Eternal Truth
IN OUR CHANGING WORLD

By Austin Mobley, Minister
Providence Church of Christ
Rt. 1, Broadhead, Ky.

The Old and New Testaments

All scripture - both old and new testament - are inspired of God (2 Tim. 3:16-17). Much of the New Testament is devoted to contrasting the old with the new and giving obvious reasons why both cannot be in force at the same time. For example, under the Old Testament system, animal sacrifices were offered for sins (Lev. 15:5-11, et. al); under the New Testament system, our sacrifice (Heb. 9:15, 22:12-13) ~~was to be burned in the tabernacle under the Old Covenant (Lev. 16:12-13);~~ prayers are the "golden vessels full of odors" (Rev. 5:8) under the New dispensation. Priests under the Mosaic dispensation were from the tribe of Levi (Num. 18; Heb. 7:5-11). The High Priest of the New Testament (Christ, Heb. 5:5-10; 4:14) was from the tribe of Judah (Heb. 7:14). Moses was a mediator of the Old Testament; Christ is the mediator of the new. Other differences too numerous to mention, could be cited.

The Old Testament was in force until Christ died; the New Testament is His "last will and testament." For where a testament is, there must also of necessity, be the death of the testator. For a testament is of force after men are dead; otherwise it is of no force at all while the testator liveth" (Heb. 9:16-17). We see from this Scripture that Christ himself lived and died while the Old Testament was in force and He kept it perfectly. After He died, and His will was "probated" by those administrators whom He had chosen (the apostles), the Old Testament law was "taken out of the way... nailed to His cross" (Col. 2:14). It served as a "schoolmaster to bring us [Jews] to Christ, that we might be justified by faith. But after faith is come, we are no longer under a schoolmaster" (Gal. 3:24-25). God "took away the first that the new might be established the second" (Heb. 10:9) and made Christ "the mediator of the New Testament" (Heb. 9:15).

The Old Testament has great value to us historically but it is obvious to the honest Bible student that it is not our law today. The 70 mph speed limit is currently binding, cannot be in force simultaneously with the 55 mph that is effective now. No more can the Old and New Testaments be concurrently binding. God "Spoke in time past unto the fathers by the prophets," but "hath in these last days spoken by His Son." (Heb. 1:2).

I believe much of the religious division and confusion stems from a misunderstanding of the different dispensations of the Bible. Whereas both the Old and New Testaments are true, only the New Testaments is to be used as our law today. If this fact is firmly established in the minds of the people, they will cease to seek justification "by the law (of Moses) and thus will not "fall from grace" (Gal. 5:4). We must let Christ, not Moses, be our lawyer. On the mount of transfiguration, Peter wanted to give equal honor to Jesus and Moses. God removed Moses and Elijah from the scene and spoke us from heaven informing him that Jesus was to have the pre-eminence today when He said, "This is my beloved son, in whom I am well pleased; heed ye him." Let us not be like the Jews who thought Moses could have no successor for, as Jesus said of Jonah and Solomon, "Behold, one greater than Moses is here!" (See Matt. 12:41-42).

19-LB. HAM BRINGS WORLD-RECORD PRICE

The Kentucky State Fair is impressive partly because of bigness. From the massive building and arenas to the vast parking areas and midway, visitors marvel at the size of the fair.

But on Farm Bureau Day, Aug. 24, a relatively small item, a 19-pound Kentucky Country ham, completely stole the show.

Louisville businessman Harold Morgeson purchased the fair's Grand Champion Ham at a charity auction, with a high bid of \$1,850 a pound, or a world record total of \$35,150. And no auctioneer Jack Crowner told Morgeson, who is vice president of Henry Vogt Machine Company, "the farm doesn't go with the ham."

This year's price almost doubled the 1976 figure of \$18,321.75, paid by Coca Cola Bottling Company. And attendance at this year's 14th annual auction and Kentucky Country Ham Breakfast set a record, with a sellout crowd of more than 1,100.

Competitive bidding was the key to the record price, as Al Schneider, Louisville-area hotel owner, and Golladay LaMotte, retired Christian County farmer, joined Morgeson in a lengthy bidding contest, broken by applause from audience members each time a new price threshold was reached.

Dairy Fund Hike

Up For Vote
Dairy officials are urging a "Yes" vote by farmers in the Kentucky Dairy Referendum, set to be held during October.

