HOME AGAIN—Freeman Ingram, left, of Taylorsville, and Charles Maynard, right, of Pineville, lead other fire fighters of the Kentucky Division of Forestry through the terminal at Louisville's Standiford Field after the group returned from battling a forest fire in Washington. Twenty-five Kentucky fire fighters were called out by the US Forest Service to battle the blaze which destroyed more than 100,000 acres of timberland.

County Agent's Notes

FALL ROSE PROGRAM

Do not use any nitrogen-carrying fertilizer on your roses from now to winter. If a soil test shows your soil is low in phosphorus and potassium, add enough to bring phosphorus up to 200-300 pounds per acre and potassium up to 250-300 pounds per acre. Set aside mulching material for the winter. Recent research suggest that for covering the tops you can use tar paper cylinders that will comfortably contain the tops. Make bags 20-30 inches high. Place the cylinders about the roses just as winter begins. Fill them with almost any airy material which can be kept dry. — coarse sawdust, coarse ground corn cobs, or buckwheat hulls. Shredded styrofoam is even better. Cut the rose tops short enough that a black polyethylene plastic top can be capped over the cylinder and fastened loosely in place. The plastic cap is to keep the material in the cylinder dry.

BASIC STEPS IN MAKING A NEW LAWN

1. Rough-grade the lawn area. Allow it to settle and regrade if necessary. If possible, save or buy good top soil so that the top 3 to 4 inches of soil is of good quality.
2. Have a soil test made. Lime and fertilize according to this test. Or, without the soil test, apply 100 to 150 pounds of ground limestone per 1000 square feet. Also apply 40 to 50 pounds per 1000 square feet of a complete fertilizer low in nitrogen, high in phosphorus and potash — such as 5-20-20, 0-20-20.
3. Flap, disk, and rototill to work the lime and fertilizer into the top 6 inches of the soil. Do not work the soil too long or you will ruin its structure.
4. Allow the soil to settle again, or firm it with a roller.
5. Apply starter fertilizer such as 10-0-10 or any other complete fertilizer at the rate of 10 to 15 pounds of fertilizer per 1000 square feet.
6. Seed or sod. If you sod, skip steps 7 and 8. For most of Kentucky, "common" Kentucky grown bluegrass or "Kemble" Kentucky bluegrass is preferred. If there is some shade, or will be, mix creeping red fescue up to 50 percent of the mixture. Seed at 1 1/2 to 2 pounds per 1000 square feet when using only bluegrass or 2 to 3 pounds per 1000 square feet of bluegrass-fescue mixture.
7. After seeding, rake lightly to cover seed. Seeds should be covered with less than 1/4 inch of soil. Leave soil slightly roughened, but firm.
8. Mulch: Clean straw, at the rate of 50 pounds per 1000 square feet, is satisfactory. There are other mulches that work well, too.
9. Water: Seed should be kept moist until seedlings are established. This means that you may need to sprinkle the lawn two or three times a day when the weather is hot and dry.
10. Begin mowing when the grass is 2 to 2 1/2 inches high and maintain this height of cut.
11. Additional maintenance fertilizer should be applied in the late fall and spring.

FLOWER DEMONSTRATION GARDEN FEATURES ALL-AMERICANS

Dr. Darrel Aggs, specialist in ornamental horticulture at the University of Ky. College of Agriculture, urges homeowners and other flower enthusiasts to visit UK's All-American Flower Demonstration Garden. Over 350 varieties of annual and perennial flowers are evaluated each year in the flower trials at the garden. Visitors should pay particular attention to flowers marked with red and yellow flags. Red-flagged flowers are 1970 All-Americans. They include 'Marigold', 'Bolero', 'Morning Glory', 'Early Call Rose' and 'Snapdragon 'Madame Butterfly'.

The yellow flags are potential 1971 All-Americans. Zinnias Peter Pan Pink and Peter Pan Plum are a new hedge type which show promise in a lower growing, 12 inch plant. One of the most spectacular flowers in the garden is the perennial hibiscus 'Southern Belle', which is expected to be released next year by a Japanese firm. Some of its red, pink and white flowers are 10 inches in diameter.

The garden is located one block south of the Agricultural Science Center on South Limestone Drive. The new entrance to the garden is off Cooper Drive. Parking is available in the immediate area. The garden is open to the public from 8 a.m. to 8 p.m. daily.

A THOUGHT FOR THE WEEK

By: Roy Martin

It seems only a few weeks ago, instead of months, most of us were asking themselves, "Why are you going to do on your vacation?" Vacation time was just around the corner. Now the corner has been turned - for most of us.

We hope those of you who vacationed in resort areas .. beaches .. golf courses .. boating, fishing .. inns, hotels and motels .. camps .. family reunions .. in different cities and states had a wonderful time, filled with fun and unforgettable pleasant experiences. And we hope you did not have to unpack the first aid kit! Incidentally, we know (and envied) some who vacationed in the classic exercise of sun bathing ^{right} here at home. And now, the summer vacation season is over.

