

Carter Receives Annual Award

Congressman Tim Lee Carter has been designated by the National Associated Businessmen, Inc., to receive their annual "Watchdog of the Treasury Award" for his voting record in the recently concluded 90th Congress. This is the second time Congressman Carter has received this award. He also received the same recognition at the close of the 89th Congress in 1966. Symbolized by a gold bulldog, the "Watchdog of the

Treasury" is awarded to those members of Congress whose voting records favor economy and fiscal responsibility in spending by the Federal Government.

The N.A.B., which was founded in 1947 and is comprised mostly of small businessmen, is working to eliminate government competition with small businessmen. Mr. Sheridan C. Barnes, of Elizabethton, Kentucky, is president of the NAB's Board of Directors.

LETTER TO THE EDITOR

Dear Editor: I want to make a few comments about Melvin Wright's letter to the Editor of the Signal.

I don't know of any real Republicans in this county who like the kind of Govern-

ment in Washington, the last few years. Apparently there are some for I see a few Nixon Stickers around.

Mr. Nixon, Nunn, Humphrey and DeMarcus are chips off the same old block to my judgment. Mr. Wright said the Republicans were going to slip in the back door to vote

for Wallace. I say he is wrong. The real Republicans that have their eyes wide open are going in the front door and vote for Wallace. You see we are sick and tired of the chimney corner politicians that would sell their country and fellow Americans out for some little political job.

Mr. Wright said Nixon would stop the war. If he knows so much about this, why doesn't he come forward and tell us how and when he will?

The real red blooded Republicans that pay their taxes and don't bum their draft cards and really love America will vote November 5 for George C. Wallace.

I suggest Mr. Wright really think about this election and see who really stands for the things we have made America the greatest land on earth.

Humphrey's Record Judge For Yourself

***** 1950 *****

HUMPHREY—Spoke and voted for improved Social Security program. Helped lead fight for fair employment practices legislation.

NIXON—Voted against Social Security improvement, against fair employment practices.

***** 1956 *****

HUMPHREY—Led fight to expand Social Security program to include pensions at age 50 for persons totally disabled. Was in front line of battle against another Eisenhower-Nixon administration giveaway that let producers of natural gas increase prices without government approval. Voted to protect Davis-Bacon prevailing wage pattern.

NIXON—Cast Senate tie-breaking vote as Vice President to shatter Davis-Bacon prevailing wage protection by permitting state agencies, rather than U.S. Secretary of Labor, to determine prevailing rate. Was part of administration that opposed expanding Social Security benefits to include totally disabled persons at age 50 and that sponsored natural gas giveaway.

***** 1958 *****

HUMPHREY—Fought against increased interest rates on GI housing loans, helped lead struggle to protect workers' welfare and pension plans, backed effort to apply Davis-Bacon provisions to public works construction, played leadership role in push for extended coverage and increase in jobless pay benefits. Also voted for increased public assistance payments to the aged, blind and disabled. Helped protect workers and their unions by opposing proposals to permit states to take jurisdiction in labor-management disputes which the NLRB declines to handle.

NIXON—As Vice President, cast tie-breaking vote in Senate to boost interest rates on GI mortgages, declined to help aged, blind and disabled by letting tie vote stand—thereby defeating proposal for increased public assistance. Was part of administration that opposed increased jobless pay.

*** 1961-68 ***

HUMPHREY—Continued as pace-setter among liberals, both as Senator and then as Vice President. Much of the legislation he had fought for over the years—stalled during the Eisenhower-Nixon administration—finally was enacted.

Humphrey took the lead in establishing, area redevelopment and manpower training programs, food stamp and food for peace programs, aided passage of the nuclear test ban treaty and arms control agency.

As Vice President, he helped the administration pilot through Congress an unprecedented flow of progressive legislation: Medicare, federal aid to elementary and secondary education, aid to higher education, war on poverty, urban programs, voting rights protection, housing, sweeping consumer protection programs.

NIXON—Out of office in these years, but not silent. Emerged as critic of series of liberal programs passed under Kennedy and Johnson administrations. Ran for governor of California in 1962 and was defeated. Blessed presidential candidacy of Sen. Barry Goldwater in 1964 and actively campaigned for his election.

"SENOR" BILL NEILL, Kentucky Educational Television's guitar-playing teacher is featured in a series of ETV programs designed to give elementary teacher's the "how to's" of teaching Spanish with the aid of television. Neill's program was the first tele-lesson broadcast when the state network first went on the air in late September. Neill, a veteran in television teaching, is the network's assistant director of education for instruction. The adult level, "TV Techniques for Teachers—Spanish" is broadcast each Monday at 8:00 a.m. ET (7:00 a.m. CT); 3:45 p.m. ET (2:45 p.m. CT); and 4:10 p.m. ET (3:10 p.m. CT).

Hunting Season Reopens Nov. 21

All is not lost for the dove, squirrel and archery deer hunters who may not have been successful in opening phases of these three seasons. There'll be later chances to bag their game in the second parts of these seasons. However, Minor Clark, commissioner of the Department of Fish and Wildlife Resources, reminds that hunters are about to enter a period of non-activity, with the ending of the three seasons mentioned on October 31. There'll be no more hunting until November 21, with the opening of rabbit and quail seasons, except for goose hunting, which

opens on November 4, and the gun deer season of five days beginning on November 13. Otherwise all hunting, even for crows and groundhogs, is barred from November 1 through November 20. The gun season on deer will be open in 91 counties from November 13 through November 17. On November 21, seasons will reopen for squirrels and will begin for grouse along with rabbits and quail. This, Commissioner Clark says, is the main part of the hunting season with indications for good results in both the quail and rabbit categories.

Remember Charles P. Peace And The 6th Column

Tim Lee Carter has supported high taxes, reckless spending, legalized LSD, and the disarming of America. He has also failed to speak out against Communism. He voted FOR Johnson's 10% surtax. And you old folks ought not forget that Doctor Carter voted AGAINST MEDICARE!

Most of you will vote for George Wallace. But it doesn't make sense to vote for Wallace and not vote for CHARLES P. PEACE for Congressman. Charles Peace believes exactly as Wallace does and Charles Peace is the only candidate in the 5th District who has worked for Wallace and voiced support for him. Carter and Roberts will fight Wallace all the way, while Charles Peace will support him all the way. So, if you're for Wallace, it makes a lot of sense to vote for CHARLES PEACE too.

On the voting machine, Charles Peace is in the 6th column from the left, under the United States "America First" emblem. So when you pull the little lever Beside Wallace's Name, move three columns to the right and pull the Charles P. Peace lever. Remember the 6th Column. Remember Charles P. Peace for Congressman.

