The Mt. Vernon Signal, Mt. Vernon, Ky. 40456

A near-disaster was averted last Wednesday when Jim Baker of Rockcastle County, drove his car over a

12 foot embankment and into Lake Linville on the road leading from Renfro Valley to the boat dock. Baker escaped

from the car after it stopped and was not seriously injured.

The car was entirely under water when it finally came to rest on its top in 5-10 feet of water. It took workmen nearly two hours to remove the car from the lake.

Primary Election is Next Tuesday

By Roger Coldiron

One of Rockcastle County's heaviest voter turnouts is expected next Tuesday when the people go to the polls to choose candidates for 15 county offices. A total of 56 candidates are in the running in the Republican Primary.

There are a total of 7,725 registered voters in Rockcastle County; 5,958 Republican, 1,740 Democrat, and 27 Independents. A precinct-by-precinct breakdown is as follows: West Mt. Vernon, 734; North Mt. Vernon, 704; South Mt. Vernon, 669; East Mt. Vernon, 612; West Livingston, 373; East Livingston, 576; West Brodhead, 719; North Brodhead, 549; Roundstone 578; Conway, 651; Bullock, 366; Brown, 467; Climax, 233 and Orlando, 439.

Representative Harold DeMarett has serious opposition for the first time in several years in Mt. Vernon. Attorney William D. Gregory, winning the Republican nomination will virtually assure either one of winning the office in the November General Election. The two are contesting the seat in the 80th District which consists of Rockcastle, Lincoln and a smaller portion of Pulaski Counties. Lincoln County Republican registration is estimated at around 1500 giving Rockcastle County almost a 4:1 plurality.

Seven candidates will be contesting the Republican nomination for County Judge Executive. That office will be changed drastically for the man who will assume it on Jan. 1, 1978. The County Judge Executive will take no part in any judicial proceedings. He will be simply a county administrator. He will manage the county budget and preside at meetings of the Fiscal Court.

Each of the five magisterial districts has an incumbent running. In the 1st district incumbent Chester Whitaker has opposition from only one person, Frank DeBoyle of Mt. Vernon. In the second district, incumbent Ernest Mason will be opposed by four challengers, Roy (Schooner) Lucas, Joe Clark, C.W. (Wally) Phillips, and Tommy Philbeck. Third district magistrate Danny Sargent is unopposed in the primary. In the 4th district incumbent W.H. Wren will be

School Board Accepts Bid for Garage

By Roger Coldiron

The Rockcastle County Board of Education opened bids on a new school bus garage at a special meeting, Monday, May 16.

At the regular May meeting, 3 bids were opened but none were accepted because they were much higher than the architect's estimate. One bid was accepted at Monday's meeting.

Preston Collins of Mt. Vernon was awarded the contract to build the garage at a cost of \$102,615.65. Two other bids were submitted: one from K & K

contractors of London was \$137,642 and a bid from KOF Inc. of Lexington was \$165,000. KOF's bid submitted at the regular May meeting was \$159,000. The two other bids submitted then were Hacker Bros. Co. at \$181,200 and S.T. Goggins Co. at \$168,200.

Three options were open to the bidders to be omitted from the contract and the cost of the options was subtracted from the base bid.

(Cont. to page 7)

Seniors Welcomed To cleftRock Retreat

The cleftRock Community is inviting all the Rockcastle High School Seniors to an all-night open house at cleftRock Retreat Center after graduation on May 26th.

Graduates are invited to come right after the commencement program of anytime during the night.

Activities are planned and will end with an early morning breakfast. This will be a private party and not sponsored by the High School. Parents and students are invited to call 256-2386 or 256-5420 if there are any questions.

Lions Elect Officers

Robert E. Robinson was elected president of the Mt. Vernon Lions Club 1976-77, at the recent Lions Club meeting at the Rockcastle Steak House.

Other officers include H. Leo Durham a Vice President, Floyd Owens as secretary, Estill Hedges as Treasurer, Bobby Kendrick as Tail Twister and Edd Hunt as program chairman.

The incoming president appointed the following as membership committee: C.T. Huffines, Donald Smith, Marvin Hensley, Charles Barr and John Lair as honorary chairman.

Property Sold at Auction

Mr. and Mrs. Roger Graves of Sand Springs were the successful high bidders on the house and lot of Mr. and Mrs. Harris Burton which was sold at public auction Saturday. The house, located on Lair Street in Mt. Vernon, brought \$28,000.

Also on Saturday, a 12 acre tract belonging to the Woodson Brothers of Bandy in Pulaski County was sold at Public Auction to Mr. and Mrs. Lucien Mullins and Mr. and Mrs. Clinton Mullins, all of Pulaski County, for \$16,000. The Woodson's dairy herd was sold earlier in the day, also at public auction.

Both sales were handled by Ford Realty and Auction Co.

RGHS Commencement Exercises Set For Thursday Night, May 26th

Rockcastle County High School will hold commencement exercises for 173 seniors on Thursday, May 26th at 7:30 p.m. Baccalaureate will be held Sunday, May 22, at 2:30 p.m.

The Baccalaureate sermon will be brought by Bro. Ernie Johnson of the Mt. Vernon Christian Church. Invocation for the service will be given by Bro. Glen Polly and the benediction will be by Bro. Kenton Parkey of the Wildie Christian Church.

The Rockcastle Co. High School Band will play for the professional and recreational and the Castle Chorus will present two musical specials.

D.C. Anderson of the State Dept. of Education will bring the address for commencement exercises on Thursday.

The Rockcastle County High School band will again play for professional. Charles B. Parsons, Superintendent of Rockcastle Co. Schools will introduce the commencement speaker and diplomas will be presented by Dr. Rudolph Burdette, Chairman of the Board of Education. Bro. Raymond Booden of First Baptist Church, Mt. Vernon, will give the benediction.

The 1977 graduating class consists of:

Delinquent Tax List To Be Published

According to Sheriff Manuel Shepherd, the delinquent tax list for 1976 will be printed in the Mt. Vernon Signal beginning with the May 26th issue.

If you have not paid your tax bills for this period, you may do so at the Sheriff's office in the Courthouse.

Ben F. Rose of Williamsburg died suddenly Monday in a Greyhound bus that had made a schedule stop in Mt.

Vacation Bible School

Vacation Bible School will be held May 23-27 from 7:30 p.m. at the First Christian Church in Mt. Vernon. There is a special attendance contest and special "Christian Career Education" classes each night for the Jr. High group. Monday's speaker will be Mr. Max Stitts.

Children from age two through high school are invited.

Bus service is available by calling 256-2034 or 256-4352 by 5:30 each evening.

12 members of the Rockcastle County High School Band will be graduating this year. Most of them are pictured above. They are, front row, from left: Sandra Hubbard, Anna Lee Smith, Dawn Stallworth, Serena Stewart, Debbie Nee, Debbie Fain. Second row, from left:

Dennis Lawrence, Jayne Warf, David Colson, Donna Putnam, Beverly Allen. Not present was Tina Cain. The RGHS Band will present a Concert this Thursday night, May 19th at 7:30 p.m. at the high school. Admittance will be \$1 for adults and 50¢ for students. The concert will feature a guest soloist, Mike Swanson of Lexington on the alto saxophone. Mr. Swaffler is a professional musician in Lexington. The first trumpets in the band will also present "Buglers Holiday."

To The Voters Of Rockcastle County

I am a Candidate for Magistrate in the first magisterial district.

I am experienced in governmental affairs. I am familiar with the roads and budget aspects of local government and under the new Judicial Amendment, this will be the primary duties of the Magistrate. Therefore, I feel I am qualified to be your Magistrate and I am asking for your vote and support in the May Primary Election. Your support will be greatly appreciated.

AUCTION

Of Mr. and Mrs. Doug Edward's

31 ACRE FARM more or less

Sat., May 21, 1977 - 10:30 A.M.

Near Brodhead in Rockcastle County, Ky.

LOCATED: APPROXIMATELY 1 MILE WEST OF BRODHEAD, KY. ON HWY. 150

Mr. and Mrs. Edwards have purchased a farm in Jackson County and have contracted our firm to sell this desirable farm for the high dollar.

The farm consists of 31 acre, more or less. Stock water is furnished by a spring. The farm fronts on Hwy. 150, approximately 500 ft., which could be divided into building and commercial lots.

Improvements consists of the above-pictured 5 room frame house. The house has 2 bedrooms, living room, dining room, kitchen and large bath. There is carpet and linoleum throughout, gas heat, washer and dryer hook-up; well water with city water available and a large front and back porch. Other improvements include the above-pictured barn, which is a combination stock and hay barn. In addition to the barn, there is a good storage building and chicken house.

Here is a golden opportunity to own that small farm near town. This is without a doubt a unique opportunity to buy that small farm at your own price. There is also a good stand of timber on the farm.

TERMS: 20% DOWN DAY OF SALE. BALANCE DUE IN 30 DAYS WITH DELIVERY OF DEED.

Attorney General

If you are thinking of buying any product, be sure to examine the warranty so that you can compare warranties and get the best buy possible. It may be worth it to pay more for a product with a better warranty. The extra money is like insurance—it protects you against the chance of a big repair bill. Comparing warranties now can save you money and headaches later.

Since January of this year, the Magnuson-Moss Warranty Act has helped consumers with warranty problems. On any product costing over \$15 which has warranty coverage, the warranty must be available for you to examine, before you buy the product. The warranty must be spelled out in writing. If it isn't there, it isn't part of the warranty. Consumers should beware of spoken explanations of the warranty, since these verbal promises won't count when it comes time for warranty service.

There are two types of written warranties: FULL and LIMITED. These words have been given special

meanings by the Warranty Act.

Fully Warranty: The label "FULL" on a warranty means all this: A defective product will be fixed (or replaced) free, including removal and reinstallation if necessary. It will be fixed within a reasonable time after you complain. You will not have to do anything unreasonable to get warranty service (such as ship a piece to the factory). The warranty is good for anyone who owns the product during the warranty period. If the product can't be fixed (or hasn't been after a reasonable number of tries), you get your choice of a new one or your money back.

Check if a warranty said "FULL". It's a quick way to know if you're getting a lot of protection.

But there is one important thing the word "Full" doesn't promise. A fully warranty doesn't have to cover the whole product. It may cover only part of the product, like the picture tube of a TV.

Or it may leave out some parts, like tires on a car. If your warranty covers only the picture tube, and the sound goes bad, you pay. Always check what part the warranty covers.

Limited Warranty: A warranty is "LIMITED" if it gives you anything less than what a full warranty gives. Limited means "be careful—something's missing."

For example, a limited warranty may: Cover only parts, not labor. Allow only a pro-rata refund or credit. (You

To the Citizens of the 4th District

As Election Day draws near, I would like to take this opportunity to ask for your vote and support on May 24th.

During the past few weeks, I have traveled all the roads in my district and have talked with most of the people. With eight years experience at road service, I feel that I can recognize the needs of the roads in my district. I stand for the improvement of our cemetery roads and some of the smaller roads which the school buses travel.

Also, I pledge to use the grader as much as possible to keep the roads passable during snowy weather. I also promise to cooperate with other members of the Fiscal Court to the best of my ability for the improvement of our county.

YOUR VOTE AND SUPPORT WILL BE GREATLY APPRECIATED

Southeast, where pastures are good, cattlemen have more marketing flexibility. They may hold cattle until later this spring or summer.

"So far this spring, smaller supplies of light feeder cattle have supported prices," says Gamble. Demand for beef in general and farmer-feeder demand for feeder cattle replacements in particular have remained quite strong. However, with moisture critical in the West and Plains States, Gamble says that cattle prices in the months ahead will be sensitive to rainfall-how much and where it occurs.

Stepped on the Scales Lately?

Have you stepped on the scales lately? If you didn't like what you saw, try a metric scale.

Tom was tilting the bathroom scales at 220 until he stepped on a metric scale. His weight dropped to 100. No miraculous diet was required—it's just a matter of switching from pounds to kilograms.

The United States is converting to the metric system of measurement over a 10-year period and it won't be long before everyone weighs in on a kilogram scale.

During National Metric Week, May 9-13, every American is being encouraged to develop and maintain an awareness of the metric system and is urged to use the metric system where it applies to all phases of daily life.

The metric system is based on a decimal system, or multiples of 10, similar to our monetary system. We learn early in life that 10 cents make a dime and 10 dimes make a dollar. We multiply by 10 and quickly come up with \$10, \$100 and \$1,000.

Metrics work on a similar system. A gram has 100 centigrams. A kilogram is 1,000 grams.

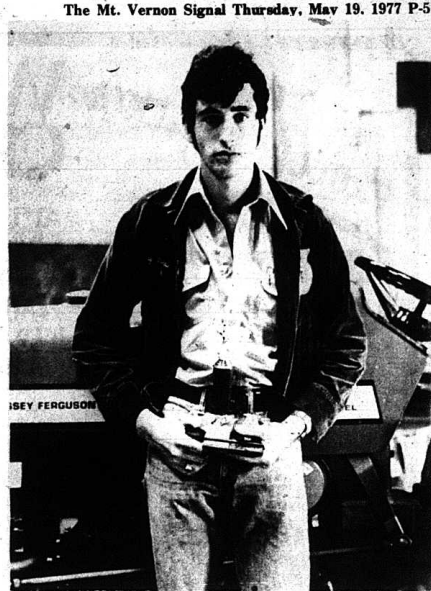

The difficulty, said Lydia Wells Sledge, math consultant for the Kentucky Department of Education, comes when people start converting existing measurements to metric ones.

She urges Kentuckians to "Think metric" instead of conversion factors. It's much easier to start with a gram or kilogram and multiply or divide by 10 than it is to convert pounds to grams, according to Sledge.

Bullock Graduates

Bobby Bullock, son of Mr. and Mrs. Delmer B. Bullock, of Rt. 1, Brodhead, graduated from Kentucky State University, Sunday, May 15, 1977, majoring in Computer Science. He graduated with honor and high distinction.

Bobby is a 1965 graduate of Brodhead High School and is married to the former Judy Fain. They have two children, Christy and Jason.

Phillip Kidwell, another FFA member, won first place in Regional Competition at RCHS recently.

These three members of the Rockcastle County High School FFA took third place honors in welding at a recent regional competition held at the high school. Members of the team are, from left: Dusty Carlotta, Danny Hunt and Billy Hackworth.

Says Cattle Prices Will Be Sensitive To Weather

Kentucky cattlemen can get a valuable clue to upcoming trends in the cattle market from reports of what the weather is like across the nation.

The reason is that rain or the lack of it will determine pasture and range conditions which likely will affect cattle

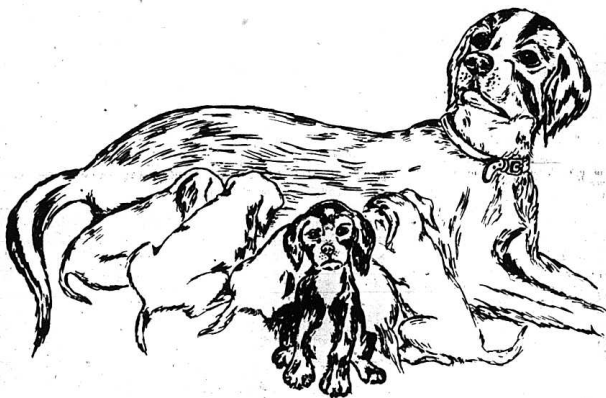

marketing patterns and prices, says John Gamble, UK extension livestock marketing specialist.

The latest pasture and range report indicates that the situation has changed in the past few months, with grazing conditions generally deteriorating in the

West and Plains States but improving in the Midwest and Southeast. Estimates are that 76 percent of the nation's cattle, or 94 million head, are in areas where grazing conditions are poor for lack of rain.

Continued dry weather in the West and Plains States will force some cattle to market earlier than normal, says Gamble. Drought over a wide area could cause a glut in the cattle market and depress prices, especially for feeder cattle.

In Kentucky and over most of the

We Understand

... the simple principles of supply and demand. We're planning to serve you and your children wherever, whenever, however, and in whatever quantity you want electricity.

To do this, we must plan today for tomorrow's increased demands. And, that means building and expanding power plants and substations and upgrading miles of transmission lines—even though construction costs and interest rates are higher than ever before.

We know we'll have a lot more customers to serve in the years ahead. We don't want a single one to "do without"—ever.

Electricity... use it wisely.

"Your Vote And Support Appreciated"

pol. adv. pd. for by candidate Rep. Primary May 24, 1977

ELI LEWIS CHASTEEN

To The People of Rockcastle County

Since announcing that I was a candidate for the office of County Judge Executive in the May Primary, people have wondered why I haven't had an article in the paper each week as the other candidates have done.

