**All insurance agents are about alike.**  
Until you have a claim.  
Most insurance agents look pretty much alike. But some work for only one company while others (like us) are independent, working only for you.  
An agent working for one company must satisfy the company. If he doesn't, he may not have a job.  
With us, we must satisfy only you. If the insurance company doesn't make good, they will lose all our business, not just yours. So they can't afford to cross either of us up.  
How does this work when you have a claim? Simple. We're always on your side. (Try to figure out where the other guy is.)

## Notice of Intent to Build Coal Tipple for Coal Handling Pursuant to Application Number 102-8000

In accordance with the provisions of KRS 350.055, notice is hereby given that Par-Birdie Coal Co., Inc., Box 21154, Standiford St., Louisville, Ky. intends to file an application for the surface disturbance of approximately two acres for a coal tipple. Located 1/2 mile East of I-75's junction with U.S. 25 at Burr in Rockcastle County, north of L&N Railroad, latitude 37 degrees 20' 30", longitude 84 degrees 17' 15". The surface of the area for the tipple is owned by Zula Drew.

A brief description of the kind of mining activity proposed is tipple and coal handling. The application will be filed at the Bureau of Surface Mining Reclamation and Enforcement, London Area Office, London, Ky. 40341.

Persons wishing to file written objection and/or request a formal administrative hearing in regard to the above described surface mine, should notify the Department for Natural Resources and Environmental Protection within 30 days of the date of this notice. The written objection must have attached a copy of the newspaper clipping and reference to the above application number. Such objection or request must be in accordance with KRS 224.081 (2) and must be forwarded to the Director of Permits, Bureau of Surface Mining, Reclamation and Enforcement, Capital Plaza Tower, Frankfort, Kentucky 40601. 5x1

"Virtue is like a rich stone, best left set." Francis Bacon

And being the same property conveyed unto Chester E. Azbill, et ux., Rollin Mullins, et ux., and Terry Osborne, et ux., by deed from Clarence Carter, et ux., dated the 17th day of November, 1977, and recorded in Deed Book 106 at page 481, in the office of the Rockcastle County Court Clerk, Mt. Vernon, Kentucky.

Said property shall be sold upon the following terms and conditions:

The property shall be sold to the highest bidder(s) either for cash or with the purchaser paying an amount equal to ten (10%) percent of the sales price at the time of sale, with the balance of the sales price payable within thirty (30) days from the date hereof with the purchaser(s) being required to execute a bond for the balance of the purchase price, said bond to be signed by the purchaser(s), with good surety thereon, and to bear interest at the rate of eight (8%) percent per annum from the date of sale until paid, with the bond to have the same force and effect as the Judgment, and to be and remain a lien on said property until fully paid.

Said property shall be sold free and clear of all liens and encumbrances, with the exception of 1979 ad valorem taxes and/or assessments, which shall be paid by the purchaser(s) with the sale, however, to be made subject to all easements, covenants and restrictions of record or otherwise.

Possession of the property shall be granted to the purchaser(s) upon compliance with the sale terms, with the risk of loss for any improvements on said property to pass to the purchaser(s) as of the date of sale.

**Preserve Pears To Enjoy Year-Around**  
Take advantage of fresh pears while they are plentiful. If you are especially fond of them you can start with the earliest of the season, the tiny sugar-sweet pears ready in mid-summer, good either as is or pickled. They're followed in late summer by several varieties that have a thin skin and a delicate texture. These are then delicious for eating as a snack, for serving with meals as a salad or as a dessert, and for preserving for later use.

Pears ripen best if picked while still firm and green. Ripen green pears at room temperature in a brown paper bag loosely closed. When ripe, pears should be stored in the refrigerator. To store for eating, wrap the fruit in paper and put it away in a slotted box in a cool place. If you plan to cook pears, cook them while they are still firm.

Pears will keep their white, fresh-cut look longer if they are dipped in lemon juice or an ascorbic acid mixture immediately after cutting.

Pears are easy to can and may be served in a variety of ways. The mild, pleasant flavor makes the fruit go well with several varieties of cheese and combines with other fruits or as an accompaniment for meat. Pears preserve well for use later in the year if canned, frozen or pickled or made into butter, preserves or jam.

To can pears-wash pears, peel, cut into halves and core. To keep pears from darkening during preparation, drop into an anti-darkening solution (one gallon of water with ascorbic acid added to two tablespoons each of salt and vinegar). Drain or lift from the solution when you are ready to pack in jars. Do not let fruit soak for more than 20 minutes.

Raw pack: pack raw fruit to 1/4 inch of top. Cover with

boiling syrup, leaving 1/4 inch space at the top of the jar. Wipe the jar rims clean. Adjust the lids. Process in boiling water bath (212 degrees F): pints for 25 minutes and quarts for 30 minutes.

**Hot Pack-Heat** pears through in hot sirup. Pack hot fruit to 1/4 inch of top. Cover with boiling liquid, leaving 1/4 inch space at top of jar. Wipe jar rims clean. Adjust jar lids. Process in boiling water bath (212 degrees F), pints for 20 minutes and quarts for 25 minutes.

To freeze pears: select pears that are well ripened and firm but not hard. Wash fruit in cold water. Peel, cut in halves or quarters, and remove cores. Heavy syrup in boiling sirup for 1 to 2 minutes, depending on the size of the pieces. For the sirup, use three cups of sugar to four cups water. Drain and cool. Pack pears into containers and cover with cold sirup. For a better product, add 1/4 teaspoon ascorbic acid to a quart of cold sirup. Leave head space, 1 inch for quarts, seal and freeze.

**Pea Butter**  
2 quarts pear pulp (about 20 pears)  
4 cups sugar  
1/4 cup water or enough to prevent sticking  
1/4 teaspoon ground nutmeg  
1/4 teaspoon ground cinnamon  
Quarter and core pears. Cook until soft, adding only enough water to prevent sticking. Press through a sieve or food mill. Measure pulp. Add remaining ingredients; cook until thick, about 15 minutes. As mixture thickens, stir frequently to prevent sticking. Pour into hot jars leaving 1/4 inch head space. Adjust caps. Process pints and quarts 10 minutes in boiling water bath. Cool. Yield: about 2 pints.

**Consumer Comments**

"Shopping For Credit"

As inflation tightens pocketbooks, more consumers are finding it wise to shop for credit as they would shop for anything else.

Shopping around for credit can save you a considerable amount of money. For example, a one-half of one percent difference in the interest rate of a 30-year mortgage for \$50,000 can save about \$7,000—that's about \$20 per month.