Dairy farmers will be voting on whether they want to raise their current assessment for promotional activities from 4 cents to 6 cents per 100 pounds of milk sold. The current 4-cent rate was adopted in 1968.

Inflation, stronger competition and changing lifestyles by consumers are given as primary reasons for increasing the amount of funding for advertising milk products, officials say. Advertising rates jumped 20 percent last year alone, following an increase of 19 percent from 1971 through 1975.

Soft Drink and fruit juice marketers outspend the dairy industry almost 7 to 1 on advertising, and these competitors are eroding some of milk's sales, according to the American Dairy Association. In addition, increased sales of imitation products, changing dietary habits of children, and the upsurge in numbers of meals eaten away from home, where milk is seldom consumed, are all factors which should be considered by dairymen before they vote, ADA says.

Crowner Hosts TV Farm Show

Jack Crowner, executive secretary of the Kentucky Beef Cattle Association, will be hosting a new Saturday morning farm show on WAVE-TV, Channel 3 in Louisville.

Fairview

By Mrs. Hubert Chasteen

Ninety four persons attended Sunday School at the Fairview Baptist Church August 28 with more coming in for worship services.

Our Revival closed Sunday, Aug. 27. Rev. Glen McQueen of Ansonville did some wonderful preaching which we all enjoyed so very much. We didn't see the results we hoped for but we praise God for the good spiritual meetings and ask His blessing on Bro. Glen and all our other good preachers the world over.

A baptismal service was conducted Sunday night, Aug. 28th at our church. We thank God for the one that was baptized.

Since my last writing, death has claimed several of our loved ones and friends including my uncle, Aden Thomas of Berea, Aster VanWinkle of Snider, Rev. Floyd Long of Disputanta and Lee Smith of Rt. 3, Berea. To all these families we extend our heartfelt sympathy.

Mrs. Bertha Vaughn of Crossville, Tennessee recently spent a few days here visiting her relatives, Mr. and Mrs. Eugene Alexander and family, Mr. and Mrs. Tip Reppert and family and Mr. and Mrs. Hubert Chasteen, Mr. Vaughn and Bertie, along with Kila and Kenny Carey also spent some time here when they brought Mrs. Vaughn to and when they came back to get Mrs. Vaughn is progressing very nicely following surgery a few months ago.

On Friday night, August 12th, Mr. and Mrs. Doug Ponder and son Scott entertained their Sunday School teacher and class members with a fish supper at their home near Fairview. Attending were Mrs. Hubert Chasteen (teacher), Mrs. Darleen Church, Tommy and Tonya, Mr. and Mrs. Jimmy Cummins and Drama, Mr. and Mrs. Luther Isaacs, Jennifer and Carol and Mrs.

Christian Church Camp Vandalized; \$1,000 Reward Offered by Trustees

Vandals broke into the Kentucky Christian Camp near Brodhead last week some time between Thursday afternoon and Saturday afternoon, doing extensive damage to the camp. All the wiring was torn out of the buildings and the wire stripped out, apparently for the copper in it.

Windows in two of the camp buildings were broken out and most of them damaged to the extent that the frames cannot be used. Doors were torn from their hinges, appliances moved and damaged even plumbing was torn from the walls of the kitchen and broken up. The vandals apparently were in no

hurry as evidence showed they took time to cook themselves food while there. The Board of Trustees of the Camp, along with the Christian Churches they represent, are offering a \$1,000 reward for information leading to the arrest and conviction of person or persons responsible.

Co. To Receive \$2,032 From Strip Mine Permits

Governor Julian Carroll announced today checks totalling nearly \$880,000 are being sent to 44 entucky counties as their share of strip-mining permit fees paid to the state. Rockcastle County's share is \$2,032.

A 1972 law provides for the state to return to each county one-half of the amount it collects from permits and acreage fees for strip-mining operations in that county.

Rockcastle County's share is \$2,032 with the largest amount going to Perry County of \$59,267 and Edmonson County getting \$250.

11 Head of Cattle Killed by Lightning

Oscar Chasteen of the Cooper Creek Section of the county lost 11 head of cattle early last Wednesday morning when the tree they were under was struck by lightning.

Mrs. James Hamilton, Mr. Chasteen's daughter, said the 11 head of cattle were under a Sycamore tree on a creek bank. There were 2 bulls, 7 cows and 2 calves.