As most of you know, I have existed on a small Veterans disability pension since November, 1973. Secondly, I could only make a bunch of promises that I would find hard to keep if I were elected. Or, tell you what I have done in the past, which has been very little, except work hard for my family.

I only make you one promise, if you want to give me the chance to be your next County Judge by electing me in the May 24th Primar, then, with the help of the good Lord, I promise to do the best I can for the people and the County.

REMEMBER, I'LL BE WORKING FOR YOU. There are some good candidates for the office of County Judge Executive. Most of them have rendered help to me in the past. You, the voters will make the choice of whom you want. I need the vote of all you Republicans and the influence of all the good Democrats.

Thank You for the Encouragement that I have Received. God Bless You all!

Eli Lewis Chasteen

Rockcastle Chapter Dar Meets In Berea

The Rockcastle Chapter DAR met on Saturday, May 14th at the home of Mrs. V.C. Walker in Berea, with the Regent, Miss Jamie Ramsey presiding. Mrs. Roy Green, Chaplain, led the devotions. The President General's Message and the National Defense News were given by Mrs. Elbert Eversole.

Mrs. Warren Davenport, a member of the Berea Laurel ridges Chapter DAR spoke on "Source Materials for Genealogical Research". She displayed many books and publications which are of great assistance to those doing family research. Everyone interested in family research should have a copy of "The Handy Book for Genealogists" by George B. Everton, Sr. This book includes a county map of each state in the U.S. with date of formation of each county, name of the county or counties from which the county was formed, name of the county seat, county records available, census records available, archives, libraries and historical societies located in the county, and maps and information concerning some foreign countries. Another excellent book is "The Researchers Guide to American Genealogy" by Greenwood.

Mrs. Davenport said that Kentucky was very rich source for genealogical material as so many of the early pioneers

traveling to the West came through Kentucky often settling long enough to be mentioned in early records. Kentucky Census Records and Tax Records are available on microfilm at the Kentucky Historical Society Library in Frankfort, the Library at the University of Kentucky in Lexington, at the Elson Club in Louisville, and many are available at the John Fox, Jr. Library in Duncan Tavern in Paris. These microfilm records may also be borrowed through local libraries which participate in Inter Library Loan from Mormon Libraries. Often members of the kindred family may be discovered by writing to the Chamber of Commerce in towns where ancestors were known or thought to have lived. A book of county road maps may be purchased from the State highway Department. Mrs. Davenport stressed the importance of always enclosing a stamped, self-addressed envelop with all genealogical inquiries.

Guests of the chapter were Mrs. Gilbert Prather and Mrs. M.C. Mahanes of Paint Lick, Mrs. Carl Kilbourne and Mrs. Jack Henderson of Berea and Mrs. Leslie M. Edwards of Waco. Attending from Rockcastle Co. were Mrs. Wallace Williams, Mrs. John Lair, Mrs. Roy Green, Mrs. B.H. Parsons, Mrs. Elbert Eversole and Mrs. Raymond Towery and Mrs. Robert Huff of Berea.

Forthcoming Marriage

Mrs. John Pittman of Mt. Vernon wishes to announce the forthcoming marriage of her daughter Beulah, to Harry Henry, son of Mrs. Preston Henry of Lexington, Ky. The wedding will take place Friday, the 15th of July at 2 o'clock p.m. in the old fort at Fort Harrodsburg, Kentucky.

William Clinton Singleton, 6, son of Mr. and Mrs. James Singleton of Route 2, Livingston, caught this 3 1/2 lb. Drum on the Rockcastle River recently. Billy was using red worms on a Zebo.

Personals

Mrs. Jane VanWinkle, Mrs. Brenda Harris and son, James, Mrs. Sue Cromer, Kristi Kimberly Ann, Krista Lynn and Kelly Sue visited Mrs. Pearl VanWinkle Sunday, Mother's Day. All presented Mrs. VanWinkle with flowers. Mr. Glen VanWinkle visited his grandmother, Pearl VanWinkle, on Mother's Day. He gave her a big box of candy for Mother's Day.

Mrs. Pearl VanWinkle was so well pleased for all the visitors she had on Mother's Day.

Those who attended Mrs. Judy Vanzant's graduation exercises at ERU Sunday were Mr. and Mrs. Bais Moore, Warrant Officer 3, James R. Moore and son of Fort Knox, Mrs. Sarah Taylor of New Carlisle, Ohio and Mr. and Mrs. C.C. Ponder and Brian.

Mother's Day guests of Mr. and Mrs. W.F. Peters were Mr. John Peters, Mrs. Irene Ogilby, Clevis, Billy and Michelle and Mr. and Mrs. Bud Holt. A wonderful time was enjoyed. Mrs. Peters received new gifts. Thank God for our day and God bless her with many more happy ones.

Mrs. Jane VanWinkle visited her mother, Mrs. Alice Gibson of Somerset, Saturday.

Mrs. Sue Cromer and children of Mt. Vernon visited her grandmother, Mrs. Alice Gibson of Somerset, Saturday.

The Senior citizens of Mt. Vernon had a real good music singing, guitar-picking recently. Everyone enjoyed the music, which was followed by a

Mrs. Brenda Brown, visited her grandmother, Mrs. Lona Logsdon last Tuesday.

Mrs. Robert Anglin, Ashley Jasper, and Mr. George Burton were in Richmond and Berea last Tuesday.

Mrs. Hazel Cummins and Mr. and Mrs. George Burton were in Stanford last Wednesday.

Mrs. Robert Anglin visited Mr. and Mrs. Henry Anglin last Thursday evening.

Mr. and Mrs. Curt Roberts and family and Sheila Burton were in Lexington Saturday.

Sheila Burton spent Saturday night with Terri Roberts.

Mr. and Mrs. George Burton were in Somerset Friday afternoon to consult an eye specialist for Mrs. Burton.

Mrs. and Mrs. George Burton were Sunday dinner guests of Mr. and Mrs. Darrell Owens of Somerset.

David L. Henderson of Dayton, Ohio and Mark Henderson of Lexington visited Mrs. Lona Logsdon during the weekend.

David L. Henderson and Mrs. Lona Logsdon were in McKee, Sunday.

Mr. and Mrs. Harris Burton visited Mr. and Mrs. Andrew Cox, Jr., awhile Saturday night.

Mr. and Mrs. Roger Graves visited Mr. and Mrs. Harris Burton Sunday afternoon.

Mr. and Mrs. Robert Anglin and Nancy went in Brooksville, Indiana, Sunday. They visited the grave of his aunt, Mrs. Mima Coffey at Brooksville.

Mrs. Minnie Hansel returned home Saturday after visiting relatives in Dayton, Ohio.

Mrs. Bennett Burton visited her parents, Mr. and Mrs. Carsol Blanton, Sr. Sunday afternoon.

Mrs. Kenny Burton celebrated her birthday Monday, the 16th. We wish her many returns of the day.

"Recent visitors of Mr. and Mrs. Howard McClure, Mrs. Mary McClure and son, Mark, Mr. and Mrs. Gilbert Smith, Mrs. Lula Alcorn and daughter, Kathleen, Lesia Barnes, Mr. and Mrs. Troy Kirby and son, Mr. and Mrs. Roger Thompson, Mrs. Lona Logsdon, Sheila Burton and Vallie Burton.

Sheila Burton celebrated her 12th birthday Tuesday, May 17th. We wish her many returns of the day.

Mr. and Mrs. Carsol Blanton, Jr. and family visited his parents, Mr. and Mrs. Carsol Blanton, Sr., Sunday.

Mr. and Mrs. Glen Faulkner and daughter Annette visited Mr. and Mrs. Gravelly Burton awhile Saturday night.

Sympathy is extended to the families of Dewey L. Logsdon, Mrs. Sallie Hick, Robert Angel, Miss Rebecca McKinney, Oscar Day, Henry C. Anglin, Miss Deanna Baker, in their sorrow.

By Mrs. Leila Stokes

Mr. and Mrs. Ken Williamson, enroute to their home in Lebanon, Ohio from vacationing in the south stopped for the week end in Mt. Vernon to have some adjustment made on their car, attended morning and evening worship services at the First Christian Church, Sunday.

Just a little talk with Uncle Willis Johnson will help anyone. He was telling us Monday morning that he woke in the night and couldn't go back to sleep but

found song came to his mind and he started singing, "tarry with me blessed Jesus, leave me not till morning light, for I'm lonely here without thee, tarry with me through the night."

Mrs. W.J. Pennington enroute to their home in Dayton from weeks visit with his mother in North Carolina stopped with her father, Mr. W.C. Johnson, Thursday and Friday.

They spent a week with Mr. Johnson while he was in the hospital.

Visitors of Mrs. Vernon Cox Sunday were her brothers, Mr. and Mrs. Clyde Brewer of Wootton and Mr. and Mrs. Marcus Brewer of Hazard, Ky. Mrs. Cox also received a call from her sister, Mrs. Mary Burke in Oklahoma. The daughter of the late Mrs. Cox received her doctor's degree in physiology; Saturday. Congratulations Beverly Anne.

Mrs. Judy Jordan Smith and daughter, Elizabeth of Illinois spent Friday and Saturday with Mr. and Mrs. Coy Jordan and grandfather, Mr. Willie Johnson.

Mrs. O.L. Oliver and son, John Norman, of Mt. Sterling visited her parents, Mr. and Mrs. John W. Griffin last Wednesday.

Mis Vallorie Hampton, who has completed her third year in nursing at EKV was in Mt. Vernon, Friday and was accompanied home by her grandmother, Mrs. Cepha Kincer.

Guests of Mr. and Mrs. John W. Griffin Sunday were Mr. and Mrs. Denver Hoskins of London. Hoskins is a sister of Mrs. Griffin.

Mr. Carl Jones and son, John Hilton Jones and Mr. and Mrs. Ronnie Wilson were over from Mt. Sterling Sunday visiting Mrs. Gertrude Hilton and family.

Mr. and Mrs. B.C. Caudill of Hazard were to see Mrs. Fannie Thomason, Saturday and helped her to arrange the lovely flowers for decoration day.

"SCHOOL BOARD" (Cont. From Front)

The three options were brick and insulation, brick or bathroom tile, and a coal furnace.

When the board accepted Collins' bid they elected to omit the bathroom tile which will take \$540.00 off the base bid.

Collins is the same contractor that built the addition to Mt. Vernon's City Hall and did repair work at Mt. Vernon Elementary School after fire damage last year.

"ELECTION" (Cont. From Front)

opposed by Henry Wynn and Amos Burdette and in the 5th district J.R. (Boone) Cromer will be opposed by Nura Ann Selters, Leonard Hammond, and James Donald Rice.

In the race for Sheriff of Rockcastle County are: Oscar (Larney) Durham, Thurman (Jack) Raines, Clinton Graves, Cetus Gearty, Henry Lee Abney and Sherman Denny.

Opposing each other for the Republican nomination for Jailer are: Virgil L. Alcorn, Robert Kirby, Billy Kirby, Carl Kirby and Bonnie Bean.

In the County Court Clerk's race, Irene Bates will be contested by Jerry Carter of Mt. Vernon.

Candidates for the office of Constable are: District 1 Carl R. Miller, Edward Barnett, Clyde Payne and Andy Martin. District 2 Carter Renner, L.D. Bond, Jesse L. Baker, Eddie Fletcher, Eugene Selters, M.B. Kincer and Dallas Kirby. District 3 Ted Ross and Leonard Bishop. District 4 Charlie York and Richard E. Dean. District 5 Fred Hansel, Mack Warf, Gilliam McLemore and Ben Carpenter.

With such a long and varied list of candidates the campaigning has been heated 24 times during the past couple of months. This has probably contributed to renewed public interest in elections and should promote an extremely large turnout on May 24th.

Celebrates Birthday

Mr. E.C. Baker, Sr., a patient at Sower Nursing Home celebrated his 87th Birthday, May 4th.

He, along with Mr. Hubert Hall also a patient at the nursing home were presented with a beautiful cake baked and donated by Janet Brooks of Brodhead and a lovely carnation donated by Barbara Witte, a social worker in the home.

Their pictures were taken by Mr. Witt and mounted on the bulletin board in the corridor of the home for the entire month of May.

We, the family of Mr. Baker wish to take this opportunity to thank the persons already mentioned, also Mrs. Leah Riddle, social worker; Mr. and Mrs. Witt, Mrs. Carol Deborde, Mrs. Jennie Payne and all the aides employed by the home in making this a very pleasant day for Dad and Mr. Hall.

Other visitors who joined Mr. Baker for his day were Mrs. Jamie Newland of Stanford, Ky., Mr. Jim Dyehouse of Lexington, Ky. and Mrs. Ann Mullins, Mt. Vernon.

Many happy returns of the day to both these fine gentlemen.

The Quail Teen 4-H Club presented the 1977 4-H Fashion Revue last Thursday night, May 12 at the Elementary School. Participants in the show were (top photo), from left: Sharon Stephens, Sharon Candill, Audrey Morgan, Deborah Witt, Pam Mink, Patty Mink, Carolyn Lamb and Vicki Lamb. Shown in the bottom photo are winners of the

Revue. They are, from left: Sharon Candill, Carolyn Lamb, Pam Mink, Audrey Morgan and Vicki Lamb. Escorts for the Show were: Ronnie Cameron, Billy Cameron, Jeff Burdette and Shannon Cash. Narrator was Shari Martin. Assisting with the Fashion Revue were Marilyn Wilson, Lori Cash, Darlene Cameron Mrs. Shirley Martin.

Judges for the event were Norietta Thompson, Sheila Bradley and Carol Lee. Senior Champions Sharon Candill and Audrey Morgan, both members of the RCHS Teen Club. Senior Alternate was Carolyn Lamb. Senior Champions will represent Boone County at the State Fashion Revue during 4-H Week in June.

Letter To The Editor

Dear Editor, you published in your May 12, 1977 edition of the Mt. Vernon Signal. I wrote a letter to the editor which was published. I would like to respond to the letter

May 5, 1977 praising our magistrate Ernest Mason for the work he has done on our road in Singleton Valley where I live. Before Mr. Ernest Mason was magistrate, we didn't have a decent road to travel on because they were never graded or graveled; that is until election time, then we got a handful of gravel and sometimes none at all.

Mr. Robert G Collins disagrees with me about the upkeep of the county and cemetery roads. Magistrate Ernest Mason made a promise to the people of the Fifth District to keep up all cemetery roads which he does. Anytime a cemetery road needs to be graveled or graded, Mr. Mason sees that this is done. The Cemetery Road, Mr. Robert G. Collins is talking about is no exception. I don't know where Mr. Collins got his information about this cemetery road he was talking about, but one thing is for sure he hasn't been on it in the last three years or he would know the statement he made was false. He should have talked with Mr. Bill Bradley who was a frequent visitor to the home of Mr. and Mrs. Robert Mullins. It's a funny thing to me that one person travels a road but Mr. Collins can't. Perhaps Mr. Collins needs to learn to drive again.

Mr. Collins also made a statement about the garbage containers. No, Mr. Mason didn't want to see garbage dumped all over the county. His objection about the garbage containers concerned the trash that was thrown on the ground around them. Anyone who doesn't want trash on the ground around a container wouldn't want it to be dumped on our beautiful countryside. Once again I would like to take this opportunity to ask everyone in the Fifth District to vote for Ernest Mason for Magistrate on May 24, 1977.

/s/ Rovie Singleton
Orlando, Ky.

Down On The Farm

BY ROY G. BROWN
ASSISTANT VICE PRESIDENT
CUMBERLAND FCA

We are coming to you today from "Down on the Farm" where a group of leading farmers and agri-businessmen and women have gathered for an outdoor barbecue dinner and planning meeting to discuss farming problems that are of great concern to the farming industry of

today. It is meetings like these, when leading farmers and agri leaders get together in advisory council meetings, that help farm problems to better the farmers way of life.

There are many things that can be done to help farming and farmers need this help in making the best of bad conditions, that we as farmers face everyday in farming. The cost of farming increases everyday while markets continue on the down side, but we believe farming will still be a good way of life as people will need food and clothing not only in America, but the rest of the world also.

Members attending the PCA Advisory Council at the home of Mr. and Mrs. Roy Brown were Mr. and Mrs. Bill Norton, Mr. and Mrs. Kenneth G. Stewart, Mr. and Mrs. W.E. Proctor, Mr. and Mrs. John Houston, Mr. and Mrs. Sammy Ford and children, Tommy H. Mink, H. Lee Durham, Greg Stephens, Mr. and Mrs. Jerry Hansel and Scott, Mr. and Mrs. G.D. Burton and Joan. Visitors were Mr. and Mrs. Roger Coldiron, Mt. Vernon, Mr. and Mrs. Leman Colyer, Mr. D.C. Sherman, President CPCA and wife of Somerset, Ky.

