ered to a satin cuff. It featured a raised front waistline with a back gathered skirt. The front panel was styled with hand-clipped lace and seed pearls. Her veil was a hand-made original with a satin crown highlighted with pearls, with a full length train edged in scalloped lace falling from the crown. She carried a cascade of cream roses centered with an orchid accented with red ribbon hearts and ropes of pearls.

Miss Kay Davis, sister of the bride, was maid of honor. She wore a full length red tulle gown made with an empire waist and long sleeves gathered at the wrist. Her skirt was gathered to the bottom, accented with silver sequins. She carried a single chrysanthemum edged in red with a tiny red bee in the center. Her headpiece was a red tulle crown with tiny red bows featured on the veiling.

Bridesmaids were Mrs. William Looney and Miss Margie Starling. Flower girl was Miss Brenda Langford, daughter of Mr. and Mrs. Willie Langford. They were gowns identical to that of the maid of honor. William T. Kendrick served his brother as best man. Ushers were Harold Davis, brother of the bride, and Richard

Before I joined the Payroll Savings Plan all I could save was string.

When it comes to saving money, most of us can use all the help we can get.
Joining the Payroll Savings Plan is one easy way to force yourself to save. When you sign up, an amount you specify is set aside from each paycheck and used to buy U.S. Savings Bonds. It's automatic. Everything is done for you.
And now there's a bonus interest rate on all U.S. Savings Bonds - E Bonds, 5 1/2% when held to maturity of 5 years, 10 months (4% the first year). That extra 1/2%, payable as a bonus at maturity, applies to all Bonds issued since June 1, 1970...
Take stock in America.
Now Bonds pay a bonus at maturity.

A WORD OF APPRECIATION
The family of Mr. Tomie Kirby, would like to take this means of thanking everyone who was so kind to be during our recent sorrow.
We would especially like to thank the staff, Dr. Lewis, Cox Funeral Home and all who sent flowers and flowers, and also Bro. Bradley and Bro. Shivers and Jack Cromer and the girls for their consoling words and the beautiful songs.

Flowers
By Rev. Fain
ROSES ARE MOST POPULAR
Roses hold a special place in the heart of all of us. This is apparent because of all the poetry that has been written down through the ages about love and roses. Even more convincing evidence of the popularity of roses is the fact that roses are sold approximately 300,000,000 last year. Just think how many dozens roses you could buy for that amount of money.
This popularity of roses is certainly not new. Roses were first cultivated by the Chinese some 3,000 years ago. They were pretty then, according to reports, and it is a fact that roses are more beautiful today since so many varieties have been developed - one for each and every taste.
Allow us to fill your next order - whether for one or one dozen roses - Send your special someone a bouquet. We deliver locally, and win to other cities.

Family Planning Clinic Sees Many Patients

"Family Planning" is a term that seems simple enough to understand. And yet, there are still a great many people who don't know what it means. Some think it refers to planning the family budget while others imagine that it has to do with organizing family vacations and family activities. The real meaning of Family Planning is much more simple: it means planning the family itself, so that parents are really financially, emotionally, and in every other way possible to have the children they want when they want them.
Many persons throughout Rockcastle County have been contacted by people doing a survey on attitudes and responses toward Family Planning. The preliminary results have shown some very interesting facts. The most significant being, that the majority of the people contacted knew very little about Family Planning. Because of this, they were uninformed about the wide selection of methods available. Those that had heard of different methods harbored many fears based on old wives' tales and traditional attitudes and friends about the dangers involved.
Combined with the survey, the people were given factual information about the various methods of birth control, and of the Family Planning Clinic that is held every Tuesday by the Health Department in Mt. Vernon. The services are provided free of charge and include a physical examination by Dr. Louise Hutchins. Birth control devices are also dispensed without cost to the patients.
The second most significant fact was that the people were interested and wanted to learn more about Family Planning. Because of this interest and demand for more information, the clinic held at the Health Department has increased many fold since November, 1970. Statistics from the Health Department, show the following:
New patients for Family Planning & Pap Test: 118; Total women screened: 286; Family Planning: 145; Pap Test only (bearing women past child bearing age): 13; Women requesting information only: 6 and Total women served at clinic from November 1970, 264.
If you need help in completing your request for medical care payments, contact your social security office. The people there will be glad to help you.