In the Fall, Winter and Spring seasons ahead, we hope you continue to read these thoughts every week. We hope you find a thought now and then to cause you to ask, "What does this mean to me?" We hope you can then ask, "How can I adapt the thought to myself?" We hope what you read here can, in some small way at least, relieve you from worry; give you encouragement, hope and confidence - if and when needed. We hope too that many of you will continue to express your thoughts, pro and con, to us in person, phone or letter. Your response and your thoughts give us encouragement, hope and confidence too ..

Hunting & Fishing

It was but a few years ago that hunting deer by bow and arrow in Kentucky was unknown. In fact, it was not long ago that deer were a rarity in this state. Actually, there was no legal deer hunting offered, principally because there was nothing to hunt.

But with the building up of the herd through the efforts of the Department of Fish and Wildlife Resources, sportsmen's clubs and citizens of various counties, it was to be expected that Kentuckians would take up the bow and arrow in quest of the elusive whitetail.

Last year, during the two-month-long season, bow and arrow hunters—numbering 850,000 and again participating in the hunt and bagged 460 deer, which is nothing to write home about, but still represents a lot of work, much skill and many hours of hunting.

This year the season again is of two months duration, being open for the entire months of October and December. And every county in the commonwealth is legal hunting country, too. The hunter will need a valid Kentucky hunting license, a deer tag, a lot of patience as well,

plus the desire that has pushed him into this exclusive clan of hunters.

He may hunt from daylight until dark and if he plays his bow and arrows right, he may be able to bring him a bluegrass red-whitetail, fallow or European Red deer. If he gets his deer, here's what he immediately must do: Attach to the deer the locking tag provided with the deer permit. This may be done by piercing the skin and membrane between the bones of the hind leg just above the hocks, and locking the metal tag around one bond, so that it cannot be removed without destroying the tag. This tag must remain attached to the deer until the carcass is processed and packaged by lock-

er plant, butcher or hunter. The card portion of the permit must be separated from the metal tag when tagging the deer and retained in possession of the licensee as proof of ownership should the metal tag be lost.

Each person who hunts deer with bow and arrow must have in his possession this tag, except the resident owner of the land, his wife, or dependent children, or tenants and their dependent children, residents and hunting upon said farmland and as accepted by KRS 150.170 subsections 5 and 6.

Other regulations include: The archery hunter may not carry firearms of any kind during the archery season. After killing a deer, each hunter must leave the hunting area and cannot assist others in taking a deer. One deer a year is the limit in both archery and gun hunting.

Deer may be taken during daylight hours by longbow, with barbless arrows with points of at least seven-eighths of an inch wide, Crossbows, which may be used only by the Pioneer Weapons of the Management area, must be of not less than 80 pounds pull with barbless arrows with broadhead points at least seven-eighths of an inch wide.

Bride With a "Past"

When Ernest asked Jane to marry him, she lost no time in saying yes. Furthermore, she took pains to tell him what a loyal and devoted wife she would be. But she left out one small detail: she was already expecting a child by another man.

Not long after the wedding, Ernest became aware of his wife's deception. Understandably indignant, he hurried to court to demand an annulment on grounds of fraud.

However, Jane was not willing to give him up.

"I told him no," she pointed out in her own defense. "Ernest just never asked questions

CARD OF THANKS

We wish to express our sincere appreciation to the many acts of kindness shown us in the death of our beloved son and brother, PFC. DAVID G. CHANEY, who lost his life in Vietnam on August 27, 1970.

We are especially grateful to the Rev. J.W. Korney, minister of the Church of Christ, for his tender, inspiring message and words of consolation; to the many thoughtful friends, neighbors, and even strangers, who came to offer condolences during our darkest days; for the generous gifts of food, the lovely floral tributes, the prayers and other expressions of sympathy, and to the Cox Funeral Home for their sympathetic and efficient handling of arrangements.

And words are inadequate to express our humble gratitude to Pfc. Bobby Phelps, a life-long friend and service buddy, who came on special leave from Vietnam to accompany our David home to us.

To all these and others whom we may have failed to mention, again we say thank you and may God reward you abundantly for your kindness and help at a time when it was most needed and appreciated.

The bereaved family,
Mr. and Mrs. Lewis Chaney
and children

1971. You've changed. We've changed.

Chevrolet

Worth seeing. Worth owning. Worth waiting for.

Vega. Not just another little car, but one little car that does everything well. You get more room, more weight and more power than most little cars give you, yet the gas mileage is right in the same neighborhood with the best of them. Vegas come dressed up, too, not stripped to the bone so you have to add a lot to make them liveable. Drive one. You'll see.

Caprice. There's a double layer of steel in the roof, a steel guard beam in each door, power disc brakes up front, a new power ventilation system inside, a wheelbase two and one-half inches longer. You get the looks and comfort of a six- or seven-thousand-dollar car, but at Chevrolet prices. And that's the kind of change during these tight-money times that all of us can appreciate.

Vanishing tailgate. A big change in our big wagon. The window goes up into the roof, the Glide-Away tailgate vanishes beneath the floor. Out of sight. Out of your way for easy loading even in a closed garage or when you have a trailer hooked on.