Mr. Walter Brown, President of the Fourth Farm Credit District and wife, Mr. Homer Haywood, past President and wife of Louisville were also in attendance.

Mr. Walter Brown spoke to the group of PCA Farm Credit and how to better serve farmers "Down on the Farm."

"CONSUMER COMMENTS"

get a smaller refund or credit the longer you had the product.) Require you to return the heavy product to the store for service. Cover only the first purchaser. Charge for handling.

A product can carry more than one written warranty. For example, it can have a FULL warranty on part of the product and a LIMITED warranty on the rest.

Read the warranty when a problem comes up. The warranty is a contract that spells out your rights. Show the warranty to the company if it doesn't do what it promised.

Keep your sales slip with your warranty. You may need to prove the date you bought the product, or that you were the original purchaser.

If you have any questions about warranties contact the Office of the Attorney General, Division of Consumer Protection, Frankfort, Ky. 40601. The office has found that it can most effectively deal with written complaints

Real Estate
By SAM FORD
REALTOR

Which Closing Costs Deductible?

Expenses connected with the sale of real estate over and above the selling price are known as closing costs. Some of these are deductible from your income tax—others are not.

Property taxes are usually prorated so that both the buyer and seller each pay the taxes for the portion of the year that each owned the property. Each may deduct this amount and only this amount even though one or the other pays the entire amount.

Another deductible item that appears in closing costs, is interest charged to you on the mortgage up to the date of closing. Also deductible as interest in the amount charged as points provided they are charged as a premium for the loan of the money not when charged for services.

Non-deductible closing expenses are fire insurance, FHA mortgage insurance, and charges for rent for occupancy before closing.

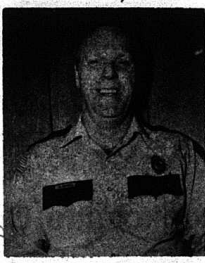

If there is anything we can do to help you in the field of real estate, please phone or drop in at Ford Realty & Auction Co., Inc., Mt. Vernon, Ph. 256-4545. We're here to help!

Cromer. Back row, from left: James Barnett, Jerry Childress, Terry Childress, Johnny Lunford, Mark Poynter, Harold Reynolds, Paul Milburn, Larry Bell and Charles Harris.

Cattlemen Urged To Vote In Beef Referendum

Kentucky cattlemen have an important stake in the upcoming national beef referendum on establishing a producer financed fund to pay for beef research, promotion and consumer information programs.

Curtis Absher, UK extension beef cattle specialist, urges cattlemen to get information on the issues and to vote, regardless of whether they are for or against the plan. Registering will take place June 8-17 and voting July 5-15 both at local ASCS offices.

If the plan is approved by two-thirds

of the cattlemen voting, producers will be assessed three tenths of one percent of the sale value of all cattle sold. At current prices, this would amount to 45 cents to 60 cents per head, says Absher. This assessment would be in addition to the 10 cents per head already being contributed by Kentucky cattlemen participating in the state beef check-off program established by law last year.

Estimates are that Kentucky cattle producers would contribute \$550,000 a year to the national beef research and promotion fund, if approved by the

referendum. An estimated \$30 to \$40 million would be collected nationally.

Up to 10% of what is collected for the national fund can be returned to the state but state projects must be approved by a national board of 68 producers which will administer the program. Potentially, \$555,000 a year could be returned to Kentucky, says Absher. This would be somewhat less than will be collected by the state beef check-off this year.

Although the proposed national program is voluntary, assessment would be made automatically at the point of sale. To get their money back, cattlemen would have to file a request with the national board, including a copy of the bill of sale as proof of the deduction.

To vote in the referendum, producers must register at the local

ASCS office, certifying that they have owned cattle during the past 12 months.

Brindle Ridge

There was good attendance at church over the weekend.

Mrs. Ethel Coffey spent Saturday night and Sunday with her mother, Mrs. Effie Jones of Ottawa, who is ill.

Mrs. Irene Herran of London spent the weekend with her parents, Mr. and Mrs. Danny Mullins. Sunday afternoon visitors were Mr. and Mrs. Bob French of Mt. Vernon.

The Brindle Ridge Youth Choir attended the Youth Meeting at Mansburg Baptist Church Saturday night.

Mrs. Minnie Mink remains very well in the Rockcastle County Hospital.

Mrs. Ruby Sowder, mother of Mrs. Linda Burdette is able to return home from a hospital in Lexington after undergoing surgery a few weeks ago.

Mrs. Margorie Cummins visited Mrs. Mae Holbrook at Brodhead, Thursday evening.

Mr. Bobby DeBorde of Mt. Vernon remains confined to his home after receiving a broken ankle on his job in Lexington.

Mr. and Mrs. Johnny Coffey and sons of Wildie visited Mr. and Mrs. W.L. Proctor Friday evening.

Dwayne Adams, Debbie Adams and Nancy Coffey are at home with their parents after attending school at E.K.U. for the past year.

Jerry Childress puts the finishing touches on a Rockets that sits atop the new gates at RCHS. The gates were installed by morning and afternoon vocational school classes.

Linoleum was patented in 1863 by Frederick Walton, an English rubber manufacturer.

Jobs For N.S. Seniors In Marine Corps Reserve

Students can now get a well-paying part-time job that will lead to a full-time job after graduation. High school seniors can study basic Marine training for half a year at monthly meetings while they're still in school, and then become Marine Reservists within 60 days after graduation.

GOOD JOBS now and for the future are available for high school seniors.

Young men and women who enlist this way will be paid for attending the meetings while they're still in school, and will be getting good practice for their future position as a Marine Reservist.

They can get free booklets on this and other educational and career-oriented programs available with the U.S. Marine Corps Reserve by calling toll-free: (800) 423-2600. Californians call, toll-free, (800) 252-0241.

Many young people have found this program to be very rewarding, both in what they earn and what they learn.

Pull Lever No. 2
To The Voters of the 5th District

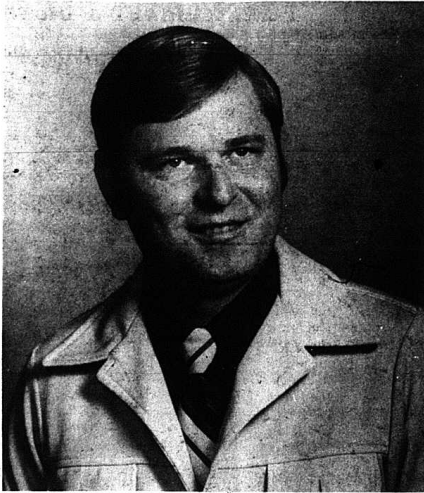

Due to the fact that I have to work, I haven't gotten to see and talk to all of you. I would like to serve "YOU," the people of the 5th District for the next 4 years as your Magistrate. I sincerely need your vote and support and I will be forever grateful to you.

Roy "Schooner" Lucas

pd. for by candidate

(Republican Primary May 24, 1977)

To The Voters And Citizens Of Rockcastle County

In campaigning for the office of Sheriff in the upcoming election, I have been encouraged with the support you have given me and with the constructive conversations I have had with many of you.

I feel that to be a good public servant, it is necessary to understand the needs and wants of our citizens.

As I have expressed before, I do not have a lot of promises to make. I wish I could promise that I will stop all crime in our county and that none of you will ever be robbed again. I could make a long list of needs on which I am sure we would all agree. But, my friends, we must be realistic about this -- our resources are limited. With proper management of available money however, there is a lot that can be done and I pledge hard work and sound, honest, management in carrying out the duties of sheriff.

To be effective in fighting crime, arresting of lawbreakers is only one step. We must also devote our attention toward the other steps. We must work with those persons responsible for sentencing and carrying our sentences of convicted persons. Together, we can insure that we can be proud of our county as a safe and desirable place to live.

If I am elected as your Republican Candidate, I will say, as I have said before, I will run the Sheriff's Office with Honest an Integrity. I will do my best to make our citizens proud of our Sheriff's Department. To make this possible, I am depending on you and your vote.

Your Concerned Candidate For Sheriff

CLINTON GRAVES

pd. for by candidate

My Fellow Citizens, Friends and Neighbors of Rockcastle County

This is Donnie Doan. I am the grandson of the late Tom Stephens and I am running for County Jailor.

As your jailor, I will serve the office to the best of my ability. I will keep the jail clean, treat each prisoner alike and serve good food. The jail will be attended at all times and you can feel free to call at any time. If a prisoner is sick or hurt, he will receive medical attention immediately and the family will be notified.

Your vote and support on May 24th will be deeply appreciated. So when you vote, pull lever No. 5 and ELECT Donnie Doan, your next JAILER of Rockcastle County.

I regret that I was unable to visit with each voter before the election.

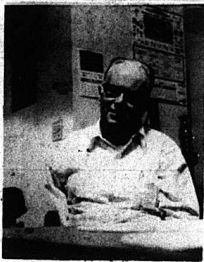

THANK YOU,

Donnie Doan

pd. for by candidate

Senior Citizen's News & Comments

By Charles Barr

percent more than the government had predicted in January before the unusual harsh winter.

There will also be a 5.9 percent increase in July for retired railroad workers covered by Railroad Retirement.

Social Security checks will be delivered on Friday, July 1st.

What is Retirement, Disability, And Survivors Insurance?

The Retirement, Disability and Survivors' Insurance program is administered by the Social Security Administration and financed by taxes contributed by employees, employers

and the self-employed. The program insures workers and their families against the time when their earnings stop or are substantially reduced due to retirement, disability or death, by providing monthly cash benefits to replace part of the lost earnings.

Who is Eligible to Receive Social Security?

Eligibility for Social Security benefits is based on the amount of time worked and money earned under Social Security. A worker gets one Social Security quarter of coverage for each three-month calendar quarter worked under Social Security for wages of \$50 or more. Thus, in a calendar year, a worker can get up to four quarters of coverage. Self-employed individuals must earn \$100 in a calendar quarter in order to earn a quarter of coverage. The number of quarters of coverage needed to receive benefits varies from six to forty and depends on age and the type of benefits.

Retirement and Survivors' Insurance - Workers and their dependents become eligible for the basic benefits at age 65. They may choose to receive reduced benefits at age 62 and in the case of survivors at age 60. Children must be 18 or younger, or if attending school full-time, 22 or younger.

Disability - To be eligible for disability checks an individual must be under 65 and have a physical or mental condition which is expected to last or has lasted for at least twelve months, or is expected to result in death and prevents the person from engaging in any substantial gainful activity, considering age, education, and experience, regard less of whether such work exists in the area.

An individual who becomes disabled before age 24 needs credit for 1 1/2 years of work under Social Security in the three years before becoming disabled. A person between ages 24 and 31 must have work credit for half the time between his 21st birthday and the onset of the disability. A person who becomes disabled at 31 or older needs as much work credit as he would need if he were actually 65 and retiring, and five years of the work credit must be in the ten-year period just before the time of disability. If the disability at 31 or over is blindness, it is not necessary that any of the credits be earned in the previous ten-year period.

What are the Benefits Under Retirement, Disability and Survivors Insurance?

Retirement - A majority of people retire at age 65 and receive a check based on their length of time working under Social Security and their average pay. That amount is called the primary insurance amount. As of June, 1975, an individual retiring at age 65, who meets the eligibility requirement, would receive a minimum of \$101.40 a month and up to \$341.70 a month, depending on his average yearly earnings.

A person may retire as early as age 62, but the retirement check will be smaller. Payment amounts are also reduced if a wife, dependent husband, widow, or dependent widower starts getting payments before reaching age 65. However, the primary insurance amount may be increased by 1 percent for each year between ages 65 and 72 that a person does not receive benefits.

Social Security Retirement beneficiaries who are 65 and over automatically receive Medicare Hospital Insurance

Benefits. They will also be automatically enrolled in Supplementary Medical Insurance at a cost of \$8.70 per month, unless they tell their Social Security Office that they do not wish coverage.

Disability Benefits - Disability benefits are usually equal to the worker's primary insurance benefit. After receiving disability checks for twenty-four months, an individual becomes eligible for Medicare.

Survivors' and Dependents Checks - The wife or dependent husband, 65 or over, of a worker entitled to old age or disability is entitled to benefits of 2/3 the primary insurance benefit. A wife may also qualify if she is under 65 but has in her care the worker's child who is under 18 or disabled. A divorced wife may also receive benefits if she was married to the worker at least twenty years and has not remarried. Wives, divorcees and dependent husbands may begin receiving reduced benefits at age 62.

Widow or dependent widower, age 65 or over, of a fully insured worker is eligible to receive a benefit equal to the primary insurance benefit if she has in her care the worker's child under age 18 or disabled. The child of a worker entitled to old-age or disability insurance is eligible for benefits equaling 1/2 of the primary benefit if the worker is living and 3/4 if he is dead. The child must be under 18 or a full-time student under 22 or must have become disabled while still eligible.

A dependent parent over 65 of a fully insured worker who dies may receive a benefit of 82 1/2 percent of the primary amount.

Upon the death of an insured worker, a one-time lump sum of \$255 is payable to the widow, widower or a funeral home.

What Happens if the Cost Of Living Keep Increasing?

Social Security benefits will increase automatically in future years as the cost of living rises. If living costs have increased 3 percent or more from the previous year, benefits will be increased by the same amount the following January unless congress has already acted to raise benefits. The first automatic increase cannot come before January, 1975.

Are There Special Rules For Social Security Coverage For Special Kinds of Jobs?

There are special rules for Social Security coverage for people who do housecleaning, gardening, or baby-sitting; for students employed by their school or college; for those who own, operate or work on a farm; for members of religious orders; for people who receive cash tips; and for employees of state or local government. The nearest Social Security office has more information.

Can I Continue To Work for an Income Even When I am Retired Or Disabled?

Generally, if you are able to work, and especially if you can earn over \$200 per month, you are considered no longer disabled. However, in order to encourage rehabilitation, Social Security allows a person on disability a "trial work period" of up to nine months in which he can continue to receive benefits.

Disabled Workers

Generally, if you are able to work, and especially if you can earn over \$200 per month, you are considered no longer disabled. However, in order to encourage rehabilitation, Social Security allows a person on disability a "trial work period" of up to nine months in which he can continue to receive benefits.

Where And How Do I Apply?

Call, write or visit your nearest

Social Security Office if:

You are unable to work because of an illness or injury that is expected to last a year or longer.
You are 62 or older and plan to retire.

You are within two or three months of 65 even if you do not plan to retire.
A worker in your family dies.

Your application will be processed more quickly if you can provide documents providing work history and dates of births, deaths and marriages.

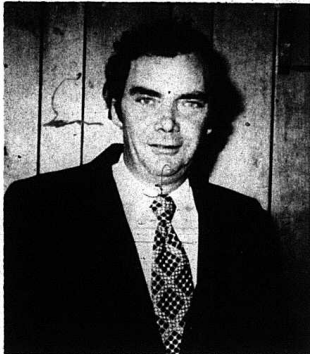

You may also be eligible for Medicare; ask about that program.

What Do I Do If I Am Denied Coverage?

If your application is denied, you will be informed of your right to a reconsideration and, if necessary, how to request a hearing before an Administrative Law Judge. You must request a reconsideration in writing within 60 days of the denial and you must request a hearing with 60 days after the reconsideration is made. You may (Cont'd to Page 12)

The Tobacco Handling Experiments

A great diversity of argument is being heard over the proposed changes in burley tobacco handling methods. Whatever their merits, the points being offered deserve top attention, for anything that affects the economics of tobacco affects us all, in this burley-growing area.

Tobacco is unique in this era of mechanization and corporate farming. It is the one cash crop, or one of the few outside market gardening, that involves family labor and many small acreage operators. There are 286,012 family units (farm quotas) involved in growing burley in and the other burley states, with allotments averaging less than an acre. For most of them it is the main cash income.

Sweeping claims are being made of possible savings in labor costs by switching to untied leaf. But looking beyond any immediate economy in labor-saving, the Burley Tobacco Growers Cooperative Association warns that the whole export trade of \$100 million in burley is jeopardized, and would certainly be greatly reduced, if not wiped out, if forced deeper in competition with cheap-labor, hand-tied, foreign-grown burley.

There are other important objections to the experimental innovation of loose leaf vs. traditional, hand-tied bundles—such as the fears of serious weight loss and drying out lengthened selling seasons, required booking weeks ahead for selling, and then the auction of crops in piosneal lots days apart at warehouses.

Tobacco is enjoying orderly, prosperous times in spite of increased production costs. Prices are good, thanks to poundage controls and price supports. The 1977 burley support level is up about 7.3 percent above last year. The current crop of burley will be supported at \$117.5 per 100 lbs. average.