Sarah Lee and Ann Casey, top photos, will be among the featured matches at Friday night's wrestling match at the Livingston Gymnasium sponsored by the Livingston Lions Club. As can be seen from the photos, the ladies aren't exactly the "sprinkling village" type so if you like to watch women fight, the match should be interesting. In the bottom photo are the "Mighty Yankers," a pair of masked wrestlers who will oppose Mike Pappas and Chief White Eagle in the evening's tag event. If you want to see these "sprinklers," tickets may be purchased from any Lions Club member or at the door. The first match gets underway at 8:30 p.m. A chili supper will be served beginning at 6:30 p.m. until 8 p.m. in the school's cafeteria. All the chili you can eat for 75c.

Have a story on the official census figures for Rockcastle County in this week's paper and while you wait notice that the county's population decreased by .2 of a percent over the 1960 figure, the report does indicate that the population is leveling off and we are at least not losing residents in droves as we did the last ten year period (1950-1960). As indicated earlier, Mt. Vernon's population increased by over 300 in the last ten-year period.

Census Release Reveals Rockcastle's Population Decreases .2% To 12,305

EDITOR'S NOTE: Rockcastle County's 1970 census figures were previously published but the U.S. Department of Commerce has provided the following releases which gives additional details.

Rockcastle County's official population in the 1970 Census was 12,305, down 0.2 percent from the 1960 figure of 12,334, the Bureau of the Census, U.S. Department of Commerce, reports.

The official population of the state was 3,230,311, up 6.0 percent from the 1960 population count, which was 3,030,154.

The 1970 Census counted 12,210 white persons in Rockcastle County, 99.2 percent of the total; 89 negroes and 8 persons of other races.

The census showed 1,807 children under 5 years; 3,463 in ages 5 through 17; 6,742 ages 18 through 64; and 3,802 who were 65 and older. The population 14 years and over included 5,796 married people, 420 who were widowed, 228 divorced and 2,054 never married.

Rockcastle County's 1970 population was classified as 100 percent rural.

There were 3,608 households, with 12,850 persons, including 432 one-person households. In addition 45 persons were living in group quarters, and 1,170 persons, counted, 3,999 housing units in Rockcastle County, 2,618 of them occupied by owners, 889 occupied by tenants, and 391 vacant.

These included tractors, 3,999 housing units in Rockcastle County, 2,618 of them occupied by owners, 889 occupied by tenants, and 391 vacant.

Among year-round dwelling units there were 3,268 single family houses, 160 housing units in multi-unit buildings, and 164 mobile homes or trailers. The percentage of occupied units with more than one person per room was 16.4, compared with 21.2 in 1960. Of all the occupied housing units, 1,914 had piped water, toilet, and bath, while 1,790 lacked one or all plumbing.

The median value of owner-occupied houses in Rockcastle County was \$6,300, compared with less than \$5,000 in 1960. The median rent paid by tenants in 1970 was less than \$80 per month, compared with \$10 in 1960. Half were over and half below the median figures.

These results are from two 1970 census advance reports by the state: PC(V), General Population Characteristics and MC(V), General Housing Characteristics. The reports, which contain additional 1970 census data for the state and

various areas within it, may be purchased at nominal prices. From the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C., or from an office of the U.S. Department of Commerce in major cities.

On The Hardwood

The Mt. Vernon Red Devils, perhaps looking forward too much to district tournament play, dropped two games in a row this week and by pretty heavy margins. After a one-way win over Anoville last Friday night 78 to 64 in which Coach Jack Lasswell cleared his bench the second half, the Red Devils hosted a tough Casey County team Monday night and came out on the short end of the stick.

The team's shooting was cold, there were numerous turnovers and they just never seemed to be in the right place at the right time for rebounds.

The Devils jumped out to an early lead and were ahead of Casey County three points at the first quarter stop. However, Casey bounced back to score 20 points the second quarter, when it seemed the Devils forgot the definition of the word defense, and were only able to score eight.

Casey left the floor with a 31 to 22 lead.

