Rockcastle County Hospital and
Rockcastle County Hospital,
Skilled Nursing Facility
Nondiscrimination Policies

1. Admission To Hospital:

a. All patients are admitted to this facility for inpatient, outpatient and emergency care without discrimination and inquiries are to be made regarding race, color or national origin prior to admission. Staff physicians will insure that they do not consider race, color or national origin as a factor in selection of this facility for their patients. Where there is significant variation between the racial composition of the patient census and available population census data for this service area or potential service

area, this facility will determine the reason for such variation and take whatever action may be necessary to correct any discrimination.

b. Hospital and SNF policies regarding deposits, extension of credit and other financial matters will be applied uniformly and without regard to race, color, or national origin.

c. Information regarding the price and availability of accommodations will be uniformly made available to all without regard to race, color or national origin.

2. Records: Records will be maintained uniformly without discrimination for all patients. Identification by race, color, or national origin on records is not considered to be discriminatory and will not be used to demonstrate compliance with the Civil Rights Act of 1964.

3. Services and Physical Facilities Provided by the Hospital: a. All therapeutic, diagnostic, preventive, nursing and personal care services will be provided without discrimination. All clinics, emergency and outpatient services will be available without discrimination as to quality of care and as to days or hours, and all patients will be treated in turn, or in accordance with the urgency of their medical needs. Patients in these services who require inpatient care will be assigned or referred to such care on a nondiscriminatory basis.

c. Paramedical care, ancillary services such as pharmacy, social services, ambulance services, dietary and laundry services and facilities such as waiting rooms, lounges, entrances and exits, dining rooms, snack bars and gift shops are provided and will be used without discrimination.

d. Rules of courtesy will be uniformly applied without regard to race, color, or national origin in all situations including face-to-face contact, written records and communications.

4. Room Assignment and

8 Referrals:

Transfers:
a. Patients will be assigned to rooms, sections and other areas without regard to race, color, or national origin. Such assignment will result in a degree of multi-racial occupancy of multi-bed accommodations which reflects the proportion of minority use of this facility.
b. Patients are not to be asked whether they are willing to share accommodations with persons of a different race, color or national origin. Requests from patients for transfer to other rooms in the same class of accommodations are not to be honored if based on racial, or ethnic considerations. Exceptions may be made only if the attending physician or facility administrator certifies in writing that in his judgement there are valid medical reasons or special compelling circumstances in the individual case. However, such certifications may not be used to permit segregation as a routine practice in this facility.

5. Staff Privileges: Staff privileges (full, consult, consulting, etc.) in all areas and specialties are to be granted, maintained, upgraded and withdrawn in a nondiscriminatory manner, and standards for professional qualification are to be applied uniformly without regard to race, color or national origin.

6. Training: A all aspects of all training programs those operated by this facility, those of other institutions for which the facility provides clinical facilities, and others in which this facility participates are to be conducted without discrimination.

7. Notification of Availability of Service and Nondiscrimination Policy: Staff employees and patients are to be provided with copies of this written statement which sets forth this facility's nondiscrimination policies and practices. NEWS OF HEALTH

Answers about Health and Medicines from the Proprietary Association.
Q. Why do we need some 350,000 nonprescription medicines that are only about 1,000 ingredients?

A. The answer is free enterprise and cost-effective medicine. A totally controlled system would not debate lesser the consumer's burden of decision among brands... it would at the same time lessen their freedom of choice. It would increase the burden of cost that goes with less competition. Low cost has been one of the most enduring advantages of the American system of nonprescription medicines through the years.

THE BIBLE SPEAKS
By Austin Mobley, Minister
Providence Church of Christ

The Publican and the Pharisee

Luke 18:10-14

The example of the publican's prayer is sometimes used to show that an alien sinner should pray for salvation. We need to understand that both the publican and the Pharisee were Jews (Gentiles were not permitted to enter the temple). Both were diving before Christ died, thus amenable to the Law of Moses. Both were children of God by virtue of having been born into the Jewish family. Both had gone to the place of worship and both were praying. Rather than teaching that those outside God's family should pray for salvation, the Lord arraigned the publican's attitude of humility against the self-exaltation of the Pharisee, teaching a lesson in humility. He said, "Everyone that exalts himself shall be abased, and he that humbly himself shall be exalted" (Luke 18:14). Like the publican, all need God's mercy, for all of us sin.

spiritual blessings offered through Christ. (Eph. 1:3).

It has always seemed rather strange to me that those who go back to the Law of Moses to establish a plan of salvation for those of us living in this era never use the example of the rich young ruler. They use the example of the publican's prayer, the thief on the cross, and others, but NEVER the rich young ruler. He asked Jesus, "What shall I do to inherit eternal life?" Jesus first told him to "Keep the commandments". Then, when the querist assured him he had kept them "from my youth up," and asked, "What lack I yet?" Jesus said, "Go thy way, sell whatsoever thou hast, and give to the poor, and thou shalt have treasure in heaven; and come, take up the cross, and follow me." (Matthew 19:16-22; Mark 10:17-22)

The publican, the thief on the cross and the rich young ruler all lived prior to the death of Christ, under their very same law, and yet I have never heard anyone in this era apply what Jesus told the rich young ruler to do to be saved. Why? I wonder if the "sell whatsoever thou hast, and give to the poor" phrase has anything to do with the Law of Moses? I prefer to think that people understand that he lived under a different law than do we, but if that's so, why can they not understand that the others lived under the same law? Incidentally, the rich young ruler was the only one of the three who asked what to do to be saved!

Does God hear to the extent of answering prayers of alien sinners: those who have never been in His family? When the Jews questioned the blind man who Jesus had healed, they insisted that Jesus was a sinner. To this absurd accusation, the blind man said, "Now we know that God hearest not sinners, but if any man be a worshipper of him, and doeth his will, him he heareth" (John 9:31-33).

