putting it off? Perhaps they may do it because it is easier to pretend that change is not needed. Sometimes the person needs help to recognize and be convinced of the need for change.

Once the need is identified and the motivation for change are understood and if necessary, sanctioned by a doctor, a counselor, a therapist, or other knowledgeable person, the process of change can be started.

Do you know that you should perhaps smoke less or quit smoking, that you should drink less alcoholic beverages or stop drinking altogether, or that you should choose the foods you eat more carefully so as to assure good body nutrition, or that you should take a course or workshop to be confident in your job?

In making a change of habit, it is wise to follow a routine, to follow the advice of a doctor, a health professional, or other knowledgeable person. Telling your relatives or friends that you are making a particular change is also useful, so that they can give you moral support and rejoice with you as you begin and continue to be successful.

### Public Notice of Blasting Schedule

Pursuant to 405 KAR 1:090, IKERD-BANDY COMPANY, INC. P.O. Box 246, Ferguson, Kentucky shall conduct blasting operations on its 22 acre surface mine permit near Pongo, Kentucky in Rockcastle County. The blasting schedule site consists of approximately 11 acres located north of Sinka School on Skegg Creek.

Latitude 37 degrees 14' 49", longitude 84 degrees 19' 29".

Blasting schedule will be conducted Monday thru Saturday from 11:30 a.m. until 12:30 p.m. and from 2:00 p.m. until 5:00 p.m. No deviation will be made from this schedule except in emergency situations where rain, lightning, atmospheric conditions, or operator or public safety requires unscheduled detonation. This schedule will remain in effect from Jan. 1, 1979, until April 1, 1979. Any major alteration of this blasting schedule will be published.

Ten minutes prior to a detonation, all access roads to the immediate area of the shot will be blocked by company personnel.

Five minutes prior to a detonation a warning siren of three long blasts will be sounded.

After detonation and inspection of the blast area by the blaster, an "all clear" siren consisting of one long blast will be sounded.

All sirens will be audible for a distance of one-half mile from the immediate blast area.

The area where blasting will be conducted is encompassed by Permit Number 102-0005.

### BIBLE LESSON

"For this cause shall a man leave father and mother and shall cleave to his wife, and they twain shall be one flesh."

-Matthew 19:5

The Bible urges married couples to view their marriage as a permanent arrangement. When Jesus said that the husband should "cleave to his wife" he meant that the husband should not leave his wife, but stay with her. Many do not follow this advice today.

Divorces are increasing at an alarming rate. In the United States they now exceed the number of marriages and the growth of the population. Why are so many marriages breaking up? Could it be that couples getting married these days are not informed as to what the Bible says on the subject?

But what if a married person is unfaithful to his or her partner? Does the Bible say that the partner has to stay with such a person until death? No, as shown at Matthew 19:9, Jesus said: "Whoever shall put away his wife

(divorce her), except be it for fornication, and shall marry another, committeth adultery." So divorce is permitted, according to the Bible, if "fornication" has taken place.

Divorce, though, can be avoided if married couples would follow the Bible lesson found at Ephesians 5:22 and 23. There we read: "Wives, submit yourselves unto your own households, as unto the Lord. For the husband is the head of the wife." For husbands the

Bible lesson continues: "Let every one of you in particular so love his wife even as himself." -Ephesians 5:28.

The Bible has much more to say on the subject then can be put into this column. Read the Bible and practice what it says. Divorce is not always the answer.

If you have Bible questions, write to Your Weekly Bible Lesson, % Raymond Schneider, P.O. Box 705, Mt. Vernon, Ky. 40454.

**JOB OPENINGS**

If you can type 45 wpm or more, the door to data entry is now open to you.

Appalachian Computer Services, Inc. in cooperation with the Laurel County Vocational School, is presently organizing a keypunch training class. The class will start on January 2. It will be held Monday-Thursday from 5:00-8:00 p.m. This course will introduce trainees to the operation of Univac's CAIDE equipment. This equipment is the most modern up-to-date equipment in this area.

ACS usually hires over 80% of its trainees even though there is no job placement guarantee. ACS anticipates many job openings in January and February that must be filled.

To enroll in this class, just stop by ACS's corporate offices and put in your application between the hours of 9:00-4:00. We are located on HWY 229 in London, Ky. ACS is an Equal Opportunity Employer. For further information, you can call 864-4151. There will be openings throughout the class for new trainees as each person only trains for about three weeks.

## Local Saddle Club Still Going Strong

Once the largest of its kind in Kentucky, the Rockcastle County Saddle Club is still riding strong with almost 80 members.

The club meets every month at the courthouse and is open to anyone and

you don't have to own a horse.

"You could borrow one," Arletta Norton, one of the club's founders, said.

Water is a quiet time for the club, with the only events planned as regular meetings, a Christmas party and the

Annual Banquet in January when awards are presented. Spring and summer bring Sunday Rides, which usually start at 1:30 P.M. at a given point in the county and last until about 5 p.m.

Each of the club's nine directors sponsors a ride, and is responsible for the refreshments, which can be as simple as cookies and Kool Aid, or a full-fledged meal. The sponsor decides the course of the ride, which is announced through radio and newspaper reports.

Some rides have had as many as 170 horsemen, but in bad weather, as few as 12 have shown up. Average is about 65 according to Norma Lyons, club treasurer, and they go every week starting in April through October.

On a "rough it" ride, members cannot drive campers and use modern equipment.

"We have to pack old-fashioned grub as we call it," Mrs. Norton said, "and we use bed rolls and old-fashioned camping gear."

A "rough it" ride might be to S Tree Tower in Jackson County where members stay overnight and ride back the next day.

Things can go wrong on these rides, as any member can tell you. They won't give you the name of the certain female rider who was swarmed by bees and bitten 14 times on the head, but managed to finish the overnight trip without many compliments.

Or the female rider who was constantly afraid to take her horse in water, and whose fears came true one day when she was crossing a river. Her horse leaned down, and rider and saddle went floating away.

While most members are from Rockcastle County many come from other areas where the riding is not as good.

"We have people from Lexington, Stanford, Richmond and some of them are originally from Rockcastle," Mrs. Norton said.

The trails are particularly good here which is one reason the club was organized about 9 years ago. Extension Agent Lee Durham arranged for the agent from Laurel County to speak to interested people here about organizing the club. It was incorporated as an independent organization and officers and by laws were established. Current officers are: Bill Norton, president; Norma Lyons, secretary; Sue French, treasurer; and Bobby Taylor, vice president.

Many people also come to show their horses at the club's annual show in July, held at the Brodhead Fairgrounds. Recently, the club lost one of its most active members, when Jack Owens died of a heart attack. He had been a member for years, went on nearly every ride, and served as the club's reporter. He was a familiar voice on Renfro Valley

radio every Friday and Saturday, when he announced the rides.

"We will all miss Jack," Bennett Burton, said. "He loved to ride, and he loved horses. Jack was our good friend, and we will miss him."

### Christmas Greetings

Again the Christmas season comes. With gaiety and cheery. And joy and merriment sound. As Christmas Day draws near.

Again in voices soft and clear Are Christmas carols sung. With holly wreaths we decorate. The mistletoe is hung.

Once more the Christmas spirit reigns. Of "Peace, good will to men." If only it might with us stay. 'Till Christmas comes again.