See what we mean by putting you first? September 29 at your Chevrolet dealer's.

about my past. Surely a girl is not required to confess everything she did wrong."

Nevertheless, the court ruled that Ernest was indeed entitled to an annulment.

"The first purpose of matrimony," said the court, "is procreation. A woman, to be marriageable, must be able to bear children to her husband, and a representation to the contrary in the very nature of the (marriage) contract."

True, the law does overlook a certain amount of "deceptive arts" in matters of romance. It recognizes that each party will naturally try to put his best foot forward. But an annulment will be granted if the deception involves something truly basic to the marriage relationship, as in the case of Ernest and Jane.

Suppose the child that is expected of the husband's, not some other man's. Could he still get an annulment, merely because his bride did not tell him the facts before the wedding?

The courts have said no. They note that her deception does him no great harm, because he would be legally responsible for the child anyhow.

What if the situation is just the opposite? That is, the girl is not expecting a child at all but tells the man that she is—and that he is the father.

In this situation, too, most courts have refused to grant an annulment. As one court put it, the husband should not expect the law to rescue him from a predicament made possible by his own premarital misconduct. He had, said the court, "created his own dilemma."

Secretary of State, Elmer Begley, Dies

Secretary of State Elmer Begley died Friday, September 19 at his apartment in Lexington after an illness of several months. Begley was 49.

A former Leslie County judge, Begley was 24 when he was elected in 1945 and held that office for 17 years.

He was elected secretary of state, his first statewide office, in November, 1967, along with Gov. Louis B. Nunn.

What will happen on a successor is not known. Nunn presumably will appoint a secretary until the next statewide election in November, 1971.

Begley was the second state executive official to die in office during this administration. Auditor Clyde Coney died last year.

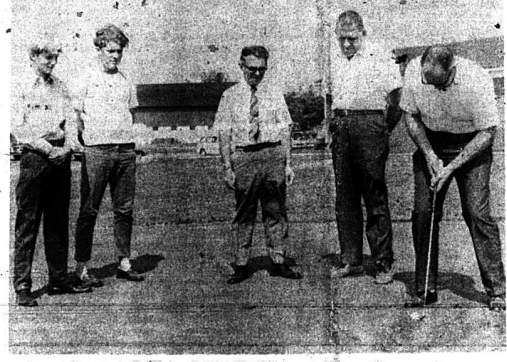

Begley coached and taught high school for two years. He was principal and teacher in Leslie County elementary schools for nine years.

He was elected to four consecutive terms as judge and also served two years with the federal Farm Security Program.

Last spring, Begley underwent surgery and had been unable to be in his office in recent months.

Survivors include his widow, the former Letitia Fellner; two daughters, a son and his mother.

His body was returned to Hyden, his former home, for funeral services which were held at the Hyden Presbyterian Church.

Charles Baker, far right, demonstrates his "winning" putting style to several other golfers after he won the Championship Flight of the recent golf tournament held at the Cedar Rapids Country Club. Other winners were, from left: Tommy Nicely, Fourth Flight; Mark Bray, Sixth Flight; C.B. Owens, Jr., Second Flight and Dr. Joe Henderson, First Flight. Bill Sowder and Ernest Stanton, winners of the Fifth and Third Flights, respectively, are not shown in the picture. 56 golfers took part in the tournament.

Candidate's Named For MV Halloween Carnival

The Mt. Vernon Halloween Carnival will be held this year on Friday night, October 30, in the school gymnasium. Candidates have been chosen from each class for prince and princess and king and queen of the affair.

Nominees for prince and princess by grades are: Scott Henderson and Tammy Hamm, first grade; Jimmy Cline and Less Hayes, second grade; Tony Saylor and Katrina Durham, third grade; David Pennington and Lynnell Hamm, fourth grade; Danny Hunt and Sherri Mayfield, fifth grade; Janet Cummins and Larry

Kirby, sixth grade; Kathy Hammonds and Rodney Deatrage, seventh grade; and Candie McClure and Billy Baker, eighth grade.

King and queen candidates from the high school grades are: Kim Schroeder and Danny Carmack, freshman class; Glen Brown and Karen Cummins, sophomore class; Billy Frank Stewart and Pam Parrett, junior class, and Kenny Tyler and Maxine Tracker, senior class.

Four File For School Board; Livingston Has Town Race

Four candidates have filed for two seats on the Rockcastle County Board of Education. The two seats which will be vacated January, 1971 are those of Preston Nunneley, representing District 3, and Vashli Mullins, representing District 1. Both Mr. Nunneley and Mrs. Mullins chose not to stand for re-election.

Filing for Mr. Nunneley's seat are Wayne Van Hook and Dr. Rudolph Burdette. Candidates for Mrs. Mullins' seat are Murphy Martin, Jr. and Billy Burdette. District 3 encompasses North Mt. Vernon, West Mt. Vernon and Bullock precincts. District 1 is composed of West and East Livingston precincts.