How could a child of the devil call God "Father"? He is certainly not the Father of the devil's children. Only those who are "in Christ" are in the family of God (Eph. 3:14-15). How does one get into Christ? Gal. 3:26-27: "Ye are all the children of God by faith in Christ Jesus, for as many as ye have been baptized into Christ did receive the Spirit of God, and are heirs: believed, and obeyed the gospel, he is the Son of God." The privilege of calling upon God as "Father" and he has all

What is nursing? It has been defined by the majority of leaders in nursing as the art and science of caring for the total person in various stages of health and illness. If you are a person who cares about people and you want to help them, then nursing is for you. Inquire at your nearest college or university about their program in nursing.

Somerset Community College has a two-year Associate Degree Nursing Program which is approved by the Kentucky State Board of Nursing. This program prepares the nursing student to take the examination to become a registered nurse. In 1979 the Somerset Nursing Program ranked 7th in the State of

Kentucky with a State board Exam passing rate of 93.7 percent. The nursing program at Somerset has a strong curriculum and a highly qualified faculty. Somerset Community College is presently taking applications for the Nursing Program for the Fall of 1980. If you are interested in nursing as a career, please contact Ms. Ginnie McNeil, Associate Degree Nursing Program, Somerset Community College, Somerset, Ky. 42501, or call (606) 678-8174 for further information.

"communicating With Your Marriage Partner"

By Larry Keaton

breast pounds a sensitive heart that desires encouragement and approval, not blame and manipulation.

3) Reasoning-On the surface, this may appear to be a positive form of marital communication. It may work in the laboratory under controlled scientific circumstances but within the context of the most meaningful of human relationships, the analytical, emotionless, intellectual approach to marital dialogue will not maintain a meaningful relationship. Although there are times when a cool head is needed in a decision-making situation, the best form of dialogue between husband and wife needs to be based on warm interaction.

4) Sharing-This form of communication puts a man and woman on an equal level as they were enacted to be. No one attacks; no one defends. They both share what they are feeling in openness without blaming or cold analysis. The needs of both are met; no one loses. Husband and wife both come out winners. If you, and your partner are experiencing this fourth style of communication on a steady basis (not all the time for we all fall into one of our three styles now and then), you are to be congratulated. If not, why not give it a try. It can only enhance your marriage.

The Family Life Center facilities are open to the public. We invite you to use our family game room and library, indoor/outdoor recreation facilities, emergency shelter and picnic areas. Twenty-four hour counseling services are available. For more information call (606) 256-5312 or write to Director, Family Life Center of Appalachia Renfro Valley, Ky. 40473.

Numerous studies and polls have been taken throughout the years concerning the inner-workings of the marriage relationship. A few of these studies have centered on what couples feel is most meaningful in their relationship. Without exception every couple states that marital communication is by far the most important and meaningful aspect in their relationship. Without exception that although other elements in their marriage are important, they are very dependent upon a solid base of communication to support the other positive qualities of their marriage.

With this in mind I would like to share with you four styles of marital communication which we can see from time to time in our marriages; the fourth being the ideal after which we need to strive. They are as follows:

1) Information Giving-There is not much emotion in this pattern of communication. This couple finds themselves on a treadmill, going through a daily routine without taking the time to really get to know each other. Dialogue centering on information-giving without much heart-beat because of the extent of the communication that goes on.

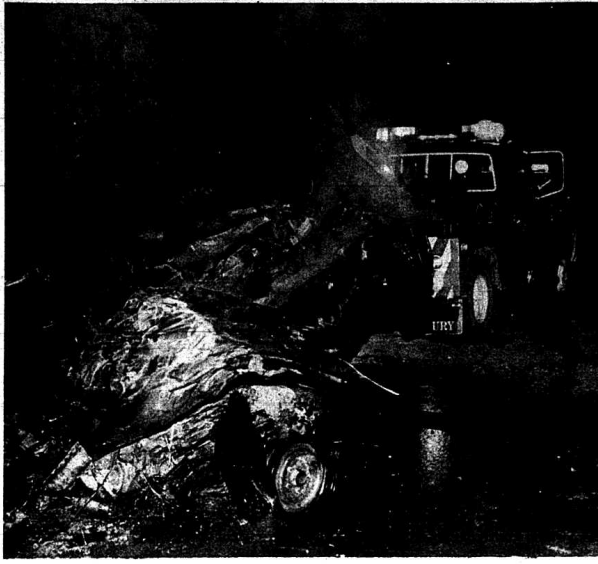

2) Put Downs-This is a style of communication in which a hurting and/or manipulating. Put downs may be done in jest but nevertheless betray hidden motives of attack that hurt and further damages the communication process. It is an acceptable style of behavior in our society today with nation-wide approval seen through the entertainment media, particularly TV. Because of this we are given the impression that put downs are okay. They are not. It may appear stylish, even entertaining, but deep within the human

The car exploded upon impact. Also in the car was another son who has been released from the hospital.

Fiery Automobile Crash Takes Lives of Michigan Couple

Mrs. Edith Harrison, 42 and her husband, Wendell, 47, were both killed early Sunday morning when their car left Interstate 75, hit an embankment under the bridge on the Lake Linville Road and exploded. The couple's two sons, Eric, 12 and Lee, 17 were both injured in the crash and were taken to Norton's Children's Hospital in Louisville.

According to State Police-man Greg Ennis, Mrs. Harrison was apparently driving the southbound car when she lost control of it. Ennis said the car skidded 189 feet on the black-top, 75 feet down the guardrail and was airborne for 72 feet before striking the embankment.

The family was from Port Huron, Michigan.
The Mt. Vernon Fire De-

partment responded to the call and extinguished the blazing car. Mr. Harrison was the only one in the car at the time. Mrs. Harrison was lying near the car and both boys were out of the

car. The younger boy is the most severely injured of the two with the hospital in Louisville listing his condition as critical. Lee, 17, has been released from the hospital.

Rash of Break-Ins Plague Law Officials

Ten break-ins in the county have been reported since last Wednesday night with four of them occurring in the same night and to businesses within a short radius of each other.

