essels. Skilled hands will demonstrate carving, basketry, candle-dipping, carding and spinning, broom-tieing and vegetable dyeing.

All are Exhibiting members of the Guild, rigidly juried for excellence.

A Member's Exhibit highlights special pieces, and a Guild Booth displays the work of members unable to attend.

Entertainment is of Kentucky-Bluegrass and ballads, groups and individual. Folklore, puppets, corn grinding and shingle riving add to the color and heritage.

Indiana Fort Theater, summer home of the outdoor drama Wilderness Road, offers ample free parking, picnic areas, hiking, restrooms, food concessions, and a dramatic outdoor setting. Exhibitors use the Guild's striped canopies, which add both color and protection.

Fair admission, good for all day and all events, is \$2.00 for adults and 50 cents for children 6 to 11. Group rates are available.

Hours are 12 noon to 9 PM Thursday (May 1st); 10 AM to 9 PM Friday and Saturday (May 2nd and 3rd). The Fair is open regardless of weather conditions.

ization of over 500 Kentucky. Founded in 1961, the Guild has worked to preserve, develop, and market Kentucky's arts and crafts through a variety of projects and member services.

Headquarters are in Berea, at 213 Chestnut Street, where a small office Gallery is also maintained. The member service program includes a newsletter, insurance, wholesale marketing, workshops and seminars, and individual aid to members. The Guild Gallery, operated for the sale of member's work, is at 811 Euclid Avenue, Lexington, Kentucky.

Administration is by an elected Board of Trustees and full time Executive Director Garry Barker, formerly Assistant Director of the 9 state Southern Highland Handicraft Guild. Membership is open to all Kentuckians. Individual dues are \$7.50 per year.

For further information write the Kentucky Guild of Artists and Craftsmen, Box 291, Berea, Kentucky 40403.

CHEERLEADERS ELECTED

He was enroute home following a week's visit with his twin brother Sigwart and wife, Betty in Georgia.

Mr. and Mrs. Ronnie Reppert of Conway visited Mr. and Mrs. Mike Peters and son Michael and Mr. and Mrs. Cletus Peters and Beverly Monday night.

Mr. and Mrs. Hubert Chastean enjoyed a very pleasant evening at the home of Mr. and Mrs. Willard Todd Monday.

Thursday night guest of Mrs. Mona Trean were Mr. and Mrs. Clarence Trean and Curtis Trean of West Carrollton, Ohio. Mrs. Alvie Reynolds and Mrs. Bill Stephens were in Somerset Tuesday shopping.

Mr. and Mrs. Hubert Chastean were honored with a surprise wedding anniversary supper given by their children Friday April 25th at the Chastean home. Attending were Mr. and Mrs. Wayne Chastean, David, Darryl, and Darrin; Mrs. Junior Chastean, Rodney and Robin; Mrs. Janet Adams, Connie and Ricky; and Mr. and Mrs. James Seals and Kim all of Berea. Mrs. Doretha Church, Tammy, and Tony and a dear wonderful friend, Mrs. Della Bullens of Safford, Ga. Their son Junior was on a fishing trip in Tennessee. A beautiful meal was served and we enjoyed a real good time together. I thank God for my family and the many blessings He has given. Christed down through the years. Our blessed Lord has been so good to us.

We wish Carl Durham of

Boone a happy birthday Thursday May 1st, and hope God grants him many more. He is very lonely since his father died and needs our support and prayers.

Please remember church and Sunday School. Continue to pray and read your Bible. As the world grows darker and deeper in sin, let us all strive to let our light shine brighter. God still lives and wants to bless us if we would only let Him. May He help us all to love Him and each other more in my prayer.

"County Agent's Notes"

(Cont. From 10)

discovered in Ohio in 1930. It is now in 38 states and is the most destructive shade tree disease in America. The principle carrier of the Dutch elm disease fungus is the small European elm bark beetle. There is no known cure once an elm becomes infected with the disease. The best way to control the disease is to control the beetles. The U.S. Department of Agriculture recommends you destroy all elms showing symptoms of the disease between April and September, within 30 days. Destroy all elm wood that may serve as breeding sites for the elm bark beetle. This includes entire elm trees or larger branches that are weakened, recently injured, or killed by drought, storms or disease. And clean up the wild elms as well as the ornamental ones. The beetles like both.

