

Joellen Shank, formerly of Mt. Vernon, received two top awards at Berea College recently. She is one of 24 junior women elected to the Berea College chapter of Mortar Board, a national society honoring leadership and character and in addition, she was elected to Phi Kappa Phi, a scholarship honor. Miss Shank is the daughter of Mr. and Mrs. Dorvis Shank, now living in Richmond, and is an Elementary Education major. For her student labor assignment, she has worked at the Admissions Office and the Pre-School. Miss Shank has also been active in the House Council of her dormitory, the Wesley Foundation and the Baptist Student Union. She was also a member of Fleur de Lys, a freshmen honor and Kappa Delta Phi, an education honor.

There's a gourmet's delight down by a nearby stream or pond and all it will cost you is a new set of flashlight batteries, a night's sleep and perhaps a good dunking.

We're talking of course, about frogs. And about frog hunters, who after the May 15th opening date will be tired, sleepy and wet but well fed.

Experienced frog gatherers have their favorite techniques for capturing their quarry. Perhaps the favorite is giggering, although others prefer to use a 22 rifle or bow and arrow. But the most basic method is just to wade in and grab them by hand. This also is often the most exciting technique, particularly for those who can't tell the difference between a frog's eyes and a snake's in the beam of a flashlight.

It's also possible to capture frogs during the day by "fishing" for them with a rod, reel and artificial lure. The "fisherman" looks for frogs resting close to the water's edge or on a clump of moss. He then dangles a small wet or dry fly in front of the frog, bringing it closer until the frog "strikes." When hooked, the frog will usually take to the water, and landing it is as much a challenge as playing a good-sized fish.

Cynthia Rose were guest last Sunday of Mr. and Mrs. George Vairs in Dayton, Ohio. They also attended Sunday School and church services with the Vairs family.

Attending the youth meeting at the Broadhead Baptist Church Saturday night were Mrs. Gertrude Anderkin, Cheryl Vairs and Mrs. and Mrs. Ray Rose. They enjoyed it very much.

Mr. and Mrs. Lloyd Pickle visited Mr. and Mrs. Buddy Galbhard Thursday night.

Mr. and Mrs. Ray Callahan of Franklin, Ohio were overnight guest Saturday of Mr. and Mrs. Buddy Galbhard and Mrs. Gladys Rose. They were enroute home from vacationing in the Smokies.

Mother's Day dinner guest of Mr. and Mrs. Mike Peters were her parents Mr. and Mrs. Henry Smith of Wildie, his

Farm ponds are excellent places to hunt frogs, particularly the "fishing" method. With the tens of thousands of ponds in Kentucky, chances are that there is one nearby where you can obtain permission to do some frogging. Other good locations are small rivers, streams and overflow lakes.

The 1975 frog season runs from 10:01 a.m., May 16 through 12:00 p.m., October 31. The daily limit is 15, with no more than 30 in possession after two or more days of frogging. Since most frog gathering is done at night, the legal "day" extends from 12 o'clock noon to the following noon. During this time, a person may have no more than 15 frogs in possession while in the field.

A license is required to capture frogs. If a gun or bow and arrow is used, a hunting license is necessary and a fishing license is required of the person using fishing tackle. Either a hunting or fishing license will suffice for giggering and hand-grabbing frogs. The holder of a combination license may, of course, use any of the above methods.

One last tip, when you clean your frogs, remove the white cord in each hind leg. This cord, which can be readily seen where the legs are split apart, is actually a nerve and this is what makes the legs jump while being cooked.

Chasteen home were Mr. and Mrs. James Seale and Kim, and Mrs. Janet Adams, and children, and all of Berna and Mrs. Darlene Church and daughters.

Mr. and Mrs. Willie Cope and Buddy visited Mr. and Mrs. George Cope in Berea Sunday evening.

Recent guests of Mr. and Mrs. Glen Ponder were Mr. and Mrs. Sherman Richardson of Irvin.

Mother's Day dinner guest

of Mr. and Mrs. Glen Ponder were their sons Doug and Mike and families and their daughter Edith Rae.

REPUBLICAN ELECT LEONARD HISLOPE State SENATOR

Rockcastle, Lincoln Casey, Pulaski and Part of McCreary Co.

TO THE PEOPLE OF ROCKCASTLE COUNTY

\$168,000.00 FOR ROCKCASTLE COUNTY

Rockcastle County could receive this much money if the 1976 General Assembly adopts the recommendations of the Mountain Caucus and the Kentucky Coal Coalition.

We are proposing that 1/2 of the present severance tax be returned to the counties - \$25,000,000 - from which the coal is mined and \$36,000,000 to all the counties for school equalization purposes. (KEA endorses this program).

Leonard Hislope, with other members of the Mountain Caucus, took a stand in the 1974 Legislative Session which provided for some of the severance tax to be returned to the county.

Today, Leonard Hislope is attending the Kentucky Coal County Coalition Meeting in Frankfort.

Elect Leonard Hislope your State Senator, and he will diligently work to have returned to Rockcastle County a sizeable share of the state's \$140,000,000 coal severance tax.

My Name LEONARD HISLOPE will Be the Third on the Ballot Under the office of State Senator

History Of Girl Scouting In Rockcastle County

The first Girl Scout Troop in Rockcastle County was organized about 1925 by Miss Helen Orth. Miss Orth came to Mt. Vernon from Washington, D.C. to work as a nurse at Langston School. She later became our first county health nurse.

According to former Girl Scouts who remember her with great affection, she was a devoted, capable leader who enjoyed working with girls.

Some members of this first Girl Scout troop were: Julia Floyd Taylor, Annie Farris and her sister Elizabeth, Martha Griffith, Marguerite Brown, Ruby Riddle, Jennie Marr Hansel, and Marguerite McDaniels.