B&F Gulf, Exxon Service Center, Mt. Vernon Shell and Hysinger Carpet were all broken into on Wednesday night sometime after midnight, according to Det. Fred Walton who is investigating the robberies. Walton said at the Exxon Station a set of assorted keys of no importance were taken and nothing was taken from the Shell Station, but at B&F Gulf, a total of \$174, all in change, was taken. Entry to the three stations was gained through a bottom window in the bay area of the stations.

At Hysinger Carpets, entry was gained by using a small board to knock a pane of glass out of the front door which was then unlocked. About one dollar in pennies was taken.

On Saturday night, Sheriff Henry Lee Abney was called to the Pine Hill Holliness Church where two batteries and two radios had been stolen from 4 vehicles about 9 p.m. while church services were going on.

Sunday afternoon, between noon and 3 p.m., the residence of Louise Tyree was entered through a window but nothing was reported stolen.

Sunday night, the residence of Mr. and Mrs. James Cox in Mt. Vernon was entered by breaking a glass pane and unlocking a door into the workshop area of their basement. In this break-in, two chain saws, a

16" bar Remington and a 12" bar Stihl, were taken sometime between 8 and 9:30 p.m.

Mr. Vernon Dairy Freeze on Richmond Street was also broken into on Sunday night for the second time within a short period. Entry to the dairy freeze was gained through a back window. Mrs. Dollie Pillion, owner, said that a total of about \$300 in food and cigarettes were taken in the two thefts.

Early Monday morning.

Tommy Burdette

Charged With Arson

Tommy Burdette, 43, of Route 3, Mt. Vernon has been charged with arson in connection with the fire late last Thursday night which destroyed the home of Mr. and Mrs. Howard Gadd on the Clear Creek Road near Wildie.

Burdette was arrested on a complaint taken by Mrs. Eva Gadd by Sheriff Henry Lee Abney and Deputy Sheriff Robert Abney Friday evening. He is lodged in the Rockcastle Jail on \$1,000 bond.

Mr. and Mrs. Gadd and their small daughter were not at home at the time the frame house, which belonged to Ida Alexander of California, burned.

According to Bud Cox, the home was completely engulfed in flames when the Mt. Vernon Fire Department arrived on the scene.

No date has been set for Burdette's preliminary hearing.

Stoptlights; Tow-Away Zones Among Suggestions to Council To Help Main Street Traffic

Stoptlights at three intersections in town, a tow-away zone on two side streets off Main Street, stricter surveillance of the city's parking lot behind Main Street, a meter for patients only in front of the doctors' offices on Main Street and better utilization of police to help keep traffic moving around trucks unloading were five suggestions which the City Council agreed to proceed with at Monday night's call meeting of the Council to discuss a proposed traffic pattern change on Main Street with businessmen.

The meeting drew several businessmen and interested citizens and the discussion was very interesting as everyone had a chance to voice their opinion as to what would speed up traffic flow of Main Street.

At February's regular meeting, Councilman Tom Welch had proposed a new traffic plan which would have done away with parking on the east side of Main entirely and on several side streets and would have provided for diagonal parking on the west side. Mr. Welch's plan called for trucks to be unloaded only on the east side but this drew some objections from businessmen who felt that it would hamper their deliveries of merchandise if trucks could not be unloaded on the same side of the street as their business was located.

Billy Hiatt, acting as spokesman for a group of merchants which had met last Friday afternoon to discuss the proposed change, told the council that while the businessmen appreciated the council's concern, and particularly Mr. Welch's, they did not see the plan would work primarily because of the freight unloading problem and also because it would present a hazard for motorists trying to back out onto Main Street from the diagonal parking on the west side.

Mr. Hiatt presented the council with a number of comments which had been made at the meeting to possibly help alleviate the traffic problem and these comments were also discussed along with several others made by businessmen present.

Out of this discussion came the proposals already mentioned along with a few others. It was decided to ask the Bank of Mt. Vernon to cooperate in getting its customers to use all three drive-in windows to help speed the flow of traffic through the area and that the city try to find more parking area in the vicinity of Main Street. The Council agreed to contact Sam Ford, owner of the vacant lot next to the PCA building to see if this space might be utilized until Mr. Ford has a use for it.

TRAFFIC LIGHTS
The three traffic lights

which will be installed, if the state department of highways approves, are to be located at the intersection of Main and Church Streets; the intersection of West Main and Williams Streets and at the school crossing on Richmond Street.

The need for traffic lights at these locations were suggested to the council by Bill Bailey, a local insurance agent, who said that the Main Street intersection was one of the worst in town for "fender-benders" and with the installation of a light at this location, it would take away the necessity of removing three parking meters so that traffic coming from the side street could more easily see to pull onto Main St. Mr. Bailey also said that at the intersection of West Main and Williams Streets, there were probably fewer accidents but they were of a more serious nature and, of course, a light at the school crossing intersection on Richmond Street would shield children crossing there.

At this point, it is not known whether the highway department will approve the lights and they could be some time in coming because the state will first have to conduct a survey of these locations and then meet with the council to discuss the survey's results.

On March 15th, there will be a county mass convention held at the Rockcastle County Courthouse at 10 a.m.

At this time, all Republicans eligible to vote in this year's Republican primary, should meet to elect Delegates and Alternates to the 5th Congressional District and State Conventions.

Precinct vacancies will also be filled at this meeting.

Francis R. Johnson is New Brodhead Postmaster

Appointment of Francis R. Johnson as Postmaster at Brodhead effective February 23, 1980, has been announced by John P. Doran, Regional Postmaster General for the 13-state Central Region of the U.S. Postal Service. Postmasters are appointed by the Postmaster General, William F. Bolger, and their selections are based upon qualifications and suitability. Postmaster appointments are not subject to Senate confirmation.