The third quarter wasn't much easier for the Devils in fact they were outscored again by six points and Harper, stretched their lead to 53 to 34 at the end of the third quarter. The Devils came strong in the shooting department but the fourth quarter but were still plagued by turnovers and the final score was 72 to 59. Tommy Coffey and Dale Coffey tied for high point honors with 14 each, followed by David McCasley with 10, Troy McClure with 7, Rudy Burdette got 6 and Jimmy Mullins and George Powell sank 4 each.

The Red Devils weren't exactly cold at Burgin Tuesday night. They again made numerous errors and fouls on both teams were abundant but the Devils just couldn't repeat an earlier win over the pesky Bulldogs. It looked at the first as if the game would be close but Burgin, who has lost only three games -- one of those to Mt. Vernon -- began pulling away in the second quarter and the Red Devils couldn't close the gap. In the third quarter, Mt. Vernon did pull to within four but the Bulldogs came right back with a hard press defense and put the game on

Further reports giving more extensive statistics on the characteristics of the population and housing will be published in future editions as the 1970 Census results are tabulated.

The Brodhead Tigers had about the same kind of luck in their last three games. They beat Shopville by six points Tuesday night but last Thursday night and Saturday night went down to defeat to Owens and Madison Model.

The Owens game was close the first quarter only. Brodhead was ahead by two at the end of the first period but Owens came back and outscored the Tigers nine points in the second quarter and the game really wasn't close the rest of the way, however, Brodhead did put on a strong drive the last quarter but the final story was Brodhead 68 and Owens 77.

Tommy Mullins led the scoring for the Tigers with 21, followed by Cash with 15, Bray with 14, Burton with 10 and Harper, Harris and Brown with 2 each.

Saturday night, the Tigers came within a hair of upsetting their Madison Model. The Tigers outscored them two quarters and were outscored two quarters but the final tale was told at the foul line where Madison sunk six more free throws than Brodhead did and the final score was Brodhead 69 and Madison Model 75. Individual scoring for the Tigers was led by Terry Burton, with 22, Mullins and Cash got 17 each, Harper and Harris 5 each, Smith 2 and Bray 1.

Tuesday night the Tigers took a close game from Shopville 72 to 66. The Tigers outscored Shopville 6 points the first half and just about played an even term with them thereafter.

Mullins was high point man for the Tigers with 22, Dennis Harris, playing a substitute role for injured Terry Burton, came forth with 15, Cash got 17, Bray 13 and Harper 10.

If you missed the movie "Ben Hur" on television Sunday night and haven't seen it in a theatre, you have really missed out on one of the few classics in movies. It was so enjoyable to sit down with the entire family to a movie that was both educational and entertaining. But, seeing the movie only pointed up the truth of the old cliché "they just can't make them like that anymore" even more strongly.

Received a cute note from Elizabeth Mullins of Brodhead this week and she said that she and the "wolly-worms" were wrong when they predicted little snow accumulation and a mild winter because the worms were "dressed." Mrs. Mullins said she would eat their words but not the worms. We feel about the same about the weather so far this winter, it could have been worse, I guess.

Went to Burgin Tuesday night to watch the Red Devils take on the Bulldogs for a return engagement. The Red Devils had handed Burgin one of their three losses earlier in the season in a game played at Mt. Vernon and the Bulldogs were sparty for them, Tuesday night. The game was one of the roughest I have ever seen in high school basketball and we feel that the officials were in a large part to blame. The game got out of control early and it was one foul after another. Although, I have never subscribed to the idea that every foul called against the Devils is intentional, I know that it is impossible for every call to be right. But, Tuesday night's game was in general poorly officiated and the officials. However, both fans and players need to realize that regardless of the degree of officiousness with which a game is being called there is no point in questioning every call by the referee. His word has to be law or the game would be pure bedlam from the start and there probably wouldn't be a finish. I guess what I am trying to say is that although the game Tuesday night could, in my opinion, have been called much better there is no point in getting as upset as they were (and I'll have to include myself in that category).

The price of the commodity subscription to the Signal and Lexington Herald this year is \$16.50. We realize this offer has jumped in price every year but it really isn't our fault. We have managed with only one subscription increase in the last eight or ten years and that has been a small accomplishment with the increases in postage we have absorbed. But, if you were to take the two subscriptions separately, they would cost you \$20.15. So, you do still save a little on the deal.