Should We Forgive And Forget

Just a short time ago, Governor Louie B. Nunn said elect me Governor of Kentucky and I will run the state better without raising your taxes. Have we already forgot the \$4 sales tax, car inspection fee, car license raise the first of 1969, and the driver's license increase? Now Governor Nunn wants a \$500,000 airplane. I wonder who will pay for this. I was not for the gun law, were you? But we got it. Senator Morton and Senator Cooper voted for the gun law. Tim Lee Carter voted against it (bless him). Rep. Harold DeMarcus voted for himself a nice fat raise. Here is just part of the cliché that is telling you that Nixon is the one. That he is our man to run the United States the next 4 years. Do you want this? I don't. Evop our political bosses in our own county say you want this. Do you? I don't.

I have given a lot of thought to the three teams that are running. I just voted for myself against the team that wants to end war and bring the boys home, they stand up and tell you they are against Communism. The team that was a first class Governor and a first class Army general. I cannot go against this team.

I have to go all the way with George C. Wallace, and Curtis LeMay.

Two SBA Specialists Meet With RCDA

About seventeen persons were present Monday night for the regular monthly meeting of the Rockcastle County Development Association.

Two Small Business Administration specialists from the University of Kentucky spoke to the group concerning the services available to the small businessman from this program.

Jim Nevill, a Small Business Management Consultant, College of Business and Economics, University of Kentucky, told the group that his program was set up to provide consultant service to small businesses in the eight county Wildcat Trail Area. He stated that this type of program became necessary because of the 16,000 small business bankruptcies each year in Kentucky.

The objective of the program, according to Mr. Nevill, is to increase employment in certain areas of the state by increasing the profit and growth of firms operating in these areas. It is an extension program of the University of Kentucky financed by the state and the Economic Development Administration of the U. S. Department of Commerce and provides a general analysis of the business and furnishes recommendations to management for increased profitability and the growth of the firm.

Any business firm may ask for technical assistance under the program; however, preference will be given to small firms who do not have the resources to finance the service of professional consultants. By SBA standards, a small-business is one that grosses less than 5 million dollars annually or employs less than 250.

Professor Oliver W. Gard of the Engineering Department, University of Kentucky, who is also connected with the program, told the group that he is concerned with the technical aspect of the program and if he doesn't have the answer to an engineering problem in connection with a small business enterprise, that he knew someone at the University who does know.

Engineering assistance can be given on industrial sites as to what should be done when. Assistance can also be given on estimates and contracts of industrial development in the preliminary stages.

Any business firm interested in obtaining technical assistance may contact Rex Wesley, Area Development

Mink Youth Killed In Hunting Accident

Delbert Ray Mink, 10, a 5th grade student at Livingston School was killed early Wednesday evening, October 23, in a hunting accident.

According to police reports, the Mink youth, who was hunting with his grandfather, Albert Mink, near the elder Mink's home at Pine Hill, had been told by his grandfather to stay in a cornfield while he (Mr. Mink) went to another cornfield; however, they, unknown to his grandfather, followed behind him. Mink told police that a commotion started in the direction that he had been watching a squirrel. Thinking it was the squirrel, Mink fired striking his grandson on the right side.

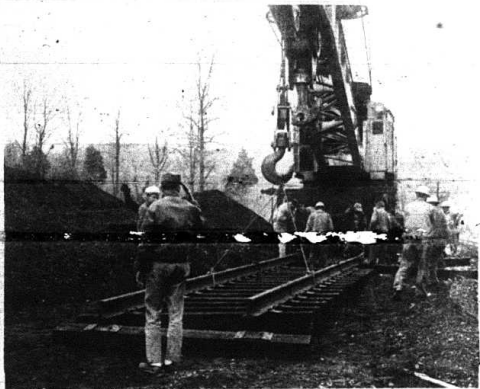

He was dead on arrival at the Rockcastle County Baptist Hospital.

Besides his grandfather, he is survived by his parents, Mr. and Mrs. Eddie Mink of Pine Hill; one brother, Eddie Wayne Mink, at home; his maternal grandparents, Mr. and Mrs. Herman Mize of Livingston, and his paternal grandfather, Mrs. Albert Mink of Pine Hill.

Funeral services were held Saturday, October 26 at the Pine Hill Baptist Church with Bro. Eugene Bradley officiating. Burial was in the Pine Hill Cemetery. Cox Funeral Home was in charge of all arrangements.

FIFTEEN CAR DERAILMENT-- Sheriff Tip Reppert is shown examining the wreckage of a fifteen L & N freight train car derailment which occurred about 11 p.m. Monday, October 28 just south of Livingston. The cause of the derailment is not known, according to an L & N official. The train, eighty cars long, was loaded with coal heading to Cincinnati from Corbin. There were no injuries from the derailment and there was no estimate of the damage made at press time of the Signal by L & N.

NEW TRACK-- Shortly after the derailment of fifteen L & N cars at Livingston Monday night, new track was being laid by a railroad crew. The track was back in use by 8 p.m. Tuesday night.

Induction Call

One Rockcastle County youth will be inducted into the Armed Services on November 12 and seven have been called for preinduction examinations on that date.

Called for induction is Wayne Bradley. Called for physical examinations are Jerry Lee Abbott, Ronald Dale Bray, Edward Earl Alcom, Alma Lloyd Tyree, Gary Wade Mink, Troy Lee Jones, and Olen Wesley Johnson.

Mrs. Della Sada, Executive Secretary of Local Board No. 85, is presently in the Berea Hospital suffering from an injury received in a fall while on a recent vacation in Arizona. It is not known how long she will be away from her office.

In the meantime, Mrs. Jessie L. Mobley, Area Executive Secretary of Area 7 Selective Service, and Mrs. Louise Brock, Executive Secretary of the Local Board in London will be filling in when possible.

Notices will be posted on the Selective Service office door in the courthouse during the days when the office will be open.

Ford-Stanley Named School Chairman

Mitch McConnell, State Chairman of the Young Kentuckians for Nixon-Cook announced today that Danny Ford and Donna Stanley, both of Mt. Vernon, have been appointed the Rockcastle County High School Chairmen of the Young Kentuckians for Nixon-Cook-Carter.

In accepting the appointment, Danny said, "We are going to be working in Rockcastle County High Schools to get young people, who are interested, involved in the campaign by doing precinct work and helping the local organization in any way we can." Donna added, "This is an important year to both Kentucky and the nation. Therefore, the student interest is very high. We think Mr. Nixon, Judge Cook and Congressmen Carter will carry this county by a substantial margin."

