MORE THAN A HALF CENTURY OF SERVICE

"A Responsibility" in recent years, the cost of many things have increased. During a time of illness, medical and other expenses can become a great burden. We, the Funeral Directors, have a responsibility to our community; to provide a funeral service for every person at a time of need regardless of their financial status. The Funeral Service profession is established on dedication and the highest degree of service, not finance. We consider it an honor and privilege to be requested at a time of need and to be given the opportunity to serve those left behind. Dedication and personal service is our concern.

Fresh Apples Top In October Foods

Fresh apples, are expected to be priced attractively for consumers. Other pleasantries on the October list are canned applesauce and apple juice, broiler-fryers, turkeys, eggs, rice, dry beans and wheat products.

Apples in October will be at the peak of flavor for baking or making pies and for snacking. Applesauce is delicious, whether served hot or cold, and most folks enjoy the refreshing taste of apple juice.

Broiler-fryers and turkeys are among the most reasonably priced of the high protein foods. And after used for the main meal, both make popular "left-overs." Eggs are another of the high protein, low cost foods, which can be eaten, hot or cold, at any meal.

Rice is also a nutritious food which can be used in many ways. It makes a tasty side dish, and it blends well

with a variety of other foods.

Rice Things to Remember

Do you know which length rice grains will give you the type of dish you want?

If you like rice light and fluffy, with the grains separate and distinct, you want long-grain rice. If you like rice moist, with the grains, clinging together, you want short or medium-grain rice.

But even if you already know the long and short of rice, you've a good time to brush up on your cooking, and in plentiful supply now and a wise choice for budget-minded homemakers.

Rice is easy to cook—you can boil, steam, oven-cook or fry it. But keep in mind that most kinds and brands of rice swell during cooking. One cup of uncooked white, parboiled, or brown rice yields 3 cups or more of cooked rice; 1 cup of precooked rice yields from 1 cup to slightly more than 2 cups.

To keep as many nutrients as possible in cooked rice, follow these rules: Don't wash rice before cooking. Packaged rice is clean. Use only the amount of water that the rice will absorb during cooking. And don't rinse rice after cooking.

Leftover rice can be used in most combination dishes that call for cooked rice. To reheat cooked rice, steam it in a colander or sieve over boiling water. Or add 2 tablespoons of water for each cup of cooked rice, and reheat in a covered pan over low heat or in the oven. While rice is heating, occasionally stir it gently with a fork.

Apple-Cheese Salsad

Celery, finely chopped
1 package (3 ounces)
Water, boiling, 1 cup
1 cup apple water
Apples, unpeeled, finely diced 1 cup (medium size)
Cream Cheese, 1 package (3 ounces) or Cottage Cheese 1 cup (1/2 pint)

Measure 2/3 cup of gelatin mixture. (Hold rest of gelatin mixture at room temperature.) Pour into heat resistant mold and chill until thickened but not set. Stir 1 cup in chopped apples. Refrigerate until set but not firm.

3. Prepare Second Layer

Add the 1-3 oz. package cream cheese or 1 cup cottage cheese to the remaining gelatin mixture. Beat with a rotary beater or electric mixer until well mixed.

Stir in one cup halved seedless grapes and nuts. Pour over "set" first layer.

4. Chill - Refrigerate until firm.

5. Unmold - Loosen edges of gelatin from mold by carefully running a table knife around top inside and outside "ring" of gelatin on lettuce leaves.

- 1/2 teaspoon lemon juice
- FILLING:
- 1/2 slices bacon, cooked and crumbled
- 1/2 cup (1 oz.) shredded Swiss cheese
- 1/2 tablespoons packaged bread crumbs
- 1 egg
- 2 cups light cream or half and half
- 1/2 teaspoon dry mustard
- 1/2 teaspoon salt
- 1/2 teaspoon cayenne pepper
- 1/2 tablespoons butter, cut into small pieces
- 1/2 tablespoons chopped parsley OR scallions

To prepare Shell: In a bowl mix together flour and salt. Cut in butter and lard until mixture resembles coarse meal. Gradually add water and lemon juice mixing lightly with a fork. Roll out on lightly floured surface 3/4-inch thick and 13 inches in diameter; place in pie pan. Trim off excess dough around edge; decorate edge with lines of a fork. Cut waxed paper into a 12-inch square; butter one side and place buttered side down on bottom of shell. Pour 2 cups uncooked rice or beans onto waxed paper (this keeps pastry flat while baking). Bake 8-9 minutes. Remove waxed paper and rice. Return shell to oven and bake 10 minutes. To prepare Filling: Sprinkle 2 tablespoons cheese and bread crumbs over bottom of pastry shell. Top with 1/2 the cooked bacon. In mixing bowl beat eggs, cream, mustard, salt and pepper until well blended. Stir in remaining cheese. Pull out oven rack; place pan on rack. Fill with egg mixture. Sprinkle remaining bacon on top; dot with butter. Bake 30-35 minutes or until a knife inserted near center comes out clean. Sprinkle over parsley OR scallions. Let stand 10 minutes before serving.

