The school will be staffed by teachers paid for by the State Department of Education and about \$75,000 worth of equipment will be installed in the building.

Funds for the school came from 80% state and federal money and 20% from capital outlay funds of the local school system.

Dr. Sparks, who was introduced to the gathering by County Attorney James W. Lambert, briefly sketched Rockcastle's educational background and told the crowd that no one deserved more credit for the vocational school than did Carl Perkins, a democrat from Hindman, who introduced the vocational school bill in the Legislature in 1963. He also gave ample credit to Mrs. Miracle, the County

Board of Education, and Mayor Clyde Livingston of London, Ohio, in acquiring of the county in behalf of the school.

GIRL SCOUT COOKIE SALES

Several neighborhood cookie chairmen from the Central area of the Wilderness Road Girl Scout Council met at London recently to plan for the 1968 Cookie Sale March 18 through April 6. Logan Gray, Cookie Sales Chairman, announced that again this year, four varieties of cookies will be offered: chocolate - mint, butter flavored shorties, peanut butter sandwich, and assorted sandwich, at a cost of 50 cents per box.

The 7,500 Scouts of the of the Wilderness Road Council are hoping to sell 160,000 boxes of cookies this year. Each Girl Scout troop retains 10% of their total sales. This is often the only means by which a troop earns money for its troop program. The remainder of the proceeds of the sale goes to the Council treasurer. The net profit of the cookie sale is used to help finance the camping program and for the maintenance and improvement of the five camping properties within the Council's jurisdiction.

In 1967, the sale of Rockcastle Cookies made possible for over 2,800 girls, both Scouts and non-Scouts, to enjoy the Girl Scout program in the out-of-doors, through camping.

32 Girl Scouts from Mt. Vernon will participate in the 1968 cookie sale.

SWINE PRODUCERS TO MEET MONDAY

Brodhead School Runner-Up In 49th District Tourney Play

The 49th District Tournament held this year at Brodhead school, is now history and the game went pretty much as expected with the one upset being the Mt. Vernon Red Devils' defeat of Jackson County 53 to 51 in an overtime last Wednesday night.

The final game Wednesday was between Mt. Vernon and Jackson County, 2 was 1

see-saw battle all the way through with Mt. Vernon ahead by two at the end of the first quarter and behind 6 at the half and at the end of the third period of play. But the Red Devils were not to be outdone as they came back - in the fourth quarter to tie the score 51 all and to win in the overtime by a scant two points.

Scoring for the Red Devils were: Hilton B. Allen 3, Howard 5, Saylor 12, Powell 5 and Kirby 15.

The second game Wednesday was between Clay County and Livingston with Clay County leading all the way to a 73 to 67 victory over the Blue Devils.

Scoring for Livingston were: Mink 20, Reynolds 12, Jackson 13, Owens 22. However, the Red Devils found Clay County more than they could cope with Friday night when they were soundly trounced 94 to 49 by the mountain team. Clay County jumped out to a 25 to 4 lead at the end of the first quarter and steadily increased the lead while playing 10 men. Coach Lawwell also put in 9 different players during the game.

Scoring for Mt. Vernon were: Hilton 4, Allen 6, Howard 15, Saylor 10, Powell 1, Kirby 5, Coffey 2, Burdette 1, and Ritter 5.

The following game between the Brodhead Tigers, who had advanced to the semifinals after beating Anville in first round play, and Oneida was a bit more exciting as the lead changed hands several times. The Tigers held a 7 point lead at the end of the first quarter only to see Oneida come

An Editorial

Several citizens of our community are currently involved in an endeavor which should concern every adult in our country. Recently, a group met at the courthouse for the purpose of reactivating our local Red Cross Chapter. Until this reactivation movement was begun, Rockcastle County had the "distinction" of being the only county in the United States without an active organization. Our county, presently, has approximately 250 enlistees and industries in the Armed Forces, with around 30 of these men in Vietnam. With this many men in the service, it is imperative that we have a strong Red Cross Chapter, since they are the only link between a serviceman and his family. They are also the only ones that can recommend that a serviceman be sent home in time of emergency. Some criticism has been voiced concerning the Red Cross. This criticism may have arisen in part to a misunderstanding concerning the function of the organization. The Red Cross is mainly a service organization as opposed to a charity organization and as such, they do not come into a community to render aid to individuals unless there are enough persons or families involved to constitute a disaster. March is fund raising month for the Red Cross and the local chapter has several money making projects planned. A meeting will be held at the courthouse next Tuesday night by final plans for the fund drive and for Red Cross Day which has been set for Thursday, March 14. Several more volunteers are needed to work on these projects and if you are willing to donate a little time and effort please be at the meeting at 7:30 or contact James Robinson, Fund Drive Chairman, and inform him of your willingness to help.

Please lend your support to the local chapter for almost everyone has someone, husband, son, brother, nephew, close friend, who is serving in the Armed Forces, often in Vietnam, and whatever your feelings may be concerning the war, the servicemen still deserve all the consideration and help we can afford them.