Any persons interested in joining the Young Kentuckians through the 9th at the Calloway Baptist Mission Rev. Harvey Penning will be the evangelist for the services which will begin each evening at 7 p.m. The public is invited.

Princess and Prince of the Mt. Vernon Halloween Carnival last Friday night. They were representatives of the eighth grade. Miss Henderson is the daughter of Dr. and Mrs. Joe Henderson and Jim is the son of Mr. and Mrs. Jim Owens.

He was born in Rockcastle County on December 7, 1897, the son of Joe and Rhoda Ann Albright and was a member of the Brodhead Masonic Lodge.

He is survived by his wife, Mrs. Fanny Albright, three daughters, Mrs. Eddie Jo DeJonge of California, Mrs. Lavene Robertson of Louisville, Ky., and Mrs. Margie Brock of Clarksville, Tenn.; two sons, Keith Albright of Danville, Ky., and Monroe Albright of Crab Orchard, Ky.; three step-children, Mrs. Joyce Savage of Denver, Colo.; Mrs. June Latham of Somerset; and Bob Laws of West Liberty. One sister, Mrs. Abba Hamm of Brodhead and nine grandchildren. One daughter, Judith, preceded him in death.

Funeral services will be held Thursday, October 31, at 2 p.m. at the Ottawa Baptist Church with Rev. J. B. Allen officiating. Burial will be in the Ottawa Cemetery. Watson Funeral Home in Brodhead is in charge of all arrangements.

PEPPER SIGN-UP

Farmers have already contracted to grow 340 acres of peppers in 1969, according to H. Lee Durham, Area Extension Agent. This figure is an increase of 79 acres over the number of acres raised this year. If you wish to sign up to raise peppers, see either Mr. Durham or Robert Hubbard, local station manager. Information on the monetary results of this year's crop will be in next week's Signal.

Nixon Day Rally Sat

The Laurel County Boys will provide the musical entertainment for the Nixon Day Rally which will be held Saturday, November 2 at the Rockcastle County Courthouse beginning at 10:30 a.m.

Pleas Jones, 5th District Republican Party Chairman, will be the main speaker. Free coffee and hot dogs will be served during the rally.

"All local musical talent are urged to be present and participate in this rally," County Chairman Clyde Barnett said. "All singers, musicians, quartets, etc." Barnett stated "should come to the truck which will be located in front of the courthouse and we will be glad to place you on the program."

VANDALS BREAK WINDOWS

About 25 windows were broken on Sunday night at the Sand Springs School. According to Sheriff Tip Reppert, rocks were thrown through the windows but the building was not entered. This is the second time this year that windowpanes have been broken out at the school.

NAMES OMITTED

Four names were inadvertently omitted from the list of directors of the Rockcastle County Farm Bureau published in last week's Signal. Also named to the board for the 1968-69 year were Mrs. Steve Bullen, Mrs. Junior Sowder, Mrs. M. C. Brown, and Mrs. Robert Witt.

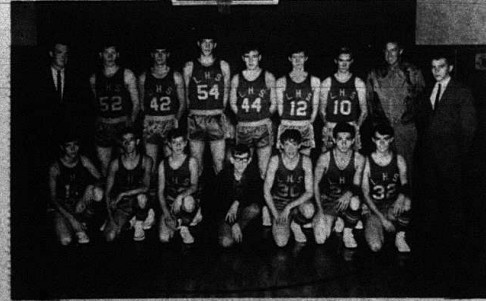

MVHS KING AND QUEEN-- Miss Phyllis Nae, daughter of Mr. and Mrs. Jack Nae, and Johnny S. Clair, son of Mr. and Mrs. Jack St. Clair, were chosen King and Queen of the annual Halloween Carnival held at Mt. Vernon School last Friday night. Gross receipts for the carnival were \$2,905.99 about \$600 over last year's total.

PRINCE AND PRINCESS-- Miss Lida Henderson and Jim Owens were crowned Prince and Princess of the Mt. Vernon Halloween Carnival last Friday night. They were representatives of the eighth grade. Miss Henderson is the daughter of Dr. and Mrs. Joe Henderson and Jim is the son of Mr. and Mrs. Jim Owens.

ROYALTY-- Miss Caroline Mahaffey and Buzz Carriera, seated back row, were crowned King and Queen of the annual Livingston School Carnival last Friday night. Miss Mahaffey is the daughter of Mr. and Mrs. Jesse Mahaffey and Buzz is the son of Mr. and Mrs. Corles Carriera. Yvonne Morris and Dale Carpenter, seated front row, were crowned Prince and Princess of the Carnival. Miss Morris is the daughter of Mr. and Mrs. Leroy Morris and Dale is the son of Mr. and Mrs. Walter Carpenter. Livingston School grossed \$1,581.05 from the carnival.

LHS BLUE DEVILS-- The Livingston High School Blue Devils will take the floor this Saturday night in their season opener against the Alumni Team who defeated them last year 61-60. Mullins Named Teacher Chairman

Roland D. Mullins, a Mt. Vernon educator, has been named Chairman of Kentucky Teachers for Nixon-Agnew, a statewide organization of educators supporting the National Republican Presidential ticket.

The appointment was announced today by Charles S. Rhyme, the National Chairman for United Citizens for Nixon-Agnew Headquarters in Washington, D.C. and by Marvin Edwards, the State Citizens Chairman.

According to Edwards, Teachers Citizens Committees have been formed throughout the county to rally members of the field behind Richard Nixon and Ted Agnew. He said the Kentucky Division will work closely with the National Citizens Committee in its efforts to mobilize the support of five million independents and Democrats behind the Nixon-Agnew team.

Mullins is principal of Roundstone Elementary School in Mt. Vernon and a former principal and teacher in the Anderson County Schools. He is accepting the appointment.

Mullins said: "There are no heroes, leaders or decision makers in our nation who can have the needed soothing effect that Mr. Nixon can have on our society. He impresses me as a man who would devote every fiber of himself to leading the greatest nation in the world to a logical, straightforward confrontation with its problems -- internally and externally -- and all of this without placing emphasis on vote-getting programs which have led us to this point."

Mullins and his wife make their home on West Main Street in Mt. Vernon.

BY LEON JASPER

The Mud Dauber is a species of the wasp family. Their known characteristics are very long hind legs and extremely long stings which enlarge gradually to form the abdomen. They build their nests of mud, in the shape of long tubes, which resemble "organ pipes", and they provide these nests with paralyzed spiders and other insects.