We are sorry to have to do it but effective April 1 of this year there will be a charge of \$1.00 for each birthday announcement with a photo. The charge has become necessary since we have become more payers out quite a bit in newspapers for the pictures

Robert Dooley was hired Monday night by the Mt. Vernon City Council as caretaker for the City Dump. Mr. Dooley, who owns land adjoining the dump property will be responsible for the appearance of the dump, keeping the roadway into the dump clear for collecting the fees, which were also authorized by the Council Monday night.

Under the fee set-up, effective February 22, the charges will be \$67 for each car unloading trash at the dump; \$1.00 for each pick-up; and \$3.00 for larger vehicles. The charges will be applied to anyone using the City Dump.

The Council also set up hours that the dump will be open. It will be open 10 a.m. to 6 p.m. Monday through Saturday. Also, no animals, large or junk cars can be dumped. No dumping on Sundays, after hours or without permission of caretaker will be allowed and violators will be prosecuted the Council said.

In other business, the Council authorized the filing of a suit against B & R Road Builders, Inc., to collect liquidating damages by Allen, Clontz and Cox.

Henderson Named Ford Chairman

Dr. William J. Henderson, Sr., has been appointed Rockcastle County's "Ford for Governor" Campaign Chairman along with Ben Craig, Mt. Vernon and Gravelly Brook and Arch Cash of Brodhead as co-chairmen.

The appointment was announced here today by Lt. Governor Ford's state campaign chairman, Sen. Walter De Huddleston of Elizabethtown.

"We believe Joe has the proven leadership ability which will aid him to lead an effective and winning campaign for Wendell Ford in

Rockcastle County," Huddleston said.

"I believe we need new leadership, not a return to the type of leadership we have experienced in the past three administrations," Henderson said.

"I think a man of Lt. Gov. Ford's caliber can and will give the state the guidance it so vitally needs," Henderson said.

Henderson and his wife, the former Ann Crawford Fair of Ruffin Valley, reside at Woods Street in Mt. Vernon. They have three children—Lida Frances, 15; Bill, 12; and Mary, 8.

REGISTRATION BOOKS ARE NOW OPEN

Registration books are now open and will be open until March 30. If you need to register, the more primary, you may do so now.

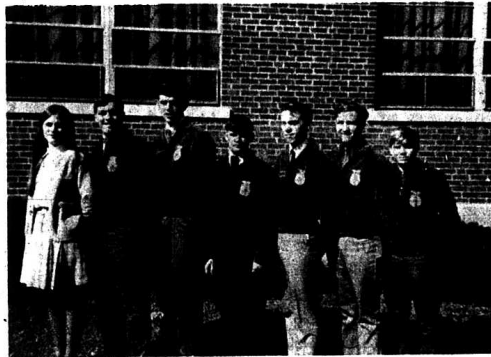

Also, the County Clerk's office will be receiving applications at 8 p.m., Monday through Thursday now through February 25. County Clerk Clark Clifford Bales has indicated on the measure to help those who have been unable to buy their license tags (due March 1) because of the bad weather.

CENTRAL BAPTIST TO HOLD SPECIAL SERVICES

Special services will be held at the Central Baptist Church, just south of Mt. Vernon, on February 18, 19 and 20 at 7:30 p.m. each evening.

Bro. Charles Ashcraft, pastor of the Grace Baptist Church in Cincinnati, Ohio, will be the guest speaker each evening.

Bro. Rufert Herrin, pastor of the church, and the congregation cordially invites the public to attend.

Officers for 1971 of the Brodhead FFA Chapter and their sweetheart are shown in the above photo. They are, from left: Janet Hunt, chapter sweetheart; Coy Taylor, president; James Collins, reporter and David Adams, sentinel.