REGISTRATION IS THURSDAY FOR COOPER SCHOOL OF DANCE

Registration for the Cooper School of Dance classes will be held Thursday, September 1 from 4 to 5:30 p.m. in the library in the Community Room.

Over 3,300 Students Enrolled in County Schools

Approximately 3,339 students are enrolled in Rockcastle County, according to Suplt. Charles B. Parsons.

The high school has the largest total enrollment with 920. Mt. Vernon Elementary has 884 students; Brodhead Elementary, 669; Roundstone, 432; Livingston, 388 and Blue Springs, 56.

Mr. Parsons said enrollment figures were about the same this year as last with the increase being in the 137 kindergarten children enrolled. Mt. Vernon has the largest enrollment of kindergarten students with 74; Brodhead has 38; Livingston, 25 and Roundstone, 20.

An unexpected number of first graders at Mt. Vernon Elementary has

caused the addition of one more unit there.

Mr. Parsons said that 78 first graders were pre-registered but when school opened 105 showed up so another teacher had to be hired to take the overflow. Miss Sandy Sizemore of Berea has been hired.

AWARDS PICNIC SUPPER FOR CEDAR RAPIDS TEAM MEMBERS

Arson Suspected In Two Barn Burnings

Arson is suspected in a fire which completely destroyed a barn on the farm of Mr. and Mrs. Dallas Brock in the Copper Creek Section of Rockcastle County about 5 a.m. Saturday morning.

Mrs. Brock said they were awakened by neighbors who live near the barn, and that the fire was out of control at that time. Several pieces of farm equipment, including a 4,000 Ford Tractor, wagon, tobacco sifter and mowing machine, were destroyed along

with 1/3 of the Brock's tobacco crop and 1300 bales of hay.

Damage was estimated in the range of \$40,000.

About an hour before this fire, another barn about 6 miles away on the same road was also destroyed by fire.

The barn was located on the Tatum Farm and was being rented by Mr. Brock's brother, Proctor, who lost several hundred bushels of corn in the blaze.

Arson is suspected in a fire which completely destroyed a barn on the farm of Dallas Brock in the Copper Creek

Section of the county early last Saturday morning. Mr. Brock lost several pieces of farm machinery, a portion of his tobacco

crop and 1300 bales of hay in the blaze. (See story elsewhere on this week's front page).

Vandals visited the Kentucky Christian Assembly Camp near Brodhead the latter part of last week and left their ceiling card in style. The above photo, of

the kitchen area, shows just a small portion of the damage done to the entire complex. The kitchen stoves were ripped away from the wall, the sink was broken,

a refrigerator destroyed and all copper wiring stolen. (See story elsewhere on front page and more pictures inside).

MATT TEATER, far right, is shown with the Dialogue Coach Sam Reese and another youngster with a part in the

Walt Disney Production, "The Ghost Belongs To Me," presently being shot in Danville. Matt is the son of Mrs. Ginalce

King and grandson of Mr. and Mrs. John Lair of Renfro Valley.

Rockcastle Youth Receives Part In Walt Disney Production

A Rockcastle Youngster, 13-year-old Matt Teater, will be seen in an upcoming Walt Disney Production, "The Ghost Belongs to Me."

Matt, the son of Mrs. Ginalce King and grandson of Mr. and Mrs. John Lair of Renfro Valley, was auditioned along with about 200 other boys trying for the speaking roles for local people in the production.

Although Matt has only four lines in one scene, the entire production staff has acclaimed his abilities and helped him in

every way. He, along with his mother, played host last Sunday afternoon to the director, John Erman and the two leading stars, Nina Foch and Barbara Barrie in Renfro Valley.

In addition to Miss Foch and Miss Barrie, other stars are Steve Shaw, Katy Kurtzman and Biff McGuire. Producer is Jan Williams and dialogue coach is Sam Reese.

The film will be a two-part series on Sunday night's "The Wonderful World of Disney," and will be shown some time after the first of the year.

around Halloween.

This frightening comedy will air on NBC's "Wonderful World of Disney" in early 1978 and it's a good bet that a lot of Kentuckians will be tuned in, not only because it was filmed locally, but also because several of the characters are local residents.

According to James Tadevic, location manager and, incidentally, the voice of Donald Duck, the production company tried to use as many local people as possible.

