**Rep. Wm. Harold DeMarcus Is On-The-Job In Legislature**

Rep. William Harold DeMarcus, R-Stanford, is on the job as Republican floor leader of the Kentucky House of Representatives. He is also a member of the vital Committee on Appropriations and Revenue and the State Government Committee.  
In an interview shortly before introducing the administration's budget, DeMarcus said the legislature's message was one of the great state-of-the-commonwealth messages because of the number of firsts he announced. The last two years have been the greatest two years of progress in the history of this state. Kentucky is on the threshold of taking its rightful place among its sister states. "Very few people realize that in the early days when Eastern State Hospital was established in 1824 Kentucky was at the top in the nation in the mental health program. From that day on there was gradual deterioration and Kentucky reached the bottom in 1967." "Actually, the food nations of mental patients were lowered because of lack of money. Now, in two short years, we have overcome those years of neglect and Kentucky is ranked once more amongst the leaders of the mental health program." Referring to patients in mental hospitals, DeMarcus said: "These people do not vote and have no voice in what can be done, so they are the responsibility of all of us. It seems that administrations for many years were not mindful of these human needs. DeMarcus was born on Feb. 4, 1914 and attended Sue Bennett College. He is a businessman, a Mason and is Engaged to the Christian Church. He served as a delegate to the 1964 Republican National Convention and formerly was a member of the national party's Rules Committee. He also served as president of the Blue Grass Lincoln Club and as a member-at-large of the Republican, State Central Executive Committee. DeMarcus served in the House in the 1964, 1966 and 1968 sessions. He represents the 80th District (Lincoln and Rockcastle Counties). — He formerly was a member of the London City Council and is a past president of the Stanford Rotary Club and the Stanford Chamber of Commerce.

and family Sunday. Mr. and Mrs. Junior Chasteen and family of Berea visited his parents, Mr. and Mrs. Hubert Chasteen Thursday night. Sunday afternoon visitors of Mrs. Lucille Reppert were Mr. and Mrs. Eugene Alexander and family of Fairview, and Mr. and Mrs. Donnie Hale of Berea. Mrs. Annie Thomas, who has spent the past few weeks at the home of Mr. and Mrs. Eugene Alexander and family has returned to her home at Snider. Mr. and Mrs. Hubert Chasteen visited Mr. and Mrs. Eugene Alexander and family, Grandma Thomas, Mr. and Mrs. Cletus Peters and family, and J. M. Noland Friday night. Mr. Noland has been ill for quite a while. May God bless and comfort him. Mr. and Mrs. James Seals of Berea visited her sister, Mrs. Darleen Church and Tammy Friday night. Several persons from the Fairview vicinity attended open house at the Gibson Greifing Car Company in Berea last Saturday. We appreciated the fine free gifts we received. Sunday visitors of Mr. and Mrs. Cletus Peters were Mr. and Mrs. Charles Noland and family of Independence and Mr. and Mrs. Johnny Church and daughter of Scafield Cane. Mr. and Mrs. Tom Thomas of Winchester visited his mother, Mrs. Annie Thomas, and other relatives Saturday. Mr. and Mrs. Hubert Chasteen and Darleen Church and daughter visited Mrs. Chasteen's brother, Tip Reppert and family of Scafield Cane Monday night. It is sort of quiet around here as most of us stay in all we can due to snow and cold weather. But spring time is just around the corner. I'm sure we're all looking forward to that time. Please remember church and Sunday School. God has blessed us to live to see the New Year of 1970. I'm so thankful for that. So let's try to serve God and work for him the best we can. There is much to be done. Meet up in church Sunday. We'd be glad to have you. We welcome you any time at Fairview. God bless you wherever you are. About the only thing that succeeds like success is working for the government. Families used to go on Sunday afternoon drives. Now they go shopping.

Canned tomatoes and tomato products are on the USDA January plentiful vegetable list. Here are two recipes for using canned tomatoes: Tomato Bisque for Lunch or Brunch For 6 servings of 1 cup each and about 150 calories per serving. 2 cups canned tomatoes, 1/2 teaspoon baking soda, 1 1/2 tablespoons sugar, 1 teaspoon salt, 1 1/2 tablespoons butter or margarine, 1 1/2 tablespoons flour, 3/4 cups whole milk, 1/8 teaspoon pepper, 1 tablespoon finely chopped parsley. Mash tomatoes with a fork to break up large pieces, then simmer 15 to 20 minutes. Stir in baking soda, sugar, and salt; blend well. Melt fat in a 2 quart saucepan. Blend in flour. Stir in 1/2 cups milk. Cook over moderate heat, stirring constantly until mixture thickens. Stir in tomato mixture, remaining milk, pepper and parsley. Heat over low heat just until simmering. Serve with toasted cheese sandwiches, celery and carrot sticks.