There are three main factors to consider when shopping for a loan: the annual percentage rate, the finance charge and the "length" of the payments. The annual percentage rate is the cost of credit per year expressed as a percentage of the loan. The annual percentage rate is a good way to compare loans regardless of the amount of credit or the length of the payments.

The finance charge is the total cost of the loan. It includes interest, service charges and other possible costs such as finders fees.

Always consider the length of the payments when borrowing. Low monthly payments may lose their attractiveness when you find they last twice as long as you'd like. If you borrow the same amount of money for twice as long, at the same percentage rate, your finance charge will more than double.

All creditors must state their credit costs in terms of the finance charge and the annual percentage rate. The law says these two pieces of information must be shown to you before you sign a credit contract.

Be sure to look at all the credit terms before you make a decision. Read the credit contract carefully. If you don't understand something about the contract, ask someone who does.

Wide credit choices can save you money, safeguard a good credit rating and help you enjoy purchases while you're paying for them. Shopping for credit makes sense.

If you have questions or complaints concerning credit in Kentucky or any other consum-

er problem, write the Office of the Attorney General, General Consumer Protection Division, Frankfort, Ky. 40601, or call the toll-free consumer hotline at 1-800-372-2990.

**EKU ANNOUNCES A SEMINAR ON CHILD ABUSE**

A seminar titled "Child Abuse I" will be held at Eastern Kentucky University October 11.

Deadline for application to

attend this seminar is October 5, but phone reservations may be made after this date if space is available, according to Lynn Voight in the EKU College of Allied Health and Nursing's continuing education office.

The faculty for this seminar will be Ken Wooden, investigative author of "Weeping in the Playtime of Others," who has testified six times before Congressional hearings and serves as an expert on the subject of child abuse for several Congressional committees.

He has appeared on more than 300 television and radio talk shows, including "Good Morning America," "Sixty Minutes," the "Today Show," and the "Phil Donahue Show."

The seminar will begin at 8:00 a.m. with registration and continue through 4:30 p.m. The speaker will be Posey Auditorium in the Stratton Building. For additional details or phone reservations, call Dr. Voight, 606-2143 or 622-3104.

**Kentucky Afield**

By John Wilson

Water temperatures at Kentucky's lakes are falling rapidly now, indicating the end of the summer doldrums and the beginning of some of the best angling of the year.

Experienced fishermen agree that fall is one of the best times to catch fish—particularly big fish. In anticipation of cold winter weather, fish seem to go on a fall "feeding spree" and cruise the shallow shoreline, making them both more willing to take an angler's lure and also more likely to be in an area where they'll encounter that offering.

Shallow running spinner baits and crank baits are productive in the fall, as are surface lures and buzz baits. In case you haven't been introduced to the buzz bait, it looks something like a spinner bait, but has a specially shaped blade which causes it to run noisily or "buzz" across the surface of the water.

These buzz baits are fairly new on the angling scene, but they've already proven effective for fall bass—particularly in the Kentucky-Barkley Lakes areas. They are also accounting for their share of muskellunge at Cave Run Lake, where fisher-

men find their snag-free characteristics ideal for fishing in the timbered coves where muskies like to hang out.

Some angling authorities believe that there is a "false-spawn" in autumn, occurring when water temperatures fall to the same level at which the fish spawns in the spring. So if the fall water temperature is at or near the spawning temperature, look for fish in the same areas where you found them last spring.

Some patterns usually associated with summer fishing are productive through the fall months. On calm mornings, white bass can still be found in the "pumps," chasing schools of shad on the surface and willing to strike just about any lure tossed near them.

Fishing at night under lights will also produce good catches of crappie and white bass, but late fall evenings do get a little too chilly to make this kind of angling appeal to most folks.

Fall fishing generally continues until the water temperatures drop below 50 degrees. After that, fish are in their winter locations (usually in deep water) and are slow to react. Although they can still be caught, most fishermen are by then in holding patterns themselves waiting for the first warm days of spring.

Don't be too quick to store your tackle for the winter—there are still at least a couple of months of very good fishing ahead.

**SAVORY STUFFED CABBAGE ROLLS**

8 large cabbage leaves  
1 can (10-3/4 ounces) Campbell's condensed tomato soup  
1 pound ground beef  
1-1/2 cups cooked rice  
1/4 cup chopped onion  
1 egg, slightly beaten  
1/4 teaspoon pepper  
Cook cabbage in salted water a few minutes to soften; drain. Mix 3 tablespoons soup with remaining ingredients. Season with salt, if desired. Divide meat mixture among cabbage leaves; fold in sides and roll up (secure with toothpicks, if necessary). In skillet, place rolls seam-side down; pour remaining soup over. Cover; cook over low heat for 40 minutes. Spoon sauce over rolls several times while cooking. Makes 4 servings.

The waitress returned, bearing two immense buckets of ice cream.

**I Ate My Way To Fame And Fortune.**

We sat down, John Chisholm and I, at opposite ends of a restaurant table.

The waitress approached. I glanced at John for any sign of hesitation. He answered my look with our order: "Two Nantucket Buckets."

"With everything," I quickly added, knowing full well that was the only way they came.

The waitress turned toward the counter. "I hope you boys know what you're doing, just to make sure:

- Nantucket Bucket -
- 16 scoops ice cream -
- 8 flavers -
- 4 toppings -
- 1 pint whipped cream -
- 6 cherries -

and a \$25 Savings Bond to the man, woman, or child who could consume one in a single sitting.

John was calmly polishing his spoon when the waitress returned, bearing two immense buckets of ice cream.

The place fell silent, and John's spoon fell, with much noise, to the floor.

"Well, to make a tall order short, we finished our task in just under two hours. We were heartily congratulated by the owner, the waitress, and the small crowd that had gathered.

But John, in a gesture that will go down in the annals of gastronomy, did not rest on his laurels.

"An order of fries," he calmly told the waitress. "Fries. What class!"

John ate those fries. Even looked like he was enjoying them. And then, together, we staggered into the warm afternoon sun, lame under our belts and a fortune in our pockets.

That was years ago.

Today John and I are still friends.

He's leading a quiet, normal life in a small town outside Boston. And I, predictably enough, have a couple of ice cream shops of my own, thanks to that first Savings Bond, and the many I added to it over the years. I even have a big bucket with a \$50 Bond Challenge.

And if I ever meet the brave soul who can eat a side of fries on top of that, I'll double it.

U.S. Savings Bonds are safe, steady and dependable. There's no easier way to fulfill your dreams. Whatever they are.

## Brodhead Town Board Meets

The Brodhead Town Board held their regular monthly meeting Monday night and the agenda was light with three members present: Mrs. Elizabeth Mullins, mayor, David Cash and DeAlva Robbins.