Mr. Johnson was first employed by the Postal Service in 1956 as a Substitute Clerk-Carrier in Williamson, West Virginia. He joined the U.S. Air Force in 1957 and served for 10

years; he had previously served with the U.S. Marine Corps for 9 years from 1947-1956. Mr. Johnson has also worked for the N&W Railroad in Ohio and for the State Department of Education in Frankfort. He rejoined the Postal Service in 1973 as a Letter Carrier in the Frankfort, Ky. Post Office and has since received training in various positions of postal management.

A native of Brunswick, Maine, he and his wife, Marie, presently reside in Frankfort, but plan to move to the Brodhead area in the near future. They have one son who is married and lives in Atlanta, Georgia.

Arnold Gadd is shown looking over the home which was occupied by his brother, Howard, and family and which was leveled by fire about 12:30 a.m. last Friday morning. Tommy Burdette has been charged with arson in connection with the fire.

Francis R. Johnson, left, is shown being sworn in as Postmaster of the Brodhead Post Office by an executive with the Postal Department in ceremonies last Friday. Mr. Johnson is from Frankfort and will assume his duties immediately. Also in the photo is Bruce Sargent, who has been acting postmaster at Brodhead. Mr. Sargent will be returning to the Berea Post Office as Supervisor of Postal Operations.

Last week marked the half-way point of the 1980 session of the Kentucky General Assembly.

The Senate voted against ratification of an amendment to the United States Constitution which would grant the District of Columbia full voting representation in the Congress.

Gov. Brown proposed a reform in the structure of Kentucky's personal income tax structure. His proposal would cut or eliminate taxes for about 900,000 low income Kentuckians. But the tax bills for about 200,000 taxpayers in the higher income brackets would increase by about \$45 million to make up for the lost revenue.

Rep. Dexter Wright (R-Louisville) plans to add an amendment to his bill outlawing publicly financed abortions and abortions performed in public hospitals. His amendment would allow for public financing of abortions and abortions in public hospitals if the life of the mother was in danger of being lost if the abortion was not performed.

Senate Bill 125 has been proposed to repeal the ban by the state constitution of lotteries and bingo games. In addition to removing the ban there has been much talk and controversy about starting some lotteries in Kentucky to help raise money for government programs. The lottery would be similar to those run by the states of Ohio, New York and New Jersey. Ohio's lottery says many Kentucky lawmakers were supposed to help raise money to ease the financial crisis of Ohio's local school districts. We can look at the early closing of Cincinnati schools and the teacher strikes in Cleveland to gauge Ohio's success of raising money by the use of the lottery.

Heated debate took place in the House concerning HB 86 which would allow police to make warrantless arrests in the cases of family violence. The bill was introduced by Rep. Gerta Bendi (D-Louisville) because of increased awareness of spouse abuse and child abuse in Kentucky. It has been estimated that at the very least one member in every two out of every five families in Kentucky has been a victim of domestic violence.

Controversy surrounding automobile tests for Jefferson, Boone, Kenton and Campbell counties may make for mandatory auto emissions tests for all of Kentucky's 120 counties. These four counties must have mandatory auto emissions tests by December 31, 1982 or Kentucky stands to lose certain federal funds.

Legislative Report

By Rep. Harold DeMarcus

Kentucky's state legislature is truly the voice of the people. For me to represent the citizens of the 80th legislative district in the best manner possible, I respectfully request you on the following legislation being considered by the 1980 General Assembly.

Would you favor a bill: 1. Establishing greater legislative control over the disposal of hazardous and nuclear waste?

2. Requiring the United States Congress to balance the federal budget?

3. Prohibiting the use of public funds for abortions?

4. Issuing bonds to fund road improvement but also increasing the state debt?

5. Requiring anyone purchasing a handgun to also purchase a \$3.00 permit from the County Clerk and also prohibiting persons under 21 years of age and persons convicted of felonies

from purchasing a handgun? Yes..... No.....

6. Requiring greater legislative review over personal service contracts? Yes..... No.....

7. Increasing the penalties for growing marijuana? Yes..... No.....

8. Establishing a set of regulations bringing Kentucky into compliance with federal stripmine laws. Yes..... No.....

9. Reducing the premiums on Kentucky's workmen's compensation insurance rates? Yes..... No.....

10. Requiring greater legislative control over the capital construction and equipment fund including the purchase of airplanes? Yes..... No.....

11. Reducing state government spending by 10%? Yes..... No.....

12. Permitting the Washington District of Columbia to have representation in the United States Congress? Yes..... No.....

13. Permitting school teachers to professional negotiate with local boards of education? Yes..... No.....

Letters to the Editor

Dear Catajamy Jane:

Where in the world were you last week? I tore the Signal all to pieces looking for you. I can hardly wait for the mail on Friday. You are the first thing I look for. Please keep up the good work. Sincerely,

Jewel Spivey

Editor:

The Veterans of Foreign Wars Department of Kentucky, an organization of more than 22,500 men and women who served their country overseas enthusiastically, endorses House Bill 74 filed by Reps. Hoover Dawahare and Forest Aggie Sale on the first day of the 1980 Kentucky General Assembly. House Bill 74 relates to the payments of bonuses to certain veterans, who served during the Vietnam Conflict and certain persons deriving from them.

House Bill 74 is identical to a previous bonus paid by the Commonwealth of Kentucky in 1961-1962 to veterans and/or their survivors of the Spanish American War, World War I, World War II and the Korean Conflict. The bonus was in appreciation and recognition of veterans who so gallantly fought the Vietnam Conflict and certain persons deriving from them.

The Vietnam veterans fought the longest and the most unpopular bullet war and sustained more combat casualties than in any other previous war in the history of the United States of America. Also these veterans are still sustaining casualties known as "The Vietnam Syndrome." These men chosen, either by voluntary enlistment, or accepted their draft calls for military service, otherwise, there would not be a Viet-

nam veteran. Some were in combat, some were not, some sustained horrible wounds, some suffered mental and physical damage as prisoners of war, and some paid the supreme sacrifice. But the fact remains, these veterans accepted the call for military service and defended the United States of America in a time of great deadly conflict. These men, did not, repeat, did not, bug out to Canada or some other haven for draft dodgers.