Clyd Colson, District Soil Conservationist, was chosen recently by the Kentucky Livestock Improvement Association to receive their Meritorious Service Award. The award is presented annually to three men across the state who the association feels contributed most in the field of livestock improvement. In the above photo, Mr. Colson, third from left, is shown as he is presented with the certificate. Making the presentation are, from left: Dr. Charles Eastin, president of the Kentucky Livestock Improvement Association and Fred W. Isaak, Jr., secretary of the association. HARPER, VAN HOOSE, PALMER-BALL NAMED TO NEW POSTS
Kenneth F. Harper, former commissioner of Public Information, has been appointed secretary of state by Gov. Louie B. Nunn, replacing Mrs. Letia F. Begley who resigned and then was reappointed assistant secretary of state.
Harper, 40, of Lakeside Park, had served three terms as state representative from Kenton County before being appointed assistant commissioner of Child Welfare in 1958. He had held the Public Information post since January 1970.
The governor named Press Secretary Larry Van Hoose to succeed Harper as Public Information commissioner.
Van Hoose, 32, a native of Paintsville, will have a dual role, continuing also as press secretary.
In another top level change last week, Shirley W. Palmer-Ball, Louisville, was elevated to head the Parks Department following the resignation of James East.
Palmer-Ball had served as commissioner of Alcoholic Beverage Control since 1968, but had recently resigned to join the Parks Department as assistant commissioner.

STATE MOVES TO RETAIN MEAT INSPECTION PROGRAM
The state Department of Agriculture has indicated it will make an all-out effort in the next few months to retain control over meat inspection programs in Kentucky, after the federal government last week notified state officials that certain deficiencies must be corrected.
Robert Miller said federal officials have told him Kentucky must give stronger enforcement to its program if it is to avoid a federal take-over of inspection duties.

COLLEGE STUDENTS BEGIN STATE INTERNSHIP
Fifteen Kentucky college students began work recently for the state under the Frankfort Administrative Internship Program.

The group is the second to participate in a seven-month workstudy program sponsored by the state. The students receive from 15 to 18 hours of academic credit.
The students are assigned to administrative jobs in various departments, working under top-level of chiefs. They receive a stipend of \$285 a month.
The 15 currently enrolled are:
Kelly Lyman, Asbury College; Betty Caldwell, Berea College; Dale Torok, Cumberland College; Mittie Davis, Eastern Kentucky University; James Ridings, Georgetown College; Mrs. Betty Milburn, Morehead State University; Thomas Haney, Murray State University.
Pamela Reinke and Daniel Hills, Thomas More College; Margaret Willmoth, David Hilliard and Gary Settles, University of Kentucky; Ann Hausenflug, University of Louisville; Ava Crow and Robert Bush, Western Kentucky University.

TOM DUNCAN'S

Frankfort Watchline

The well oiled Republican machine has a squeak. Just as the gears were beginning to mesh according to plan for the campaign, Agriculture Commissioner Robert Miller hit the brakes—or accelerator, according to your view.
It may be hard to believe, but those closest to Gov. Louie Nunn and his choice for governor, Tom Emberton, didn't know in advance that Miller was announcing for state auditor.
Miller said, "I intend to be a member of the Emberton, Host, Schroering team." The ensuing silence on the part of Emberton, his running mate for lieutenant governor, James Host, and the Jefferson Commonwealth's Attorney Edwin Schroering, stated for attorney general's race, was partly because they were speechless.
But their close advisers noted Miller said "intend," Miller, who was nominated in 1967 on the Cook state that

wiped out the Nunn ticket in the GOP primary, had encountered plenty of resistance in position as he sought administration backing for a slot this time.
His decision to enter a race where the probable Democratic opponent is the strong vote-drawing incumbent, Miss Mary Louie Foust, also drew some moans.
An aide to the governor said half wittingly, "We didn't need to run against Mary Louie."
A generation that doesn't recall Albert Bandura's "Happy" Chandler's heyday just can't get the full flavor of Kentucky politics. Miller's move brings up a Chandler here.
While Chandler was in his first term as governor he ran against the powerful Senator Allen Barkley.
President Franklin Roosevelt made a train sweep through the state to put the prestige of his behind Barkley in the Democratic primary.
But the uncowed Chandler met the train at the state line—saying it was only the courteous thing for a governor to do—and stayed smilingly aboard for the whole trip.
Barkley won the race. But Chandler won that skirmish.