POINT OF VIEW

BABSON'S

RISEING MEDICAL AND HOSPITAL COSTS

In 1965, the total health bill for all Americans was triple that for 1950 and rose from 4 1/2% to 6% of Gross National Product. Since then, medical costs have continued to climb at a

pace which is causing growing concern nationwide.

SOARING DEMAND FOR SERVICES

Of course, it must be realized that a sizable part of the increase in total dollar cost of medical care arises from the fact that we have many more millions of people to care for than was the case in 1950. In that year, our population was 150 mil-

lion. By 1965 this had jumped to 190 million. And we have now passed the 200-million mark.

Such a huge increment has in itself been sufficient to tax our medical facilities even though we have been expanding these at a consistently fast pace. But during the period under review we have also enjoyed unprecedented economic growth featured by high employment, climbing wages, and greatly expanded total personal income. This prosperity has made it possible for ever larger numbers of people to attend their medical needs than ever before.

MEDICARE AND MEDICAID

This was the situation when Medicare became operative less than two years ago. During that program's initial year of operation, 4.4 million of our senior citizens entered hospitals and the Social Security system paid \$2.5 billion for their hospital care -- and more than \$3 billion for their combined hospital and supplementary medical insurance benefits. During the first full year of the health insurance program, 12 million people (66% of all those eligible) used these covered medical services.

During that program's first year, the average physician's earnings were still striving to adjust to -- and keep abreast of -- the increasing flow of patients, they were charged by Medicaid -- the state-administered federal aid program which pays the medical costs of the medically indigent. While Medicaid's benefits are restricted to the aged, Medicaid's can be obtained by people of any age who qualify as "medically indigent."

In Medicaid's first year of operation, federal payments to New York State alone under the program were higher than the total dollar amount budgeted for Medicaid in the entire country.

DOCTORS' FEES

So far, physicians' fees have not risen as fast as hospital costs; but they are moving up smartly and now show signs of leveling. Last year, we are told by an informed observer, the net earnings of the average physician came close to \$35,000. And during the first 16 months of Medicaid's operations in California, 1200 doctors in that state received average payments of \$70,000 a piece for treating Medicaid patients alone.

Is it any wonder the average layman feels he is being overcharged... both as a paying patient and as a taxpayer?

"GUARDIAN OF THE WILDERNESS ROAD" was the term used by many early Kentucky settlers when they referred to the William Whitley House near Crab Orchard. Constructed between 1787 and 1794, the structure was the first brick home built west of the Alleghenies, and was used as a fort and as a social and civic center of that period. Restored and authentically furnished, the structure is operated as a shrine by the State-Parks Department and is open year round to the public.

USDA CHANGES REGULATIONS ON USE OF PESTICIDES IN '68

Important changes in sale and use of pesticides (materials that kill insects, funguses, rodents, etc.) for 1968 have been announced by the U.S. Department of Agriculture.

Dr. Rudy Scheibner, University of Kentucky Cooperative Extension Services entomologist, calls attention this week to the changes.

Beginning Jan. 1, 1968, he says, registration under the Federal regulatory act "for pesticide products now registered for use in any manner involving food or feed on a 'no-residue' or 'zero-tolerance' basis will be called 'finite' under certain conditions unless:

1. "Finite" tolerances (parts per million or billion) or exemptions for the tolerances requirements have been established by the Food and Drug Administration; or

2. Progress reports have been submitted to this division of the USDA showing that studies are being conducted to obtain data to support "finite" tolerances.

Scheibner says the term "zero tolerance" or "no-residue" means that the materials must not be found in animals or food (or other places) in any amount whatsoever after varied periods of time from application. "Finite" means that some traces of the material could be found, even though the amounts were very small.

"Testing techniques have been so refined now that researchers can work it down to where they can find so many parts per billion, Dr. Scheibner said.

"This means that the title 'zero tolerance' or 'no-residue' is not accurate. It is virtually impossible to establish a zero level on a pesticide; you can often find an unbelievably small amount of DDT, for instance, in a food crop, though that crop was not sprayed with DDT, with new testing techniques. Now materials that previously were registered as 'zero' tolerance will be assigned as 'finite' number, such as so many parts per billion to establish a residue level."

"Some of the pesticides that were legal to use before Dec. 31, 1967 will be illegal in 1968. Manufacturers will not be shipping such materials with illegal labels, but if dealers have stocks on shelf left over for the previous seasons, some of them could be sold for the 1968 season. Most of this 'illegal' material will be recalled by the manufacturers, but 'like life always slips up'."

He pointed out that tolerance information (residue levels, etc.) is NOT printed on labels so there is no way to identify the pesticides as to legality for use. "We recommend that dealers and consumers use only the legally approved insecticides in 1968 for a particular food product. Check with our department to see whether an insecticide or other material comes under the new 1968 legality ruling."