Today the United States of America is faced with a serious threat of global warfare knocking at our door. Should this serious threat develop the United States of America—to meet military manpower requirements would through necessity initiate the draft for our young sons, which may include our daughters, call on reservist, the national guard and the Vietnam veterans who have already survived one horrible experience, to defend our shores once again.

This recall would be a repeat of history. During World War I, our country called on the Spanish American Veterans, during World War II, World War I, veterans were called upon during the Korean Conflict, World War II veterans were called upon and during Vietnam, the Korean veterans were called upon.

We, the Veterans of Foreign Wars Department of Kentucky, feel it appreciation and recognition is not afforded the Vietnam veteran, how can we ask our young men and women, at this time to come to our rescue, when we so shamefully neglect those who so gallantly fought and died in our last war.

Now, some six years after the United States of America ceased combat operations in Vietnam, the time has arrived for the same appreciation and recognition shown by the Commonwealth of Kentucky to proud Kentucky veterans, be shown to the Vietnam veterans, as a matter of principal.

Respectfully,
Joe Bletz, Commander
Veterans of Foreign Wars
Of the United States

Community Choir To Practice

There will be a meeting of the Rockcastle County Community Choir Thursday night, February 28th, at the Wildie Christian Church at 7 p.m.

It's not too late to join the choir who are now practicing for a Spring Concert, the date of which will be announced later.

Urgently needed are: sopranos, tenors and basses.

GOOD COSTS

The recommended temperature for a freezer is zero degrees. For a refrigerator it is between 38 and 40 degrees. If you go away for a few days, raise the refrigerator setting slightly.

The usual amount of cold air will not be lost while you're away and it will save money in cutting down the time the refrigerator is running.

An Interesting Visit

By Rick Anderkin

Last Friday afternoon, I had the privilege of interviewing the head coach of the ninth-ranked high school team in the nation - Coach Harley "Skeeter" Swift.

Coach Swift and his team were staying at the Best Western Motel at Burr from where they traveled to Jackson County for a game Friday night, Jackson County, who is in our district, will host the 49th District Tournament this year, lost to Swift's Golden Warriors by a score of 111 to 71.

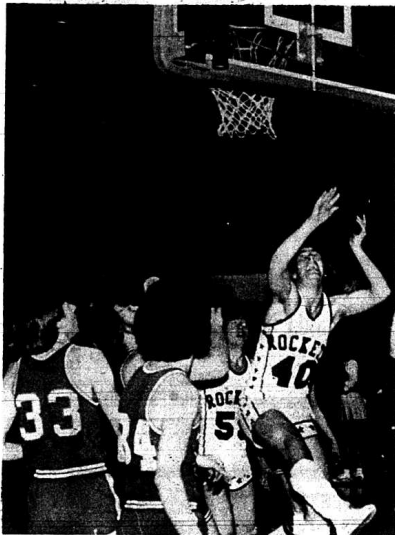

This season, the Warriors have a 35-0 record, winning 26 games on the road and 9 at home. "Home" is the Oak Hill Academy in Wilson, Virginia, a small farming community of about 200. The school is supported primarily by the Southern Baptist Convention. This year, Coach Swift said, there are 14 states and 4 countries represented in the student body of 160 students. During our conversation, Coach Swift emphasized that basketball is not the first priority at the school but second behind the student's education and their ability to grow and live in the world today. Swift also said that Oak Hill does not recruit players, they merely work with the young men who are enrolled in the school.

Coach Swift is a very interesting person in his own right. He was an All-American at East Tennessee University and OVC player of the year his senior year. When he graduated in 1969, he was drafted second by the New Orleans Bucs of the old ABA and third by the Milwaukee Bucs of the NBA. He then played 6 years of pro ball before bowing to a knee injury and has coached in small colleges. But he says he is very happy with his present position.

After Friday night's game, the Warriors have one more regular season game which

Matt Poynter, No. 40, puts a rebound back up in earlier action this season against Jackson Co. The Rocket girls and boys will travel to Jackson County March 6th to play Ocala in the 48th District Tournament.

Boy's Lose To Lincoln

The RCHS boys team lost to a fine Lincoln Co. team last Friday night by a score of 79-53. The Rockets played well the first half staying close to the Patriots.

Lincoln County, who has one of the best records in the state this season, played a fine ball game to say the least even with a few of their starters out for the game.

In the final quarter, when

the outcome was inevitable, Coach Bill Riddle cleared his bench to let some of his younger players get some experience.

The Rockets were led in scoring by David Riddle with 11; Trent Mullins and David Burdine got 8 each; Clinton Graves and Marty Hensley each scored 6 points and Matt Poynter, Willie Hiatt, Ricky Hickey, Steve Phelps, Danny Offutt,

Girl's Lose To Russell, Whitley

GIRLS LOSE TWO...

Last Thursday night, the RCHS Girls Team traveled to Russell County where they came away with a 46-30 loss. The girls were never really in the game as Russell County led the whole way. The Rockets were led in scoring by senior forward Kaye Hammond with 9. Kim Howard had 7, Libby Ruppe got 6, and Sandy Clark and Patricia Faulkner each had 4.

After scoring only 30 points Thursday night the girls hoped their luck would change when they traveled to Whitley County Monday night. However, this wasn't to be as the girls scored only 26 points Monday night and lost by 30, 56-26. The low scoring by the girls was attributed mainly to the strong man to man defense played by Whitley Co. The girls were led in scoring in this game by freshman Debbie Bowman with 8, Hammond got 6, Tracy Mulberry, Faulkner, Ruppe and Sheila Burton all managed 2 for the night, while Howard had 4.

B-Team

The Girls B-Team had about as much luck as the varsity the last two games but they didn't hardly lose by as much. In Thursday night's action, the B-Team lost by a score of 31-28. Three of the B-Team's starters fouled out which proved to be the difference in the game. The girls owned Russell from the field but with Russell's parade to the foul trip, the girls just couldn't compensate. Debbie Bowman led all scorers with 12, Kelly Thomason got 4; Diana Caldwell and Myrtle Pigg got 3 each and Glenna Reams and Cynthia Holbrook, 2 each.