It certainly is not a time for battling within the ranks of tobacco farmers. Fortunately, the new Secretary of Agriculture, Bob Bergland, is a friend of the tobacco program. He has already defended it against attacks in Congressional hearings, calling it "the alternative to welfare payments" for thousands of one-acre farmers. In an interview he was outspoken against switching to burley sales in loose-leaf form, which, he believes, would work toward gains of large "corporate" farms, and to the disadvantage of small growers.

"Never injure a friend, even in jest."
Cicero

"Enough is better than too much."

SENIOR CITIZENS
(Cont.'s from Page 11)

authorize a friend, a relative, or an attorney to assist or represent you. If you are represented by an attorney, the Social Security Department will approve a fee of no more than 25 percent of the back benefits awarded you. After the decision by the Administrative Law Judge, you have 60 days to request a review by the Appeals Council. The Social Security Department also has the opportunity to appeal. Within 60 days of the Appeals Council's decision, any dissatisfied party may appeal to the Federal District Court.

PRAYER FOR A NEW DAY

Help to keep my heart clean, and to live so honestly and fearlessly that no outward failure can dishearten me or take away the joy of conscious integrity. Open wide the eyes of my soul that I may see good in all things. Grant me this day some new vision of Thy truth, inspire me with the spirit of joy and gladness and make me the cup of strength to suffering souls.

Phillips Brooks

To The Voters of the Fifth Magisterial District

My opponents have been telling you what they have done - we all know what they HAVE NOT done. We all remember the snow last winter, on the back roads, we could not get to the grocery, the hospital or schools. If elected, I will put a snowplow on the county truck if I have to pay for it myself. I will assure you that the county truck will not be stored in the garage while the roads are so bad we cannot get over them.

But, the county roads are only a part of the magistrate's job - the garbage problem is another item that needs attention. We need to work to bring industry into the county for employment.

I will work for any improvement for the taxpayer, should it be for roads, industry, garbage collection, schools, IF IT IS IN THE BEST INTEREST OF ALL THE TAXPAYERS.

LET ME BE YOUR VOICE IN COUNTY GOVERNMENT.

Joe Clark

Magistrate District 5

William Harold DeMarcus

MY RECORD

I do not believe in dirty politics. I have always conducted my campaigns with truth and fairness, but since I have been so wrongly accused in this campaign, I must speak out.

Unlike my opponent, the people of Rockcastle County know they can talk to me and almost all of them have many times. The people know that I have been to see them many, many times throughout the years and have always stayed in close touch, unlike my opponent when he was elected to public office.

My opponent has asked, "What has Rockcastle County received in return for its tax money in all these years?" The following is a list of roads and bridges built or rebuilt as a result of my efforts.

- Calloway-Sand Hill - Rebuilt and 1 mile blacktop
- Ford Hollow - Rebuilt
- 1 mile Beech Grove - Blacktop
- 1955 Red Hill Road - Blacktopped to Jackson County Line
- 1004 Saltpetre Cave - Part Blacktop

NEW BRIDGES

- Dix River - Brodhead
- Disputanta
- Roundstone Wildie
- Shirley Caldwell Road
- Gum Sulphur

These are only some of the road and bridge projects on which I have worked hard over the years. This is how the tax dollar has been spent. This is not a complete list. These are only the ones I can remember.

In addition, I have accomplished the following during my years in public office.

- For many years, a member of the Republican State Central Executive Committee.
- A Delegate to three Republican National Conventions.
- Minority Leader of the State House of Representatives for six years.
- Voted Outstanding Speaker in the House of Representatives.
- Voted Most Effective Legislator.

I STAND ON MY RECORD RE-ELECT YOUR REPRESENTATIVE

William Harold DeMarcus

pol. adv. pd. for by candidate

To the Voters of Rockcastle County

We have a great need for a good Sheriff's Department. I am an experienced law enforcement official and I plan to work hard to eliminate crime in our county.

I have two deputies, Robert Clark and Wayne Mounce, to help me enforce the laws. And, there will be one of us on duty 24 hours a day.

**YOUR VOTE AND SUPPORT
WILL BE GREATLY APPRECIATED ON MAY 24TH.**

Thank You,

Sherman Denny

"WE ALWAYS BEAT ROCKCASTLE COUNTY IN BASKETBALL AND EVERYTHING ELSE."

"YOU PEOPLE IN ROCKCASTLE COUNTY NEVER STICK TOGETHER. LINCOLN COUNTY DOES."

"SOME OF LINCOLN COUNTY'S BEST SUPPORTERS LIVE OVER THERE IN ROCKCASTLE, AND THEY'LL BE HELPING LINCOLN COUNTY KEEP THE REPRESENTATIVE'S SEAT."

"IF ROCKCASTLE EVER GOT THE REPRESENTATIVE, THEY WOULD NEVER LET US HAVE IT BACK SO WE ALL HAVE TO VOTE TO KEEP IT IN LINCOLN COUNTY."

A FRONT PAGE ARTICLE IN A LINCOLN COUNTY NEWSPAPER THIS PAST WEEK REPORTS MY OPPONENT WAS WANTING TO BE THE REPRESENTATIVE FOR LINCOLN COUNTY.

These are examples of the talk I have been hearing while traveling in Lincoln County. It is very clear that Lincoln County people are making it a point of pride that they want to keep the State Representative and not let it go to Rockcastle County. As one of my opponent's supporters stated, "It means too much for us to have the State Representative from our county so we have to fight Rockcastle to keep them from having the benefits."

I have not made this issue of Lincoln County vs. Rockcastle County. My opponent has. His people point with pride to the Representative being their man and how they should all back their county man.

We can do the same thing. We have the voters to do it. This is the ONLY PUBLIC OFFICE covering more than one county, FOR WHICH ROCKCASTLE COUNTY HAS THE GREATEST NUMBER OF VOTERS.

For fourteen years, Rockcastle Countians have given their vote to another county. Our Senator, our Circuit Judge, Our District Judges and Representative come from other counties. This is Rockcastle County's one clear chance to have its voice heard.

If elected your representative, I full well intend to serve all the people throughout the district. I feel that the people of Rockcastle County and Northern Pulaski County have been neglected too long. I feel that I can improve the quality of representation for all the people throughout the entire district.

CALL YOUR NEIGHBOR, SEE A FRIEND. A VOTE FOR GREGORY IS A VOTE TO SHOW THAT ROCKCASTLE CAN SPEAK FOR ITSELF AND GIVE LEADERSHIP IN BRINGING RESPONSIVE REPRESENTATION TO THE DISTRICT.

*When You Vote This Election Day,
Speak Out For Rockcastle County.*

Besides her parents she is survived by: three brothers, Michael, Frankie and Charles Baker and one sister, Joyce Ann Baker, all at home; her maternal grandmother, Mrs. Alice Cress of Rt. 2, Mt. Vernon.

Funeral services were conducted Wednesday afternoon, May 18th at the Sand Hill Baptist Church by Bro. Lester Arnold. Burial was in the Sand Hill Cemetery.

Arrangements were by the Dowell & Martin Funeral Home. *****

Myrtle A. Bernard

Mrs. Myrtle Ann Bernard, age 46 of Dayton, Ohio and formerly of Rockcastle Co. passed away suddenly Thursday, May 12, in Dayton. She was born in Rockcastle Co. on May 27, 1930, the daughter of Judith Sams Hornsby and the late Harrison Hornsby.

She is survived by three sons, James Bernard of Elsmere, Ky., Gary and Terry Bernard; one daughter, Mrs. Regina Keene of Covington, Ky.; her mother, Mrs. Judith Hornsby of Livingston; two brothers, William

Hornsby of Ft. Richey, Florida and Charles Hornsby of Covington, Ky.; three sisters, Mrs. Ida Mae Sautler of Covington, Ky., Mrs. Laura Jackson of Florence, Ky. and Mrs. Martha Beatty of Rolling Hills, California and four grandchildren.

Funeral services for Mrs. Myrtle Ann Bernard were conducted Wednesday morning at the Dowell and Martin Funeral Home by Bro. Charles Shivel. Burial was in the Parks Cemetery. *****

Robert Angel

Mr. Robert Angel, 45 of Wildie, Kentucky passed away Wednesday May 11, 1977 at the Harrodsburg Hospital after a long illness. He was born on May 1, 1932 in Rockcastle County, the son of Mrs. Cordelia Jones Angel of Route 4, Harrodsburg, Kentucky and the late John Angel.

Survivors besides his mother are: his wife, Mrs. Dessie Deatherage Angel of Wildie; four sons, Jeffrey Angel of Somerset, Ky., Vernon, Bobby and Carl Angel all of Wildie; three daughters, Nora, Carolyn, and Juanita Angel all of Pineville, Ky.; three brothers, Dan, Willie and Hubert Angel all of Rt. 4, Harrodsburg, Ky.; four sisters, Mrs. Ida Bays of Pineville, Ky., Mrs. Nora Colson and Mrs. Lora Deatherage both of Louisville, Ky. and Mrs. Almedia Webb of Akron, Ohio.

Funeral services were conducted Saturday, May 14, 1977 at the Cox Funeral Home Chapel with Bro. Harvey Pensol officiating.

Burial was in the Red Hill Cemetery. Cox Funeral Home was in charge of arrangements. *****

Gospel Singing At Ottawa Baptist

A gospel singing will be held at the Ottawa Baptist Church on Saturday night, May 21 at 7:30 p.m. Featured will be the Psalmist Quartet. Everyone is invited to attend this singing.

"Thank You" From Livingston Elementary School

The Livingston Elementary School Faculty and Staff would like to extend their sincere thanks and deep appreciation to everyone who helped in making our annual spring festival a success.

The school raised a total of \$2,488.47 in this year's program. This goal will be used to purchase supplementary classroom materials and equipment, and for general improvements of the building.

We are very proud of our students and their efforts in continuing to strive for a better school, and in seeking

improvements in the total school program. Activities of this type also provide excellent learning opportunities for the student, and the working together of parents, students, and faculty enhances and creates good school spirit.

Again we thank each and every one for your continued support of our school. Winners in the contest were: Anis Durham, daughter of Mr. and Mrs. Wayne Durham, Princess; Greg Mink, son of Mr. and Mrs. Mike Mink, Prince; Becky Fain, daughter of Mr. and Mrs. Billy Fain, Queen; and Scott Robinson, son of Mr. Billy Robinson, King.

Rockcastle Recollections

By John Lair

Our county's most important watercourse, the Rockcastle River, was of major importance in the early history of Kentucky and was frequently mentioned in earlier reports. Discovered in 1750 by Dr. Thomas Walker it was given by him a name from which it was soon changed to that it presently bears by a party of hunters from South Carolina who hunted along its shore in 1766.

The first sizeable hunting party crossed the river in 1763 on their way to hunting grounds in the area of Crab Orchard. They spent some time hunting on this river, during which time Henry Skaggs is said to have discovered and named one of its tributaries, Skaggs Creek. It would thus appear that Skaggs Creek was named even before Rockcastle River was given its present name.

Rockcastle River is one of the most scenic streams in the state, especially that portion of it known as "The Narrows," near where it is crossed by Rt. 50. It is "The Narrows" that accounts for it being included in the nation-wide group known as "Wild River." This designation has long been a bone of political contention between various groups with sundry interests at stake and the eventual outcome is still a matter of considerable doubt. It is unfortunate that this area is not easily available to tourists—its scenic grandeur would make it a favorite of

many sightseers.

"The Narrows" is the result of the river bed being obstructed by the many huge boulders which have fallen from the high cliffs bordering it. At different stages of the stream it sometimes becomes so narrowed and obstructed that its largest fish cannot pass upstream. That was especially true within my own memory, when huge "red hoes", a member species of the sucker tribe, were sometimes found of great size. Since their extinction only an occasional catfish reaches a size where he finds certain passages a bit crowded. I remember years ago crossing the river over "The Narrows" where the current rushing between boulders might be ten feet deep and no more than fifteen inches wide. At certain stages during spring tides the river presents whitewater stretch through the Narrows that would test the skill and the courage of the most daring canoeist. Years ago a doctor from Louisville on a fishing trip along Rockcastle River tackled "The Narrows" on a bet. He lost his canoe, his fishing tackle, his equipment and almost lost the doctor. It was a long time before anybody tried it again at highwater stages. Visit "The Narrows" of Rockcastle River sometimes and you'll probably wonder why all the excitement about Red River Gorge.

I don't know when "The Narrows" was first discovered and I have never seen an early account of them in any history I

have ever read. I do not know when they were first brought to public attention. I do not know whether they gradually formed, over long period of time, or if they were brought about almost instantaneously by a landslide. Since Dr. Thomas Walker in the very first written account dealing with the river and its surroundings makes no mention of this phenomenon I have wondered if possibly it has developed since his visit, in 1750; either that, or he did not hit the river until some point well above them, as I am sure he would not have failed to make mention of such an unusual scene had he come upon it. As soon as I can find time I want to try to go into this matter more thoroughly. In the meantime, if anybody has already done so I will greatly appreciate hearing from them.

I believe the first harnessing of the Rockcastle River for commercial purposes was done by Morcedia (Mudkins) Mullins. Richard Singleton, a source of much valuable information on such matters, says that Morcedia and his four sons built a log and stone dam across the river about three fourths of a mile above the mouth of Parker's Creek (where Boone crossed the river on his way to effect the settlement of Boonesboro) and put in a combined grist and sash sawmill which they operated from about 1805 to 1820. No doubt there were other small water mills along the river in succeeding years, but the next big dam was put in at Livingston, Ky., just above the present L&N Railroad Bridge there. A large band sawmill was put in operation there about 1900 and continued active until comparatively recent years. Log booms were built to catch and hold the many

thousand feet of saw logs floated down the river from a bi-logging operation in Jackson County, in which county Rockcastle River has its beginning.

Rockcastle River was long noted for excellent fishing. Years ago I read an article in Field and Stream stating that it was at one time the best pike stream in America. I can remember when many large pike (which we know as "salmon") were taken from it in the early spring of the year. Good catches were made up Horse Lick Creek, one of the Rockcastle's most northern tributaries. Wealthy businessmen from Louisville, Kentucky, and other sections of the country, had elaborately furnished log cabin camps in areas that could then only be reached by water. Hise Davis had such a fishing camp a few miles up river from Livingston when I taught school there around 1917 and I had many invitations to share his hospitality, all of which were eagerly accepted. In addition to big strags of pike, or salmon, we often came back with "handsaw-size" bass that made mighty good eating.

Another good source to catch a mess of fish was the big log and stone dam which impounded the water for this mill and its catch-basin. Toward the bottom of the dam, on the river side, there were several cracks, or openings, through which the water poured out. We boys would each select one of these openings that would be covered with the outspread fingers of both hands, then all we had to do was wait until something came within our grasp and clamp down on it, with the dam. Oldtimers loved to tell of an old fellow who, with his boys, were the most frequent offenders. The wholesome way to catch fish in the Rockcastle River, however, was by the Durham fish trap, which stretched all the way across the river and was in use for many years. The Durham family, early settlers along the Rockcastle, patterned their trap after the ones used by the pioneers and the Indians before them. It was made of poles and hand-rived slats and though of crude construction was a marvel of efficiency and contributed largely to the support of the family and their neighbors.

In the more remote upper reaches of the river, more or less off the beaten track, blasting powder, and later dynamite were largely employed in the taking of fish. Gamewarden's made frequent incursions into the suspected communities but had very little effect on the practice. Oldtimes loved to tell of an old fellow who, with his boys, were the most frequent offenders.

An ambitious young gamewarden from the state capital seemed to put an end to their activities. He went to the old man's home with the story that he was on his vacation and wanted to do a little fishing and would like to board in his home for a couple of weeks. After a few days, he got around to talking about dynamiting for fish. The old man agrees that a lot of it went on and readily admitted that he and his boys, sometimes took part in it, offering to take his guests along on their next expedition. A few nights later they all got in the boat and pulled up the river to a deep hole they had often dynamited. Arrived at the desired spot, the old man rigged up a stick of dynamite, lighted the fuse and suddenly handed it to the warden to hold. He immediately became frightened and

threw it as far as he could in the river, when it exploded. The old fellow then read the warden a lecture on the evils of dynamiting fish and told him he had just committed a serious crime but he and his boys didn't like to see anybody get in trouble with the law and that they would not report him. He did advise him to get out of the neighborhood as quick as he could, before somebody found out what he had done and reported him. They say the warden promptly took his advice and never came back.

Coal Operators Assn. To Meet May 19th

The Kentucky-Tennessee Coal

PSC Approves CCN For RECC

The Kentucky Public Service Commission (PSC) has approved a certificate of convenience and necessity for the Jackson County Rural Electric Cooperative Corp., authorizing the construction of new lines, pole replacements, meters, transformers and general system improvements. According to the April 29 PSC order, the \$2,244,800 project will be financed through a \$1,595,000 loan from the federal government and a \$648,000 loan from the National Rural Utilities Corporate Finance Corp. The construction is the first half of a two-year work plan. The project request was discussed at a public hearing in the commission's office April 21.