The bond issue question reads as follows: "Are you in favor of the Act of the General Assembly, known as Senate bill 359, enacted at the regular session of 1970 wherein it is proposed that the Commonwealth issue and sell its general obligation bonds in addition to all bonds heretofore authorized by the voters in the principal sum of \$48,300,000, the proceeds of which will be set aside for state agencies and public purposes for the acquisition of lands, the construction and reconstruction of buildings and structures, installation of service facilities and the purchase and installation of equipment, facilities, and furnishing a nature for buildings and structures for the state agencies or for other public purposes as follows: School for the Deaf, School for the Blind, Department of Education for Vocational Schools, Department of Corrections, Department of Child Welfare, Department of Mental Health and Farm Development Loan Guarantee Fund?"

Guppy Garners Awards

Bill Mullins, Lexington, Kentucky, owner of the finny champion, displays his trophies won at fish shows.

Mullins' Pet Fish Is International Champion

Reprinted from the Sunday Herald-Leader, September 20, 1970

By: Mary Jean Alexander

That lazy pet fish who grows fat in your living room while floating around in his bowl and who probably will eat his days as a meal for the family cat may be more valuable than you think.

Without realizing it, you may be harboring an undiscovered world champion.

One Lexington fish hobbyist made such a discovery Sept. 18 when his pet guppy, Big Red, outdid 600 entrants to be named Best in Show at the International Fish Show, Columbus, Ohio. He received a trophy and rosette.

Although the international honor was a first for owner, Bill Mullins of Lexington, and formerly of Rockcastle County, his other fish have won about 30 trophies and dozens of ribbons since he began with a simple five-gallon tank setup 12 years ago.

Mullins is the son of Mr. and Mrs. Nathan Mullins of Climax. He graduated from Mt. Vernon High School and

the College of Engineering at the University of Kentucky. He is employed as a Civil Engineer by the State of Kentucky. Mr. Mullins' achievement at the show was significant in that as a hobbyist, he won over professional fish breeders and dealers.

However, he is not alone among non-professionals who have come away from fish shows carrying both trophies and ribbons.

Cost

One of the lures of raising and showing fish such as guppies, according to Mullins, is the low cost. While a champion show horse might sell for close to \$100,000, a comparative guppy would bring at the most about \$65. Most sell for \$5 to \$10.

Big Red, who will retire soon because guppies only live for 14 months, has an undetermined value following his win at the international. "This one I wouldn't sell," insisted Mullins.

You don't have to be rich to make this guppy show scene. If you can't afford to travel to such distant parts as Hawaii or Florida, your guppy can get there alone, via air mail spe-

ASC Committeemen Meet Sept. 25 For Convention

Farmers of Rockcastle County have elected a total of fifteen ASC committeemen and alternates in a mail election conducted earlier this month, according to Shelle Mullins, chairman of the County Agricultural Stabilization and Conservation (ASC) Committee. ASC committeemen assist the County ASC Committee in administering farm programs in Rockcastle County, such as wheat and tobacco, acreage allotments, feed grain allotments, and agricultural conservation cost-sharing measures. They also help local producers inform of farm program provisions and regulations.

In addition, the just-elected ASC committeemen have an important responsibility in the near future in filling vacancies on the County ASC Committee and determining the chairman and vice-chairman for the coming year. Mr. Mullins said.

The new ASC committeemen will convene September 25 at 10 a.m. in a meeting open to the public. They will elect one County Committeeman to serve a three-year term and two alternates to serve one-year terms.

Revival Begins Sept. 27 At First Baptist Church

Rev. T.L. McSwain, pastor of the First Baptist Church in Richmond, will begin holding revival services September 27 at the First Baptist Church in Mt. Vernon.

This summer, Rev. McSwain led a tour around the world and to the Baptist World Alliance in Tokyo, Japan. He has pastored churches in North Carolina, Indiana and Kentucky

and conducted revivals throughout the United States. Revival services will continue through October 4 and will begin each evening at 7:30 p.m. Rev. Ray Cummins, pastor of the church will serve as Song Leader.

Nursery facilities will be available.

The public is cordially invited to attend.

AREA 2S MEET TO BE HELD HERE

Volunteer adults from Rockcastle County will attend a regional meeting of the Wilderness Road Girl Scout Council Monday (Sept. 28) in Mt. Vernon.

The meeting is scheduled for 10 a.m. at the First Baptist Church and is one of 12 such area meetings to be held in Central and Eastern Kentucky this month.

It will attract Girl Scout adults from six counties.

The meeting will be a prelude to the annual Council meeting, October 12 in Lexington, and, according to Mrs. Graydon A. Long, Council President, will give volunteer leaders an opportunity to give

State Dept. Approves \$1,650,000 Bond Issue For High School

The State Department of Education Tuesday approved a \$1,650,000 bond issue to finance the new Rockcastle County High School. After bond discount, one year's capitalized interest and fiscal fee, the bond issue will render a total of \$1,485,375 to use toward construction costs.

After much calculation, by local school administration and state department officials, it was determined that this amount (\$1,485,375), plus \$163,000 Title I construction money, plus approximately \$100,000 capital outlay funds the board was able to save from last year and approximately \$120,000 capital outlay money from the 1970 budget, will permit the Board of Education to award the construction contract for the entire building.