Legislators seem ready to face the necessity of splitting counties to make House and Senate districts meet one-man, one-vote standards—in theory.
But most naturally want their own county and district left as undisturbed as possible.
So fitting the pieces together for the House districts especially, will be tough going. As articulate Representative Walter Baker of Glasgow, put it in recognizing his district is 3,500 below the ideal population:
"I'd just like for you to give me 35-hundred people who might lean my way."
The Kentucky Legislature deserves plenty of criticism. But critics who seized on a national study placing Kentucky 31st among the states should note a couple of points.
The study did not evaluate the laws enacted by the various legislatures, only their procedures and operations.
And while the study was conducted carefully, some who were questioned simply didn't respond because they honestly felt unable to make comparative judgments. In fact, those who really know the Kentucky Legislature best aren't too familiar with others.
Then there's the question raised by California's legis-

lature being ranked best in the nation. The man heading the study, although able and honest, once was a top aide in the California legislature.
The meek may inherit the earth. But Kentucky politicians seldom wait to see.

complete his military obligation. Therefore, his classification of I-D remains unchanged until such time as he fulfills the remainder of his military obligation or is discharged from the Reserve of the Army.
The other young man's file disclosed that he had been discharged from both the National Guard and the Reserve of the Army because of Constancy of the Government. Instead of performing ACQUITA his registrant had been discharged from the National Guard to enlist in the Regular Army (RA).
Following eight months of active duty he was discharged from the RA for Convenience of the Government.
Any registrant who is currently discharged from active duty after satisfactorily completing a minimum of six months and less than twelve months shall be considered for an IV-A classification under current Selective Service regulations. Therefore, both registrants are promptly classified by their local boards.
We would like to further point out that it is quite understandable why this young man was confused because of the terminology "active duty" and "active duty for training."
with the consent of my parents I joined the Navy before age 18 and served for 2 1/2 years in the US Navy. I was given a hardship discharge. My question is, do I have to register for the draft, and if so will I be...

PRUNING

Deciduous plants can be pruned at this time provided you keep certain things in mind. If you prune flowering shrubs now, you remove flowers that would have bloomed in the spring. Shrubs that have been pruned in a long time may be pruned now by removing some of the older branches almost to the ground to thin the plant, reduce its weight, and encourage new growth.

Shrubs often make a growth in late fall causing long, undesirable branches to grow across the walk or slap against the house. These branches should be removed at this time.

February is one of the best months to prune trees. Many of our trees tend to bleed or give out sap when pruned during the growing season. By pruning now you can avoid this.

FERTILIZING THE LAWN

February is a good time to fertilize the lawn. By fertilizing in February, bluegrass which is cool season plants, will begin growing rapidly in late winter and early spring. A good thick stand of bluegrass will discourage crabgrass which usually germinates in late April or May. Most of the crabgrass will be shaded and crowded out by a thick sod of bluegrass. A soil test will be beneficial to you in determining fertilizer needs.

SEEDING OF ESTABLISHED LAWNS

With the exception of September, February is the best month to sow bluegrass on those bare spots in the lawn. Usually between 1/4 to 1/2 pound of seed should be sown to each 1,000 square feet of lawn area. Sow your seed as soon as possible and use the best seed you can get.

There is a new variety of bluegrass available to homeowners. It is called "Kentucky". The bluegrass was developed here in Kentucky and has good resistance to disease and drought.

PRUNING GRAPES

The later part of February is a good time to prune grape vines, but not when the wood is frozen. In pruning keep in mind that this year's grapes will be borne on the part of the vine that grew last year. Therefore, the vine should be pruned severely, leaving only the main stem of the plant along with part of last year's growth.

If you want more information on pruning grape vines check with your local Extension Office. Ask for leaflet 72-B "Grapes For Kentucky."

THE FAMILY LAWYER

Lightning on the Links

Claps of distant thunder failed to dampen Freddie's determination to finish his round of golf. But when the rain began to fall, he took hastily refuge in a weather shelter near the thirteenth tee. Moments later, a bolt of lightning struck the shelter and knocked Freddie flat. For the resulting injuries, he filed a damage suit against the management of the club.

"I realize the lightning itself was an act of God," he told the court. "But they invited trouble when they put that shelter where they did. They put it right out in the open, on high ground. No

wonder it was struck by lightning."