The first item discussed concerned the fact that Mrs. Mullins and several town employees had been contacted by Jack Huffines, Jr. of the Ky. Labor Dept. about a proposed claim by a former town marshal, Sherman Denney. Mr. Denney reportedly has told this department that he worked overtime during his employment and was not paid for it. Mr. Huffines told Mrs. Mullins and Mrs. LaJoy Graves, town clerk, that no formal complaint has been filed as yet by Mr. Denney.

Dee Bussell, Water Superintendent, who is a salaried employee, told the board that he had also been contacted by Mr. Huffines and asked questions concerning the number of hours he works. He also said that he signed an affidavit which stated that he was satisfied with his arrangement financially with the town and had no intention of making a claim for overtime worked in the past.

Town Marshall Wayne Denney, who is also a salaried employee, said he also signed a statement for Mr. Huffines but he was not clear as to what the paper said.

After some discussion, the board decided to take no action on the Denney matter at this time but to await further action by Mr. Denney. However, the board did instruct Wayne Denney not to work over 40 hours total a week.

The city would charge for a sewer fee. Mr. Bussell will not be hooking onto the water line because he has dug a well which he feels will be adequate for his needs.

Although board member David Cash expressed some reluctance to expanding the town's sewer line outside the town boundary, it was finally decided to approve the request at a rate of \$5 per month on the condition that Mr. Bussell pay the \$100 sewer connection fee and that the sewer be restricted to use by his residence only at this rate.

Town Board attorney Jerry Cox advised the board that this action might require the publication of a rate ordinance since the city's present ordinance probably does not cover this service.

No action was taken by the board on a request by Keith Smith that the sewer line be extended to serve an area being subdivided by him at the old Payne property on Hwy. 150.

The board did agree to take the unpaid 1978 taxes to small claims court for collection.

A raise for Arch Cash was approved by the board to \$35 per month for emptying trash barrels in Brodhead. This is Mr. Cash's first raise in the 12 years he has been providing this service.

## Historymobile To Visit Renfro Oct. 13

The Kentucky Historical Society Historymobile, featuring the pioneer exhibit, will visit Renfro Valley Saturday, Oct. 13, from 11 a.m. to 5 p.m. The visit is in conjunction with Rockcastle County's "Lasses Makin' and Country Music Gatherin'." No admission will be charged to see the Historymobile exhibit.

The pioneer exhibit depicts life in the commonwealth during Kentucky's first decade of settlement, 1774-84. It features a replica of a log cabin which contains handmade furniture and primitive household and hunting tools. Visitors may examine such artifacts as a cornshuck bed and a Kentucky long rifle.

The opportunity to visit a museum," said Dan Zwyer, curator of the program.

The Historymobile also has portable video equipment available for use by junior historians and history organizations. For more information or scheduling, contact Dan Zwyer, 502-564-2662.

**Easy Street Stringband**

Easy Street Stringband, a group of down-home musicians from Southern Indiana, will be offering a concert of fine old time mountain-style music, ballads and carry-overs on at Renfro Valley, October 12 at 8:00 p.m. in the old barn.

Easy Street is known for its lively renditions of crooked old fiddle-tunes, antique ballads, love songs, work songs, and outlaw songs. Songs from the rough frontiers and backwoods of long ago. Songs that many have forgotten; others that everyone knows. Songs and tunes that celebrate youth and new beginnings, loved by all who haven't lost completely the rugged vitality of spirit that has filled our country from its early days. East Street, first prize winners of the Tennessee Old-Time Fiddler's Championship and regulars at the Indiana Fiddler's Gathering in Tippecanoe, features: Teri Klassen, on the marvelous Movel guitar; Randy Marmouze, playing five-string banjo; Mark Feddersen, stringband and mandolin; Bob Herring on fiddle, and Frank Hall, fiddler and dance caller. So bring a friend to Renfro Valley, for a good time with the Easy Street Stringband.

## Covington Man

### Killed In I-75 Collision

A 24-year-old Covington man, Jessie R. Hughes, died late Saturday afternoon from injuries received in a two-car accident on Interstate 75, 7 miles north of Mt. Vernon Friday night about 10:40 p.m.

According to State Police-man Jack Lawless, who investigated the accident, the Hughes auto was struck head-on by a car driven by Robert J. Rose, 30, of Waco, which was traveling south in the northbound lane.

Ed Ray Peters, of Barbourville, a passenger in the Hughes auto, was not injured in the collision.

Rose was taken to the University of Kentucky Medical Center where he was admitted and was released Tuesday.

Lawless said there were warrants on file against Rose, who also reportedly struck a car at the 71 mile marker before the crash at the 68 mile marker, awaiting his release from the hospital for serving.

### MEETING CALLED FOR BIG BROTHERS AND SISTERS

Yes, folks, it's that time again. The Big Brothers and Sisters of Rockcastle County are having another meeting. Why not get involved and help a child. The meeting will be at the Mt. Vernon City Hall at 7:00 p.m. on Tuesday, October 9. We need your support. Call Carolyn Morris at 256-2129, for more details.

### GROUNDBREAKING SET FOR MONDAY NIGHT

Groundbreaking ceremonies will be held Monday night at 6 p.m. for the new 32-unit elderly housing project planned to be built behind City Hall.

Guest speaker for the occasion will be R.A. Williams of Williams Development Co. of Lexington. Mr. Williams will discuss public housing and eligibility.

All senior citizens and other interested citizens are urged to attend.

At 7:30 p.m., the Council will hold their regular monthly meeting.

### PULASKI INDUSTRIAL PARK RECEIVES GRANT

The Appalachian Regional Commission has approved a \$250,000 grant to help with development of an industrial park in Pulaski County, according to Gov. Julian Carroll.

Development Secretary William Short said the grant would be used for grading and drainage work for the Central and Southern parkways and for water main and gas line construction along both parkways.

The project also includes preliminary design work for road access and water and sewer service.

The 195-acre site, which is south of Somerset, will be developed into 21 industrial areas by the Pulaski County Industrial Foundation. The industrial site has the potential to provide between 1,300 and 1,800 jobs, Short said.

The proposed Somerset Southeastern Bypass, which will link KY 80 and U.S. 27, will pass near the site. The main line

Dee Bussell, Water Superintendent, who is a salaried employee, told the board that he had also been contacted by Mr. Huffines and asked questions concerning the number of hours he works. He also said that he signed an affidavit which stated that he was satisfied with his arrangement financially with the town and had no intention of making a claim for overtime worked in the past.

Town Marshall Wayne Denney, who is also a salaried employee, said he also signed a statement for Mr. Huffines but he was not clear as to what the paper said.