"We tested hundreds of boys from the Danville, Lexington and Louisville areas during the span of three days," said dialogue coach Sam Reese who supervised screenings for parts.

Of that group, two boys got speaking parts. They are 13-year-old Matt Teater from Renfro Valley and Sean Scarborough, 11, from Vine Grove. Matt and Sean play schoolmates of Alexander who is played by Steve Shaw.

Local people also are being used for atmosphere and as stand-ins, as well as for the less glamorous jobs of stage hands and production secretary. In all, 60 or 70 local people will be used.

According to Tadevic, Kentucky was an easy choice for the location filming for "The Ghost Belongs to Me." "Tadevic was with the Walt Disney Production crew when "Treasure of Matecumbe" was filmed in Kentucky and said, "We knew we could find the location and the cooperation we needed in Kentucky."

Referring to the large, white, antebellum mansion being used as the setting for the story, Tadevic said, "There's nothing like this in California. This house is in just the right state of disrepair."

Tadevic found the mansion with the assistance of Eben Hensen, a member of the Kentucky Film Commission, whose director, Tom Clark-Todd, said, "We're doing everything we can to help the company get their stay in Kentucky." Clark-Todd and his assistant, Betty Lampkin, have been in constant contact

FRANKFORT WATCHLINE

By Ferrell Wellman

The woman browsing through Florence, Ky. bookstores was in her thirties. She was middle class. She and her mother were looking for something to read.

"How about something on Richard Nixon?" the younger woman asked as she picked up a magazine concerning Nixon's recent broadcast interviews.

"I don't want to read about Nixon," her mother sneered as she turned to a stack of mysteries.

The American middle class is tired of Nixon and tired of politics. That statement won't stop the presses. It's no surprise.

The sixties and seventies just wore us out. The factors responsible for the shredding of the American Political conscience were many.

In the sixties American watched as a president was assassinated. His brother, a presidential contender, was shot and killed five years later.

An incumbent president, elected by a landslide in 1964, surprised the nation by deciding not to seek re-election. The reason, Vietnam.

Vietnam did more than alienate the nation's youth. It chipped away some of the cornerstone of support for the government: the support that comes from the working class.

These were the people who voted, paid taxes, and often paid, with their lives when the government called. After their tremendous sacrifice in dollars and blood they were told the small Asian country was no longer worth protecting.

Some of their faith in Washington left with those last Marines from Saigon.

The country has learned that our leaders have ordered assassinations and political upheavals in other nations.

Possibly, though, the most serious damage was done by a man who had received a mandate unlike one ever given to an American president. Two years after giving Richard Nixon their trust, the people listened as he told them he was not a crook. As his aides marched into prison, Nixon left the White House.

The vice-president who had spent the previous months crisscrossing America defending his boss quickly pardoned him.

The demise of Richard Nixon was the result of dedicated work by a strong federal judge, a tireless prosecutor, a few legislators and two unknown reporters named Woodward and Bernstein.

Why the history lesson? We need a reminder of what can happen (and possibly what is happening). It's not uncommon when a reporter questions a seemingly innocent act by a politician for that politico to tell the world the reporter is suffering from what has become known as "the post Watergate syndrome." Reporters, the politicians will tell you, don't believe anyone and have no faith in government.

Some politicians might have been wronged, but "the post Watergate syndrome" charge is an easy excuse for politicians, whether they be in Washington or Frankfort, who have their hands in the cookie jar.

I heard a press secretary for a high ranking Kentucky government official recently criticize a Lexington television reporter because he had a "Woodward-Bernstein attitude." Translated, that meant he asked tough questions.

The country is tired. There has been just too much for the American political psyche to take. We just want to sit back and let someone run the country and leave us along. That's dangerous.

Broadcast news directors and newspaper editors hear their readers and listeners complain frequently that "we're tired of government news." The temptation to give the public what it wants is strong. Often it can mean dollars to the station or newspaper. But, now is not the time to shy away. It should not be a surprise that two newspapermen played a major role in Watergate. Our founding fathers had a reason for making the press a fourth estate, almost a fourth branch of government alongside the executive, legislative and judicial. It was Thomas Jefferson, not Woodward and Bernstein, who said "External vigilance is the price of liberty."