All of these funds amount to a total of \$1,868,375 available for construction. If the lowest base bid is accepted, that of Forbes Morris Building Company in Lexington who submitted a base bid of \$1,588,000, there will be a total of \$280,375 left to spend on alterations. However, according to Superintendent Charles Parsons, the music, art and shop areas are not included in the bid.

Henry L. Crawford Dies Suddenly

Henry Lloyd Crawford of Broedhead, died suddenly Friday, September 19, at his home. He was born December 21, 1906 in Rockcastle County, the son of John Milton and Fannie Brannaman Crawford.

He was a carpenter, a veteran of World War II, and a member of the Broedhead Masonic Lodge.

Survivors are a daughter, Mrs. Norma Evans of Louisville; a son, Donald L. Crawford of Atlanta, Georgia; a sister, Mrs. Rita Crawford of Astoria; a brother, R.C. Crawford of Broedhead; and one grandchild. He was preceded in death by his wife, Mrs. Lillie Crawford.

Funeral services were held Monday, September 21 at the Broedhead Christian Church with the Rev. G.O. Cloyd officiating.

Waicon Funeral Home was in charge of arrangements.

the base bid from this company and if they are also built they will cost an additional \$203,000 leaving \$73,375 to spend on other alterations and pay the architect's fee.

The School Board is expected to meet next week in special session to approve the bond sale, to award the construction contract subject to sale of the bonds and to decide which additional alternates to give priority.

The bonds, if sold, are tentatively scheduled to be paid within 25 years with capital outlay funds. "Since the school will be financed entirely from state and federal funds, local taxes will not be raised nor used in the construction," Superintendent Parsons said.

Harvey Bradley Dies After Long Illness

Harvey Bradley, 64, of Stanford, died Tuesday, September 15, at the Fort Logan Hospital in Stanford after a long illness.

He was a native of Rockcastle County, a retired trucker and a member of the Nazarene Church.

Survivors include his wife, Mrs. Sybil Bradley of Stanford; eight daughters, Mrs. Della Underwood, Mrs. Junior Wallis, Miss Dorothy Bradley and Miss Shirley Bradley, all of Stanford; Mrs. Jessie Leigh of McKinney, Mrs. Nettie Barron and Mrs. Jettie Egan, both of Mt. Vernon and Mrs. Mayme St. John of South Lebanon, Ohio; four sons, Lenton Bradley of Moreland, Bobby Bradley of Stanford, Raymond Bradley of Mt. Vernon and Arthur Bradley of Reading, Ohio; a sister, Mrs. Minnie Bunch of Crab Orchard; three brothers, W.N. Bradley of Route 3, Stanford and Virgil and Eugene Bradley, both of Mt. Vernon; 37 grandchildren and several great grandchildren.

Services were held Thursday, September 17 at the Morgan and Fox Funeral Home with Rev. James Sherron officiating. Burial was in the Buffalo Springs Cemetery.

Harvey Bradley Dies After Long Illness

Do you men like the new mid-fashion for the ladies? My husband does on me anyway. I hate them. We have gone from one extreme to another and just as I was conditioning myself to my skirt being 5 or 6 inches above my knees, the fashion changes. There has to be a happy medium somewhere. The midis are ridiculously long and the minis are ridiculously short for the average woman. On two cute young things, neither style looks bad but for us mothers on the younger side of 30 of course, either style in the extreme is silly. Of course, not half as silly as the skirts for men, but I've already rambled about that.

And it's almost that time again. Yes, have you noticed how quickly the leaves and foliage are changing color? But when football season is already four weeks old you have to expect this sort of thing. I'm not going to complain about the weather yet, but just wait until the first snowflakes start to fall, then, just listen, I hope we have our tobacco cut by then. We probably will set a record in the county for being the latest housing our tobacco.

ramblings . . .

The Rockcastle County Jaycees certainly deserve a pat on the back for their Elmwood Cemetery Wall Project. The new wall and sidewalks contributed much toward the improvement of the looks of our town as a whole. This is the first time a project of this size has been completed by a local civic club and the Jaycees, along with those who contributed to the project, are to be commended.

You'll notice in the lead story in this week's paper that the State Department of Education has approved a \$1,650,000 bond issue to finance the new Rockcastle County High School. This addition to our education program has been planned for many years and will improve the educational facilities of the county considerably.

Information requested by President Nixon during his July visit to Louisville has been delivered to the White House by Gov. Louie B. Nunn.

During Nixon's Kentucky visit, Nunn and several other Appalachian governors suggested that the President be asking Congress to make it possible for other regions to be organized like the Appalachian region.

A task force was appointed, consisting of six of the governors who are members of the Appalachian Regional Commission, to draw up recommendations.

Accompanying Nunn in delivering the recommendations to the White House were Govs. Raymond Shafter of Pennsylvania (Chairman of the National Governors' Conference), Arch Wroble of West Virginia and Linwood Holton of Virginia.

TOM DUNCAN'S Frankfort Watchline

Only Police Service Commissioner Thomas Emberton and former Parks Commissioner Robert Gable are actively seeking support for the Republican nomination for governor.

