Now, supplement your Medicare with \$250,000 lifetime coverage.

If you're 65 or over, or soon will be, then you owe it to yourself to look into the benefits of the NEW Blue Cross and Blue Shield High Option Medicare Supplement Program.

Under this plan you get a lifetime maximum coverage of \$250,000. This valuable coverage supplements your Medicare without cost to you. The plan pays the deductible and co-payment provisions of Medicare Part A for each spell of illness. And it pays in full hospital charges for outpatient services not covered by Medicare.

This program also provides additional benefits, after an annual deductible is met, for physician's charges, home health services, skilled nursing facilities, plus more.

There are no health questions to answer, however, new members have a 6-month waiting period for preexisting conditions.

Present Blue Cross and Blue Shield members having met the waiting period and desiring to upgrade their present Medicare Supplement coverage to the new High Option Program have no waiting period.

To get all the details on this quality, prepaid health care plan, mail the coupon today. Complete and mail to:

COMMISSIONER'S SALE

Rockcastle Circuit Court
Civil Action File No. 78-CI-889

Sally Sigmon Petitioner
V. Notice of Sale

James M. Sigmon Respondent
In re the Marriage of Sally Sigmon and James M. Sigmon

By virtue of a judgement and order of sale of the Rockcastle Circuit Court rendered in the above action, I shall proceed to offer for sale on the premises near Roundstone, in Rockcastle County, Kentucky, to the highest bidder, at public auction on the 30th day of March, 1979, at the hour of Ten O'Clock a.m., or thereabout, the following described real property, to-wit:

Tract No. 1. Beginning at two sugar trees on the north bank of Roundstone Creek, timber now down, the same being a corner to said tract; then with the creek, South 12 1/2 West 43 poles; then continuing with the creek, South 45 1/2 West 14 poles; then South 9 East 25 poles; then South 8 East 25 poles; then North 7 1/2 East 5 poles to a stake in said creek and in line of the creek; then the creek and running with Phillips Line, North 84 1/2 West 165 poles to a white oak and ash, Phillips corner; then North 44 East 106 poles; passing a beech on the bank of a branch and in all, 149 poles to a white oak on the west bank of said creek; then with creek, South 57 East 84 poles to the beginning, containing fifty-five (55) acres be the same more or less. There is excluded from the above described tract the following tract, sold, approximately nine (9) acres of same heretofore dated and of record in Dept Book , page in Rockcastle County Clerk's office.

Tract No. 2-Lying on the west side of the K.C. Railroad Company's right of way lines and bounded as follows: Beginning at a stake on the east bank of Roundstone Creek, where a sugar tree is called for; then the beginning corner of the said Ketrin, also corner of the parties of the first part; then North 57 West 64 poles to a stake on Roundstone Creek, corner of Ketrin where he calls for a white oak; then North 62 East 17 poles to a stone on the west side of a road; then South 33 East 38 1/2 to a stone; then South 33 East 38 1/2 poles to a stake; then South 18 West 4 poles to the beginning, containing about three (3) acres.

And being the same real property which James M. Sigmon and

won't put his toys away, won't keep her room reasonably neat won't do his homework, or won't listen to anything I say?" Why are how do children develop these problems? How can they be changed?

Let's consider the fact the children learn by imitation. Most time is spent by pre-schooler during the developmental year with parents, baby-sitters, relatives or staff of day care centers or in the home. What type of example do these important people set? Is it worthy of imitation? Have you heard or caught your little one to pick up the toys—made a game of it—and even demonstrated a degree of enthusiasm while doing it? Do you, the parent, ever pick up your child's toys—pick up your clothes, keep your room reasonably clean? Do you read or engage in some type of study as an example that home work is useful?

Do you say interesting meaningful things to your child so he or she will listen with interest? Do you praise him or her for attention when he or she accomplishes one of these tasks?

Children respond favorably to truthful, enthusiastic, consistent and loving adults who point the way to creative, challenging, necessary, and rewarding activities for their own benefit.

Advertisement for Bids

Rockcastle County Fiscal Court
Senior Citizen Center
Brookhead, Kentucky

Sealed proposals for the following work will be received by the Rockcastle County Fiscal Court, Mt. Vernon, Ky., at the Rockcastle County Courthouse, until 10:00 a.m. March 28, 1979 (local time) for furnishing labor and materials and performing all work as set forth by the Advertisement, General Conditions, Specifications and/or Drawings prepared by Helm Roberts, Architects and Urban Designers. Immediately following the scheduled closing time for the reception of bids, all proposals which have been submitted in accordance with the above conditions will be publicly opened and read aloud.

The work to be bid is described as follows:

A one story, frame building on concrete slab with a floor area of 1,046 square feet, with two toilet rooms and a small kitchen.

Plans, specifications and contract documents may be examined at the following places:

1. County Judge Executive's Office, Rockcastle County Courthouse, Mt. Vernon, Kentucky 40456.

2. Tri-County Community Development Office, 106 S. Broad Street, London, Kentucky 40311.

3. F.W. Dodge Corporation, 620 Euclid Ave., Lexington, Ky. 40502.

Or may be obtained from Helm Roberts, Architects and Urban Designers, 180 Market Street, Lexington, Ky. 40507, upon receipt of a \$10 deposit as follows:

The deposit of Contractors making legal bids to the Owner will be refunded in full on the first 3 sets of plans and specifications ordered and in good condition within two weeks after the bids are opened.