The Mud Dauber Wasp is not too harmful to the human being unless aggravated, then it will sting. Otherwise, they use their stingers only to paralyze prey in order to preserve it. People once built their homes of mud, thatch, logs and the like, but that was quite long ago. Today, the homes are much more modern. In fact, the most modern of homes today is the new mobile home, with it's all steel frame construction, top-quality fixtures and deluxe furnishings. Size is no problem either, for they are available in many sizes and some with expandable room space. But, their best feature is their economy.

What the Governor Thinks of Marlow Cook

"Mr. Cook has lost the public's confidence for he has been unable to solve the problems of his own county. If he can't provide the leadership needed in Jefferson County, how can he provide leadership for Kentucky's 120 counties..."

...Louie B. Nunn, Burkesville, Ky., May 11, 1967.

"Cook has failed to show adequate leadership in the fields of education, reducing crime and in the open-housing issue."

...Louie B. Nunn, Middlesboro, Ky., April 18, 1967.

"I'll never let anybody else ever make fun of us," said Governor Nunn in speech saying that Cook mimicked the speech of rural Kentuckians at a Shively meeting. Jamestown, Ky., May 12, 1967.

"Mr. Cook has advocated the end of free textbooks and free schoolbuses in Jefferson County schools."

Nunn for Governor advertisement in the Allen County News. May 17, 1967.

"Marlow Cook has no constructive program for Kentucky."

Louie B. Nunn, Harlan, Ky., May 1967.

Charles I. Dawson, Louie B. Nunn's campaign manager described Cook: "Dictatorial, autocratic, tricky, and evasive politician. He is intolerant of the views of those whom he cannot control. His changes of position from time to time on public questions are dictated from political considerations rather than personal conviction."

Fertilize Pasture and Hay Fields Now

Fall is a splendid time to topdress, lime, and fertilize legume and grass fields. When you topdress in the fall, you have many advantages over a springtime operation! 1. The ground is drier and firmer, and you can get over it easier with heavy equipment. 2. Both you and your fertilizer dealer usually have more spare time now than in the spring rush. 3. Fall fertilization improves plant growth and helps the plants to better survive winter freezes and thaws. 4. You lose little if any phosphate and potash from fall applications. It's only when the land is real steep and cover is light you get significant loss, and then it is mostly wash-off.

There is no better way to determine amount and kind of fertilizer needed than a good soil test. In the absence of a soil test it is best to consider that the test is low. For a five-ton crop of alfalfa, or alfalfa grass mix, an application of 500 to 600 pounds of 0-15-30 or its equivalent with boron added is recommended where no soil test is made. For a 3½ to 4 ton grass and legume pasture crop, apply 400 to 500 pounds of 0-15-30 or its equivalent.

Hog Cholera Vaccination

Hogs assembled in livestock markets and sold for return to the farm must be identified and given anti-hog cholera serum. Hogs assembled in livestock markets for transport to other states must be vaccinated according to the requirements of the state of destination. Modified live virus vaccines can only be given on approval of the Kentucky State Veterinarian, and only to animals going to states requiring it. It is anticipated that the interstate movement of modified live virus vaccines will cease on January 1, 1969, and July 1, 1970. Hogs can move interstate that has been vaccinated with M.L.V.

How to quit vaccinating for hog cholera.

Breeding stock - Stop vaccinating and take your chances. Most outbreaks are caused by vaccination or exposure to hogs with hog cholera.

If hogs are on concrete, clean up and disinfect. Sows vaccinated with modified live virus prior to breeding -- no danger to pigs at farrowing time. Animals properly vaccinated should be free of the virus in two weeks. Do not vaccinate bred sows.

Boars should not be put in with sows that have been vaccinated with modified live virus within 30 days. Boars that are put in with sows recently vaccinated should be given anti-hog cholera serum according to weight dosage schedule. Do not mix recently vaccinated hogs and non-vaccinated hogs.

Feeding operations - Hogging down corn with vaccinated hogs - no carry over from year to year. Vaccinated hogs on concrete feeding floor, clean and disinfect feeding floor after sale of hogs - no carry over to new feeders not vaccinated.

It is illegal to vaccinate hogs that are to stay in Kentucky with modified live virus. No other vaccination against hog cholera is recommended. In Kentucky - All swine herds, found to be infected with the disease, Hog Cholera, will be depopulated and the owner will be paid market value for the hogs. Because of budget restrictions the indemnity is limited on purebred animals.

Vaccination of swine with modified live virus has been restricted by Kentucky regulation since February 1, 1968.

Tax Management Before January, 1969 May Save Farmers Money.

Year's ends drawing closer -- and the smart farmer will look at his farm records now to see if there is some way he can legally reduce his 1968 income tax.

There is an increase in taxes for 1968, says S.Q. Allen, U.K. Cooperative Extension Service economist. Checking farm records now may be fruitful. At returning time, it is too late to take some of the following legal and helpful steps.

Mr. Allen lists these possibilities: **EXPENDITURES** If taxes are determined on the "cash method," additional (and needed) expenditures in 1968 may help, particularly if these could have been postponed until next year. Examples: Painting buildings, repairing structures, repairing equipment, buying 1969 farm supplies.

2. PURCHASES: You may help by buying needed equipment or machinery in 1968. Costs will have to go on the 1968 depreciation schedule, of course. But, "rapid-rate" depreciation may help in place of the "straight-line" method. In the rapid-rate system, you can claim more depreciation in the purchase year. Occasionally you can deduct first-year depreciation of 20 percent on many items, in addition to the regular depreciation.

3. INVESTMENT CREDIT: You can take a seven percent investment credit on machinery, equipment, fences, grain bins, silos, tile drains and the like if they went in service in 1968. This is a direct reduction of income tax. Example: You buy a tractor for \$4,000 which you expect to use for eight years; the investment credit is 7 percent; 7 percent of the purchase price is \$280; this amount (\$280) actually is taken off your tax.

4. INSTALLMENT SALES: When you sell a farm or other real estate, you must pay capital gains tax on any profit made in a tax year. But often the total tax payment can be reduced if the sale is made on an installment basis.

To qualify as an "installment" sale no more than 30 percent of the selling price can be received in the sale year. In such installment sales, taxes are paid only on that part of the profit received during the taxable year.

5. BREEDING OR DAIRY LIVESTOCK SALES: Any livestock held for breeding or dairy purposes should be reported on Schedule "D". This way, only half the gain is taxable. This is true for livestock raised or bought.