ADDITIONS HELP SOD-KILLER IN ZERO-TILLAGE TEST AT UK

Zero-tillage for corn production—a system whereby only a thin planting furrow is cut into the ground through killed sod—may be helped by some tests run by the University of Kentucky Agricultural Experiment Station.

Putting a quarter-pound an acre of Paraquat—an experimental herbicide—and a surfactant (wetting agent) with the standard material, Atrazine, improved performance of the latter

in killing sod. Professor Joe F. Freeman, agronomist and researcher said the combination was tried because attempts to kill fescue and for no-tillage work required high rates of Atrazine. Usually, two pounds active material an acre of Atrazine kills zero-tillage corn production; but it took about 4 pounds active an acre of Atrazine alone to kill KY 31 fescue, he noted.

The same problem was encountered in trying to kill Balbo rye cover crops that followed a corn crop; it took high rates of Atrazine alone, but when the Paraquat and the wetting agent were added, kill was satisfactory at lower rates of Atrazine. Using the Paraquat and the wetting agent with Atrazine resulted also in quicker kills of bluegrass, fescue or rye. The sod was ready for corn planting in one or two weeks, as opposed to three or four weeks for Atrazine alone.

Suitable planting equipment also is an aid to zero-tillage work. The U.K. researchers used a fluted-disk couler to cut the dead sod ahead of the planter shoe and hold down land disturbance. "We got generally good yields of corn," Mr. Freeman said.

The Atrazine, Paraquat and wetting agent combination gave good control of annual grasses and broad-leaf weeds without cultivation, he said. Corn yields on the better bluegrass and rye sod plots were 127 and 103 bushels an acre respectively. The fescue plots, on much poorer land, nevertheless produced 90 bushels an acre yield.

Social Security News

A \$1 increase—from \$3 to \$4—in the monthly premium to be paid by enrollees in the voluntary medical insurance program of Medicare has been announced by the Department of Health, Education, and Welfare.

The increase does not apply to the regular coverage for hospitalization paid for by Medicare.

Secretary John W. Gardner said the increase was based on a review of cost experience and actuarial projections of the voluntary program. The Secretary is required by law to make such a review and to determine

flowers are welcome marks of spring. But they also mark the appearance of wasps, stinging insects which always leave their mark.

Here's how they operate, says Dr. Rudy Scheibner, UK Cooperative Extension Services entomologist, and ways to control them.

A female wasp that survived the winter will pick a site and construct a nest in the spring. When the first brood emerges, the females enlarge the nest and start producing more wasps. By early summer, you have a big problem.

Use a three-percent Chlorolene spray on surface of eaves and window sills. One-half cup of 45 percent Chlorolene emulsifiable concentrate will make one gallon of three percent spray. This material will cover 500 to 1,000 square feet of painted surface. DDT or dieldrin mixed according to label instructions are also effective.

Start in early March, Dr. Scheibner says, and repeat the spray application every 20 days until nest-building activity stops.

\$3.20 instead of \$3. (Although it is estimated that on an accrual basis expenses are running about 7 percent over premium income, the program has more than ample funds, on a cash basis, to meet its expected obligations.) One-fourth of the increase rates because it is expected that people covered under the program, will, on the average, use about 2 percent a year more of covered

the necessary premium rate. The \$4 figure is the one that the Secretary, indicated in September to be necessary. Enrollees and the Federal Government pay equal monthly shares for the cost of medical services under the voluntary program.

The new \$4 rate is effective April 1, 1968. The monthly \$4 premium will be matched by Federal funds.

The \$3 rate, in effect since Medicare began on July 1, 1966, will continue for three months, through March 31, 1968.

Nearly 8 million Americans—92 percent of the population aged 65 and over—are enrolled in the voluntary program (Part B of Title XVIII of the Social Security Act).

Part A of Medicare provides basic hospital insurance financed primarily by payroll contributions and is not affected by the premium rate.

Part B to which enrollees contribute monthly payments, supplements Part A coverage. Part B covers a wide variety of medical services, primarily physicians' services, whether at home, in the office, hospital, or elsewhere.

About 20 cents of the \$1 increase is necessary to finance the program at the level of operation of the past. It is estimated that the premium rate for the past 18 months should have been

the premium increase and the interest earnings on the fund (The equivalent of some of 10 cents per capita) are available for contingency purposes.

About 23 cents of the monthly per capita margin of 28 cents left for contingency would be used when improvements in coverage under the Social Security Amendments of 1967 become effective—for example, by payment of the full charge for 26 day and pathology services to patients in hospitals and by coverage of more physical therapy services than under the old law.

Administrative expenses are expected to continue at the rate of 9 1/2 percent of premium income. The same components described above are reflected in the matching \$1 additional contribution payable out of general funds.

The vast majority of those enrolled in the voluntary program are receiving monthly cash social security benefits. The increases in monthly benefits provided by the 1967 Social Security Amendments will be many times larger than the premium increase of \$1.