*1 tall can (14 1/2 oz.) evaporated milk plus 1/2 cup water may be beaten with eggs and seasonings in place of the 2 cups light cream or half and half.

VOTE FOR KENNETH ADAMS SCHOOL BOARD MEMBER

I would like to take this means to appeal to the voters of East Mt. Vernon, Conway, and Roundstone Precincts to keep me on the board for another 4 years.

I want to stay on the board another term so that I can help carry out the educational programs that are planned for Rockcastle County.

If you will take time to consider the improvements that have been made or started during the past four years you will notice that the present board and school leaders have not dragged their feet. To cite a few examples:

1. We have put a fine Vocational School into operation.
2. We have built one of the finest high schools in the state. This was evidenced by Dr. Ginger on his recent visit to Rockcastle County.
3. We have added a total of 17 new 66 passenger school buses to the fleet - making it safer for the children.
4. We have expanded services to children through Title I, including art, music, reading, counseling and special education.
5. We have closed all the one-room schools giving every child an equal chance for an education.

**VOTE FOR A MAN WHO GETS THINGS DONE.
VOTE FOR A MAN WHO PUTS CHILDREN FIRST.
VOTE FOR A MAN WHO LIVES UP TO HIS PROMISES.
VOTE FOR KENNETH ADAMS**

A vote for Kenneth Adams is a vote for a progressive and harmonious school system.

Nominations Now Open For ASC Elections

Rockcastle County farmers are encouraged to nominate candidates for Agricultural Stabilization and Conservation (ASC) Community Committees, reports Harold Ballinger, Rockcastle County ASC Executive Director. Petitions, to be signed by a minimum of three qualified voters, must be filed by October 27, 1972 at the Rockcastle County ASCS Office, Courthouse, Mt. Vernon, Ky.

"We are hopeful a slate of at least six candidates will be nominated by farmer petitions, including representatives of the minority groups in Rockcastle County," said Mr. Ballinger. ASCS programs are the discriminatory ones which are favored without regard to race, color, creed, sex or national origin.

"Any eligible farmer may sign as a petitioner nominating petition as they wish. No special petition form is required, but the petition must include a statement that the nominee is willing

to serve if elected. Most persons eligible to participate in ASCS programs are eligible to serve on ASC committees. This includes producers, shareholders, tenants, and minors who supervise an entire farm operation.

Nominees must have farming interests within the ASC community, be qualified ASC voters and NOT have reached their 70th birthday by the date they take office. Further details on nominations for ASC community committees may be obtained from the County ASCS Office, Courthouse Mt. Vernon, Ky. or by calling 256-2525.

ASC community committees elected by mail ballots (December 1, 1972) will assist the County ASC Committee with ASCS programs, conduct farm community meetings, and serve as delegates to the Rockcastle County Convention to elect the county ASC committee.

Rockets Lose To Burgin; Play Estill Co. Oct. 20

The Rockcastle Rockets journeyed to Burgin last Friday night and were defeated 18-14 in a game that was close all the way.

Burgin scored first early in the first quarter on a miscalculation but didn't convert the extra point. The Rockets then put on a long drive which resulted in a touchdown and the extra point attempt was successful for a 8-6 lead for the Rockets.

The Rockets last touchdown was set up by a long pass from quarterback Troy McClure to Kenny Burton who went to in-

side Burgin's five yard line. The most remarkable thing about Burton's catch and McClure's pass was the fact that at the time fog had rolled in on the field so thickly that the spectators were unable to see time picking up the players.

The Rockets "out-offensed" the Bulldogs but mistakes hurt them. Two interceptions on or personal foul calls in the fourth quarter cost the Rockets one of the touchdowns and a bad call on the Rockets side on a fourth and three play gave the Bulldogs good field position for the other TD.

FORESTERS URGE CARE AS FALL FIRE SEASON BEGINS

Most of us probably have a tendency to relax a bit during the last quarter of the year. We've worked hard all year, the holiday season is approaching, and, besides, we're going to buckle down again comes the new year.

But, for the state Division of Forestry, the last quarter of the year is no time for relaxing. The state's fall fire season falls on October 15, 4:30 p.m. and 12 midnight, because of the dry conditions that usually exist during that period.

During the fall period, and the corresponding spring season (March 1-May 15), state laws prohibit persons from setting fire to "any flammable material capable of spreading fire, located in or within 150 feet of any woodland or brushland, except between the hours of 4:30 p.m. and 12 midnight, or when the ground is covered with snow."