Beetles may also lay eggs and produce young in piles of elm logs and in stumps. Dispose of infested elm wood by burning it, removing and burning all bark or burying it in a sanitary land fill. Pruning also helps because it removes wood that may be a breeding site for beetles and eliminates branches that may break easily and cause dangerous wounds. But do not prune elm trees during the period beetles are emerging from the wood as adults. They

start emerging as early as April, and continue through October. Scientists are working on developing disease resistant elms. For city street planting, the U.S. Department of Agriculture recommends carefully selecting a mixture of species, rather than just

planting the American elm...and alternating these from block to block. This cuts down losses due to insects and disease. An insect has to get his mother's permission before he can cross the street and walk a whole block in search of his favorite food.

We challenge you to compare Dairyland's cycle rates with any in the state!

GENERAL DELIVERY NOT TO BE USED BY REGULAR MAIL CUSTOMERS

Persons who have been in the habit of picking up their mail in the general delivery section at the post office will no longer be able to do this after May 10, according to Postmaster James O. Smith.

Postmaster Smith said that, according to postal regulations, general delivery is intended exclusively for transit persons and is not to be used by them longer than 30 days. He went on to say that Rural Route 4 was set up principally to accommodate patrons living in and near the city limits of Mt. Vernon and persons residing along this route or Route 12, or 3 are expected to erect boxes along the line of travel of the carriers or to rent a box at the post office.

If you do not expect a box or rent a post office box, Postmaster Smith said that after May 10th, your mail will be returned to sender marked, "No Receipts."

If you live on one of the routes, you should find out from the carrier your correct box number and use it in all correspondence.

Postmaster Smith also said that all four routes will be extended effective May 10th in the following areas: housing project behind Dixie Boone Hotel; Carter Drive; Terry Street; Hillview Subdivision; new street by library and Route 2 next to Livingston. Anyone living in these areas should erect a box so they can be served by the rural carrier.

Also, may be beautification month and postal patrons on the routes are asked to clean up around their mail boxes so that carriers may have easier access to the boxes. Postmaster Smith said that this type of clean-up involved cutting weeds, brush and bushes around boxes and filling up ditches near the boxes.

Father Tom Lubber Killed In Accident

Father Tom Lubber, 28, assistant pastor of Our Lady of Mt. Vernon Catholic Church in Mt. Vernon died instantly Tuesday morning when his motorcycle he was riding struck a truck head-on on Hwy. 421 between McKee and Berea.

Father Lubber, a native of Covington, had been in this area two years. Besides his church

work, he was also involved in Neuman Club work at Berea College.

The body will be at St. Clare's Church in Berea from 8 to 9 p.m. Wednesday evening and Mass will be held at the church Thursday morning at 10:30 a.m.

Burial will be in the Maryland Seminary at Erlanger.

Boone Trail Walkers To Be Here May 6th

Messages enroute from Ivey Moore, leader of the Boone Trail Walkers, indicate that things are going smoothly and they expect to be in Mt. Vernon around 2 p.m. on the afternoon of Tuesday, May 6.

A delegation, which anyone is welcome to join, is scheduled to meet the walkers at Ft. Sequoyah Tuesday morning at 9 a.m. by 2 p.m., the group plans on arriving at the outskirts of Mt. Vernon, stopping in the neighborhood of Superior Food Market on U.S. 25 south of Mt. Vernon to re-group and form up for their march through town.

It is hoped that groups of children from any Rockcastle School will join them there and parade through town, under escort of the State Police. The Rockcastle High School Band has been invited to lead the parade and it is hoped they will be able to do so. Since it is hard to estimate the exact hour of the arrival of the walkers at the city limits, arrangements have been made to notify the bank in time to leave school just in time to meet them, thus doing away with the possibility of a long wait at the appointed place.

Mr. Moore has also asked that four boys in Boy Scouts uniforms be present to carry their banners through town. Any former scout who has a uniform and would like to join the parade, please get in touch with Ed Hunt or John Lair to make arrangements. Remember anyone who wishes to march with the trail walkers is welcome to do so. If you have a muzzle-loading rifle, coonskin cap or other pioneer equipment, you will be doubly welcome.

Mr. Ivey and his official group will go through Mt. Vernon and encamp in Renfro Valley on Tuesday night, preparatory to their start for Madison County on Wednesday morning. We will carry them as far as the county line, at Boone Gap, where they will be met by a sizeable delegation from Berea which will have charge of them in their walk into Boonesborough, where their journey will terminate with suitable observations.

Their trip through Rockcastle County is being sponsored by the Rockcastle Lions Club in conjunction with the county's Bi-Centennial Committee.