After some discussion, the board decided to take no action on the Denney matter at this time but to await further action by Mr. Denney. However, the board did instruct Wayne Denney not to work over 40 hours total a week.

In other action, the board again took no action on a bid by Ronald Harrison and Arthur Harrison, Jr. for the "Fuzzy Duck" property owned by the city and located about 1 mile north of Brodhead near the Hiatt community. The property was advertised for sale by sealed bids and the Harrison brothers were the second high bidder at \$30,000 for the approximately 33 acre site. High bid originally was \$30,050 submitted by Keith Smith but board member D.A. Robbins said that Mr. Smith had indicated to him that he was not really interested in the property any longer.

The Harrison brothers have proposed a \$10,000 initial payment with the remaining \$20,000 to be paid off over a period of time at 10 percent interest. The men have indicated they intend to build a garage on the property.

If the property is sold, the board intends to use the proceeds to pay off their indebtedness on the 30 acre Proffitt tract located behind the school. The board plans to use this site for possible industrial development.

Dee Bussell brought a request before the board from Billy Allen Bussell to allow Mr. Bussell to connect to the town's sewer line at his own expense. Mr. Bussell said that Mr. Bussell intended to bear all cost of constructing the sewer line to where the city's line now ends and wanted to know what rate

B.J. Brown, Jr., owner of Cumberland Fence Co., standing, is shown supervising the work of digging post holes for the fence being erected around the ballpark at the Brodhead Fairgrounds. ## Court Declares Emergency In Order to Purchase Ambulance

The Rockcastle County Fiscal Court voted Tuesday to declare an existing emergency which enabled them to buy a new ambulance without bids.

Bill Bailey, a director of the Rockcastle County Hospital which dispatches the ambulances; met with the court to acquaint members with the type of ambulance which it had been decided to buy with the court's permission. The ambulance is a new 1979 Ford which will cost \$20,165. Mr. Bailey said he had dickered the seller, C.E.I., of Highland Heights, Ky. down from their original bid of \$22,214 which included a tachograph priced at \$638. Mr. Bailey said a tachograph would record any sudden revving of the engine and pinpoint when it was done so that abuse of the ambulance could be cut down. However, it was decided that this piece of equipment could be added at a later date. Delivery date is set for about three weeks, according to Mr. Bailey.

The court voted to borrow the money to buy the ambulance with the loan being repaid from coal severance monies expected to the county in the sum of a little over \$28,000. The coal severance funds are expected to be forthcoming in three to six months, according to Judge Hubert Thacker.

Several county employees received a raise during the meeting: county truck drivers and grader operators received an increase of 35 cents per hour; Coroner Billy Dowell's salary was raised from \$150 a month to \$200 and Williametta Cromer, who takes care of the ambulance service's books and insurance, was raised to \$275 effective October 2nd and it will be raised to \$300 per month effective January 1, 1980. The court also voted to hire, on Judge Thacker's recommendation, Anna Rose Mullins as secretary to the Fiscal Court at a salary of \$4.50 per hour. Mrs. Mullins was a former CETA employee.

The Court also voted to hire Attorney Carl Clontz to file suit on behalf of the county against John D. Love over the alleged damaging of the Sigmon Hill Road, County Attorney James Lambert could not act in this capacity since it was determined that there was a conflict

## Notice

Due to the fact that there will be no school in Rockcastle County on Friday, October 5, the Rockcastle Rockets' football game with Casey County, which was scheduled for Friday night, will be played Thursday (tonight) October 4 at the regular game time.

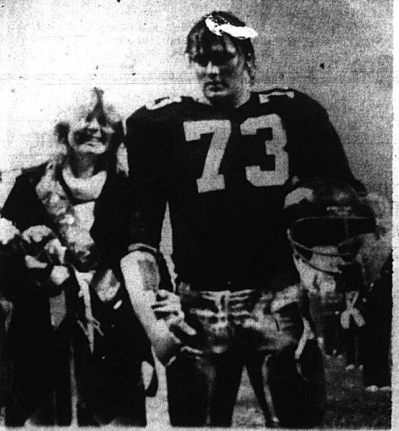

## Climax Man in Satisfactory Condition After Shooting

Byron Johnson, 22, of Climax, is listed in satisfactory condition at the University of Kentucky Medical Center in Lexington following a Friday night shooting in front of Cook's Store at Climax.

Charged in the shooting is Darrell Craig Clark, 21, of

Route 1, McKee. Clark was arrested and charged with First Degree Assault and released Saturday on \$10,000 bond.

According to State Police Detective Fred Walton, Johnson was shot twice in the upper chest area with a handgun which has not been recovered.

Cheryl McClure, a senior at BCHS, was crowned Queen during half-time festivities of last Friday night's football game here with Lynn Camp. Miss McClure, the daughter of Mr. and Mrs. Fred McClure of Route 2, Mt. Vernon, was escorted during the ceremonies by Charlie Fain.

This is the type of ambulance which the Rockcastle Fiscal Court voted Tuesday to purchase from C.E.I. of Highland Heights for the ambulance service. Delivery is expected in about three weeks.

## Letter To The Editor

Editor: My wife, Sally and I, both enjoy reading the Signal each week. We love the mountain people because we are of them. We came to Indiana years ago with intent to some day return to our homeland. We used to live in Laurel County. We have many friends in Rockcastle and all the adjacent counties.

We were impressed by the news that Dr. Julian Yip and wife are coming to Mt. Vernon from Canada. We know Rockcastle already has some good M.D.'s, but population is growing and a new and younger medical doctor, especially a general practitioner, is always needed. With full intention of coming to live in your community in the coming months, if it be God's will, then we can personally welcome the nice new family. And I'm sure we will be quite busy meeting old friends also.

Among them is my dear friend of many years past, Mr. John Lair of Renfro Valley. We feel he has done so much to promote good feelings for the Kentucky hills.

Now to put in my political plug; we are hoping that when we return to Kentucky we will be able to then see that Kentucky has a new Governor in the person of Louie B. Nunn. Not

that I have any dislike for young Mr. Brown, who happens to be a rich man, but we just do not like the idea of buying the highest office in the State and paying much more for it than the salary of the office pays. It does not take a lot of brains to figure the gimmick to such set-up. But we have nothing at all against good Democrats. We are independent voters, and it doesn't just happen that one of Kentucky's former Governors, A.B. "Happy" Chandler, is an old friend, and one that we found to be true blue when we were in Kentucky. Recently he said to me, "Come back to Kentucky, we will welcome you with open arms." I had told him how I admired him for being the only democrat of high stature in the State to travel all the way to Hyden and shake hands with ex-president Nixon when he spoke there some months ago. I still have the clipping from the mountain paper with the picture of "Happy" shaking hands with Richard Nixon. We now know that Mr. Nixon committed no crime himself, nor did he set up the plans of Watergate. But like most humans he tried to protect his friends, and he got the "axe". When it comes down to facts we all know that our present President is an amateur averse election Watergate swept in office.