Former Highway Commissioner Eugene Goss joined Parks Commissioner James Heat on the sidelines.

And whether they'll say so or not it's because they see the 38-year-old Emberton as Gov. Louie Nunn's sure-fire choice.

Emberton won't say so either. But he's delaying announcing as a candidate only for what seems the right timing. And he's too close to the governor to run against his wishes.

Gable may run whether the governor likes it or not. They've talked privately but Gable isn't ready to say that a primary would hurt the party's chances in the fall.

And part of Emberton's timing will depend on whether he ex-hibits 13,000.

POLICE CRIME LAB

The State Police Crime Laboratory will buy new equipment, including narcotics analysts devices, with a \$19,900 grant received from federal law-enforcement assistance funds.

An additional grant of \$23,940 will be used to train officers in uniform crime reporting and expand the State Police Criminal Statistics Bureau.

THOUSANDS VISIT APOLLO II AT KY. STATE CAPITOL

Thousands of Kentuckians inspected the Apollo II space capsule, the vehicle in which the earthman first visited the moon. The famed spacecraft was on display for four days in front of the State Capitol.

In opening the display, Governor Nunn said the Apollo II feat proved America's space leadership and restored confidence in the American way of life.

COMMISSION IS TOLD

Although Kentucky has made great advances in the last three years in tuberculosis control, the program still is not good enough to eliminate the disease in this state, Health Commissioner William McElwain told the recently created Kentucky Tuberculosis Commission.

However, Dr. McElwain said the program is approaching a level that in time could eradicate TB in Kentucky.

EDUCATION DEPARTMENT TO HAVE PLANNING UNIT

A planning division soon will be set up in the State Education Department. Approval of the plan was voted by the State Board of Education.

Supt. of Public Instruction Wendell Butler said the planning office could explore such areas as: age addition, environmental education, reading problems and early-childhood education.

change made Morehead's request for approval of the \$170-a-month lease seem retroactive.

Commissioner Christen confirms that month-to-month payments had been going through but the department wanted the full commitment on the record.

Part of the reason was to pin down whether there was a conflict with a regulation forbidding leasing cars "except on an occasional basis necessitated by circumstances under which a state owned vehicle would not be available for use."

And it was not in Morehead's request but a departmental memo that State Purchases Director N.B. McCubbin said, "Morehead State University desires to lease for Dr. Doran a 1970 Oldsmobile 98

"A vehicle of this type has been limited to the Governor and Lieutenant Governor."

The University of Kentucky and its foundations may be on the back for \$93,251 of soggy paper in the bankrupt Penn Central Railroad but last fiscal year it earned \$91,000 on investments.

Just try to find either figure in a budget then show it to a legislator.

Gov. Nunn doesn't want any possibly divisive Republican primary next year. Saying one wouldn't necessarily produce the best man, he tells of a county-wide race in South Central Kentucky.

"When they get through counting the votes in this fellow's home town he had three, but when they asked him about his opinion on the matter he said, 'Wait, let me think where they don't know me.'"

Library Notes

New books received at the Rockcastle County Library. Among them are:

AMAZING! THE MIRACLE OF THE METS, by Joseph Duroso. Here is the complete and spectacular story of the winning and losing in the history of baseball.

BALL FOUR, by Jim Bouton. The most incisive, candid, revealing and, at the same time, the funniest book ever written about baseball and the people who make their living at it.

THE BOAT WHO WOULDN'T FLOAT, by Farley Mowat. In 1967 the author made a perilous voyage in a leaky fishing schooner along the coast of Newfoundland and to the centennial exposition in Montreal. All his exploits are replete with humor and a flair for the picturesque.

CARNIVAL, by Arthur Lewis. The author spent six months behind the scenes researching life on the "midways" of American carnivals. A funny and fascinating and colorful book.

THE CONTEMPORARY AMERICAN POETS, edited by Mark Strand. A collection of representative work by the best poets writing in the U.S.A. today.

ELEGY FOR REVOLUTIONARY, by C.J. Driver. An honest novel of trust and betrayal in South Africa.

FAMINE 1975, by William and Paul Padock. Within a few years, the world will pass to the age of food. This book is recommended only for mature readers who are prepared to face the question—"who will survive?"

HERALDRY IN AMERICA, by Eugene Zieber. A reprint of a useful study of American heraldry, American flags, seals and coins, and colonial societies and American orders.

HOW DID SPORTS BEGIN, by P. Brach. Sports are as old as time, and the story of

where and how they were first played and how they evolved into present-day forms is entertaining reading and full of surprises.

JAPAN, by Edwin Retachauer. A former U.S. Ambassador to Japan writes a concise interpretive history of Japan encompassing every aspect of Japanese culture and politics.

MADAM OF MAINTENON, by Charlotte Haldane. A fascinating biography of a woman who rose from an obscure French noble family to be the wife, though not the queen, of Louis XIV.

THE MARINE AQUARIUM, by R.F. O'Connell. The author shows how to set up an ideal marine tank and how to create the conditions in which marine fish will thrive.