To The Voters of the 4th Magisterial District

RE-ELECT

W. H. "Bill" Wren
4th District
Magistrate

As you all know, I am running for Re-Election on May 24, 1977. For the past three and one-half years, I have served my district and the county to the best of my ability and, if Re-Elected, I will continue to do my very best for my district and the County.

I will not be able to see all of you before the Election. I am taking this way to tell each and every one of you that your vote and support will be greatly appreciated on May 24, 1977.

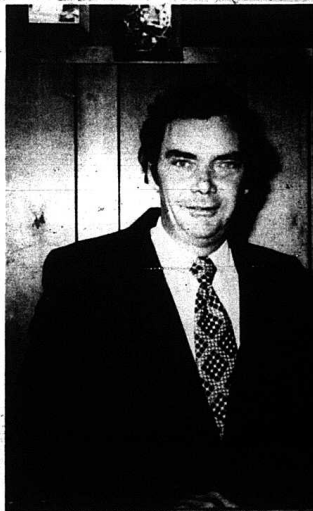

W. H. "Bill" Wren

CHARLES D. HOLBROOK

for

County Judge Executive

As the Campaign nears disaster for 6, and Victory for 1, my concern has and will be that all people should and will share in an open door policy of Government. It is with this thought in mind that I wish to enumerate my feelings as to how County Government will function and serve the Citizenry, if I am chosen by the people on May 24th, 1977. Surely, we will not stand idly by and be deceived again and again.

No additional taxation will be cast upon the people. I will seek county-wide and community involvement in obtaining county-wide Fire Departments and an all-volunteer auxiliary police force to fight the alarming crime rate that has engulfed our fine county. This will decrease insurance rates and will cost the taxpayers nothing.

An upgrading in all phases of Coational Training will be stressed. I will not act hastily in any major decisions concerning the people, proper procedures will be enforced, through the people and what I consider the foundation of All County Governements - the Magistrates.

I will do my best in locating factories within our county. I will restore Fiscal responsibility to County Government, with a lower tax base for all Citizenry.

IN CLOSING: My platform is clear, and to me they are of vital importance to all Rockcastle Countians. I would like to be given an opportunity to achieve these goals.

It is now time, for you, the people to determine your fate. Choose wisely.

Charles D. Holbrook

I STAND ON MY RECORD

I have forgotten the people when I was elected, as has my opponent. I have never passed them on the street without speaking.

I am a lifelong Republican, unlike my opponent who changed his registration from Democrat to Republican on June 13, 1968. My opponent was a registered Democrat for eleven years.

In last week's newspaper, my opponent accused me of removing the taxes from gravestones, caskets and generally of passing legislation that prevented the State from taxing the dead. In this he is right, for once, I did not oppose this taxation. Does he favor it? Is it right to tax the dead?

I gained nothing personally from this. I acted in the interest of the people. In the future, I will work to remove any unfair tax as I did in this case.

I have never forgotten and will never forget the people when elected.

I STAND ON MY RECORD

RE-ELECT YOUR REPRESENTATIVE

William Harold DeMarcus

Come To 4-H Camp

Most 4-Hers in Rockcastle County know about 4-H camp. But I'm sure there are some members and parents who want to know more about it. Here's some questions I'll answer:

What's happening at camp? 4-H camp offers a variety of educational, fun and exciting things. Some of the things you can do at camp are swimming, boating, archery, hiking, sports, crafts, folk games, nature and conservation studies, vespers and campfires.

Where is 4-H camp? The 4-Hers from Rockcastle County attend the J.M. Felner Memorial 4-H Camp near Levi Jackson State Park at London, Ky.

When is 4-H camp? The regular camping session will begin at noon on Monday, July 18, and continue until Friday afternoon, July 22, 1977. Fourth graders have a special camp beginning Tuesday, June 7 and ending Friday, June 10. There will be only nine and ten year olds at this camping session.

Who will be at camp? The 4-H camp has a permanent staff consisting of a manager and instructors for the entire summer. 4-H agents from the counties attending the camp and teen counselors and club leaders will also be on hand to keep order.

Where do you stay while at camp? There are eight cabins for boys and eight for girls with twelve to fourteen in each cabin. Your cabin mates will be about your age and from Rockcastle County. An advisor will stay in each cabin. Each camper brings his or her own sheets, blanket and pillow as well as towel, wash cloth, soap, etc. 4-Hers will be able to live in a cabin with their friends as well as with new friends from this county. There will be plenty of opportunities to meet youth from other counties. Learning citizenship and getting along with others is an important part of 4-H camp.

What does it cost to go to camp? The registration fee for 4-H camp is \$20.00. This includes three good meals a day from noon Monday through noon Friday and snacks to keep you going

between meals. Also included in the fee is lodging, transportation, insurance, swimming fees and use of camp equipment. The craft items and souvenirs are purchased. The 4th grade camp fee is \$16.00 since they are at camp one day less than the older campers.

How do you get to the camp? The 4-H Council of Rockcastle County and the Mt. Vernon Lion's Club help provide transportation to and from the camp. Parents are welcome to bring their 4-Hers to camp and to visit the camp on parent's night (Thursday) at the camp.

Who can go to camp? Any 4-Hers who wishes can attend the 4-H camp. The ages for regular camp are from fifth to eighth graders. Fourth graders can attend the special fourth grade camp or the regular camp with a brother or sister in 4-H.

When do you have to register? The registration form and camp registration fee of \$20.00 can be given to the 4-H leader before the end of school. Or it can be brought or sent to the County Extension Office before July 1, 1977 (June 1 for 4th grade camp). Registration forms and more information can be obtained from Cheryl Witt, County Extension Office, Mt. Vernon, Ky. 40456. Plan now to attend 4-H camp. Don't miss out on the fun!

Note to community minded persons: "Help 4-Hers learn through camping". Are you wondering what you can do to help youth of Rockcastle County? Many young persons want to attend 4-H camp but their families cannot afford it. Help these youngsters learn from others and from many camping experiences. You can do this by sponsoring a 4-Her at camp. If you or your organization would like to sponsor one or more 4-Hers, send a check to the County Extension Office, P.O. Box 297, Mt. Vernon, Kentucky 40456. The fee is \$20.00 per youth. (Please make checks payable to "4-H Council").

"Genius is born, not paid."
Oscar Wilde

Cedar Rapids Corner

There will be a "School's Out" Party at the Cedar Rapids Recreation Center Tuesday night, May 31 from 8 to 11 p.m. for members and their dates, grades 8-12. Admission will be \$2 per couple and reservations must be made by May 27th by calling 256-2382 or 256-5303. Music will be provided by the Backstreet Company Band. In the latter part of June, there will be a swinparty for kindergarten thru seventh grade members. More details will be given in later columns.

A Family Pot-Luck Supper will be held at the clubhouse Saturday night, May 28th which will serve to kick-off the summer activities at the club. Bring your family, a covered dish and join in the fun.

On June 2nd at 7:30 p.m., all lady members of the club are asked to attend a meeting at the clubhouse. The meeting will be to discuss activities for the coming summer.

Cedar Rapids Menu May 20 & 22

FRIDAY
Seafood (fish, shrimp, oysters), French fries, onion rings, baked beans, grits casserole, choice of salads, cornbread & rolls, fruit cobbler.

SUNDAY
Roast beef and brown gravy, baked ham, mashed potatoes, green beans, baked carrots, candied sweet potatoes, biscuits and muffins, choice of salads, homemade cream pies.

GOOD EXAMPLES

Martha Blazer, Kentucky Historical Society (KHS) registrar, makes minor repairs on an 1879 silk brocade and taffeta wedding dress (above). The KHS needs such fashions from the 1870s and 1880s for a Victorian display, to be installed this summer in the museum's permanent exhibits. The display, like others at the museum, will illustrate the social history of Kentucky. Examples of other items needed for the exhibit include the turn-of-the-century high top shoe being examined by museum curator Bill Long, (above left), and the 1893 wax blossom head wreath and man's white kid wedding gloves being recorded by Long and Blazer as donations (left). Those who wish to contribute clothing to the museum's collection should contact Gen. William Buster by writing the Kentucky Historical Society, P.O. Box H, Frankfort, Ky. 40601, or by phoning (502) 564-3016. Kentucky Department of Public Information Photos.

AUCTION

Of
Mr. and Mrs. Bruce Brumley's
20 ACRE FARM more or less
Sat., May 28, 1977-1:30 p.m.
Near Roundstone, Rockcastle County, Ky.

LOCATION: Approximately 7 miles South of Berea and 9 miles North of Mt. Vernon. Turn off U.S. 25 at Parsons Gas Store at Roundstone onto State Road 1617, the Scaffold Cane Road. Go approximately 1 1/2 miles, follow auction signs to the sale.

Mr. and Mrs. Brumley have purchased property elsewhere and have authorized our firm to sell this highly desirable farm for the high dollar.

The farm consists of 20 acres, more or less, of which 19 acres is cropland. The farm fronts on State Road 1617. There is an effective tobacco allotment for 1977 of 906 lbs.; however, the basic tobacco allotment is 846 lbs. Stock water is provided by a pond.

Improvements consist of the above picture 7 room frame house. The house has 4 bedrooms, living room, kitchen, and utility room. The house has hardwood floors, washer and dryer hook-up, water for the house is provided by a well, and the house is heated by electric-wood burner. Other improvements include the above pictured barn which is a combination stock and tobacco barn and a stripping room and tool house.

If you're in the market for a good small farm at your own price, then don't miss this sale!!!

Billy Kirby

Steve Bullen, Rockcastle County Forester, left and Mike Skinner, Service Forester, right, of the Kentucky Division of Forestry, examine with James W. Lambert of Mt. Vernon an inferior

tree that was eliminated from the stand by girdling. The practice will allow remaining crop trees to grow at a faster rate. This practice was completed under the Forestry Incentives Program.

management in 1976, and led the state in accomplishments under the Forestry Incentives Program. According to figures recently released by the Agricultural Stabilization and Conservation Service (ASCS), 1,104 acres of timber stand improvement and 11 acres of tree planting were completed under FIP last year. FIP is a government cost-share program, administered by the ASCS Office, which reimburses landowners up to 75% of the cost for forest management work. Foresters from the Kentucky Division of Forestry work with the timberland owners to determine which practices are needed and how the particular practices should be carried out.

Among the outstanding participants were Cleft Rock, Inc., headed by Robert W. Fields. One hundred acres of natural hardwood timber on Cleft Rock land were improved, and a fire access road and fire break protecting 400 acres was constructed. The timber stand improvement work included removing low value or poor quality trees from the stand to provide more growing space for desirable trees.

James W. Lambert also participated in the program by thinning a pine plantation. The loblolly pines, planted by Mr. Lambert 15 to 20 years ago, had reached sufficient size to where some trees had to be removed to allow growing space for the residual stand. A small plantation of white pine was also thinned and pruned by Lambert.

Willis Hamlin returned 5 acres of site land at Poplar Grove to timber production by planting 5,000 white pine seedlings. Besides helping Hamlin with the cost of the seedlings, the ASCS office also provided funds to help prepare the site for planting.

Harold Ballinger, Rockcastle County ASCS Director, acknowledged the help of County Ranger Steve Bullen in promoting the program. Burgess King of Livingston was also instrumental in the accomplishment, contracting for forestry work with landowners who choose not to do the work themselves. Landowners interested in improving the quality and value of their timber stands, or in planting tree seedlings, should contact Steve Bullen, or the ASCS Office in Mt. Vernon.

Consumer Comments

By Robert F. Stephens
Attorney General

What you see is what you get! This popular phrase sums up the meaning of the "as is" clause in used car contracts.

The Attorney General's Division of Consumer Protection receives phone calls daily from consumers about used cars. Generally, their complaint concerns a recent used car purchase which is not functioning. The consumer usually thinks that the car dealer must fix the car or reimburse them for repairs. But, the car dealer is under no obligation when the consumer has signed "as is" contract, which means that the consumer is accepting the car just like it is for better or worse!

When the Consumer buys a used car, the contract usually says the consumer is buying the car "as is" or has a 30-day warranty under which the dealer pays half the repair costs while the consumer pays the other half. These contracts mean what they say.

Regardless of what the salesperson said, or what seems fair, an "as is" contract means that the consumer has purchased the car without any guarantee or warranty whatsoever. The dealer is under no obligation if it falls apart.

If the contract states that the warranty is for 30 days, with the repair costs split between the dealer and the consumer, check the details. Many times there is a clause requiring the work to be

done at a particular place and the cost may be higher than average. Remember that if the warranty is for 30 days, the dealer does not have to do anything if the car begins to have problems or stops operating on the 31st day after the sale.

To guard against later disputes, make sure you understand the contract and that all the terms of the sale are written down and included in it. Find out the terms of the contract before you purchase the car. Don't blame the car dealer when the sale agreement is clearly written out in the contract. The responsibility to know what you are signing is yours.

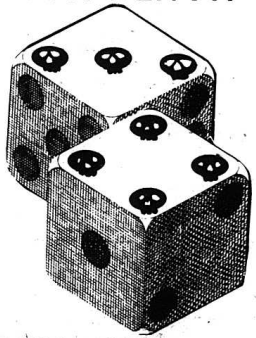

If you have a consumer complaint, contact the Attorney General's Division of Consumer Protection, Room 34, The Capitol, Frankfort, Ky. 40601 or call our toll-free hotline 1-800-372-2960.

A PUBLIC SERVICE MESSAGE OF
 THE KENTUCKY DEPARTMENT OF TRANSPORTATION
 PUBLISHED AS A COURTESY OF THIS NEWSPAPER.

To The Citizens of The 5th District

My fellow citizens, friends and neighbors in Rockcastle County and especially in the 5th District which includes East Livingston, East Mt. Vernon and our Orlando precinct.

This is Ernest Mason, your Magistrate of our respective 5th District.

As this election year comes not to a close or an end, but to a new beginning of a four-year term of newly elected officials, I want to say that I am not seeking to be re-elected to this office against anyone -- although there are four other respective candidates for this office.

As I have said before, and as I have proven to you for the past three and one-half years, I am for a better road program for our 5th District.

Let us also not forget our family cemetery roads which were my major promise and pledge four years ago. This ladies and gentlemen, I have improved.

Let us not forget the sick and those who need and will have ambulance service at all times throughout Rockcastle County.

I am for the achievement and the progress of any program for all our citizens of Rockcastle County -- young and elderly alike.

My friends and neighbors, you know my qualifications and my performance for the past three and one-half years as your magistrate. I feel deeply in my heart that I can and that I will continue to carry out these pledges that I have made to you.

Most of you have encouraged me to seek re-election for this most important office, to continue to work with the Fiscal Court and the people involved in spending our money for the best benefit for all our citizens of Rockcastle County.

In conclusion, I humbly ask for your vote and for your support to re-elect me to be your magistrate for the next four years.

THANK YOU VERY MUCH

Your Friend,

Ernest Mason

COME IN AND TALK WITH ONE OF OUR REALTORS about a lot in Rockcastle's Newest Subdivisions - Happy Acres. All the lots are large with city water, blacktop street and restricted for buyer's protection.

UNSUNG HEROES

Planes, 'Copters Go Where Tractors Can't

Over areas such as vast stretches of timberland, flooded green rice fields, and even the level land of the Midwest, agricultural aircraft are doing the jobs tractors never could.

Agricultural aviators are seeding, fertilizing and treating crops and timber where the area is too vast, the plant population too dense, and the terrain too rough for ground equipment.

"A perfect example is much of the nation's 47 million acres of valuable forests," points out F. Farrell Huges, of the National Agricultural Aviation Association. "Prior to aviation there was little that could be done to save forest under attack by disease organisms. But today, by air application we are saving millions of acres of trees. We even plant trees by air."

Rice, which is grown in water, is an economically viable crop in the U.S. only through the use of air application. The high cost of hand labor required to cultivate flooded rice fields would prohibit production. "So through aviation the U.S. can export a surplus of two million metric tons of rice each year," says Huges.

Densely planted crops, such as wheat and hay, are also cultivated by air. Ground equipment can damage plants and is less efficient in large fields. Fields of any crop, mucky from rain or irrigation, can be treated from the air where ground equipment could not be brought in until the land is sun dried.

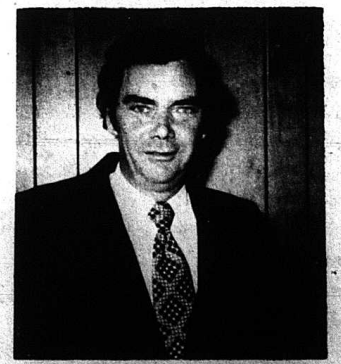

Farmers, ranchers, and foresters benefit from the fact that airplanes and copters go where tractors cannot. But so does everyone else, for that is just one of the ways this industry helps cut the nation's food bill by \$15 billion.