The B-Team then dropped another 3 point decision Monday night at Whitley County with a 29-26 loss. Sheila Burton was high with 13 points and 15 rebounds; Thomason, Caldwell and Bowman all got 2 each while Sandy Clark got 5 and Lisa Deatherage and Kim Farthing both had 1 point.

The girls will host Pulaski County this Thursday night at home for their last regular season game.

LEXINGTON—The Kentucky cheerleaders will be working just as hard as the U.K. basketball team this week in Birmingham, Alabama. The team will be on the court trying to win the Southeastern Conference Tournament. The cheerleaders will be doing all they can to help from the sidelines.

The basketball team hopes to parlay a good showing in Birmingham into a trip to the N.C.A.A. Tournament in either Bowling Green, Kentucky, or Lafayette, Indiana. The cheerleaders are already assured of their journey to the post season classic. The cheerleaders, whose 14 member squad is larger by two than the basketball squad, will be heading for California right after the Birmingham classic. Kentucky will join cheering teams from Memphis State, Indiana State, Ohio State and Florida to compete for the national championship. Those are the five groups that have been judged the best from among the nation's colleges. The competition in California will be taped and shown on CBS Television sometime in April.

Cathy Caudill, a senior from Louisville and the smallest of the U.K. cheerleaders, is the captain of the squad. She likes Kentucky's chance to win the national championship. "Our toughest competition will probably be Ohio State," says Cathy. "I think we've got a real good chance. We're confident."

Cathy says the cheerleading squads will be judged in three categories. The first is the cheering to the school song. This is made up of sharp motion with pom poms. The second category is floor cheering. Kentucky will use a skit they have for "beat Bama." The third category is a four and a half minute dance routine.

The Kentucky cheerleaders demonstrated their routines to the Rupp Arena audience at U.K.'s last home game against Mississippi State. It was a big hit. Those who saw it are as confident as Captain Cathy Caudill that Kentucky has a "real good chance" to win the national championship.

Mrs. Dollie Pillion, owner of Mt. Vernon Dairy Espresso, said her place of business was broken into for the third time in two weeks although nothing was taken this time.

Mrs. Cookie Mason, owner of Cookie's Flower Basket, said her business was entered and some change and three gold rings, valued at \$300 was taken.

And, an employee of James Mullins Texaco Station, said about \$125 was taken from the station. Entry there was gained by breaking out a window in the bay area.

SSI Is Available To Those in Need

People 65 or over, or blind, or disabled, who have little or no income and limited resources, may be eligible for supplemental security income payments, a social security spokesperson said recently.

The idea of the SSI program is to provide monthly checks when they are needed so that people are assured of a basic cash income. Currently, Federal SSI payments can be as much as \$708.20 to an individual and \$312.20 to a couple.

Not everyone gets that amount in his or her SSI check. Some get less because they have other income, while others get more because they live in a State that adds to the Federal payment.

A disabled or blind person can get SSI payments regardless of age. Even young children can get checks if they meet the other requirements.

Eligibility based on blindness or disability depends on the severity of the person's condition.

SSI is not the same as social security, even though the program is run by the Social Security Administration. SSI money comes from general funds of the U.S. Treasury, not from social security taxes.

People who get social security checks can get SSI checks, too, if they are eligible for both.

More information about SSI can be obtained at any social security office. The address and telephone number of the nearest social security office can be found in the telephone directory.

On February 5th, Ceell E. Robinson of Orlando celebrated his 59th birthday and present were his daughter, Mrs. Wanda Faye Vanover of Bryan, Ohio (also celebrating her birthday February 2) who made a surprise visit to his home along with his four granddaughters, Ms. Gwendolyn Paganelli of Cincinnati, Ohio, Miss Shandonn Cole of Bryan, Ohio, Ms. Andrea Sloan of Columbia, Ohio, Miss Megan Vanover of Bryan, Ohio, and his great granddaughter, Tiffany Sloan of Columbia, Ohio. It seems Megan (February 3) and Tiffany (February 17) had the most fun since they were celebrating their very first birthdays and didn't have as many candles to blow out. Uncle Willard Durham of Orlando also attended the party and took this picture.

B-Team Loses

The B-Team also lost but not by quite as big a margin with the final score 55-42.

The B-Team never seemed to be able to get the lead... subsequently were unable to stay with the Patriots in the final minutes of play.

David Burdine led the B-Team in scoring with 13 points; Willie Hiatt got 8; Jeff Stevens, 6; Barry Proctor, 5 and Scott Henderson and Marty Hensley, 4 each.

The Rockets will play their final game of the regular season this Friday night at home against Williamsburg. Game time will be 6:30 p.m.

"INTERVIEW"

(Cont. From 9)

Coach Swift said they should win and Swift feels they have a good shot at the national championship. Included in their list of defeated opponents are four junior college teams this year.

All five starters will be going to college this year on scholarships-4 athletic scholarships and one academic.

Kentucky Afield

By John Wilson

Just because winter seems to be slowly withdrawing, don't assume that all the dangers associated with cold weather are leaving with it. The probability of getting into serious or even fatal trouble while out during in late winter and early spring is as great, if not greater, now than in the dead of winter.

More people will be out fishing, canoeing, or hiking as the days warm. Many of them may not be prepared for sudden changes in the weather. A capsized boat, even on a 70-degree day, may toss a fisherman into 50-degree water, where he can remain conscious for less than half an hour.

Wet clothing (either from a dunking or from a sudden rain) coupled with strong winds can lower the body's internal temperature to dangerous levels, even when air temperatures are in the 50's. Most garment materials (wool is an exception) lose their insulating value when wet. Winds increase evaporation, which has an even further cooling effect on the body.