Swiss Steak With Cheese for Dinner For 6 servings. About 220 calories per serving. 1 1/2 pounds boneless beef round steak, 1/2 inch thick, 1/2 cup flour, 1 teaspoon salt, 1 cup water, 1/2 cup sharp cheddar cheese, shredded, 2 tablespoons chopped onion, 1/2 cups chopped onion, 2 cups tomatos, cooked or canned, 1/2 cup shredded carrots. Trim excess fat from meat. Heat trimmings in a large fry pan to get enough drippings to just cover the bottom of

ber, 1969, exceeded 1968 by 26 percent. It was estimated that shell eggs available to consumers during December, 1969, were 2 percent lower than a year before. An exceptionally strong demand for meat and poultry products had also been a factor causing sharply higher egg prices. During November, for example, when prices of poultry and eggs to producers were 19 percent higher than the year before, meat animal prices were higher by 18 percent. Egg prices normally reach a seasonal peak in the fall, decline during the winter, and reach a seasonal low in the spring. USDA experts say that they are expected to react this way during the months immediately ahead.

## Ramblings...

By: Perline M. Anderkin  
Did you ever see anything to let it? I really didn't mean to make Mother Nature this angry when early in the winter I wrote my article concerning my intense dislike of the white, soft stuff. I really must learn to curb my tongue until I realize the full potential of the Fourth Estate.  
However, since we have had snow on the ground every day since winter officially began, I again take pen in hand to express my feelings on this (to me) horrible time of year.  
First of all, don't let anyone ever tell you again that it can get too cold to snow. This just isn't true since if it were possible we would have had at least a few days without it. With the temperatures that we have endured within the past few weeks, we are certainly not in danger at what temperature the nasty white sloshy stuff will come down.  
Secondly, I have discovered a green-ey monster right in my own back yard or perhaps I should say backyards. Always realizing that in the winter months we are going to have to foot extra expenses for heat, this winter our furnace (at 50p and home) have proved to be insatiable and at this point its a close race which is going to last until we get our pocketbook or winter.  
And thirdly, as I look out on this bright, lovely, glaring white day, I think if I have to hunt ones more time for galoshes, gloves, hats, sweaters, etc., for four children, I may just completely lose my mind. How in the summer months, winter apparel such as boots, hats, and gloves can turn up constantly when you are rummaging for bathing suits, beach towels and jackets and then can disappear so completely when you need them is beyond me.  
However, like boils, the plague, the poor (including myself), and taxes, winter is here and must be endured for at least two more months, if we are lucky, and no amount of griping will help out. But, there are a few alternatives, at least, if we go from the premise that no one in their right mind actually likes winter, one is to become a bum and just go to Florida that way, or you can make enough money in the summer to foot the bills for the trip when it becomes intolerable here. But, with a large family, the bum role isn't too suitable and summer is such a nice time for enjoying yourself and the outdoors without worrying overly much about the coming season. Isn't it?

And speaking of taxes, and isn't April 15th really the climax to winter, with the Investment Credit hole practically plugged and after struggling for days trying to find all of our deductible expenses for last year, we have finally decided you can't win. Just as you get through winter and have spring and summer to look forward to, you have one more obstacle to mount in the form of April 15th. Honestly I now have decided to put in a claim to the State and Federal Governments for bookkeeping done by me for them, constantly throughout the year. If anyone contemplating getting...

DERAILED—L & N Crews are shown examining the damaged tracks where thirteen cars and two engines of a loaded L & N freight train, headed for Louisville, derailed about 10:30 a.m. Tuesday morning just west of Mt. Vernon. The train blocked two crossings, one on U.S. 150 and the other on West Main Street, for about six hours before the tracks were cleared. The cars on the left in the above photo were not a part of the train which derailed but were apparently knocked off the tracks at the time of the derailment which was reportedly caused by the brakes locking on one of the engines.