Sealed proposals for this contract shall be clearly marked on the outside of the envelope as follows:

"Sealed Proposal for Senior Citizen Center, Brookhead, Kentucky. Not to be opened until 10:00 a.m., local time, March 28, 1979."

If forwarded by mail, the sealed envelope containing the proposals must be enclosed in another envelope and mailed to Mr. Hubert Thacker, County Judge Executive, Rockcastle County Courthouse, Mt. Vernon, Kentucky 40456, allowing sufficient time for such mailing to reach this address prior to the scheduled closing time for receipt of proposals.

als.

The Contractor's attention is called to the fact that funds have been made available from the U.S. Department of Housing and Urban Development (HUD), for the construction of this project.

Work to be performed by Contractors involved in this project is subject to the minimum wage rates established by the U.S. Department of Labor under the provisions of the Davis-Bacon Act and the Kentucky Department of Labor, as set forth in Chapter 337 of the Kentucky Revised Statutes (per amendments adopted by the 1970 General Assembly). Contractors will be required to pay whichever minimum wage rate is higher for the individual crafts.

Both Federal and State wage rate determinations will be incorporated into bid specifications by an addendum issued prior to the scheduled bidding date.

Bidders must comply with the President's Executive Order Nos. 11246 and 11517, which prohibit discrimination in employment regarding race, creed, color, sex, or national origin. Where the President's Executive Order No. 11246 is shown, Executive Order No. 11375 also applies.

Bidders must comply with Title VI of the Civil Rights Act of 1964, the Anti-Kickback Act and the Contract Work Hours Standard Act.

The Bidder will submit, as a part of the Proposal Form a Certification of Nonspecialized Facilities. The certification provides that the bidder or offeror does not maintain or pay for his employees facilities which are segregated on a basis of race, creed, color or national origin, whether such facilities are segregated by directive or on a de facto basis. The certification also provides that he will not maintain such segregated facilities. Failure of a bidder or offeror to agree to the Certification of Nonspecialized Facilities will render his bid or offer nonresponsive to the terms of solicitations involving awards of contracts exceeding \$10,000 which are not exempt from the provisions of the Equal Opportunity Clause.

The Rockcastle County Fiscal Court may consider informal any bid not prepared and submitted in accordance with the provisions of this advertisement and/or the specifications and may waive any informalities or reject any and all bids.

State Okays Plans To Finish School Term on June 1

Rockcastle County schools will end term on June 1, without having to lengthen school days with extra classtime, Charles Parsons, school superintendent, said today.

He has received unofficial approval of the Rockcastle County School Board's proposal from the State Board of Education that would end the term June 1, despite school days that were missed because of weather conditions. The proposal was submitted March 6,

and approved by telephone this week.

Some extra days were accumulated by starting school August 10. The county board asked for one calamity day—which is allowed if 25 days are missed because of weather conditions, and the board also asked for six "snow bank" days accumulated over the course of the school year because the Rockcastle County school day is slightly longer in minutes than required by state law

Mr. Parsons said the approved three "calamity days" and five "snow bank" days (the maximum allowed).

School will be dismissed April 12-13 for the National Education Association's annual convention for teachers. Mr. Parsons said that Friday, June 1, will be a professional day for teachers only. He said there will be one more in-service day this semester for teachers only, but the date is undecided.

Child Care Center in old Maple Grove School Opens

A child care center partly funded by the state is opening this Friday at the old Maple Grove school building near Orlando. There will be space for 45 children, ages three to six, with a staff of up to eight adults. The children will eat breakfast and lunch at the Center, and have organized play and learning sessions, between 7:30 a.m. and 4 p.m.

Cost will be \$22.50 per week or \$5.00 per day for those who can afford to pay, but there will be spaces for low-income families who can afford to pay only some or none of the fee.

Claretta Hodges, of Mt. Vernon, will be head teacher, with Emily Pensol as assistant, when the Rockcastle Child Care Center opens with 20 children at first.

Others on the staff will be a cook, a bus driver and a bus "rider", with assistance from Mary Jo DePew, a social worker who had helped set up the Rockcastle facility, as well as one in Laurel County.

Mrs. DePew said the bus would pick up the children each morning at home, and return them about 2 p.m. Parents who want the children will stay until 4 p.m. will have to pick them up themselves. The center may stay open until 5 p.m. if there is enough demand for it.

Funds for the center will come from federal, state and local sources. The staff will be asking the Fiscal Court for \$3,000 in matching funds this year, as well

as looking to volunteers and community groups for support. It is associated with the Cumberland River Comprehensive Care Center, which estimates there are 1500 children under six years of age in the county who might use the program.

"It will be a learning situation, not just babysitting," Mrs. DePew stressed.

The staff has seventeen written objectives, including helping the child enjoy school, giving the child opportunity to succeed, and providing broadening experiences, such as field trips. Mrs. DePew said that eventually the Center might have four teachers—one for each of four learning areas, which are developing large muscles, developing small muscles, creative expression, and developing sensory perception. (Sensory perception is the familiar "school" learning, such as the alphabet and numbers classes.)

A typical day at the Laurel County center begins at 7:30 a.m. as the children arrive with their parents. They may play puzzles or watch television until the bus arrives, about 9 a.m. Then they have breakfast on a nutritionally-balanced meal, after which they stay in one large group to pledge to the flag and sing songs until about 10 a.m., when a bell rings.