Forestry Fire Control Director Myran Marcum urges all Kentuckians to be especially fire conscious during the fall months.

"There are a great number of fires in the spring than in the fall, but the fires that do get started this time of year are more apt to spread and the strong winds that are prevalent at this time of year help spread the flames. Also, the leaves are flurry-not compact like they'll be after the first snowfall-and, therefore, they'll burn fast."

Acting Forestry Director Harry Nadler said the division is hoping for its best forest fire record ever this year.

"This spring, we had a lot of damp weather which helped keep the loss of Kentucky's timberland and wildlife due to forest fires to a minimum," Nadler said. "If the number of fires during the fall season is comparably low, 1972 will be a record year."

Farm Bureau Holds Annual Meeting Oct. 13

The Rockcastle County Farm Bureau members and directors met October 13 at the new Rockcastle County High School, for their annual meeting and banquet.

The invocation was given by Bobby Proctor and the welcome by Wallace Proctor, president.

Mrs. Rinda Brown reported on what Farm Bureau women had done this year and introduced the king and queen for 1972.

The minutes and financial reports were read by Bradley Saylor. The president reported on progress of Farm Bureau such as how much was paid on their debt this year.

A report on membership was made by Henry Brown, on insurance by Wm. K. Bullen and report on tire sales by Wilsa Mae.

JVS WIN PEWEES LOSE TO BURGIN

The Rockcastle Pewee's lost to Burgin last Friday afternoon by a score of 8-6. Burgin scored first late in the first half and their extra point try was unsuccessful. However, Rockcastle had more than many on the field and they got to try their extra point and scored the two extra points.

The Pewee's drew blood in the second half on a long run by David Woodall on a double reverse and a score-making block by David Penso. However, their try for the extra point was unsuccessful and that ended the scoring for both teams.

The Junior Varsity had more luck with Burgin however as they scored early in the game and wound up with a 28-0 win. The JV's now have a 2 and 1 record on the season.

JOHN NICHOLS'

Frankfort Watchline

At first glance, section 44 of the state construction would seem to bar Natural Resources Commissioner Tom Harris from rising to the leadership of the new Environmental Protection Agency, which soon will be in business.

That section forbids someone who, as a legislator, has anything to do with creating a position, from getting the job himself during the term to which he was elected and for a year thereafter.

Well, that, we're told, clears the way for Harris. Also there's the method of simply doing away with the title of the department, retaining most of its duties and others and— presto! — you have a new state agency to deal with the environment and the man to head it up.

Practically speaking, there is a good case to be made for installing the Natural Resources commissioner as head of the EPA. But—who would have thought back in January, when the Wild Rivers legislation was still on the drawing board, that someone would have the foresight to skirt an obvious constitutional stumbling block?

The Same for Everyone.— At a Public Service Commission hearing last week on his firm's request for a rate increase, Louisville Gas & Electric President Hudson Miller told Jefferson County Atty, Bruce

Miller the company had few uncollected accounts because it could cut off the power of any delinquents. "Yes, I know," Miller responded. "You cut off mine once when I was out of town. That may be one reason why we're here (in opposition to the increase)."

Miller's reply: "We try not to be discriminatory."

Grab Those Papers!—Tons of good will would have shown on the governor's office the other day had thousands of state workers gotten their hands on the 15,000 original copies of "The State Employee," October the rupture would have been temporary.

The story was referring to pension benefits that would accrue to state workers under some changes in the State Retirement System.

But few of the intended readers will ever know. Teams were dispatched with dispatch to retrieve bundles of the copies. But there was no way to get back those early editions in the mail. The postman won't allow such recalls.

See What I Mean?—Weeks ago Gov. Ford's press secretary, Tommy Preston, told a gathering of the Western Kentucky Press Association of his peevish at the kind of reporting being done by some members of the Capital Press Corps.

As examples, he cited statistics—which he said were inaccurate—about the cost of operating the state's Merkin project, aircraft used by the governor and other officials.

His conclusion was that some (our emphasis) reporters on the Frankfort scene are incompetent, as is a segment of journalists across the state.

Letter To The Editor

Dear Editor: I'm always reading the information in the Signal about Social Security and how easy it is to get if you are disabled. It's not as simple as they would have you to think. My father-in-law had his leg broken in a logging accident. While his leg was broken, he tried again and again to get his benefits. He has paid in Social Security for 36 years, but he was turned down, so with his cast still on and him on crutches, he had to go back to the log woods and work. He could not get what was due him, it seems that those people think that it's coming out of their pockets instead of the one that have paid it in. Anyway, his leg didn't heal properly and on his way to work one morning he was run off the road by a log truck and he was wrecked and broke his leg again and he had to go back and work in the same condition as before. Now I'm against social security, it's a good thing -- if you can get it.

