On the beaches, on the trails, on the water, you can bask in good times by taking part in the many activities surrounding most Kentucky State Park campgrounds. If you don't have a boat you can rent one. If boating is not your bag, ent a horse for a trail ride. Sit in the sun, sleep in the shade, or whatever...today's camper can find pleasure for his entire family in Kentucky.

TAXPAYERS ASK IRS

Q) I plan to make a \$20 p litical contribution this yes How much of this can I take a credit against my tax?

A) You can claim as a credit against your tax one-half of your total political contributions, but no more than \$125 if you are single or \$25 if you are married filing jointly. In your case, you could claim a \$10 tax credit.

Take stock in America.

Now Bonds mature

in less than six years.

YOU & THE DRAFT

A "draft shocker" may be a white envelope containing another of the least fication from LY to 45".

A straight of the least fication from LY to 45".

Clayton, along with more than 40,000 other young Kentuckians, is now being notified of a change in his "draft" classification.

It is easy to understand why Clayton might be concerned with being reclassified 4-F, especially if there was no present of the concerned with being reclassified 4-F, especially if there was not present with the separation of the imminence of his change in "draft" board of the imminence of his change in "draft" status.

In the past, "draft" registrants not found qualified for military service for either a physical, mental or moral reason were awarded a classification of 1-Y intestifications of the original service in time of another with the service of the content of the conten

young man is acceptable for military service or is not, based upon an examination made by an arms diorese s-amining and entrance station. If found acceptable, be will be classified 1-k₂ if not, be will be considered for 4-F.

To further illustrate the change, Clayton was born June 6, 1950, and life lottery number 5, 1950, and life lottery number in the cild il off? having carried an athletic scholarship as a member of the 1967 All-State high school basketball team,

Clayton net the continued determent, nature the second manufacture that the second manufacture that the second manufacture the second manufacture that the graduated from college, in May, 1971, be graduated from college, and has no longer eligible for a Student Deferment, Had he not hopen, in a deferried status, his lifest year of prime vulnerability would have been 1970, Clayton met the continued

In July, 1971, he was pro-cessed for physical examina-tion, in the examining process, it was found that his height was 6'99". Under the standards of acceptance, the maximum height was 80 inches, As he was one inch over the maxi-mum height, he was rejected,

Upon notice of not being found acceptable for military service, the "draft" board classified Clayton 1-Y.

classified Clayton I-V.

The insfructions from the Acting National Director of the Communication of the Communicat

Under these circumstances, Clayton went from 1-Y to 4-F.

For further clarification, some young men born in 1981, who were in Class 1-Y, with a low lottery number, and under new regulations, were found acceptable and reclassified in 1-A. These men got a break as the System was not required to deliver registrants for induction during the first quarter of 1972.

On April 1, 1972, such persons were eligible to be moved into a reduced priority selection group and consequently, became less vulnerable for the "draft."

On the other hand, some young men born in 1952, with low lottery numbers, classified 1-Y, returned to the examining station and were found acceptable. These were not so fortunate. These were not so fortunate. The reason for this is that the prime sage group and are vulnerable for induction during 1972, Should their lottery number not be reached during the current calendar year and they are still 1-A on January 1, 1973, they too will become eligible to be moved into a reduced selection group.