The children, now grouped by ability, go into one of four areas. One for each of the learning areas listed above. After twenty minutes the bell rings again, and the children switch to another group.

At noon the children are served lunch, after which they brush their teeth and nap. Most go home by 2:30 p.m. on the bus. Mrs. DePew said.

Mrs. DePew said that parents can enroll their youngsters for only two or three days a week, or for several weeks at a time, if necessary, but there will be no "drop off" service, in which the Center babysits for just a few hours. She said this was because of the scheduled activities.

To enroll a child, contact Comprehensive Care at 256-2129, or the Center at 256-4129.

Mrs. DePew emphasized that the staff wants to involve parents in the Center's work, and welcomes their visits and opinions. Parents can even volunteer to help on a regular basis, she said.

She said that most children adjust within a week to the new situation, despite a lot of crying when they leave their parents. Parents sometimes become anxious and withdraw their child from the program.

"Just give us a week," Mrs. DePew said. "If you can stand the crying, we can too."

Sherry Bullock, left, and Mary Jo DePew have been busy the last few weeks setting up a child care center at the old Maple Grove school building. Ms. Bullock is a CEFA worker and, Ms. DePew is a family social worker with the Comprehensive Care system.

Health Department May Construct Building With Fiscal Court's Help

The Rockcastle County Health Department and Fiscal Court are working together to secure up to \$244,000 for a separate building for the Health Department. County Judge-Executive Hubert Thacker and Dr. G.W. Griffith, president of the Health Board, announced today.

The Health Department is currently housed in the Rockcastle County Courthouse, but is outgrowing its space. A new building would enable the staff to increase its services and keep up with the growth of the county, he added.

The new building would be one-story, approximately 3,000

square feet, and designed with ramps for handicapped people. No site has been selected, Dr. Griffith said, although those involved have several sites in mind.

Half the money would come from a state program for county Health departments. Dr. Griffith said the Board asked for the

maximum amount: \$122,000. The Fiscal Court and Health Department could have to come up with the other half. Dr. Griffith said the Health Department already has raised 20%. Judge Thacker said that if the building is constructed on county-owned land, the value of the land can be counted as part of the county's contribution.

If the grant is approved, Dr. Griffith said that they would have

to secure the rest of the necessary money, select the site, and have an architect's rendering before actual construction, so the building may not be actually completed for several years.

Judge Thacker said the matter would come before the next Fiscal Court on April 3.

The Health Department, while it has its own Board, is owned and operated by the Fiscal Court. Among its services are

immunizations, X-ray clinics, hearing and vision tests, nutrition programs, and tests for diseases like cancer, diabetes, and tuberculosis. It also keeps the county's vital statistics, and maintains health standards through restaurant and shop inspections, and permit and license processes.

Grand Jury Convenes For March Term

The following people are serving on the Rockcastle County Grand Jury for its March term, which began this Monday.

Olen Franklin McGuire, foreman; James Anderkin, Mrs. Joe Bullens, Vie Hysinger, George Maccastle, Revue; to be heard at the Northern, Rosalind Baker Philbeck, Shannon R. Bales, Lela Roden, Viva Spoonamore, and Zella Thacker.

The jury has the power to indict people for criminal offenses and to investigate any public official or agency.

Industrial Park Awarded \$40,000 From State To Construct Utility Lines

Commissioner William O'Daniel, Department for Local Government, has announced approval of a direct grant of \$40,000 in area development funds to the Rockcastle County toward construction of utility lines for the Rockcastle County Industrial Park.

Additional funding is being secured from the Appalachian Regional Commission, Farmer's Home Administration, Kentucky Industrial Financing and Coal Severance Economics Aid Fund. Total cost of the project is \$265,000.

Cumberland Valley Area Development District recommended funding from its area development allocation.

When direct grants are approved, complete funding for a project is paid to the applicant agency subject to special provisions of the legislation.

Area development funds were made available through action initiated by Gov. Julian Carroll and approved by the 1976 and 1978 legislatures, with \$12 million allocated for each biennium.

Women's Club Plans Revue

The Woman's Club of Mt. Vernon is sponsoring a "Rockcastle Revue" to be held at the Renfro Valley Barn on Thursday, May 10. The program is designed to be a fun-filled evening highlighting the local talent of Rockcastle County.

Mrs. Charles D. Riddle, Club President, has been directing the early planning. Receipts from the evening will be used locally for the club's community improvement project. As the evening's plans are finalized, further information will be available.

Final authorization is made by the Department of Finance following a technical review of each project.

All-Kentucky City Awards Announced April 5

Mt. Vernon and Rockcastle County's All-Kentucky City report was reviewed in Lexington last week as one of 45 entries in this year's Final Judging. The joint report was evaluated by professionals in community development from Georgia, West Virginia and Texas.

Contributing to the report were committee members: Lee Durham, Ron Cain, Nancy Mullins, Ike Adams, Julie Harris, Billy Dowell, Sandy Dowell, Rachel James, Galtiff Craig, Bill James, and Dan Stewart, community development director for KU.

Overall chairman of Mt. Vernon's All-Kentucky City project, Ron Cain and Julie Harris, traveled to Lexington with other community leaders to present the report and visual presentation to the Kentucky Chamber of Commerce's panel of out-of-state judges.