The flame of friendship brighter burns. With every passing year. Its fanned afresh at Christmastime. And lived ones grow more dear.

A "Merry Christmas," friend, to you. And all whom you hold dear. And may its joy remain with you. Through all the coming year.

Mabel W. McClelland

### Prepare and Serve Holiday Food Safely

\*Scrub and sanitize cutting boards and knives before using them to cut or chop foods. The boards and knives may harbor Salmonella bacteria from raw poultry and red meat.

\*Do not leave turkey or chicken, dressing or gravy in the oven after a meal to keep them warm. Eat or refrigerate them promptly because the warm temperature of the oven favors bacterial growth. Reheat thoroughly before using again.

\*Refrigerate pies and puddings made with eggs, cream or cream fillings. Putting hot foods in the refrigerator will not cause them to spoil unless the refrigerator is overloaded with such a large quantity of hot foods that it gets warm.

### General Rules for Christmas Safety

\*Keep matches, lighters, candies out of the reach of children.

\*Avoid smoking near flammable decorations.

Make an emergency plan to use if a fire breaks out anywhere in your home. See that each member of the family knows at least two escape routes.

\*Avoid wearing loose flowing

The Mt. Vernon Signal Thursday, December 21, 1978 P-A8  
clothes—especially long, open sleeves—near the open flames of a fireplace, stove or candle-lit table.

\*Never burn candles near evergreens on a mantelpiece or table. Burning evergreens in the fireplace can be hazardous. When dry, greenery burns with little warning and flames out of

control, sending sparks flying about a room.

\*Plan for safety. Remember there is no substitute for common sense. Look for and eliminate potential danger spots near candles, fireplaces, trees, electrical connections.

## Rockcastle County Can Get Help From Federal Disaster Agencies

Although Rockcastle County has not yet been declared a disaster area, people here are eligible for some government help for damages during the recent flooding.

Gordon Nichols, public information officer with the state Disaster and Emergency Services in Frankfort, said that people whose houses or businesses were damaged may be eligible for Small Business Administration loans. These loans are federally sponsored and have low interest rates.

"Despite the name 'Small Business', the loans are for home-owners too," he said. He said any damage whatsoever furniture lost in flooded basements, etc.—can be considered.

People will have to go in person to a center set up in Lincoln County on Thursday or Friday, December 21-22. The center is located along old Highway 127 in Moreland, Ky., at the Moreland Ruitan gym. Hours are from 1 to 7 p.m. on Thursday and 10 a.m. to 7 p.m. on Friday. You must go in person—no telephone calls will be taken.

Farmers who have damage to houses, barns, fences and crops may get some financial help through programs set up by the Agricultural Stabilization and Conservation Service. Roger Thomas, chief of compliance section with ASCS in Lexington, said that some people in Rockcastle County may be

eligible for emergency loans from Farmers Home Administration. "It must be a rural home or building owned by a bona fide farmer," he said. Contact local FHA officer for further information.

The ASCS also has programs for restoring permanent fences, an emergency livestock feeding program, and emergency conservation programs, but Mr. Thomas said he did not think, from his information, that Rockcastle County would need these programs.

Emergency Conservation Program, for example, may provide bulldozers to clear off boulders from bottomlands damaged by flooding.

If a farmer has had significant damage to his property, however, he

should contact the FHA or Harold Ballinger, ASCS county director at the Courthouse.

The Disaster and Emergency Services spokesman said that after County Judge-Executive Hubert Thacker asked that the county be declared a disaster area, state and federal officials made a preliminary estimate of the damage in the county.

"Apparently, your preliminary figures were not enough," he said.

Rockcastle was not included in the immediate list of 16 counties declared disaster areas a few days after the flooding, or on the second list of 17 more declared Monday. However, because Rockcastle is next to Madison and

At least 400 people, many of them children, came to Mrs. McCay's home Saturday to receive clothing, household goods, and toys, donated by churches all over Indiana, Ohio and Kentucky. Mrs. McCay has been doing this since 1959.

## Mrs. Pansy McCay Opens Her Door To Anyone Who Needs A Christmas

By Jane Kundtz

"Blessed is he that considereth the poor. The Lord will deliver him in time of trouble." (Psalm 41:1)

Pansy McCay lay dying of tuberculosis of the spine. Five bone specialists had examined her, and concluded that there was nothing more that could be done for her medically.

"I knew I was on the brink of eternity," Mrs. McCay said, recalling those eleven terrible weeks in 1948. "Although I wasn't questioning God's will for me, I prayed that I might live, and promised God I'd let my life be a blessing to Him."

The morning after she prayed, Mrs. McCay was able to get up out of bed, having experienced a complete healing. Since then, she has devoted her life to helping others through evangelistic ministry and practical service.

Last Saturday morning, her yard was filled with people who had come from all over this county and others to receive Christmas gifts. Mrs. McCay's annual Christmas Party attracted more than 400 children, who were each given toys and fruit. It was the 19th such Christmas party.

Although Mrs. McCay is now 74 years old and suffers from high blood pressure, she still was able to thank those who had helped her make the

Christmas party possible by holding her famous buffet dinner of ham, biscuits, cakes and barbecued chicken.

"Mrs. McCay has the gift of inspiring people to help others. For years she had a radio program on the Renfro Valley station, in which she told stories of people in need and asked her listening audience to respond.

"I have never asked for anything I did not get," she said.

She told the story of visiting a mountain home where a woman had just had a baby. The baby laid on an old, worn-out mattress, and when Mrs. McCay asked where the baby's bed was, the woman replied there was none.

"I prayed that God would move to provide this bed, and a new mattress for this family," she remembered.

When she waked home, she saw that a brand-new baby bed, still with cellophane on the mattress, as well as a regular sized mattress, were both on her porch. Mrs. McCay does not question why they appeared at that moment, though she wonders why someone has never identified himself as the donor.

Mrs. McCay grew up in the house where she now lives in Mt. Vernon. She was the daughter of Mr. and Mrs. Charles Lowell, and the wife of Fred McCay, an L&N railroad engineer.

The couple moved to Covington, where Mrs. McCay pursued her evangelistic teaching career in local churches.

Mrs. Pansy McCay. In 1956, they returned to Mt. Vernon because Mr. McCay had had several heart attacks. The two of them worked together in Mrs. McCay's radio ministry. Continued to Page 7

All are graduates of Rockcastle County High School.

The J.D. McFerron Endowment Fund has been established at Berea College to provide financial assistance to deserving students from Rockcastle County. All scholarships are awarded on the basis of need.

McFerron, a 1912 Berea graduate and former teacher, and school administrator, grew up in Rockcastle County.

## Wynn's Truck Overtakes on Highway 70

A glove put over the gas pipe of the Wynn truck dangles from the wreckage. The accident occurred Monday night about 9:45 p.m.

Two local men were badly injured in a truck accident Monday night along Highway 70. Eugene Wynn, driver of the vehicle, and his brother, Billy, a passenger, were both taken first to Rockcastle County Hospital and then to Central Baptist in Lexington, where they were both listed in satisfactory condition.

The accident occurred about 10:00 p.m. when the truck, going east about three miles from Hwy. 150, went over an embankment, hit a tree, and overturned, according to State Trooper Kenneth Ball.

The Rescue Squad worked to free the two men from the wreck.