However, the court decided that Freddie had no case. Even if the shelter's location was less than ideal, said the court, the chance of such a freak accident was still too remote to pin the blame on the management.

HOME STRAWBERRY PATCH

What could be better food, than home grown strawberries. Late March is a good time to start your strawberry patch. If you are ordering, be sure to be ordered now specifying shipping date. One hundred plants should furnish plenty of berries for the average family. Tennessee Beauty and Pocomoth varieties are among the best of the strawberries. If you have grown strawberries before, you will know the trouble with disease the Sure Crop variety is recommended. In setting the plants the crown of each plant should be level at the surface of the soil and the dirt should be firmly pressed around each plant. Strawberries should be set 18 to 24 inches apart in rows 4 feet apart. Use only virus-free plants.

Hunting & Fishing

With travel and boat shows making the rounds and playing to packed houses, with sporting goods dealers presenting pre-season displays of rods, reels and other peripherals, and with the annual flood of fishing equipment brochures that make their way into mailboxes, the fisherman or outdoorsman cannot be judged too harshly if his fishing anticipation mounts to the run-and-grip stage.

There will be literally thousands of fishermen who this year will be in the market for new gear. The old rod and reel may be relegated to a corner by a veteran angler, the new fisherman eagerly awaits the purchase of his first tackle, and some who own adequate fishing gear will want to get into the swim of things by purchasing something new in the fishing world. This all makes for a good market, but often is not good for the fisherman.

Many fishermen buy equipment that is not suited to their needs. They do this through ignorance, pressure or bad advice from fishing buddies. Just about every fisherman who has cast a plug believes he is an authority on the equipment offered and may often bluster his way into the purchase of rods or reels that are not suited to his needs. He may use them, completely unaware that better suited equipment could make him a better fisherman.

The very best rod of a given make is not always suitable for every individual. Some variation may be available that is more effective, or an angler may be forced to change to another brand before he gets what is best for him.

This is not a fluff at any or all of the companies that every person required and demanded the very same equipment, eventually there would be but one company and one brand. It is said that there are persons for cars and there are cars for persons. The

same is true of fishing equipment. Some would be excellent for a given person, but not suitable for another.

So, what do we do? A prospective buyer should first determine which equipment best suits his particular type of fishing. This can be done by trying out various models made by different companies. If the buyer is not sure of his needs, he should ask the operator of the store or the salesman who deals in the merchandise and in most instances he will receive good advice. The seller usually is a man of integrity and he will be glad to guide a buyer and see that he receives the correct equipment.

If the dealer is unable to help, then a person who has had great experience in fishing will be able to give detailed information and guide the new buyer or the buyer who is uninformed about his needs.

Proper equipment can make a fishing season much more enjoyable. For a youngster it could determine whether he should make fishing his favorite avocation or whether he will be discouraged because of unsuitable or improper rods and reels.

So often a parent has been heard to say: "My youngster likes to fish. I want to get

him a cheap rod and reel to start with. An inexpensive one is all he needs."

How incorrect. If the inadequate rod or reel is purchased for the youngster, chances are that it will actually be all he'll need. Frustration with its limited action will cause him to abandon fishing for all time.

On the other hand, if good equipment is available it undoubtedly will create a greater desire on his part to continue fishing.

STAFF'S BONDED DEBT TOTALS \$1.2 BILLION
A recently published report shows the state's bonded

indebtedness totaled \$1,221,261,500 at the end of the last fiscal year. The figure reflects nearly a \$7 million decrease since the end of fiscal 1969.

The report, prepared by Finance Commissioner Albert Christen, indicated that slightly more than six of every ten bond dollars owed, or \$948.7 million, was earmarked for either the commonwealth's highways and parkways or its institutions of higher learning.

General-obligation and revenue bonds issued by the Property and Buildings Commission accounted for most of the remaining \$472 million in bonded debt.

The report included a schedule of principal and interest payments required on the debt during the next four fiscal years.

"YOU AND THE DRAFT" (Cont. From 2)

A. Since you enlisted in the Navy before you were 18, you are required to register for Selective Service following discharge from active duty. If your file is documented to show more than six months of active duty and you were discharged for the Convenience of the Government, you may be considered for Class IV-A.