The result of the Mt. Vernon and Rockcastle County's effort will be announced in Louisville at the All-Kentucky City Awards Luncheon scheduled for April 5. Tickets to the Luncheon may be obtained by contacting the Kentucky Chamber of Commerce office in Frankfort, P.O. Box 817, Frankfort, Ky. 40602 or calling 502-695-4700. The admission price is \$10.00 per person. It is hoped by supporters, Mt. Vernon-Rockcastle Co. will be well represented at the Awards Luncheon.

Mt. Vernon-Rockcastle Co.'s reported covered community activities and involvement in the categories of Industrial Development, Community Development, health services, recreation and cultural development, and Comprehensive Planning.

Tennessee Man Helping Trucker Killed By Hit-and-Run Driver on I-75

A Tennessee man was killed by a hit-and-run driver near Mt. Vernon Saturday, as he attempted to help a stranded trucker by flagging down the traffic in the fast lane of I-75.

State Trooper Curtis Reik of the Richmond post said that three people have been arrested in connection with the case, but their names were not released because the police are unsure exactly which person was driving at the time of the death.

Steven Wayne Black, age 24, had come to the area from Strawberry Plains, Tenn., to help his brother-in-law whose tractor and trailer were stuck on the median of I-75 ten miles north of Mt. Vernon. Other family and friends had also come in pick-up trucks to

help the trucker, and Mr. Black was using a flashlight to flag traffic about 2:30 a.m. when he was struck by an automobile.

Witnesses told police the driver and his passenger got out and looked at the victim, and then rode away. The witnesses gave police descriptions of the two, who were later picked up one mile north of London.

Mr. Black was taken by the Rockcastle County Ambulance to Lexington hospital, where he died.

The matter is being investigated by the Rockcastle County Grand Jury.

"He was apparently standing in the road," Trooper Reik said. "There probably wouldn't have been any of this trouble if the people who hit him had just stayed at the scene."

Mt. Vernon firemen were able to keep a fire that started in a trash pile from spreading to several houses along old U.S. 25 last Wednesday morning. The trash being burned was the remains of a building owned by Viola Smith. John Cox said that several were burning debris from a torn-down building owned by Viola Smith when the fire got out of control.

Letters To The Editor

Dear Editor:
 Please find check enclosed for renewal of the Signal. And I would be very grateful if you could print the following letter. This is an open letter to the Cromers and the Minks, or anyone else who might know the history of these families.

My name is William Virgil Cromer. I am the oldest son of William Albert Cromer. He was the owner and operator of a General Store from 1909 to 1921 at Pine Hill, Ky. He was born December 4th, 1878 in Skaggs Creek Section of Rockcastle. His parents were Joseph A. Cromer and Celia Mink Cromer.

He was the owner and operator of a General Store from 1909 to 1921 at Pine Hill, Ky. He was born December 4th, 1878 in Skaggs Creek Section of Rockcastle. His parents were Joseph A. Cromer and Celia Mink Cromer. Joseph A. had two brothers that and their names were Sam and Abraham. I'm not sure of the spelling of that name, but it was pronounced Bram. Also one sister that I knew of Her name was Sidney, and she was married to Joe William Mink. Did Martha Cromer, Matilda Cromer, and Dulciana belong to the same family as did Joseph, Sam, Abraham and Sidney?

The Mink Family was Albert and Rebecca, father and mother. The children were Celia, which was my father's mother, and Madison, Joe William, Alexander, Andrew, Henderson, Benjamin, Martha and Albert Marion.

The children in my father's family were Rebecca Jane, who was married to George Smith; Elizabeth, who was married to Steve Drew; Lucy, who was married to Bill Meadows. They moved to Canada in 1914. Then my father, Albert, who was married to Provie Overbey of Pine Hill. Eugene was the youngest. He disappeared in 1923 and the family never knew what happened to him. He was last heard of from Norman, Oklahoma, January 9th, 1923.

If anyone can give an earlier history and the origin of these families, I would appreciate it very much. I will do my best to answer all letters, so come on cousins and let me hear from you.

Sincerely,
 William V. Cromer

An Energy Ally In Dishguise

Got your calculator out, trying to estimate how much more that new dishwasher is going to add to your electric bill next month?

Don't worry.

It takes less hot water to heat an average size dishwasher than the average family uses for hand dishes by hand.

Plus, it's a lot more comfortable than scrubbing dishes by hand. It's the largest space saving dishwasher on the market, and it's the most energy efficient.

Dear Editor,

On Monday, February 26, 1979 an emergency blood drawing was held at the Bank of Mt. Vernon. This drawing was set up primarily to accommodate the citizens of Rockcastle County who wished to donate for the three girls who were involved in a serious car accident a couple of days before. I am proud to say that 50 pints of blood were drawn at that time.

As you can see, unfortunate tragedies occur everyday and it's time Rockcastle County decided to take care of its own residents. By this I mean that they should join many of the other counties in our service area who have total coverage. Total Coverage means that every man, woman and child in the county is covered under our program provided an annual goal is obtained. Now, the goal for Rockcastle is 195 pints per year. This goal is the lowest in our 45 county area, so I am sure with the amount of community pride Rockcastle County has, it can meet this goal for 1979 and obtain coverage for all its residents.