Sincerely,  
C.A. Nolan, Sr.

## Legislative Report

By Rep. Harold DeMarcus

The Interim Joint Committee for Appropriations and Revenue is guilty of making a serious error in judgment.

On September 17th, by a vote of 14 to 7, the committee recommended that the governor and the State Fair Board lend \$2 million to private developers for renovation of the old Seelbach Hotel in downtown Louisville. Previously, the governor was recorded as being willing to arrange a loan if the committee supported it.

Supporters of this measure stated that the Seelbach renovation of the old Seelbach Hotel in downtown Louisville. Previously, the governor was recorded as

being willing to arrange a loan if the committee supported it. Supporters of this measure stated that the Seelbach renovation is vital to the resurgence of downtown Louisville. However, they failed to mention that the state has already poured \$67 million into the revival of downtown Louisville.

Along with six other members of the committee, I voted no on the motion to support the lending of \$2 million to private developers because of taxpayer responsibility for this debt if there should be a default. The governor passed the buck to the committee and they failed to uphold their obligation to all the citizens of Kentucky.

Although the state's bonded indebtedness is \$2.5 billion, one of the highest in the nation and rising, the committee went along for the ride and set a flood-gate precedent that will send private business flocking to the legislature for aid every time they run short of finances.

The Seelbach developers had garnered \$15.5 million in commitments from local financial institutions, the City of Louisville and the federal government to be used in the restoration of the hotel. In order to secure these commitments, they had to get \$2 million by September 30, to cover the overruns, thus, they were sent to the committee, who has no authority over the issuance of bonds.

If, indeed, the governor allows the State Fair Board to issue \$2 million in revenue bonds to bail out the private Seelbach developers, it will not simply constitute the lending of the state's borrowing power, it will imply that there are no other areas of concern in the Commonwealth that \$2 million could help rectify.

And, that most certainly is not the case. Millions of dollars in Resource Recovery Road bonds have been issued to repair roads, the roads in Lincoln, Rockcastle and Pulaski counties are in need of repair and \$2 million could be a big help.

Two million dollars could be used to renovate many asbestos lined classrooms or provide funding in such vital areas as emergency medical services. The list goes on and the fact remains that a hotel in Louisville is rather insignificant compared to other contemporary situations.

When a man or woman is elected by the people to go to Frankfort and transact the

Commonwealth's business, whether it come from the smallest county in the state or the largest, their obligations are the same. That being to uphold the law of the land, the Constitution clearly prohibits the use of any tax revenue for the benefit of private property.

Revenue bonds are issued to finance projects which are presumed to generate independently sufficient income to retire the debt as well as cover current operating expenses. In some cases, the demands on the state's fiscal resources exceed operating expense resources, thus, revenue bond debt services compete with other agency services for available revenues.

The state's agencies' income is, in turn, derived from general fund, or road fund appropriations, so that the end result is that tax revenues are ultimately involved in the retirement of revenue bond debt. Revenue bond debt that serves to produce a benefit for the taxpayer may be condoned, however, the

privately owned Seelbach will only benefit the affluent of Louisville.

## COMPLETES COURSE

Pvt. Charles A. Richardson, whose wife, Mickey, lives at Conway, recently completed a wheeled-vehicle mechanic course at the U.S. Army Training Center, Fort Jackson, S.C.

During the course, students were trained to perform maintenance and assist in the repair of automotive vehicles and associated equipment. They became familiarized with the functioning of automotive wheel-vehicle components, operating principles of internal combustion engines, fundamentals of fuel and electrical systems and the use of organizational and safety equipment.

Richardson's parents, Mr. and Mrs. W.E. Richardson, live at 1995 E. Ross Road, Tipp City, Ohio.

"Has Our Social Security Check Arrived Yet, Bill?"

"NO!"

Every year over 1,000,000 checks are lost, stolen or misplaced. And when that happens to an individual, it can cause a lot of hardship.

Why not have your government check sent directly to the bank where it will be placed in your checking or savings account and be available for use by the third of the month. No extra charge and we'll be glad to help you make out the forms.

Mrs. Shanda Barnett

## Childress - Barnett Vows Said in August Wedding

Miss Shanda Childress, daughter of Mrs. Tessie Childress of Mt. Vernon, and the late Cecil "Pete" Childress, and James Calvin Barnett, son of Mr. and Mrs. Calvin Barnett, also of Mt. Vernon, were united in marriage August 4th in a candlelight service at the Bible Baptist Church. Bro. Paul Burton performed the double ring ceremony under a archway flanked with greenery. The church was decorated with white gladiolus. A program of wedding music was presented by Connie Amos. She performed several solos on the organ as well as the traditional wedding march.

The bride escorted by her brother, Robert Childress, and given in marriage by her mother, wore a traditional style gown of white chantilly lace and organza. The fitted bodice and multi-tiered, skirt was trimmed on each layer with lace and flowed to chapel length. The bride carried a bouquet of

daisies and baby's breath accented with yellow ribbons.

Miss Teresa Hansel, cousin of the bride, served as maid of honor. She wore a floor length gown of yellow crepe and carried a bouquet of miniature daisies. Mr. Randy Barnett, brother of the groom, served as best man. The guest were ushered to their seats by James Wheat. Miss Stephanie Mabry, niece of the bride, was flower girl. She wore a yellow dotted swiss gown and carried a basket of yellow rose petals. Miss Sherry Hansel, cousin of the bride, presided at the guest register.

A reception was held at the home of the bride's mother, Mrs. Dianne Childress of Louisville, Mrs. Pat Childress of Mt. Vernon, and Mrs. Myrna Childress of Brodhead, sisters-in-law of the bride, served at the reception. Rice bags were distributed by Sharon and Brenda Hayes.

The bride's mother wore a

street length dress of peach polyester. The groom's mother also wore a street length of light peach polyester. Both wore corsages of white carnations.

After a wedding trip. The couple are residing in Mt. Vernon.

### WOMAN'S CLUB HOLD MEETING

The Mt. Vernon Woman's Club held its first meeting of the year, Tuesday, September 25, in the community room of the Bank of Mt. Vernon. Thirty members and one guest were present.

The meeting was called to order by the president, Mrs. Charles Riddle, and Mrs. Leila Stokes gave a very inspiring devotional.