5. BREEDING OR DAIRY LIVESTOCK SALES: Any livestock held for breeding or dairy purposes should be reported on Schedule "D". This way, only half the gain is taxable. This is true for livestock raised or bought.

6. CHILDREN'S WAGES: Pay your children reasonable wages for work actually done by them. Or, give them in-coming-producing property and let them report income from their work and capital.

A child under 19 years of age, or one regularly enrolled in school (even more than 19 years old) can earn more than \$600 without the parent losing the exemption for this child. Actually, two, \$600 exemptions are possible; the parent can take one, and the child who works can take one. In the case of a child who works, he or she need not pay income tax until his or her income is more than \$900 in a tax year.

To The Citizens Of The Fifth Congressional District Of The State Of Kentucky..

AS YOUR UNITED STATES REPRESENTATIVE, I WISH TO GIVE AN ACCOUNTING OF MY WORK DURING THE PAST FOUR YEARS. I SUPPORTED THE APPALACHIAN ACT WHICH HAS RESULTED IN 14 NEW VOCATIONAL SCHOOLS, WITH ADDITIONS TO THREE EXISTING SCHOOLS, HERE OUR CITIZENS, BOTH YOUNG AND OLD, ARE TRAINED IN MECHANICS, PRINTING, SALESMANSHIP, CARPENTRY, SECRETARIAL WORK, TELEVISION AND AVIATION TRADES, AND OTHERS, IN SOME FIELDS OF TRAINING, 100% OF THE GRADUATES ARE EMPLOYED. ROUGHLY, 85% OF ALL GRADUATES ARE EMPLOYED. THIS TAKES OUR UNEMPLOYED CITIZENS OFF THE DOLE AND PLACES THEM ON A PAYROLL.

THE APPALACHIAN ACT PROVIDES FOR BUILDING EXCELLENT HIGHWAYS THROUGH HARLAN AND BELL COUNTIES. CORRIDOR "J" IS BEING BUILT THROUGH PULASKI, WAYNE, CLINTON, AND CUMBERLAND COUNTIES. I AM HOPEFUL THAT MORE FUNDS WILL BE AVAILABLE FOR CONSTRUCTION OF OTHER NECESSARY ROADS. IT IS THRILLING TO SEE THESE NEW TRANSPORTATION ROUTES UNDER CONSTRUCTION.

APPALACHIAN FUNDS HAVE ASSISTED IN THE BUILDING OF HOSPITALS AND NURSING HOMES IN HARLAN, BELL, GREEN, LINCOLN, AND PULASKI COUNTIES. IN CLAY COUNTY, AN ENTIRELY NEW HOSPITAL WILL BE BUILT WITH APPROXIMATELY 80% FEDERAL FUNDS. WE ARE WORKING TO SECURE MUCH NEEDED ASSISTANCE IN ADAIR, TAYLOR, AND AT WENDOVER IN LESLIE COUNTY, AND IN OTHER COUNTIES. SUCH AID IS OF GREAT ASSISTANCE TO THE SICK, THE LAME, THE HALT, AND THE BLIND.

I SUPPORTED THE ECONOMIC DEVELOPMENT ACT, AND AS A RESULT WE HAVE BEEN ABLE TO GET PURE WATER AND SEWAGE DISPOSAL PLANTS IN ALMOST EVERY ONE OF OUR 24 COUNTIES. NOT ONLY DOES THIS IMPROVE HEALTH CONDITIONS THROUGHOUT THE FIFTH DISTRICT, BUT ALSO IT IS AN INCUBATOR FOR INDUSTRY TO COME IN.

I SUPPORTED FEDERAL AID TO EDUCATION, THROUGH WHICH MUCH NEEDED EQUIPMENT HAS BEEN OBTAINED FOR THE EDUCATION OF OUR YOUNGSTERS. NEW CLASSROOMS HAVE BEEN BUILT, AND IN SOME CASES, ENTIRELY NEW SCHOOLS HAVE BEEN BUILT. MANY YOUNGSTERS HAVE BEEN ENABLED TO GO TO SCHOOL WHO, WITHOUT ASSISTANCE, WOULD HAVE BEEN DROPOUTS.

I SUPPORTED THE LIBRARY SERVICES ACT, WHICH HAS HELPED IN THE CONSTRUCTION OF LIBRARIES THROUGHOUT THE FIFTH CONGRESSIONAL DISTRICT FOR THE ENLIGHTENMENT OF THE YOUNG AND THE ENJOYMENT OF OUR SENIOR CITIZENS.

I HAVE VISITED SOUTH VIETNAM ON TWO OCCASIONS, ONCE AT MY OWN EXPENSE AND ONCE AS A MEMBER OF THE SPEAKER'S COMMITTEE TO INVESTIGATE THE PROGRESS OF THE WAR. WHILE I DO OPPOSE THE POLICIES WHICH PLACED OUR MEN IN VIETNAM AND CONSIDER IT THE GREATEST MISTAKE OUR COUNTRY HAS EVER MADE, I HAVE ALWAYS SUPPORTED OUR MEN IN UNIFORM. FOR INSTANCE, I WAS THE FIRST MAN TO INTRODUCE THE GI INSURANCE BILL. I INTRODUCED THE GI BILL OF RIGHTS. BY THIS LEGISLATION, PROTECTION IS PROVIDED FOR OUR SOLDIERS AND THEIR FAMILIES AND FOR THE EDUCATION OF OUR VETERANS UPON THEIR RETURN.

AS IT HAPPENS, I WAS NOT A MEMBER OF CONGRESS WHEN THE GULF OF TONKIN RESOLUTION WAS SIGNED INTO LAW IN 1964. ON THIS, MY OPPONENT SHOWS AN ABYSMAL IGNORANCE, OR A TENDENCY TOWARDS MALIGNANT MISREPRESENTATION.

I FONDLY HOPE AND FEVERENTLY PRAY FOR AN HONORABLE PEACE AND THE RETURN OF OUR WONDERFUL MEN TO THE UNITED STATES. I HAVE VOTED FOR EVERY INCREASE IN SOCIAL SECURITY AND SHALL SUPPORT FURTHER INCREASES CONSISTENT WITH SOLVENCY AND INTEGRITY OF THAT FUND.

WITH REPRESENTATIVES JOHN YOUNG OF TEXAS AND FRED ROONEY OF PENNSYLVANIA, I PILOTTED THROUGH THE HOUSE THE BILL TO ESTABLISH A NATIONAL INSTITUTE FOR BLINDING DISEASES. THIS BECAME LAW ON AUGUST 16, 1966.