## One Thousand Children Come to Jaycees' Christmas Party at Renfro Valley Barn

The Rockcastle County Jaycees held their annual Christmas party for needy children at the Renfro Valley Barn, Over 750 children, grade school buses to the event, where each received

toys, fruit and a hug from Santa as each walked across the stage. The Jaycees raised the money through projects like the Halloween Spook House and their tractor pull.

Members of the Jaycees who helped at the barn include, from left: Danny McKinney, Gary Mink, Andy York, Santa Claus (Keith Rigby), Danny Ford, Del Shumate, Roy Adams, Willard

### Legislative Report

By Harold DeMarcus

It has been said and recorded for posterity that Kentucky politics and weather are the wildest due to their sudden and unpredictable changes. Like the rains and floods of December, the Special Session called by the Lt. Governor has come and gone.

However, because much of Frankfort was flooded, a Special Session has been called by the Governor slated to begin in early January of 1979. The issues for the legislature to consider are for the most part unchanged. Also, the purpose is still the same, that being to provide tax relief for the hardworking citizens of the Commonwealth.

There are ten items for the legislature to consider in the January special session. They are as follows:

- 1) To evaluate the need for the Fuel Adjustment Charge.
- 2) To make the Utility Intervention Division of Consumer Protection more effective.
- 3) To remove the sales and use tax on residential utilities.
- 4) To evaluate property tax assessments.
- 5) To increase the standard deduction on Kentucky personal income taxes.
- 6) To evaluate the funding process of the new court system.
- 7) To make welfare fraud a felony rather than a misdemeanor.
- 8) To make spending cuts in Kentucky's biennial budget.
- 9) To consider making funds

available for an emergency ferry service in South Shore, Kentucky.

10) To consider making funds available for disaster relief to flood victims.

During the last Appropriations and Revenue Committee meeting two renowned economics professors were invited to express their theories on Kentucky's taxes. The prime subject was how can the Kentucky taxpayers be given a responsible tax cut. These economists gave many propositions to the committee but their main just was in order to cut some taxes, other taxes must be raised to keep the state budget balanced.

This may be a sound philosophy, although there is another way to cut taxes. The other way is to reduce spending and thus reduce taxes. Since Kentucky had a \$7.5 billion dollar budget, you can be sure that some fat can be cut without affecting the muscle.

In my estimation the muscle consists of tax revenue that is allotted for Kentucky's educational systems. There are many members of the Legislature who have fought to raise the amount of education money spent by the state. Currently, Kentucky is second in the nation, with Hawaii being the only state to spend more tax revenue on their schools. The only intention here is to become number one, so there is little danger of having education cuts.

One area where cuts can be made is in the issuance of personal service contracts. For example, take a \$7,000 personal service contract issued to the Kentucky Harness Racing Commission for a public relations consultant to advertise harness racing. It is ridiculous for a regulatory commission such as this to delve into advertising at the taxpayers' expense.

Another example of personal service contract abuse is the \$2,000 spent by the Department of Labor to annotate and print their own version of the Kentucky Revised Statutes. This is a needless duplication of effort and a total waste of tax revenue.

Then we come to a \$50,000 personal service contract issued to the Kentucky Deferred Compensation System. The PEBCO contract has been served by two committees which has received to cut the contract by \$29,000. The remaining

\$21,000 PEBCO contract is now under investigation by the Program Review and Investigations Committee. Maybe this committee can find out what these people are doing with your tax money, which is something that no one else has been able to do. These situations are alarming when you consider that \$22.5 million dollars was doled out in personal service contracts during fiscal year 1977-78.

It will take time to cut spending and then taxes. But this is the only way competent and fair tax relief can be achieved. Also, on another important note, I have requested the governor to add Lincoln County to the list of counties that will be able to receive federal disaster aid.

## Activity Report For November

## "Merry Christmas" Wishes Expressed In Many Languages

Our modern jet age reduces long-distance miles to minutes and it is not uncommon to hear of someone having breakfast in Paris and dinner in Rome.

One can be assured, moreover, that anywhere you go in the Christian world, the spirit of Christmas exists. Holiday greetings, when offered with sincerity, are understood instantly, no matter what the language.

Here are a few ways to say "Merry Christmas" to individuals in foreign lands: Bohemia, *Veselé Vánoce*; Bulgaria, *Chestita Koleda*; Croatia, *Srećan Božić*; Denmark, *Gladde Jul*; Wales, *Nadolig Llawen*; Ukraine, *Srozhdavstvom Krystyvm*; Spanish-speaking countries, *Feliz Navidad*; Portuguese-speaking countries, (Portugal and Brazil) *Bons Festeiros*; Poland, *Wesołych Świąt*; Italy, *Buon Natale*; Germany, *Froöhliche Weihnachten*; France, *Joyeux Noël*; Ireland, *Nollaig Mhath*; China, *Happy Christmas*.

CHRISTMAS

own sake.  
 The Christmas Eve mass, there will be two additional masses on Christmas Day. The first will be at 9:00 a.m. and the second will be at 11:00 a.m.  
 Christmas has become a traditional time for the people of our community to get together and observe the birth of

Christmas. Everyone is invited to attend one of these special Christmas services.

## When Brodhead Parents Go to School, Teacher Might Get A Report Card!

What happens when Mother and Dad go to school? The school gets a report card!

Last Friday at Brodhead School four parents on the Title I Advisory Committee sat in a fifth grade arithmetic class. They asked questions of teacher Mrs. Payne and principal Bigg Towery as the class progressed, and read through the student text books.

An hour earlier, they had observed a remedial reading class. It was the Committee's third meeting. At the others they had organized, and observed library and health services. The next meeting will be in March, when they visit the kindergarten classes.

In spring, the Brodhead group along with similar groups in all county schools will submit a report about how well these programs were working. Later a meeting among parents, principals and school superintendent will take place, where all the reports will come together in one final form, that includes recommendations for improvements.

"We think the Committee here is doing an excellent job," Mr. Towery said. "They are very interested in the students and ask questions. Their recommendations have been most helpful, particularly when we was necessary to cut back on the programs. The parents told us what was most important."

The parents are led by chairman Ernest Brooks, a former coordinator of a vocational school in Russell County. He will write the committee report in April, he said.

As the group ate lunch in the school cafeteria, several said that it was unfortunate that more parents did not get to go to school for a day; also, the arithmetic class was not what some had expected, for example, Modern Math, apparently has had its day, as the teacher was using old-fashioned addition, subtraction, and even multiplication tables.

What was new was the new method of motivating students to learn and achieve more in math. Mrs. Payne had formed "The Hundred Club"—students who received a 100% grade on their papers became a member of the club—the students with the most 100's wins a prize.

Papers marked "100" or "Wonderful Work" hung all over the room—another motivational method. Mrs. Payne said: Since many students had experienced math failure before coming into the remedial class, they now could begin to change that by doing the remedial work in an excellent way.

The parents on the Brodhead Committee included, Mr. Brooks, Lorita Bray, Betty Parcell, Sue Trivillan, Libby Gibbs and Martha Hamm.

"We think this is one idea that has really worked," Mr. Towery said of the committee. "We are looking forward to their report, and will be reading every word they write."

## Several Brodhead Clubs Meet This Week

The Brodhead Willing Workers and their families met at the home of Mr. and Mrs. Robert Machal Saturday afternoon, for a pot luck dinner and annual Christmas celebration.