It's too bad that social security benefits aren't handed out as easy as welfare payments. A working man doesn't have a chance.

Sincerely, Mrs. Virginia Nicley Livingston, Ky.

Preston now believes one must have been in his audience. The story in the local paper screamed: "Preston Says Capitol Press Corps Incompetent."

"Superman" Huddleston—The Associated Press is neutral in political races, but in its office on Press Row there's a bit of offside political humor.

A man dressed in a superman costume, looking just like Dee Huddleston, the Democratic nominee for Senate, is displayed in a photograph with a Huddleston sticker as the caption.

The picture fooled even Gov. Ford, who put on his glasses and tried to find out if it was indeed Dee. Actually, it's a photo of an Illinois' tailor who dresses up as superman to help children, but the resemblance is uncanny.

Huddleston's comment when he saw it: "I don't have that big a gut."

ramblings...

by: perlina m. andertin

Well, I got a little response to my query last week about how some of the surrounding areas got their name. Mrs. Clint Dooly called to tell me that, according to her husband, Three Links (Three-Linker?) was named by Bert Phillips for a Masonic Lodge there about 1914 or 1915. And, the Masonic Lodge got its name from the three links rings which are the Masonic symbol.

So, that takes care of one. But come on you residents of Johnson City and Eds Springs (body?), Lamaro, Spino, Brindie Ridge, Ottawa, Roundstone, Wildie, etc. and tell me about them.

Of course, we did get an answer to Nigger Creek but it was one that I was expecting somebody to come up with so without telling you my source I'll tell you that "according to reports" once upon a time, a negro fell in the creek and was drowned. Sounds logical but maybe a little too logical.

How about those Reds? They win the play-off series in a beautiful game these come back in the first two games of the World Series to bat like zombies. Shades of 1970, I hope they can get it all together but I find I have mixed emotions since this is the first time Oakland has ever been in the World Series and were the dejected underdogs I find myself kind of not really caring if they do win, especially if the Reds can't get it together any better than they have been doing.

Well, at this time of year in the past school children have been scurrying around frantically trying to raise money for their class contestants in the Halloween Carnival at the three consolidated schools. But, with the advent of the new county high schools the grade schools decided not to have a carnival this year and evidently the high school isn't either or we would have heard from them. Oh well, another tradition goes by the board but I don't really care because as the mother of one of those contestants last year I find the present set-up much more relaxing.

Your Money's Worth

Social Security's bite deepens

Sylvia Porter, a New York syndicated columnist, recently wrote an article containing some interesting figures about our Social Security program.

And if you're in your early 20s, the tax you'll be paying on your earnings from self-employment will be close to \$1,000 a year by the time you retire.

DURING this 1972 political campaign, there has been more rhetoric than usual about redistribution of income and wealth.

Q. Whose income is being redistributed in ever mounting amounts by the Social Security system?

A. Your income is--your income as an individual employee, employer, self-employed.

Q. To whom?

A. On a broadening scale, it is being redistributed from the worker to non-worker, from the young to the elderly, from a current generation to a succeeding generation.

It isn't so obvious and it certainly wasn't so important when all the totals--for contributions and benefits--were so much lower than they are and are slated to be.

But Social Security is at last taking on the shape of a real public-pension program. It is becoming of such vital significance to so many millions of our elderly and its economic impact as well as its social influence have become so tremendous, that it is time we realized just what we are creating.

Consider the benefits side of the picture--dramatized even more by the 20 per cent pension boosts going to 28 million people this week.

If you are 65, have paid at the top tax level through your working years and retire in 1972, your wife and you will get a monthly pension of \$389. Now say you live a normal 14 years longer, your wife outlives you by a normal three years and the cost of living increases at an annual rate of 2 3/4 per cent.

In these remaining years, you'll collect \$77,717.

If you are 35, pay at the top tax level and retire at 65, your wife and you will get a monthly pension of \$1,666.80. Assuming a normal life expectancy and a moderately rising cost of living, you'll collect \$280,999 in benefits.

If you are 22, pay at the top tax level during your working years, your total Social Security contributions will come to \$89,299.20--and your employer will match each dollar.

But when you retire at 65, and your wife will receive a monthly pension of \$3,149.60--that's a month! Your total benefits will come to \$739,136.40.

The benefits side is far more spectacular than the tax side--but the nagging questions remain.

Dare we impose so regressive a tax at these levels? Tax the \$4,000-a-year employee \$280 in 1973 when the maximum from the \$400,000 executive will be only \$594.

Are we not inviting a dangerous widening of the generation gap between those paying and those receiving?

Since we are clearly moving toward a national pension system, where do we want to place private pensions?

If this is, really the way we want to go, is the system we have the best way to get there?
