

Vandals entered the Mt. Vernon Elementary School sometime late Monday afternoon or night and threw papers over the principal's and secretary's office. According to State

Policeman Greg Ennis, who is investigating the break-in, nothing was taken and no other area was bothered except the two offices. Entry to the

building was apparently gained through a window. One inside door, the one to the office, was broken and the window was broken out of a door.

There were forty present for the occasion. There was a very good food and all had an enjoyable time.

questions and answers

Q. Several years ago, my husband died and I started getting reduced widows benefits when I was 60. I'll be 65 soon and eligible for retirement benefits on my own work record. Will my retirement payment be affected by the widows benefit I've been getting?

A. Yes. Your retirement benefit will be reduced, too. Generally, once a person receives reduced benefits, he or she will always receive a reduced payment. This reduction takes account of the longer period of time over which the person is likely to receive payments.

Q. My wife died 2 months ago. I'm her sole survivor and I've heard that widowers can get social security benefits even though they weren't dependent on their wives. Can I get payments? I'm 47.

A. No. It's true that widowers and husbands no longer have to prove dependency to get benefits on their wives' work records. But, if a widower doesn't have young children in his care, he must be either 60 or older or between 50 and 60 and disabled to get survivors benefits.

Q. I was a secretary for several years, but haven't worked since I got married. As a result of a heart condition, I'm now completely disabled. Can I get social security benefits? My husband is working full time.

A. You may be eligible for monthly disability benefits if you worked long enough and recently enough under social security. The exact amount of work you need depends on your age when you became disabled. You should contact a social security office; the people there will tell you if you have enough work credit. The fact that your husband is working would not affect your benefits on your own work record.

Q. I plan to retire at the end of the year. The monthly pension I'll get from my union is taxable. Will I have to pay Federal income tax on my social security benefits, too?

A. No. Social security benefits are not subject to Federal income tax.

Rockets Lose to Lincoln Co. 22-16

IT'S THE MOST!

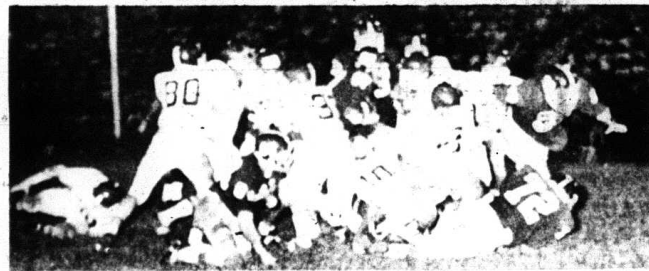

The most calorie-free sugar substitute you can get in the United States today is saccharin. That's why many people are writing to congress to protest its ban.

Steve Mitchell, one of the Rockets' running backs, breaks loose for some good yardage in Friday night's game while No. 51, Robert Owens, helps out by keeping his man out of the play. This Friday night, the Rockets host Clay County who are playing their first year of football.

Quarterback Earl Hammons is shown going for some yardage but a couple of Patriot linemen have another idea. Hammons led the defense in tackles.

The Rockets first touchdown came on a one-yard run by quarterback Earl Hammons, No. 10 on the bottom of the pie. The touchdown was set-up by a 51-yard run by Hackworth.

Lincoln County's quarterback, No. 10, is shown picking up some yardage in Friday night's game before being brought to a halt by No. 10 Earl Hammons and No. 27 Billy Hackworth. Lincoln County carries a 30-man roster and a goodly portion of them were over 200 pounds. No. 14 for the Rockets is Brian Stokes and No. 39 is Kyle Miller.

The Rockets scored early in the first quarter last Friday night against the Lincoln County Patriots and led at half-time, 8-0 but it was to no avail as the Patriots came back to hand the Rockets their first defeat of the season, 22-16.

A fifty-one yard run by Billy Hackworth set up the Rockets' first touchdown of the game and quarterback Earl Hammons muscled it over from the one-yard line for the score. A pass from Hammons to Rick Anderkin in the end zone was good for the two extra points.