Miss Orth, with the help of her scouts, raised the money to build a camp at Beach Bottom on the Rockcastle River. There were two screened-in cabins and a covered eating area. The troop spent two weeks camping there in the summer. On the last night of camp, the girls always had a bonfire and a very impressive torch-light ceremony, at which time they received their badges and awards for the year.

During this same 10 year period, a number of scouts traveled by train to a Girl Scout camp called Camp O'Camber and at Harlan.

The next period of Scouting in Rockcastle County might be called the "On-Again, Off-Again" period. During these ten years, several attempts were made to continue Girl Scout troops in our county. Most successful at this was Mrs. Joyce Henderson, assisted at various times, by Mrs. Alene Davis, Miss Barbara Davis, Mrs. Joyce Baker and Mrs. Leneva Sower.

Under their leadership, the scouts made an overnight trip to Mammoth Cave and it was also during this time that the swimming instruction classes were started.

The Scouts got permission

to use a school bus to transport children to the Berea swimming pool for these lessons. The project was later continued by the Meridian Women's Club and the classes were moved to the Somerset pool.

Around 1965, the Girl Scout story in Rockcastle began another chapter. For the first time, troops were registered with the Wilderness Road Girl Scout Council in Lexington. The national Girl Scout program had been revived and we now had four age levels: Brownie, Junie, Cadette, and Senior.

Troops at all age levels were also organized in Brodhead.

A lot of enthusiasm and a lot of work went into the formation of these new troops in Mt. Vernon and a lot of fun was had by all. Community service, badge work and most of all outdoor skills and camping, were favorites of this group.

into the valley that's unknown-They gently took death by the hand And journeyed to the promised land.

And there with step so light and gay,
God polishes the sun by day;
And lights the stars that shine at night.
And keeps the moonbeams silvery bright;
For parents never die,
They just keep house up in the sky.
And in the Heavenly home above,
They wait to welcome those they love.

USDA SEEKS COMMENTS ON PROPOSED CHANGE IN TRANSFER OF BURLEY BURLEY TOBACCO QUOTAS
The U.S. Department of Agriculture (USDA) today asked for comments on proposed changes in policy to permit the transfer of Burley tobacco quotas to farms not now holding a basic quota. USDA currently requires a farm to hold a Burley quota before permitting the transfer of additional quota poundage. (Under the Burley program, unlike programs for other types of tobacco, quotas are expressed in terms of poundage rather than acreage.) Under the proposed program, transfers to nonquota farms would be subject to the same terms and conditions that currently apply to transfers to quota farms. The main exception would be that the quotas indicated on marketing cards issued to nonquota farms by USDA's Agricultural Stabilization and Conservation Service (ASCS) would be limited to the actual poundage leased.

USDA officials feel that the proposed change in policy may be necessary to permit a number of interested individuals, not currently eligible for a new farm quota, to enter the Burley tobacco market. Such quota leases would be filed with the local ASCS office or Agricultural Service Center and would have to be between farms in the same county. Recommendations concerning the proposed change in policy should be submitted in

writing no later than May 22 to the Director, Program Operations Division, Agricultural Stabilization and Conservation

Service, U.S. Department of Agriculture, Washington, D.C. 20250.

Logan Bryant

(Continued from front)

expressed their appreciation to Mr. Bryant for his many years of service to the town and county.

In their letter, the club stated that Mr. Bryant has served his country as a volunteer in the Air Corps in World War I in England, he was chairman of the Selective Service Draft Board for 10 years in Rockcastle County, he also served as Commander of the local American Legion, he was a charter member and helped form the Mt. Vernon Lions Club and served as Lions Club president and in other offices and he also served as secretary of the Rockcastle Chamber of Commerce and served for thirty-two years on the Board

Education for the county. The club also noted his church activities, observing that he was a member of the Mt. Vernon Christian Church where he has served as Sunday School teacher, as Sunday School superintendent and as an elder

for many years. Mr. Bryant has been in business in the Mt. Vernon area since 1915 when he opened the first garage in the county and brought the first Model T car in the county. Before opening the first garage, he started work as

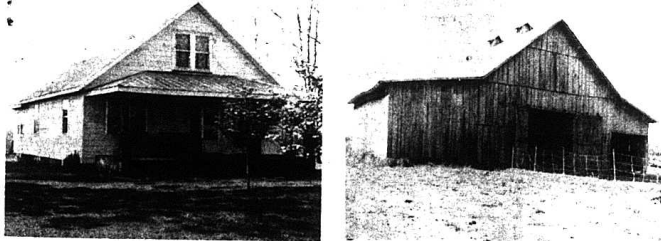

a telegraph operator for the L&N Railroad in 1910 and graduated from Mt. Vernon High School in 1915. During his high school years in his off-hours, Mr. Bryant helped wire most of the houses and buildings in Mt. Vernon that

used electricity at that time. He also operated a grist mill in Mt. Vernon on West Main St. He is still in business in Mt. Vernon selling appliances and hardware at his store on Main Street. Mr. Bryant's only daughter and two grandchildren live in New York City.

THURSDAY MAY 15, 1975

Ruby Stewart displays her dress which was auctioned off at the recent Mt. Vernon Recreation Council's Radio Auction over WRVK. Mrs. Stewart's dress brought a total of \$140 and a dress, donated to the auction by Holly Parton, was bid in at \$115 in the name of Lloyd Shutt. Miss Parton donated the dress, which she had worn once on the nationally televised Porter Waggoner show, to the auction because of the warm welcome she received on a recent stopover here. Altogether, the auction raised over \$2,600 for the summer recreation program at Mt. Vernon Elementary School.

FORMER GIRL SCOUT leaders were honored Monday night during the annual Girl Scout Award Ceremony at the First Christian Church in Mt. Vernon. Former leaders present for the occasion were, front row, from left: Mrs. Jack Craig, Mrs. Bill Landrum, Mrs. Phillip Davis and Mrs. Betty Lewis. Back row, from left: Mrs. Joe Henderson, Mrs. Logan Bryant, Mrs. Charles Baker, Mrs. Jim Earl Hammoms and Mrs. Jack Henderson.