Thirty persons were present to enjoy the delicious food in a beautiful setting, inside the Machal's home.

After gifts were opened, Ms. Elaine Martin presented the devotional and Mrs. Clara Proctor took charge of the lesson.

### Brodhead Girl Scouts

## BOXING DAY

The day after Christmas is still celebrated as Boxing Day in both England, where it originated, and Australia.

The holiday goes back to early England, when landlords and employers would set aside gifts that they didn't want, to give to the needy and to tradespeople.

Today in England and Australia, Boxing Day is observed as a holiday from work, giving weary parents a chance to rest from the rigors of shopping and preparing Christmas feasts, and giving youngsters a chance to play with their new toys.

Mrs. Sidney Keith Cummins

## Perry - Cummins Vows Said December 16

Miss Karen Diane Perry and Mr. Sidney Keith Cummins, were united in marriage at 6:00 p.m. Saturday, December 16, in Kilbourne Park Baptist Church, Columbia, South Carolina. The Reverend Thomas El Dougherty performed in the double ring ceremony. A reception followed in the Faculty House, University of South Carolina

### Campus

The bride is the daughter of Mr. and Mrs. William Rawlins Perry of Columbia, South Carolina.

She is a graduate of Dreher High School, Columbia and is a senior at the College of Charleston where she is majoring in Elementary Education.

The groom is the son of Mr. and

Mrs. Robert W. Cummins, Sr., of Beaufort, South Carolina. He is a graduate of Beaufort Academy, Beaufort, South Carolina and The Citadel Military College, Charleston, South Carolina, where he was a member of the Summer Guards. He is employed as a Recruiting Officer at The Citadel.

The bride, given in marriage by her father, wore a formal wedding gown of ivory Quiana. It was fashioned with a Queen Anne neckline enhanced with scalloped Venetian lace which extended into the fitted Empire bodice. The long fitted sleeves were trimmed in matching lace. The A-line skirt fell into soft folds forming a full circular chapel-length lace edged train. Her finger-tip veil of silk bridal illusion fell from a matching headpiece and was trimmed in lace. She carried a bouquet of ivory and American Beauty roses with stephanotis.

Serving her sister as Maid of Honor was Miss Denise Perry, Matron of Honor was Mrs. Deborah Sorin, also a sister of the bride. The bridesmaids wore floor-length gowns of cerise chiffon over taffeta. They were designed with a scoop neckline, short split sleeves, blouson waist with ruffled bodice and A-line skirt. They carried bouquets of ivory roses.

Bridesmaids were Mrs. Marty Cooper of Chapin, Miss Patricia Weagly of Charleston, Miss Margaret Shelburg of Columbia, South Carolina, Miss Lisa Hoeler of Columbia, South Carolina, and Miss Ann Cummins, sister of the groom, of Beaufort. Their dresses and bouquets were identical to those of the matron and maid of honor.

Robert Cummins, Junior, brother of the groom, served as best man. Groomsmen were Chaig H. Perry, brother of the bride, Hayden Hapak, Joe Doyles, and Charles Jenay of Charleston, Mark Coker of Columbia, and Randy Cooper of Chapin.

After a wedding trip to the Bahamas, the couple will reside on the Citadel Campus, Charleston, S.C.

## Short Rows

By Nevyle Shackelford

In this season of falling leaves and rising prices, we are moved to speak of the sense of protection against the inclemency of the first and the relentlessness of the second—the sense of protection there is to be extracted out of contemplating the pantry all lined up for winter: all snug and snug with fat, smiling jars, jam pots, jelly glasses and a deep freeze stuffed to the gills.

There is also the sense of protection that comes with the scolding of the thermostat turning on the furnace or the ruddy glow of the fireplace or base burner. All this stimulates a fine sense of luxury and consciousness of protection against the rigors of winter and influences of the "Hungry Moon" when wolves feed on the wind.

What will cantaloupes fetch this winter? You should worry with your dozen or more quart jars portly and sagely nodding approval of your industry. How much will jelly be? The top shelf of the pantry will tell you it won't matter.

Does the price of zesty relish appall you? Certainly not because many jars of it grin in the pantry. Cucumber pickles? Many jars of this expensive viand line the shelves, too.

And what about corn, stuffed peppers, peaches, pears, beans and about every other fruit and vegetable to be imagined? They all hide in containers in the deep freeze.

We can't all have Ichabod Crane's dreams come true: "every roasting pig with a pudding in its belly and an apple in its mouth; the pigeons snugly put to bed in a comfortable pie and tucked in with a coverlet of crust; the geese swimming in their own gravy; and the ducks pairing cozily in dishes, like snug married folks, with a decent competency of onion sauce"—but we can have the sense of honest and prudent comfort and protection which comes of wise and economical provision.

A lot of sting can be taken out of high prices if those with a piece of ground and the ability to work it will start going to this piece of earth instead of the supermarket for every bite they eat.

Some may say that summer preparation for better and more economical winter living takes too much time away from warm weather recreation and such. But actually, raising and storing away food isn't all that difficult or time demanding. With a bit of judicious planning we can have potatoes in the bin and pumpkins in the cellar.

We can also have art and artichokes, muffins and music, esthetics in moderation, cabbage and culture and patches and philosophy. Besides all that, a well stocked pantry at this time of year can be a mighty comforting thing.

## "FANSY McCAY"

(Cont'd from front)

They purchased a storage house where they kept donations of clothing and furniture to be given to the needy. They visited people's houses, communicated the problems of the poor to others, and answered as many as 50 letters per day.

After Mr. McCay's death in 1961, and the death of Mrs. McCay's mother, Fanny McCay began to travel to churches in other states as an evangelist, and musician. Some of the churches who received her then are contributors to the Christmas party today.

Her life is busy, and she says that "The Lord blesses me in a great way now," she is writing her memoirs, and has a potential publisher for them. Her house is still filled with toys. Are they being kept for next year's party?

"No," she answered. "From now until Christmas, there will be many children stopping by here. I guess they know where I live by now, and it makes me glad that they come."

THANKS FROM MRS. McCAY

Fanny McCay would like to thank the following persons and groups who helped with their annual party for needy children:

Saylor's Pharm., Carter's Mkt., and King's Pic Pac for donation of toys and fruit and candy; the Full Gospel Pentecostal Church in Hamilton, Ohio, whose large cash donation enabled her to buy toys; Rev. John Williams, Jane Denney, Doug Merrill and others from Middletown Christian Church in Middletown, Ky., who helped at the party and donated a vanload of toys and clothing; Rev. Herman Van der Polle, donated a vanload of toys; Mr. and Mrs. Ray H. Murphy of Muncies, Indiana brought a truckload of toys and goods; Church of God in Hamilton, Ohio, donated toys and clothes; Mr. and Mrs. Burnam York and Miss Jesse York; and a special thanks to Dr. and Mrs. William Adams. Mrs. Adams takes charge of much of the work of the party.

Also thanks to Rev. and Mrs. Oliver Abney, and all the ladies who helped serve the dinner.

## Livingston Plant Damaged

Damage to the Livingston sewer plant as a result of the flood December 8 amounted to about \$15,000 to \$20,000, according to Homer Tolle, supervisor of the crew that built the plant.

Mr. Tolle said the ceiling and walls were damaged, but the motors would not have to be replaced. He said they would be dried in an oven and cleaned. The electrical breakers had to be replaced, however.