NEVER ASK A POLICEMAN, by D.L. O'Levy. A professional manhunt becomes a stalking game of terror and obsession in the novel of suspicion and inspired police detection.

THE PAST OF PASTIMES, by Vernon Bartlett. A highly amusing history of most of the games that have established people throughout the centuries to occupy their hours of leisure.

THE PURSUIT OF POETRY, by Louis Untermeyer. This is a book for those who care for poetry and for those who fear they cannot comprehend it.

SELECT, BUY, TRAIN, CARE FOR YOUR OWN HORSE, by Barbara Van Tassel. A complete guide for the new or potential owner.

STROKE, by John Sarno, M.D. and Martha Sarno, M.D. An experienced physician and a leading speech pathologist accurately examine and explain the questions people ask about strokes—the condition and the patient.

A STROKE IN THE FAMILY, by Valeria Griffith. This book describes the simple and effective exercises and techniques for use by friends and family after the victim of a stroke has returned from the

hospital.

TROUBLE KID, by Max Brand. Action packed western adventure.

WILD MUSHROOMS, by Emil Gaba. Guides and rules on collecting wild edible mushrooms.

THE WORLD'S ZOO, by John Perry. The assistant director of the National Zoological Park in Washington, D.C. discusses various aspects of zoo management, animal behavior and wildlife conservation.

(THE YEAR THE METS LOST) LAST PLACE, by Paul Zimmerman and Dick Schapp. Besides detailing exactly what happened to the New York Mets from July 8 through July 16, 1958 this book focuses

upon those dates in Met history, revealing the wild and absurd ineptitude of the past.

ZELDA, by Nancy Mitford. A definitive biography of Mrs. Scott Fitzgerald. Much of this book is based on Zelda and Scott's copious correspondence.

New books for children.

ANATOLE AND THE THIRTY THIEVES, by Eve Titus. Anatole at his best as he tracks down thieves which have stolen all the cheese from the cheese factory where he works. PreS.-3.

ANIMAL INSTINCTS, by Russell Freedman. Animal behavior is the topic of this volume which discusses the

habits, behavior patterns, and essences of animals which are essential for their survival.

BEARS DON'T CRY, by Charles E. Alverson. Shanti wasn't too frightened at being lost in the woods because she quickly found a new friend in a large friendly bear. PreS.-3.

BURNISH ME BRIGHT, by Julia Cunningham. A young mouse becomes the object of a village's fear when strange things begin to occur however, the true quality of his spirit is revealed in the effect he had on the two children who become his friends. 4-6.

CATFISH, by Edith Thacher Ford. Catfish plagued the town of Nevermind with his love of speed and fast machines, un-

til a bank robbery changed their opinion of his importance. K-2.

THE CHEERFUL QUIET, by Betty Horvath. Having four brothers and two sisters was fine with "Cheerful" because he wanted to escape the resulting "cheerful noise." PreS.-3.

THE DAY JEAN-PIERRE JOINED THE CIRCUS, by Paul Gallico. The famous guinea pig, Jean-Pierre continues his astonishing adventures by becoming a circus star. 5-5.

I'M NOT A CAT, SAID EMERALD, by Jane Thayer. Emerald is convinced that he is a person, not a cat, until a stranger leads him on a series of adventures that shake his resolve. PreS.-1.

THE NEW WORLD OF PAUPER, by Irmen-garde Eberle. Recent advances in forestation and logging form the beginning of this review of the world of paper and the many ways it is used. 5-7.

NO FLYING IN THE HOUSE, by Betty Brock. How does a dog happen to be rearing a child? And for that matter, what kind of child is Annabel? Children will be intrigued by this fascinating duo as they nudge through their adventures. 1-4.

THE SEA-GREEN HORSE, A COLLECTION OF SHORT STORIES. A collection of short stories, each building on the previous story and utilizing the talents of several first contemporary writers. 8-12.

A SNAKE-LOVER'S DAIRY, by Barbara Brenner. A vivid story of adventure and zoology as a young man is introduced to the world of snakes. 4-7.

TOP BOY at twisters creeps, by E.W. Hildick. Andy proves himself an unusual young man as he manages a campaign to get a friend selected TOP BOY of his hometown. Twister's Creek. 5-7.

EMERICK SERVED IN REVOLUTION

Andrew Emerick of Andrew Emerick as he called himself in English came to this country from Germany on the ship "Charming Molly" landing on October 22, 1773.

He enlisted in the War of the Revolution in Berks Co., Penn. in Captain George Miller's Company and was on duty, September 5, 1776 at South Amboy, N.J.

After serving the time of his enlistment he returned to Berks Company, where in the fall of 1780 he married Christina Heller, who was also from Germany.

As his family increased, his expenses grew, and not seeing any chance for advancement financially, he decided to move, and in 1783 he settled in Londonderry Township, Bedford Co., (now Somerset Co.) in the western part of the state of Pa. where he paid his first taxes on his new home. Here (after his long tedious journey over the mountains with his family) he prospered, financially and physically, for at one time he owned over 1,000 acres of the land in Pennsylvania and some of it in Ohio. He gave each of his children 160 acres of land. He was 91 years old when he died and they buried him beside his wife (who had preceded him in death by a few years, and some of his children who had died while young) on the old farm, where the monument still stands that marks the grave.