As has previously stated, 50 pints of blood have already been donated in Rockcastle County, so the goals now down to 145 pints. Please people, join this valuable program, and don't wait until tragedy occurs to find your sense of responsibility to your friends, neighbors and most of all your family.

These concerned individuals came out in the bad weather because they care. Do you?

KSP ACTIVITY REPORT FOR FEBRUARY

During the month of February, the Kentucky State Police Post at London report the following activity.

440 motorists were issued citations. (Cont. to 7)

KENTUCKY FARMERS NEED HELP

Farm production costs are now at an all-time high and are increasing faster than the national rate of inflation. Government regulations and red tape are now choking the agriculture industry. Many of our farm-to-market roads are nearly impassable. It's little wonder, therefore, that many farmers are quitting and many others are barely hanging on.

It's about time that our elected officials realize that they have a strong responsibility to the farmers of Kentucky. State officials should be searching for new and profitable markets for farm products. Repair and

construction of farm-to-market roads should be given the highest priority. State officials should demand that tobacco's worst enemy, Joe Califano, be fired. Excessive inheritance taxes on family farm land should be eliminated.

In the past, farm problems have been made into a political football. Promises have been made at election time and promptly forgotten after the election. Some politicians have used the slogan "farmer's friend" and then done nothing for the agriculture industry.

I want to be your State Representative and have the opportunity to work toward improving the economic outlook for Kentucky farmers. I believe government interference should be eliminated; that State Government should work for farmers, not against them. As your State Representative, I will be a strong voice for Kentucky agriculture and never fail to remind government and our citizens that we all depend on farmers.

Elect Someone

With the Energy and Ability to Work for YOU.

Elect Joe Lambert Your State Representative.

Art Show Exhibit at Renfro Valley

To Be Held for A.L.D. Victims

Sunday, March 25th, at 4 p.m., A.L.D. (Adrenoleucodystrophy) Foundation, will present works donated by American and European artists to help raise money for research. The show will be held in the Red Barn at Renfro Valley. Facilities were donated by Glenn Pennington, Coyle Smith and John Lair.

The A.L.D. is a fairly rare disease, which strikes young males between the ages of 3 and 13. It is terminal and takes about 2 to 3 years to death. It has stricken two grandchildren of a local resident, Mrs. Jewell Hawk, of Mt. Vernon, McGuire Subdivision.

Mrs. Hawk's daughter, Charlotte Hiency of Indianapolis, Indiana will represent the donating artists. Mrs. Hiency is an aunt to the victims, Harold and Heath Dausch.

A.L.D. is often misdiagnosed and because of that, may be more common than presently known. It often starts with change in behavior or intellect, such as moodiness, or withdrawal, followed by darkening of the skin (hyperpigmentation), loss of vision, and finally respiratory difficulties, coma and finally death.

A child with this disease may show an unsteady gait or walk, poor and short-term memory (difficulty in remembering what has happened from one minute to the next), loss of school performance or being easily irritated. It has even

been misdiagnosed as schizophrenia. Money for the research is badly needed and efforts are being made to get assistance through other major National Foundations. For those who wish to make a donation, but cannot attend the art show, send donations to A.L.D. Foundation, Mt. Vernon, Ky. 40456.

For further information, write to Doug Begley, P.O. Box 410, Richmond, Ky. 40475, or Charlotte Hiency or Jewell Hawk, A.L.D. Foundation, Mt. Vernon, Ky.

EXTENSION HOME ECONOMICS

U. S. Dietary Trends
Since the turn of the century, the United States Department of Agriculture has been keeping a record of the amounts of different food commodities consumed in the United States, e.g. number of eggs, total pounds of potatoes, amount of red meat, poultry and fish. Then by dividing by the number of people in the country, USDA calculates the average amount consumed per person. These averages studied over a period of years provide information about trends in American eating habits. Compared to 1910, we are eating: more meat, poultry and fish; less bread and cereals; fewer fresh fruits and vegetables; more vegetable fats; more total fat; more sugar and sweeteners, such as corn syrup and

dextrose; three percent fewer calories.

Are these trends healthy? Are we eating a better diet today than 65 years ago? As personal income and standard of living rise, people consume more protein foods such as meat, poultry and fish and less starchy foods such as bread and cereals. This is true not only in the United States, but in developing countries as well. Studies in the United States show that protein intake is well above the Recommended Allowance set by the National Research Council.

Eating more bread and cereal, especially the whole-grain varieties, would be a healthy trend and good for family food budgets, too. Complex carbohydrates, B-vitamins, trace minerals and fiber are provided by this food group. While fewer fresh fruits and vegetables are being consumed now, the total of fresh and processed fruits and vegetables has remained constant over the years. More canned and frozen fruits and vegetables are being consumed due to their convenience and in-

many instances, their price advantage over the perishable fresh products.

The amount of fat in the American diet is excessive and nutritionists and physicians agree that health could be improved by reducing fat intake. Selecting leaner cuts of meat, trimming fat from meat and poultry and cooking with less fat are suggested ways for reducing fat intake.

Salad and cooking oils and margarine made from vegetable oils are increasing in popularity. Since these oils and fats contain essential fatty acids and are free of cholesterol, the increased consumption of vegetable fats is a healthy trend.

A three-percent reduction in calories consumed has not been sufficient to offset the reduction in energy expenditure. Because of increasingly sedentary lifestyles, a greater reduction in calorie consumption is needed if we are to reverse the increasing incidence of obesity and weight problems.