Fiscal Court Holds Special Meeting; Will Operate Ambulance Service

At a special meeting Tuesday of the Rockcastle Fiscal Court, the Court made arrangements whereby they took over operation of the ambulance service as of Tuesday, May 13th.

The Magistrates furnished Central Ambulance Service with a letter of intent to purchase all ambulance vehicles and equipment, on or before July 15, 1975, and to pay or assume a note now outstanding (in the amount of approximately \$7,800) in favor of the Bank of Mt. Vernon and owned by Central Ambulance Service, Inc.

Central Ambulance Service had previously given the Court notice that they no longer intended to operate the service effective with the end of their contract date of May 15th. The Ambulance Service agreed to sell the county their vehicles if the county would assume the note mentioned above.

It was also decided during the meeting that bookkeeping for the service, which will now be known as Rockcastle Ambulance Service, would be furnished by the county judge's office and that the county judge would appoint someone to supervise the ambulance drivers.

The rates also came under consideration by the Magistrates and it was decided that

the rates presently being charged would be cut in half and that memberships in the service would be recognized until May 31, 1975.

Rates for ambulance runs will now be as follows: In Rockcastle County - \$22.50; Berea - \$27.50; to Somerset - \$32.50; to London - \$32.50; to Stanford - \$32.50; to Richmond - \$32.50; to Danville - \$35.00; and to Lexington \$42.50. Ambulance trips to any other location will be charged at \$22.50 plus 50 cents per mile. Of course, persons with memberships in Central Ambulance Service until May 31st will be given free emergency service in the county.

Frankfort Watchline

Politics is not a very pretty game sometimes.

Pike County Judge Wayne Rutherford's strength came to light last week when a Courier-Journal story exposed some fund raising irregularities in the candidate's campaign finance report.

The newspaper pointed out several instances of supposed donors who had been given tickets by their coal operator bosses, who had already given the legal maximum.

Within hours after the story appeared, the other candidates for lieutenant governor were on him like a pack of wild dogs going in for the kill.

Two candidates put out statements condemning Rutherford and one called for his withdrawal. Another suggested privately that more violations could be found, and yet another called to wonder how badly Rutherford had been hit.

None of this is surprising, of course, except it is just another indicator of Rutherford's rise from relative obscurity to a viable candidate in a few short weeks.

Rutherford's supporters seem relatively unconcerned about the publicity, taking the old attitude: "I don't care what you say about me, just spell my name right."

It is one of those quirks of politics that in most cases, the only bad publicity is no publicity at all.

The big question, always answerable on election day, is where Rutherford is drawing his votes from; if, indeed, he has moved up among the frontrunners.

Is he picking up votes from what might come to Secretary of State Thelma Stovall, who is reputed to have a rock-solid core of votes no one can touch? Or is he extracting votes

from candidates like State Sen. Bill Sullivan, who has more strong Eastern Kentucky support, or is he getting to the many as yet uncommitted voters with his powerful media campaign?

Win or lose, the Rutherford campaign and its effect on this year-democratic primary is going to be the subject of lengthy analysis for many weeks.

"One of these mornings, I'm going to get up and open the refrigerator and George Hermandall is in there with his hand out," George Atkins remarked the other day.

He was only about half joking, Atkins, the young mayor of Hopkinsville who is running for state auditor with the apparent blessings of Gov. Julian Carroll, can hardly make a public appearance without finding Kendall working the same crowd.

Kendall, a Lexington real estate agent, has a habit of irking a lot of politicians by hearing in on rallies wherever they might be.

He's been running since the senate primary of last year, at least. Kendall is, if anything, fairly well known, but Atkins takes a somewhat philosophical view: "I think that will help me in the long run," he said, looking over his shoulder.

Counting the coal vote seems to have become one of the major preoccupations of the current campaigns.

At the recent meeting of the Coal Counties Coalition, neatly every major candidate was there or had a representative there to say a few words in their own behalf.

Both the coal operators and the coal county officials seem to know their strength these days and are enjoying the recognition they have found as a major force in Kentucky politics.

There is a strong likelihood that this first real test of strength for coal could make a difference in future political races and in legislative action during the next decade, at least.

AUCTION

of Mr. and Mrs. Ron Rogers'

50 ACRE FARM

SAT., MAY 17th - 10:30 A.M.

Located - 10 miles South of Crab Orchard in the Bee Lick section of Lincoln County, 7/10 mile west of Kentucky 39. Watch for auction signs leading to the sale.

In order to devote full time to their new store which is now under construction Mr. and Mrs. Rogers have authorized our firm to offer this excellent farm at public auction. The farm will be offered in two tracts reserving the right to sell as a whole selling whichever way reflects the best returns for owners.

Tract #1 - consists of approximately 34 acres of which approximately 31 acres is tillable cropland. Water is supplied by a dandy well and spring. Improvements consist of a combination stock and tobacco barn measuring 32 x 70 with a 12 ft. shed. This tract has 778 ft. road frontage.

Tract #2 - contains approximately 16 acres level land with a new 32 x 40 hay barn with a 14 ft. shed. This tract has a good pond to provide stock water. All 16 acres is cropland.

Should the farm sell in two separate tracts the Lincoln County ASCS office will divide the tobacco allotment based on total cropland.

When the two tracts are combined they offer a total of approximately 50 acres and have a tobacco base of 1665 lbs.

Here's your chance to own a dandy farm that lays well with good productive soil. Mark your calendar now to attend this sale!

TERMS - 20 percent down day of sale, balance in 30 days upon delivery of deed.

IT'S REDBUD DOGWOOD TIME IN THE KENTUCKY HIGHLANDS

By Helen Price Stacy

Spring in Kentucky is a beautiful season—all the way from the western tip, through the Bluegrass region, the northern sector and the southern area. But spring in Eastern Kentucky is extraordinary!