On Tuesday night at 7:30 p.m., they will be guest of the Lions at a dinner at the Renfro Valley Lodge, following which

work, he was also involved in Neuman Club work at Berea College. The body will be at St. Clare's Church in Berea from 8 to 9 p.m. Wednesday evening and Mass will be held at the church Thursday morning at 10:30 a.m.

Burial will be in the Maryland Seminary at Erlanger.

Mt. Vernon Lions Club President Ed Hunt will review the circumstances under which Col. Jim Maret, able supported by the old Mt. Vernon Commercial Club, set in motion the campaign which brought about the building of Boonesville, the beginning of good roads in this part of the country. John Lair will comment on the actual location of Boone's Trail through Rockcastle County together with an account of his other activities within the present confines of the county. A member of the trail walking party will speak of their purpose in making the trip and their experiences along the way.

The event will be covered by the press and possibly, a part of it, by television. It is hoped that in spite of the time left for planning, county people will turn out with a good representation to attend the meeting at the Lodge. The party will be camped on the parking lot of the old barn and visitors will be welcome at their tents at anytime.

ATTENTION 4-HERS!!!

If you are planning to attend 4-H Week at Lexington, be sure to have your registration form and money turned into the County Extension Office by May 1, 1975.

Call 256-5135 or 256-5140 to bid on items during next week's Radio Auction.

THE BCBS BAND will present its Spring Concert Sunday May 4th at 2:30 p.m. Advance tickets will go on sale Thursday at Young's Pharmacy and the Signal office for \$1 for adults and 25 cents for students. Tickets at the door will be \$1.50 and 50 cents. The concert will be at the BCBS coliseum. The Junior High Band will also perform. In conjunction with the BCBS Band Concert, the BCBS Art Department will also have an art exhibit on display the day of the concert. Donor members of the band are shown in the above photo. They are, from left: Johnny Allen, Mike Carr, Jacki Bruce, Laura Lee Durbin, Lisa Lewis, Regis Taylor, Lisa Holloway, Connie McChes, Dale Hickey, Karen Hoskins, and Debbie Shahan Reynolds.

DOWN ON THE FARM

By: Roy G. Brown
Assistant Vice President
Cumberland PCA

I had the honor of being a guest at the FFA Banquet held Friday night, April 25 at the Rockcastle County High School. Each year your Production Credit Association presents a plaque to the Chapter's Star Farmer for his outstanding accomplishments. This year's Chapter Star Farmer was Wally Trebilo, son of Mr. and Mrs. Walter Trebilo of Brodhead.

Wally's farming program consists of 20 acres of clover and alfalfa hay, 12 acres of corn, 2 acres of wheat, 3 beef cows and 11 calves. Wally has done an excellent job in his FFA farming and is to be commended along with many others who do a good job and receive wonderful training through their teachers, Russell Parsons and Billy Ponder.

Wally served as Chapter President last year and plans to attend Eastern Kentucky University fall where he plans to major in pre-veterinary medicine. We at PCA wish him the best of everything in his future endeavors.

Your PCA is honored to assist and help in such a wonderful organization as FFA and their leaders who do such a good job DOWN ON THE FARM.

HOSPITAL DIRECTORS NAMED "CITIZENS OF THE WEEK"
Hospital Directors of the Rockcastle County Hospital were chosen as the Lions Club Citizens of the Week at the last regular meeting of the Mt. Vernon Lions Club. In choosing the directors, Wayne Stewart, James Lambert, Bill Bailey and Robert Cromer, the Lions Club noted that the men had formed a organization for the purpose of operating the hospital as a non profit institution for the people of this county, and that they receive no salary or material benefit from the time they spend in operating the hospital. The club also noted that there is a great need for the hospital, and expressed the appreciation of the Lions Club to the directors for their willingness to undertake the operation of the hospital, further stating they feel the county has gained from the time, effort, and the abilities of these men. The Lions Club is sending each director a letter of Appreciation and in proclaiming them "Lions Club Citizens of the Week," the Lions Club feels that all citizens of the county express their appreciation to these men. Other recipients of the Lions Club Citizens of the Week resolutions include John Cox, Chief of the Mt. Vernon Fire Department, John Lair of Rendle Valley, Clifford Pittman for directing school traffic and devotion to the children and Mr. George Parret as a Church Leader.