THE DRUG ABUSE CONTROL ACT WAS PASSED IN 1966. THIS LEGISLATION WAS DEVELOPED IN MY SUBCOMMITTEE. CONTRARY TO WHAT MY POORLY INFORMED OPPONENT HAS STATED TIME AFTER TIME, I HELPED WRITE THE BILL. I SUPPORTED THE BILL ON THE FLOOR OF THE HOUSE, AND VOTED FOR IT ON EVERY OCCASION.

OUR DISTRICT HAS SHOWN MORE PROGRESS IN THE PAST FOUR YEARS THAN IN ITS ENTIRE HISTORY. I AM DEEPLY GRATIFIED THAT THIS IS SO. AND AS YOUR REPRESENTATIVE I SHALL CONTINUE TO WORK FOR PROGRESS IN THE FIFTH CONGRESSIONAL DISTRICT.

I HAVE CONSISTENTLY SPOKEN OUT AGAINST CRIME IN THE STREETS AND FOR LAW AND ORDER WITH JUSTICE. I HAVE SUPPORTED ALL LEGISLATION TO ASSIST OUR LAW ENFORCEMENT OFFICERS.

I HAVE CONSISTENTLY VOTED AGAINST FOREIGN AID. I HAVE BEEN ENDORSED BY THE AMERICANS FOR CONSTITUTIONAL ACTION AND HAVE BEEN AWARDED THE TROPHY AS "WATCHDOG OF THE TREASURY" BY THE NATIONAL ASSOCIATED BUSINESSMEN, INC., FOR VOTING IN FAVOR OF ECONOMY AND FISCAL RESPONSIBILITY IN SPENDING BY THE FEDERAL GOVERNMENT.

AS YOUR UNITED STATES REPRESENTATIVE, I HAVE SINCERELY STRIVEN TO HELP THE PEOPLE OF THE FIFTH DISTRICT OF KENTUCKY. IF YOU APPROVE OF MY RECORD, OF MY ATTEMPTS TO BE HELPFUL, AND OF THE LEGISLATION WHICH I HAVE SPONSORED, I ASK FOR YOUR VOTE, YOUR SUPPORT AND YOUR INFLUENCE ON NOVEMBER 6.

Tim Lee Carter, M.C.
Fifth District, State Of Kentucky

VIETNAM:

YOU CAN MAKE SURE WE'RE NOT TRAPPED AGAIN.

Every American wants peace. We must end this war in a way that discourages aggression and prevents future wars. How can you make this peace a lasting peace? Elect Richard Nixon President.

He understands the forces that threaten world peace. He has the experience to bring about an era of negotiation. He will reform the free-world alliances now in disarray and redirect our strategy on new, global terms.

He is a recognized world leader who knows how to practice preventive diplomacy. He will end this war and avoid future wars by dealing with our adversaries in the only way they respect--through strength, collective security, and patience.

THIS TIME, VOTE LIKE YOUR WHOLE WORLD DEPENDED ON IT.

NOTICE

TO THE VOTERS OF EDUCATION DISTRICT NO.5 (Conway, Roundstone, and East Mt. Vernon) (Conway, Roundstone, and East Mt. Vernon)

This will be my last opportunity to communicate with you by means of the newspaper.

I urge you to not forget me on election day. I have told you what I stand for. I make my living on the farm and understand and appreciate the working man and his problems. I will do all I can to give your children the best education possible without an increase in taxes.

I don't believe in resorting to high pressure tactics just to win an election. I want to meet my friends after the election and be able to discuss issues fairly and honestly.

I urge you to "beware" of promises and propaganda that might be issued at the last minute. You have to consider the source and the motive behind this type of politics.

When you go to the polls Nov. 5, look for the school ballot at the extreme right and vote for Adams - a man who loves Rockcastle County and respects its people.

Kenneth Adams
Pd. for by Kenneth Adams

To The Voters Of The 28th Judicial District Of Kentucky

On November 5th, you will elect a Circuit Judge to serve during the unexpired term of the late Judge, R. C. Tartar.

Since the month of February, 1968, I have been your circuit judge, I am now a candidate for this office. My name appears on the voting machine under the heading of "JUDICIAL BALLOT, REPUBLICAN PARTY."

I do not have an opponent, however, when you go to the polls on November 5th, I would like for you to remember me by your vote. To vote for me you must stamp your ballot opposite my name. Voting a straight ticket does not vote for a judicial candidate.

May I urge you to exercise your privilege of voting. Remember the day, November 5, 1968

Sincerely Yours,

Library Notes

Mrs. Phillip Davis, Librarian
A shipment of new books has been received from the Department of Libraries in Frankfort. Among them are:

1967 PICTORIAL SPORTS ANNUAL. For the first time we have in one volume the narrative and pictorial record of what happened in sports during the last year.

BERLIN, THE WALL IS NOT FOREVER, by Eleanor Dulles. A highly readable first person account, by an acknowledged authority on German affairs, of the crisis in Berlin.

THE YOUNG SPORTSMAN'S GUIDE TO SOCCER, by Mike Jeffrey. Want to understand and enjoy the soccer games on TV? Read this guide.

A CHRISTMAS MEMORY, by Truman Capote. A nostalgic little book about Christmas twenty years ago in a small town.

ANDREWS' RAIDERS, by Roberto F. Fawcett. The seizure of a Confederate locomotive from Marietta, Georgia, and the attempt by Andrews and his group of Union men to bring it through Tennessee destroying bridges on the way is retold here.

HEART ATTACK: ARE YOU A CANDIDATE? by Arthur Blumfield. A carefully documented analysis of the significant causes of our No. 1 killer.

COBBLEERS' KNOB, by Eleanor Jewett. The story of two girls solved the mystery of a haunted house but sold

some everyday problems too.

ELIDOR, by Alan Garner. While exploring a church being razed in an English slum, four children are drawn into Elidor to combat the evil power which now grips most of that land.

ceasingly matches wits with the Tsar.

THE WONDERFUL WORLD OF HORSES, by Beth Brown. A collection of stories about horses written by people who know, love, and understand them.

FIELD GOAL, by Curtis Bishop. The author has again woven together a thrilling sports background and a sympathetic story for young readers.

Mrs. Phillip Davis, Librarian

FOUR TOOK FREEDOM, by Philip Sterling. A competent, easy-to-read collective biography of four negroes who were born in slavery, achieved their freedom, and, by their remarkable accomplishments, won their esteem and respect of their countrymen.

Social Security News

Many people have been calling the Somerset Social Security Office with the question, "Why is my employer still deducting social security tax when about this time last year he stopped?"