For the next two or three weeks, roadsides will be tinged with the fuchsia and dusty rose of redbud trees and woodlands starred with creamy dogwood bloom.

Start with a hillside and color it green, not quite emerald but more lime or chartreuse, for in the Coosumwood the palette is mixed with a bit of spring gold. Sculpture the hill with dark stems of trees and shrubs. Brush the tips of limbs and twigs with leaflets and buds of still more green. Add patches of white dogwood bloom here and there among dark pines and pathwork it all with the color of redbud.

In the Eastern Highlands, spring is a bonus blessing, bringing warmth and color to a land that had been chilled in deep valleys and on the mountainsides.

Dewey Lake State Forest and Jefferson National Forest offer vistas of considerable magnitude during spring when there is a need to get outside. sift a bit of loam through one's fingers and nudge a clump of soft, springy moss.

In the Kentucky Highlands, the landmarks are hills and mountains that have fostered history and here are spectacular features created by nature. Nowhere can be found more beauty, especially in spring when the Moon of Buds is here, when the sky is that shade of blue to match work denims, when redbud and dogwood almost shout to be seen and when even the forest floor is starred with a multitude of wildflowers.

There are some thorns and scars along the way, but even these have a way of emphasizing

the old saying, "But aren't the roses sweet."

For travel information or schedules of particular events in the Highlands, stop at the Tourist Information Center in Prestonsburg, write to chambers of commerce in Highlands cities, contact any Kentucky state park in the area or write or phone the Kentucky Department of Parks, Frankfort, Kentucky. Start now to enjoy the splendor of the Redbud Dogwood Trail through the Kentucky Highlands.

FOR DIETS: VITAMIN E

If you have always eaten foods rich in vegetable oils or polyunsaturated fats, you may need a vitamin E supplement. Laboratory experiments with animals and an experimental study involving man, have shown that the dietary need for vitamin E increases as one increases his or her intake of polyunsaturated fats.

Increasingly, doctors are recommending diets high in polyunsaturated fats, rather than animal fats. This could necessitate an increase in the need for vitamin E. In such cases, note scientists from Hoffmann-La Roche, a leading vitamin producer, vitamin E supplements may be advisable following the change in diet.

and Mrs. Hannah Laswell attended the wedding of their niece, Jo Ann Brown, and Mr. George Kemper at the home of her brother, Mr. and Mrs. Ernie Brown. She is the daughter of Mr. and Mrs. Dillard Brown and he is the son of Mr. and Mrs. Jessie Kemper of Woodstock. We wish this couple much happiness.

Miss Doris Pope and Mr. Bobby Wright visited Mr. and Mrs. Bob Holt Friday evening. Mrs. Clarice Payne, Christine, and Mrs. Janette Neff,

Tina, and Eddie of Dayton, Ohio spent the weekend with Mr. and Mrs. Guy Hamm. They stayed in Clarice's home home while here.

Mrs. Delpha Mink and Mrs. Bonnie Lawrence and Connie of Cincinnati, Ohio visited Mr. and Mrs. Virgil Lawrence over the weekend.

Mr. Wallace Proctor attended a PCA director's meeting Monday.

Bro. Kelly Ellis of Danville was Sunday dinner guest of Mr. and Mrs. Wallace Proctor.

MOTHER'S DAY was especially a joyous occasion for Mrs. Preston Nunnolley as she saw the last of her three children, Mrs. Ieri Lynn Smith, graduate from Eastern Kentucky University. All of Mrs. Nunnolley's children are graduates of Eastern Kentucky University. Her eldest son, Dr. Preston P. Nunnolley, far left, was a 1964 graduate and her youngest son, James B. Nunnolley, far right, was a 1965 graduate. Also noteworthy is the fact that Mrs. Smith's husband was a 1974 EKVU graduate. Mrs. James B. Nunnolley was a 1965 EKVU graduate and Mrs. Preston P. Nunnolley attended EKVU in 1963.

"SERVING ROCKCASTLE COUNTY SINCE 1907"

For more than sixty-seven years, the personal satisfaction of each family we serve has been a personal concern of the Cox Family. Understanding of an consideration for the individual needs and wishes of family and friends is a family responsibility. It assures each service a distinction that makes it a lasting individual expression.

THE SINGING RENNER FAMILY took part in last Saturday night's gospel singing at Three Links and seem to keep busy almost every week and accepting invitations for singings. The family group is composed of, front row, Melissa Gail, 4. Second row, from left: Wendell, Jr., 12, Daniel Lee, 9, and Paul Anthony, 6. Third row, from left: Judy Stallworth, 14 and Teresa Lynn, 8. Back row, Mr. and Mrs. Wendell Renner. This Saturday night, the Renner Family along with other gospel singers, will be at Climax Christian Church. The Renners also expect to cut an album in mid-June.

ramblings...

By: perlina m. andertin

Attended a Gospel Singing at Three Links Christian Church Saturday night and I haven't enjoyed anytime quite so much in a long time.

The singing was very good and included such groups as the Renner Family, the Smith Family, the Davidson and Witt Families and a group including Nathan, Fred and Shellie Mullins.

Three Links is a beautiful little country church and is pastored by Bro. Armei Davidson. If you get a chance you really should attend one of these singings. The next one we know about will be this Saturday night at Climax Christian Church and will include the above singers plus others.

I would like to put this next part off longer but I might as well go ahead and get it over with. In last week's paper, my walk-a-thon story was all messed up. Not only did I have the wrong date in the headline (May 23rd instead of May 17th) and the wrong month for the walk in my story but I identified Estill Hodges as operator of the White Auto Store. Mr. Hodges (who by the way has owned and operated the Western Auto Store in Mt. Vernon for a lot longer than I have been around here) was very gentlemanly about this mistake and we appreciate it but we did want to set the record straight.