Another scoring threat by the Rockets shortly thereafter was stymied by the Patriots. The Rockets had marched the ball from their own 42 yard line down to Lincoln county's 10 yard line, where it was first and ten for the Rockets. However, it just wasn't to be as David Owens, who had just turned in a fifteen-yard run on the previous play, was thrown for a three yard loss in the backfield; Hackworth then got 8 and there was no gain on the third down play. On 4-5, Hammons kept the ball and the Patriots line broke through to get him in the backfield and Lincoln County took over on their own ten yard line.

Lineman Walter Browning recovered a Lincoln County fumble in the second quarter but the Rockets were unable to capitalize and pass interception by Hackworth later in the quarter was nullified by a pass interference call against the Rockets. Lincoln County really mounted no serious threat to the Rockets in the first half of the game.

The Patriots had to kick to the Rockets to begin the second half and the Rockets looked for a while as though they might hit pay dirt again; but, an untimely holding penalty against the Rockets made it 2-24 on Lincoln County's 45 yard line and two incomplete passes later, the Rockets has to punt the ball away.

The Patriots took the ball on their own one-yard line and the runner went all the way for the score, but, that clipping penalty against the Patriots nullified the score and the Patriots began their drive on the Rockets' 35-yard line 1-10. They steadily advanced the ball to the seventy-yard line from where they scored on the next play and the two-point conversion was good for the tie score.

A good kick-off backed the Rockets

up to their three-yard line and they managed to move it out to their own 17. Before having to once again punt. The Patriots returned the punt to the Rockets' 40-yard line and suffered a five-yard penalty on the next play making it 17-9 on the Rockets' 45. Here, the Patriots struck pay-dirt again with a touchdown and two extra points and they were ahead 16-8.

The Patriots' other score was set up in the fourth quarter when a pass from Hammons to end Harold Ballinger was intercepted by a Lincoln County defender. The pass hit Ballinger who was unable to gain control of the ball; it bounced off him into the Patriot's hands and a few plays later, they were in for their final score of the game. The extra point attempt was not good and Lincoln County was ahead 22-8. The Rockets were not done however as they sustained a long march down the field for another touchdown, this one from the two-yard line by Hammons. Owens went in for the two extra points.

The Rockets held Lincoln County following the kick-off and the Patriots were forced to punt the ball to the Rockets. However, with less than two minutes to go in the game, the Rockets fumbled the ball and Lincoln County held on for the win.

David Owens led the running backs with 118 yards in 15 carries; Hackworth

got 118 in 11 carries; Hammons was 17 yards for 7 carries and Steve Mitchell picked up 18 yards in 8 carries for a total rushing yardage by the Rockets of 286 yards.

Owens picked up 58 yards on two kick-off returns and Hackworth got 15 into two carries. Hackworth got 9 yards on one punt return and Hammons and Anderkin each got 8 yards on punt returns.

Hammons was one for nine passing and 5 yards and Anderkin averaged 28.9 yards in six punts. The Rockets were penalized 15 yards and garnered 11 first downs. Total yardage gained by the Rockets was 361.

Defensively, the Rockets were once again led by Hammons with 8 tackles and 4 assists. Mark Holbrook, seeing action for the first time this season, got 7 and 4; Kyle Miller was 6 and 4; Danny Hunt, 7 and 2; Brian Stokes, 5 and 2; Hackworth, 5 and 1; Browning, 5 and 1; Steve Mitchell, 4 and 1; Dusty Carlotta, 4 tackles; Charlie Fain, 4 and 2; David Owens, 2 and 1; Robert Owens, 3 and 2; Ty Huffines, 1 and 1; Todd Fields, 2 and 1; Eddie Thompson, 1 tackle and Anderkin, 2 and 1.

Lincoln County picked up 207 yards in 35 carries and had 4 total yards gained of 483. They were penalized 9 times for 85 yards and got 9 first downs.