The dining area of the main building at the Kentucky Christian Camp suffered heavily from vandals last Thursday or Friday night. All wooden furniture was busted up, paneling was ripped from

walls, an attempt was made to burn a mattress from one of the dorms and plumbing fixtures were stolen or stopped up. Police are investigating the incident which has resulted in a reward

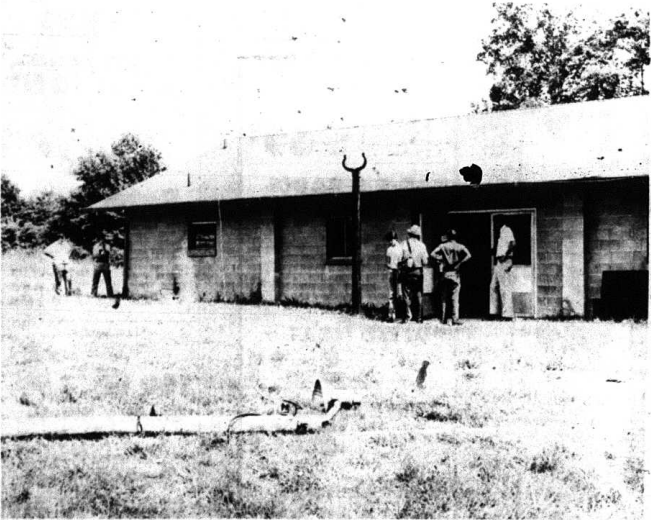

of \$1,000 being posted by the Board of Trustees of the Camp for information leading to the arrest and conviction of persons responsible.

The office area of the main building received its share of attention from the

vandals who ripped off the outside paneling. Damage at the camp is listed in

the thousands of dollars.

Several members of the Board of Trustees viewed the ruin at the church Sunday. In the foreground of the photo can be seen the security light which was

pushed down, evidently with a car, and the copper tubing stolen from it. Most of the wiring was also stripped from the building at the camp. In the photo are,

from left: Bro. Ernie Johnson, Bill Hiatt, Mark Hopkins, Jim Taylor, Leo Hopkins and Bill Dowell.

Arthritis Campaign Issues Early Alert

Play it safe is what the Kentucky chapter of The Arthritis Foundation urges all residents to do to protect their bodies against the pain and crippling of arthritis.

The local Arthritis Foundation agency has issued a four-point alert to all citizens of Rockcastle Co. to inform them of the early warning signs of arthritis:

- *persistent pain and joint stiffness on arising,
- *pain, tenderness or swelling in one or more joints,
- *recurrence of these symptoms, especially when they involve more than one joint,
- *recurrent or persistent pain and stiffness in the neck, lower back, knees and other joints.

"If one or more of these symptoms appears," said Carolyn Hurtines, "it is essential for a person to seek prompt, proper medical diagnosis to avoid serious joint damage."

The Kentucky Chapter will be visiting residents in Rockcastle County during Sept. the month of September to distribute arthritis information and raise funds to support its programs and services. If you would like free information on arthritis, or wish to become a volunteer, contact the Kentucky Chapter of The Arthritis Foundation, 1381 Bardstown Road, Louisville, Kentucky 40204, Ph. "Rockcastle's Most Preferred"

When more Rockcastle area families recommend Dowell & Martin Funeral Home, there must be a reason.

There is. It is the way the people at DOWELL & MARTIN work in the interest of each family they serve. They believe that each family should have what it wants.

There is very little difference in the quality of products offered by various firms but there still remains a vast difference in the service offered. The public knows this, and, here at DOWELL & MARTIN FUNERAL HOME, we are also fully aware that "Personalized Service" is our greatest asset.

Why do more families choose DOWELL & MARTIN? Because of the satisfaction they get from having someone to count on, every time.

A check with Kentucky's conservation officers indicates that opening weekend squirrel hunters found squirrel populations higher than last year in eight of the state's nine wildlife districts.

Reports from 115 of Kentucky's 120 counties show conservation officers checked 2,772 hunters, who had taken 5,313 squirrels during the first two days of hunting. When encountered by officers, 251 hunters had harvested their limit of six squirrels each.

But 76 of the hunters checked over the two day period found themselves in violation of the commonwealth's game laws and were issued citations.

Only in the Fifth Wildlife District did the officers feel that the squirrel population was the same as last year. All other districts reported an increase. The fifth district is comprised of 13 counties in the Coring area.