Ramblings material is pretty lean these days - I have to be lighthearted to write this column and there isn't much in our old world to be lighthearted about. I missed it (and am glad I did) but some friends were telling us last night and it seemed that every item was foretelling the doom of our something or other. I have been up too over the seizing of U.S. merchant ship by Cambodia in international waters. If there were no doubt that the ship were in international waters, then I agree with the senator

the face that in last week's Signal I stated that ambulance hehicles led the parade into town with the Boone Trail Walkers. Of course, this was accurate as the parade was led by the members of the Rescue Squad. I have an excuse but you have heard them all before so I'll leave it with an apology to the Rescue Squad...

"HEE HAW'S" GRANDPA JONES OPENS 1975 SUPER-STAR SEASON AT TOMBSTONE JUNCTION

Tombstone Junction is proud to announce that the one and only "Grandpa Jones" is going to take some time off from his busy schedule at "HEE HAW" to open up the prestigious super-star season of Grand Ole Opry Shows at the park.

Grandpa Jones, a native of Henderson County, Kentucky, has been a member of the Grand Ole Opry since 1946, but it was on "HEE HAW" that he gained his much deserved nation-wide recognition.

Everyone loves Grandpa Jones and his performances. During his three shows at Tombstone Junction Grandpa will play the fiddle, treat the audience to some old time country music, do his classic version of "Old Rattler" and his famous Jimmy Rodgers-style "Blue Yodeling".

Most of all, Grandpa will answer the all-important question "What's for supper, Grandpa?" Help Tombstone Junction get off to a great Super-Star year by coming to see Grandpa Jones during his performances at 1:00, 3:15 and 5:30 p.m. EDT. Tombstone Junction is located on Kentucky Highway 50, near Cumberland Falls State Park.

DOWN ON THE FARM

By: Roy G. Brown
Assistant Vice President
Cumberland PCA

Last Friday, a farm group made a tour in the country visiting the farms of Tommy Harold Mink, William I. Norton and Bradley Saylor.

The main purpose of the tour was to see pastures that had been renovated by a new method that was tried last year on Mr. Mink and Mr. Bradley's farm. The method has been developed by the University of Kentucky and is on the order of No-Till Corn.

The two test plots were very successful and I am sure this will be used a lot when equipment becomes available.

On the farm of Mr. Norton, the conventional method was used with a tiller rented from PCA and bought for this purpose. It was a very successful way and will continue

to be used to get the job of renovation done.

Either way is a must for most farmers if we are to be successful in livestock on our farms, as this is the cheapest way we can produce feed, and

with cattle so cheap, this is a must.

Dinner was furnished by Rockcastle Farm Service, Soil Conservation Service and Cumberland PCA down on the farm of Roy G. and Flora Mae Brown.

Man goeth forth unto his work, and to his labor until the evening.

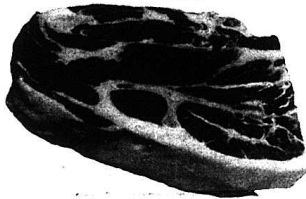

THE LIVINGSTON WORKERS CLUB was honored last Friday night at Livingston Elementary School's Spring Festival with a plaque presented to the club's officers by Jerry Mink, principal. The plaque was given in appreciation of the club's service to the school during the past year. Shown in the above photo are, from left: Mrs. Maxine Klacok, secretary; Mrs. Edie Raines, president; Mrs. Jan Wilson, vice president; Mrs. Nina Jones, treasurer and Mrs. Bertie Rice, reporter.

Mrs. Geraldine Alap of Route 1, Mt. Vernon had an encounter with a bat in a local hotel office in Mt. Vernon recently and the bat came off second best. Mrs. Alap, shown with her trophy in the above photo, and with her daughter, Lisa, 5, said she placed the bat down with her purse and then stepped on it. Every person in her presence thought she would have had the bat escape and the entire town of Mt. Vernon had it of her name.

Rockcastle Recollections

John Lair

McCLARY

Franklin McClary, son of Andrew and Elizabeth McClary, was born September 29, 1780 in Orange County, North Carolina. His father, Andrew, was a lieutenant in the Revolutionary War.

Franklin McClary came to Garrard County, Kentucky, where in 1803 he married Jane Kincaid. He spent the remainder of his life in Garrard County, dying there in 1829. His wife survived him and died in 1861, in Rockcastle County, where she was making her home with a son, Andrew, who had moved to this county around 1838.

Andrew, born in 1804, was married in 1833 to Susan W. Rawlings, who died in Rockcastle County at the age of 96. One of their sons, John K. McClary, was elected to the Kentucky Legislature from this county. Another son, Benjamin Franklin McClary, was clerk of Rockcastle County in 1872, while yet another son, Andrew K. McClary, was a successful practicing attorney in Mt. Vernon, Kentucky. John K. was later prosecuting attorney for Rockcastle County.

Andrew Kincaid McClary, born July 16, 1844, in Rockcastle County, married Elizabeth Belle Smith, of this county, and they were parents of three children, Herbert Brent, Andrew Cecil and Joseph Frank, who are well and favorably remembered by the old-timers of Mt. Vernon.

Other children of Franklin McClary and Patsy Kincaid McClary were: Rachael, 1806, who married William Johnson; Harriett, 1807, who married Will Fishback; Polly, 1809, who married William Baird; Henry Harrison, 1812; Joseph Right, 1814; Eliza Ann, 1815 who married Jas. E. Letton; Patsy Jane, 1817, who married Peter D. Oliver; Zerilda Amerline, 1822 who married William Oliver.

It was J.K. McClary who reported that in 1862 he became directly involved with a series of events which led to one of the darkest chapters in the history of the Civil War in this area. His knowledge of affairs began with his befriending a party of sixteen men, including personal friends, who appeared to him for food and a hiding place from Rebel guerrillas intent on capturing and hanging them for the supposed bushwhacking of Confederate troops in Rockcastle County. All these sixteen men, with the single

exception of Uncle George Brown were later overtaken and executed. In reprisal for this, Union guerrillas later executed six Confederate sympathizers in the brutal affair at Hackney Corners, noted elsewhere in this volume.