This Friday night, the Rockets host Clay County.

With all the furor going on about coal mining and strip mining, we thought it would be an opportune time to take Rockcastle Countians back through the years to 1930 when there were several coal mining operations going on in

Students Are Issued Reminder on Reports

Full time students 18 and over who get social security checks have several things to keep in mind this time of the year, according to a social security spokesman.

One of the most important things to remember is their school enrollment status. Most of these young men and women have been getting checks during the summer vacation period because they planned to continue their education this fall. They should report to social security if their plans have changed and they did not return to full-time attendance, so they can avoid being overpaid.

On the other side of the coin, those students who did not social security last spring they did not plan to return to school this fall, but who have returned to school or college, they can have their checks restarted.

There is a third group that should contact social security, the spokesmen added. These are the young people between 18 and 22 who became eligible for social security student benefits because an insured parent started getting social security retirement or disability benefits, or died during the summer. Their benefits can start with the month they begin attending a school, college or university on a full-time basis, if they are unmarried and under 22.

There are other items students getting benefit checks should report. The first applies to those students who have been working for someone or for themselves and earning money. They should check their total earnings for the year to make sure they have not yet, nor will soon, go over the annual earnings

test exempt amount. This is \$3,000 for 1977. If their earnings are over this amount or they expect to go over it before the end of the year, they should report this immediately to social security. This way, they can avoid or minimize any possible overpayment, which would have to be paid back.

The final reminder item concerns marital status. Students can generally get social security checks only if they are unmarried. Any student getting checks who has married, should report this to social security immediately.

Students wishing to make any of these reports, or anyone wishing information about social security can contact any social security office. The address and phone number can be found in the telephone directory.

GREAT SCOTLS

By Jack Moore, The Director
Teacher's Agency Information Center
You might not think it of Scotland's most famous princes was a female impersonator at least long enough to save his skin. He was Bonnie Prince Charlie, other was Prince Charles Edward Stuart, also known to history as the Young Pretender.

After the defeat of the Highland Army in 1746, Prince Charlie took refuge in the Highlands of Scotland. When news finally came that a French ship was off the Isle of Skye, ready to rescue him, the Prince was separated from the ship by strong English lines. But a resourceful woman named Flora MacDonald dressed him in the clothes of her Irish servant. Teacher's Scotch Information Center is happy to relate that the Prince passed successfully through the government forces and sailed for France.

ROL-HEVIK
The word *rolhevik* comes from *rolhevik* meaning "members of the majority."

Rev. Sharing Money May Be Spent for any Public Purpose Permitted

Revenue sharing money allocated to a unit of local government may be budgeted and spent for any public purpose permitted by the statutes governing that government's expenditures, according to an opinion from the state Attorney General's Office.

The opinion, written Aug. 23 by Charles W. Runyan, assistant deputy attorney general, further states that the use of local severance tax money allocated to a county is restricted to public or capital improvements in coal producing counties.

The opinion was requested by George S. Clark, executive director of Boone Regional Emergency Medical Services Systems, Inc., Lexington.

NEWS OF HEALTH

Stimulating Sponge

You can make your body feel tingly with good health if you use an unusual bath sponge made from a cucumber-like plant imported from the Far East.

This sponge, called a toofah, is made from the spongy fibers of an Oriental vegetable and has been used to tone and soothe the skin and stimulate blood circulation and has been among the basic beauty secrets of Egyptian and Oriental women for thousands of years.

Legend has it that Cleopatra bathed in oil and scrubbed with a toofah to make her body more feminine in preparation for Marc Antony's return from battle.

Here are some tips on getting the most out of a toofah from Kathy Gang, beauty consultant at Schmidt Laboratories, which imports Mikura brand toofahs.

• Shower or bathe with warm water and allow your body enough time to relax completely.

• Wet the toofah until its fibers fill with water and soften completely.