The business session was devoted to a discussion of plans for the coming club year.

After the business meeting, the hostesses, Mrs. Gertrude Hilton, Mrs. Louise Owens, Mrs. Mollie Bryant, Mrs. Sue Cromer and Mrs. Mary Lou Ballinger, served delicious refreshments. Everyone enjoyed a social-hour.

### Personals

MT. VERNON SIGNAL THURSDAY, OCTOBER 8, 1979 P-7  
NATIONAL 4-H WEEK

Some 1200 4-H'ers in Rockcastle County are among 5.2 million youth in the nation who will observe National 4-H Week October 7-13.

Activities are being built around the theme "Expanding Horizons," according to Tom Mills, Extension agent for 4-H in Rockcastle County.

Tom said, "The theme challenges our 4-H'ers to seek new knowledge, acquire life skills and build on personal strengths." The agent added that during the national observance, members are called on to strengthen their citizenship and

leadership abilities and to assume positive roles in society.

Boys and girls, 9-19, participate in 4-H through organized clubs, special interest groups, short-term projects, camping, television series and programs planned to meet specific needs in their communities. Members live in cities and suburbs as well as in the country.

Some special projects and programs planned in Rockcastle County in observance of National 4-H Week include the County Poster Contest and the annual 4-H Recognition Banquet where outstanding 4-H'ers and leaders are honored.

**Propane is better.**  
Propane is gas...  
the efficient energy.

Propane heats over two homes with the same original energy it takes to heat one home electrically. Propane dries over three loads of clothes in one. Cooks two meals to one. Heats nearly 2 1/2 gallons of water to one.

And the new gas appliances conserve so much energy, you can save enough to do all these jobs for up to two extra months each year. So, don't waste energy! Don't waste money! Use...

**Propane**

Better energy. A better future.  
Efficient. Abundant. Economical.

## HOME BECOMES REALITY AT HOSPITAL

Mrs. David Turner has a vivid memory of the first time her daughter, Michelle, stood up and walked.

It was three days before Christmas and Michelle was 3 years old when she took eight steps across the kitchen floor.

"She said it was hurting her knees (to crawl) so I told her to get up and walk," Mrs. Turner remembers. "It surprised her as much as it did me."

Those eight steps were a milestone for the little girl who had been born with spina bifida (an opening in the spine). This birth defect strikes one-half of 1 percent of all children.

The Turners believed Michelle could walk. They had gotten their hope at the Lexington, Ky., unit of the Shriners Hospital for Crippled Children.

Michelle, now 9 years old and a fourth grader at New Hope School in Columbus, Mississippi, is one of the thousands of children helped at a Shriner's hospital.

The help given Michelle by the Shriners led to her father's becoming a member of the fraternal organization. Although Jr. and Mr. and Mrs. Charlie Pingleton, Mr. and Mrs. Tim Pingleton, Ricky and Michael, spent the weekend in Gatlinburg, Tennessee and attended the old car show.

Mr. and Mrs. Darrell Stewart and Judy visited Mr. and Mrs. Lloyd Stewart at Orlando over the weekend.

Little Miss Judy Stewart is on the sick list this week.

Turner had been a Mason, a necessary step in becoming a member of the Shrine, he did not join the group until the family's move to Columbus two years ago.

Turner says he never could pass a Shriner fund-raising project without giving a donation.

So, after the move to Columbus he found himself talking to a Shriner and made a donation. "He said thanks, but I said I owe you more than that."

Michelle has had eight operations and all but the first one were performed at the Lexington unit. Most of the big operations on her spine, hip and knees are finished, Turner says. However, she will probably need some operations on her feet to reconstruct the muscles as she grows.

Before learning of the Shriner's Hospital, Mrs. Turner said they had consulted several specialists who said Michelle would never walk. One neurosurgeon even said that all that could be done had been done for the then eight-year-old girl who couldn't hold her head up, she said.

But, then Mrs. Turner's mother, Mrs. John Kincer, asked a Shriner, Mr. Frank Richards, both formerly of Mt. Vernon, if anything could be done. Mr. Richards told us to bring her into the Shrine Hospital in Lexington.

At the hospital, "they told us if there was nothing they can do to help they wouldn't take her," Michelle's father said.

However, despair turned into hope. "They took her not with a promise but with the hope of the best they could do."

At Shriners the doctors who are "the crew" of their field "always believed she could walk," Turner said. "I asked if there was any hope, he (the doctor) said there was always "hope."

And for a parent whose child is sick or crippled, "if somebody holds up a little bit of hope, you're going to grab hold of it," Turner said.

Each of the 19 orthopedic units and three burn units for the Shriners hospitals offer all their treatment and care without any cost to the patient's family.

The Turners estimate that the initial operations to treat Michelle would have cost \$18,000 through private physicians.

Michelle's file remains open at the Lexington hospital. If the time comes for another checkup or operation, the Turners will receive a letter informing them that Dr. Dick needs to see Michelle. The Turners don't even know the doctors' last names since they all go by their first names to the children.

And the hospital isn't too bad a place, according to Michelle. It's got lots of "ice cream and popicles."

Today, Michelle is a little girl with a pretty smile who leads a normal life-something the Turners are very grateful for.

Michelle is the great niece of Mrs. Leila Stokes, Mrs. Emma Thompson and Mrs. Amanda Maggard, all of Mt. Vernon, and the great granddaughter of Mrs. John Kincer of Brodhead.

## Is God A Woman?

We have spoken out about the Woman's Liberation movement could affect religion; now we have a case in point. Here is a UP release out of Cincinnati, Ohio, under the heading, "Disciples Won't Rule Out That God is a Woman."

"Leaders of the 1.2 million member Christian Church Disciples of Christ are not ruling out the possibility that God is a woman.

"The church's 200 member general board Tuesday recommended disapproval of a proposed resolution that the church mandate use of male language (the Father, His, He and Him) in reference to God.

The board's disapproval recommendations goes to the church's general assembly which will vote on the issue at its October 26-31 meeting in St. Louis.

The proposed resolution to mandate male language for God was submitted by a Bristol, Virginia congregation.

Any church that "speaks where the Bible speaks" knows that God is not a woman. Jesus spoke about His FATHER'S business (Lk. 2:49). In the model prayer given to the disciples, Jesus taught them to pray, "Our FATHER which art in heaven..." (Matt. 6:9).

I do not know what the outcome of the vote by the general assembly in October will be. However, this proposed resolution indicates that the Disciples of Christ (Christian Church) is continuing its march deeper and deeper into apostasy. As the news release show, they actually questioned whether God is our FATHER or our MOTHER! The general board has listened to what the Word of God says instead of the voice of radicals among them. "If any man speak, let him speak as the oracles of God..." (1 Peter 4:11).