While this lowering of the body's core temperature (called hypothermia) isn't technically the same as "freezing to death," the results can be just as permanent. A drop of only two degrees from the normal 98.6 degrees can bring on the first symptoms of hypothermia—uncontrolled shivering, followed by loss of mental powers, muscular rigidity, unconsciousness and, if internal temperatures drop below 70 degrees, death.

So be particularly alert during cool-weather outings. Watch for, both in yourself and your companions, shiverings, slurred speech, irrational behavior—

like the sufferer was drugged or drunk—and clumsiness.

The treatment for hypothermia is to reverse the body's heat loss. In mild cases, getting the victim into a warm place (a heated building or a sleeping bag with another person) is generally enough.

In severe cases, however, it's important that the head, shoulders, chest, abdomen and groin be warmed first. If the arms and legs are warmed too rapidly, blood is drawn away from the body's core area and increases internal cooling, called "afterdrop" can send the victim into sometimes fatal shock.

After initial treatment, be sure to seek professional medical aid. Don't rely on the victim's own assessment of his condition—remember that a loss of reasoning power is one of the first effects of hypothermia.

If you're going to be around water at all, wear a personal flotation device. Exposure to cold (below 50 degree) water renders even the strongest swimmer helpless in a matter of minutes. Also keep foul weather gear handy on any outing, along with a change of clothes and matches (in a waterproof container) for starting a fire.

Mr. and Mrs. Farmer Injured in Corbin Accident

Stanley Farmer, co-owner of the local Conventer Food Mart, and his wife were severely injured last Thursday when they were struck by a truck at an intersection on U.S. 25 E., one mile south of Corbin in Laurel County.

According to police reports, the Farmer auto was struck by a Mack truck being driven by John D. Hodges of Payne Gap. Hodges told police that he could not stop at a traffic light which had changed to red and that Farmer pulled into his path. The Farmer auto was knocked 258 feet into a ditch and the truck traveled 351 feet after impact.

Both Mr. and Mrs. Farmer are in the Good Samaritan Hospital in Lexington where they are reported improving.

"BREAK-INS"

(Cont'd from front)

February 25th, Poynter's Grocery in Livingston was entered by breaking a glass and unlocking a door on the south side of the building.

Total loss in the break-in has been set at about \$1,000 and included: 7 Timex watches, a pocket knife, hydraulic jack, a come-along, radio, three pairs of boots, 2 pairs of slippers, sandwich meat, about \$180 in quarters, nickels, dimes and 4 silver quarters, 2 cartons of assorted cigarettes, 16-32 oz. bottles of R.C. Eveready flashlight and battery and 2 Zippo lighters.

Last Tuesday afternoon, State Policeman Jack Lawless investigated a break-in at the Hickory Grove Church on Brindle Ridge. Entry to the church was gained by breaking down the front door.

Taken in the break-in was an amplifier and two speakers valued at approximately \$1,000.

Lawless said the break-in occurred sometime between Sunday and Tuesday.

MORE BREAK-INS

It was learned about noon Wednesday that three more businesses were broken into Tuesday night. All located on Richmond Street.

parking your car in the street between the post office and bank and running inside to check your mail - don't do it anymore.

At Monday night's meeting, city police were instructed to begin ticketing these cars for illegal parking - once with a

warning and the second time by calling a tow truck to haul the car away at the owner's expense.

The other tow-away zone is located between C.C. Cox Hardware and Mt. Vernon Bargain Store.

Following the discussion with the businessmen, the council met with Monroe and R.A. Baker to discuss the purchase of the Baker's building on Main Street (former Idea Cafe Building) which the city intends to demolish and to use the area for additional parking spaces.

Originally, the council voted to purchase the building for \$15,000 less delinquent taxes owed on the property; however, HUD, who had to approve the sale because of the type of funds being used by the city to buy the property, would only approve a purchase price of \$14,900. When the option was drawn up, it was made to read \$15,000 plus delinquent taxes and several councilmen objected to delinquent taxes on the property not having to be paid by the seller.

After some discussion, Mr. Mary McClure, city clerk, reports that, thus far, about \$2,000 has been collected in delinquent taxes over the past several years.

Mrs. McClure said this is about one-half of what is owed the city and those not paid by March 10th will be turned over to the city attorney for collection. "There is always room at the top." Daniel Webster

Councilman Tom Welch made a motion to purchase the building for \$14,900 plus delinquent taxes but this motion died for lack of a second. More discussion followed and Mr. Welch changed his motion to read that the building be purchased for \$14,900 plus delinquent taxes to the city provided the Baker brothers would pay any delinquent taxes owed the county. On the vote, Councilmen Bob Jasper and Conard Parrett both voted no but the motion carried 3-2.

Appalachian Coalition Warns Against Addington Mining Leases

The Appalachian Coalition, an organization concerned with the policies of resource extraction in the Appalachian region, has learned that over 1,000 acres have been leased in Rockcastle County by Adding Oil Company for the purpose of shale oil mining. At the present time, shale oil mining is not covered by any of Kentucky's reclamation laws, and in signing one of these leases, farmers and other landholders are subjecting their land to damages that the oil company is not liable for in any way other than specific crop damage. Mining for shale oil is not the same as retrieving underground oil pools by pumping. Many farmers in this area are familiar with standard oil and gas leases. The lease being used by Addington is in no way similar to a standard oil and gas lease.

provides for the extraction of oil, gas, silver, gold, lead, copper, zinc, shale, oil shale, rocks, soils, rock asphalt, many of which can only be retrieved by strip mining.

The Addington lease, very similar to the broad form deed used in the early 1900's allowing mining for these minerals and other materials by "any conventional method."

Many people signing this lease were not given any information on the mining methods proposed, and many were encouraged to sign it without even reading it. Other farmers and landowners were told that there would be no stripmining and that new underground technology would be used to get the shale oil out.