ANY HEALTH-CONSCIOUS WOMAN CAN use the same beauty secrets as Cleopatra.

• Rub the toofah up to the loofah and massage the body in a gentle, circular motion, particularly on hips, buttocks and thighs, to help work on fatty tissue.

• Work on arm and legs to soothe and relax muscles, and on elbows, heels and soles of feet to prevent buildup of dead, flaky skin.

With these tips and a toofah of your own, you're on the way to a new, vibrant you.

Renting Out Your Home

Your home becomes a business if you rent it out either for a year or some season period such as the summer. The costs of running the property are subtracted from the rent to determine the net income from the operation just as would be done in any other business. Amonth the expenses that can be charged off are interest on the mortgage, maintenance and repairs, agent's fees, utilities if you pay them, insurance premiums, annual depreciation and improvements.

If you sell a house you rented as against a home occupied by the owner there are important tax differences. Depreciation claimed must be

subtracted from the cost of the house. You can't defer the profit from the sale by buying another house; however, you can charge off a loss on the sale against your income for the year. Tax-wise, renting out your home is a whole new ball game. So as not to pass up an money-saving deduction, I suggest you put your return in the hands of a good accountant.

If there is anything we can do to help you in the field of real estate, please phone or drop in at Ford Realty & Auction Co., Inc., Mt. Vernon, Phone 256-4545. We're here to help!

The annual meeting of the Rockcastle County Extension Homemakers Association was held last Friday, September 2, at the community room of the county library. Featured speaker was Mrs. Alice Scott, public relations chairman of Friends of the Americas. Mrs. Scott, who is from Elizabethtown, brought a display of craft items of Ecuador and showed slides of the countryside of that country. She explained how the country of Ecuador and the state of Kentucky were partners in the Partners of the Americas program. Re-elected county officers for the coming year were Rachel Griffin, president; Norretta Thompson, vice-president; and Margie Shivel, secretary-treasurer. The Brotherhood Working Workers, Quail Homemakers, Town and Country and Contemporary Homemakers were represented at the meeting. Shown in the photo are from left: Rachel James, Alice Scott, Rachel Griffin, Norretta Thompson and Charlotte Bullock.

Vernon; nine grandchildren and one great grandchild.

She was preceded in death by one son, Eddie Mink and one daughter, Mary Ann Mink and one grandson, Delbert Ray Mink.

Funeral services were held Saturday, September 3, 1977 at the Cox Funeral Home Chapel with Bro. Rafoad Heron officiating. Burial was in the Pine Hill Cemetery.

Mrs. Otelia Herrin

Mrs. Otelia B. Herrin, 86, of Goshen, Ohio and formerly of Pulaski County passed away Monday, September 3, in Mariemont, Ohio after a long illness. She was born in Shawville on May 5, 1891, the daughter of the late Martha Burkhardt and William Jenkins.

She was a homemaker and a member of the Central Baptist Church, Mt. Vernon.

Survivors are: five sons, Durward of Norwood, Ohio; George of Goshen, Ohio; Dewey Orvil of Pleasant Plains, Ohio; John Paul of Fontana, California and Bro. Rafoad B. Herrin of Mt. Vernon; one daughter, Mrs. Laura Esther Long of Felicity, Ohio.

She was preceded in death by her husband, Bro. John Milton Herrin. Funeral services were conducted Wednesday, Sept. 5 at the Grave Hill Baptist Church, Tatesville with Bro. Garland Singleton and Bro. Lonnie Masee officiating. Burial was in the Tateville Cemetery.

Airman Jeffrey A. Shivel, son of Mr. and Mrs. Richard E. Shivel of Rt. 1, Brookhead, has been assigned to Lowry AFB, Colorado, after completing Air Force basic training. During the six weeks at Lackland AFB, Texas, the airman studied the Air Force mission, organization and customs and received special instruction in human relations. Completions of this training earned the individual credits towards an associate in applied science degree through the Community College of the Air Force. Airman Shivel will now receive specialized training in the munitions and weapons maintenance field. The airman attended Rockcastle Co. High School at Mt. Vernon.