The Senior Citizens Crafts Auction took place Saturday at the Rockcastle County Library. The event drew a large crowd part

Willard Bullock of Ford Realty and Auction Co. and Janet Bradley, Senior Citizens Director, managed the auctioning chores at Saturday's Senior Citizens Crafts Fair and Auction. Most of the items were projects of Rockcastle County Senior Citizens and several local merchants donated items.

How To Prevent Suicide

Before you finish reading this article, someone in the United States will try to kill himself. At least 60 American will have taken their own lives P-A6 The Mt. Vernon Signal Thursday, May 19, 1977

by this time tomorrow. Why Do Men Kill Themselves? One theory on why men kill themselves that still is highly regarded today was proposed initially by the French sociologist Emile Durkheim, late in the 19th century. According to

Durkheim, there are three basic types of suicide, each as a result of man's relationship to his society. He labeled them in "altruistic", the "egoistic", and the "anomic". In this article we will deal with the "anomic" because it is the one that is associated with the devastation that has occurred in Southeastern Kentucky.

The "anomic" suicide occurs when the accustomed relationship between an individual and his society is suddenly shattered. The shocking, immediate loss of possessions, a job or a close friend is capable of precipitating anomic suicides. Clues to Suicide

Almost everyone who seriously intends suicide leaves clues to his imminent action. Sometimes there are broad hints; sometimes only subtle changes in behavior. But the suicide decision is usually not impulsive. Most often, it is premeditated. Of course, it may be done on impulse, but usually suicide is a decision that is given long consideration.

How You Can Help

Do take seriously every suicidal threat, comment, or act. Suicide is no joke. Don't be afraid to ask the person if he is really thinking about committing suicide. The mention won't plant the idea in his head. Rather, it will relieve him to know that he is being taken seriously, that he is better understood than he suspected.

DON'T dismiss a suicidal threat and underestimate its importance. Never say "oh, forget it. You won't kill yourself. You can't really mean it. You're not the type." That kind of remark may be a challenge to a suicidal person. Such a person need attention, no dismissal. Anyone desperate enough can be "the type."

DON'T try to shock or challenge the person by saying "Oh, go ahead and do it." Such an impatient remark may be hard to hold back if a person has been repeating his threats or has been bothersome to have around. But it is a careless invitation to suicide. DON'T try to analyze the person's behavior and confront him with interpretations of his actions and feelings during the moment of crisis. That should be done by a professional.

DON'T argue with the individual about whether he should live or die. That argument can't be won. The only possible position to take is that the person must live.

DON'T assume that time heals all wounds and everything will get better

Due to my job and the short time before the election I find it impossible to see each of you personally so I've chosen this means, hopefully to better acquaint you with my family and me.

The above photograph shows my family: Shannon 19, Renee 18, Lisa 14, Shelley 13, Evelyn, my wife, and me.

I'm a veteran of the United States Army having served most of my career in Korea during the Korean Conflict.

Having been a life-long resident of Rockcastle county I know the office of Sheriff is of the utmost importance for the safety and welfare of our families and property. If elected as your next sheriff I promise to work with you, our most important resource, to improve these conditions. The sheriff's office will be maintained with honesty, hard work and cooperation with all governmental agencies necessary for progress in our county.

For the sake of your family and mine, let's work together so our county may become an even better place for both young and senior citizens to work and live.

My family and I will greatly appreciate your vote and influence.

Thank you,

Home Line

**BY CHERYL WITT
COUNTY EXTENSION AGENT
FOR HOME ECONOMICS**

**Look at Boxed Items—
Before Leaving Store**

When you buy something that's neatly boxed up and sealed, it could be that you're taking home "a pig in a poke."
Cartons that appliances and other items are packed in look so sturdy that you usually don't think about the possibility of their being damaged or broken. Maybe not, but don't take a chance. There is a slight possibility of damage during shipping and handling or of a mistake on an assembly line.
You have every right to open the carton and examine the goods before taking it home. If the store people object, then shop elsewhere.
By looking before you leave, you can save yourself trouble later on, just in case all is not what you expected.

**When is Free Vacation
Not Free Vacation**

Watch out for that "free vacation." It may end up costing you a bundle. Every year the Federal Trade Commission and local Better Business

Bureaus receive hundreds of complaints from vacation-trip "winners" who didn't get something for nothing after all.
Here are some points to consider when you pay that registration fee or answer a come-on question for a "free" vacation.

Most of the vacations are come-ons for land sales.
Very few certificate holders ever get to stay in the named hotel. Sometimes they're offered no accommodations at all.

Phrases like "near Miami" are often misleading.
Free tickets to tourist attractions may not be so great if your motel is over 50 miles away.

Most vacation offers pay only for the motel room, not transportation or food.

Some offers are conditional - good only in slack season or midweek, or winner must be over 21, under 65, married and accompanied by spouse.

Offers of cash certificates and well-known household products are sales promotion tactics used to sell items at higher prices.

Sometimes it really can be a good deal. Just check it out carefully first, so you know what you'll be getting free, and what you'll have to pay for.

50 YEARS AGO - a Mullins Family Reunion was held at the home of Charles A. "Biggie" Mullins at Wilbers [now Route 2, Orlando]. Mr. Richard Mullins brought a picture preserved since

that reunion. In the photo are, front row, from left: Dallas Mullins, Bedetta L. Mullins, Albert Mullins, C.A. "Biggie" Mullins, Jacy Mullins, Gertrude Mullins,

NOTICE OF PUBLIC HEARING

The U.S. Department of Housing and Urban Development has invited the City of Mt. Vernon to submit a final application for community development block grant funds. The project will be directed towards acquiring and clearing a site for later use as a housing for the elderly project. In order to inform the public about the project and to secure public response, two public hearing will be held, and all citizens are urged to attend. The first public hearing will be held at 7:30 p.m., City Hall, on Thursday, May 26, 1977. The second hearing will be held on Tuesday, May 31, 1977 at City Hall at 7:30 p.m. At both hearings, full information about the project and program will be reviewed, and citizen comment will be requested.
Roland D. Mullins, Mayor

TRIPLEHEADER

AUCTION

Of Mr. and Mrs. John G. Eaton's

HOUSE AND LOT

Sat., May 21, 1977-1:30 P.M.

LOCATED: On Poplar Street in the city limits of Mt. Vernon.

Mr. and Mrs. Eaton have purchase other property and are offering this desirable property for the high dollar.

The house has four bedrooms, living room, kitchen, utility room and bath. The house is paneled and carpeted in four of the rooms. The house is heated by fuel oil furnace, has city water and sewer, storm doors and windows, built-in cabinets, fireplace, large front porch, lots of closet space, and washer & dryer hookup.

The house is situated on a nice lot measuring 120 ft. x 120 ft. and, in addition to the house, there is a garage and storage building.

Here is your opportunity to buy a nice home in town within walking distance of town, churches and grocery stores.

TERMS: 20% DOWN DAY OF SALE, BALANCE IN 30 DAYS WITH DELIVERY OF DEED.

AUCTION

Of Mr. and Mrs. John G. Eaton's

BUILDING LOTS and HOUSES & ACREAGE

Sat., May 21, 1977-2:30 P.M.

LOCATED: On Old U.S. 25 Just South of Main Street, Mt. Vernon, Ky., near the Old Armour Creamery Bldg.

These lots are all large lots, each measuring approximately an acre or more with ample room for a house or mobile home and garden. The lots front on a blacktop road and have city water. Each of the lots offer a beautiful view of downtown Mt. Vernon.

No. 1: HOUSE AND ACREAGE - This house has two bedrooms, living room and kitchen. It is in need of some repairs. This house is situated on approximately 1 acre overlooking downtown Mt. Vernon. This parcel of land could easily be divided into lots or tracts and it has several ideal building sites.

No. 2: HOUSE AND ACREAGE - This house has living room, kitchen and four bedrooms. The house is in need of repairs. There is city water available to the property and it fronts on a blacktop road. The lot has beautiful shade trees and a nice garden space.

TERMS: 20% down day of sale and balance in 30 days with delivery of deed.

"The law enforcement ticket"

Since there are just a few more days before you will be going to the polling places to vote for the candidates of your choice for the county offices, I would like to make one last appeal for your vote for the office of Sheriff.

If you elect me as your Sheriff, I pledge to you that I will give you strong law-enforcement, I will protect your churches, your homes, your schools and your schoolchildren. These things I intend to do.

We will also administer the business of the Sheriff's office efficiently and courteously. We have been in most of the homes throughout the county and the people have met both my deputies. These are the men who will be in your Sheriff's office.

Since this will be my last appeal, I want to thank everyone for their kindness and encouragement and if I'm elected, I'll not betray your trust in me.

Miss Cynthia Wells

Cynthia Wells Chosen For Ambassadors Band

Miss Cynthia Wells has recently been notified that she had been selected for membership in the American Musical Ambassadors Band. This highly select concert band, composed of outstanding high school and university students, will tour several European countries next July 23-August 14.

Miss Wells, daughter of Dr. and Mrs. Kenneth H. Wells (Mrs. Wells is the former Edna Mullins, formerly of Mt. Vernon and a former teacher in Rockcastle Co. Schools), is a member of

Somerset Employee Received KU Award and Medal

Charley Wayne Phelps, a serviceman for Kentucky Utilities Company at Somerset, recently received awards for his resuscitation of a young man following a water-related accident last summer in Laurel County.

The company's Robert M. Watt Life Saving Medal, the President's Medal of the National Safety Council and accompanying certificates were presented by KU President W.A. Duncan at a regular safety meeting in the Somerset District Office.

The wards cited Phelps quick response to calls for help as a 21-year-old Delbert Bryant struggled in the Bee Rock recreation area. Bryant disappeared after stepping into a deep "pothole" while wading in a relatively shallow area. He couldn't swim.

Bryant was pulled from the water within minutes and Phelps began mouth-to-mouth resuscitation. Bryant resumed breathing in about five minutes and was then taken to a London hospital. He is a resident of the Dykes community in Pulaski County.

Phelps joined KU in February, 1975. He is a native of Pulaski County and lives at Somerset. He and his wife, the former Myrtle Alisp, of London, have two children.

The Watt Award was named after the late Robert M. Watt, who was president and board chairman of KU. Established in 1951 and made retroactive to 1931, the awards have been given to 34 persons who have performed successful resuscitation.

KU's employee training program includes instruction on resuscitation. The safety council's medal was first presented in 1928 and as of February, 1977, the medals have been presented to 2,865 persons. It is the council's only award for the saving of human life.

the Somerset High School Band directed by Ray Landrum. Mrs. Maxine Lefever, an assistant director with the Purdue University Bands and director of the AMA tour, has announced that Professor H. Robert Reynolds, director of bands at The University of Michigan, will serve as musical conductor for the 1977 AMA tour.

The tour group will visit Paris, Lucerne, Lugano, Milan, Venice, Vienna, Innsbruck, Salzburg, Gouda, Amsterdam and London. Highlights of the tour will include concerts in the concert hall and parks of Europe. Students will visit many sites of musical and historical importance as well as the popular tourist attractions.

The purpose of the tour is to foster cultural and personal relationships between students of the United States and the people of Europe. In past years, students of the AMA tours, through their high standards of musical excellence and through equally high standards of behavior, have indeed served as fine representatives of American youth and as ambassadors of good will through their music for audiences throughout Europe.

ELECT G. H. "Hobe" GRIFFIN

County Judge Executive

To The Voters of
Rockcastle County

I want to take this last opportunity before election day to thank the citizens of Rockcastle County for the splendid way they have treated me as I have visited in their homes these past few weeks during my campaign. I have tried my best to reach all of the citizens of the county and, as most of you know, I have stated my platform.

If elected, I will work hard to make you a good County Judge Executive. I will devote much concern to each need of the county—regardless of where the need lies. Voters, I feel that every part of our county is important. In order to have a good county government, we have to reach out over the whole county and meet the needs—not just a few places. I want to treat every citizen fairly.

REMEMBER TO PULL LEVER NO. 2 ON OLECTION DAY
FOR YOUR COUNTY JUDGE EXECUTIVE.

Thank You,

G. H. "Hobe" Griffin

Pooled Tobacco Volume Highest Since 1970 Crop

By Bennett Roach

The windup of another burley tobacco season, latest on record, almost overlapped the beginning of the new 1977 crop. As June transplanting time nears, reports of planted growths are generally favorable over the burley belt.

Processing of tobacco taken under loan in the 1976-77 selling season extended almost to the middle of May and delayed the season's final report, which is just now being issued, on leaf taken under loan by the Burley Tobacco Growers Cooperative Association. The total pool receipts reached 36,807,806 pounds, said Alvin Beckley, executive secretary-treasurer. This is the largest amount for any season since 1970.

Percentage-wise the volume of pool tobacco is about the same as last year, when the total taken under loan was 31,657,806 pounds. The larger crop accounts for the difference, said Beckley. In the five states of Kentucky, Ohio, Indiana, W. Virginia and Missouri where the price support program is operated by the Burley Co-op, the total just marketed amounted to 537.4 million pounds as compared with 504.9 million the previous year.

Largest percentage was in the good and top quality grades, said Beckley, although some of every grade was represented. Indicating an improved crop, with more high-quality tobacco, was the predominance of "B" and "C" grades taken under

State Foster Parent Week is May 15-21

This week has been declared Kentucky Foster Parent Week by Governor Julian Carroll.

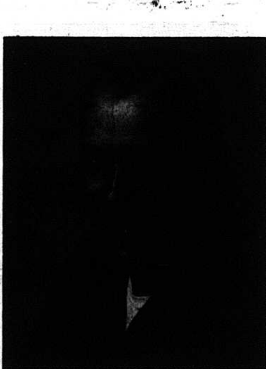

There are presently nine foster homes in Rockcastle County and twelve foster children.

These foster parents have a difficult often thankless job and I would like to take this opportunity to highly commend them and to thank them for their efforts in providing excellent care for our children.

Phyllis J. Shepherd
Social Worker
Dept. of Human Resources

The Mt. Vernon Signal Thursday, May 19, 1977 P-A9

To the Voters of Rockcastle County

Before entering this race, my wife, Glenda, and I agreed that all prisoners will be fed wholesome food from our table. This does not include chicken noodle soup.

Visitors will always be welcome to visit prisoners while they are in my care and preachers will always be welcome to visit and talk with prisoners.

Privacy will be made possible among visitors and prisoners by enforcing the rule of "No Loafing in the County Jail Parlor." This I will enforce, if elected, and it certainly needs to be done. I will also keep a clean jail at all times and each prisoner will be allowed to bathe on a regular basis.

I will work fairly and honestly with county law enforcement officials in having and keeping a clean and decent jail that all citizens can be proud of.

No prisoner will be whipped or threatened in the county jail.

If you are concerned about the safety and welfare of persons lodged in the county jail, then pull level number 4 on May 24th and Vote for Carl Kirby for Rockcastle County Jailor.

THANK YOU,

Carl Kirby

Republican Candidate for Jailor

pol. adv. pd. for by candidate

colonists arrived in Virginia and now is all but universally grown.

The month of May is also the time to set out eggplant. This is another ancient vegetable of good eating and more or less romantic interest. Spaniards of the 16th century called it "Apple of Love," while botanists of Northern Europe of the same period called it "Mad Apple." These botanists were certain that a mess of eggplant would bring on insanity. The Spaniards were equally sure of it as an adjunct to lovemaking.

Like spinach, not everybody has a liking for eggplant, but like celery it is easy to learn to like. Sliced thin, dipped in batter and fried to a crisp in butter, it tastes something like a cross between an oyster and a hard fried egg. Some have described fried eggplant as tasting like white flour flapjacks.

A couple of eggplants well tended and kept free of flea beetles that dearly love the foliage will provide an average family with all the fruit they wish to eat.

According to UK Vegetable Specialist G.R. Roberts, the month of May is also a good month in which to plant beans, corn, okra, squash and cucumbers.

As a matter of fact, said Roberts, May is a high time to plant just about everything for a summer vegetable crop.

It is time to transplant tomatoes, peppers and sweet potato slips. It is the month in which to watch out for plant lice, flea beetles, cucumber beetles and cabbage worms. Dust melons and cucumbers with Sevin as they come through the soil and be prepared to spray or dust plants with a malathion-sevin mixture to control other insects as they appear.

Coal Production Figures Total

142,593,562 for 1976

Figures released by the State Department of Mines and Minerals attest that Kentucky again led the nation in 1976 coal production with a total of 142,593,562 tons.

West Virginia, the second-largest producer, trailed Kentucky by 108,793,594 tons. This is the fourth straight year Kentucky has been the top coal producer, although the 1976 figure is down from the record 144,204,511 tons mined in 1975.

