Cheese is now the Hentital Supply

Cheese is now of the most versatile, nutritious and satisfying foods available. It can serve as an appetiers, shack, main dish, or dessert: comes in some 400 ovarieties; and contains generous supplies of, protein, "riboflavin and calcium. Morever, the protein in cheese is of the same high quality as the protein Cheese in the same high quality as the protein This is the perfect time to try cheese in many different ways because in many different ways because the supply is plentiful just now.

Selecting a cheese is mostly an attent of tastes ome prefer them mild, others sharp. Cheese stores well, but should be kept in the refrigerator. If possible, leave it in its original wrapper water of the protein the supply is plentiful just now, and the sharp contained the supply is possible, leave it in its original wrapper water of the protein the supply is possible, leave it in its original wrapper water than hard ones. Freezing is not recommended for most cheeses because they become crumbly and mealy when frozen. So do not buy in overly large quantities but buy often.

Serve cheese? Why not try it in rolls, bread and bread sticks. It adds a distinctive flavor to these favorites:

Someone apparently climbed through direct floor vindows and then broke a window in the principal's office, using a 10-inch wooden pable from the sixth grade room. County Deputy Sheriff Raymond "Jughead" Ballinger and a State Police officer speculated that the burglars knew their way around the building and were looking for money. Parts of a cassette recorder, and a collection of pocket knives that had been taken away from students and stored to the principal's office were missing. The burglars also ate andivides and ice cream from the school cafeteria.

Postage Rates Increase:

New Type Stamp Issued

A new postage stamp that bears the letter "A" instead of denomination, has been placed on sale at the Mt. Vernon, Ky. Post Office, Postmaster James-smith announced yesterday.

The stamp's value is 15 cents and corresponds in with the new 15-cents postage rate for one ounce of first-class domestic mail which went into effect at 12/01 a.m. Monday, may 29, 12/01 for the postage rate for one ounce of first-class rate was approved. Figure 12/01 for the postage of the post

appear of the first process and the second of the stamp design features an eagle with the leged and terms of the stamp design features an eagle with the leged and tetreing are white, on an orange background.

The Postal Service printed the stamps in 1975.76 when similar uncertainly existed regarding its last rate case. At that time, it also printed and put into use two-denominated 1975 Christmas stamps.

The "A" stamps are available in sheets, coils and booklets, Postmaster Smith said-ethooseed stamped envelopes, bearing "A" in lieu of a denomination, also may be purchased.

The "A" stamps and century attained and summer and the stationery items already in the Postal Service conduction and the stationery items already in the foot and the service of the stationery items already in the stationery in

. In addition to the non-denominated stamsp, he said, many mailers will find it convenient to use existing low-value stamps in combination with the 13-cents stamps to meet the new first-class rate for letters weighing an ounce or less.

The charge for each additional ounce or letter mail over one ounce is 13 cents. Therefore, mailers can affix "a" stamps in combination with as many 13-cents stamps as necessary to letters weighing more than an ounce.

"An abundant supply of stamps-in-cluding a 15-center bearing the portrait of Oliver Wendell Holmes and first issued in 1978-and other postal items are available at all postal locations to meet the needs of our customers," Postmaster Smith said.

When it comes to human relations.
Christians follow the guiding principles as set forth by the Bible. In the relation of human relations there are sharp differences of opinion as to the matter of apology. Some persons view it as weakness. But how does God view this matter of admitting that one had been in the wrong, when it comes to human relations? What God approves is the right course.

Quail Section, Rockcastle Co., Ky.

Both House and Barn are on Tract 2

LOCATION: Approximately 7 miles SW of Mt. Vernon and 8 miles SE of Brodhead. Turn East off Ky. 70 at Lawrence's St and proceed approximately 1 mile to the property. Auction signs will be posted.

Since Mr. Hansel works in Ohio and doesn't have the time to devote to the farm, he has contracted our firm to offer this excellent farm for the high dollar. The farm will be sold in tracts and will not be grouped.