"The answer is rather simple," explained James Mustian, Officer-in-Charge of the office. The recent changes in the program provide for increasing the amount of earnings that can be counted toward benefits in a year from \$6600 to \$7800. This means social security tax contributions are deducted on workers' wages until their earnings for the year reach \$7800. Workers who earn \$6600 or less are not affected by this change.

Mustian went on to explain that people earning \$7800 or over a year will be paying \$2.80 more social security tax for the year 1968. The increase in the amount of

earnings that count for Social Security will make it possible for retired and disabled workers in the future to receive as much as \$218 a month.

Even though the maximum possible retirement benefit will not be payable in the near future, the effect of the higher maximum earnings will be apparent much earlier.

Mustian gave the following example: "A man who is 50 in 1968 and who earns \$7800 or more a year until he is 65, will receive a benefit of \$188.80 a month at 65. This is 21.8% higher than he could have received before the 1967 Amendments. This man's wife, if she is the same age, will receive \$94.40 a month."

A family can receive as much as \$434.40 a month in the future when the rate is based solely on earnings of \$7800. This can be as early as 1970 for the family of a deceased worker or for a disabled worker and his family.

Mustian urged those who desire additional information about social security payments, to visit the district social security office in the Tradewind Center in Somerset or call 678-8168.

Mr. John Ramsey, Mr. and Mrs. Aden Ramsey and Dorely and Bernard Purcell visited Mr. and Mrs. Chester Hysinger Sunday afternoon.

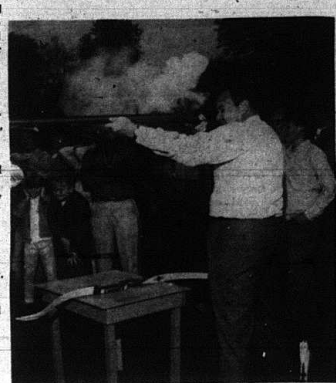

Cecil Hysinger and Estil McBee spent a few days at Dale Hollow fishing. They caught quite a few fish, some weighing four and five pounds.

Mrs. Burgess Hysinger and son, Lee Earl, visited Mrs. Chester Hysinger Wednesday evening.

Wallie Felts spent Friday night with Rickie Hysinger. Mr. and Mrs. Tilton Owens were in Brodhead Wednesday.

Mr. and Mrs. David Hysinger and daughters, Sallie and Dora have returned to the states after spending two years in Paris, France, where he was employed. He has been transferred to Ontario, Canada, where they now live. Sallie and Dora attended school in Paris. They visited many countries and enjoyed it very much. David is the son of Mr. and Mrs. Roscoe Hysinger of Brodhead.

John and Aden Ramsey were dinner guests of Mr. and Mrs. Wade Hysinger recently. Mr. and Mrs. Everett Purcell were recent visitors of Mr. and Mrs. Wade Hysinger.

2,788 lbs. of pork to market from one litter in 156 days

That's the performance story of a litter of 13 pigs at Fulo-Pep Research Farm. You can probably match or top this record by following the precision, maximum efficiency Fulo-Pep program on your farm.

Fulo-Pep proting ground
Here's how the 13 pig litter progressed. Litter was weaned at 60 lbs. At 156 days of age they topped the market averaging 215 lbs. per pig for a total of 2,788 lbs. Good hogman and twice nutritionists know that such fast growth is necessary for maximum feed efficiency and profits.

Maximum efficiency feeding program
Fulo-Pep research has both the maximum efficiency feeds and feeding recommendations hogmen need these days for top profits. Here's the normal weaning plan:

- 6th day to 8th week, use 3 lbs. Fulo-Pep Gro Pig Pre-Starter per head.
- 8th week to 12th week, use 12 to 15 lbs. Gro Pig Starter Bracer per head.
- 12th week to 16th week, use 10 to 12 lbs. Gro Pig Grover per head.
- 16th week to market use Gro Pork 200 and Groine 270 to 290 lbs. feed per 100 lbs. of gain.

For early weaning, the Gro Pig Pre-Starter is fed longer, from 8th day until pigs consume 10 lbs. each... then continue them on the feeding program above. Finishing on Gro Pork 200 has also produced gains of 2.1 lbs. per head per day while fed to quality pigs from 60 lbs. on to marketing.

The precision of Fulo-Pep programming gives pigs the right balance of nutrients when they need it. Fulo-Pep aims to meet the absolute needs of pork producers who figure exact costs and profits from every phase of the operation.

Fulo-Pep feeder reports 238 conversion
One Iowa hogman tested the Fulo-Pep program on a lot of 62 pigs. His detailed records show a feed conversion for the entire program from birth to market of only 2.35 lbs. feed per pound of gain. "You may do even better..." and collect a \$5 dividend for trying these fine hog feeds.

\$5 DIVIDEND

Your Fulo-Pep dealer will give you a \$5 dividend for every 100 lbs. of gain you produce on your pigs. This is a bonus on top of the savings you realize from the efficient feeding program. The dividend is based on the total gain of your pigs. To receive your dividend, you must feed Fulo-Pep feeds.

THE FAMILY LAWYER

Bloodhound "Testimony"

In a burglary case, the prosecutor offered evidence that a bloodhound had followed a trail from the burglarized warehouse to the home of the accused man. Promptly the defense attorney raised an objection.

"After all," this is nothing but the "testimony" of a dumb animal. That isn't good enough for a court of law." Nevertheless, the court decided the evidence was admissible—and it helped send the defendant to jail. The use of bloodhounds to track down criminals has been known for hundreds of years. According to Sir Walter Scott, the practice was favored by King Richard the Lion-Hearted back in the twelfth century.

And today most courts do consider this kind of evidence reliable enough to be permitted in criminal trials. In the usual case the trainer of the bloodhound is called to the witness stand. There he seeks to establish the dog's reliability by describing his pedigree, his training, and his behavior.

Still, even though bloodhound evidence is permitted, it is not considered strong enough—all by itself—to support a conviction. There must be some additional proof to back it up. This lessens the risk that the jury will be swayed by what one expert calls "a superstitious faith" in the bloodhound's accuracy.

Furthermore, the circumstances of the particular case may affect the value of bloodhound evidence. Thus, in a murder case, the fact that a bloodhound sniffed his way to the defendant's house was cancelled by the fact that the dog showed no reaction at all to the defendant himself.

And the older the trail, the weaker the evidence. In an arson case, a bloodhound had supposedly picked up the defendant's scent at the scene of the fire. But from the time of the fire to the time the bloodhound was put on the trail, five days and two rainstorms had gone by. Rejecting the evidence, the court said:

"While we will not suggest it is impossible that the dog could have followed this trail, it is certainly highly speculative."