RICKELS

In 1830 the United States Congress, in deference to complaints from the white people of the south, passed the Indian Removal Act, by which the lands held by Indians in the states were exchanged for new lands west of the Mississippi River, with the Indians to be forcibly removed to their new homes by United States military force. This act was probably aimed principally at the Cherokees, a highly civilized tribe, many of whom lived in fine houses, owned slaves, and sizeable plantations which their white neighbors coveted.

The removal of these Indians began under the administration of President Andrew Jackson, who was known to the unfavorable to the Indians. In 1834 Indian Territory was set up and the process of removal was soon begun. Without sufficient time for due preparation, the Indians were gathered by the army and driven away, like cattle, on their way to Oklahoma Territory over what later became known as "The Trail of Tears," where disease, starvation, and death was the fate of many of them.

One group of five thousand, leaving Fontana Lake, North Carolina, under escort of troops under General Winfield Scott, lost approximately two thousand of their number, mostly by escape. One small group that got away found their way to Indiana, where one of the young girls of the party married a man named Rickels. In 1848 their young son, Jasper, started out with his uncle, Harrison Rickels, to walk from Indiana to Cherokee, North Carolina, in search of his mother who in the meantime had gone back to some of her people who were then living there.

When they reached Rockcastle County they stopped overnight in the home of Anderson Proctor. Next morning it was found that the little boy's feet were in such condition that it was felt he should not try to go further. It was decided that he should be left in the Proctor home while his uncle continued the search for his mother and that they would stop and pick him up on the way back to Indiana. Neither of them were ever heard from again and the boy grew to manhood in the Proctor home, later marrying Proctor's daughter. It is believed that he should be left in the home of the three small children, Jasper and Sarah were the parents of James Harrison (Jim Dad), Betty, Emma, Stella, Sallie, John, and Steve. Steve died when quite small, from gunshot wounds.

McCALL

The McCalls were evidently of Scotch or Irish origin. The name shows up early in the history of Kentucky. Dr. Thomas Walker in the diary he kept of his visit to Kentucky in 1750 speaks of passing the home of a family named McCall and another by the name of Joplin. The Joplin and McCalls who later settled in Rockcastle County were possibly their descendants. Since one of the McCalls was later given the first name of Joplin it is not unreasonable to believe that there was some connection between the two families.

Butler's history of Kentucky mentions that Edmund Rogers found on a beech tree on South Branch of Little Barren River the inscription "James McCall of Mecklenburg Co. North Carolina, June 8, 1770". There were other names with it which Rogers did not record. The date and the location would indicate that McCall may have been one of the groups known as the Long Hunters.

Reverend James McCall was an early settler in Mt. Vernon, Kentucky. My grandfather Lair remembers that in 1840 McCall's Tanyard was the only established business in Mt. Vernon. I have an old leatherbound Bible which my grandfather bought from him. Many years later he bought the old tanbark crusher used in the operation of the tanyard and took it out on his farm to crush feed for his cattle. The old mill is now in the Pioneer Museum.

James McCall built and owned the two-story log house near the tanyard which later became the home of pioneer D.N. Williams and was still later known as the Tip Langford Place. Brothers who came to Kentucky with him later moved on elsewhere, where one of the family later became governor of one of the western states.

A son of Rev. James William Burke McCall (sometimes known as Buck) married Judith Adams in 1847. She was a daughter of Jack Adams and a niece of Devil Bill Adams. Among their children were: Rebecca 1850 who married William J. Crawford; Ann, 1849, who married A.M. Curtis; Agnes 1855 who married an Owens; James and Jack, whose birthdates are unknown; Joplin, who married Lucy Lewis. In the McCall Bible his birth date is given as 1856 but on his tombstone in the Mareburg Cemetery it is shown as 1861.

At one point in my research I had about come to the belief that it was this Jack McCall who killed Wild Bill Hickok, famous gunman of the Old West. Wild Bill's slayer gave his name as Jack McCall and said he was from Kentucky. Dates checked out perfectly. This Jack McCall had been a deputy town marshal of Livingston under Wesley Mink in 1870 but he's sometime's son after that. It was in 1876 that a Jack McCall from Kentucky shot Wild Bill and

Visiting Mr. and Mrs. Eugene Alexander Sunday were Miss Irene Napier of Berea and Mrs. Ann Deaton and Morton Jett of Jackson.

Mrs. Hallie Alexander was honored with a dinner at a Mt. Vernon restaurant Mother's Day by her husband Eugene and sons Gerald and Kenneth and Miss Irene Napier.

I hope all you wonderful mothers had a happy Mother's Day.

Be good and God bless you is my prayer.

When the L&N Railroad was being brought through the county it came by way of the Little village, or community, of Mt. Gutherie. Since it was so near Mt. Vernon it was thought that the name should be changed to avoid confusion. When the railway station was to be established there it was planned to call it McCalla, but on second thought somebody had the idea that it should be named for James Maret, one of the earliest telegraph operators at Mt. Vernon. It was accordingly called Mareburg, the name it still bears.

Leonard Hislope On Senior Citizens:

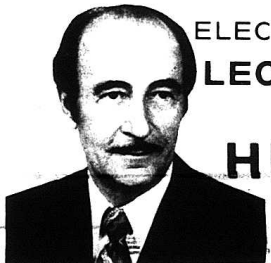

"A useful life is not measured in years"

Thousands of people in their 50's, 60's, 70's and 80's, with their talents, abilities and vast experience, are still making great contributions to our society.

Most of our wealth and possessions have been created by our senior citizens. We owe them our culture and our heritage.