Funeral services were held Friday, September 28, 1979 at the Cox Funeral Home Chapel by Bro. Jasper Carpenter. Burial was in the Bates Cemetery.

### Report from Rockcastle Market

The Rockcastle Market, which was located on US 23

across from Burger Queen, has closed for the season. A total of 17 growers participated in selling their produce.

Twelve volunteer workers donated their time to sell the produce, expenses exceeded the income, but this was expected from the beginning. For the first season we consider the effort worthwhile. Now that the initial work has been done there is an opportunity for someone with interest and time to continue the project. If anyone is interested in the market for next year, please contact Bob Fields at 256-2336.

Sharing fresh and garden produce with others through the market is an excellent way to benefit the community.

### County Agent's Notes

By H. Lee Durham  
County Extension Agent  
For Agriculture

**Pressure Acid Or Cyanide Poisoning**  
With frost on the pumpkin, there is a possibility of prussic acid poisoning. A build-up of prussic acid occurs in certain plants which have recently been stressed such as drought or damaging frost. Some of the more common plants causing a problem are Johnson grass, sorghum, sorghum hybrids, Sudan grass, choke cherry and black cherry. The prussic acid (or hydrocyanide acid) is not found in appreciable quantities in healthy growing plants. The acid develops only when the normal growth of plants has been retarded or stopped by drought, bruising, trampling, wilting or frost. Immediately after a frost, it may be dangerous for cattle to eat or for making hay.

The toxicity develops very rapidly in cattle, usually within one or two hours. Animals may be affected within 10-15 minutes after consuming the toxic material.

#### Cautions May Prevent Problems:

1. Don't graze or make hay from these plants immediately after frost. Wait 7-10 days after a good killing frost to graze or harvest.

2. Suspect material may be checked at the Diagnostic Lab.
3. Call a veterinarian immediately and tell him what the problem may be. An antidote given quickly could save some cows.

This is not a major problem in Kentucky but occasionally we have a case because someone doesn't understand the problem or a mistake is made.

**Grazing Alfalfa and Clover**  
Growth of these fields that has accumulated since the last cutting should be grazed after the first hard freeze or early November if a hard freeze hasn't occurred by this time.

This accumulated growth can be harvested as hay, glaze or grazed. If the growth is short, it will likely be hard to rake clean. In addition, it is often quite difficult to cure hay during this time of the year. If the fields are fenced, grazing will likely be more practical. Cattle should not be allowed to graze during wet conditions since trampling can be detrimental to the plants. A system of strip-grazing or otherwise restricting animals to small areas will give best utilization and least waste of the feed. These fields should not be grazed or cut lower than 2 to 3 inches.

Research at the University of Kentucky has shown that quality of these accumulated legume fields is still quite high after frost, but should be utilized within a 2 or 3 week period before plants begin to loose their leaves.

Little Nikola Nealey celebrated his first birthday Friday, Jun 15, with a party at his home, with many friends and relatives attending. Many nice gifts were received. Parent are Mr. and Mrs. Tim Nealey of Cincinnati, Ohio. Grandparents are Mr. and Mrs. John Howard and Mr. and Mrs. Robert Nealey, also of Cincinnati. Mrs. Nealey is the former Debbie Howard.

### "PERSONALS" (Cont'd from P-5)

Christian Church was held September 28. There were 25 men and women there for prayer and lunch. Mrs. Ruth McFerron, president, called the meeting to order. For devotion, Mrs. McFerron read a beautiful poem on "God Our Creator" and said that everyone who would like to tell a recent spiritual blessing, they had had, she would like for them to share it, in which many responded. Everyone spoke of the blessing that Bro. and Mrs. Ernie Johnson and children have been to them and their families, and were thankful to God for sending them to us.

Mr. and Mrs. Bill W. Dowell and children returned Sunday from Tompkinsville, where they attended the funeral of Mrs. Dowell's father, Mr. Spencer Carter. Mrs. Dowell (Sandy) was with her father during his illness and death. Sandy, Bill and girls have our deepest sympathy during their hours of grief.

Mrs. Jewell Brown and Mr. and Mrs. Jack DeBorde returned home Monday from a visit with Mrs. Cartelle Shelley in Cincinnati, Ohio and Mrs. Verne Scott in Mason, Ohio, and Willie Hurst in Ohio.

Lois Hughes of Hixson, Tennessee visited her mother, Mrs. Zelma Bullock recently.

Pretty little Bonnie Ann was born to Mr. and Mrs. Bill Frank Stewart Wednesday morning, September 26, at Patti A. Clay Hospital in Richmond, weighing 8 lbs. and 7/4 ozs. This fine baby girl is the first child of Bill Frank and Ginger.

Her grandparents are Mr. and Mrs. Wayne Stewart, of Mt. Vernon, and James Earl Baker of Middleboro. Her great grandparents are Mr. and Mrs. W. S. Stewart of Wildie, Mrs. V. H. Harmon and Mr. and Mrs. E. H. Baker, all of Mt. Vernon.

Mr. and Mrs. Ben Isaac of McKee visited her sister, Mrs. Dorothy French and Mrs. Coy Jordan and Mr. Jordan Sunday and attended church services with Mrs. French at the Northside Baptist Church.

From Sunday's Bulletin of the First Christian Church, Revival services are in progress at the Brohead Christian Church. Rev. Flynn of the Brohead Baptist Church is holding a Revival this week at the Brindle Ridge Baptist Church where

Rev. Arnold Pingleton is pastor.

Mrs. Nanie Hansel, formerly of Mt. Vernon, now resides at Heritage House, Heritage Dr., Room 48 W., Martinsville, Indiana, 46151. She would love to hear from her friends "ere."

### Unemployment Rate Rises Again

Statistics released by the Department for Human Resources today indicate the state's unemployment rate remained unchanged from July to August, while the number of unemployed persons increased.

The unemployment rate for July and August was 5.6 percent. Unemployed Kentuckians numbered 89,000 in August, up 1,400 from the 87,600 out of work the month before. Robert MacDonald, chief labor market analyst for the department's Bureau for Manpower Services, explained that the rate remained the same despite the increase in the number of jobless people because the number of working people also increased.

"Through additional job opportunities in August, the civilian labor force increased by 25,600 over the number of people working in July," he said.

The primary cause of the increase in unemployment was lay-offs in manufacturing, trade and mining, said MacDonald. Of these unemployed, 67.7 percent were lay-off status waiting for their original jobs to re-open.