## March 1 is Deadline To File Assessment Report

All property owners must file reports with county property valuation administrators before March 1, 1970 State Revenue Commissioner James E. Luckett said today.  
At the same time, Luckett spoke out to correct two mistaken ideas in regard to property assessment in Kentucky. The recently ratified constitutional amendment which makes it possible to revalue farm land cannot become effective until the General Assembly passes an enabling law, Luckett pointed out. The earliest date such an act could become effective is Jan. 1, 1971, because action under the amendment cannot be retroactive.  
"The other mistaken idea is that it's okay for an owner to list the same valuation every year on land or buildings," Luckett said.  
"The steady rise in the value of land, both rural and urban, and increased...

## W.J. RANDOLPH, 68, DIES SUDDENLY

W.J. "Bill" Randolph, 68, of Route 1, Mt. Vernon, passed away suddenly Friday evening, January 16 at his home. He was born in Pataask, Kentucky October 12, 1901, the son of the late Christopher and Nannie Shipault Randolph, and was a director of the Farm Bureau, Livestock Association, Rockcastle Saddle Club, a member of the Mt. Vernon Eastern Star and Woodstock Lodge No. 639.  
He is survived by his wife, Mrs. Melora Jones Randolph, two sons, William Forest Randolph of Whiteland, Indiana and Bobby Dale Randolph of Greenwood, Indiana; two brothers, Claude and Walter Randolph, both of Dahi; six sisters, Mrs. Pearl Daugherty of Greenwood, Indiana, Mrs. Bess McKinney, Mrs. Sybil McKinney, and Mrs. Hazel Price, all of Route 4, Somerset, Mrs. Mirana Hibbard of Route 5, Somerset, and Mrs. Mabel Phillips of Somerset, and two grandchildren.  
Funeral services were conducted Sunday, January 18 at the Freedom Baptist Church with Rev. Eugene Hansford officiating. Burial, with Masonic Rites, was in Saylor Cemetery.  
Arrangements were by Sparks Funeral Home.

## Brown Home Destroyed By Fire Thursday Eve.

The five-room home of Mr. and Mrs. James E. "Doc" Brown, near Willailla, was completely destroyed by fire early last Thursday evening. The cause of the fire is unknown.  
According to Mrs. Brown, she and her three children were watching television in the basement of their home about 7 p.m. Thursday evening, when they heard a roaring sound from the upper portion of the house. She investigated and found the curtains and bed on fire in one of the bedrooms. Except for a few items of clothing, the family lost everything but escaped unhurt.  
Mr. Brown, who was elected deputy sheriff last November, was out on a call from that office at the time of the fire. The home or contents were not insured.

TOTAL LOSS—The home and all contents of the James Everett "Doc" Brown family were totally destroyed by fire early last Thursday evening. The cause of the blaze is not known. Mr. Brown's wife and his three children escaped unhurt from the house.

## Food Stamp Recipients Get Increase

Governor Louie B. Nunn announced today that Rockcastle County's 2420 food stamp recipients will soon be paying less and getting more.  
Under a new basis of issuance table, announced recently by President Nixon, stamp holders will more than double their food buying power while investing less.  
"The table represents an across-the-board hike for the Commonwealth's 136,743 persons now on the food stamp program" said Department of Economic Security Commissioner Merritt S. Deitz, Jr.  
"The new formula, effective Feb. 1, compensates for current increases in retail food prices," Deitz said.  
"It also gives the low-income family enough coupons to buy food for a more nutritional diet," he added.

To illustrate the broad jump in benefits provided by the adjustment, Deitz compared the old schedule with the new:  
"A typical family of five with a net monthly income of \$40 has been paying \$14 for stamps worth \$68 in food."  
"Now the same family will pay only \$18 for coupons worth \$118 in purchases."  
Bonuses to very low-income families will more than double in many cases, Deitz said.  
"At any rate," he said, "every participating family will receive a greater bonus or at least one equal to what it has been receiving."  
Deitz said the new table will also mean a boost to Kentucky's economy.  
"The food stamp program doesn't cost the state anything and last year \$11.1 million in federal money from food stamps flowed into the state economy.  
"You can see how local purses will be fattened when you consider it has been estimated that every food stamp dollar turns over about five times in the community," he said.  
Deitz said the Department of Economic Security's field offices in 63 counties now participating in the food stamp program have already made provisions for conversion to the new scale.