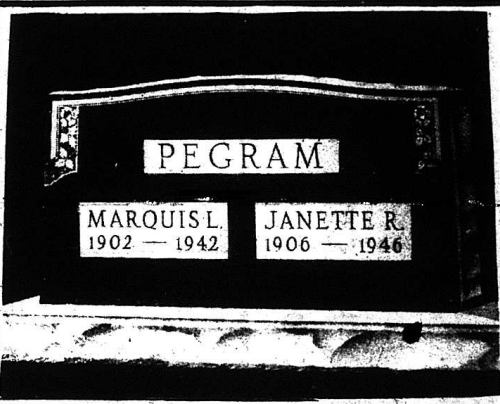

I want to make sure that we have special programs that will assure our senior citizens that they have comfort, dignity and security in their mature years.

In endeavoring to do this, I co-sponsored a bill raising the homestead exemption from property taxes to \$7,700.00. This means that the first \$7,700.00 of assessment of a home owned and occupied by a person 65 or older will be exempt from local property taxes.

POWER MOWERS ARE DANGEROUS

Power mowers are handy machines, but caution is needed in their operation, especially with the rotary type. Though these mowers are manufactured to cut grass, they will also cut toes and fingers. Most of the injuries from mowers are caused by direct contact with the mower, though about one-third are the result of objects being thrown by the mower. Just plain carelessness and lack of knowledge on the part of the operator are the usual causes of accidents

involving power mowers.

The blade on a rotary mower spins at about 1800 to 3000 revolutions per minute; at the outermost part of the blade the speed often approaches 200 miles per hour. Thus, tremendous force is available to provide the cutting action.

To avoid injury when using a power mower, follow these safety suggestions:

1. Be familiar with your lawn mower. Read the operator's manual that came with it and follow the manufacturer's recommendations.
2. Always disconnect the spark plug wire before you work on the mower.

3. Keep your mower clean and the blade sharp blade does a better job of mowing and requires less speed.

4. Be sure safety shields are in place. Make sure they are not bent or damaged.

5. Keep the blade adjusted high enough so that it will not hit the ground or damage the turf. For most lawns, set the blade height at a minimum of two inches.

6. Store gasoline in an approved metal container away from the furnace of fires.

7. Do not refill the gasoline tank when the engine is hot or running.

8. Use care in starting your power mower. Make sure self-propelled mowers are out of gear. Stand firmly and keep hands and feet away from the

cutting blades.

9. Operate the blade as slow as possible. High speed blades are more dangerous and cause greater wear on the mower.

10. Remove all toys, stones, bones, wire, cans, glass and other trash from the lawn before mowing.

11. Keep children and pets away from the mower.

12. Don't let small children operate power mowers.

Remember, your power lawn mower is designed to be a handy, labor-saving machine, but if it is used improperly, it can be dangerous.

POPULATION GROWTH: WHAT IT MEANS

We have heard predictions that we are approaching the

point of zero population growth (ZPG) in the United States. In support of this position, observers pointed to the rapid decline in the birth rate from 25.2 per 1,000 population in the mid-1950s to the lowest level ever observed in the U.S. in 1973 (14.9 per 1,000). Now the preliminary 1974 figures show a 1 percent increase in the number of births in 1974, over 1973 (3,168,000 in 1974 compared with 3,141,000 in 1973). The birth rate increased from 14.9 to 15.0 per 1,000 in the past year. To the casual observer this increase appears to be contradictory to an established trend of a decreasing birth rate in this country.

What's happening? Are we going to larger families again? The answer is NO! The number

of children per family continues to decline. The rise in the number of births in 1974 can be attributed to an increase in the number of women in the childbearing ages (15-44 years), rather than to an increase in the rate at which women are bearing children. The number of women in the childbearing ages increased 2 percent between 1973 and 1974, and according to projections, it will increase another 12 percent by 1980. Women from ages 20-24 account for approximately one-third of all live births and this age group increased from 5.5 million in 1960 to roughly 8.5 million in 1970 (over 50 percent more than 1960).

America's number of births went up last year not because each woman is having more

babies, but because there are more women having babies. The women born during the post World War II baby boom are now in their child-bearing years. And, although on the average they are having fewer children, the total number of babies born in 1974 was greater than in 1973.

Thus when examining the growth of our population through births, it is important to consider both the birth rate and the number of women having children.

Another factor in population change is deaths. Our death rate dropped last year to the lowest level in history (8.1 per 1,000 population). There were an estimated 1,933,000 deaths recorded in 1974, 44,000 fewer than in 1973.

Therefore, fewer deaths

together with more births contributed to an increase of 1,223,000 people in 1974.

The rate of natural increase of the population (the excess of births over deaths) has dropped from 16.0 in 1964 to 8.9 in 1974. (i.e., the population of the United States increased in 1974 at a rate of 8.9 persons per 1,000 population. The total population in the U.S. at the end of the 1974 was estimated to be 211,400,000.

If these trends continue, the National Center for Health Statistics predicts that our population will reach ZPG, or a stable level, sometime around the year 2020.

What's Happening At Mt. Vernon Elementary School

Mrs. Dawson's 6th Grade

Our Art Class has been centered around making paper mache masks which we plan to use in a Shakespearean play that we are now in the process of working into our English lesson plans. Making the masks were James Renner, Danny Offutt, Edward Rice, Ted Burke, Roy Cummins, Randy McClure, Kathy Carter, Jamie Anderkin and Vickie Spoonamore.

Mission Accomplished!
We won the Attendance Banner back for our room. It was tough going but we did it.

Now we're aiming for the highest average of the year which means a special celebration for the class. We have our fingers crossed because we realize we have some stiff competition.

Our Congratulations, go to Danny Offutt for representing and bringing back a blue ribbon for our class in the 4-H demonstration contest in Manchester Saturday, May 10th. He and Ronnie Hubbard from Mrs. Powell's Class gave a demonstration on drugs.

Last week was Famous People Visitation Week in our Social Studies Class. The

students selected someone we had recently studied about the role of that particular person. After being introduced to the class, the "pretend character" would give a lecture, play a record, show a famous painting, etc. Some of the people who visited us were: Strauss, Cynthia Taylor; Mozart, Jamie Anderkin; Beethoven, Lisa Hayes; Schubert, Vickie Spoonamore; Rubens, Roy Cummins and Rembrandt, Kathy Carter.