Mines and Minerals Commissioner Harrel N. Kirkpatrick attributed the decline to a leveling off from a coal boom that began in 1971.

A breakdown shows that Muhlenberg County has maintained its place as Kentucky's top county producer of coal with 20,959,756 tons recorded. Pike follows with 19,002,001 tons.

From there the figure drops to Harlan, 10,592,724; Hopkins, 9,775,205; Ohio, 9,360,735; Martin, 8,159,973; Union, 7,632,321; Perry, 7,473,251; Breathitt, 6,372,708; Floyd, 4,561,573; Bell, 4,523,997; Leslie, 4,410,138; Knott, 4,329,848; and Letcher, 4,125,698.

Rockcastle County produced 54,827 tons of coal in 1976.

PRIME INVESTMENT OR how to GET in on A Meaty Deal.

In 1850, the meat packers had an idea they could make their teeth into: refrigerated railway cars.

They made the transportation of meat a year-round business instead of just a winter investment.

And today there's an investment with a lot of meat to it that you can have Yearly in and year out. United States Savings Bonds.

They're a prime investment because nobody's ever lost money taking stock in America.

And when you buy Bonds, you're not only preparing for your future, you're helping your country's future as well.

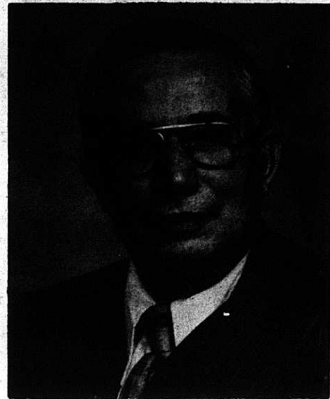

So you 91 million Americans who have signed up for the Payroll Savings Plan, Buy United States Savings Bonds.

And get some live stock for your future.

It costs you 4% interest who held to maturity 1 year (10% the first year). Interest is not subject to state or local income taxes, and Federal tax may be deferred until redemption.

pol. adv. pd. for by candidate

RE-ELECT THE MAN That Has Been Willing To TRY

To The Citizens & Voters of Rockcastle County

Allow me to make this appeal to you as Primary Election Day approaches.

I ask you to consider that we need MORE than just a friend or relation to serve as our County Judge Executive these next 4 years. These next four years are critical in that we have progress underway in the County and WE CANT STOP NOW! We must have an administration that will follow through.

Very quickly, let's take a look at a few of the things that my administration has either started or helped to keep in existence at no further expense to the people. (Remember! We don't need extra taxes, we are just beginning to get something RACK for all those Federal & State Taxes that we have paid all these years. The other counties in the state have been getting our tax money in the past). Already we are getting projects for the County that amount to nearly Three Million Dollars of money that we desperately need:

OUR PROJECT LIST INCLUDES:

1. The Rockcastle Industrial site for factories, over One Million Dollars. Job losses due to the closing of the Blue Grass Ordnance and other factory lay-offs make it all the more important that we continue this project. Anyway, there's no reason why you should have to leave home at 5 a.m. when you could reach your factory job by leaving home at 7 or 7:30 a.m. Also, I am afraid that the price of gasoline will not permit us to continue to drive over such great distances to work.

2. Western Rockcastle Water Project -- well over One Million Dollars. I have fully supported this project as I know that you have. Because of it, about 495 families now have good water to drink and use, plus there's about 83 miles of new water line in our County that is available to serve new users.

3. North Rockcastle Water Extension: About \$150,000. This project provides water for about 40 families and gives us nine more miles of water line. I am presently supporting an effort to expand both these projects to cover the rest of the areas that need water.

4. New Ambulances - \$46,000.00. Most of you well remember that we were without a dependable ambulance system when I took office. As County Judge, I joined the Boone Regional Medical Services and got two of the finest ambulances available. I believe that we all feel better in knowing that this service is here and ready when should we suffer a misfortune.

5. Child Development & Senior Citizens Programs: About \$300,000.00. I believe that we should make a strong effort towards keeping these programs as long as we must pay in our taxes to the federal government. It's time that we have our share! I have supported both these programs as I believe that we should make a strong effort towards keeping these programs as long as we must pay in our taxes to the federal government. It's time that we have our share! I have supported both these programs as I believe that we owe it all to those that are elderly and can no longer work and certainly, we must buy insurance by helping to develop our young people.

6. Garbage Service -- About \$65,000.00. As many of you know, we were without garbage pick-up for a while. Also, you know what kind of a mess we had. We are just now beginning to catch up. I know that it is still less than perfect, but I ask you -- isn't it better than what we had?

7. Rockcastle County Park -- \$271,000.00. As you will recall, I promised to try to develop a County Park System for the Citizens of the County. I have, and am supporting, a grant to help Mt. Vernon develop its project on Lake Linville. I intend to file an application for the Livingston area as soon as an option is signed for the property.

You saw announced two weeks ago, the plans and approval of Federal Money to buy the Brodhead Fairgrounds for family use. First, I have agreed that the Little World's Fair will be continued. I will appoint a park and recreation board, made up of twenty-one responsible citizens, to manage and oversee all the activities for this area.

The activities will include, first of all, a clean, wholesome environment for all families of the county to use. This will include the Sunday afternoon picnics, horseshoe pitching, softball, etc.

Also, the groundstand will be rebuilt and all the horse stables will be upgraded. I have been contacted by many of the horse show associations and they would like to schedule some of their big shows there. I will encourage the idea of bringing back the Old County Fair idea like we remember. I believe that this is a pride builder and we need that.

Again, I ask you to remember that this is all grant money to our county. Money that we have been paying in for years and should have been getting for years. WE CAN.

Re-Elect Me Next Tuesday

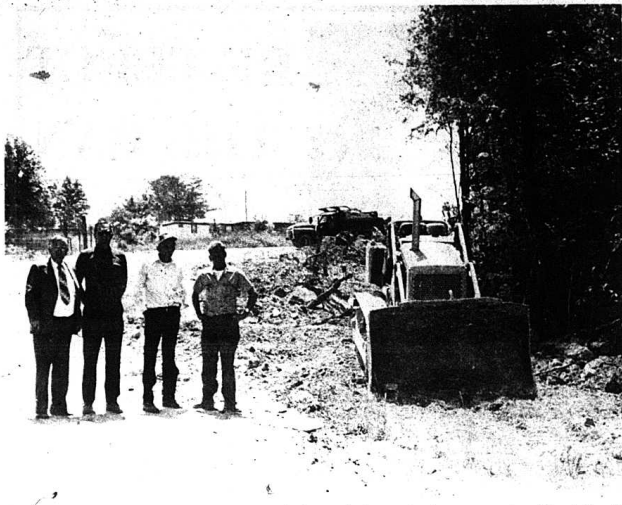

Sincerely,

Hubert Thacker

Chestnut Ridge Road, just off US 25, is presently being widened to make room for a service station being built by William R. Vanhook of Somerset. Construction of the service station

necessitated a deep cut-back, very close to the present road. To circumvent any problems, Mr. Vanhook had to purchase a 12 foot strip on the opposite side of the present road and fill it in. In the above

photo are, from left: Judge Hubert Thacker, Mr. Vanhook, Magistrate J.R. "Boone" Cromer and an unidentified bulldozer operator.

Kentucky Afield

By John Wilson

If that fresh fish dinner you've been looking forward to all winter doesn't live up to your expectations, don't be too quick to blame the cook. Chances are you (or whoever caught the fish) are

responsible for "strong tasting or watery" fish.

Probably more fish are spoiled by improper handling between the time they're pulled from the water to the time they're brought to the kitchen than are ruined by improper cooking. To assure a

tasty fish dinner, the fisherman should handle his catch with its ultimate destination—the frying pan—in mind.

First, the fish should be kept alive until they are ready to be cleaned. On boats equipped with live wells, this is usually no problem, but make sure that the well will retain water when the boat is running at speed. If the well is above the water surface while the boat is planing, it will drain and leave the fish inside high and dry.

If you use a stringer, string the fish through both lips rather than through the gills, and don't drag them through the water while motoring from place to place. Wrapping the fish in a damp cloth will allow them to survive fairly short periods out of water, but if a long boat ride is necessary, it's best to put the fish in a ice chest or to "field dress" them by removing the intestines and gills and wrapping them in damp cloths. Any fish that die before the trip is over should be treated the same way.

Never keep dead fish, cleaned or uncleaned, in water. This makes the fish flabby and icy. If you transport your fish in an ice chest, protect them from the melted ice by placing them in some kind of a container or in a sealed plastic bag.

Back at the dock, the fish must, of course, be cleaned. The method used can sometimes have an influence on how the fish taste. Most of the strong flavor or "fishy" taste is concentrated in the skin,

bones or kidney. Filleting removes all three sources of strong flavor and is thus advisable for those who don't like their fish strong or bony.

Fish are at their best if cooked as soon as possible, but if properly frozen they can be kept for several months with very little loss in flavor. A handy way to freeze fish is to immerse them in a container of water (leave at least a half-inch space to allow for expansion) and freeze. Most ice-cube tray compartments of refrigerators are unsuitable for long-term storage of fish, since they do not maintain the near-zero temperatures required to completely prevent changes in flavor or texture.

GRADUATES—Staff Sergeant Dwight F. McNew, son of Mr. and Mrs. H.C. McNew, of Rt. 3, Mt. Vernon, has graduated from the Aerospace Defense Command Noncommissioned Officer Leadership School at Tyndall AFB, Florida. The sergeant, who is trained in military management and supervision, is a radar technician with the 702nd Radar Squadron at Savannah, Georgia. Sergeant McNew, a 1962 graduate of Mt. Vernon High School, attended Eastern Kentucky University at Richmond.

NRA TO HOLD ANNUAL MEETINGS COUNTRY'S LARGEST GUN SHOW

The National Rifle Association of America will hold its Annual Meetings here beginning May 20th in the Cincinnati Convention Center and Netherland Hilton Hotel.

The four-day event will be highlighted by the largest gun show in the United States.

Also on view will be more than 150 displays by firearm manufacturers and an assortment of hunting and outdoor recreation firms.

National Rifle Association spokesman today also announced that Gen. William Westmoreland, (USA Ret.), the much-decorated former U.S. Army Chief of Staff, will be guest speaker at the membership banquet Tuesday, May 24, which will officially conclude the annual session.

The meetings will run May 20 through May 24, and will include business sessions with all NRA operational committees and the Board of Directors.

Results of the election of new members of the Board of Directors will

be announced at the members meeting on Saturday, May 21st. The business sessions are held yearly to review programs and NRA policy in all of the organization's areas of concern.

questions and answers

Q. I'm 36 and was recently injured in an explosion where I work and was wondering: can I receive both social security disability benefits and worker's compensation?

A. If you are entitled to both, yes. But under the law, the total monthly payments to you and your family can't exceed 80 percent of your average monthly earnings before you became disabled. Your full earnings must be counted. Social security benefits will be reduced if combined benefits are over the 80 percent limit.

Q. I give a chance to buy a small-rop that would operate from May through September. I'm 67 and have been getting social security 2 years. How would earnings from the business affect my benefit checks?

A. If your net earnings are \$3,000 or less for 1977, no social security benefits will be withheld; \$1 in benefits will be

withheld for each \$2 earned over \$3,000. But no matter how much you earn for the year, you can get your full social security benefit for any month you don't do substantial work in your business. For details, ask at any social security office for the leaflet *If you work after you retire*.

Q. My wife is no longer sick enough to be in the hospital but still needs daily nursing care. Will her Medicare help pay for her care in some other kind of facility?

A. If your wife was hospitalized at least 3 days, and your doctor feels she needs further skilled nursing or rehabilitation services on a daily basis, Medicare hospital insurance may help pay for her care in a skilled nursing facility. She must enter the facility soon after she leaves the hospital—generally within 14 days.

To The Voters in 1st District

**Re-Elect
Chester
Whitaker**

First District Magistrate

I realize there are many of you I have not seen, but I sincerely solicit your help and vote in the upcoming election, May 24th.

I have worked with the people for 3 1/2 years and have not missed a single Fiscal Court meeting, either regular or called.

I have tried to serve the First District to the best of my ability or to what I thought was best for the District and county on what funds I had available.

If re-elected, I know of nothing different I could or would have done.

Thanking you for your past help and cooperation, I remain your friend and neighbor.

RE-ELECT
William Harold
DeMarcus
State
Representative

IT IS NOT TRUE!

I did NOT support the Judicial Act that limited District Judges as I have been accused of doing. The fact is, I opposed this act and led a fight against it. It is very unfair to be accused of something which I did not do and so strongly opposed.

I do not believe in dirty politics. I have always conducted my campaigns with truth and fairness.

The people should ask my opponent why he has not told the voters of Rockcastle County that he is a member of the profession that sponsored the Judicial Act that worked for and supported it across the entire state.

On the basis of my record, I ask for the continued vote and support of the people of Rockcastle County. Unlike my opponent, I have never forgotten the people after my election and never will.

I STAND ON MY RECORD
RE-ELECT YOUR REPRESENTATIVE

CAP's Second Annual Community Service Scholarship Award

Father Ralph Belling, President of the Christian Appalachian Project, is pleased to announce that Miss Catina Lynn Cain, 17, daughter of Mr. and Mrs. Lloyd Cain of Mt. Vernon, has been awarded a \$1000 scholarship. The award was based primarily on the student's involvement and contribution in community activities. Applications were reviewed by a committee made up of several residents of Rockcastle County and the Christian Appalachian Project. Formal presentation of the award will be made in the near future.

Students graduating from Garrard, Jackson, Jessamine, Lincoln, Madison and Rockcastle counties are eligible to apply. Scholarships totaling \$1000, will be awarded in each county every year to the student or students who have displayed an outstanding ability to work toward improving their community.

For additional information about this scholarship program, contact your guidance counselor or Lew Phillips at 217 Lexington Street, Lancaster, Ky.

The Rockcastle County Recreation Council held their annual Radio Auction last week and received more than \$2700 from items auctioned off and cash

Notice of Request For Highway Corridor Approval

The Department of Transportation is planning to proceed with the development of the proposed highway improvements on the KY 461 - Somerset - Mt. Vernon Road, F 461, beginning at the north end of the KY 80 - KY 461 Connector in Pulaski County, and ending at the junction of US 25 near the I-75 Renfro Valley Interchange in Rockcastle County, a distance of 16.47 miles. (See area map this page).

This project will be developed in cooperation with the Federal Highway Administration and financing of the construction will be 30 percent State and 70 percent Federal; therefore, Federal Highway Administration approval has been requested.

The project will consist of a Class 2 facility, for the portion beginning at the north end of the KY 80 - KY 461 Connector in Pulaski County, and ending just south of its junction with US 150. A Class 2 facility consists of two 12 foot driving lanes and 12 foot shoulders. The other portion of the project beginning just south of US 150 and ending at the junction of US 25 near the I-75 Renfro Valley Interchange in Rockcastle County, will be a Class 1 facility. A Class 1 facility, as it relates to this project, will consist of a 4-lane highway with a 50 foot depressed median.

The project exhibits, displays, Final Environmental Impact Statement, and all other data concerning the development of this project may be inspected and copied at the Department of Transportation District Office on South US 27, in Somerset, Kentucky.

County Agent's Notes

BY H. LEE DURHAM
COUNTY EXTENSION AGENT
FOR AGRICULTURE

Urea Fertilizer
Trends in the fertilizer industry

toward more production of ammonium forms of nitrogen, especially urea, have raised the question of whether these types of nitrogen will work as well in crop production as nitrate fertilizer. The answer is that urea will do the

job if farmers follow a good liming program, according to the K.L. Wells, UK extension agronomist.

Different forms of nitrogen fertilizer have been tested on burley tobacco by the UK College of Agriculture. Generally, the results indicate that crop response is about the same to different sources of nitrogen on soils containing enough lime (a pH near 6.5).

Tests were conducted on Matury silt loam soil with a pH of about 5.4. Limestone was applied at rates of 5, and 7.5 tons per acre in combination with 225 pounds of nitrogen as either urea or sodium nitrate. The lime was applied half post-down and half disc-in after plowing in early March of the first year. Average leaf yields of burley tobacco were increased 221 to 276 pounds per acre by adding the lime along with the nitrogen. The 5-ton rate of lime was as effective as the 7.5 ton rate when all nitrogen was sodium nitrate. However, when the source of nitrogen was urea, highest yields were obtained with the higher lime application rate of 7.5 tons per acre. Yields in area-treated, unlimed plots were about 250 pounds per acre lower than in unlimed plots receiving sodium nitrate, but differences were negligible when 7.5 tons of lime were applied per acre.