Physicians have noted a marked decline in coronary heart disease (CHD) mortality since the late 1960's. Because diet is one of several risk factors in CHD, scientists are studying dietary trends for clues to the encouraging decline in CHD deaths.

What To Do in March and April

Check landscape plants for winter damage. Where winter heaving has occurred, push the plants back into the ground to prevent further root damage. Where snow and ice had split off branches, prune the remaining stub to the ground or at a lateral bud on the branch. If the pruning angle cut $\frac{1}{4}$ to $\frac{1}{2}$ inch above the bud encourages the bud to open into new growth and keeps the area drier than if a flat cut is made.

Where extensive ripping of bark has occurred, it's important to clean the wounded area of jagged edges with a good sharp knife. A smooth clean elliptically-shaped wound will heal fastest. Where much repair work is done, either have trees repainted or if you feel better applying a wound dressing, use orange shellac. Avoid asphalt-based paints.

Never prune a tree to stubs (debaring or topping). If so much damage is done to your trees and bushes that repairs cannot be made and still keep attractively shaped tree or bush, cut them off at ground level and start over again.

Badly split areas will seldom heal even if they are cabled and bolted together. It's important to give your plants an early start to heal quickly so do major repair jobs now while trees are still dormant. Once a tree leafs out, repair work is hard to do on it.

Spring Pruning. Prune non-flowering deciduous shrubs and trees. Those trees and shrubs which flower after June 30 set which flower buds on new growth. Therefore, they also can be pruned now. These include Fraxinifolia, butterfly bush, beauty bush, crepe myrtle and glossy abelia. Prune fruit trees and grapes. If you don't get the job done in February.

Remove dead canes from blackberries and raspberries.

tions forming hazardous violations; 249 motorists were issued citations for other traffic violations; 230 persons were issued warnings for faulty equipment and different traffic violations; 320 motorists were assisted with break downs, given tourist information, etc.

A total of 202 traffic accidents were investigated. Of these, 166 were property damage only accidents; 34 fatal accidents; 53 persons were injured and four persons were killed.

75 motorists were arrested for driving while under the influence of intoxicants; 73 criminal investigations were made resulting in 157 criminal arrests, 30 stolen vehicles were recovered; 1,500 persons attended 14 safety programs conducted by the Kentucky State Police.

During the month of February the Kentucky State Police at Mt. Vernon report the following activity for Rockcastle County.

67 motorists were issued citations for moving hazardous violations; 12 motorists were issued citations for other traffic violations; 66 motorists were issued warnings for faulty equipment and different traffic violations; 59 motorists were assisted with tourist information, breakdowns, etc.; 20 total traffic accidents were investigated; 12 were property damage only accidents; 7 were personal injury accidents; there was 1 fatal accident, 12 persons were injured and 3 were killed.

Seven motorists were arrested for driving while under the influence of intoxicants; six criminal investigations were made resulting in 34 criminal arrests. One stolen vehicle was recovered.

Flowers. Remove leaves and other mulches from your spring bulb bed. Set out sweet peas, pansies and English daisies. Other cool season flowers which you may want to try this year are calliandra, calendula, centaurea (bachelor button), cineraria, fuchsia, gerbera, nemesia and primula.

Lawns. Apply pre-emergent crabgrass herbicide to lawns before mid-late April in northern Kentucky and late March to early April in southern Kentucky. Herbicides presently recommended for pre-emergent crabgrass control in established bluegrass and tall fescue lawns are: benfluralin (Dacthal), DCPA (Dacthal), and siduron (Tupersan). These materials are sold in many different formulations under various trade names.

Follow closely the directions on the label of the particular product purchased.

For newly seeded lawns, Tupersan is the only product which can be used for pre-emergent

Crabgrass control.

Control broadleaf weeds in lawns. Suitable herbicides for home lawns are 2, 4-D, Silvex, or Banvel.

Vegetables. Plant cool season crops in mid-March: cabbage, cauliflower, onions, spinach and lettuce. Broccoli, brussels sprouts and kale should be planted around the end of March.

Sow beets, carrots and parsnip seeds in mid-April. Seed okra, muskmelon, cowpeas, cucumbers, radishes, spinach, bush beans, sweet corn and English peas toward the end of April.

Pest News Alert

Now is the time to prepare for the spring rush. Some of the things that can be done now include organizing and reviewing literature on lawn and garden care, brushing up on the economic thresholds and control procedures for

the alfalfa weevil, planning fly control programs around barns and feedlots, and reviewing soil insecticide recommendations.

Expect problems with grubs on cattle, buzzing flies in homes and barns, and lice on various kinds of livestock.

Watch for nice days during the next few weeks and apply dormant oil sprays for the control of scales, aphids and mites on ornamentals, shade trees and fruit trees.

The oceans and their adjacent seas cover nearly three-fourths of the earth's surface or about 140,500,000 square miles.

Davis re-entered, the U.S. Senate as a chief spokesman for Southern states' rights points of view—of which was the extension rather than the exclusion of slavery in new states entering the Union.

Mississippi seceded from the Union; and Davis resigned from the Senate. In 1861 he was selected and later elected President of the Confederate States of America. The South was an agrarian society with little or no money, industry or army. Davis believed that the South should fight a defensive war, not an aggressive one. His general at first won impressive victories but the war turned around in 1863 when Vicksburg fell and the South lost the Battle of Gettysburg.