## UK OFFERING SCHOLARSHIPS TO HIGH SCHOOL SENIORS

The University of Kentucky is offering two types of scholarships to outstanding high school seniors who plan to enter UK as freshmen next fall.

They are merit scholarships offered through the Office of the Dean of Undergraduate Studies, and presidential scholarships offered through the UK Honors Program.

Students interested in merit scholarships should apply by December 31, the deadline for applying for presidential scholarships is Jan. 15. The merit scholarships, which range from \$500 to \$1,000 are to provide recognition and financial support to students with demonstrated potential for academic excellence.

The fifteen \$500 presidential scholarships are for those who wish to enter the UK Honors Program, a course of study for students of outstanding ability interested in using knowledge more creatively. Classes are small and taught as lively seminars and the opportunity for independent study and advanced seminar work is offered to students in their junior and senior years.

High school seniors interested in merit scholarships and who have a composite score of 27 or above on the American College Test (ACT) should write the University of Kentucky Dean of Undergraduate Studies, 321 Patterson Office Tower, Lexington 40506, by December 31, and include the name of the high school. Those interested in presidential scholarships should write the University of Kentucky Honors Program, 1183 Patterson Office Tower, Lexington 40506.

Students will be furnished applications and details of the competitions. Those chosen as finalists will be invited to UK for interviews and to meet University faculty members and officials and visit academic departments.

### ADVICE FOR AIRBOUND SANTA CLAUSES

If you're flying back home to visit relatives or friends for Christmas, or celebrating the holiday season in some exotic port of call, American Express travel service experts advise that you pack your gifts in luggage, and wrap them after you arrive at your destination—not before.

This hint is based on two regulations: First, airlines discourage passengers from boarding with bundles of pre-wrapped presents because of safety reasons and limited storage space.

Mr. Tolle said the damage was not as bad as expected.

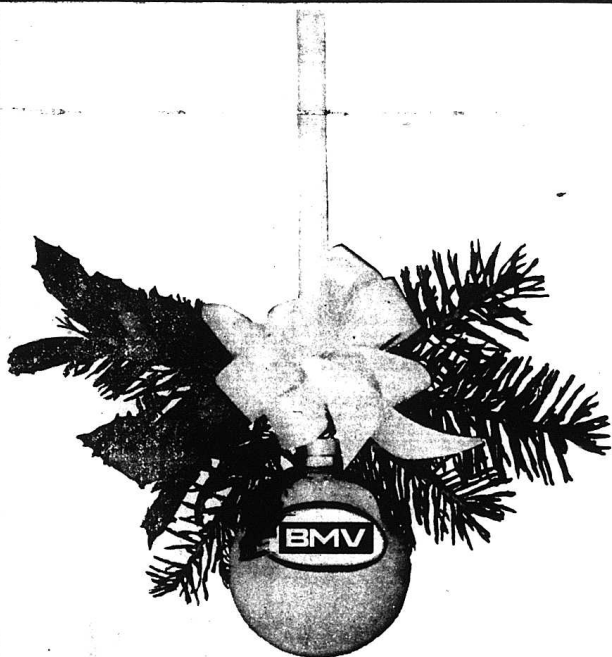

The plant was finished in September at a cost of \$435,000. Insurance should pay for repairs and cleaning.

## Rockets Runners-Up in Laurel Tourney

By: Rick Anderkin

The RCHS boys team took second place in the Laurel County Invitational

Tournament. The Rockets accomplished this feat by defeating a good Pulaski County team in the opening round of the tournament 69-57. The Rockets played

good all during the game and, with the scored tied and 4 seconds left in the game, David Pensol hit a jump shot to give the Rockets the victory.

Scoring in the game went as follows: Walter Browning, 18; David Riddle, 18; Steve Center, 17; David Pensol, 9 and David Mullins, Eddie Thompson and Jack Farthing, 2 each.

However, in the championship game against Laurel County, the Rockets didn't come off so well - losing by a score of 63-51. The Rockets were never really in the game as they trailed from the outset. No one had a particularly good game except David Pensol and Steve Center found the range from outside for a little while. Pensol and Centers got 14 and 13 respectively.

Others scoring: Mullins 7; Thompson 6; Riddle 5 and Matt Foynter, Browning and Frank Phillips, all with 2 each.

The Rockets then hosted a weak Corbin Team Tuesday night and came away with an easy victory 65-50. Corbin, a team with no size, were out of the contest from the start.

Steve Center was high point man for the Rockets with 25; Browning got 18 (one of them a slam dunk); Pensol 10; Thompson 6; Farthing 4 and Riddle, Phillips and Hammonds, 2 each.

Eddie Thompson, No. 44, shoots a jump shot in Saturday night action against Laurel County. Thompson had an off night, getting only 6 points, but so did the team as they went down to defeat to Laurel County 63-51. [All sport photos by Kenneth Fillion].

David Riddle, No. 10, goes for two of his 13 points against Pulaski Co. The Rockets finished second in the tournament.

### FARM BUREAU

Charles Burton of Rockcastle County was re-elected to a two-year term as a state director of the Kentucky Farm Bureau Federation.

The Board was elected at the organizations annual meeting this month in Louisville. Four new members were elected, and 12 directors were re-elected.

Ray Mackey, a 51-year-old Hardin County farmer, was elected president of the organization.

### NOTICE

The Rockcastle County Archery Club will sponsor a Turkey Shoot Saturday, December 23rd, starting at 10:00 a.m. at the Club shooting range at the Old Sparks Quarry. There will be still targets with shot guns and if weather permits, trap shooting.

**"PERSONALS"**  
(Cont'd from P-5)

The people of Rockcastle County are very grateful for our efficient and faithful Rescue Squad, who worked with untiring effort to evacuate families from the flooded zones.

Mrs. Willie Frances Finkcomb and Mrs. Opal Talbott of Cincinnati, Ohio and Mr. and Mrs. Woodford Reed of Ashland, visited their parents, Mr. and Mrs. Bill Manis and family Sunday.

We wish to express our deep and loving sympathy to Joe Hansel and family in the death of his sister, Mrs. Kathleen Hansel Ford in New York State. The funeral was held today at the First Baptist Church and burial was in the Elmwood Cemetery. Also we extend a deep sympathy to the Dillingham family in the death of Paul Dillingham.

Many have expressed their enjoyment in the drama entitled "The Inn at Bethlehem" presented at the First Christian Church Sunday evening, Dec. 17th with Mrs. Rachel Griffith, Coordinator and directors, Mollie Bryant, Dot Landrum, Norma Mullins, Libby Hammons and Ruth Johnson.

The music was furnished by Rachel James, Virginia Hunt, Jim Cox, Mary Henderson and the Choir. Appreciation is extended to Casey Carroll in the solo part who filled in for Judy Harrison, who

had a cold. The characters in the play were Melissa Shumate, Jamie Cox, John Riddle, Carolina Machal, Jennifer Cox, Jane Anderkin, Stacy Henderson, Wade Johnson, John Johnson, James Mullins, Lynnell Hammons, JoAnne Riddle, Mike Hopkins, Tony Davis, Teddy Davis, Mark Hopkins, Joyce Machal, Bobby Hammons, Tim Young, Scott Wolfe, Scott Henderson and Vanessa Hopkins.