Wells says liming works best if done one to three years ahead of the tobacco crop. All soils do not need the same amounts of lime used in the UK experiments. Best way to determine lime needs, according to Wells, is to have soils tested. Then follow recommendations.

Cutworms and Yellow Striped Armyworms Invading Tobacco Beds

Cutworms and yellow striped army worms are beginning to pose problems in tobacco beds over Kentucky, according to reports from growers. The recommended control for cutworms is the use of either Dylox bait or Sevin bait, according to Rudy Scheibler, UK extension entomologist. He said the materials will also control yellow striped army worms.

The yellow striped army worms usually affect only a small section of the

tobacco bed," the entomologist said, "so only the infested portion may need to be treated."

He recommended a rate of application of 10 pounds of Dylox 5% bait per bed, or 1/2 pound to one pound of Sevin 5% bait per bed.

In experimental tobacco beds at the University of Kentucky, it has been found that a mixture of Orthene tobacco insect spray used in flea beetle control has also controlled the cutworms and yellow striped army worms, he noted. The recommended application is two tablespoons of 75W per three gallons of water per bed.

Scheibler warned the tobacco growers, however, not to use Sevin tobacco plant growth because of the danger in causing plant injury. He said only the Sevin bait preparations should be applied.

Potential Profit Booster For For Beef Calf Producers

Research conducted with growing calves with growth stimulants is one management practice that Kentucky cattlemen cannot to work this spring in their efforts to increase beef cow herds.

Research across the country has shown that implanting calves increases weaning weights. This usually means more income at sale time and more profit at the end of the year. Yet, many Kentucky calf producers are not taking advantage of the potentially profitable idea, says John T. Johns, UK extension beef cattle specialist.

Results that may be expected from implanting were demonstrated on 776 suckling calves last summer by the UK Agricultural Experiment Station. At weaning time implanted steer calves weighed 27 pounds more than those that had not been implanted. This is an average increase of 12 percent in gain for steers and 14 percent for heifers. Starting weights were similar for all calves.

The gain boost may vary from herd to herd, but Johns points out that on the average growth stimulating implants produce a return far greater than their cost. Halgro and diethylstilbestrol (DES) are two products available for use as implants for suckling calves. Producers are advised to follow directions carefully. Information on methods of implanting, dosage rates and withdrawal times are available from the offices of county extension agents.

Don't Ever Underestimate The Power Of A Grandmother

By Mary Hilton
Diaper Service Consumer Information Council

Starting with infancy, grandmothers are important in a child's life. It's been found, in fact, that baby's personality is usually inherited from his mother or maternal grandmother.

Often grandmother helps out with the newborn because she is good at it, and because she understands a young mother's fears and remembers how to calm them. She may have to be shown how to snap a "new fangled" sleeper or pin a modern diaper. But when it comes to bathing that tiny slippery mite, her sure touch comes right back.

Grandmothers are rich in knowledge, but recognize when to give advice and when to keep silent. They know how to perform a disappearing act too, when the new mother and father have a chance to be alone. And grandmothers are worth their weight in gold when it comes to comforting an older child who feels suddenly replaced by an "ugly baby."

All this is to tell you about "Grandmothers Inc.," which may be in your area soon. It is a bonded babysitting service, made up of grandmothers who need a child to love and a way to earn money. If you don't have a grandmother handy, soon you'll be able to "rent" one!

Mental Health Matters

Us or Them?

Have you ever heard someone described as "obnoxious," "arrogant," or "uptight"? That description doesn't always seem to fit! We think we are

describing someone when in actuality we're just describing our own emotional reaction to him or her. The teacher who says the student has a "poor attitude" is talking more about the feelings created in himself by the child, than he is about the child.

It's usually not the case that someone is "truly obnoxious," but rather that he or she provokes irritation in some people, some of the time, with some behavior.

Successful communication among people can be assured if we learn to observe the behavior of others and to label it correctly! We need to be aware of what, how often, and how intensely the behavior of others has an impact on us. What we say about other people, especially children, affects the way they see themselves. Their behavior in turn reflects our expectations of them.

Leaflet Explains SSI Payments To Retarded

A leaflet explaining how supplemental security income (SSI) payments can help mentally retarded people is available at social security offices.

The SSI program makes monthly payments to people with little or no income and limited resources who are disabled or blind or 65 or over. The leaflet, *Supplemental security income for retarded people*, explains how retarded children as well as adults may be eligible for SSI disability payments.

The leaflet is free on request at any social security office.

The SSI program is administered by the Social Security Administration, an agency of the U.S. Department of Health, Education, and Welfare.

THE BANK OF MT. VERNON
MT. VERNON, KENTUCKY 40456

To The Citizens of Rockcastle County:

By

Charles C.

CARTER

**Candidate
County Judge Executive**

Rockcastle Primary, May 24, 1977

During this campaign, I have been truthful and honest about everything I have said or done. All of my opponents, as far as I know, have done likewise. It has been a clean cut race by all candidates in all races so far.

I have explained all of my accomplishments while I served as Judge -- everything said is true. Now, as the campaign is about over, I want to make this my last appeal for your vote.

Let's go through and take up what has been said by each one of my opponents. First, one of them says he is the best qualified of all the candidates. I don't know where he gets that idea. Knowing him as I do, I think he just likes to brag a little.

Next, we have one that calls himself the Great One and advertises it that way on his automobile. You people know how great he has been the past four years.

We have another that says he is going to lower taxes and cure us of the Democrat itch. I wonder when he got cured; being born with it he must feel wonderful now. I don't know what he is doing but I do know where he is going in this election and it is not up.

We have another one that says he doesn't believe in campaign promises, yet on Thursday, April 7, 1977, he made a promise in the Mt. Vernon Signal as follows: "If elected, as your County Judge Executive, I plan to make a quarterly check of our roads in the county. If then I see a problem, I will recommend to the magistrate in that district that the problem be taken care of. If the County Judge is appropriated a road fund, then I will use this as I see fit." According to this he would come over the roads every three months and if the road needed something done to it he will report it to the magistrate; then three months more he will take care of it, making 6 months to get your road fixed. A bad, bad, bad road program. I believe the worst I ever heard of.

Now, we come down to our present County Judge who has made many, many promises about getting jobs in the county. He made the same kind of promises 4 years ago but instead of jobs coming into the county, many jobs in the county have disappeared. Two plants at Brodhead pulled stakes and are gone with about 160 jobs lost.

There has been a lot of confusion in the Fiscal Court the past 4 years. A suit filed because the garbage collection was stopped. Our ambulance service would be a thing of the past if the funeral homes and Bill Bailey had not come to the rescue. Our crime problem is getting worse by day and month as the records show. This is not the fault of the State

Police who bring in the violators and, according to reports, in many case, they are set free immediately.

Some of my opponents may not believe in making promises, but I do if they are promises that can be kept. If you don't promise to do anything, why elect You?

I have always gotten along with magistrates in my administrations and am sure I can get along with the next elected ones without confusion.

I promise, if elected, my top priority will be to see our ambulance service moved to the hospital and under continual service with some minor adjustments. I think our health is the most important thing we have to contend with.

Our roads are next on my priority list. If you don't have passable roads, our ambulances and school buses are useless.

I promise to assist in every way I can to put down crime.

I promise to assist in any and every way I can to bring industry into the county.

Another thing I promise is that the garbage collection will go on without a stoppage of 3 or 4 months. It is an established fact that garbage has to be taken care of for health reasons.

In closing, I want to thank the people where I have visited and the ones I have talked with, for their courteous and friendly treatment and want all to come in and talk with me in the County Judge's office after January 1st, 1978.

To all who are working for me, don't be over-confident; work like we need just one more vote and we will celebrate May 24th at 7 o'clock p.m.

Thanks now and vote for Charles C. Carter, County Judge Executive.

HAD ENOUGH?

My name is Number One on the County Judge Executive ballot. Easy to find, easy to see, easy to vote for.

Charles C. Carter

CARD OF THANKS

We, the family of Oscar Day, would like to express our sincere thanks and appreciation to all our friends and relatives who sent flowers and food during the loss of our husband and father.

A special thanks to Dr. Arvin, the Rockcastle County Hospital Staff, Bro. John Zupabeck, Mrs. Betsy Smith, the pallbearers, and the Watson Funeral Home for the kind and efficient service.

The Day Family

CARD OF THANKS

We would like to express our deepest gratitude and hnts to the many friends and relatives who sent flowers and food at the time of the loss of our loved one, Jeremiah (Jerry) Kirby. A special thanks to Dowell and Martin Funeral Home for their kind service to Bro. Zade McClure for his kind words, the pallbearers and those who sang. God bless each one who helped in any way in our time of need.

Children and Grandchildren

STRETCHING YOUR FOOD DOLLAR

To roast meat with little fat covering, roast in a slow oven, 300-325 degrees. Use a cooking thermometer if available, and insert into center of thickest muscle. Don't touch bone or fat.

For rare beef, cook to 140 degrees, 160 degrees for medium or allow 25-35 minutes per pound. *****

STRETCHING YOUR FOOD DOLLAR

Eat some raw food each day. One good way is to plan a salad for at least one meal each day. Raw vegetable or fruit salads have no shrinkage from cooking, and there's no loss of valuable nutrients unless you allow the salad to stand a long time before it is eaten. *****

LET US

BRIGHTEN YOUR DAY!

Like a good neighbor, State Farm is there.

When you think of termites,

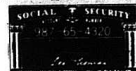

think of me.

I can kill the termites in your house. And keep the rest of the termites in your neighborhood from taking their place. After treatment, Terminix can guarantee most homes up to \$150,000 against further termite damage.

I'm Ken Sams, the Mt. Vernon Terminix man. Call me at THRIFFY LUMBER CO. Phone 256-2521.

TERMINIX All work done by Terminix of Lexington

questions and answers

Q. I earned \$2,500 before reaching 72 last May and \$6,300 the rest of the year. I heard that for social security, the money I earned after 72 doesn't count against me. Since I earned under the 1976 yearly limit of \$2,760 before reaching 72, do I need to file an annual report of earnings?

A. Yes. Since you were under 72 during part of 1976 and your total earnings for the year were over \$2,760, you must complete the report and send it to social security by April 15. Do not report earnings for the month you reached 72 or later. When you send in your report, we'll check to make sure you got all the benefits due you for the year. If you have questions or need an annual report form,

call or write any social security office.

Q. A young woman who's blind has been living with her mother in our neighborhood but the mother died recently and the daughter is desperately in need of money. Can SSI help her?

A. Supplemental security income (SSI) makes monthly payments to people with little or no income and limited resources who are blind or disabled or 65 or over. The blind woman in your neighborhood may be eligible for monthly SSI payments. She should contact any social security office for information about applying for SSI payments, or you can get the information for her.

My Apologies!

Due to not receiving my allotted number of Courier-Journals Wednesday morning I was unable to complete my route.

Rick Anderkin

Ford Realty & Auction Co., Inc.

256-4545

Mt. Vernon, Ky.

VOTERS:

ISSUE: DID ROCKCASTLE COUNTY GET A CHANCE TO HAVE A DISTRICT JUDGE ELECTED FROM THIS COUNTY?

NO, my opponent was one of those voting on the change to take away the county judge's powers and then he did not let us have a Judge but put us in with a much larger county.

ISSUE: HAS MY OPPONENT BEEN A PARTY TO SPECIAL LEGISLATION THAT BENEFITS PRIMARILY HIMSELF?

YES. My opponent served on the committee that killed a broad sales tax exemption for funeral expenses but passed a bill for an exemption for tombstones and grave markers -- This being his business.

ISSUE: HOW IS YOUR TAX MONEY BEING SPENT?

One way we know of is by form letters sent by my opponent at the taxpayers' expense.

ISSUE: IN WHAT WAY HAS OUR DISTRICT AND COUNTY BENEFITED BY KEEPING MY OPPONENT AS THEIR REPRESENTATIVE?

Has my opponent fully supported education? **NO**
Has the small farmer gotten any benefits as a result of my opponent's support? **NO**.
Has the small businessman gotten a fair shake? **NO**.
Why do our people have to leave the county to find employment?

ISSUE: THE BLUE GRASS ARMY DEPOT IS CLOSING, FORCING MANY ROCKCASTLE CO. RESIDENTS TO LOSE THEIR JOBS. THIS IS VITAL TO THE PEOPLE AND ECONOMY OF THE DISTRICT. HAS MY OPPONENT TRIED TO DO ANYTHING ABOUT THIS?

NO. He has not uttered one word of protest about this blow to the people of Rockcastle County.

ISSUE: HAS MY OPPONENT LOOKED TO THE NEEDS OF THE ELDERLY AND THOSE ON FIXED INCOMES AND TRIED TO LESSEN THE TAX BURDEN THEY PAY ON UTILITY BILLS.

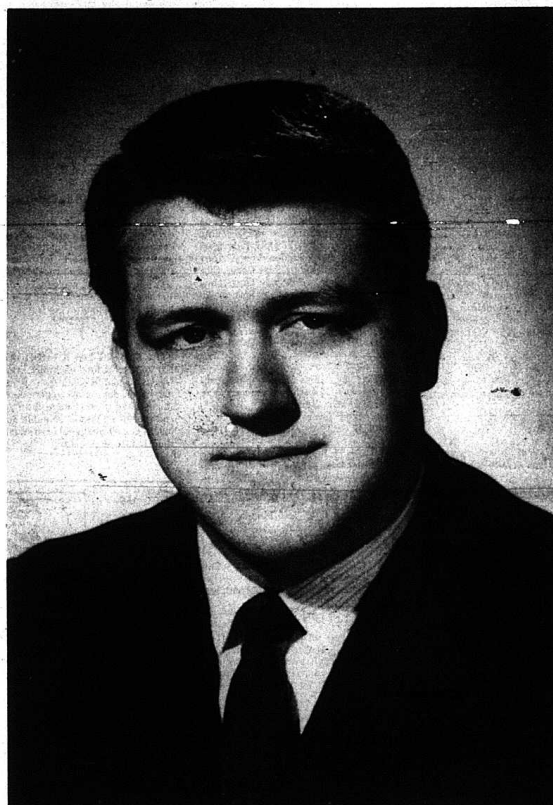

NO.

ISSUE: HOW DID MY OPPONENT VOTE ON THE TIME CHANGE FOR KENTUCKY? I am not in favor of changing our clocks, time and time again. We need to get on regular time and stay there, little school children do not need to be at school before daylight.

As a Rockcastle County native, having been born and reared here, I have observed that the people of Rockcastle County enjoy a good election campaign. They always want the candidates to take issue with each other and fully discuss all important facts. The one thing that Rockcastle County voters do not go for is a personal attack on a candidate. Last week's newspaper carried an ad by my opponent that was an attack on me personally. I intend to do as I have been taught and overlook rudeness. Many people have suggested things that I might bring up about my opponent, but I have told them all that, for my part, I was going to keep the campaign on a high level. If my opponent chooses to continue his personal attacks on me, the voters will decide if they approve of his tactics, and I am sure they do not.

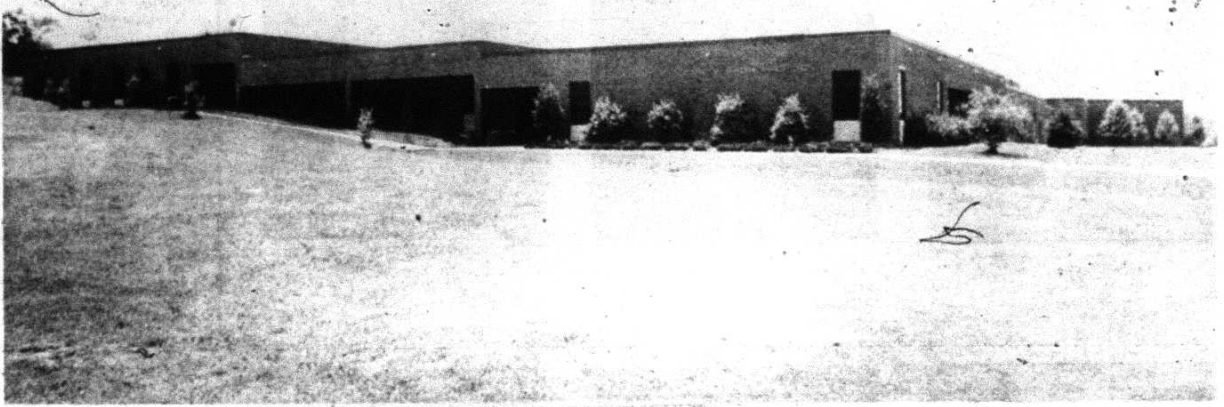

It is not a personal attack to examine a person's record and especially not if he states he is running on that record.

EXAMINE HIS RECORD. WHAT HAS BEEN DONE FOR THIS DISTRICT BY MY OPPONENT?

Think
and
Vote....