ANNUAL REPORT OF THE ACTIVITIES OF THE ROCKCASTLE COUNTY HEALTH DEPARTMENT

The Local Board of Health Consists of the Following Members:

Judge Wayne Yonhook, Chairman
George H. Griffith, M.D.
J. D. Lewis, M.D.
E. M. Lyons, D.M.D.
John D. Henderson, Sr., D.D.S.
John Sower

The Members of the Rockcastle County Health Department Are:

Nemo Lyons, R. N. - Health Nurse
Janice Mullins, R. N. - Health Nurse
Robert D. Hays, R. S. - Sanitarian
Cora Lee Speer - Clerk and Registrar

The Rockcastle County Health Department exists to serve you through protection of the health of the people in this county. It is difficult for most people to understand prevention. In fact, it is often difficult to explain it. How can we explain that which does not happen? There was no epidemic, so what is there to explain? There was no permanent disability following the stroke, so what is there to explain? The baby was born with no defects, so what is there to explain? The dog wasn't rabid. It wasn't a strep throat. The cancer was prevented. The food was safe. The water was potable. Nothing happened—so what is there to explain?

All of this is a way of saying that nothing damaging to health happened because many persons in a variety of health professions performed many services to keep damaging things from happening. They prevented them entirely, alleviated them, or found that treatment was not needed.

When a health impairment or adverse health condition affects large numbers of persons, then we say that the public is affected. It is then that prevention or alleviation of impairments and adverse conditions become the sphere of action of public health personnel.

In this annual report, we are attempting to show that your state of health is important not only to you, but to the city and the county in which you live, and to your life itself—the "good life," the comfortable, satisfying life that we all seek.

COMMUNICABLE DISEASE CONTROL

We are proud to announce that, due to the continuing effective long range Public Health programs and the long hours of work and planning on the part of the staff with the cooperation of all the citizens of Rockcastle County, we have had 100% success in the prevention of Typhoid, Syphilis, Smallpox, Diphtheria, Lockjaw, Polio, Rabies and a host of other deadly diseases that were commonplace only a few years ago. In addition to having whipped out these diseases, significant ground has been covered in our march toward the complete eradication of most other infectious diseases, notable among which are Measles, Whooping Cough, Tuberculosis, Strep Throat and Intestinal Tract Infections.

We submit to you the following list of activities which were carried out during July 1, 1967 through June 30, 1968 in the course of achieving the aforementioned. We must call attention to the fact that the task grows greater from year to year in direct proportion to the increases in population, in travel, in urbanization, and in public apathy about disease as we become further removed from experience with epidemics. These factors not only compound and expand our responsibilities but they doubly increase the likelihood of our community being overrun by epidemic disease should we drop our safeguard.

CHRONIC ILLNESS

More people die of heart disease than from the second and third leading causes (cancer and strokes) of death combined. Our rheumatic fever prevention program is one action by which the Health Department can try to prevent some of the early deaths from heart disease. Persons with rheumatic fever, when requested by their family Doctor or specialist, can receive medicine necessary to control rheumatic fever and prevent future heart damage.

Each year, Kentucky physicians may report as many as 1,000 new cases of the urine cancer (many of the womb). When this kind of cancer is discovered early enough, treatment can be started and lives can be saved. By means of a simple test, signs which foretell the development of this kind of cancer can be seen even before obvious symptoms are noted by the woman or her physician. This test is now available at the Rockcastle County Health Department on the 2nd and 4th Fridays of each month under the supervision of Dr. M. A. Shepherd.

SCHOOL HEALTH

A good school health program takes the cooperation of many groups; the Board of Education, the private Doctors, the Health Department and the parents. Health supervision of the pre-school and school age child provides the chance to detect conditions early and corrections made.

MATERNAL AND CHILD HEALTH

There are many conditions of children which, if not found early and corrected, may lead to invalidism. The Health Department spends a great deal of time finding these children and securing help for them. PKU tests are done on all newborns before leaving the Hospital. Tests on babies born at home are taken by the Health Nurse. This test is for a defect, which, if not found in the first weeks of life, will lead to mental retardation.

Since prenatal medical supervision is the key to successful child bearing, the Health Department gives advisory services to expectant mothers and assists them in arranging for good maternity care. Family Planning Service is a component part of public health service and of maternal care which should be continuous and based on the individual needs of each family. Family planning services are available at the Health Department to those who are unable for any reason to obtain this care elsewhere. Physicians in private practice refer eligible patients for service.

CRIPPLED CHILDREN

The Health Department spends many hours finding and visiting crippled children in Rockcastle County. These children are referred to various clinics for diagnosis and treatment for types of crippling conditions such as congenital deformities, cerebral palsy, scoliosis, injuries causing orthopedic defects, plastic surgery for such cases as burns, cleft lips and palates, congenital and acquired heart conditions, epilepsy, neurological conditions and eye conditions requiring surgery and unusual treatment.

VITAL STATISTICS

All births and deaths occurring in Rockcastle County are recorded at the Health Department. Physicians, Midwives and others in attendance are required to file Birth Certificates with the Registrar. The original is sent to the State Health Department in Frankfort and a copy kept on file in the local office. Notifications of the birth registrations are mailed to the parents. Certified Photostatic copies are mailed from the State Health Department upon request. Birth Verifications may be issued by the local Registrar. The original is kept on file in the local office. Death verifications can be furnished by the local health department; certified photostatic copies may be obtained from the State Health Department upon request. A burial permit must be obtained in all instances before burial.

SANITATION

Environmental sanitation is becoming more and more necessary in the part which it plays in the local health program. Many changes are coming about in Rockcastle County that involve sanitation. During the past, we have seen new facilities built on our new Interstate. There will be many more. All the places are and will be required to be constructed so as to protect the health of the public. In the past, Mt. Vernon has acquired an adequate water supply. This is a great asset. Because of this lake, Mt. Vernon and others in Rockcastle County will have a safe and dependable water supply. With this supply of water and satisfactory sewage disposal systems, Rockcastle County will become a place where industry will consider locating and a place where people will like to live. As individuals, we can further this cause by being more "sanitation conscious," thereby making Rockcastle County a healthier, more beautiful and prosperous place in which to live.

HEALTH EDUCATION

The local health department, in cooperation with private physicians in the community, assist and encourage individuals and community groups in carrying out programs in public health. It provides information to individuals and groups about any phase of public health by showing films, giving talks, distributing pamphlets, or through whatever media are available.