Squirrel populations seem particularly high in Eastern Kentucky, where the abundant forest lands provide excellent habitat for squirrels. The extreme western counties of Kentucky also reported a high hunter harvest.

From it's Aug. 20 opening date, Kentucky's squirrel season will run through Oct. 31, then re-open Nov. 17 (the opening of the statewide small game season). Except for a three day closure (Dec. 3 through Dec. 5) for the second point of the statewide gun deer season, squirrels may be hunted through Dec. 31.

Many hunters feel that they have better luck later in the season, when the leaves have fallen and the squirrels are usually more concentrated near stands of those trees, such as oaks and beech, which provide much of their food.

Pignut hickories are ripe in some areas now and squirrels are feeding on them. Another favorite early season food is hickory nuts. Inexperienced hunters also know that at this time of year squirrels can sometimes be found in or around cornfields.

By generally, squirrels are scattered now and the hunter who hopes to get his limit has to do a lot of walking, stalking and looking. Shotgunners are usually more effective early in the season, while late season hunters often choose a .22 caliber rifle. Squirrel hunters may not use any breech loading rifle of 240 caliber or larger, but those who hunt frontier style with muzzle loaders may use any caliber.

Hunters who have any difficulties finding good hunting areas are invited to list one of Kentucky's many public hunting areas. A list of these areas can be obtained by writing the Division of Public Relations, Dept. of Fish and Wildlife Resources, Frankfort, Ky. 40601. Ask for the publication titled "Places to Hunt."

Graydon Cummins of Pine Hill found this unusual plant growing on his farm and cannot figure out what it is. Trips to the County Agent's office and to the ASC

office proved fruitless but a sample of the plant has been sent to the University of Kentucky for possible identification. The plant has small, round, purple balls

on it in clusters but it has definitely been decided, Mr. Cummins said, that the plant is not kin to the grape family.

SHORT ROWS

By Nevyne Shackelford

Except for the crash of thunderstorms and the sounds of the winds, the days are mostly silent now. The symphony of birds that was of June, July and early August has all but ceased. The monotony of the heat has become too irksome and many members of the feathered orchestra, the thrush, the thrasher and the catbird have departed, leaving only the great wood hen to call irritably from the beeches and the rainwater to croak a dismal intermezzo from the thickets.

Resident robins that sang from the treetops at dawn and at dusk now hop disconsolately about with open bills and drooping wings and noisy squirrels and quarelsome woodpeckers have lapsed into sullen silence. Spring has long since gone and for the furred and feathered creatures of the field and forest, summer

has lost most of its glamour. Like humans being locked in the lethargy of a passing season, creatures of the outdoors are impatiently awaiting the change presaged by late August—a change that will renew a worn-out atmosphere and restore a vitality wearied won by Dog Day heat and humidity. Soon a refreshing river of wind will wash down from over the frosty swales of the North bringing with it a renewed vigor to a weary earth.

Rockets Defeat Berea 8-2 In Season Opener

Almost 300 total yards in penalties against the Berea Pirates and the Rocketeers characterized the opening game of the season for both teams a game which the Rockets held on to win 8-2.

The Rockets' only score of the game came early in the first quarter on a five yard run by quarterback Earl Lewis Hammons. Berea had taken the opening kick off and began their first series of downs from their own 30 yard line. On the second play from scrimmage, the Rockets big defensive lineman Walter Browning, recovered a Pirates fumble and the Rockets took over on Berea's 32. Billy Hackworth gave the Rockets a first down on a nice run to the 22 and on the next play, running back David Owens, picked up two. On the next play, the Pirates were called for pass interference and it was first and 10 on the 10. Hackworth picked up 3 and 2 yards each on the next two plays and then Hammons went in for the score.

When the two point attempt, a pass from Hammons to Rick Anderkin in the end zone, was good and the Rockets led 8-0. The rest of the half was pretty evenly played with penalties prolonging the issue (12 whistled the first half).