Utility Bill Payments Extended to Sept. 15th

The Special Crisis Intervention Program which makes utility bill payments in energy related hardships cases has been extended to Sept. 15, past its original Aug. 31 cutoff date, Peter Conn, secretary of the Department for Human Resources, announced Tuesday.

"We are pleased that the deadline has been extended for helping the Kentuckians who suffered such hardship last winter in trying to pay their fuel bills," Conn said. "This extension of the deadline should give those who haven't yet participated, time to apply for help under this special program," he said.

Special relief for fuel payments was made available May 5 by a direct appropriation of \$200 million by congress for the 50 states. Kentucky's allotment was \$4.6 million.

Gail Huecker, commissioner of human resources' Bureau for Social Insurance, predicted today that "applications approved for pending will obligate some \$2.2 million of the state allotment."

States were given the option of extending benefits as late as Sept. 23. Human Resources decided on the Sept. 15 cutoff date "to give (social insurance)

staff time to process all applications and obligate payments by Sept. 23," Huecker said.

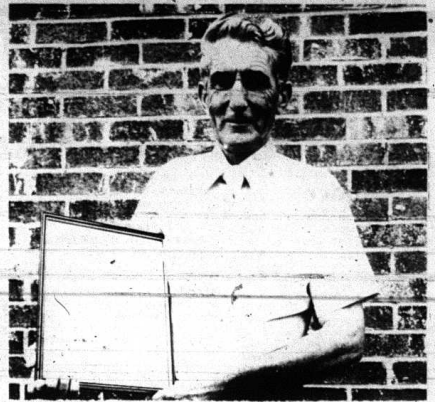

"Generally payments will be made within 30 days after they are authorized," she said.

Some 15,000 applications have been received for the energy relief program, according to human resources officials. Of those, about 5,000 require further verification from electric or fuel suppliers, Huecker said.

Huecker noted that remaining funds from the \$4.6 million allotment may be used for weatherization projects to help elderly and disadvantaged individuals weatherproof their homes. Kentucky Community Action Agencies have been working with human resources officials to identify weatherization funds which could possibly come from the leftover energy relief allotment, Huecker said.

Under the Special Crisis Intervention Program, payments to utility companies may total up to \$250. Cash payments of up to \$50 are also made in hardship cases resulting from high utility costs.

A silent movie of the opera Carmen was made in 1915.

CHARLES M. LOVELL of Rt. 2, Mt. Vernon has been named a Kentucky colonel by Gov. Julian Carroll. Mr. Lovell worked 16 years with the State Highway Dept. here before moving to Indianapolis, Indiana where he retired from General Motors. He is also a member of the Gold Card Honor roll of Senior Citizens.

Board of Education Meets; Accepts Bids, Hires More Teachers

The Rockcastle County Board of Education met Monday night with nothing major on the agenda.

During the meeting, the Board did accept a bid from Carr Roofing Co. of London for \$1,340 to reshingle the roof of two classrooms at Livingston Elementary School. Another bid from the same company was held to be the same time as the board can check with other roofing firms for a possible lower price.

Three teachers were hired by the board. Sharon Carol Brammer was hired for Roundstone Elementary. Sandra Sizemore was hired to teach first grade at Mt. Vernon Elementary and Michael Robbins was hired to teach at Livingston Elementary.

Nine substitutes were hired, subject to certification. They are: Ginger Baker Stewart, John Graves, Betty Jo McKinney, Lajoy Graves, Nancy Hale, Lonnée Roaden, Kathy Pope, Teresa Sams and Mark Bray.

The first estimate of the general budget was approved by the board. According to the budget, the school expects to spend \$2,599,970.61 next year.

PCA Passes \$8 Million Mark in Loans Outstanding

By Roy G. Brown, Vice President, Public Relations, Cumberland Production Credit Assoc.