## 1970 FEED GRAIN PROGRAM SET

Secretary of Agriculture Clifford M. Hardin announced a 1970 Feed Grain Program similar in most respects to that in effect for 1969.  
"Minimum qualifying diversion for program participation in 1970, at 20 percent of a farm's base acreage, is unchanged. The maximum total possible diversion for the three feed grains — corn, grain sorghum, and barley — continues at 50 percent of a participating farm's base acreage."  
Price-support loan rates on all feed grains are unchanged from 1969. However, corn loan rates, while unchanged, will be quoted at \$1.08 per bushel, "No. 2" basis. This is equal to last year's quotation of \$1.05 for average quality. Other 1970 loan levels will be as follows: grain sorghum, \$1.61 per hundredweight; barley, 83 cents per bushel; oats, 63 cents per bushel; rye, \$1.02 per bushel. Price support is mandatory under law for oats and rye, but there are no provisions for acreage limitations.  
Price support payment rates remain as in 1969 — 30 cents per bushel for corn, 53 cents per hundredweight for sorghum and 20 cents per bushel for barley. A farm's entire price-support payment is calculated by multiplying the per bushel price support payment times the farm's pro-rated acreage. The smaller of the planted acreage or 50 percent of the farm's base acreage is the small farm provision. However, no corn, sorghum or barley is to be planted for harvest on such a farm, and the diverted 25 acres must be devoted to conserving uses.  
Soybeans planted in lieu of feed grains will not earn price support payments. Malting barley will not be exempt from diversion requirements in 1970 because supplies are more than adequate to meet needs.  
Substitution provisions relating to wheat and feed grain acreages will be continued as in previous years. In 1970 there will be no advance voluntary diversion payments under the Feed Grain Program.

## Tigers Win One; Lose Two

The Brodhead Tigers won one and lost two of their last three games. Tuesday night, January 13, the Tigers squeaked by Eubank 59 to 57 with Gordon Pope leading the scoring with 17. Then on Thursday night, January 15, the Tigers were soundly defeated 59 to 32 by Jackson County, and Tuesday night, January 20, the Tigers lost to Clay County by three points 65 to 62.  
Besides Pope, players scoring in the Eubank game were: Goff 14, Scoggins 13, Adams 11, and McWhorter and Chertam with 2 each. In the Jackson County game, Scoggins and Goff...

**Capital Digest**

Edited By: Thornton McConnell

The Kentucky Crime Commission, in a 46-page report compiled after a year's study, recommends a system of regional jails to reduce the number of "outdated and unfit" local jails used for confinement of persons charged with misdemeanors.

As submitted to Governor Nunn, the report based on inspection of 170 Kentucky jails described conditions as "worse" than those in institutions where more serious offenders are confined.

Kentucky jails, on the average, were said to be half empty, and this condition was said to hinder or prevent the creation of needed treatment and recreation programs to bring about possible rehabilitation.

A regional system, established through inter-city and inter-county cooperation, according to the report, would produce concentrations of prisoners sufficiently large to make improved conditions and programs economically feasible.

Also recommended were changes that would put more emphasis on alternatives to jail sentences, particularly in cases of drunkenness and inability to pay fines. New Mexico was cited for saving \$4 million a year by tripling its probation staff and cutting its prison population by 32 percent.

**REPLACEMENTS FROM WITHIN**  
 Kenneth F. Harper, assistant commissioner of child welfare, named commissioner of Public Information to

succeed W. James Host who was named commissioner of parks to succeed Robert Gabe who resigned.

In announcing the changes, Gov. Louie B. Nunn said:

"One of the most fortunate circumstances surrounding this administration has been the ability to attract a large number of able, dedicated young people to government service."

Gabe resigned, he said, to devote more time to a family-owned coal-mining business.

Regarding Host, 32, Lexington, the governor said "I take pride in the fact we have been able to produce from within the administration a replacement who has the proven ability to push forward the progress Bob Gabe initiated."

Referring to Harper, 39, Fort Mitchell, the governor said "he has exemplified in his private and public endeavors qualities vital to the man charged with reporting to the people on the activities of their government."

**EXCESS ROAD EARTH FOR FACTORY SITES**  
 State Highway Commissioner, Eugene Goss revealed a plug to use tons of excess earth taken from mountainsides in building roads to produce level factory sites for Eastern Kentucky's economic development.

The Highway Department's division of design already has been instructed to seek out potential sites along the corridors of Appalachian highways and the Daniel

**GOOD LUCK, FELLA!**

Boone Parkway, according to Goss.