I will be vacationing in another city when I become 18 years of age. However, I want to be registered with the draft board in my hometown. What do I do?

A. You may go to any local board when you have reached your 18th birthday and present yourself for registration. At the time of registering be sure that you give your hometown as your place of residence. This assures that your registration card will be transferred to the local board having jurisdiction over the address given at the time of registration and you will remain under that local board at all times.

Mr. and Mrs. Johnny Baird Carson

DeBord - Carson

Mr. and Mrs. W.C. DeBord of Brodhead announce the marriage of their daughter, Donna Gail, to Johnny Baird Carson, son of Mrs. Mary Elizabeth Carson and the late Bill Carson.

They were married at the Brodhead Baptist Church on February 11 with Rev. John Zupancic officiating at the ceremony. Mrs. Linda Waltz presented a selection of musical organ music and Debbie Bradley presided over the guest book.

The bride, given in marriage by her father, wore a floor-length satin gown with lace sleeves and neckline and a shoulder-length veil.

Her satin train was trimmed with crocheted flowers around the edge and a row of satin buttons lined the center. She carried a bouquet of white carnations with two lavender.

Miss Brenda DeBord, sister of the bride, acted as maid of honor. She wore a light pink satin floor-length gown and carried pink roses.

Miss Mary Beth Baker, daughter of Mr. and Mrs. Charles Baker of Mt. Vernon, served as flower girl. She wore a light pink satin floor-length gown and carried pink roses.

Lined a basket of rose petals. Leon Chandler, uncle of the groom, served as best man. The usher was Merrill Bishop.

A reception was held after the wedding in the church basement. Cash and check were served by Elaine Price, Debbie Bishop, Sandy Robbins, and Debbie Sileo.

The bride and groom left after the reception for a short honeymoon.

Mrs. Carson is a senior at Brodhead High School and plans to join her husband in California this summer and attend Somerset Community College this fall.

The groom is a Machinist Mate 3rd Class in the United States Navy. He is stationed in San Francisco, California and is serving in the Pacific Fleet.

February is American Heart Month! Heart Fund Dollars Develop New Life Saving Method - 'ECPR'

Following heart attack, one's chances of survival are infinitely greater in a hospital than in your home, even though the hospital may not be presently able to render heart monitoring service.

Almost all hospitals have equipment to electrically control a faulty heart rhythm. Further, they are equipped to administer medications designed to correct complications, as well as to utilize a new technique known as external cardiopulmonary resuscitation - ECPR.

Just a few years ago an imaginative Baltimore doctor developed a procedure of restoring normal rhythm to a heart in ventricular fibrillation, a serious arrhythmia that is usually fatal.

Later, he became the co-developer of external cardiac compression, a procedure that has already restored to normal function thousands of stopped hearts.

This maker of medical history is Dr. William R. Kouwenhoven. It is all the more remarkable that he is not a physician, but rather a doctor of engineering. His medical collaborator in both projects was Dr. James Callaghan of Miami. Together, they have opened a doorway of hope for many heart attack victims, who, in other circumstances, might perish.

External cardiopulmonary resuscitation is used in conjunction with the more familiar

mouth-to-mouth breathing, is a procedure to be used following "cardiac arrest" - a term describing sudden cessation of circulatory function. The idea is to keep oxygenated blood flowing to the brain until appropriate medical treatment can be applied to restore normal heart action. Many times the heart restarts spontaneously.

ECPR is done by depressing and then releasing the sternum, or breast bone, in such a manner as to compress the heart against the vertebral column, thus permitting the heart to relax. As a result, an artificial but adequate circulation is maintained. The procedure is most effective when used in conjunction with mouth-to-mouth breathing. Many times the heart starts spontaneously during this procedure.

External cardiopulmonary resuscitation is for application only by a trained person, and, in many instances, can save the victim of cardiac arrest, especially if resuscitation in any form is started promptly, never later than four minutes after the arrest occurs.

To meet the training need, Heart Associations throughout the country are conducting educational programs which enable physicians and nurses, police, firemen, utility workers and ambulance attendants to apply emergency measures when signs of sudden death are evident. Many thousands have been already trained.