PCA passed the \$8,000,000 mark in loans outstanding as of August 27, 1977.

This is a new milestone for the Mt. Vernon PCA office.

The business and professional people who have gone out of their way in assisting us to achieve this goal.

I have enjoyed my service in Rockcastle and joining counties and will always remember the fine people in all the civic, Agri-groups, and especially the F.F.A., F.H.A., and 4-H Club boys and girls.

Frankfort Career Development Center residents Phil Wood and Bill Fee (above left) harvest some greens at the center's vegetable garden. The produce they and other center residents cultivated this summer has fed hundreds of senior citizens and people on fixed incomes in the last couple of months. Bill Fee (above right) checks an ear of corn in the garden which overlooks the capitol.

Fiscal Court Sets 21.55¢ Tax Levy

The Rockcastle County Fiscal Court set the tax levy for 1977-78 at 21.55 cents per \$100 assessment this year — the same as last year, however, the school tax rate (which was 39.7 cents last year) was set at 9.7 cents because 30 cents of the tax collected for schools will be collected as a state tax rather than a local school tax. The school board will still receive the money but it will come directly from the state, after being collected by the sheriff's office rather than directly from the sheriff.

The Court held off on granting their approval of this request until it could be determined whether or not these facilities would be paid for by the state.

Magistrate Ernest Mason brought to the attention of the court, the vandalism and theft which occurred last week at the Kentucky

Christian Camp at Brodhead. He told the Court that since several Christian Churches who support the camp had put up a \$5,000 reward for information leading to the arrest and conviction of those responsible, he felt that perhaps the county should match this and also reward for the end of this lawlessness in the county. However, there was no discussion on the matter by the other magistrates and no action was taken.

County Assessment Jumps by \$7 Million to \$73,082,435

Rockcastle County's assessment increased by over \$7 million this year — up to \$73,082,435. One of the biggest jumps in this year's assessment came in commercial and industrial real estate which went from 5,261,826 to 6,760,185. Oil, mineral, and timber rights took an 111,690 increase from 5,000 to 116,790 while the total unmined coal value was \$1,688,980.

\$845,380 all contributing to the increase from \$12,554,705 to \$15,855, 310 in total tangible personal property.

Stocks, bonds and other intangibles increased from \$3,243,430 to \$5,903,730.

The number of acres under fire protection in Rockcastle County is 102,225; the number of acres of farm land is 135,498 and the number of motor vehicles is 3,321.

Letter To The Editor

PANAMA CANAL GIVEAWAY??

For the proper understanding of the Panama Canal issue some historical background would be helpful. Ferdinand De Lesseps, who dug the Suez Canal, made the first attempt to cut the big ditch through Panama.

At that time Panama was a dismal, disease-ridden, swampy jungle, hostile to and unsafe for human habitation. Because of malaria, yellow fever and other tropical diseases, the French abandoned the mammoth project after 20 years of arduous labor.

Knowing the world needed a sea lane connection between the two great oceans, President Teddy Roosevelt gave De Lesseps \$40 million for his assets and the U.S. began to plan a digging of the long-dreamed-of Panama Canal.

At this time, Panama was not a nation, but was an isolated, neglected jungle belonging to Colombia. The few people living in the Panama section wanted the U.S. to build canal through their isthmus but Colombia was adverse to this. Consequently, Panama seceded from Colombia and with the blessings and help from the U.S.A. became a new nation.

Panama, owing its birth as a nation solely to the U.S.A., was desirous and happy to give her American friends the right to build the Panama Canal. Hence, the "Hay-Banau-Varilla Treaty" was signed in 1903 granting us sovereignty, having supreme power, to possess, to have and to hold and govern the Canal Zone "in perpetuity" forever and forever or for all time to come.

With 35,000 men working for 12 years, the canal was finished in 1914. Panama was paid the fat sum of \$10 million and an annuity of \$25,000, later raised to \$2.3 million. The canal cost the U.S. \$387 million and 6,639 lives.