Wednesday, December 20th at 7:00 p.m. the children of the First Christian Church will present their Christmas program using the Children's Choir and a series of slides taken at various locations in Rockcastle County, with the children posing for the different scenes, telling the first story of Christmas. Mrs. Rachel James is director and originator of this unique musical.

It's unbelievable but true even on a dark rainy day, it was estimated 400 people at the annual Christmas Party at the home of Mrs. Fanny McCay, Saturday, Dec. 16th. As Mrs. McCay had been ill and was not able to direct giving out clothing, toys and other gifts in the yard, her assistant, Mrs. Lili Adams took charge and very efficiently met every need in the yard. There were 75 lunches served. The ladies who helped in the kitchen and brought covered dishes were: Mrs. Oliver Abney, Mrs. Sherman Lovell, Mrs. Hubert Taylor, Mrs. Maggie Brewer, Mrs. Laura Hensley, Mrs. Gertrude Decker, Mrs. Grace Lovell and

nearly over now, so we can look back and see things we should have done but regret to do them and now we are sorry, but some things we did and for which we are well pleased. We've had times of happiness and joy, also times of pain and sorrow. I know several of you have lost loved ones this year and many more have lost friends, so this Christmas season will be sad for you. But try to remember it was God's will to take them home and Heaven is a wonderful place. No more sorrow, no more pain, no more heartaches, no more disappointments. I hope and pray God will help you through the trying time.

Christmas is a time of living, loving and giving. A time of families getting together and enjoying one another, and it's also a time of giving for the cause of Christ. Do something for someone who is ill or less fortunate than you. When God blesses us with something, he wants us to share that blessing.

If you still have a living mother and father (which I don't and how I miss them) visit them or if you can't see them, please call them on the phone, tell them you love them and appreciate what they have done for you. Also love your children, brothers and sisters, relatives and friends. It isn't hard to love people if you have the love of God in your heart, for God is love. It's the little things in life that count most with me - that wonderful Christian spirit, that pat on the shoulder, that word of encouragement, or a beautiful Christmas card.

So now most of all I wish everyone, everywhere an old fashioned Merry Christmas and a New Year of happiness, health and God's blessings.

You have my love and prayers.

a real live  
Christmas tree of  
pine, fir or cedar filling  
your home with all the freshness  
of a forest and natural

Instead of roping it with as many lights this year, why not use some homespun decorations like the ones grandmother used to make - strings of popcorn and cranberries, holly, peppermint candy canes, and cookies, or ornaments bearing family names. Reducing the number of Christmas lights can also save you money on electric bills. And don't forget to water your tree once or twice a week, and turn off all your lights before retiring for the evening or leaving home. Have a safe and Merry Christmas - and make it bright with family traditions.

## Castle Chorus Gives Play

The Castle Chorus of Rockcastle County High School presented an unusual Christmas Cantata Sunday afternoon before an audience of several hundred people. Afterward, the band performed.

The Cantata was a blend of traditional carols like Silent Night and modern music, such as "I'm So Lucky," sung by an angel new to heaven. The music was blended into a little story told by narrators from the choir.

The female members of the chorus wore ruffled white blouses, long black skirts and tinsel in their hair, that looked dramatic under the stage lights which changed from red to yellow to green. Soloists included Theresa Glovak, Marilyn Brown, Sherwood Pickle, Keith Bussell played the leading role of "The angel with faded blue jeans."

The Cantata, written by Anita Kerr and directed by Margie Wilcox, required tape-recorded musical accompaniment for the chorus along with slides shown on a screen to the right of the chorus. Studio crew included Roy Cummins and Stanley Cook.

After the performance, Mrs. Wilcox was presented a poinsettia from the chorus.

Chorus members are: Mona Bivins, Marilyn Brown, Martina Cromer, Michele Dick, Peggy Durham, Linda Jackson, Janice Jones, Audrey Morgan, Lisa Lawrence, Jo Anne Riddle, Sandra Sweeney, Teresa Albright, Kathy Bullock, Janet Burdine, Debbie Burton, Tammy Coffey, Virginia Collins, Becky Eldridge, Theresa Glovak, Kathy Lawrence, Sandra Lear, Rita McCollum, Shirley Mullins, Lisa Parsons, Connie Roberts, Keith Bussell, John Collins, Tracy Gabbard, Ricky Phelps, Sherwood Pickle, Lee Stokes.

## Here's Some Holiday Hints That Make Good Cents

Before you start holiday baking, take a peek in your pantry. Some recipe failures may be due to lack of quality in some baking products—baking powder for example. It may have lost its potential if it's been sitting open for sometime on the shelf. If in doubt, try it on a pan of biscuits before starting an expensive holiday cake. And don't waste the biscuits—save them for the dressing.

Correct use and care of your appliances are very important. Follow the use and care manual—repair bills are expensive.

## Library Has Become A 'Media Center' For Exhibits, Films, and Books

The Mt. Vernon Signal  
December 21, 1978 P-13

Where can you see a tree film? listen to a record? laminate a newspaper article? view fine art? see a slide show? secure any book in Kentucky?

At the Rockcastle County High School Library, whose services are so varied, it's no longer enough to call it a library anymore.

"We think of this as a media center," Laura Durham, librarian, said. "While books are still central to us—mostly because of their conciseness, the library is so much more than just books nowadays."

One thing it offers is a changing display of student projects—everything from art to science.

"Anything manipulative—we will put on display," Mrs. Durham said. "Time doesn't permit students to visit the different departments in the school. But the displays are media-communication about what the departments are doing. Most library displays are traditionally about books. I happily take down the book displays for student displays."

The day the "Signal" visited, exhibits included clothing made by

students hanging from wires around the room, stuffed animals, unusual oil paintings, and the colorful Christmas figures painted on the windows.

Mrs. Durham, who is married to

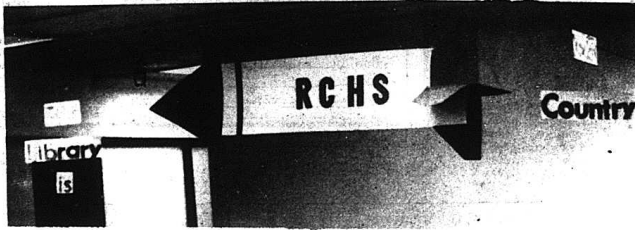

County Extension Agent Lee Durham, explained that information today is no longer solely in books. For this reason the library has an up-to-date collection of magazines, films, slides and records.

**RECC Has Lowest Operating Cost for 1977**

The Jackson County Rural Electric Cooperative had the lowest operating cost per member of any of the 26 rural electric cooperatives in the state of Kentucky during 1977, according to the Cooperative's President and General Manager, Mr. Lee Roy Cole.

Mr. Cole spoke on behalf of himself and the Cooperative's board of directors to a gathering of public officials and agency representatives from the area served by the Coop. Also present were the directors, key employees, and Department Heads of the Cooperative at the meeting held at McKee last Friday. Mr. Cole reported that during the last 12 months lines were built to serve 1,813 new members making the Cooperative one of the fastest growing utilities in the state.