"When they find an area with promise," he said, the Department of Commerce will be brought in for a look and we will proceed from there."

**STATE SEEKS VACCINE PRICE CUT**  
 Dr. Calixto Hernandez, state epidemiologist, has talked to health officials, in other states about pooling orders to get a cheaper price for German measles vaccine but nothing has been worked out.

State and local funds are limited. Governor Nunn contributed \$50,000 for vaccine from his contingency fund and has asked the legislature for \$500,000 more over, the next biennium. Kentucky and other states now pay \$1.46 a dose.

**STATE BUILDINGS AWARDS**  
 Three of 10 projects selected from 33 entries in the annual Architectural Awards Program sponsored by the Kentucky Society of Architects of the American Institute of Architects are owned by the Commonwealth of Kentucky.

The three selected "for achievement of excellence in architectural design" are:  
 The Restaurant-Boathouse, Fort Boonesborough State Park, Boonesborough; Academic Athletic Building, or the L.T. Smith Stadium, Western Kentucky University, Bowling Green; and the School of Education, Morehead State University, Morehead.

**TWO NEW U.K. TRUSTEES NAMED**  
 Two men were appointed and a third reappointed by Governor Nunn to the Board of Trustees of the University of Kentucky for four-year terms.  
 J. M. (Jess) Alverson Jr., editor of the Paris (Ky.) Daily Enterprise, was named to succeed Dr. Harry Denham, Maysville. Thomas Bell, Lexington lawyer and National Football League referee, replaces William Black as alumni representative. Richard Cooper, Somerset, a brother of U.S. Senator John Sherman Cooper, was reappointed.

**GOSS GETS NEW ASSISTANT**  
 Don Duff has been transferred from his post as chief legal counsel in the State Highway Department to that of executive assistant to Commissioner Goss. Duff, in the latter post, succeeds James G. Appie, who resigned to enter private law practice.

**BOYS HOME DIRECTOR WINS AWARD**  
 Latest recipient of the "Governor's Outstanding Kentuckian Award" is the Rev. Father Raymond Nieman, director of Campbell Lodge home for boys in the Cold Spring in Campbell County.  
 In making the presentation to Father Nieman, who is retiring from the lodge, the governor said "the home for boys of all colors

and creeds has been entirely supported by voluntary contributions since 1958. This is truly a remarkable achievement by a remarkable man."

now apply for benefits under the Federal Coal Mine Health and Safety Act at any social security office, according to James Mustian, Social Security Manager in Somerset. "The important thing right now is for every eligible person to make an application to avoid possible loss of benefits. If a claimant is found eligible, benefit payments will be retroactive to the date of filing an application."  
 "Actual payment of benefits under the new law cannot begin right away," Mustian stated. "These are not social security benefits, and before payments can begin, Congress will need to appropriate money for them." He also pointed out that additional information and medical evidence would be needed in such cases. "The additional information can be furnished later," Mustian said.

**Social Security News**

The amount of benefit is about \$136 per month for the disabled minor widow and a maximum of about \$272 a month for a family with three or more dependents. The application for benefits may be mailed to any social security office if a personal visit is inconvenient, Mustian said.

Severe case of drafty chills and anxiety... needs immediate conversion to flameless, worry-free electric heat

And your home is probably half cured right now!  
 Converting to electric heat, you have a wide choice of systems. But if your present heating is a forced-air type, your electric furnace installation is already half completed. In any case, electric heat — flameless, clean, even — is the modern cure for what ails any drafty home that's heated the worrisome old-fashioned way. And electric heat is economical — freeing you from service contracts, seasonal check-ups, maintenance and repair bills.  
**Get the facts.** Call our nearest office for an accurate estimate on all costs of converting to and enjoying flameless electric heat. Then you make the decision.  
 Electric heat is pure comfort

**Beef Cattle Round-Up Day**  
 Feb. 5th at UK  
 The University of Kentucky College of Agriculture will host the Animal Beef Cattle Round-Up Day, February 5th in Lexington. Guest speakers will feature Charles E. Boyles, Research Coordinator for the Eastern Ohio Agricultural Research Development Center, at Wooster, Ohio, and Dr. Larry V. Cundiff, USDA Agricultural Research Service, and associate professor of animal science at the University of Nebraska College of Agriculture.  
 Boyles, manager of a 2,300-acre experimental farm for Ohio State University, will discuss the importance of beef cattle in Kentucky.  
 Cundiff is a specialist in beef cattle breeding and will discuss the new breeds of beef cattle in the industry.