Davis, making a desperate attempt to win, changed many of his views; among them was a move to a more centralist form of government, application of martial law, confiscation of private property, conscription, and freeing any slaves who would fight in the war.

As the South began to lose, Davis became the focal point of Southern discontent. The situation deteriorated; the South suffered from deprivation, invasion, starvation and inflation (for example, a pound of sugar was \$10).

General Lee surrendered at Appomattox on April 9, 1865. Davis and his family were captured by Union soldiers in Georgia a month later.

Davis was imprisoned for two years at Fort Monroe, Virginia. The treason charges against him were finally dropped, and he took his family to England for a short time. They were reduced to near poverty. Thanks to the generosity of a friend who gave them a home in Mississippi, and the royalties from Davis' book, "Rise and Fall of the Confederate Government," they were able once again to live a life of ease. Jefferson Davis died in New Orleans on Dec. 6, 1869, at the age of 81.

ATTEST
Secretary

Jefferson Davis and the Lost Cause

by Lynn Evans

Jefferson Davis, President of the Confederacy, and Abraham Lincoln, 16th President of the United States, born in Kentucky just eight months and 100 miles apart, guided their respective halves of a torn Union in America's bloodiest internal controversy, the War Between the States.

Both came from poor, farming families and both were taken away from the Bluegrass State by their families at an early age. Davis to Mississippi and Lincoln eventually to Illinois. Davis was sent to some of the best schools of his day through the generosity of a wealthy brother, while Lincoln was mainly self-taught. They had many of the same qualities - devotion to ideals, zealous patriotism, honest beliefs, formidable, unprecedented problems; and while Davis came out on the losing side, he had established a government, raised a powerful army, put it in the field and kept the Southern states intact for four years, overcoming a sore lack of men, money and material.

Jefferson Davis was born June 3, 1808, in Fairview, Kentucky, the youngest of ten children. Though his family settled in Mississippi, his brother Joseph paid his tuition to St. Thomas School in Springfield, Kentucky, and he entered Transylvania in Lexington before completing his formal education at West Point Academy. Then he was a professional soldier, he was a professional soldier, he was a professional soldier, he was a professional soldier.

In 1845, Davis took a seat in the United States House of Representatives; in the same year he married Varina Anne Howell.

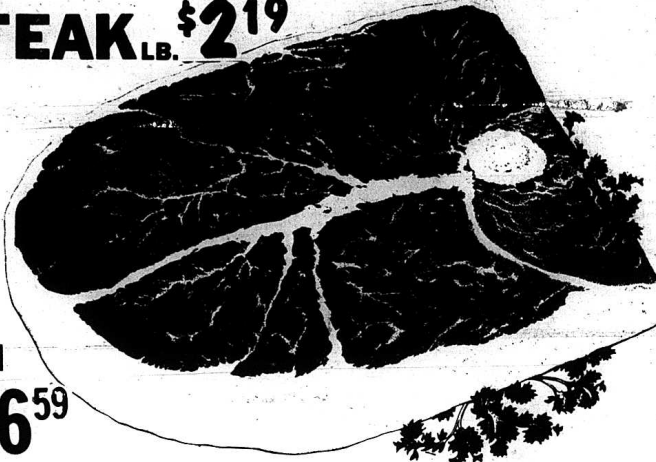

In 1846, when a regiment of Mississippi volunteers was organized to fight in the Mexican War, Davis resigned his seat in Congress and led his fellow Mississippians into battle. He fought heroically, was wounded and was forced to return home.

He was appointed to the U. S. Senate in 1847, and in 1850 he was duly elected to that body by his people. President Franklin Pierce named him secretary of war in 1853. Davis did a commendable job of leading and modernizing the military, breaking soldiers' gov-

Fish and Wildlife Commission Approves Regulations for 1979

The Fish and Wildlife Commission yesterday approved regulations for the 1979 Kentucky gun and archery deer seasons similar to those in effect last year, according to Carl E. Kays, commissioner of the Department of Fish and Wildlife Resources.

Gun and bow hunting will be permitted in 110 of Kentucky's 120 counties, with an archery season for either sex deer running Oct. 1-Nov. 9, Nov. 13-Nov. 19, and Dec. 4-31. In addition, an 11-day cross-bow only season for either sex deer is scheduled for Nov. 20-30 in all open counties, according to the proposed regulations.

For the gun deer season, Kentucky's open counties have been divided into four zones, each with differing regulations.

In 15 counties, the gun deer season will consist of two "long weekend" hunts—Nov. 10-12 and Dec. 1-3, only antlered deer, with at least one antler 4 inches long or longer may be taken in 68 of the counties, while in three counties there will be one day of either sex or five days of antlered deer only hunting. In one county and in portions of three others, either sex deer may be taken on all six days.

In 35 counties, hunting will be permitted for antlered deer for three days only, Nov. 10-12. Ten counties are closed to both gun and bow deer hunting.

The "zone 1" counties (open to either sex deer for 1-6 days are Edmonson, Barret, west of Interstate 65, Hart west of I-65 and south of Kentucky 88, and Ballard north and west of U.S. 60. The other portions of these counties

are open for antlered deer only on all six days.