THE COST OF BREAD AND THEN

Did you know that the cost of the wheat in a loaf of bread represents only a small share of the retail price—the price you pay at the store? It's the retail price that's strongly influenced by changes in marketing costs. In 1974 the retail price of a 1-pound loaf of white pan bread averaged 34.5 cents, a record of 6.9 cent annual increase over 1973... prices continued to rise and in December 1974 the price averaged 36.4 for the pound loaf. The baker-wholesaler spread accounts for about half of the retail price and it was here that the increase was the most—about 3 cents per loaf of bread. The retail price spread, which makes up slightly less than a fifth of the retail price, rose 0.4 cents. The miller's spread of 1 cent was the same as in 1973.

In 1974, the farm value of wheat and other ingredients averaged 7.9 cents—more than double the average of any previous year except 1973. Unprecedented world demand and reduced supplies resulted in record-high wheat prices last year.

And what was the farmer's share of the price of bread? It increased from 20 percent in 1973 to 23 percent in 1974.

FOOD CLIPS

Maximum storage suggested for commercially frozen asparagus, beans, cauliflower, frozen corn, peas, and spinach is about 8 months. But, retaining high quality depends on the kind of vegetable and condition at time of purchase and whether it is stored at zero degrees.

Be sure to store dried vegetables in tightly closed containers in a cool, dry place. Most dried vegetables will keep several months.

What is caviovallo cheese? It has a somewhat salty flavor. It's similar to Provone, but not smoked; has a smooth very firm texture, light or white interior and a clay-colored or tan surface.

Freezing is not recommended.

ed for most cheeses because they usually become crumbly and mealy when frozen.

One of the best ways to use cheese that has dried out is to grate it and store it in a tightly covered jar.

Need shredded cheese? It takes about one half pound of cheese to make 2 cups of shredded cheese.

If you're preparing a fondue dish and no earthenware dish is available, use heat proof glass, ceramic saucepan or casserole dish.

Hard cheeses—Cheddar and Swiss—keep much longer than soft cheeses if protected from drying out.

STRETCH YOUR FOOD DOLLAR

Cheese can replace part of the meat your family needs in their daily diet. Here are suggestions on money saving buys in cheese: Natural cheeses, particularly those marked aged and sharp, cost more than process cheese. Sliced and grated cheeses cost more than process cheese. Sliced and grated cheeses cost more than equal amounts of the same cheese in wedges or sticks.

AGRICULTURE

My background and interest in farming has been long-standing. In 1913, my grandfather, George Monroe Vanhook, while serving as Magistrate, served on a committee to hire Pulaski County's first county agent in an effort to get better farm programs initiated in local farm communities.

Today's farming is a highly skilled business which requires more and more professional knowledge of general operation. New scientific techniques have been applied successfully in producing higher yields of cash and food crops to meet an increasing demand for food for an increasing population.

During my high school days, I was a member of FFA and received much training and many awards in local, regional and state competition in soil judging sponsored by local and state soil conservation districts. I also represented my FFA Chapter in state competition of livestock judging and seed identification at the Kentucky State Fair. My senior year, I received the State Farmer Degree for outstanding program in tobacco, hay and corn.

As your State Senator, I will work diligently for better agriculture programs and conditions for Rockcastle County people and the Commonwealth of Kentucky farms.

LANDRUM

James Landrum, born in Scotland in 1703, came to America in 1755, settling in Virginia. His son, Francis, was born in Essex County, Virginia, in 1759 and died in Louisa County, Virginia, in 1807. Reuben, son of Francis Landrum, was born May 31, 1777, in Fluvanna County, Virginia and died May 22, in Clark County, Kentucky.

Reuben Landrum and his family moved to Kentucky in the fall of 1810 and spent that winter at Boonesboro, on the Kentucky River, in Madison County, the next spring they crossed over into Clark County and settled on the waters of upper Howard Creek.

William B. Landrum, second son of Reuben, was born May 14, 1803, and was 7 years old when his parents moved to Kentucky. He grew up in Clark County and became an ordained minister in the Methodist Church in 1828. For more than 50 years he rode the Kentucky Circuit, either on horseback or in a buggy. In that time he served in every section of the state, but mostly in Eastern Kentucky. He made frequent trips through Rockcastle County in the 1840s, 50s, and 60s, usually following the Old State Road that crossed Rockcastle River at Crows' Ferry. In his trips through Mt. Vernon he visited in the homes of Jack Adams, Reverend James McCall, Roderick Hunter, Cassius Crooke and others. He was appointed a delegate to the group that met in Richmond, July 25th, 1853, with delegates from Tennessee, Virginia, North Carolina and Kentucky, in an effort to establish a railroad from Lexington to Cumberland Gap, to tie in with a Southern system of railroads. William B. Landrum married Julia Ann Pease, daughter of John Pearl, who lived on Hazel Patch Creek, in a wedding of September 4, 1845. They had 6 children. They were: John Pear, Sarah Hunt, William Bibb, Stephen Granville, James Andrew and Julia Hunt.