"The remaining 32.3 percent out of work included persons trying to enter or re-enter the labor force," he said. "Many of them were youths entering the labor force for the first time."

The total number of Kentuckians working in August was 1,494,700, approximately 13,500 fewer people working than in August 1978.

The national unemployment rate for August was 5.9 percent.

## Fishing Report

Weekend fishing pressure was light and results were generally fair at Kentucky's 15 largest lakes. The lake-by-lake rundown, as reported by fish and wildlife conservation officers:

**Kentucky:** black bass slow to fair over stump beds and off rocky points; crappie slow over drop offs (20-22 feet deep); in tailwaters, catfish and sauger slow to fair; clear to murky to muddy, falling slowly, one foot below pool and 73 degrees.

**Barkley:** crappie slow to fair over drop offs (10-15 feet

deep) in tailwaters, catfish fair; murky to muddy, falling slowly, one foot below pool and 74 degrees.

## Jobs for Women

Anna Southard was a wife and mother for 22 years of her 34 years. When her marriage broke up she was left with the responsibility of supporting herself and two children.

"I signed up for the WIN (Work Incentive Program) to try and find a job," she said. Her WIN supervisor suggested a job with good pay, fringe benefits and a chance for advancement. After seven weeks of on-the-job training, Mrs. Southard became one of 15 women driving buses for the Transit Authority of River City (TARC), Louisville's mass transit line.

She got her first driver's license in January 1978 and began her new career with TARC the following June. "I really enjoy the job—there's never a dull moment," Mrs. Southard said. "The public tells me the women are the better bus drivers," she added.

Mrs. Southard has had only one other job in her life, working as a sales clerk in women's clothing store. That was when she was married. She said her present salary more than triples what she used to make. "If it had not been for the WIN program," she said, "I would not have this job."

Mrs. Southard and three other women who received job training through government programs addressed the quarterly meeting of the Southeastern Regional Advisory Committee for Improved Services to Women. The meeting was held Wednesday by the Kentucky Department for Human Resources.

Mary Jo Rodgers, of the department's Bureau for Manpower Services and one of Kentucky's two representatives on the committee, said the purpose of the committee is to examine government employment and training services for women. The goal, she said, is to find more non-subsidized jobs for women.

Deana Locke dropped out of high school in Louisville during the height of the busing controversy. "I didn't want to drop out of school," she told the committee. "It was a big adjustment to be bused, and I guess I just couldn't adjust."

At the suggestion of a counselor, she enrolled at the Breckinridge Job Corps Center in Morganfield (Union County), the largest Job Corps facility in the United States. She completed her term in nine months—it normally takes two years.

"I got away from home, set my goals, got my GED, my driver's license and learned some skills," she said.

### "GRANT"

[Cont'd from front] The regular monthly meeting of District #7 will be held at Holiday Inn in Danville, Thursday, October 11, 1979. Darren W. Peckler, District Judge, 50th Judicial District, will be guest speaker. "Juvenile Justice System" will be the topic of the program.

The ARC grant will be administered by the Kentucky Development Cabinet.

**FISCAL COURT**

of interest. Two employees were hired: Luster Bullock as a grader operator at \$4.35 per hour and Lawrence Durham as a truck driver at \$3.35 per hour.

The Court also agreed to move their November meeting to Wednesday, November 7th instead of Tuesday the 6th because of the General Election.

Ms. Locke is employed in a CETA position as a clerk typist with Louisville Metro Parks and Recreation. She received the job one month after leaving Breckinridge. Her long-range plans include returning to school to train for an executive secretary position.

Nora Banta is a technical representative for Xerox. She repairs machines. She got the idea of being a technician from the creative employment program within the Bureau for Manpower Services. The program specializes in placing women in non-traditional jobs. Ms. Banta received training from a local vocational education program and was able to pass the company's required test.

Ms. Banta was one of the first women in the state to enter vocational school in a non-traditional field. "When I first enrolled, they didn't even have a bathroom for women," she recalled.

In her present position, she makes enough money to support herself and two children. Is given use of a company car, full employee benefits and profit sharing.

"Best of all," Ms. Banta told the committee, "I've got a future, and I really like my job." She said that the employment program helped her realize the non-traditional job options open to women.

Carol Brown has worked as a plumber's helper with the Louisville Water Company. The 28-year-old Louisville woman hopes to one day be the first woman supervisor at the water company. Her job involves repairing water lines in the system and often climbing in and out of the manholes.

Ms. Brown received CETA training in order to examine government employment and training services for women. Her first job was with General Electric as a laborer cleaning machinery. This gave her an interest in working with large machines, she said. She left the job for the higher paying position she now holds.

Ms. Brown is one of few women working at the water company in a heavy labor capacity. "The men tell me that women should be at home," she said. "I tell them that I'd go home if they'd bring me their paychecks. But they're not going to bring me their checks, so I stay."

She said other women often joke about her job with her. "But nobody laughs when they see my paycheck," she said.

### Nurses Meeting

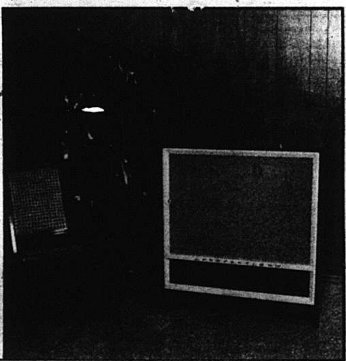

District #9 is composed of Registered Nurses from Garrard, Lincoln, Rockcastle, Boyle, Mercer, Washington, Marion, Casey and Anderson counties and all Registered Nurses from these counties are invited to attend the Continuing Education Meeting.

Dinner will be served at 6:30 p.m., Holiday Inn, Danville, By-Pass, Danville. The program will begin at 7:30 p.m. Reservations for dinner may be made by calling Betty-Roller at 606-236-4121, ext. 350 before noon Tuesday, October 9.

Our Brentwood space heater has more than a pretty face.

Air-mover evens out the temperature. Warm air goes up, so Brentwood has a built-in fan-type air mover, which delivers heat evenly throughout the area. You don't settle for a comfy ceiling and cold feet.

More heat, less soot. Brentwood has a pressure-type burner with a flame retention head. This burns fuel more completely which means you get more heat out of every drop. More complete combustion also means you have less soot.

Brentwood has a self-lighting burner. The burner is lit automatically when the room temperature drops below that on the thermostat. There is no continuous low flame to waste fuel or require re-lighting. The burner operates only when heat is needed. It's safer and less work for you.

So much insulation you can set things on top. Brentwood can be used as a piece of furniture. The entire cabinet is well insulated with fiberglass which means low surface temperatures. —So use it as a show place for knick-knacks or plants.