"Zone 2" counties, with one day of either sex hunting (Dec. 1) and five days of antlered deer only hunting, are Crittenden, Livingston and McCracken counties in western Kentucky.

The "zone 3" counties, open for three days (Nov. 10-12) for antlered deer only, are: Adair, Bell, Bourbon, Breathitt, Clark, Clay, Clinton, Davies, Fayette, Gallatin, Glasgow, Harlan, Harlan, Jackson, Jefferson, Jessamine, Kenton, Knox, Laurel, Lee, Leslie, Letcher, Lyon, Madison, Marshall, Mercer, Metcalfe, Montgomerie, Morgan, Owsley, Pike, Rockcastle, Simpson, Whitley and Woodford.

All other open counties are classed as "zone 3" and are open for all six days for antlered deer only. The 10 closed counties are Estill, Floyd, Johnson, Knott, Lincoln, Magoffin, Martin, Perry, Powell and Wolfe. Information on firearms requirements, special antlered deer hunting and the upcoming deer hunts will be announced at a later date.

Changes in Wildlife Limits

Shorter seasons and reduced bag and possession limits for quail and rabbit hunting were enacted last week by the state Fish and Wildlife Commission, meeting in regular quarterly session in Frankfort. The changes were made, according to Commissioner Carl E. Kays, because severe weather of the past three winters has

drastically lowered statewide populations of both wildlife species.

According to the new regulations adopted by the commission, the 1979-80 quail hunting season will be shorter by 11 days, opening as usual on the third Thursday in November (Nov. 15) but continuing only through February 7. The bag limit for quail was reduced from 10 to 8, and the possession limit from 20 to 16. The rabbit season, shorter by 10 days, will also close November 15 and will close January 21, with limits of 8 and 8 instead of 6 and 12.

Other small game seasons and limits set by the commission were virtually unchanged from last year and are as follows:

Squirrel, Aug. 18-Oct. 31 and Nov. 15-Dec. 31, limits 4 and 12; grouse, Nov. 15-Feb. 29, limits 4 and 8; furbearers (trapping), Nov. 15-Jan. 31, no limits and furbearers (by other methods), Nov. 15-Jan. 31, no limits except that no more than one raccoon per hunter or no more than 3 per party of three or more hunters may be taken. Falconry hunting will be allowed from November 1 through the last hunting date for the species hunted (the hunting bag and possession limits to apply).

Trapping and hunting for all species except waterfowl, ralls, gallinules, woodcock and snipe will be closed throughout the entire state during the gun deer season, Nov. 10-12, and Dec. 1-3, except on eight wildlife management areas where hunting and trapping will be allowed. Those areas are: West Kentucky, Higginson-Henry, Land Between the Lakes, Fort Knox, Fort Campbell, Yellowbank, Kleber and Clay.

Legislative Report

By Rep. Harold DeMarcus

It is not unusual to stop at a service station in Kentucky and pay eighty cents for a gallon of gasoline. Furthermore, the federal government has predicted that the price of gasoline will rise to one dollar per gallon, in addition to mandatory Sunday closings and gas rationing.

The reasons for this situation are well known. A price hike by OPEC, the upheaval of the U.S. supported Iranian government, Kentucky's nine cents per gallon tax on gasoline and a strong demand from the consumer.

Nonetheless, Americans and Kentuckians in particular are a resilient lot. Consumers take the time to shop around for the most reasonably priced gasoline and the 55 m.p.h. speed limit aids conservation. Also, the possibility of taking advantage of Mexico's petroleum resources is being explored.

Another alternative is a practice known as car pooling which many Kentuckians have been doing for a long time. The Commonwealth's Department of Transportation is attempting to aid the car pooling process by providing a "statewide ride-sharing program."

The statewide ridesharing program seeks to help people across the state in forming car-pools. They provide a telephone number (902) 364-5700 which Kentuckians may call to acquire lists of persons in their area who are interested in pooling in and around Frankfort and another 4,000 people have shown interest in the ridesharing program.

In July of 1978, the ridesharing program instigated another program entitled "Vanpooling," wherein the state leased five 12 passenger vans to state employees, and these employees will drive other state employees from surrounding areas to Frankfort and be able to use the vans for their own purposes on weekends.

The driver-owner will make payments to the state, eventually owning the vans. Their expenses, including gasoline, maintenance, insurance and payments, would be recovered by fees charged to their riders. Officials of the Department of Transportation have announced that ten more vans have been ordered to be used for the same purpose.

The vanpooling concept is timely as well as logical.

after all the conservation of gasoline and money, not to mention fewer cars on the road are important concerns. However, there are questions that should be raised, for while the taxpayers of this state are financing the vanpooling and only a very small percentage of the taxpayers will reap any benefit from it.

Also, CBS news has reported that there are 93 million potholes in America, 49 potholes per mile on every paved road in the U.S. and 4.3 million potholes in Kentucky alone. State government would serve more taxpayers if it repaired the roads before it purchased any vehicles. I am sure that the axles on the vans are just as susceptible to potholes as your automobile.

If the present administration authorized the purchase of those fifteen vans because it was concerned with the conservation of gasoline and having fewer cars on the road, then why did it build a 1,033 parking structure beneath the Capitol Annex in Frankfort. This parking structure cost \$17.5 million in tax revenue which equals out to \$17,000 per parking space, and to add insult in injuring the handicapped ramps that were designed to be in the parking structure were left out.