James Andrew Landrum, 1859-1932, married Mattie McNeel. He began working for the L&N Railroad in the 1880s and continued in their employment for 48 years. He moved with his family to Mt. Vernon in 1897 as railroad agent here. Six of his nine children were born in Mt. Vernon. Their names were George Chester, Henry Watterson, Bernice Yancey, John Pearl, Ruth Ann, Julia Mae, Louise McNeill, William Granville and Martha Rose, all of whom are now deceased, with the exception of William Granville.

PURELL

First of the Purells to be brought to our notice is John W. Purell, born in 1802, birthplace unknown, was married to Sally Bruce, born in 1806. They had a son, John Daniel Purell, born in 1832. His wife was Mary Jane Bethurum. Their children were James, John Samuel, Carry and Mary Susan.

Joseph B. Purell, born July 26, 1836, married Sarah Houk.

James Purell, born 1840, was married to Mary Elizabeth Adams. Their children were Sam Bennett, Will and Mattie. James Purell's second wife was Lucy Whitehead. There were no children.

Samuel Purell, born 1842, married Matilda Coffey. Their children were: Liza Belle, who married Charlie Frazier and had 4 children; Aberdeen, Russell, Alvin, and Mammie, who married Robert Garrison. He was later killed in a gunfight. Hallie, who married Fata Sigmon and had one son, Alvin.

Benjamin F. Purell, born February 15, 1847, first married Lucy Hunt. Their children were John and Beatrice. Purell John married Rose Bowers. Their children were Edward, Mattie, and Mae. Beatrice married Mamie Davis. Their children were Roberta, Bev, Lida, Cecil, and Simmie. Benjamin Purell, following the death of his first wife, married her sister, Nannie Hunt, and they had one child, Lura. He next married Alvina Spoonamore, who had a son,

Charles Spoonamore, by a previous marriage. Benjamin and Nannie had one son, Cleveland Purell. For his 4th wife, Benjamin Purell married Susan Owens. They had one son, Robert Nelson Purell.

It is not now known just when the first Purells came into Rockcastle County, but it must have been before the Civil War, as they are said to have brought several slaves in with them. Booth Purell, who lived on the farm adjoining that of my grandfather, once told me that the Purells came from "down below", a local expression used at that time to identify the blue grass region of Kentucky. When I last talked with Booth he was, I believe, in his 100th year but still possessed of a good memory and was able to answer my questions about many events in the county concerning which I made enquiry.

FRENCH

Although I have managed to trace the ancestry of many Rockcastle families to a remote beginning, I have been unable to carry one branch of my own back to a good grandfather. My father's mother was Ann French, who had married Jerome Burke Lair. On her mother's side, the Lawrence's. I can carry back to Sir Robert Lawrence, who accompanied Richard Couer-de-Lion in the Crusades to the Holy Land and was first to plant the Banner of the Cross on the battlement of Palestine in 1190, but on her father's side I can go no further back than her father himself. All we know, or can find out about him is that his name was Will French and that both his father and his grandfather had the same name. It is known that he came from around Mt. Sterling, but we have never been able to connect him with any of the French lines there. Among the more important of these were James French, who was with Boone at Boonesborough, and married a daughter of Col. Richard Calloway. Richard French, from the same area, was an early member of Congress and others of the name were high-ranking Judges and among the states biggest landowners. But though our Will French came from the same locality, we have never been able to place him with any of them. Since he was an alcoholic and possibly the black sheep of the family, it is possible that they may have cut him off from their family history.