Mr. Cole further reported that the Cooperative had been operating at a net loss for several months due to the increased cost of wholesale power without a compensating increase in the rates members pay for electric service. These rates are controlled by the Public Service Commission. We quote from his statement, "In December of last year East Kentucky Power Cooperative applied for a wholesale rate increase. We were ordered by the Public Service Commission to let this become what was

known as a "flow-through" to our members. The other 17 cooperatives served by the East Kentucky did the same thing. This is because wholesale power is about two-thirds of our cost of furnishing service and when it goes up we must be permitted to recover it to stay in business. This was the first time such a concept had been put into effect by the Commission. "Then, the Commission had stated that a "flow-through" would be granted provided the member cooperatives, of which we are one, refrained from making any other applications for a rate increase until this particular case had been settled. We did have to have hearings. We had to provide a great deal of information, etc. Well, it was the last of February before the "flow-through" was settled and granted. Then we had to start over again with our application which we promptly did. The hearing was held in June and the increase was finally granted on August 25, 1978. This is an increase which should help our picture as far as these losses are concerned, at least for a while. How long it lasts will depend upon inflation and a lot of other factors."

**UK STUDENTS SHOULD APPLY NOW FOR HOUSING**

Students who plan to attend the University of Kentucky in the fall of 1979 and want to live on campus should apply now for University housing.

That's the word from UK housing director Jean Lindley who urges students to apply for campus housing even before they make application for admission, since the two are separate processes.

Early application does not guarantee a housing assignment since all applications are processed on a first come, first serve basis. Mrs. Lindley said, "But obviously the earlier one applies, the better chance he or she has of getting into a UK residence hall."

Applications for campus housing may be obtained from the University of Kentucky Housing Office, Room 218 Peterson Service Building, Lexington, Ky.

For the past several years, residence hall space has been at a premium on the Lexington campus, and many students who have wanted campus housing have found it necessary to secure off-campus lodging.

"We are pleased to report that an additional 600 new living spaces should be ready for undergraduates students next fall," Mrs. Lindley said. This space will become available as a result of the new apartment units now under construction in the Shawneeatown area near Commonwealth Stadium.

### Kathleen Ford

Mrs. Kathleen Ford, 55, of Williamsburg, New York and formerly of Mt. Vernon, died Saturday, December 16, in Buffalo, New York, after an illness of several months.

She was born on July 23, 1923 in Rockcastle County, the daughter of the late Tom and Myrtle Leigh Hansel.

# Joy to the world

## Beloved Carols Add to the Joy Of The Season

There is melody in the air, resounding in song. Christmas is the perfect time for musical expression! Many popular holiday songs were originally written to impart the knowledge of the birth of Jesus and the meaning and merriment of Christmas. These songs became known as "carols," derived from the French word "carole," meaning round dance. Early carols were simple songs with primitive dance accompaniment.

The first documented American Christmas carol is thought to have been written for the Huron Indians by St. John Brebeuf, a French missionary. This carol, now translated to English, remains part of Christmas song and dance in modern Quebec, Canada.

The custom of Christmas caroling dates back to the 16th century when singing groups traveled from home to home, wishing friends and neighbors the best of the season. Though greeting cards have replaced the necessity of in-person greetings, the tradition of door-to-door caroling is still widely practiced today.

Group singing is now included in religious and other services — emphasizing the importance of Christmas carols and their contributions to the spirit of the holiday season.

Most of us would agree that Christmas and the whole world is brighter and more meaningful when music is used to express the beauty of this holy and happy Yuletide season.

For unto us a child is born,  
unto us a son is given:  
and the government shall be upon his shoulder:  
and his name shall be called  
Wonderful, Counsellor,  
The mighty God,  
The everlasting Father,  
The Prince of Peace.

ISAIAH 9:6

## HOLIDAY CUSTOMS 'ROUND THE WORLD

The joy that pervades the Christmas season throughout the world is evident in beautiful ethnic customs.

Sweden's Christmas season begins December 13th, the feast of St. Lucy. A young girl dresses as the beloved patron, with a crown of candles upon her head. A festive breakfast of cake and coffee is served and signals the start of the holiday season.

The French and French Canadians largely continue the practice of attending Midnight Mass. The service is followed by an elaborate supper with family at home.

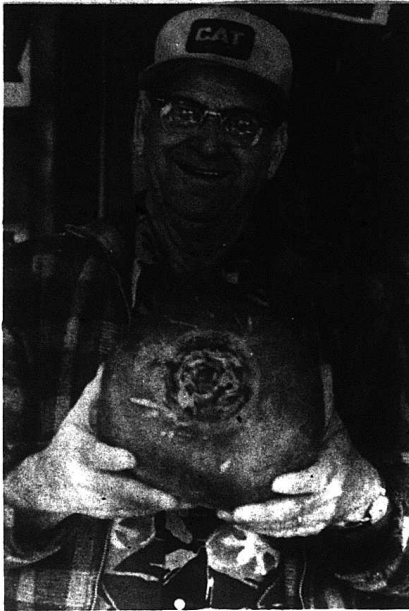

Christmas Eve's first star indicates the time to begin the customary holiday meal, or Wila. The elaborate dinner, breaking a pre-Christmas fast, is served in the midst of a straw-filled room. An empty place is kept at this manger-like setting, for the Christ Child.

Italians recreate the nativity scene in homes and churches with a "Presepio." The colorful tableaux depicting the manger scene, is set in a place of honor during the holidays.

Norwegians create a special "Christmas Tree," gleaned from a shaft of grain and bound to the top of a pole. This gleaming tradition remembers birds in a special way. Cattle are also remembered at this time with special fodder.

The meaning and joy of Christmas survives today through these treasured customs. These rituals serve as a constant reminder that there is no other celebration as wonderful as Christmas!

John Rader of Rockcastle Co., grew this 21-inch turnip in his garden at Winchester, Ky.

## Farm and Home Week

Farm and Home Week was set for January 8-12 at the College of Agriculture, University of Kentucky. It is a series of discussion, seminars and exhibits for homemakers, farmers and 4-H leaders, about a wide range of subjects. It's all free and open to the public.

To give you an idea of how much will be going on during Farm and Home Week, we will look at the agenda for homemakers only on Wednesday, Jan. 10. Programs include new home products, house restoration and preservation, home landscaping, solar energy, energy conservation and a special luncheon.

Many workshops, each with different theme, will be going on at the same time during the week. You may select the ones you want. General sessions will feature speaker who are recognized as authorities in their fields. Exhibits will be open every day.

Here are some highlights from Farm and Home Week. For more information, contact the Extension office Monday, Jan. 8. You will see an emphasis on tobacco production and the

future of one of Kentucky's foremost money crops. Exhibits of new farm machinery developed by agriculture engineers at UK's College of Agriculture will open on that date and will be open daily during the week.

Other highlights Monday include a dinner meeting of the UK agriculture alumni and, as an added attraction, the UK Wildcats-Mississippi basketball game.

Tuesday, Jan. 9, activities will center on marketing alternatives of agriculture products and panel discussion on the credit needs of farmers. Back to basics, clothing for today's lifestyles, home, garden and house plant culture, diet and health and food additives will be topics featured for homemakers.

Wednesday, Jan. 10, the subjects in the spotlight will include solar energy as it applies to the farm and to the home, energy conservation, federal farm program interpretation and compliance.

Wednesday will be Homemakers Day.