We are looking forward to other visitors this week. In English, we have been studying the 5 W's of reporting: Our cub reporter awards went to Jamie Anderkin, Sheila Miller and Kathy Carter. These girls will be using their abilities to bring you the news for the rest of this year.

HAPPINESS

Happiness is like a crystal.

Fair and exquisite and clear. Broken in a million pieces. Shattered, scattered far and near.

Now and then along life's pathway, Too, some shining fragments fall. But there are so many pieces, No one ever finds them all.

You may find a bit of beauty, Or an honest share of wealth, While another just beside you Gathers honor, love or health. Vain to choose or grasp unduly, Broken is the perfect ball; And there are so many pieces, No one ever finds them all.

Yet the wise as on their journey Treasure every fragment dear, Fit them as they may together, Imagine the shattered sphere, Learning ever to be thankful, Though their share of it is small, For it has so many pieces, No one ever finds them all.

Priscilla Leonard

Mrs. Anglin's Sixth Grade

We lost a student this week. Phynessa Caldwell moved away and we were sorry to see her go.

Mrs. Hale's room challenged us to a spelling match Friday. There was no winner. It was a draw. Melanie Durham from our room and Michael Stewart from Mrs. Hale's room were the last to sit down and they both missed the same word.

We are working hard getting ready for finals. It seems as though some are trying to put a year's work in the last four weeks.

Mrs. Linville's First Grade

Ronnie and Donnie Abney are home with mumps this week. We miss them.

Evalene Doan came to our room from Livingston School. We are glad to have her with us. Our room is happy because we won the attendance banner.

Mrs. Hale's Sixth Grade

We have been "traveling" through Asia this week in our history and geography. We have named Asian countries and dined the highest mountains.

Next week, we hope to stay a while in China.

We had a spelling bee with Mrs. Anglin's class and it was really neck-to-neck there for a while. It ended in a draw between Michael Stewart in our room and Melanie Durham in Mrs. Anglin's room. We will have a return match soon.

The flowers we potted for our moms and dads are very pretty. We are taking them home today.

We hope every mother had a happy mother's day. Barbara Renner Class Reporter

Miss Barrett's Third Grade

Our third grade won the attendance banner for the third time. We're looking forward to our party at the end of school.

Denise Creech

Last Thursday, the girls in Miss Barrett's room went to spend the night at her house. We went shopping and walked to the Berea College Campus. We also went to the park and the new school. We had a guest who showed us how to make pizza boats and birds. We made paper and finally went to bed. But that didn't mean we went to sleep. We had two giggle-bouts, but they finally giggled-out and went to sleep.

Jane Anderkin

Mr. Napier's Fifth Grade would like to congratulate Perry Noe and Jacob Alcorn for their participation in the District 4 H Contest. Both students won blue ribbons.

CONSUMER COMMENTS

A consumer recently wrote our office to tell how she bought some expensive pots and pans and ended up with tarnished cookware and a tarnished view of cookware salespeople. Don't put your common sense on the back burner when it comes to buying pots and pans.

There are reputable dealers who sell cookware door-to-door, but there are also those who sell door-to-door because of the reduced sales resistance of people advanced in their homes without advance notice. When a demonstration of cookware takes place in the home, a consumer cannot comparison-shop by going to the next counter or the store down the block. A well-known ploy is for the salesperson to offer discount or free gift "for tonight only," encouraging consumers to buy now and comparison-shop later - when it's too late.

If you are interested in buying cookware, check around. Know the various types and their approximate cost. It's not worth a free gift 'for tonight only,' encouraging consumers to buy now and comparison-shop later - when it's too late.

There are other gimmicks too. A consumer might be told that he or she was especially selected to test a new brand of cookware. Remember, anyone who offers you a special deal on cookware is probably not just interested in cooking up some business.

One consumer wrote us that she was told her old pots and pans were poisonous. Don't listen to scare tactics like these; ask another dealer if you have questions about your cookware.

Deal with reputable businessmen and ask about the warranties. If a salesperson and his company are not from your vicinity, you might have problems returning defective cookware or even finding the company.

If you have a consumer complaint, contact the Editor General's Division of Consumer Protection, The Capitol Room 34, Frankfort, Kentucky 40601.

JOHN D. ROGERS

To The Voters of Rockcastle County

Rockcastle County needs a State Senator in Frankfort who knows the needs of our local people and a State Senator who can work with Harold DeMarcus and battle with the politicians in Frankfort when it concerns Rockcastle County.

JOHN ROGERS WILL WORK HARD FOR:

- (1) More jobs for Rockcastle County and faster help for our unemployed.
- (2) The farmers and their interests.
- (3) Return of \$25,000,000 in coal severance tax money to coal producing counties, without strings attached.
- (4) Return of \$36,000,000 in coal tax money to local schools to improve our children's education.

For Rockcastle County, John Rogers Will be a better STATE SENATOR

EER. AN AIR CONDITIONER'S HIDDEN COST TAG.

Not all air conditioners are the same. Some use 40% to 50% less electricity than others to do the same amount of cooling.

To make sure the air conditioner you buy will cost less to operate you need to determine its Energy Efficiency Ratio (EER). The higher the EER, the better.

Some manufacturers attach a special EER tag to their units. Look for the unit with the highest number on its tag. But, if there is no tag, you can easily calculate the EER from the information on the name plate attached to the back of every air conditioner.

To figure the EER, divide the number of watts into the number of BTUs. The EER of an 8700 BTU unit having a metal plate like the one illustrated here would look like this:

EER: The bigger the number the less need for electricity.

We recommend an EER of 8 or more. A higher EER will help you beat the heat while you save valuable electricity. And that's a cool way to conserve energy and save money.

Electricity... use it wisely.