TRACT #1

Contains 10.61 acres and fronts on a county gravel road and practically all being tillable land. This tract has much privacy and will make someone a good small farm. With no buildings, you can build to suit

TRACT #2
Contains approximately 45.23 acres and is improved with the above pictured newly remodeled modern country home. The house has 6 rooms with three bedrooms living room, kitchen, TV room and utility room with a washer and dryer hook up. It also has storm windows, wall to wall carpet and central heat provided by a fuel oil furnace. It is surrounded by lovely shade trees and some woodland which enhances the privacy of this tract. Water is provided by a good spring. Of the 45 areas, approximately 38-40 acres is cropland and pasture. There is also a new pond on this tract. Other improvements include the above-pictured combination stock and tobacco barn with 24 foot shed. There is also a corn crib, chicken house and other necessary out-buildings.

TRACT #3 - TRACT *9: All are Mini-farms and front on Ky. 618 and have city water. Each tract contains approximately 1.72 acres and all of them offer a panoramic view of the Quali area. If you are in the market for a beautiful country setting for your home with more than adequate space for a garden, orchard and even some pasturage for your livestock, be sure to attend this

The dairy farmers and their families who live and work around our community deserve a great deal of thanks. Their stability helps our community remain stable and healthy. Their insistence on affering only the highest quality milk and dairy products sets an example for us all, and improves the quality of our lives. We congratulate them now, during Dairy Month, and thank them for their contributions.

June is Dairy Month

This month is a good time for all of us to take a closer look at our Dairy Industry. One thing is certain, it has become big business and is getting bigger every day. And our dairy farmers have done an excellent job in increasing production to meet growing demands. They are using the most modern, up-to-date equipment in rigidly controlled modern plants. We salute them for a job well done!

So even if that old suite is still "good," so event that one suite is still good, get up, your courage to replace it. Remember that the living room is the showgase of your decorating talents. It's worth a little money to get that good feeling inside yourself - to say nothing of impressing friends, neighbors and family members.

If you have a fireplace or picture window, start by arranging the largest seating pieces and their tables around this - to make a conversation center for family and guests. Create a smaller center in one corner.

If you have a desk or bookcase, add a chair or two and you have a little writing or study center. Group TV, stereo and associated pieces into a music and entertainment center. If your front door opens directly into the living room, use a room divider to partition off a small entry way.

Nor are they saying how many tags of each monetary value there are—only that there will obviously be more \$1\$ tags than \$1,000 ones. Everyone is eligible except department of fish and wildlife employees and their immediate families commission and their families.

The study is just one phase of a planned evaluation of the new 12-inch size limit which went into effect Jan. 13 Biologists expect several changes for the better because of those additional two inches and want to keep close tabs on the state's bass population to see just how things are working out.

If biologists can get a high return to on these taged fish, they feel that will be well worth the cost of the program. As in any other statistical study, the more data that is collected, the more accurate the conclusions will be. A 50 percent return, they feel, could provide data not otherwise available at any price.

Most of the fish have been tagged by now, according to Ted Crowell, the beloights in charge of the project, and several tags have already been returned. So keep your hooks shirp, your knots tight and your line fresh, because this year the 'one that got away' could be more than just a lost fish-fit could be a lost \$1.000 fish.

Working together keeps

The future of today's children is too important to leave to chance. We must plan now for essentials ... like reliable energy. Kentucky Ultilities is working today to evaluate future energy demands and provide for tomorrow's needs. You can help, too, by considering—the demands you place on electricity and being careful not to waste it. Working together is the only way to "keep the belance." Kentucky Utilities—a vital partner in your lifeship.

A Consumer Tip from Extension Specialists at the UK College of Agriculture

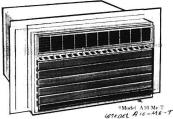

me UK College of Agriculture
Leftover happ can be used
for a wartery of menu ideas,
according to food specialists
with the Cooperative Extension Service of UK's College
of Agriculture. Slice it for
sandwiches or add bits of
ham to bixcuit dough. Add
pieces of ham to scrambled
eggs or pancakes for breakfast Cook ham with dried
beans, or with fresh or frozen
beans or peas. Use thin slices
or cubes of ham all sorts of
delicious casseroles or grand it
up and use it in meat loaves,
patities, croquettes, cabbage
rolls or stuffed peppers. Use
the leftover ham in vegetable,
split-pea or bean sour, too.