John Emerick was born in Berks Co., Pa. on July 4th, 1781. He came to Ohio in 1821 and settled on the farm now owned by Lewis Chesrown. He was a wagon maker and blacksmith by trade and followed that business about twelve years in Ohio when he gave it up and was engaged in farming on the old time of his death in 1847.

John Emerick and Mary Magdalene Troutman had five children, the youngest of whom was Alexander Emerick. Dr. Alexander Emerick (married to Mary Anne Yocum) served the Union Army as a doctor during the Civil War.

Dr. Alexander Emerick and Mary Ann Yocum of Monticello, Ohio had ten children.

Their seventh child, Xenophon Emerick married his second cousin, Leah Emerick, a great great-granddaughter of Andrew Emerick and moved to Rockcastle County around 1893.

Mrs. Joe Young of Mt. Vernon is joining the new Rockcastle County Chapter on this line. This chapter which is sponsored by the Boreas Laurel

Ridges Chapter will be organized October 8th. *****

"Homelike Atmosphere"

Today, there is often very little difference in the quality of the products made by the manufacturers of the great American industrial complex. Then why do people remain loyal to one firm or one product over another? Probably the biggest reason is SERVICE. There still remains vast differences in the quality of service offered by various firms. The public knows this, and here at the Dowell-Martin Funeral Home we are also fully aware that "PERSONALIZED SERVICE" is our greatest asset.

TO THE VOTERS OF NORTH MT. VERNON, WEST MT. VERNON, AND BULLOCK PRECINCTS.

I have filed as a candidate for school
board member in Educational District
No. 3. I appreciate the encouragement
and support you have provided me, and
in turn I pledge you four years of dedi-
cated and impartial service as your
school board member.
Presently, I see before me a new
and vast opportunity for improving
our county's educational program.
Now is the time to take advantage
of our opportunities and during my
four years as board member I will
dedicate myself to the following:

1. Completion of the new High School.
 2. A comprehensive academic program for our boys and girls.
 3. An enlarged athletic program for both elementary and high school students.
 4. An independent and impartial member of the board.
 5. Progress without higher taxes.
- I sincerely solicit your support and your vote on November 3.
- Thank You

ins, a fish that lies on the bottom of his bowl won't win Best in Show.
Personality is evidenced by the way a fish swims around, Mullins explained, adding that when his guppy won at the International, he was swimming furiously back and forth, side to side, when the judge walked by.
While at home or on the road, guppies require much less care than do large show animals.

Mixes Own Food
They require little space, and hardly any food. The only catch is that you must feed them five or six times a day and that finding their proper food is difficult and costly.

Mullins mixes his own food, which he stores in his wife's deep freezer. The exact ingredients are a secret, Mullins said, although he disclosed the food has a high protein content and contains shrimp.

He cautioned the hobbyist against overfeeding a pet fish. Most persons don't realize fish require only tiny amounts of food, he explained, and over-feeding consequently is the easiest pitfall for the amateur.

Most persons who own at least two guppies also run a fish breeding farm on the side. Female guppies bear anywhere from 25 to 75 live young every 28 days.

Since the guppy's lifespan is so short the person who intends to show continually must run a constant search among guppy offspring for good fish.

As in any breeding program, the secret to getting good show guppies is selective breeding and extensive culling, said Mullins.

He said the IFGA "hasn't gotten around yet" to issuing pedigree papers but good bloodlines are important and many breeders keep a notebook containing a record of each

guppy's family tree.

Long Way
Mullins, a State Highway Department employee, has come a long way since he began raising guppies 12 years ago.

Now, the element resembles aquarium rooms often found only at zoos. The constant gurgling of the filter apparatus operating in his 26 tanks is in sharp contrast to the continuous silence of the mute aquarium inhabitants.

The tanks contain not only guppies, but also Siamese Fighting Fish, Honey Dwarf Gourami, Albino Catfish, Angel Fish and Psudotro-

pus Auratus. Some of these also have been shown.

Anyone who would like to raise fish or make friends with other fish hobbyists is welcome to join Lexington's Central Kentucky Aquarium Society, said Mullins.

The club meets the second Friday of each month at the Columbia Gas Auditorium, and you don't need to own a fish to join.

TO THE VOTERS OF Bullock, North Mt. Vernon, and West Mt. Vernon

Over one and one-fourth million dollars is budgeted annually for the education of our children in Rockcastle County and each boy and girl spends nearly as much time in school as they do in the home.

Not only is most of the child's training for vocation done in the school, his attitudes toward life, and his work habits are largely developed there. This makes the school--the curriculum and the teacher--of utmost importance to any community. This also makes the position of Board member an extremely responsible one.

I sincerely solicit your influence and vote that I might responsibly represent the taxpayers and parents, that I might serve the dedicated teachers and that I might work to put the interest of our children in its proper place--FIRST.