The lease does, however, allow strip mining, and all verbal assurances to the contrary are basically worthless. Only one of the underground methods of getting the shale out has been tested in the field, all the others are still in the laboratory stage of experimentation. Much of the shale oil deposits lie under prime farmland in those counties which have been most heavily leased, which include Madison, Rockcastle, Casey, Estill, Marion, Nelson and Rowan. To some people who have already signed, the prospect of having their farmland strip mined is a disturbing one, and they wish they could get out of the lease. Others would sign the lease again if they could get rid of the clause which allows strip mining and the great number of minerals that can be mined and the clause which allows the company to lease the minerals forever if it so chooses. Under the provisions of this lease, the oil company can sell the mineral rights to a larger oil company, like Ashland Oil, without the approval of the landowner.

Large scale leasing is likely to affect the property values, as it is often hard to obtain loans on property whose minerals have been leased out. Sammy Ford of Ford Realty in Rockcastle County, said: "from what I know and have read, I wouldn't lease my farm under those conditions", and Madison County Attorney Tom Smith encouraged anyone who owns property to consult with an attorney before signing a deed, lease or mineral lease.

The Kentucky Department of Natural Resources is very concerned with the state of affairs also, and is preparing a legislative proposal which recommends a 2 year moratorium, or ban on shale oil mining in this state.

The State Attorney General's Office in Frankfort has a Division of Consumer Protection which is interested in hearing from anyone who feels that they were given false or misleading information. They cannot do much unless they hear from people who are concerned, so if you feel you have real concern, the procedure to follow is this: write down everything you can remember about the leasing agent telling you before you signed the lease, if he told you it was just an oil and gas lease, that there would be no strip mining and anything that you can remember. Then write down what your understanding was of the lease you were signing. Take this to a Notary Public and have it witnessed and send it to: The Attorney General's Office, Div. of Consumer Protection, Rick Easter, 208 St. Clair St., Frankfort, Ky. 40601.

For more information on how to do this or just what is involved in shale oil mining in Kentucky, call Jan Sutherland at the Appalachian Coalition Office, 758-4127. There may be some help for people who have already signed and are dissatisfied.

Adults to provide rehabilitation services for physically handicapped Kentuckians. H. Randal Adams Named Easter Seal Chairman

H. Randal Adams of Brodhead has been named chairman of the 1980 Easter Seal campaign for crippled children in Rockcastle County. He has served as county chairman since 1978.

The announcement was made by Dr. Harvey Sloan, Louisville, state campaign chairman. The annual appeal will be conducted from March 1 through April 6, Easter Sunday.

Contributions to the annual appeal will be used by the Kentucky Easter Seal Society.

Couples Communication Workshop Planned

On Saturday, March 1, Dr. O'Neal Weeks, professor at the University of Kentucky, will lead an all day workshop for five married couples at the Family Life Center. "The workshop is designed," says Dr. Weeks, "to help couples communicate more effectively. The topics of study will center on 1. sending clear and congruent messages; 2. participative listening; 3. choosing an appropriate style of communication; and 4. enhancing marital esteem through communication. Following each presentation, the couples will have an opportunity to practice the skills in private, applying them to their own particular situation."

"While the communication skills learned in the workshop should help couples improve the issues in which they deal with in their relationship," says Dr. Weeks, "this workshop is not designed to provide therapy for troubled marriages."

Youth Music Festival And Bible Study

The Family Life Center Building (Old Scenic View Motel), north of Renfro Valley on Hwy. 25, will be the setting for a Youth Music Festival and Bible Study to be held Friday, March 7 from 7 to 10 p.m. Recreation includes a film.

The Kentucky Society also supports the National Easter Seal Research Foundation, Dr. Sloane reported. More than 400 grants have been made by the foundation for research investigating the causes and means of preventing crippling and for improving rehabilitation techniques.

"Crippled Children are the reason for Easter Seals." "We are hopeful that they will prompt children in keeping with the Eastern tradition," he continued.

The Ky. Easter Seal Society needs the support of people in counties all over the state because its services are statewide.

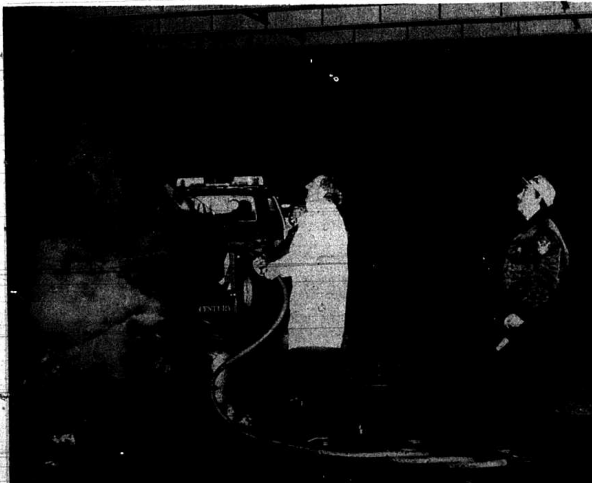

Cancer Memorials

When someone you know dies of cancer, a good way to honor his or her memory is by making a memorial contribution to the American Cancer Society.

The family will be promptly notified of your expression of sympathy, and you will be helping to save other lives because your entire contribution will be used to help finance cancer research.

Memorial envelopes may be obtained from the local funeral home, or from Rockcastle County Joint Memorials Chairperson, Jay Beard, by calling 258-5123. Monday-Friday, 9 a.m. until 5 p.m.

Remember, we want to stamp out cancer in your lifetime.

The Mt. Vernon Fire Department, who only recently were given permission to take the old fire truck beyond the city limits by the City Council, responded to the call early Sunday morning to extinguish the car in which a Michigan couple was

killed and their 12-year-old son critically injured. The car left the interstate, went over the bridge hit an embankment on the Lake Linville Road and exploded. Another son, Lee, 17, was not too severely hurt in the accident.

These four Brodhead youths took advantage of the beautiful day last Friday to get in a few games of basketball on the new court at the Brodhead Fairgrounds. The temperature reached the high 60's before turning severely cold again. In the photo are: Jeff Lear, Toby Mullins, James Kirby and Robert DeBorde.