Registration will begin at 12:30 p.m. in the UK Agricultural Science Center with an address at one o'clock by Dr. Charles E. Barnhart, Dean of the UK College of Agriculture. All meetings will be held in the Ag. Science Center.  
 The registration fee of \$3.00 includes attendance and the Round-up banquet at 7:00 p.m. at the Springs Motel. Dr. Roy C. Gray, Jr., President of the Purebred Herds of America Inc., will be the dinner speaker.  
 The activities include the annual meeting of the Kentucky Feeder Calf Sales Association and the Kentucky Cattlemen's Association.

**Seeding Time is Near for Renovated Fields**  
 The number of grass fields being renovated will increase again this year, and it couldn't come at a better time. Cow numbers continued to increase, and the influence of last September's drought is still being felt. A renovated field will give us more good feed per acre. The best time to seed these fields is in mid-

February to mid-March. In case the weather caught you before you completed everything, 2-22-70, 500g are the steps to be completed this spring for maximum success.

- (1) Pull a soil test and apply needed lime and fertilizer. Nitrogen is not needed. Actually, nitrogen favors the established grass instead of the new legumes.
- (2) Tarp up about 50 percent or more of a good sod using a field tiller, cultivator, or disk harrow. On rolling land, till on the contour. Just ahead of seeding, smooth the soil.
- (3) Seed adapted legumes at the rate recommended for seeding along. Use certified seed when available. Be sure that you inoculate the legume seeds with the correct nitrogen-fixing bacteria at seeding time.

Some seeding rates, in pounds per acre, for renovating: (1) Ladino white clover, 1-2 lb., and Kenland red clover, 4-6 lb.; (2) Kenland red clover 7-9 lb.; (3) Alfalfa, 8-10 lb. and Ladino white clover, 2-1 lb.

**Tobacco Growers**  
 Chlorinated hydrocarbon insecticides, with the exception of endosulfan (Thiodan), are not being recommended for use on tobacco this year. This is in order to reduce the level of chlorinated hydrocarbon residues in cured leaf. We anticipate that a reduction in chlorinated hydrocarbon residues will be necessary in order to maintain a continued market demand for cured leaf.

For this reason we no longer recommend the use of certain chlorinated hydrocarbons for use in tobacco, either mixed with fertilizers or as sprays or dusts.

# Library Notes

New books delivered to the Rockcastle County Library.

**AMERICAN EPIC**, by Alick Marriott and Carol Racklin. An excellent history of the American Indian.

**A BOOK AND A LOVE AFFAIR**, by Helen Bevington. In this delightful memoir, a noted poet of light verse, writer, and professor tells what it was like in the turbulent thirties.

**BROADWAY'S GREATEST MUSICALS**, by Abe LaFite. This entertaining book offers a wealth of information: detailed summaries of plot, score, and choreography, amusing and poignant backstage anecdotes, descriptions of costumes and sets, and excerpts from contemporary reviews.

**THE CASE OF THE FABULOUS FAKE**, by Erle Stanley Gardner. Another thrilling Perry Mason mystery - this time concerning a young, blond beautiful client who wanted to disappear.

**DAUGHTERS OF EARTH**, by Judith Merril. One of science fiction's most distinguished names presents three novelettes which are highly exciting and imaginative.

**HATSHEPSUT**, by Evelyn Wells. A brilliantly researched biography of the beautiful woman who became Egypt's outstanding queen 3,500 years ago.

**I DIDN'T COME HERE TO ARGUE**, by Peg Bracken. Here are a wondrous variety and startling range of original observations, laced with laughter, alive with anecdotes and sparked with surprises, by the author of "The I Hate to Housekeep Book."

**MAKING THINGS GROW**, by Thalassa Cruso. Here, at last, for everyone who has ever wanted to grow beautiful houseplants is a book that dispels the tire-

some myth of the green thumb and shows exactly what to do to make your potted plants flourish.

**THE MAN IN THE YELLOW RAFT**, by C.S. Forester. Eight stories about the lives of men who served with the United States Navy during World War II.

**THE MOUSE ON WALL STREET**, by Leonard Wibberley. Never has the "money game" been more deliciously exposed than in this ingenious satire.