The Canal zone, 10 miles wide and 51 miles long, the canal, the railroad and the giant military station is estimated to be worth about seven billion dollars at today's prices.

The canal is one of the world's greatest engineering accomplishments. It is considered one of the eight wonders of the world. With only the crudest earth-moving machinery, it was carved out of a pest-ridden tropical swamp, and blasted from a rigid continental divide, opening up 50 miles of intractable wilderness as a path for world marine travel.

The canal is still vital to our interest after 62 years of steady operation. So enormous is its size that only 13 U.S. Naval vessels and the giant super-tankers are too wide of beam or long of deck to pass through the locks. Nuclear submarines often use the canal in national security missions of the U.S.A. Without the Panama Canal, U.S. submarines would have to travel 8,000 miles extra around Cape Horn.

The nation of Panama (1.9 million people) is governed by a self-commissioned general and self-appointed leftist dictator by the name of Omar Torrijos Herrera. General Herrera jails or expels those who oppose him, and the only place in Panama where civil rights exist and human rights are respected is in the Canal Zone under the sovereignty of the United States.

Annually to Panama, wages to Panamanians, the economic operation, including 38,000 U.S. citizens who live there, cause an economic impact equal to one third of Panama's gross national product.

Since a small confrontation between Panamanian rioters and American troops in 1964, Communists all over the world have carefully orchestrated moves to create enmity toward the United States and to try to influence the U.S. to give Panama away. Many of the same people, the same media, the same governments, Cuba included, continue

without ceasing to influence world opinion to cause the U.S.A. to relinquish ownership of Puerto Rico and the United States Naval Base of Guantanamo in Cuba, leaving the Caribbean a Russian-Chinese dominated lake.

It is not to be inferred that everyone who wants the new canal treaty are adverse to U.S.A. interests. Those who do prefer it are in the minority and most of them are well intentioned people. However, some few prefer the treaty for selfish reasons such as the big banking interests of New York.

As reported by a number of columnists, these banks overextended themselves in loans to the Panamanian government and they feared, so the theory goes, that without U.S. concessions, Panama might default on some of their loans.

The big New York banks put pressure on Washington, to exercise haste in a treaty with Panama and in giving U.S. aid to Panama so it could repay the New York banks. They also caused Sol Linowitz, one of their bank directors, to be appointed special negotiator in the canal giveaway.

Most military strategists agree that with Russia's operation of naval and missile bases within 100 miles south of Florida, it is more important than ever that the U.S. retain possession of the Panama Canal. They further noted that "because of reduced forces in the Atlantic and Pacific" the canal is more important to the U.S.A. than ever before.

The canal controversy is not only in Washington. People everywhere are talking about the canal. The majority of the people are opposed to a canal giveaway. Notwithstanding this, the federal government is trying to sell the canal treaty to the American people.

The United States Senate will soon decide whether or not to give up the Panama Canal.

How to MAKE WORKING for peanuts PAY OFF by George Washington CARVER.

George Washington Carver made more than 300 products from peanuts. By doing so he revolutionized the agriculture of the South. And he made working for peanuts pay off.

Today, folks who buy U.S. Savings Bonds know how to turn peanuts into cold, hard cash. When you buy Bonds through the Payroll Savings Plan, you're letting those hard-earned dollars work for you automatically.

So join over 9 1/2 million Americans who took a hint from a man who worked for peanuts. Buy United States Savings Bonds.

A few peanuts now can shell out a lot of savings tomorrow.

Mr. and Mrs. David Newberry

Miss Treadway - Mr. Newberry Wed In Double-Ring Ceremony

Miss Glenda Treadway and Mr. David Leon Newberry were united in marriage Saturday afternoon at 2 p.m. on August 6, 1977, at the Church of Christ in Indianapolis, Indiana: John A. Welch performed the double-ring ceremony.