Livestock grain crops and forages will be emphasized on Thursday, Jan. 11

and Friday, Jan. 12. Especially for livestock producers and the livestock industry, topics will cover production and management of beef cow herds, hog enterprises, dairy herds, ewe-lamb flocks, forage production and management, production, storage and handling of grains, disposal and use of wastes. Using drugs and feed additives in meat and milk production will also be covered.

For the homemakers, the two days will feature topics on family and relationships of individuals with others.

# Some Holiday Foods For Meditation,

# For Fun And All Good

By Helen Price Stacy

Take all the gifts, all the glittery trimmings, all the children, grandchildren, parents and grandparents and put them all together for the wonderful holiday of Christmas, but if you don't have food that everyone enjoys you still have a houseful of dissatisfied guests.

To paraphrase an old expression: Weak gifts, manners rude; day saved if food is good.

This year you who cook might want something besides turkey for your dinner-or-in addition to a smaller bird Mrs. Anderson' ham balls, a Rowan County version of popular dish, is the perfect answer:

"Have your butcher grind together

1 pound sugar cured ham and 1 pound lean pork," said Elizabeth. "Then you mix with this 2 cups bread crumbs, 1 cup milk and 2 eggs, form into two-inch balls and place in casserole. Make a sauce of 1 cup brown sugar, 1 tsp. dry mustard, 1/2 cup white vinegar and 1/2 cup water. Mix and pour over ham balls. Bake in 375 degree oven, basting occasionally, until golden brown.

From Benton come a recipe for potato-cheese balls. No name is attached, but since everyone likes potatoes, you could try this. "Add dash of salt and pepper and 1/2 cup grated cheese to 2 cups mashed potatoes. Beat 1 egg, add 1 tsp. milk to egg. Form potatoes into balls, roll in egg-milk mix, then in bread crumbs and bake on greased baking

sheet at 450 degrees till browned."

From Dreams Price of Morehead is a recipe for sausage quiche "that my family enjoys as do friends when we entertain." She gave a double recipe that will serve 12: Mix 1 pound mild sausage, and 1 pound hot, fry, drain well, then set aside. Put in blender 1 small onion, 1/2 green pepper, 2 tablespoons flour, 4 eggs, 2 cups evaporated milk, 2 tablespoons parsley flakes, 1 teaspoon salt, 1/2 teaspoon each garlic salt, and pepper. Blend till onion and green pepper are fine textured. Put drained sausage in two 9-inch unbaked pie shells, then place slices of Swiss cheese from two 8-ounce packages over them and pour mixture from blender over the contents of both pies. Sometimes I alternate layers of sausage-cheese and mixture. Bake 35 to 40 minutes at 375 degrees. I like to line mine set for about an hour before slicing to serve."

Anna Jean Allen of West Liberty thinks "Ella's Boiled Custard" would make a festive food for the holidays. "Blend 2 cups of sugar and 8 tablespoons of flour well. Beat 5 egg yolks. Mix in 1/2 gallon (8 cups) milk with yolks-part with yolks and add to sugar-flour mix. Gradually with rest of milk. Mix all together in kettle and cook slowly, stirring often, till full bubble boil. Remove from fire, add 1 teaspoon vanilla. This keeps well in refrigerator. Top with nutmeg and whipped cream if desired. My husband and three sons love this."

Ann Kabler of Salvisa in Mercer County makes delicious banana oat cakes and fruit cookies, but for now you might want to serve her simple potatoe cake recipe as a treat the day after the BIG meal. "I should write a cookbook '1001 Ways to Fix Potatoes,' she wrote her pen pal friend Mrs. Allen in West Liberty (they started exchanging recipes two years ago as a result of an article on foods). I make potatoe patties from leftover mashed potatoes. Roll the patties in flour and fry in a little butter or margarine. They are real good."

Here is a cake especially for you at Christmas. Mrs. Dean Payne, Box 5, Harmony, W. Va., says the ingredients for Scripture Cake are: 1 cup Psalms 59:21, 3 cups Jeremiah 6:20; 6 each Isaiah 10:14; 3 1/2 cups 1 Kings 10:10; 1 pinner Leviticus 2:13, 1 cup Genesis 24:17, 2 cups-one each 1 Samuel 14:25; 1 cup Numbers 17:8. Cream sugar, butter or margarine. Add eggs one at a time beating after each. Add honey. Sift flour and all dry ingredients together and add alternately with water. Pour in tube pan or two round cake pans. Bake at 350 degrees 30-35 minutes, testing for doneness. Make sure pans are greased and floured and chop figs and almonds.

Oh, we can be merry with what's 'neath the tree. If the cook is quick to please thee and me

## County Agent's Notes

By H. Lee Durham  
County Extension  
Agent for Agriculture

### Kentucky Farm and Home Week

Kentucky Farm and Home Week revives, after a 16-year absence, on the University of Kentucky campus January 8-12. The U.K. College of Agriculture and Home Economics invite everyone to take part in the activities in the University Commons, E.S. Good Barn and Agriculture Science Buildings, where displays and seminars will bring you up to date on the many services and sources of information available through Agriculture, Home Economics, 4-H and Community Development. There will be a different aspect of farming and homemaking emphasized every day, so there will be lots to see and hear. It's all free at Kentucky Farm and Home Week at the University of Kentucky January 8-12.

### Household Insects

Cockroaches are a constant problem, but less so during the winter months when they breed slower and do not move as readily from dwelling to dwelling. If cockroach controls are applied now, there is a better chance of wiping out the infestation and your being free of the pests for several months. Roach traps available at grocery stores should be more effective now when you don't have a high roach population to contend with.

Logs brought in for the fireplace may be a source of winter nuisance insects. Insects hibernating under the bark may emerge in the warmth of the home thinking winter is over. Keep the logs outdoors until shortly before they are to be burned. Don't treat the logs with insecticide.

During the cold weather the relative humidity in homes is often way below normal. In a dry atmosphere static electricity will help create dust webs in the corners of ceilings and walls. These dust webs resemble cobwebs but insecticide sprays for spiders won't cure the problem.

### Lice on Livestock

Lice on livestock are a winter insect problem. These pests are usually not easily seen since they are very small. Their effects are often the first indications of an infestation the livestock producer sees. Lice are very irritating to livestock and heavy infestations usually cause the animals to scratch and rub a lot. Look for cattle, sheep or hogs with heavy rub spots and places where hair or skin has been rubbed off.

Be sure that you check a few infested animals before applying a control measure. Check behind the ears,

around the muzzle, around the tail and on the bricket. If you find lice use sprays, pour-ons, or spot-on for control of the infestation. Be sure that you treat all the animals in your herd. If you have sick animals that cannot be treated be sure to keep them separated from the main herd until they can be treated. They are usually heavily infested and if they are left in the treated herd they can serve as a source of infestation for the rest of the herd.

Check publications: ENT 11, "Control of Beef Animal Insects 1979"; ENT 12, 1979, Insect Control on Lactating Dairy Cows; ENT 22, 1979 Controlling Insects on Sheep and Goats; and ENT 23 Insecticide Recommend-

ations for Swine-for a list of recommended insecticides for lice control. These are available at your County Extension office. \*\*\*\*\*

### Don't Open Until January 6th

In many countries, Christmas celebrating continues until January 6th, which is known as Twelfth Night, the feast of the Epiphany or Three Kings' Day.

Because this is traditionally the day that the Wise Men presented their gifts to the Christ Child, many countries exchange their gifts at this time.