**MYSELF A MANDARIN**, by Austin Coates. The experiences of a Special Magistrate in the New Territories of Hong Kong make delightful reading and bridges the gap between East and West with humor and wit.

**NORMA JEAN**, by Fred Guiles. A complete and comprehensive biography of Marilyn Monroe.

**PICTURE OF GUILT**, by Michael Innes. The author's knowledge of the world of art, his wit, and his unflinching skill at sustaining suspense have been combined into a novel of mystery and entertainment.

**PRESIDENTIAL LOTTERY**, by James Michener. The author reviews the origin and development of the electoral college and outlines suggested reforms. Appended material includes the text of proposed constitutional amendments.

**A REDHEAD IN RED SQUARE**, by Debbie Sherwood. Miss Sherwood gives us a fresh look at the Soviet scene and at some very human Soviet citizens.

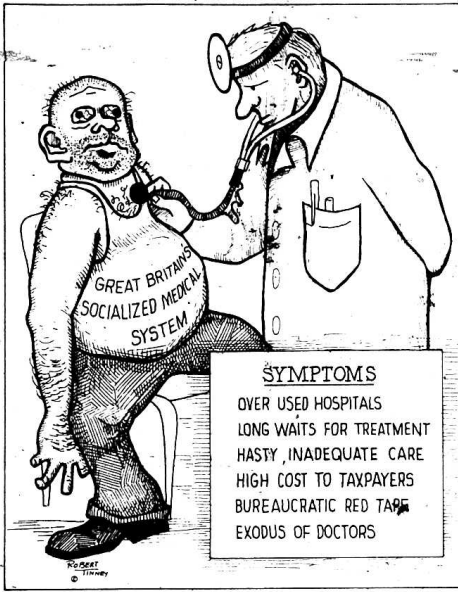

**THE SPOTTED SPHINK**, by Joy Adamson. A fascinating animal story of a cheetah which the author raised as a pet and decided to restore to its wild heritage.

**THE SPY WHO SPOKE POISON**, by Philip Wylie. Mr. Wylie utilizes an exotic background and his own vast knowledge of marine biology to enhance an extraordinary novel of intrigue and suspense.

**A TREASURY OF WITCHCRAFT**, by Harry Wedeck. Here is a source book of the magic arts from the earliest times to the present day.

**WHAT'S LEFT**, by Berton Roueche. Very much in the public consciousness today is the problem of conservation in America. As a naturalist and writer Mr. Roueche is especially qualified to ask exactly what is left of our woodlands, lakes, rivers, and game reserves.

# Soil Conservation News

Of all perennial grasses, tall fescue (Ky 31) adapts best to the hill land and frippan soils of Rockcastle County. It is estimated that nearly 250,000 acres of fescue have been seeded since 1946 when John Houston seeded the first fescue seed in this county.

"Charlie DeBord" (Cont. From Front)

The Ottawa Baptist Church with Rev. J.H. Strick officiating. Burial was in the DeBord Family Cemetery. Watson Funeral Home is in charge of arrangements.

"Smith Child" (Cont. From Front)

Each year we are learning how to better manage hill land soils for pasture-as well as other uses. For instance, to prevent the ravages of erosion caused by heavy rains, farmers sow fescue along with legumes such as red clover, ladino clover, or lespedeza. Lime along with phosphate and potash applied to these fields of fescue and a legume, means feed for the increased numbers of livestock found in this area. Fescue is a rugged, hardy grass that withstands rough treatment and is excellent in erosion control.

held Saturday afternoon, January 17 at the Cox Funeral Home Chapel with Bro. Eugene Bradley officiating. Burial was in the Ponder Cemetery.

"Ramblings" (Cont. From Front)

When legumes "playout" in fescue stands, they can be reestablished by killing a part of the fescue stand by disking, bog harrowing, tilling or by spraying, then overseeding with the legumes, and at the same time applying the necessary lime, phosphate and potash. Farmers are finding, too, that they can grow corn for grain or silage on rolling land where fescue sod has been killed or completely suppressed by chemicals and then sod planted. Unless fescue is thoroughly killed corn yields suffer. Corn yields of over 100 bushels per acre and silage of over 20 ton per acre have been reported on sod planted fescue fields.

business for themselves were aware of the myriad tax forms the government requires being filled out numerous times throughout the year, we feel sure that this alone would adequately dampen their enthusiasm.