The bride is the daughter of Mr. and Mrs. Charles W. Treadway and the groom is the son of Mr. and Mrs. Johnnie L. Newberry. Miss Treadway is the niece of Mrs. Lina Treadway of Brodhead and Mr. and Mrs. Charles Lovell of Mt. Vernon.

Given in marriage by her brother, Bobby Lee Treadway, the bride wore a gown of white chiffon with matching veil. She carried a bouquet consisting of white roses, pink and white carnations and baby's breath, with blue and white ribbons.

Maid of honor was Miss Lora J. Tolbert of Indianapolis, Indiana. Her gown was a blue floral chiffon and she also wore a white hat with blue ribbon attached to the back. Her bouquet consisted of blue and white carnations and blue and white streamers.

Bridesmaids were Miss Regina Newberry, sister of the groom; Miss Debbie Calhoun of Indianapolis, Ind. and Mrs. Betty Robling of Mooresville, Indiana, both cousins of the bride. The girls wore blue floral chiffon gowns with white hats which had blue bows attached to the back. Their bouquets were of blue and white carnations with white streamers.

Mr. Dennis Hayes of Indianapolis, Indiana served his friend as best man. Ushers were Barry Jones, friend of the groom; Rick Crawford of Evansville, Indiana and Tony Bannion of Indianapolis, cousins of the groom.

Jimmy Williams served as ring bearer and his sister was the flower girl. Miss Tina Williams, cousin of the groom, served as flower girl.

Music was provided by the Church of Christ including several songs sung by members of the Church of which the bride is also a member. They were Mr.

and Mrs. Bruce Cox, Mr. and Mrs. Bob Munday, Rick Roberts, Jeff Cox, Becky Uebelack, and Rita Green.

A reception followed the wedding at the UAW Hall, 933 N. 33rd St., Tibbs Ave. in Indianapolis.

The bride is a 1975 graduate of Ben Davis High School and the groom is a 1974 graduate of Ben Davis High School. After a wedding trip to the south, the new couple are residing in Indianapolis, Indiana.

Down on the Farm

BY DANNY MCKINNEY
BRANCH MANAGER
CUMBERLAND VALLEY PCA

Lewis C. French, a Wisconsin newspaper man, once said that the way to tell the difference between weeds and vegetables was this: Those that come up twice after hoeing are weeds.

That is the way with many problems a farmer has to deal with. They keep coming up twice or even more after hoeing or what ever we do about them.

One such problem is how to make more money on the farm. Some twenty-eight years ago, in the January 1949 copy of Farm Journal C.M. Lond was quoted as telling a group of farm

managers, "There were never but two ways to make more money on the farm—produce for less, sell for more. Today, these same methods seem to be effective. Watch this column each week for specific hints and information on how 'to produce for less, sell for more,' and consequently make more money." "Down on the Farm."

Weeks Proclaimed

Gov. Julian Carroll has proclaimed the week of September 17-23 as Constitution Week and Saturday, September 17, as Citizenship Day in Kentucky.

by this proclamation, Gov. Carroll urges wide participation to the end that citizens may have a better understanding of the Constitution and of the rights and responsibilities of United States citizenship.

Gov. Carroll also has proclaimed the week of Sept. 18-24 as "Square Dance Week" in Kentucky in honor of "this truly American art form."

Poetry Corner

A Sure Way For a Happy Day
Helen Steiner Rice

Happiness is something we create in our mind.
It's not something you search for and so seldom find.
It's just waking up and beginning the day.
By counting our blessings and kneeling to pray.
It's giving up thoughts that breed discontent.
And accepting what comes as a "gift Heaven sent".
It's giving up wishing for things we have not.
And making the best of whatever we've got.

It's knowing that life is determined for us.
And pursuing our tasks, without fret, fume or fuss,
For it's by completing what God gives us to do.
That we find real contentment and happiness, too.

The letter D started at the out- ing of an archway or door.