All that is known of him in Rockcastle is that he had a grant of land on Rockcastle River, on which he was living and raising a family in 1822. Children of Will and Charity Lawrence French were: Will, 1817-1899; Mary, 1818-1898; John, 1820-1896; Rebecca, 1825-1891; Jones, 1827-1904; Telitha, 1832-1918; Ann, 1833-1914. There was a son named Porter, and possibly a daughter named Sarah, concerning whom nothing is known. Of these children, Jones married a daughter of Elisha Mullins. Their children were Jap, Olmstead, William, Sude, and Belle. His second wife was Alice Barnett and they were parents of Jones, Harry, Rolfie, and Dixie. Rebecca French married Peter James Hiatt, a captain in the Civil War and long time minister of the gospel. Their only child was Angeline. Telitha married William Fish. Their children were Jones and Marion Green. Ann French married Jerome Burke Lair. They were parents of Armistead, Charity, Thomas Burke, John, Jones, and Charity. Mary French was the second wife of William Peasie Hunt and their children were: Persander, Rose, Lawrence, Ellen, William, Peasie, and Alen.

My great grandparents, Will and Charity Lawrence French, lie buried in the Renoir Valley Cemetery. Harry Chasteen during his lifetime pointed out to me the location of their unmarked graves. Unfortunately, I cannot now erect a stone to mark the spot because I do not know the dates of his birth and death and her birth; only the date of her passing, which was December 30, 1863.

Any help on the French genealogy would be greatly appreciated.

County Agent's Notes

By: H. Lee Durham

GRASS UNDER TREES

Trees always present a problem in getting grass to grow under their shade. There are two things that should be kept in mind - one that the tree roots are much larger than grass roots and they are well established, and second, these

roots use much moisture and plant food that is needed by grass. Also, some of the most troublesome weeds such as crabgrass do not grow in the shade. With these things in mind, the following should be done to encourage grass to grow under the trees. Often, by removing a few conditions for a better circulation of air and some light to filter through. Then, by skillful management of the soil and moisture, it is often possible to have some grass growing under the trees.

The areas under the trees should be loosened about one inch deep with a steel garden rake, fertilized, seeded and kept watered. This may all be done at any time. One of the best seeds for this purpose is Kentucky Bluegrass, one pound to each 1,000 square feet of surface. For the fertilizer, a good, high grade fertilizer, 16-10-10 or better, should be applied, 15 pounds to each 1,000 square feet. Water should be applied as needed. The seed should be sown once each year, preferably in September. The fertilizer should be applied four times a year - February, June-August, and November, using 15 pounds to each 1,000 square feet at each application.

Of course some trees that produce filtered shade, the locust, black walnut and others, for instance, will usually have plenty of grass growing under them. On the other hand, the pines which have shallow roots and lots of them and the foliage is heavy and dense, so that grass has a hard time competing, are among those that will need to be handled as recommended above.

THINGS TO DO NOW

1. Be sure that insects do not injure the ornamental plants. Be ready with suitable sprays or dusts to control them.

2. Cultivate the flowers lightly because they have very shallow roots.

3. Follow through by pruning the flowering shrubs just after they have finished blooming.

4. Watch newly set evergreens, shrubs, trees and hedge plants to be sure they do not depend on the rain.

PLANTS STRIKE BACK

All over the world insects seem to be eating up plantlife. But it only seems that way. Some plants are actually striking back at the insects. Scientists of the U.S. Department of Agriculture tested

about 1,600 plants in an effort to find which, if any, produce natural compounds that can help control insects. They found some very effective ones. For example, a substance extracted from the leaves of the chinaberry tree kills corn earworms and fall armyworms. Another substance extracted from several species of ticks in less than four minutes by exposing the pests to powdered garlic. But then garlic has affected on some people, too. Other researchers found that compounds named caradiol and anacardiol acid from the nettles of catnip killed mosquito larvae as well as grain weevils and caterpillars. An alkaloid from the vegetative portion of larkspur was highly toxic to lice and ants, and other

REPUBLICAN ELECT LEONARD HISLOPE State SENATOR

Rockcastle, Lincoln Casey, Pulaski and Part of McCreary Co.

TO THE PEOPLE OF ROCKCASTLE COUNTY

FARMING

Farming is of great importance to the People of Rockcastle County. Agriculture and related businesses are the background of the economy.

Despite the fact that Rockcastle County receives many millions from tobacco, dairy products, cattle and swine, the economic condition of the farmer is not good.

When I go to the State Senate, I will urge that the research facilities of the Department of Agriculture greatly intensify and increase its research in the development of finer, more productive species of tobacco, forage and seed crops, more productive dairy and beef cattle and better and more functional farm machinery.

I will support legislation to finance young farmers to get started on the farm.

The Department of Agriculture and the Cooperative Extension Service has always had my support. I was reared on a farm and am now a member of the Farm Bureau.

Not only will I vote for the farmer - I will vote for the interest and welfare of the people of Rockcastle County.