Berea ran the ball for two first downs, then fumbled the ball again and Rockets took over only to get hit with a clipping penalty forcing them to punt. Rick Anderkin got off an almost 50 yard punt but it was called back because of offsetting penalties and the Rockets had to kick over. Berea couldn't make their

Billy Hackworth, No. 27, was the leading yard gainer in the Rockets win Friday night over Berea 8-2. Hackworth gained 72 yards in 13 carries. This carry set-up the Rockets' touchdown moments later by quarterback Earl Lewis Hammons.

first down this time (a clipping penalty here helped the Rocket's cause also) and they were forced to punt. Hackworth

picked up 15 yards and another first down, then the Rockets garnered another first down (with the help of a 15-yard piling on penalty against Berea) and it was first and 10 for the Rockets on Berea's 20. A couple of running plays got the Rockets only one yard and then a pass from Hammons to Anderkin in the end zone was intercepted by the Pirates. The Pirates were forced once again to punt but a clipping and a holding penalty in succession forced the Rockets to hand over the ball.

The Pirates were moving the ball good on short passes and were in Rockets' territory when Earl Hammons intercepted a pass and returned it 15 yards. However, a clipping penalty against the Rockets left them in possession of the ball but with a 1-10 on their own 26. The Rockets picked up another first down and were then penalized twice back to their own 15 where it was 1-15. The half ended with the Rockets in possession of the ball and a 8-0 lead.

The second half opened with the Rockets unable to move the ball and a short punt gave the Pirates good field position. The Pirates hammered the ball down to the Rockets 6-inch line on a third down situation; but, the Rockets' defensive line proved equal to the task by holding twice and forcing Berea to turn the ball over.

Hammonds came out on the first play for a 5-yard gain up the middle but a short time later, after fouls on both sides, the Rockets found themselves backed up to the end zone line. A fumble between center and quarterback, which was quickly covered by Hammons, gave Berea their only score of the game. Todd Fields, junior lineman was credited with making the primary hit on Berea's ball carrier the second time.

Early in the fourth quarter, Berea wound up with a 3-30 situation and had to punt. Owens got a good return on the kick but a 15-yard penalty against the Rockets brought most of it back. Some good running by Steve Mitchell, David Owens, and Billy Hackworth and a face mask and personal foul penalty against Berea combined to put the Rockets on Berea's 5 1/2 yard line with a first and 10.

The Rockets were unable to put over in three tries and an aborted field goal attempt gave Berea the ball with just minutes left in the game.

The Pirates were moving the ball well until they were flagged for a 15-yard illegal receiver downfield penalty about mid-field. Three incomplete passes and a loss on a running play gave the ball back to the Rockets with less than two minutes to go in the game. The Rockets were immediately assessed with another 5-yard penalty, making it 1-15. Mitchell got 7, Owens got 6 and Hammons got the first down; but a 15-yard pushing the runner penalty was then called against the Rockets. However, it was the Rockets' game as time ran out on the field.

All in all, the Rockets looked good in their opening game. They were assessed for an unusual number of penalties but some new rules just instituted this season accounted for several of these. The defensive play by Walter Browning, Kyle Miller, Todd Fields, Hammons and others was very good and Hammons and his running backs looked good on offense. The Rockets still need some work on rushing the quarterback on passes and some other areas but it promises to be an exciting season for fans.

This Friday night, the Rockets are home to Lincoln County at 8 p.m.

Presenting the award to Danny McKimney, second from left, PCA local manager, is Dr. Finley

Hendrickson, a member of the Improvement Council committee for Improvement Awards. In the photo are, from left: Roy Brown, PCA Vice President in Charge of Public Relations; Dr. Hendrickson; Mrs. Jewell Hansel, assistant office manager and Mrs. Sharon Burton, secretary.

I want to thank the Mt. Vernon Signal, it's owners, Jim and Perlina Anderkin and the rest of the staff for their cooperation.

As most of you already know, I will be in the Central PCA Office in Somerset as of October 1, 1977, as Vice president of Public Relations.

I hope you as readers of the Signal have enjoyed some part or all of the writings as much as I have. It certainly has been a pleasure for me to visit in your homes via the article.

I hope to be back in the county often to visit with my many friends who have been so good to me over the years.

I will never forget the many times I have visited with you in person in your homes and on your farms, and the kindness and hospitality you gave me.

This is not a forever goodbye, but a so long until we meet again "Down on the Farm"

STRETCHING YOUR FOOD DOLLAR

Small eggs are featured "specials" in stores at this time of year. Are they a good buy? If the price difference per

dozen between large ones and small ones is more than 1/4 the price of the large eggs, the small ones on special are a bargain.
